<i>Thursday 10</i>	Meeting of Works Committee 3.00.
<i>Monday 14</i>	Meeting of Deans Committee 9.30. Meeting of Education Committee 3.30.
<i>Tuesday 15</i>	Meeting of Library Committee 9.15. Meeting of Research Committee 10.00.
<i>Wednesday 16</i>	Meeting of Computer Committee 9.00.
<i>Thursday 17</i>	Meeting of Recreation Sub-Committee 3.30.
<i>Friday 18</i>	Meeting of Audio-Visual Committee 10.00.
<i>Monday 21</i>	Meeting of Academic Committee 9.30. Meeting of Press Committee 2.00. Meeting of Council 4.00.
<i>Wednesday 23</i>	Meeting of Promotions Advisory Committee 9.00.
<i>Thursday 24</i>	Meeting of Leave & Conference Sub-Committee 10.00.
<i>Monday 28</i>	Meeting of Student Welfare Committee 3.30.
<i>Tuesday 29</i>	Meeting of Appointments Committee 9.00. Meeting of Student Union Management Committee 3.00. Meeting of Joint Relations Committee 4.30.
<i>Wednesday 30</i>	Applications close for Admission Ad Eundem Statum by overseas students wishing to enrol for the first time in 1982 in undergraduate courses. Meeting of Promotions Advisory Committee 9.00.

October 1981

<i>Thursday 1</i>	Applications close with the Registrar for Commonwealth (U.K. and Canada), Postgraduate and some Auckland Scholarships. Last day for withdrawal from the Course DipG&O and DipObst for the December examination. Applications close for entry to the course for BHB (for the first time) and for DipPaed for 1982.
<i>Monday 5</i>	Meeting of Finance Committee 3.30
<i>Thursday 8</i>	Meeting of Senate 9.30.
<i>Friday 9</i>	Meeting of Works Committee 3.00.
<i>Monday 12</i>	Lectures end approximately. Meeting of Deans Committee 9.30. Meeting of Education Committee 3.30.
<i>Tuesday 13</i>	Meeting of Research Committee 10.00.
<i>Wednesday 14</i>	Meeting of Computer Committee 9.00.
<i>Thursday 15</i>	Applications close for entry or re-admissions to University to enrol for the first time for MMedSc for 1982. Meeting of Theatre Management Sub-Committee 3.30.
<i>Friday 16</i>	Meeting of Audio-Visual Committee 10.00.
<i>Monday 19</i>	Internal Degree and Diploma Examinations begin this week. Meeting of Academic Committee 9.30. Meeting of Press Committee 2.00. Meeting of Council 4.00.

<i>Tuesday 20</i>	Meeting of Library Committee 9.15.
<i>Thursday 22</i>	Meeting of Joint Relations Committee 4.30.
<i>Friday 23</i>	Meeting of Public Relations & Cultural Activities Committee 3.30.
<i>Monday 26</i>	Engineering lectures end approximately.
<i>Tuesday 27</i>	Labour Day Holiday.
<i>Thursday 29</i>	Meeting of Appointments Committee 9.00.
	Meeting of Leave & Conference Sub-Committee 10.00.
	Meeting of Finance Committee 3.30.
<i>Friday 30</i>	Engineering examinations begin.
<i>Saturday 31</i>	Third Term ends.
	Applications close for some Auckland Scholarships.
	Applications close for entry to the Course for DipEdPsych, DipClinPsych (for the first time).

November 1981

<i>Sunday 1</i>	Applications close for most remaining Auckland Scholarships. Candidates for a Master's Degree must present theses and dissertations by this date except by special permission of Head of Department. DipEd and DipEdPsych candidates must present their original investigations and written reports to the Registrar by this date. Last day for withdrawal from Course for DipPaed. Applications close for accommodation for University Halls of Residence for 1982.
<i>Monday 2</i>	Meeting of Senate 9.30.
<i>Tuesday 3</i>	Meeting of Student Accommodation Committee 3.30.
<i>Thursday 5</i>	Meeting of Student Union Management Committee 3.00.
<i>Monday 9</i>	Meeting of Works Committee 3.00.
	Meeting of Deans Committee 9.30.
<i>Tuesday 10</i>	Meeting of Education Committee 3.30.
<i>Wednesday 11</i>	Meeting of Research Committee 10.00.
<i>Thursday 12</i>	Meeting of Computer Committee 9.00.
<i>Monday 16</i>	Meeting of Recreation Sub-Committee 3.30.
	Meeting of Academic Committee 9.30.
	Meeting of Press Committee 2.00.
	Meeting of Council 4.00.
<i>Thursday 19</i>	Meeting of Leave & Conference Sub-Committee 10.00.
	Meeting of Finance Committee 3.30.
<i>Friday 20</i>	Meeting of Audio-Visual Committee 10.00.
<i>Monday 23</i>	Meeting of Student Welfare Committee 3.30.
<i>Tuesday 24</i>	Meeting of Appointments Committee 9.00.
	Meeting of Student Union Management Committee 3.00.
	Meeting of Joint Relations Committee 4.30.
<i>Thursday 26</i>	Meeting of Works Committee 3.00.
<i>Monday 30</i>	Applications close for entry to BMus (for the first time) and for Music for BA for students taking 28.101, 102, 103 as a three-paper first year course. BMus (Performance) (Honours), DipMus (Honours), MA and MPhil in Music. Applications close for entry to DipGuid.
	Meeting of Senate 9.30.

December 1981

<i>Wednesday 2</i>	Meeting of Deans Committee (Scholarships) 9.30.
<i>Monday 7</i>	Meeting of Deans Committee 9.30.
	Meeting of Education Committee 3.30.
<i>Tuesday 8</i>	Meeting of Research Committee 10.00.
<i>Wednesday 9</i>	Meeting of Computer Committee 9.00.
<i>Monday 14</i>	Meeting of Council 4.00.
<i>Tuesday 15</i>	Last day for withdrawal from the first-year course for MBChB.
	Meeting of Joint Relations Committee 4.30.
<i>Thursday 24</i>	Registry closed.
<i>Friday 25</i>	Christmas Day.
<i>Saturday 26</i>	Boxing Day.

UNIVERSITY PERSONNEL

OFFICERS OF THE UNIVERSITY

Visitor HIS EXCELLENCY THE GOVERNOR-GENERAL

Chancellor R. H. L. FERGUSON, MBChB N.Z., DO Lond., FRCS, FRACS

Pro-Chancellor JENNIFER GIBBS (Mrs), MA N.Z.

Vice-Chancellor C. J. MAIDEN, ME N.Z., DPhil Oxf.

Deputy Vice-Chancellor T. N. M. WATERS, MSc PhD N.Z., DSc, FNZIC, FANZAAS

Registrar W. B. NICOLL, BCom, ACA

THE COUNCIL OF THE UNIVERSITY

G. S. BECA, DFC, BE N.Z., FNZIE, FICE, FIEAust., MASCE
Elected by Graduates (Retires 30-6-81)

PATRICIA R. BERGQUIST, (Mrs), MSc PhD N.Z., DSc
Appointed by Senate (Retires 31-12-81)

M. J. A. BROWN, LLB
Appointed by the Governor-General in Council (Retires 30-6-82)

G. W. A. BUSH, MA N.Z., PhD Brist., DipEd, AILGA
Elected by the Full-Time Lecturers (Retires 31-12-82)

JOAN S. CHAPPLE, MBChB N.Z., FRACS
Elected by Graduates (Retires 30-6-83)

W. H. COOPER, CBE, MA N.Z., Hon. LLD
Appointed by the Council (Retires 31-12-82)

H. H. CRAIG, MBE, MA BSc N.Z.
Elected by the governing bodies of secondary schools within the Auckland University District (Retires 31-12-82)

R. H. L. FERGUSON, MBChB N.Z., DO Lond., FRCS, FRACS (Chancellor)
Appointed by the Governor-General in Council (Retires 30-6-83)

A. M. FINLAY, QC, LL.M N.Z., PhD Lond.
Elected by Graduates (Retires 30-6-83)

JENNIFER GIBBS, (Mrs), MA N.Z.
Appointed by the Governor-General in Council (Retires 30-6-81)

K. J. HOLLYMAN, MA N.Z., DU Paris
Professor of French, appointed by the Senate (Retires 31-1-82)

J. H. INGRAM, BE N.Z., FNZIE, FAIMM, MIMechE.
Appointed by the Council (Retires 31-3-82)

C. M. KAY, JP
Ex officio

A. C. KIBBLEWHITE, MSc N.Z., DIC, PhD Lond., FInstP, FASA
Professor of Geophysics, appointed by the Senate (Retires 31-1-81)

C. J. MAIDEN, ME N.Z., DPhil Oxf., (Vice-Chancellor)
Ex officio

W. K. D. McINTOSH, (President of the Students' Association)
Ex officio

DEIRDRE G. MILNE (Mrs), LLB Well., MA
Elected by Graduates (Retires 30-6-83)

K. SINCLAIR, MA PhD N.Z., LittD.
Professor of History, appointed by the Senate (Retires 31-1-82)

G. D. SPEIGHT (The Hon. Mr Justice), LLB N.Z.
Elected by Graduates (Retires 30-6-81)

T. N. M. WATERS, MSc PhD N.Z., DSc, FNZIC, FANZAAS
Professor of Chemistry, appointed by the Senate (Retires 31-12-82)

A. E. WRIGHT
Appointed by the Students' Association (Retires 30-6-82)

DOROTHY G. WINSTONE, (Mrs), CMG, BA DipEd N.Z.
Elected by Graduates (Retires 30-6-81)

THE SENATE OF THE UNIVERSITY

Chairman: THE VICE-CHANCELLOR

ALL PROFESSORS (and their equivalents)

HEADS OF DEPARTMENTS AND ACTING HEADS OF DEPARTMENTS (sub-professorial).

DEANS (not being members of the professorial-staff).

LIBRARIAN

LIAISON OFFICER

C. H. MACLAURIN

ELECTED MEMBERS OF THE SUB-PROFESSORIAL STAFF (three from the Faculty of Arts; two from the Faculty of Science; one each from the Faculties of Architecture and Town Planning, Commerce, Engineering, Fine Arts, Law, Medicine and Human Biology, Music and from the Centre for Continuing Education).

Faculty of Arts

G. W. A. BUSH (Retires 31-1-82)

L. J. HOLT (Retires 31-1-82)

A. G. ANDERSON (Retires 31-1-83)

Faculty of Architecture and Town Planning

J. R. DART (Retires 31-1-83)

Faculty of Commerce

M. A. PERKINSON (Retires 31-1-82)

Faculty of Engineering

R. M. SHARP (Retires 31-1-82)

Faculty of Fine Arts

D. H. BINNEY (Retires 31-1-83)

Faculty of Law

F. M. BROOKFIELD (Retires 31-1-83)

Faculty of Medicine and Human Biology

A. M. ROBERTON (Retires 31-1-82)

Faculty of Music

G. W. J. DRAKE (Retires 31-1-83)

Faculty of Science

PATRICIA R. BERGQUIST (Retires 31-1-83)

M. D. JOHNS (Retires 31-1-82)

Centre for Continuing Education

A. A. MORRISON (Retires 31-1-83)

FOUR STUDENT MEMBERS (nominated by Auckland University Students' Association).

J. BROAD (Retires 31-10-80)

SUSAN M. COLLIER, (Mrs) (Retires 30-4-81)

J. PALMER (Retires 30-4-81)

P. R. SHEARER (Retires 31-10-80)

DEANS

Dean of the Faculty of Architecture and Town Planning

A. A. WILD, BArch N.Z., RIBA, FNZIA, FRSA

Dean of the Faculty of Arts

P. N. TARLING, MA PhD LittD Camb., FRAS, FRHistS

Deputy Deans of the Faculty of Arts

A. H. McNAUGHTON, MA Calif & N.Z., PhD Calif., DipEd N.Z.

E. P. AIMER, MA N.Z., PhD A.N.U.

I. K. LILLY, MA Cant. & Monash, PhD Wash.

Dean of the Faculty of Commerce

B. D. MURPHY, MA

Deputy Deans of the Faculty of Commerce

M. S. PUTTERILL, MBA PhD Cape T., CA, FCMA

J. C. ELMSLY, MA N.Z., MNZPS

Dean of the Faculty of Engineering

R. F. MEYER, BE N.Z., PhD Manc., FCASI, MAIAA, FNZIE

*Associate Dean of the Faculty of Engineering**Dean of the Faculty of Fine Arts*

J. D. SAUNDERS, DipFA N.Z., MSIA, DipIndustDesign, NDD, FNZSID, FRSA

Sub Dean of the Faculty of Fine Arts

R. W. ELLIS, ARCA, RBA, MNZSSP, FRSA

Dean of the Faculty of Law

J. F. NORTHEY, BA LLM N.Z., DJur Tor., LLD

Sub Deans of the Faculty of Law

W. C. HODGE, AB Harv., JD Stan.

D. W. McMORLAND, PhD Camb., LLM

Dean of the Faculty of Medicine and Human Biology

D. S. COLE, BMedSc MBChB N.Z., FRCS, FRACS

Deputy Dean of the Faculty of Medicine and Human Biology

C. H. MACLAURIN, MBChB N.Z., FRCS, FRACS

Dean of the Faculty of Music

P. D. H. GODFREY, MA MusB Camb., Hon FRSCM, FRCO, ARCM

Dean of the Faculty of Science

A. C. KIBBLEWHITE, MSc N.Z., DIC PhD Lond., FInstP, FASA

Deputy Deans of the Faculty of Science

M. J. J. LENNON, PhD M.I.T., MSc

R. GEDDES, BSc PhD Edin.

UNIVERSITY STAFF

Dates given are dates of taking up full-time appointment. Where Degrees and Diplomas are shown without the name of the awarding university, the university is Auckland. List prepared 1-11-80.

* Denotes a part-time permanent appointment.

