

UoA-WiFi wireless setup

For iPhone/iPod/iPad using in-built wireless configuration service

Note: This guide is for use with wireless-enabled iPhones/iPods/iPads, using their in-built wireless configuration service only.

Connecting to UoA-WiFi

First, bring up the device's main menu and select **'Settings'**:

On the 'Settings' menu, select **'Wi-Fi'**:

Next, ensure that your Wi-Fi capability is turned on. If it is not, slide the Wi-Fi switch to the 'On' position. When your Wi-Fi is enabled, a list of available networks should appear. Select the network labeled **'UoA-WiFi'**:

You will be prompted to enter your login credentials. Enter your UoA **NetID** and **Password** into the username and password fields. Then select **'Join'**:

You will then be prompted to accept the security certificate for the network. Select **'Accept'**:

Your device should now finish connecting to the UoA-WiFi network, and you should be able to browse the internet.
