#### Brief Description of Institution

The University of Auckland is New Zealand's leading tertiary institution and largest university. It spans numerous campuses, has the largest university library complex in New Zealand and is the only New Zealand university that has both Engineering and Medical and Health Science faculties. This has enabled pioneering collaborations between medical and engineering researchers and resulted in the creation of the flagship Bioengineering Institute, internationally recognised for its sophisticated computer modelling of living organisms. The University has a wide network of international affiliations and formal agreements with dozens of universities around the world. Staff are appointed from many countries and we attract high quality undergraduate and postgraduate international students to study here, with students from over 100 countries enrolled in most years. We are the only New Zealand member of Universitas 21, the Association of Pacific Rim Universities and Worldwide Universities Network. Through these networks there are many opportunities for staff and students to participate in international exchanges and attend international conferences.