ACCOUNTANCY

Professor, Head of Department

1960 J. B. TABB, BCom N.Z., PhD Sheff., MCom, FCA

Professor

.....
Associate-Professors

1958 J. E. FIELD, MCom N.Z., ACA, CMA

1965 W. L. FARRANDS, BCom LLB N.Z., LLM, ACA

1968-71, 1975 D. M. EMANUEL, MCom, ACA

1978 M. S. PUTTERILL, MBA PhD Cape T., CA, FCMA

Senior Lecturers

1969 G. L. D. MORRIS, BCom BCA Well.

1971 I. G. EAGLES, BA LLB Q'ld., LLM

1971 P. J. VENTURI, ACA, CMA, FCCA, ACMA, ACIS

1971 M. A. PERKINSON, MCom, ACA

1973 SALLY B. WALL, (Mrs), BCom N.Z., ACA, ACIS, CMA

1973 ANNE WEBB, (Mrs), LLB Nott.

1976 A. M. FAIRFIELD, MCom, ACA

1977 C. R. BEAVEN, MCom LLB, ACA, ACIS

1977 I. C. STEWART, BCA Well., PhD N.E., MCom, ACA (on leave)

1975 G. A. HARRIS, LLB MJur

1976 PAULETTE A. JAY, (Mrs), BSc Penn., MCom, CPA, ACA (on leave)

Lecturers

1979 ELIZABETH M. HICKEY, MCom, ACA, ACIS

1979 JOHANNA C. VROEGOP, LLB

1979 CATHERINE L. WATSON, LLM

1979 T. D. WISE, BCom Cant., MCom, ACA, CMA

Senior Tutors

1973 C. B. FRANKHAM, BCom N.Z., MCom, ACA

1977 J. B. STEVENSON, BA N.Z., MCom P.N.G., ACA

Tutor in Accounting

1979 KATHRYN G. CAIRD, (Mrs), BSc Otago, BCom

ANATOMY, *see* Medicine and Human Biology

ANCIENT HISTORY, *see* Classics

ANTHROPOLOGY

Professor of Prehistory, Head of Department

1961-66, 1973 R. C. GREEN, BA BSc New Mexico, PhD Harv., FRSNZ

Professor of Social Anthropology

1958-67, 1973 R. N. H. BULMER, MA Camb., PhD A.N.U.

Professor of Maori Studies and Oceanic Linguistics

1952 B. G. BIGGS, MA N.Z., PhD Indiana, FRSNZ

Associate-Professor of Ethnomusicology

1973 M. E. McLEAN, MA N.Z., PhD Otago

Associate-Professor of Social Anthropology

1966 A. B. HOOPER, MA N.Z., PhD Harv.

Associate-Professor of Linguistics

1965 A. K. PAWLEY, BA N.Z., MA PhD

Senior Lecturers in Social Anthropology

1972 NANCY E. BOWERS, BS PhD Col.

1973 JUDITH W. HUNTSMAN, AB PhD Bryn Mawr, MA Brown (on leave)

1972 M. R. RIMOLDI, BA DipAnth Syd., PhD A.N.U. (on leave)

1973 M. ANNE SALMOND, MA PhD Penn.

1972 S. S. WEBSTER, BA Minn., PhD Wash.

1976 G. A. ROGERS, BA Otago, MA PhD

Senior Lecturers in Prehistory

1970 R. J. S. CASSELS, MA Camb.

1973 H. R. ALLEN, BA Syd., PhD A.N.U.

1975 G. J. IRWIN, PhD A.N.U., MA

Senior Lecturer in Maori Studies

1965 P. W. HOHEPA, MA N.Z., PhD Indiana (jtly with Centre for Cont. Ed.)

Senior Lecturer in Linguistics

1973 D. R. CLARK, BA Br. Col., PhD Calif.

Lecturer in Social Anthropology

1980 K. S. CHAMBERS, BA Hawaii, MA Calif.

Lecturer in Physical Anthropology

1980 G. G. TUNNELL, BS W. Texas State, MA PhD Colorado

Lecturer in Maori Language

1966 MERIMERI PENFOLD, (Mrs), BA

University Post-Doctoral Fellows

O. E. PLUMMER, MA Flor., PhD Calif.

F. LICHTENBERK, MA Tor., PhD Hawaii

Honorary Research Fellows

ANNE F. V. CHAMBERS, (Mrs), MA Calif.

JULIE PARK, MA PhD Otago

Visiting Teaching Fellow

G. M. PAUL, BSocSc Waik.

ARCHITECTURE

Professor, Head of Department

1969 A. A. WILD, BArch N.Z., RIBA, FNZIA, FRSA

Professor, Architectural Design

1964 P. J. BARTLETT, BArch N.Z., PhD, RIBA, FNZIA, FRSA

Professor

1961-66, 1973 A. H. MARSHALL, BArch BSc N.Z., PhD S'ton, RIBA, FNZIA, MASA

Associate-Professors

1959 E. C. McCLEAN, BArch N.Z., March, RIBA, ANZIA, MRSH, FRSA

1959 G. SMITH, BArch N.Z., FNZIA

Senior Lecturers

1964 I. E. GEORGE, BArch N.Z., March Calif., RIBA, ANZIA

1967 A. L. MITCHENER, DipArch, RIBA, ANZIA

1967 M. R. AUSTIN, BArch N.Z., PhD, ANZIA

1969 C. W. MEGSON, March, RIBA, ANZIA

1969 A. N. J. GOLDWATER, BArch N.Z., ANZIA

1970 D. G. STEVENS, BE N.Z., CEng, FICE, FNZIE, Hon. ANZIA

1970 J. D. DICKSON, BArch PhD

1972 D. J. MITCHELL, BArch

1973 R. J. W. GRANWAL, ME, MNZIE

1974 G. DODD, BSc R'dg., MSc(Eng) PhD S'ton. (on leave)

1979 K. J. MORROW, FDipArch R.M.I.T.

Senior Lecturer in Valuation

1977 P. M. BROWN, BEc W.Aust., DipVPM Cant., DipAgr S.A.I.T., FAIV, ANZIV

Lecturers

1979 M. P. T. LINZEY, BE Cant., ME MIEAust., AAIB

1979 H. B. WILLEY, MA PhD Camb., BArch MSc

1979 C. A. BIRD, MA DipUD Oxf. Pol., BArch

1979 J. G. HUNT, BArch, PhD, ANZIA

Lecturer in Valuation

1979 R. A. BELL, DipSurv Lond., DipUrbVal, ARICS, MPMI

Lecturers, part-time

W. K. S. CHRISTIANSEN, FRICS, MPMI, FRSH

A. M. R. DEAN, ARICS, ANZIQS, FCIarb

*P. J. HANLY, MNZSSP

*D. J. M. MASON, BA LLB

*S. SPEEDY JP, BCom N.Z., MPhil, FCA, FNZIV, FCIS

ART HISTORY

Professor, Head of Department

1969 A. S. G. GREEN, MA Camb., PhD Edin., DipHistArt Lond.

Senior Lecturers

1970 M. R. DUNN, DipFA Cant. & Auck., MA Melb.

1971 A. J. WRIGHT, MA Edin.

1969-71, 1975 ELIZABETH E. EASTMOND, MA Edin.

1973 L. B. BELL, DipArtHist Edin., BA

Lecturers

1974 I. B. BUCHANAN, BA Manc., MA Essex.

1977 ROBIN L. WOODWARD, PhD Edin., MA

ASIAN LANGUAGES AND LITERATURES

Professor, Head of Department

Senior Lecturers in Chinese

1967 MARGARET T. S. SOUTH, BA Syd., PhD A.N.U. (on leave)

1970 TI-HOU-HAN, (Miss), BA Yenching, MA H.K.

Senior Lecturers in Indonesian

1968 J. B. KWEE, BA Lond., PhD

1974 E. O. van REIJN, Drs Ley.

Lecturer in Chinese

1981 P. M. HARRISON, PhD A.N.U., MA

Lecturer in Indonesian

1978 P. L. THOMAS, BA Oregon, MA PhD Wash.

Senior Lecturers in Japanese

1970 SETSUKO ITO, (Miss), MA Doshisha, MPhil PhD Lond.

1972 T. TAKAGAKI, BA Wakayma, MA San Francisco State (on leave)

1973 T. AKIMA, MA Waseda

Lecturer in Japanese

1979 K. G. HENSHALL, BA Lond., PhD Syd., DipEd Adel.

BIBLICAL HISTORY AND LITERATURE, see Classics

BIOCHEMISTRY

Professor, Head of Department

1974 A. G. C. RENWICK, MA Camb., MDChB PhD Edin., MRCPPath, FRSC

Associate-Professor

1970 E. MOUSTAFA, MSc Cairo, PhD Camb., FNZIC (on leave)

Senior Lecturers

- 1969 A.M. ROBERTON, BSc Otago, DPhil Oxf.
 1970 R. GEDDES, BSc PhD Edin.
 1973 G. J. LEES, BSc PhD Melb. (Seconded to Dept. of Psychiatry until 5-9-81)
 1977 G.E. CHAPMAN, MA DPhil Oxf. (Biochemist, Nat. Hormone Lab.)
 1974 P. N. BARLING, BA Oxf., PhD Lond., (on leave)
 1976 G.K. SCOTT, BSc Manc., PhD Edin.

Lecturers

- 1977 T. BRITAIN, BSc PhD E. Anglia, MRIC (on leave)
 1981 G. C. GILLARD, BSc PhD Wales

Honorary Lecturer

- 1978 R. N. JOHNSON, BSc PhD Brist.

BOTANY*Professor, Head of Department*

- 1976 P. H. LOVELL, BSc PhD Sheff.

Professor of Plant Pathology

- 1966 F. J. HEWHOOK, MSc N.Z., DIC, PhD Lond., FRSA

Honorary Professor

- 1972 E. G. BOLLARD, BSc N.Z., PhD Camb., FRSNZ

Associate Professors

- 1951 J. A. RATTENBURY, MA Br. Col., PhD Calif.
 1956 J. M. A. BROWN, BSc PhD Durh.

Senior Lecturers

- 1969 J. B. CORBIN, MSc(Agr) Syd., PhD Calif. MAIAS (on leave)
 1966 F. I. DROMGOOLE, BSc N.Z., MSc PhD.
 1972 L. C. W. JENSEN, AB Brown, MSc PhD Minn.
 1979 J. OGDEN, MSc PhD Wales
 1969 J. E. BRAGGINS, MSc Well., PhD

Senior Lecturer, part-time

- 1972 BARBARA P. SEGEDIN, (Mrs), MSc N.Z., PhD Camb.

Lecturer

- 1977 N. D. MITCHELL, BA Oxf., MSc Wales, PhD N'cle. (U.K.)

Senior Tutor

- G. MARIE TAYLOR, (Mrs), MSc Well.

Honorary Lecturers

- R. E. BEEVER, PhD Leeds, MSc
 R. L. BIELESKI, MSc N.Z., PhD Syd., FRSNZ
 A. R. FERGUSON, MSc Well., PhD
 F. H. WOOD, MAgSc Massey, PhD Cant.
 J. M. YOUNG, MSc Cant., PhD Aberd.

Honorary Research Fellow

- L. H. MILLENER, MSc N.Z., PhD Camb., FRNZIH

CELL BIOLOGY*Professor, Head of Department*

- 1964 P. L. BERGQUIST, MSc PhD N.Z., FRSNZ

Professors

- 1962 R. E. F. MATTHEWS, MSc N.Z., PhD ScD Camb., FRS, FNZIC, FRSNZ
 1963 R. K. RALPH, MSc N.Z., PhD DSc N.S.W., MNZIC

Associate-Professors

- 1969 S. BULLIVANT, PhD DSc Lond.
 1968 A. R. BELLAMY, BSc N.Z., MSc PhD

Senior Lecturer in Genetics

- 1978 H. E. D. LANE, BSc PhD Otago

University Post-Doctoral Fellow

- J. B. SMART, BSc PhD Massey

MRC Career Fellow

1971 J. MARBROOK, MSc PhD

Cancer Society Senior Research Fellow

1968 B. C. BAGULEY, MSc PhD

CHEMICAL AND MATERIALS ENGINEERING, see Engineering**CHEMISTRY***Professor, Head of Department*

1958-66, 1968 D. HALL, MSc PhD N.Z., DSc, FNZIC, FRSNZ

Professors

1968 P. B. D. de la MARE, MSc N.Z., PhD DSc Lond., FRIC, FNZIC, FRSNZ

1958 R. C. CAMBIE, MSc PhD N.Z., DPhil Oxf., DSc, FNZIC, FRSNZ (on leave)

1944 A. L. ODELL, MSc N.Z., PhD Lond., DSc, FNZIC

1960 T. N. M. WATERS, MSc PhD N.Z., DSc, FNZIC, FANZAAS

1962 B. R. DAVIS, MSc PhD N.Z., DPhil Oxf., DSc, FNZIC

Associate-Professors

1961 G. A. WRIGHT, MSc N.Z., DPhil Oxf., FNZIC

1958 CHARMIAN J. O'CONNOR, (Mrs), MSc N.Z., PhD DSc, FNZIC

1963 F. J. B. AGGETT, MSc PhD N.Z., FNZIC

1966 W. R. ROPER, MSc N.Z., PhD Cant., MNZIC

1961 JOYCE M. WATERS, (Mrs), MSc PhD N.Z., FNZIC

1967 P. S. RUTLEDGE, MSc PhD N.Z., FNZIC

1968 D. J. McLENNAN, BSc N.Z., MSc PhD Well., DSc, FNZIC

1962 J. E. PACKER, MSc N.Z., PhD Lond., FNZIC

Senior Lecturers

1948 H. MASLEN, MSc N.Z., PhD, MNZIC

1955 T. A. TURNEY, MSc N.Z., MNZIC

1958 B. E. SWEDLUND, MSc N.Z., PhD Lond., FNZIC

1965 B. A. GRIGOR, MSc N.Z., PhD Leic., MNZIC

1966 M. J. TAYLOR, MA DPhil, Oxf., FNZIC

1966 A. J. EASTEAL, MSc N.Z., PhD Tas., MNZIC, ARACI (on leave)

1966 D. J. SPEDDING, MSc PhD Well., MNZIC

1968 C. E. F. RICKARD, BSc N.Z., MSc PhD, MNZIC

1968 G. A. BOWMAKER, BSc PhD Syd., MNZIC, ARACI

1969 D. SHOOTER, MSc PhD, MNZIC

1970 G. R. CLARK, MSc PhD, MNZIC

1971 P. D. WOODGATE, MSc PhD, FNZIC

1978 P. D. W. BOYD, BSc Tas., PhD Monash, ARACI

Senior Lecturer, Physico-Chemistry

1960 G. R. WHITE, MSc N.Z., MNZIC

CIVIL ENGINEERING, see Engineering**CLASSICS AND ANCIENT HISTORY***Professor of Classics and Ancient History, Head of Department*

1969 W. K. LACEY, MA Camb.

Associate-Professor

1970 J. R. HAMILTON, MA Edin. & Camb.

Senior Lecturers

1960 R. G. COWLIN, MA Camb.

1963 W. F. RICHARDSON, MA N.Z. & Camb., BD Otago, PhD

1974 D. S. COLE, BMedSc MBChB N.Z., FRCS, FRACS

Deputy Dean

1975 C. H. MACLAURIN, MB ChB N.Z., FRCS, FRACS

Clinical Sub Dean

1973 G. L. GLASGOW, BMedSc MBChB N.Z., FRCP, FRACP

BHB Sub Dean

1978 D. M. PATON, MBChB Cape T., MD Wits, FIBiol, FRCPCan

ANATOMY*Professor, Head of Department*

1968 J. B. CARMAN, BMedSc MBChB N.Z., DPhil Oxf.

Auckland Savings Bank Professor of Radiology

1976 C. J. ALEXANDER, MBChB N.Z., MD Otago, HonFRCS, FRACR, HonFACR

Associate-Professor in Reproductive Biology (jty with Dept of Physiol)

1969 D. P. BOSHIER, MSc N.Z., PhD Brown

Senior Lecturer

1976 D. D. SAMARASINGHE, MBBS Ceyl., PhD Lond.

1976 M. J. MERRILEES, BSc Otago, PhD Tor.

1978 R. L. M. FAULL, BMedSc MBChB Otago, PhD

Senior Lecturer in Radiology

1979 G. A. FOOTE, MBChB Otago, MRACR

Senior Lecturer, part-time

1973 CYNTHIA G. JENSEN, AB Brown, PhD Minn.

Lecturers

1975 A. M. F. REEVE, MBChB Otago (on leave)

1978 D. R. ENSOR, BVSc Massey, PhD

Research Fellow

R. J. K. BAKER, MA

BIOCHEMISTRY, see Biochemistry**COMMUNITY HEALTH***Professor of Human Genetics and Community Health, Head of Department*

1973 A. M. O. VEALE, MBChB BSc N.Z., PhD Lond., FRACP MCCMNZ

Associate-Professors of General Practice

1973 J. G. RICHARDS, MBChB N.Z., FRCGP, FRNZCGP, FRCPEd, FRACP

1977 S. R. WEST, MBChB DipObst N.Z., FRCGP, FRNZCGP, MCCMNZ

Senior Lecturers

1976 P. B. DAVIS, BA S'ion, MSc Lond.

1972 F. C. DONNELLY (Fr), DipReligEd Brussels, DipEd N.Z., MA PhD DipCrim

*1972 R. B. HUNTON, MBChB N.Z., DTM & H Liv., MRCP, MRCPEd, FRACP

Senior Lecturer in Epidemiology

1979 R. BEAGLEHOLE, MDChB Otago, MSc Lond., MRCP, FRACP, MCCMNZ

Lecturer in Biostatistics

1978 P. R. MULLINS, MSc

Senior Research Fellows

T. E. KJELLSTROM, MME R.I.T., MD Karolinska I., Stockholm MNZIC

I. C. T. LYON, MSc Well., PhD Otago, MAACB

Research Fellow

M. I. PARSLOW, BSc Well.

Executive Director Alcohol Research Unit

SALLY CASSWELL, BA Sheff., PhD Otago

MEDICINE, The Department of*Professor, Head of Department*

1973 P. J. SCOTT, BMedSc MBChB N.Z., MD Birm, FRCP, FRACP

Professor of Medicine

1968 J. D. K. NORTH, MBChB N.Z., DPhil Oxf., FRCP, FRACP

Professor of Endocrinology

1970 H. K. IBBERTSON, MBChB N.Z., FRCP, FRACP (on leave)

Associate-Professors

1971 C. TASMAN-JONES, BSc MBChB N.Z., FRCP, FRACP

1979 W. F. LUBBE, MBChB MDCape T., FCP(SA), FRACP, FACC

Associate Professor in Immunology

1972 J. D. WILSON, MBChB N.Z., PhD Lond., FRACP, FRCPA (on leave)

Senior Lecturers

1971 D. J. SCOTT, BMedSc MBChB N.Z., MRCP, FRACP (on leave)

1973 D. E. RICHMOND, MBChB N.Z., MD Otago, MRCP, FRACP, DipABIM (Seconded to the Royal Australasian College of Physicians)

1978 D. N. SHARPE, MBChB Otago, FRACP DipABIM, DipABCVD, FACC
 1978 I. K. SIMPSON, MBChB Otago, FRACP
 1980 E. W. WILLOUGHBY, MBChB Otago, FRACP
MRC Career Fellow
 1969 PHILIPPA M. WIGGINS, MSc N.Z., PhD Lond.
Merck Sharp & Dohme Fellow in Clinical Medicine
 P. L. J. TAN, MBBS Sing.
MRC Repatriation Fellow
 S. P. LEE, MBBS H.K., PhD, FRACP

OBSTETRICS & GYNAECOLOGY, Incorporating the Postgraduate School of Obstetrics and Gynaecology

Professor, Head of Department and Postgraduate School
 1964, D. G. BONHAM, OBE, MA MBBChir Camb., FRCS, FRACS, FRCOG
Professor in Obstetrics and Gynaecology
 1973 C. D. MANTELL, BMedSc MBChB Otago, MRCOG
Professor in Perinatal Physiology
 1959 SIR WILLIAM LILEY, KCMG, BMedSc MBChB N.Z., PhD A.N.U., Hon. DSc Well.
 DipObst, FRSNZ, FRCOG, HonFACOG
Professor in Obstetric and Gynaecological Endocrinology
 1962 G. C. LIGGINS, MBChB N.Z., PhD, FRCSEd, FRACS, FRCOG, FRS, FRSNZ (on leave)
Associate-Professors
 1956 G. H. GREEN, BA BSc MBChB N.Z., FRCOG
 1969 J. T. FRANCE, MSc N.Z., PhD, MNZIC FAACB
Senior Lecturers
 1978 F. M. GRAHAM, MBBS Lond., LRCP, FRCSEd, MRCOG
 1978 J. D. HUTTON, MBChB Otago, PhD Lond., MRCOG
MRC Senior Research Fellows
 W. B. WATKINS, MSc PhD
 S. J. M. SKINNER BSc PhD S'ton.

PAEDIATRICS

Professor, Head of Department
 1979 J. C. DOWER, AB MD Johns H.
Research Professor in Child Health
 1970 R. B. ELLIOTT, MDBS Adel., FRACP
Associate-Professors
 1971 J. M. COSTELLO, MBChB N.Z., FRCP, FRACP
 1972 R. N. HOWIE, MBChB N.Z., FRACP
Senior Lecturer
 1976 M. C. MORRIS, MBChB N.Z., FRACP, FRCPCan.
Senior Lecturer in Neonatal Paediatrics
 1976 S. R. WEALTHALL, MDChB Sheff.
Lecturer

Senior Research Fellow
 P. D. GLUCKMAN, MBChB Otago, MMedSc

PATHOLOGY

Professor, Head of Department
 1969 P. B. HERDSON, BMedSc MBChB N.Z., PhD Northwestern, FRCPA
Professor, Experimental Pathology
 1970 J. B. GAVIN, BDS N.Z., PhD DDS Otago

Professor, Microbiology

1980 J. D. WATSON, BSc MSc PhD

Honorary Professor

1979 B. F. CAIN, MSc PhD N.Z., DPhil Oxf., FNZIC, FRSNZ

Associate-Professor, Anatomical Pathology

1970 J. F. ARTHUR, MD BS Lond., FRCPath

Associate-Professor, Haematology

1971 J. G. BUCHANAN, BMedSc MBChB N.Z., FRCPEd., FRACP, FRCPath, FRCPA

Associate-Professor, Forensic Medicine

1975 F. J. CAIRNS, MDChB N.Z., FRCPath, FRCPA

*Associate-Professor, Chemical Pathology**Associate-Professor, Oncology*

1976 J. C. PROBERT, MA MBChB Oxf., DMRT Lond., FRCR, MRACR, DipAmerBdRad.

Senior Lecturer, Microbiology

1971 D. A. BREMNER, MBChB N.Z., FRCPA

Senior Lecturer, Anatomical Pathology

1978 BETH J. L. SYNEK, MBChB Otago, FRCPA

Senior Lecturer, Forensic Medicine

1978 W. M. I. SMEETON, MBChB Otago, FRCPA (on leave)

*Senior Lecturers, Anatomic & Forensic Pathology**Lecturer in Haematology**Lecturer, Microbiology*

1980 P. N. GOLDWATER, BSc Sur., MBBS Lond., FRCPA

Senior Research Fellow

R. N. SEELYE, MSc N.Z., DPhil Oxf.

Research Fellow

LOIS C. ARMIGER, BSc N.Z., MSc PhD

PHARMACOLOGY and CLINICAL PHARMACOLOGY*Professor, Head of Department*

1978 D. M. PATON, MBChB Cape T., MD Witw., FIBiol, FRCPCan.

Associate Professor

1980 K. M. TAYLOR, MPharm PhD Otago, ANZIC

Associate-Professor in Clinical Pharmacology and Therapeutics

1977 G. S. M. KELLAWAY, MDChB N.Z., FRCP, FRCPEd, FRACP

Associate-Professor of Anaesthesia

1978 R. A. BOAS, MBChB N.Z., FFARACS

Honorary Associate Professor

1980 R. M. NORRIS, MBChB N.Z., MD Birm., FRCP, FRACP

*Senior Lecturers**Lecturer*

1979 SHEILA A. DOGGRELL, BSc PhD S'ton

Research Fellow

J. W. PAXTON, BSc PhD Glas.

MRC Post-Doctoral Fellow

J. W. VILLIGER, BSc PhD Otago

PHYSIOLOGY*Professor, Head of Department*

1968 J. D. SINCLAIR, MDChB BMedSc N.Z., FRACP

Associate-Professor

1969 R. O. FARRELLY, MSc MBChB N.Z. FRCPA

CONFERRING OF DEGREES AND ACADEMIC DRESS REGULATIONS

1. Every Degree and every Diploma of the University shall be conferred or awarded in pursuance of a resolution of the Council in that behalf and at a meeting of the Council by the Chancellor or if he is absent from New Zealand or incapacitated by sickness or otherwise then by the Vice-Chancellor.

2. Every recipient of a Degree shall receive a certificate in appropriate form, under the Common Seal of the University, that his degree has been conferred and stating the class of honours (if any) awarded to him.

3. Every Diploma shall be in appropriate form under the Common Seal of the University.

4. In May of each year the Council shall meet in Convocation of the University for a ceremony of conferring Degrees and awarding Diplomas. Any person desiring to have his Degree conferred, or his Diploma awarded (whether in person or in absentia) at such a ceremony shall give notice of his desire to the Registrar not later than 10 April in the year of the ceremony.

5. The form of words to be used by the Chancellor (or Vice-Chancellor) in conferring a Degree shall be as follows

'By authority vested in me as Chancellor (or Vice-Chancellor) I now proceed to confer the Degrees stated upon those who, within their several Faculties, have satisfied the requirements of this University.'

6. The form of words to be used by the Chancellor (or Vice-Chancellor) in awarding a Diploma shall with the necessary changes be the same as for the conferring of a Degree.

7. The regulations for academic dress shall be as follows.

(a) Graduates must appear at all public ceremonies of the University in the academic costume proper to their degree, but doctors may on special occasions wear a scarlet gown and graduates admitted Ad Eundem Statum may wear the academic costume of their own University. Unless the holder of a diploma is also a graduate, the only academic dress he may wear is an undergraduate gown.

(b) The robe for the Chancellor of the University is a blue damask gown with facings of gold lace, bearing on each shoulder the coat of arms of the University. The cap is a black velvet trencher with gold lace and tassel.

The robe for the Pro-Chancellor is a black silk gown with facings of blue silk and gold lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with gold tassel. The robe for the Vice-Chancellor is a blue silk gown with facings of silver lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with silver lace and tassel.

The robe for the Registrar is a gown of black silk with facings of blue silk, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with black silk tassel.

(c) The gown for a Bachelor's degree is as for the Cambridge Bachelor of Arts. The gown for a Master's degree is as for the Cambridge Master of Arts. The hood for every degree is the size and shape as for the Cambridge Master of Arts. The hood for a Bachelor's degree is lined with coloured silk and bordered with white fur. The hood for a Master's degree is lined with coloured silk only.

The colours of the linings of the hoods for the Bachelors' and Masters' degrees are as follows:

Architecture.....	lemon (BCC 111 primrose)
Arts.....	pink (BCC 32 rosepink)
Commerce.....	orange (BCC 57 spectrum orange)
Engineering.....	violet (BCC 179 violet)
Fine Arts.....	gold (BCC 114 gold)
Laws.....	light blue (BCC 194 pompadour)

Medicine

BHB.....	lilac (BCC 228 mayflower lilac)
MBChB, MMedSc.....	crimson (BCC 240 medici crimson)
Music.....	white (BCC 1 white)
Science.....	dark blue (BCC 87 empire blue)
Town Planning.....	light green (BCC 171 chartreuse green)

(d) The gown for the degree of Doctor of Philosophy is as for the Cambridge Master of Arts with the addition of facings four inches wide of scarlet satin (3in-BCC 209 post office red) edged with gold satin (1in-BCC 114 gold). The hood is made wholly of scarlet silk.

(e) The gown for a Doctor's degree other than that of Doctor of Philosophy is as for the Cambridge Master of Arts but it is made of black silk or of scarlet silk or cloth. The hood is made wholly of silk and is of the following colours for the different degrees:

Laws.....	light blue (BCC 194 pompadour)
Literature.....	pink (BCC 32 rosepink)
Music.....	white (BCC 1 white)
Science.....	dark blue (BCC 87 empire blue)

(f) The cap for all graduates other than Doctors and the officers of the University is a black trencher with a tassel.

(g) The cap for all Doctors other than the officers of the University is as for the full dress Cambridge Doctor of Philosophy, namely a round black velvet bonnet with a gold cord around the crown ending in tassels.

Notes: (1) The colour of the lining of the hood for the Degree of Master of Philosophy is that of the Faculty in which the Degree is taken.

(2) Number references are from the British Colour Council Dictionary of Colour Standards. Approximate colours in the substitute material satin may be seen on a chart at the inquiry counter at the Registry.

(3) Satin or taffeta is frequently used as a substitute material for silk which is not always obtainable.

AWARD OF HONORARY DEGREES

Clause 19 (3) of the University of Auckland Act 1961 gives Council power to confer any degree as an honorary degree in accordance with such conditions as it may prescribe:

Provided that no honorary degree shall be conferred on any person by the Council unless that person has been recommended therefor by a joint committee of the Council and the Senate set up in accordance with the Statutes or Regulations of the University. Pursuant to the above clause of the Act, Council has drawn up regulations and set up an Honorary Degrees Committee for the conferment of the following honorary degrees.

Doctor of Laws
 Doctor of Science
 Doctor of Literature
 Doctor of Music
 Any Master's Degree

Information regarding the procedure and criteria for the nomination of a candidate for one of the above honorary degrees may be obtained from either the Vice-Chancellor or the Registrar.

MATRICULATION REGULATIONS

1. To matriculate a student must have been granted

- (a) (i) The University Entrance qualification by the Universities Entrance Board either by accrediting or examination; or (ii) admission by the Universities Entrance Board at the standard of the University Entrance examination; or (iii) admission under the provisions of the admission Ad Eundem Statum Regulations; or (iv) admission under the provisions of the Provisional and Special Admission Regulations; and
 (b) a place at the University.

2. No person shall be eligible to matriculate

- (a) while enrolled for full-time instruction in a secondary school, combined school or registered private, secondary, or technical school; and
 (b) unless he has attained the age of sixteen years by 31 December in the year preceding his application for matriculation, provided that the Senate may in exceptional circumstances permit a person who has not attained that age to matriculate.

Matriculation Declaration

3. Every student shall upon entering the University make the following declaration "I do solemnly promise that I will faithfully obey the Statutes and Regulations of the University of Auckland so far as they apply to me."

4. (a) All students, other than those enrolled for the Diploma in Gynaecology and Obstetrics, the Diploma in Obstetrics and the Diploma in Paediatrics, shall complete the matriculation declaration not later than 31 March or such later date that Senate approves in the year in which they enrol.

(b) A student who enrolls for the Diploma in Gynaecology and Obstetrics and who is required to matriculate, shall complete the matriculation declaration not later than (i) 31 March for the June examination, (ii) 30 September for the December examination, or such later date that Senate approves in the year in which he enrolls.

(c) A student who enrolls for the Diploma in Obstetrics and who is required to matriculate, shall complete the matriculation declaration not later than (i) 31 May for the August examination, (ii) 30 November for the March examination in the following year, or such later date that Senate approves in the year in which he enrolls.

(d) A student who enrolls for the Diploma in Paediatrics, and who is required to matriculate, shall complete the matriculation declaration not later than 31 October or such later date that Senate approves in the year in which he enrolls.

PROVISIONAL ADMISSION AND SPECIAL ADMISSION REGULATIONS

Subject to the provisions of the University of Auckland Act 1961, S. 24, and to the provisions of these regulations any candidate who is not otherwise qualified for admission to the University may be granted provisional or special admission to courses for degrees, diplomas, professional qualifications, or certificates.

Provisional Admission

1. A candidate who has attained the age of twenty-one years by 31 December in the year preceding that for which application is made may be granted provisional admission to a Course of Study for a degree, diploma, professional qualification, or certificate provided that this minimum age requirement may be waived where the candidate is otherwise eligible to be granted admission to a Course on the basis of any of the following qualifications.

(a) the New Zealand Certificate in Building;

(b) the New Zealand Certificate in Draughting (Architecture);

(c) the New Zealand Certificate in Draughting (Town and Country Planning);

(d) the New Zealand Certificate in Engineering;

(e) the New Zealand Certificate in Quantity Surveying;

(f) the New Zealand Certificate in Science;

(g) the New Zealand Certificate in Town Planning;

(h) two years of study at a Teaching College and the attainment of a standard considered satisfactory by the Senate.

2. As long as a candidate's admission remains provisional he may enrol only for papers or subjects of the Course of Study for which he was granted provisional admission.

3. A candidate's admission shall cease to be provisional when he

(a) having been admitted direct to a Professional year in Architecture, Engineering, or Fine Arts, or to a Town Planning Examination, has qualified to proceed to the next Professional Year or Town Planning Examination as the case may be, or

(b) having been admitted to the Course of Study for the Degree of Bachelor of Science has gained not fewer than thirty-six credits, or

(c) having been admitted to any Course of Study other than those specified in this regulation, has passed an equivalent full-time course approved for a particular Course of Study.

4. When a candidate's admission ceases to be provisional he may enrol for any other Course of Study for which he is eligible.

Notes: (i) If candidates are under the age of 25 they will generally be advised by the Senate to sit the University Entrance Examination, unless their applications show professional or technical qualifications such as nurses', mariners' or air pilots' certificates.

(ii) Consideration will be given to the amount and kind of secondary school education gained by the applicants and preference will be given to those who are prepared to attend the University full-time.

(iii) Provisional Admission will not be granted to extramural students save in *very exceptional* circumstances.

Special Admission*Diploma in Music*

5. A candidate is eligible to apply for special admission to the Course of Study for the Diploma in Music if he has

- (a) attained the age of sixteen years by 31 December in the year preceding that in which he intends to enrol, and
- (b) passed the School Certificate Examination,
- (c) satisfied the Head of Department of Music that he has attained a suitable standard in music, including performance.

Diploma in Town Planning

6. A candidate is eligible to apply for special admission to the course of Study for the Diploma in Town Planning if he

- (a) has attained the age of twenty-one years by 31 December in the year preceding that in which he intends to enrol, and
- (b) (i) has been admitted or has qualified for admission to a Degree other than a Degree referred to in Regulation 1 (a) of the Regulations for the Diploma in Town Planning, or
- (ii) holds a professional qualification in Architecture, Engineering, Surveying, or Town Planning.

Diploma in Business and Industrial Administration

7 (1) A candidate is eligible to apply for special admission to the Course of Study for the Diploma in Business and Industrial Administration if he has attained the age of 21 years by 31 December in the year preceding that in which he intends to enrol, and

- (a)(i) holds or has qualified for the award of either a professional qualification in Accountancy, Engineering, Science, or other approved discipline, or the New Zealand Certificate of Engineering with outstanding merit, and

- (ii) has had not less than two years of practical experience; or,

- (b) has had not less than five years' practical experience

(2) In this regulation 'practical experience' means responsible managerial experience in business or industry.

8. A candidate for admission to a Course of Study for a degree or diploma of this University, who, by reason of his qualification in a Course for a New Zealand Certificate or the Professional Examination in Accountancy, may be eligible for exemptions, shall seek special admission to the Course of Study for that degree or diploma whether or not he is a matriculated student or holds a University Entrance qualification.

9. A candidate who is granted special admission to a Course of Study is entitled to enrol only for the Course of Study for which special admission was granted.

Procedure

10. A candidate seeking provisional or special admission shall

- (a) make application to the Registrar on the appropriate form, and
- (b) submit satisfactory evidence of age, and
- (c) submit evidence of educational qualifications, and also, in the case of applications for provisional admission, any other evidence to indicate that he is qualified to enter upon the Course of Study with reasonable prospect of success, and
- (d) pay the prescribed fees, and
- (e) (i) for all Courses of Study (except DipG&O, DipObst, and DipPaed) apply not later than 10 January in the year of enrolment, or
- (ii) for the Course of Study for DipG&O and DipObst apply not later than 1 March for the June examination or 1 September for the December examination in that year, or
- (iii) for the Course of Study for DipPaed apply not later than 1 October for that year.

Notes: (i) On payment of a late fee of \$20 an application for any course of study (except DipG&O, DipObst and DipPaed) may be considered if it is made not later than the Friday preceding the enrolment week.
 (ii) On payment of a fine of \$20 in addition to the prescribed fees and late fee and subject to the permission of the Senate, an application made after the Friday preceding enrolment week may be considered.

(f) for the Course of Study for the Diploma in Gynaecology and Obstetrics make application not later than

(i) 1 March for the June examination

(ii) 1 September for the December examination in the year in which he wishes to enrol.

(g) for the Course of Study for the Diploma in Obstetrics make application not later than

(i) 1 May for the August examination

(ii) 1 November for the March examination in the following year in the year in which he wishes to enrol.

(h) for the Course of Study for the Diploma in Paediatrics make application not later than 1 October in the year in which he wishes to enrol.

ADMISSION AD EUNDEM STATUM REGULATIONS

1. Subject to the provisions of the University of Auckland Act, 1961, S. 24, and to the provisions of these regulations the Council may admit any person Ad Eundem Statum to any degree or other academic qualification or part thereof provided that a student from another university in New Zealand seeking admission to any undergraduate course shall only be granted admission Ad Eundem Statum if in the opinion of the Senate there are compelling circumstances for his transfer to this University.

Credits towards first Degree or Diploma

2. On an application for the right to proceed to a Bachelor's degree or a diploma the Council may, for work which in the opinion of the Senate is substantially corresponding or equivalent, grant credits and exemptions for courses, papers, or subjects, whether specified or unspecified, including permission to advance in specified subjects.

Right to proceed to Higher Degree

3. On an application for the right to proceed to a higher degree or diploma with honours, the Council may grant admission to the status of the holder of a degree or diploma with the right to proceed to a specific higher degree or diploma with or without honours provided that the applicant complies with any prerequisites prescribed or required by Council for such degree or diploma.

Procedure

4. (a) A student from an overseas university shall

(i) make written applications to the Registrar on the appropriate form,

(ii) submit such evidence as the Senate may require of academic standing and of any degree obtained at a former university.

(iii) submit a declaration of identity,

(iv) pay the prescribed fee,

(v) for any undergraduate Course of Study apply not later than 30 September for the following year, or

(vi) for any graduate Course of Study (except DipG&O, DipObst, and DipPaed) apply not later than 31 January in the year of enrolment, or

(vii) for the Course of Study for DipG&O and DipObst apply not later than 1 March for the June examination or 1 September for the December examination in that year, or

(viii) for the Course of Study for DipPaed apply not later than 1 October for that year.

Notes: (i) On payment of a late fee of \$20 an application for any Course of Study (except DipG&O and DipObst) may be considered if it is made not later than the Friday preceding the enrolment week.

(ii) On payment of a fine of \$20 in addition to the prescribed fees and late fee and subject to the approval of the Senate an application made after the Friday preceding the enrolment week may be considered.

(b) A student from another university within New Zealand, in the year in which he wishes to enrol, shall

(i) make written application to the Registrar on the prescribed form;

(ii) request the Registrar of his former university to forward a copy of his official record to the University of Auckland;

- (iii) for all Courses of Study (except DipG&O, DipObst, and DipPaed) apply not later than 10 January in the year of enrolment.
- (iv) for the Course of Study for DipG&O and DipObst apply not later than 1 March for the June examination or 1 September for the December examination
- (v) for the Course of Study for DipPaed apply not later than 1 October for that year.

Notes: (i) On payment of a late fee of \$20 an application for any Course of Study (except DipG&O and DipObst) may be considered if it is made not later than the Friday preceding the enrolment week.

(ii) On payment of a fine of \$20 in addition to the prescribed fees and late fee and subject to the approval of the Senate an application made after the Friday preceding the enrolment week may be considered.

Completion of Degree or Diploma at another University.

5. A student who leaves the University of Auckland district either to reside in another university district within New Zealand or to reside overseas, and who has passed for a degree or diploma of the University of Auckland such part of the work as the Senate may from time to time determine to be the major part of the work for that degree or diploma may, with the approval of the Senate in order to complete that degree or diploma, take appropriate examinations at another University and may, with like approval be granted credits under these regulations for such examinations.

Admission at Entrance Standard

Note: Candidates who are seeking recognition of overseas educational qualifications for the purpose of entry to any New Zealand University should, if admission at entrance standard only is required make written application with the appropriate fee by 1 July of the preceding year to the Secretary, Overseas Students Admissions Committee, PO Box 12-348 Wellington North, New Zealand.

TERMS REGULATIONS

1. Except for the subjects of the Engineering Professional Years these regulations shall apply (a) to every student intending to present himself for examination in written papers or oral or practical work, other than a student enrolled in accordance with the Extramural Enrolment Regulations and

(b) in respect of

(i) every paper or subject, or part of a paper or subject, and

(ii) every part of a Course of Study where the part is required to be passed as a whole, prescribed for any degree or diploma of the University.

2. Where these regulations apply, a student shall keep terms in each paper or subject or part of a Course of Study and in that paper, subject, or part of a Course of Study shall

(a) attend classes to the satisfaction of the Senate, and

(b) perform to the satisfaction of the Senate such oral, practical, written, and other work as the Senate may require.

Notes: (i) Students will be informed by each department of the specific requirements for terms in that department and the extent to which the year's work will be taken into consideration in assessing final results.

(ii) Every student in the Course of Study for BHB, for the professional examinations for BArch, and in the practical papers for BFA, should note that terms will be awarded not in single papers or subjects but in the whole course for which he is enrolled in that year.

3. A student who satisfies the Senate that he is unable to attend the full Course of Study for which he is enrolled may, on the recommendation of the Head of the Department concerned, be granted partial exemption from lectures.

Terms Carried Forward

4. (a) Terms in any paper or subject shall be good only for the year in which they are kept, provided that upon application the Senate may at its discretion permit those terms to be carried forward to a later year in the case of any student who has been refused an aegrotat or compassionate pass in that paper or subject, or, who in the opinion of the Senate, would incur hardship if he were required to keep terms afresh.

(b) a student seeking 'terms carried forward' shall

(i) apply to the Registrar on the appropriate form, not later than 10 January of the year next following that in which the terms were kept, and

(ii) pay the prescribed fees.

- Notes:** (i) On payment of a late fee of \$20 an application for Terms Carried Forward may be considered if it is made not later than the Friday preceding enrolment week.
 (ii) On payment of a fine of \$20 in addition to the prescribed fees and late fee and subject to the permission of the Senate an application made after the Friday preceding enrolment week may be considered.
 (c) A student whose terms in a paper or subject have been carried forward to a later year shall not be entitled to apply again under this Regulation for those terms to be carried forward; but otherwise he shall be deemed for all purposes to have kept terms in that paper or subject in that later year.

Note: See regulation (4e) of the Enrolment and Course Regulations (General).

Failure in Papers or Subjects

5. Students granted Terms Carried Forward are subject to the provisions of Regulation 9 of the Enrolment and Course Regulations (General).

Note: For the purpose of this Regulation students shall be deemed to be engaged in academic studies in that year whether or not they sit their degree examinations.

Multiple Courses of Study

6. No student shall be eligible to keep terms in the same year for more than two distinct Courses of Study for degrees and diplomas. A student entering for two such Courses of Study shall be permitted to present himself for examination in only two papers or their equivalent more than the maximum allowed in either Course of Study.
 7. No candidate shall be eligible to keep terms in any paper or subject for which he has received credit for another degree or diploma.
 8. Subject to the provisions of the Regulations for any degree or diploma, no student shall be eligible to keep terms in two stages of a subject in the same year, provided that the Senate may waive this requirement in the case of a student of proven merit.

ENROLMENT AND COURSE REGULATIONS (GENERAL)

Dates of Terms

1. (a) There shall be in each year three terms. The first term shall begin on the first Monday after 25 February and shall end on the Saturday preceding the 19th Monday of the calendar year. The second term shall begin on the 22nd Monday of the calendar year and shall end on the Saturday of the 11th week thereafter. The third term shall begin on the 36th Monday of the calendar year and shall end on 31 October of each year. The Easter recess shall extend from Good Friday to the Tuesday of Easter week, both days inclusive. The mid-term break during the second term shall consist of the whole of the 6th week.
 (b) For the purpose of the holding of such examinations as may be required at the conclusion of the University year, all lectures and laboratory courses shall cease about the end of the fifth week of the third term in each year. Under special circumstances lectures may be continued to a date not later than 28 October.
 (c) Examinations in Engineering shall be held in the fifth week of the second term and after the eighth week of the third term.
 Lecture and laboratory courses in Engineering shall be suspended for the fourth and fifth weeks of the second term and shall end in the seventh week of the third term.

General Course Provisions

2. (a) Subject to the admission *Ad Eundem Statum* Regulations and to the express provisions of any other regulations every candidate for a degree, diploma or certificate course shall be required to
 (i) be a matriculated student of the University;
 (ii) follow the prescribed Course of Study in the order prescribed or indicated in accordance with the regulations governing the Course;
 (iii) keep terms in the prescribed subject or subjects in accordance with the Terms Regulations;
 (iv) carry out the prescribed practical work (if any);
 (v) comply with the provisions of the Examination Regulations;
 (vi) pass the prescribed examinations.
 (b) The personal Course of Study of every student shall require the approval of the Senate provided that
 (i) the Senate may delegate to the Dean of the Faculty within which the student is enrolled the power to give such approval;

- (ii) the Senate may in exceptional circumstances approve a personal Course of Study which does not in every particular satisfy the regulations for the degree or diploma for which the student is enrolled;
- (iii) where approval of a personal Course of Study has been withheld by a decision of the Dean acting under delegation of that power the student may appeal to the Senate against that decision;
- (iv) where options are prescribed for a Course of Study the Senate may at its discretion determine which of them shall be available in any year: provided always that sufficient options shall be available to enable a candidate to complete his Course.
- (c) Where a Head of Department at his discretion determines that an insufficient number has enrolled for a paper taught in his Department he may, with the approval of the Dean of the Faculty, withdraw that paper for the year within one week of the commencement of the first term provided that essential prerequisites for any candidate's course of study are not affected.

Note: In exercising his discretion, the Head of Department shall consider the overall teaching demands in his Department. A student who is required to make a change of course because of the withdrawal of a paper shall not be charged an 'alteration to course' fee.

- (d) In relation to the time limit for the presentation of a dissertation, original investigation, or thesis 'academic year' shall in these and all other regulations of the University, unless the context requires otherwise, mean the period from the first day of March in one calendar year to the last day of February in the calendar year next following.

(e) Applications for approval of Senate as required by Regulations governing intended Course of Study

A student who wishes to take in any year a Course of Study which under any regulation for the Degree of Bachelor of Arts or the Degree of Master of Arts requires the specific approval of the Senate, shall make application to the Registrar on the appropriate form not later than 31 January in the year in which he wishes to enrol, provided that with the permission of a Head of Department an application may be accepted after this date.

Eligibility to Enrol

3. (a) Students entitled to enrol at the University of Auckland subject to places being available, and who otherwise fulfil the eligibility requirements shall include

- (i) those previously enrolled whose official record remains at this University;
- (ii) those living in the area defined in the Appendix of these regulations who wish to enrol for the first time at a university in a course of study in the Faculties of Arts (excluding the Course for the Diploma in Educational Psychology)

Commerce

Law, for the Intermediate Examination

Music, for the Degree of Bachelor of Music

Science (including the subjects of the Architecture and Engineering Intermediate examinations but excluding the Course for the Diploma in Optometry);

- (iii) those living in New Zealand south of the area defined in the Appendix of these regulations who wish to enrol for the first time at a university in a Course of Study approved for the purposes of this subclause by the Senate.

Each student who wishes and is entitled to enrol must complete a pre-enrolment form by the date prescribed and shall in his enrolment be subject to any restrictions or conditions imposed by the Senate and by the Faculty or Faculties in which he enrolls.

Notes: (i) For 1981, pre-enrolment is required for some of the Courses of Study provided for in Regulation 3

(a) (see pre-enrolment).

(ii) There is a limitation on the number of students that can enrol for certain Courses of Study and for certain papers (see pre-enrolment).

- (b) Students who may be permitted by the Senate to enrol at the University of Auckland, subject to places being available, and who otherwise fulfil the eligibility requirements shall include

(i) those who wish to enrol for the first time in a Course of Study in the Faculty of Architecture and Town Planning, for the Professional Examinations or Town Planning Examinations, Engineering, for the examinations for the professional years,

Fine Arts,

Medicine and Human Biology,

Music for the Degree of Bachelor of Music (Performance), Bachelor of Music (Performance) with Honours, Diploma in Music or Diploma in Music with Honours
or for the following Diploma Courses:

Business and Industrial Administration,

Clinical Psychology,

Computational Mathematics;

Criminology,

Drama,

Educational Psychology,

Energy Technology (Geothermal)

Guidance and Counselling

Gynaecology and Obstetrics,

Local Government Administration,

Mathematical Education

Obstetrics,

Optometry,

Paediatrics,

Psychiatry,

Statistics,

Town Planning,

Valuation;

(ii) those who wish to enrol at a university for the first time and are not entitled to enrol under subclauses (ii) and (iii) of Regulation 3 (a) of these regulations;

(iii) those who have failed to make satisfactory academic progress in their University studies or have been excluded from the University;

(iv) those transferring from another university in New Zealand who satisfy the Senate as required by the Ad Eundem Statum Regulations that there are compelling reasons for their transfer;

(v) those who wish to enrol to complete the Course requirements of another university in New Zealand;

(vi) those overseas students granted Admission Ad Eundem Statum with credits; or

(vii) those overseas students selected for admission at entrance level.

Each student not entitled to enrol but who wishes to enrol must complete a pre-enrolment form by the date prescribed, and if permission to enrol is granted shall in his enrolment be subject to any restrictions imposed by the Senate and by the Faculty or Faculties in which he enrolls.

Notes: (i) For 1981 pre-enrolment is required for some of the Courses of Study provided for in Regulation 3. (b), (see pre-enrolment).

(ii) There is a limitation on the number of students that can enrol for certain Courses of Study and for certain papers (see pre-enrolment).

Enrolment

4. (a) Every internal student shall enrol at the university in person before the beginning of the first term in accordance with the detailed enrolment timetable published in this *Calendar*; provided

that where a student is, by reason of illness or of any exceptional circumstances beyond his control, unable to enrol in due time, he may with the permission of the Senate enrol late without penalty if he

(i) applies for that permission on or before 31 January, or as soon as reasonably possible in any case where it is after that date that the student becomes ill or the exceptional circumstances arise; and

(ii) produces with his application a medical certificate or reasonable evidence of the exceptional circumstances relied upon.

(b) Students whose dissertations, original investigations, or theses for a degree, or diploma, are incomplete shall be required to re-enrol at the beginning of each academic year until the dissertation, original investigation, or thesis is presented.

(c) (i) Candidates for the Diploma in Gynaecology and Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 March for the June examination or 1 September for the December examination.

(ii) Candidates for the Diploma in Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 March for the June examination or 1 September for the December examination.

- (iii) Candidates for the Diploma in Paediatrics must complete a formal enrolment and pay the prescribed fees not later than 1 October or such date as approved by the Senate.
- (iv) Candidates for the final year of the Degree of Bachelor of Medicine and Bachelor of Surgery must complete a formal enrolment and pay the prescribed fees not later than 15 November or such date as approved by the Senate for the commencement of the Trainee Internship year.
- (d) Extramural students shall enrol in accordance with the provision of the Extramural Enrolment Statute and Regulations.
- (e) Students who have applied for terms to be carried forward and who have not received a decision by enrolment week must enrol and pay fees in the normal way. If an application to carry terms forward is approved the applicant may cancel his enrolment and receive a refund of fees provided that
 - (i) application for Terms Carried Forward was made before 31 March and
 - (ii) an 'Alteration to Course' form is completed and lodged at the Registry within fourteen days of the posting of the official notification of approval.
- (f) A student who has applied for Ad Eundem Statum Admission, or Provisional Admission, or Special Admission to be eligible to matriculate, and who has not received a decision before the beginning of enrolment week, shall enrol and pay fees as if his application had been granted. If his application is refused he shall be admitted as a non-matriculated student to lectures and laboratories only; provided that his enrolment may be cancelled and his fees fully refunded if within fourteen days of the posting to him of notice of refusal he lodges at the Registry an appropriately completed 'Alteration to Course' form.
- (g) A student who is enrolled at another university in New Zealand and who wishes to enrol at the University of Auckland shall submit to the Registrar an application to transfer on the prescribed form not later than 10 January in the year in which he wishes to enrol, provided that a late application may be accepted only with the permission of the Senate and on payment of a fee of \$20.

Note: A student wishing to apply for credits towards a degree or diploma offered by the University of Auckland must also comply with the provisions of the Admission Ad Eundem Statum Regulations.

- 5. (a) Each student (except for DipG&O, DipObst, DipPaed, or for final year MBChB) shall enrol on the appropriate day and morning or afternoon as set out in the enrolment timetables. Provided that on payment of the prescribed late fee and penalties as Senate may in its discretion impose an enrolment may be accepted after the day prescribed but in no case shall
 - (i) a student whose home is outside New Zealand be accepted later than the commencement of the second week of lectures, or
 - (ii) a student permanently resident in New Zealand be accepted later than 31 March, or
 - (iii) a student be accepted for enrolment in a laboratory subject (including the subject Studio in the Faculty of Architecture and Town Planning and Faculty of Fine Arts) and any subject prescribed for the First, Second or Third Law Examination for LLB or LLB (Hons) Degree or for the Law Professional Examination and any subject in the Faculty of Engineering except with the special permission of the Senate.

Notes: (i) A late fee of \$20 is prescribed.

(ii) Where enrolment is applied for after the end of the first week of term an additional fine of \$4 is payable for each week or part of a week after the first week of term by which the application to enrol has been delayed.

- (b) Each student for the Diploma in Gynaecology and Obstetrics or the Diploma in Obstetrics shall enrol not later than 1 March for the June examination or 1 September for the December examination in that year.

Note: On payment of a fine of \$4 for each week or part of a week after 1 March or 1 September a late application to enrol may be considered.

- (c) Each student for the Diploma in Paediatrics shall enrol by 1 October or such later date as approved by the Senate.

Note: On payment of a fine of \$4 for each week or part of a week after 1 October a late application may be considered.

- (d) Each student for the final year for the Degree of Bachelor of Medicine and Bachelor of Surgery shall enrol by 15 November or such later date as approved by the Senate.

Note: On payment of a fine of \$4 for each week or part of a week after 15 November a late application may be considered.

Choice of Course of Study

(e) The Courses of Study of those enrolled after the date prescribed will be determined by the Senate and will not necessarily conform with those proposed by the students concerned. In determining such Courses, the Senate will have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled at the approved time.

PhD Enrolments

(f) The provisions of this regulation do not apply to enrolments for the Degree of Doctor of Philosophy.

Payment of Fees

6. (a) All fees that cannot be claimed under a study grant or bursary shall be paid in full at enrolment:

provided that the Registrar or his deputy may, in exceptional circumstances grant an extension of time for the payment of fees.

(b) A charge of \$10 shall be paid with any application to defer payment of fees provided that the Registrar or his deputy may at his discretion waive payment of this charge.

(c) In any case in which fees remain unpaid, a student shall not be entitled to have his record transferred to any other University or to have terms granted.

Note: A student who is unable to pay fees at enrolment must interview the Registrar or his deputy and complete an agreement regarding payment. Extension of time for payment of fees is not granted as a matter of course but only in exceptional circumstances.

Alterations to Courses of Study

7. Additions, or Deletions of Papers and Subjects

(a) A student who having completed enrolment wishes to alter the course of study may apply to the Senate upon the conditions in the schedule of this regulation for leave to add or delete, from any paper or subject. Any application made after the commencement of the first term in each year shall be submitted to the Registry on the appropriate form with the prescribed fees.

Notes: (i) It is not sufficient to notify a change of course of study solely to a Department. An "Application to Alter Course" form must be handed in at the Registry.

(ii) The prescribed fee is \$10.

(iii) On payment of a late fee of \$4 for each week or part of a week a late addition (but not a late deletion) may be considered.

SCHEDULE

Faculty of
Architecture
and Town
Planning

Intermediate and papers in other Faculties — refer appropriate Faculty

ADDITIONS

BArch, DipVal, and Special Examination of NZIA and AERB

The second Friday after the commencement of lectures.

Masters Courses: 30 April

All other courses: 31 March

DELETIONS

31 March provided that where lectures in any paper commence after 31 March application to withdraw from that paper will be accepted on or before the second Friday after commencement of lectures.

Masters Courses: 30 April

Faculties of
Arts,
Commerce,
Music, and
Science

Subjects in other Faculties — refer appropriate Faculty

ADDITIONS

Papers commencing after the beginning of the academic year and laboratory papers:

The second Friday after the commencement of lectures in the papers concerned provided that no substitution may be made after 31 March for a paper taught from the beginning of the academic year

Masters courses and linked corequisite papers: 30 April

All other papers or courses: 31 March

DELETIONS

Papers commencing after the beginning of the academic year:
 The second Friday after the commencement of lectures for those papers.
 All other papers or courses, excluding Masters and linked corequisite papers: 31 March
 Masters Courses and linked corequisite papers: 30 April

Faculty of Engineering

Intermediate and subjects in other Faculties — refer appropriate Faculty
ADDITIONS
 The first Friday after the commencement of lectures in the subjects concerned.

DELETIONS

31 March for full-year and first half-year subjects and 8 August for second half-year subjects.

Intermediate and papers in other Faculties — refer appropriate Faculty.
ADDITIONS
 LLB, LLB(Hons), and Law Professional:
 The second Friday after the commencement of lectures
 Masters courses: 30 April
 All other papers or courses: 31 March

DELETIONS

All papers except Masters Courses:
 31 March
 Masters Courses: 30 April

Faculty of Medicine and Human Biology

ADDITIONS
 Laboratory papers excluding those papers taught entirely in the second half of the year:
 The second Friday after the commencement of lectures for those papers.
 Papers, including laboratory papers, taught entirely in the second half of the year:
 The Friday preceding the mid-term study break for those papers.
 Masters courses: 30 April
 All other papers or courses: 31 March

DELETIONS

DipG&O and DipObst:
 1 April for June examinations or 1 October for December examinations.
 DipPaed: 1 November
 Final year for MBChB: 15 December in the year of enrolment
 All other papers or courses except Masters: 31 March
 Masters Courses: 30 April

Notes: (i) A student ceasing to take a paper after the prescribed date and before the beginning of term three is strongly advised to notify the Registrar accordingly. The date of notification will be entered against the enrolment for the year in that paper on the student's academic record. (A notification form is available from the Inquiry counter at the Registry.)

(ii) A student should refer to Regulation 7(b)(ii)(c) if the reason for ceasing to take a paper is due to illness or injury, or any exceptional circumstances beyond his control.

Fees**(b) (i) Payment of Additional Fees or Late Fees**

Any additional tuition fees and all late fees shall be paid at the time of the lodging of the application.

(c) Refund of Fees

(i) Where a candidate applies under paragraph (a) of this Regulation and within the appropriate time limit to delete all the papers for which he has enrolled, he shall receive a full refund of all tuition fees and of the Students' Association Fee.

(ii) Where the student has within the appropriate time limit applied under paragraph (a) to delete a paper (but not all papers for which he has enrolled), or to add a paper for which a lesser fee is prescribed than that which he has paid, he shall receive a refund of the difference between the total tuition fees paid and the total due on acceptance of the application for deletion or addition.

(iii) Where a student for reasons of illness or injury or any exceptional circumstances beyond his control makes a late application for deletion, the Senate may in its absolute discretion grant a partial refund of tuition fees, but in no case of the Students' Association fee.

Note: Students who have their tuition fees paid under University Scholarships, Education Department Bursaries, Government Study Awards, Training College Bursaries, Secondary Teachers' Studentships, or Bilateral Aid Programme should note that if they do not comply with the Regulations relating to 'Alterations to Courses of Study' they may prejudice their scholarship or bursary in a future year.

Non-matriculated Students

8. Admission to lectures or laboratories may be granted to non-matriculated students provided they comply with all other Regulations governing admission. The Council may from time to time restrict entry of non-matriculated students to one or more subjects by reason of shortage of accommodation or other special circumstances.

Note: A non-matriculated student may not enter for any degree, diploma, or certificate of proficiency examinations as he is unable to comply with the course Regulations.

Exclusion**9. (a) Unsatisfactory Work During Year**

Heads of Departments may exclude any student from a Course of Study in any subjects in their departments on the ground of unfitness or of unsatisfactory progress in such subjects. A student so excluded shall have the right of appeal to the Senate. All students recommended for exclusion shall be informed individually by the Head of the Department not later than the Friday preceding the mid-term break. Such students may lodge an appeal against their exclusion not later than the following Friday.

(b) Failure in a paper or subject after two attempts:

Any student who has twice attempted but has failed to be credited with a pass in an optional paper or subject shall not be entitled to re-enrol in that paper or subject without the prior permission of the Head of the Department in which it is taught.

Exclusion for failure to make satisfactory academic progress in a Course of Study as a whole

10 (1) In this Regulation and the schedule to it: 'a particular Faculty' means a Faculty named in the left hand column of the Schedule to this Regulation;

'unsatisfactory student' (i) means, in relation to a particular Faculty, a student who has made insufficient academic progress in that he has failed to the extent described opposite the name of that Faculty, in the right hand column of the Schedule to this Regulation, in any Course of Study there specified; (ii) includes any student who fails to comply with conditions of enrolment imposed under clause (5) of this Regulation. In the case of any student, a 'year of academic studies' means a year in which he has enrolled and has not withdrawn enrolment by the prescribed dates.

(2) (a) No unsatisfactory student may enrol in a particular Faculty without the prior permission of the Senate.

(b) This clause of this Regulation does not apply to a student

(i) enrolling to complete Case Studies, Dissertation, Original Investigation or Thesis for any degree or diploma, or

(ii) enrolling for further study within the two years next following the completion of a degree or diploma or for a prerequisite for a Master's degree or postgraduate diploma, or

(iii) enrolling for the Degree of Doctor of Philosophy.

- (3) No student may enrol in the University, without the prior permission of the Senate,
 (a) who has been excluded from any university on the ground that he has failed to make sufficient academic progress; or
 (b) who wishes to transfer to this university from another university under the Regulations of which he requires special permission to enrol having failed to make sufficient academic progress.
 (4) Application for permission to enrol under clause (2) or clause (3) of this Regulation must be made on the appropriate form and submitted with the prescribed fee to the Registrar not later than 10 January in the year in which the student wishes to enrol.

Notes: (i) Under the Fees Regulations a late application may be received with a late fee of \$20 after 10 January and not later than the Friday preceding enrolment week.

(ii) on payment of a fine of \$20 in addition to the prescribed fee and late fee an application made after the Friday preceding enrolment week may be considered.

- (5) In granting a student permission to enrol under clause (2) or clause (3) of this Regulation, the Senate may impose on the student such conditions as it thinks fit
 (a) in relation to the minimum academic progress he must make in the year of enrolment (so as to be entitled to enrol in the next year without application under this Regulation);
 (b) otherwise in relation to his future Course of Study.
 (6) Any student
 (a) to whom the Senate refuses permission to enrol under clause (2) or clause (3) of this Regulation; or
 (b) who objects to any condition of enrolment imposed by the Senate under clause (5); may within 14 days appeal to the Council against the refusal or imposition.
 (7) This Regulation is subject to Regulation 11 of these Regulations.

Schedule

Faculties of Architecture and Town Planning, Commerce, Engineering, Law, and Science	Any Course of Study: any student who has, over the last two years of his academic studies, failed to pass the equivalent of one year's full-time Course of Study.
Faculties of Arts, and Music	Any Course of Study: any student who has, over the last two years of his academic studies, failed to pass six papers.
Faculty of Fine Arts	A Course of Study arranged in Professional Years: any student who has failed all the papers of a Professional Examination or has, over the last two years of his academic studies, failed to complete all the papers of a Professional Examination. A Course of Study not arranged in Professional Years: any student who has over the last two years of his academic studies, failed to pass in the equivalent of one year's full-time course.
Faculty of Medicine and Human Biology	Bachelor of Human Biology: any student who has failed Part I as a whole; any student who on two occasions has failed to pass Part II as a whole, or on two occasions has failed to pass Part III as a whole; any student who has failed to pass any two parts of the course as a whole. Any other Course of Study: any student who has failed his previous year of academic study as a whole.

Note: A full-time Course of Study is as defined in the Scholarships, Bursaries and Awards Section.

11. Application of Foregoing Regulation to Students who have been Enrolled Part-time
 Regulation 10 of these Regulations shall not apply to a student who, over the last two years of his academic studies, has been enrolled in this University part-time for a Course of Study and has passed at least half of the papers or subjects for which he was so enrolled.

12. Cross Credits

(a) In this Regulation, cross-credits means papers or subjects which:

- (i) are common to two or more Courses of Study;
 - (ii) have been passed by a candidate for the purpose of one of those Courses of Study; and
 - (iii) that candidate desires to transfer to another of those Courses of Study.
- (b) A candidate may, on payment of the prescribed fees under the Fees Regulations, transfer to the Course of Study for any degree or diploma named or referred to in the left hand column of the Schedule to this regulation cross-credits as shown opposite the degree or diploma so named or referred to in the right hand column of that Schedule (with any exceptions there stated).
- (c) No candidate may transfer as a cross-credit any paper or subject in which he has obtained a conceded pass or restricted pass; and if that paper or subject is compulsory he may take in place of it any such other paper or subject as the Senate may approve.
- (d) No candidate may transfer as a cross-credit any paper or subject already so transferred under this regulation.
- (e) In any case where an application for the transfer of cross-credits
- (i) is not otherwise covered by this regulation or not covered by special provisions made elsewhere in the Regulations of the University or
 - (ii) is subject to any doubt or difficulty in the interpretation of these or any other Regulations of the University — the Vice-Chancellor may approve any such transfer of credit, or give any such direction in relation to the application, as he thinks fit.

Schedule

Architecture and Town Planning (i) Degree of Bachelor of Architecture (ii) Diploma in Valuation (iii) Degree of Bachelor of Town Planning	The papers of subjects of the Intermediate Examination. Not more than eleven subjects. The papers or subjects in the Intermediate Examination.
Arts (iv) Degree of Bachelor of Arts	Not more than seven papers: except that no Stage III paper shall be transferred unless the candidate has been credited with three papers in one subject at Stage III level for the degree of Bachelor of Arts.
Commerce (v) Degree of Bachelor of Commerce	Not more than eight papers: except that no Stage III paper shall be transferred unless the candidate has been credited with three papers at Stage III level for the degree of Bachelor of Commerce selected from the subjects Accounting, Economics and Management Studies.
Science (vi) Degree of Bachelor of Science	Not more than 36 credits: except that no cross-credit for any Stage III course shall be transferred unless the candidate has been credited with 12 credits at Stage III level for the degree of Bachelor of Science.
Other Degrees and Diplomas (vii) Any Bachelors degree other than those named above (vii) Any diploma other than those named above and other than the Diploma in Town Planning	Not more than six papers or three subjects. Not more than one-third of the paper requirements of the diploma.

Note: (i) The provisions of Regulation 11 of the BSc Regulations regarding cross credits for the Intermediate Examination for the Degree of Bachelor of Engineering supersede this Regulation.

(ii) In the case of Master's degrees no cross-credits are available, except where the course regulations so provide. No cross-credits are available for the Diploma in Town Planning.

(iii) A student taking two Courses of Study may be permitted to transfer as cross-credits no more than the maximum allowed for one Course or the other but not for both.

13. Credit

(a) A candidate may with the approval of the Senate and on payment of the prescribed fees under the Fees Regulations be granted towards a degree or diploma named or referred to in the left hand column of the Schedule to this regulation, credit not exceeding that shown opposite the degree or diploma so named or referred to, in the right hand column of that Schedule.

(b) No candidate may be granted credit for work already so credited under this regulation.

SCHEDULE

Arts (i) Degree of Bachelor of Arts	<p>(a) For a student who has successfully completed in or after 1974 and up to and including 1977 a three-year course full-time Division A at a Teachers' College under the control of the Auckland Teachers' Colleges Council, not more than four unspecified Stage I papers to count as one unspecified subject in Group B in the Schedule to the BA Regulations.</p> <p>(b) For a student who has successfully completed in or after 1978 a three-year full-time Division A course at a Teachers' College under the control of the Auckland Teachers' Colleges Council, seven unspecified papers, four at Stage I level and three at Stage II level. For the purpose of BA Regulation 5, the papers so credited shall count as papers in two subjects. For the purpose of BA Regulations 3, three papers shall count as papers in Group A in the schedule to the BA Regulations and four papers shall count as papers in Group B in the schedule to the BA Regulations.</p> <p>(c) For a student who has successfully completed in or after 1974 and up to and including 1979 a Division B (concurrent study course) at a Teachers' College under the control of the Auckland Teachers' Colleges Council, not more than two unspecified Stage I papers to count as one unspecified subject in Group B in the Schedule to the BA regulations. For a student who has successfully completed in or after 1980 a two year Division B (concurrent study course) at a Teachers' College under the control of the Auckland Teachers' Colleges Council, three unspecified Stage I papers to count as one unspecified subject in Group B in the Schedule to the BA Regulations. For a student who had successfully completed in or after 1980 a two year full-time Division B (concurrent study course) at a Teachers' College under the control of the Auckland Teachers' Colleges Council, two unspecified Stage I papers to count as one unspecified subject in Group B in the Schedule to the BA Regulations.</p> <p>(d) For a student who has successfully completed in or after 1974 and up to and including 1979 a three-year full-time Division Home Economics or Commercial course at the Auckland Secondary Teachers' College not more than four unspecified Stage I papers to count as one unspecified subject in Group B in the Schedule to the BA regulations. For a student who has successfully completed in or after 1980 a Home Economics or Commercial course at the Auckland Secondary Teachers' College, seven unspecified papers, four at Stage I level and three at Stage II level. For the purpose of BA Regulation 5 the papers so credited shall count as papers in two subjects. For the purpose of BA Regulation 3, three papers shall count as papers in Group A in the Schedule to the BA Regulations and four papers shall count as papers in Group B in the BA Regulations.</p> <p>(e) For a student who has successfully completed in or after 1976 a two-year full-time Course in Division A at a Teachers' College under the control of the Auckland Teachers' Colleges Council not more than two</p>
-----------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>unspecified Stage I papers to count as one unspecified subject in Group B in the Schedule to the BA Regulations.</p> <p>(f) For a student who has successfully completed in or after 1977 a two-year full-time Course in Division E at a Teachers' College under the control of the Auckland Teachers' Colleges Council not more than two unspecified Stage I papers to count as one unspecified subject in Group B in the schedule to the BA Regulations.</p> <p>(g) For a student who has in or after 1975 completed the requirements for a Certificate Course of the Centre for Continuing Education with a grade B or higher, one or two papers to count as one unspecified Stage I subject.</p>
Commerce (ii) Degree of Bachelor of Commerce	<p>(a) For a student who has in or after 1975 completed the requirements for a Certificate in Personnel Management of the centre for Continuing Education with a grade B or higher, one or two unspecified Stage I papers.</p> <p>(b) For a student who has successfully completed in or after 1977 a three-year full-time Division A course at a Teachers' College under the control of the Auckland Teachers' Colleges Council, not more than three unspecified papers to count as elective papers.</p> <p>(c) For a student who has successfully completed in or after 1977 and up to and including 1979 a Division B (concurrent study course) at a Teachers' College under the control of the Auckland Teachers' Colleges Council not more than one unspecified paper to count as an elective paper. For a student who has successfully completed in or after 1980 a Division B (concurrent study course) at a Teachers' College under the control of the Auckland Teachers' Colleges Council not more than three elective papers for the three year Division B course, or two elective papers for the two year Division B course.</p> <p>(d) For a student who has successfully completed in or after 1977 a three-year full-time Division Home Economics or Commercial course at the Auckland Secondary Teachers' College not more than three unspecified papers to count as elective papers.</p>
Law (iii) Degree of Bachelor of Law or Diploma in Criminology	<p>(a) For a student who has in or after 1975 completed the requirements for a Certificate in Criminology of the Centre for Continuing Education with a grade B or higher, one or two unspecified papers.</p>
Music (iv) Degree of Bachelor of Music	<p>(a) For a student who has successfully completed in or after 1974 a three-year full-time Division A course at a Teachers' College under the control of the Auckland Teachers' Colleges Council, one or two unspecified papers (not being papers in Music) in lieu of the BA papers prescribed for the Degree. For a student specializing in music in the above three-year course, a further one or two unspecified Stage I papers.</p> <p>(b) For a student who has successfully completed in or after 1974 a Division B (concurrent study course) at a Teachers' College under the control of the Auckland Teachers' Colleges Council not more than one unspecified paper (not being papers in Music) in lieu of a BA paper prescribed for the Degree.</p> <p>(c) For a student who has successfully completed in or after 1974 a three-year full-time Division Home Economics or Commercial course at the Auckland Secondary Teachers' College not more than one unspecified paper (not being a paper in Music) in lieu of a BA paper prescribed for the Degree.</p>

Science**(v) Degree of Bachelor of Science**

(a) For a student who has successfully completed in or after 1974 a three-year full-time Division A course at a Teachers' College under the control of the Auckland Teachers' Colleges Council, not more than twelve unspecified Stage I credits.

(b) For a student who has successfully completed in or after 1976 a two-year full-time course in Division A at a Teachers' College under the control of the Auckland Teachers' Colleges Council. Not more than six unspecified Stage I credits.

(c) For a student who has successfully completed in or after 1974 a Division B (concurrent study course) at a Teachers' College under the control of the Auckland Teachers' Colleges Council, not more than six unspecified Stage I credits.

(d) For a student who has successfully completed in or after 1974 a three-year full-time Division Home Economics or Commercial course at the Auckland Secondary Teachers' College, not more than twelve unspecified Stage I credits.

A candidate granted credit under this provision shall be required to gain at least 84 credits from courses set out in the Schedule to the BSc Regulations.

NOTE: The progress of students granted credit for Certificate Courses of the Centre for Continuing Education will be reviewed following their first year of study after the granting of the credit.

14. Exemptions

(a) A candidate for a degree or diploma, who has passed in a paper or subject not prescribed for that degree or diploma but the same as or substantially equivalent to a paper or subject so prescribed, may at the discretion of the Senate be exempt from that prescribed paper or subject; subject, however, to the provisions of any other regulation.

(b) A candidate exempted either under this or any other regulation from a paper or subject shall pay the prescribed fee under the Fees Regulations to be exempted from that paper or subject.

15. Except as permitted either by Regulation 12 of these Regulations or by the Regulations for any particular Course of Study, no candidate may be granted in all more than one-third of the paper requirements of a Course of Study as cross-credits, credit, or exemptions.

16. Abandonments

A student may apply on the appropriate form and on payment of the prescribed fee to abandon one Course of Study before completion and to proceed to another Course. Any appropriate papers or subjects already credited may be transferred to the new Course.

Note: The prescribed fee for an "Abandonment" application is \$10.

17. Additional Lectures

A student while pursuing a Course of Study in the University may with the approval of the Vice-Chancellor, after consultation with the Heads of Departments concerned, take lectures in a subject which he is not offering for examination without payment of fee for the Course provided that this facility shall be granted only where the additional lectures would be useful in supplementing the student's Course of Study.

18. Vice-Chancellor's Special Powers

(a) The Vice-Chancellor may give such direction; or make such provision as he shall think fit for the relief of undue hardship where it is shown to his satisfaction.

(i) that an alteration or amendment to statutes or regulations involving a change in a Course of Study or in examination requirements has caused a candidate hardship; or

(ii) that official advice has been given and acted upon, and it is later found that a candidate's Course of Study is not in accordance with the governing regulations and hardship would be caused if the candidate were to be compelled to comply with the full requirements of the regulations.

(b) Where a candidate for a Master's degree writes a script outside the prescribed time for the examination, the Vice-Chancellor shall have power to

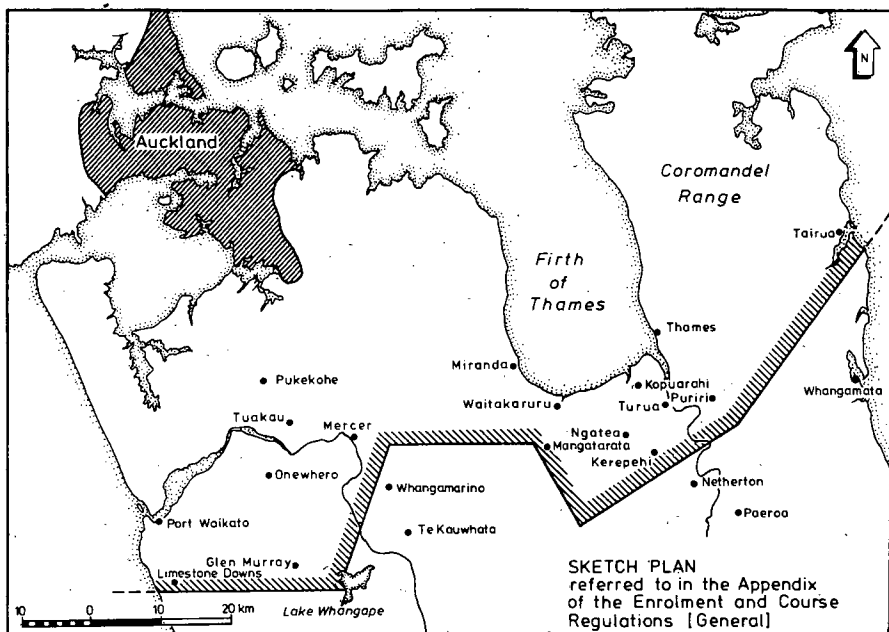

(i) admit or reject the script as part of the examination.

(ii) authorise the Head of the Department to conduct an oral examination, and that the Head of the Department where appropriate and if necessary, shall submit a mark based on the year's work and the oral examination.

(c) A candidate may appeal against any decision of the Vice-Chancellor under this Regulation to the Council which shall have power to make such provision as it may think fit.

APPENDIX

That portion of the Provincial District of Auckland north of a line commencing on the west coast thence in a straight line east through Trig 76E No 2 to the outlet of the Awaroa Stream into Lake Whangape thence in a straight line in a north-north-easterly direction to the confluence of the Kopura Stream and the Maramarua River thence due-east to Trig CXXVA thence in a straight line in a south-easterly direction to a point south-west of Kaihere thence in a straight line in a north-easterly direction to the junction of Townsend Road and Highway 26 thence in a straight line in a north-easterly direction through Tairua hill Trig.

EXTRAMURAL ENROLMENT STATUTE

Title and Commencement

1. (1) This statute may be cited as the Extramural Enrolment Statute 1962.
- (2) This statute shall come into force on 1 January, 1963.

Extramural Enrolment

2. Any student who satisfies the Senate that he is prevented from attending classes, shall, so far as is shown to be necessary and subject to the provisions of this statute; be exempted from attendance at classes and may be enrolled as an extramural student.

Restrictions

3. (1) Exemption shall not be granted:
 - (a) in any of the following subjects at any stage in any Course: Anthropology; Art History; Biochemistry; Biology; Botany; Cell Biology; Chemistry; Composition; Geography; Geology; Physics; Production Analysis; Zoology;

(b) in any subject of the Courses for the following degrees and diplomas: Master of Architecture; Master of Arts; Master of Commerce; Master of Engineering; Master of Fine Arts; Master of Human Biology; Master of Jurisprudence; Master of Laws; Master of Medical Science; Master of Music; Master of Philosophy; Master of Science; Master of Town Planning; Bachelor of Architecture; Bachelor of Engineering; Bachelor of Human Biology; Bachelor of Fine Arts; Bachelor of Laws (Honours); Bachelor of Medicine and Bachelor of Surgery; Bachelor of Music (Performance); Bachelor of Science (Honours); Bachelor of Town Planning — First and Second Town Planning Examinations; Diploma in Business and Industrial Administration; Diploma in Computational Mathematics; Diploma in Criminology; Diploma in Drama; Diploma in Educational Psychology; Diploma in Guidance and Counselling; Diploma in Geothermal Energy; Diploma in Gynaecology and Obstetrics; Diploma in Language Teaching Studies; Diploma in Local Government and Administration; Diploma in Music; Diploma in Music with Honours; Diploma in Obstetrics; Diploma in Optometry; Diploma in Paediatrics; Diploma in Psychiatry; Diploma in Statistics; Diploma in Town Planning; Diploma in Valuation;

(c) in any subject at any Stage for the Degree of Bachelor of Arts except in special circumstances to be determined by the University Senate on the recommendation of the Head of the Department;

Note: In no circumstances will exception be granted in any subject at Stage III for BA unless the candidate has completed as an internal student at least nine papers for BA including three at Stage II.

(d) in any subject at Stage III for the degree of Bachelor of Commerce unless the candidate has completed as an internal student for the degree seventeen papers including at least six papers at Stage II level;

(e) in any subject for the degree of Bachelor of Science unless the candidate has gained as an internal student for the degree forty-eight credits including twelve credits higher than Stage I.

(f) in papers numbered 26.290 and 26.390 in the subject Mathematics in any course;

(g) to a candidate who is living in the Urban Area (as defined by the Government Statistician) of Auckland or of Hamilton or in any of the University Districts of the Victoria University of Wellington, the University of Canterbury, or the University of Otago save in exceptional circumstances and with the approval of the other University concerned;

(h) in any subject or stage of a subject that is not for the time being taught at the University, but, notwithstanding anything to the contrary in paragraph (g) of this section, exemption may be granted in individual cases of hardship if a University in New Zealand at which the subject is taught agrees to examine the candidate;

Note: If a candidate granted exemption under this provision enters for examination in any other subject in the same year no assurance can be given that examination time-tables can be so arranged that the candidate will be able to sit all papers.

(i) to a candidate who, having been admitted to another University in New Zealand, is still on the books of that University as a candidate for any degree, diploma, or other qualification;

(j) to a candidate who fails to produce such evidence as the Senate may require that he is prevented from attending classes in the subject at any University;

(k) to a candidate who is prevented from attending a class by reason of attendance at another class.

(2) The council may, by regulation, provide that extramural enrolment shall not be accepted in the Course for any specified subject, or for any specified part thereof, which required practical or laboratory work, or the use of materials or teaching services of such a nature that, in the opinion of the council, the course cannot satisfactorily be taken extramurally.

Persons beyond New Zealand

4. (1) Except as provided in subsection (2) of this section, exemption shall not be granted to a candidate who is not resident in New Zealand (including New Zealand Island Territories), Cook Islands, Fiji, Niue, or Western Samoa.

(2) A candidate who ceases to reside in any of the countries mentioned in subsection (1) of this section and who requires to pass in the final group of papers or subjects of a Course to complete a degree, diploma or professional qualification may, at the discretion of the Senate and subject to the provisions of this statute, be granted exemption in the subjects concerned.

Tuition at Massey University

5. (1) A student who is on the books of the University of Auckland and who is exempted from

tuition at the University of Auckland in any subject or subjects for which extramural tuition is provided at Massey University, shall

(a) be required to enrol for tuition in such subject or subjects at Massey University; and
(b) except for Auckland Secondary Teachers' College Physical Education students enrolled at Massey University for the degree of Bachelor of Education, not be permitted in the same year to enrol for any other subject or subjects at the University of Auckland.

(2) A student so enrolled shall take the examinations of Massey University, and any subject he passes shall be credited to his course.

Procedure

6. A student seeking exemption from classes and enrolment as an extramural student of the University of Auckland shall make application in accordance with the Extramural Regulations of the University and pay the prescribed fees.

Application of statutes and regulations

7. Except as otherwise expressly provided, an extramural student shall be subject to all the statutes and regulations of the University.

REGULATIONS

Extramural Enrolment at the University of Auckland

1. A student wishing to enrol as an extramural student on the grounds of being prevented from attending classes shall apply to the Registrar on the appropriate form not later than 10 January in the year of enrolment and pay the prescribed fees.

Notes: (i) On payment of a late fee of \$20 an application may be made after 10 January but not later than the Friday preceding enrolment week.

(ii) On payment of a fine of \$20 in addition to the prescribed fees and late fee an application made after the Friday preceding enrolment week may be considered.

2. Each applicant for extramural enrolment shall

- (a) state the grounds on which the application is based;
- (b) state that he is not on the books of any other University;
- (c) state his current residential and business address;
- (d) state whether to the best of his knowledge there will not be any change of residence during the academic year, or where there is an expected change of residence during the academic year, the expected address together with the approximate date of the change;
- (e) supply such evidence as the Senate may require that he
- (i) is prevented from attending classes in the course, paper or subject at another University, or
- (ii) does not need to use the facilities of any University Department;
- (f) pay the prescribed fees.

3. In the event of a student discontinuing his studies after exemption has been granted a full refund of fees (but not late fee or fine) will be made provided notification is received by the Registrar on or before 31 March. No refund of fees shall be made for withdrawals after this date and the fees shall not be transferable to the following or any subsequent year.

Procedure for Extramural Enrolment at Massey University

4. A student wishing to enrol as an extramural student with Massey University shall apply to the Registrar, University of Auckland, for exemption from lectures if resident

- (a) in the Auckland urban area, or
- (b) outside the Auckland urban area if his academic record is already held by the University of Auckland and he wishes to continue with a University of Auckland Course of Study by means of extramural enrolment through Massey University, and pay the prescribed fee.

Notes: (i) The fee prescribed under the Fees Regulations for each application is \$10.

(ii) A student resident outside the Auckland urban area who does not come within the provisions of 4(b) above need not apply to the University of Auckland for permission to enrol at Massey University.

(iii) A student applying for extramural enrolment with Massey University should apply to the Director of Extramural Studies, Massey University, Palmerston North.

Failure in Papers or Subjects

5. Extramural studies are subject to the provisions of Regulation 9 of the Enrolment and Course Regulations (General).

Note: For the purpose of this Regulation students who have not formally withdrawn in accordance with Regulation 3 or who have registered with Massey University and have not withdrawn in accordance with the Regulations of that University shall be deemed to be engaged in academic studies in that year.

Notes on Extramural Enrolment

1. Grounds of Exemption

(a) Where a student wishes to enrol for one paper or equivalent and does not wish to attend lectures, the Senate will generally approve an application for exemption if extramural tuition is provided by Massey University.

(b) The Senate will consider applications from students for Extramural Enrolment in paper(s) or equivalent not available at Massey made on the grounds of special circumstances such as physical infirmity, distance from the University, conditions of employment, etc, which would prevent them from attending lectures. Students enrolling with Auckland, however, are not provided with any special tuition by correspondence or otherwise. It is therefore emphasised that they are putting themselves at a serious disadvantage by not attending lectures. It is essential that students attempting first year work should, by attendance at lectures, obtain that necessary introduction to university methods of work which would be the basis of their later advanced studies. It is equally essential that at advanced stages of their course, they should have the guidance of university teachers and access to a large library such as is not in practice available to students not attending lectures.

2. Examination Centres

The following examination centres are at present established: Apia, Auckland, Dargaville, Gisborne, Lautoka, Nuku'alofa, Paeroa, Rotorua, Rarotonga, Suva, Whangarei. An applicant for exemption in any subject in which an oral test or examination is required in addition to written papers should establish, when first applying for exemption, that arrangements can be made by the Registrar for the oral test to be held at the centre at which he proposes to present himself for examination.

EXAMINATION REGULATIONS

Eligibility to Sit Examinations

1. To be eligible to present himself for examination in a paper or subject, a candidate
 - (a) must have been enrolled as an internal student and have kept terms if required to do so in accordance with the Terms Regulations, or
 - (b) not being enrolled as an internal student, must have been granted exemption in accordance with the Extramural Statute and Regulations, or have been granted Terms Carried Forward in accordance with the Terms Regulations.

Time of Examinations

2. The examinations shall be held at the times specified in the Timetable each year.

Place of Examinations

3. All internal students must sit their examinations at Auckland. Extramural students who do not wish to sit their examinations at Auckland may sit at one of the centres specified in the Extramural Enrolment Regulations, provided that, with the approval of the Senate, a special examination centre may be established under special circumstances subject to the payment of the extra fee prescribed in the Fees Regulations.

Conduct of Examinations

4. (a) The examinations shall comprise such written, oral and practical examinations as the examiners may determine.
- (b) Candidates shall write out answers to the questions in the presence of a supervisor, who shall be appointed or approved by the Council in accordance with such detailed instructions as may be furnished by the Council.
- (c) No candidate shall communicate with an examiner in regard to an examination except through the Registrar.
- (d) No candidate may be examined in any subject or part of a subject at any time other than that set down for him in the timetable.
- (e) No candidate shall be allowed to enter the room
- (f) for a 3-hour examination later than one hour thirty minutes after candidates have begun writing the examination,

- (ii) for a 2-hour examination later than one hour after candidates have begun writing the examination,
- (iii) for a 1½-hour examination later than forty-five minutes after candidates have begun writing the examination,
- (iv) for a 1-hour examination later than thirty minutes after candidates have begun writing the examination.
- (f) No candidate shall be permitted to leave the room
 - (i) of a 3-hour examination until one hour forty-five minutes has elapsed from the time the writing of the examination began,
 - (ii) of a 2-hour examination until one hour fifteen minutes has elapsed from the time the writing of the examination began,
 - (iii) of a 1½-hour examination until one hour has elapsed from the time the writing of the examination began,
 - (iv) of a 1-hour examination until forty-five minutes has elapsed from the time the writing of the examination began,and then only with the permission of the supervisor and upon handing in his script.
- (g) Candidates shall be allowed to read their examination papers for a period of not more than ten minutes before the examination commences but may not begin writing their answers until the room supervisor announces that they may do so.
- (h) No candidate shall bring to an examination any written or printed matter except by direction of the examiner. All books and papers not approved for use in the examination, along with any spare personal belongings brought to the examination shall be left in such part of the room as the supervisor shall direct. All paper used during the examination must be handed to the supervisor before the candidate leaves the examination room.
- (i) No candidate shall communicate with another in the examination room.
- (j) No candidate shall continue writing an answer after the supervisor has announced the expiration of time. In no circumstances is any time over and above the time allotted to any paper to be allowed a candidate for reading over his scripts or making any amendment or addition to his scripts.
- (k) Any complaint that a candidate has committed an examination offence shall be referred to the Deans Committee of the Senate (to which the Senate has delegated power to deal with all matters relating to examinations) to determine whether the complaint should be investigated. For the purposes of this Regulation an examination offence includes any breach of any rules relating to the conduct of examinations and any dishonest practice occurring in the preparation or submission of any work (whether in the course of an examination or not) which counts toward the attainment of a pass in any subject or otherwise occurring in connection with any examination.
- (l) The Discipline Committee of the Senate (to which the Senate has delegated the appropriate powers) shall hear and determine any complaint which the Deans Committee has resolved should be investigated. The candidate concerned shall be notified in writing of the subject matter of the complaint and the time and place of the hearing. He shall be invited to state in writing his answer to the complaint and may attend the hearing.
- (m) The Senate shall have power (which it may delegate to its Discipline Committee) to do all or any of the following things in the case of a candidate found guilty of an examination offence:
 - (i) Impose upon him any of the penalties prescribed in the Disciplinary Regulations
 - (ii) Disqualify him from sitting any examinations for such period as may be prescribed
 - (iii) Cancel any pass with which he may have been credited in the subject or examination in respect of which the offence has occurred.
- (n) Where the Senate or any committee of the Senate is satisfied that a candidate has not complied with any Regulation of the University whether in respect of any examination or any other matter having given the candidate such opportunity as it considers reasonable of remedying his non-compliance with the Regulation or Regulations, then the Senate shall have power (which it may delegate to its Discipline Committee) to suspend for such time as may be prescribed the release to the candidate of the results of any examination, or to decline to credit to his course any subject or subjects, or to impose both those penalties.
- (o) A candidate may appeal to the Council from any decision of the Senate or its Discipline Committee under paragraphs (m) or (n) of this Regulation by giving notice in writing to the Registrar within 14 days of being notified of the decision. A candidate so appealing shall be

entitled to make submissions in writing and may, with the consent of the Council, appear when the appeal is determined. The Council may dismiss or allow the appeal or vary the penalty but shall not impose any penalty which the Senate or its Discipline Committee could not have imposed. The decision of the Council on any appeal under this Regulation shall be final.

Marking of Scripts

5. (a) In determining a candidate's result the examiners

- (i) may take into consideration the work done by the candidate during the year;
- (ii) shall give due weight to reports on practical work done by the candidate wherever these are required;
- (iii) shall include marks obtained by the candidate where the Senate has allotted a percentage of marks for awarding on the year's work of the candidate in any paper or subject.

Passes — Grades and Marks

(b) A pass mark in any paper or subject including papers and thesis for a Masters degree is: for a single paper, 50%;

for two more combined or linked papers, an average of 50%;

for one or more papers and a thesis, an average of 50%;

provided that

- (i) the Senate may give approval for a thesis to count as more than one paper;
 - (ii) a candidate not attaining a minimum of 37% in any combined or linked paper except in the papers or thesis for a Masters degree and mid-year examinations, will fail the subject as a whole provided that this requirement may be waived in exceptional circumstances at the discretion of the Senate;
 - (iii) a candidate taking papers in the Faculty of Music not attaining a minimum of 37% of the marks allocated for the end of the year examination, will fail the paper as a whole. This does not apply to examinations in Performance.
 - (iv) a candidate for the Degree of Master of Engineering must pass in each of eight subjects or in each of three subjects and a thesis;
 - (v) where oral work is required for a paper of a language, unless otherwise provided, a pass in both oral work and written papers is necessary;
 - (vi) where both practical and written work is required for a paper or subject a pass in both practical work and written papers is necessary;
- There are eleven pass grades and two fail grades as set out:

Pass Grades

A+ high first	B+ high second	C+ sound pass
A clear first	B clear second	C pass
A — bare first	B — bare second	C — marginal pass

Notes: (i) Candidates for LLB and LLB(Hons), who pass a subject of a Law examination with a grade of C-, will have that grade credited to their course only at the discretion of the Senate.

(ii) Candidates for BMus (Performance) who pass the subject Performance 28.120 with a grade of C- and are therefore not eligible to proceed with the Course of Study for BMus(Performance) may in respect of that pass apply for a credit of two unspecified Stage I Music papers toward the course of study for the Degree of BMus.

Restricted.

A restricted pass shall apply only to a paper in the Faculty of Arts, Commerce, or Science. A candidate at the discretion of the appropriate Faculty may be considered for restricted passes. No application by the candidate for consideration is required. A restricted pass in a paper which is pre-requisite for enrolment in another paper shall not be accepted as fulfilling that pre-requisite except with the approval of the relevant Head of Department in each case.

Note: A student with a Restricted Pass in a paper who wishes to take the paper again may do so for Certificate of Proficiency only.

Conceded.

A conceded pass shall apply only to the degrees of Bachelor of Architecture, Bachelor of Engineering, Bachelor of Fine Arts, Bachelor of Laws, Bachelor of Laws (Honours), to the Law Professional Examination, Bachelor of Music, Bachelor of Music (Performance), Bachelor

of Music (Performance) with Honours, and to the Diploma in Music and Diploma in Music (Honours) and the Diploma in Business and Industrial Administration and may not be transferred to another Course of Study. A candidate at the discretion of the appropriate Faculty may be considered for a conceded pass. No application by the candidate for consideration is required.

Fail Grades

D indicates that the candidate is advised to consult the Head of Department concerned before deciding to re-enrol if a paper or subject is optional or elective.

E indicates a serious failure to meet the requirements for the paper or subject: the candidate must consult the Head of Department concerned as to the advisability of re-enrolling in an optional or elective paper or subject.

Open Book and Restricted Book Examinations

(c) (i) Where an examination is designated "Open Book", candidates may take into the examination room any material including books, Acts, etc., and there will be no check on items taken into the examination room.

(ii) Where an examination is designated "Restricted Book", candidates may take into the examination room only the material specified by the examiner.

Work at Standard of Honours

6. A candidate whose work is at the standard of Honours or a First or Second Class Pass under the relevant degree or diploma regulations but who is ineligible for the award of Honours or First or Second Class Pass under the regulations shall be informed of the standard that he would have been awarded had he been eligible.

Recount of Marks

7. By making application within four weeks from the date of the mailing of his official result of the examinations, any candidate sitting for an examination for a degree, diploma, professional qualification, or certificate of proficiency may have the marks awarded his scripts recounted in any paper or subject which he has failed. The fee for such a recount shall be as prescribed in the Fees Regulations. A recount of marks covers a careful rechecking of the marks recorded by the examiner and ensures that no answer or any portion of an answer submitted by a candidate has been overlooked. No information relative to the application will be placed before the examiner. Candidates for the degree of Bachelor of Architecture, Bachelor of Fine Arts, Master of Fine Arts, Bachelor of Music (Performance), Bachelor of Music (Performance) with Honours, or for the Diploma in Music, or the Diploma in Music with Honours may apply for a recount of marks for written papers only.

Note: The prescribed fee for an application for recount of marks is \$20 and is refundable only if the recount shows that a pass rather than a fail grade should be recorded.

Aegrotat Pass

8. A candidate who has been prevented by illness or injury from presenting himself at any examination in any paper or subject, or who considers that his performance in any examination in any paper or subject has been seriously impaired by illness or injury may on application and with the approval of the Senate be granted an aegrotat pass in such paper or subject if the following conditions are satisfied

(a) that the candidate is enrolled as an internal student for the course of instruction in the paper or subject in question;

(b) that the illness or injury was reported in writing to the Registrar within one week of the date upon which the examination affected took place or if more than one examination has been affected then within one week of the last of such examinations;

(c) that as soon as practicable after reporting the illness the candidate furnish to the Registrar a certificate (on the form provided) from a registered medical practitioner stating

(i) that he examined the candidate medically on a certain date;

(ii) that in his opinion the candidate was unable through illness or injury to present himself for the examination, or that in his opinion the candidate's performance in the examination was likely to have been seriously impaired by illness or injury. The nature of the illness or injury shall be stated in sufficient detail to make it clear that the candidate was not responsible for his disability, and in a form suitable for submission in cases of doubt to a medical referee:

(d) that the candidate's responsible teachers in the paper or subject of the examination in question certify that his work therein during the course of instruction was well above the minimum pass standard (or where relevant the minimum standard for a class of Honours or Pass) and that he is in their opinion clearly worthy to pass in that paper or subject (or where relevant to be awarded First or Second Class Honours OR First or Second Class Pass),

or

alternatively that the Senate is satisfied upon considering the quality of the candidate's work during the course of instruction and of any work which he has completed in the current examinations (whether in the paper or subject in question or any other paper or subject) that the candidate is clearly worthy to pass in the paper or subject in question or (where relevant) to be awarded First or Second Class Honours OR First or Second Class Pass therein, provided that in either case

(i) Honours or a First or Second Class Pass may not be given to a candidate who has been awarded a pass under this regulation in respect of more than one paper for a degree or diploma involving not more than four papers; or in respect of more than two papers for a degree involving five or more papers;

(ii) a candidate for the degree of Bachelor of Engineering may, on the recommendation of the Senate, be given Honours irrespective of the number of aegrotat passes awarded.

Note: The fee prescribed under the Fees Regulations for each application for an Aegrotat Pass is \$5.

Compassionate Pass

9. Where by reason of any exceptional circumstances beyond his control and other than his own illness or injury a candidate has been prevented from presenting himself at any examination in any paper or subject or considers that his performance in any examination in any paper or subject has been seriously impaired, he may on application and with the approval of the Senate be granted a compassionate pass subject to compliance with the same conditions (with necessary changes) as those appearing in clauses (a) and (d) of Regulation 8. Such an application must be made to the Registrar on the form provided within one week of the date upon which the examination affected took place, or, if several examinations have been affected, then within one week of the last of those examinations, and must be supported by such evidence as the Registrar shall require.

Note: The fee prescribed under the Fees Regulations for each application for a Compassionate Pass is \$5.

10. (a) The provisions of Regulations 8 and 9 shall apply to

(i) any final written examination presented for a paper or subject of a Course of Study for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;

(ii) any final practical examination presented for a paper or subject of a Course of Study for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;

(iii) any terms examination which has been allotted a percentage of the marks awarded for the final examinations for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;

(b) The provisions of Regulations 8 and 9 shall apply (with necessary changes) to

(i) the final submission in each year of work for the practical subjects for the Degree of Bachelor of Fine Arts, or the Degree of Master of Fine Arts;

(ii) the final submission in each year of studio work for the Degree of Bachelor of Architecture as if such final submission were an examination and as if the date upon which such final submission was due were the date of examination.

Note: A candidate eligible to present himself for an examination solely on the grounds of his having been granted Terms Carried Forward is ineligible for the award of an Aegrotat Pass or Compassionate Pass in that examination.

Viva Voce Examination

11. A candidate who is eligible to apply and has applied for an aegrotat or compassionate pass in any paper or subject may, in exceptional circumstances and on a recommendation from the Head of the Department concerned, be granted permission by the Senate to take a viva voce examination in any paper or subject of his aegrotat or compassionate pass application.

Concessions

12. Where degree Regulations or prescriptions permit, or the Senate upon such conditions as it thinks fit approves, the examiners may in respect of any examination

- (a) release to the candidates, the examination paper in advance of the sitting of the examination;
- (b) allot a percentage of marks for awarding on the year's work of the respective candidates;
- (c) require or permit the candidates, either wholly or partly in lieu of taking an examination held in accordance with Regulations 2 to 5 inclusive and 7 to 9 inclusive of these Regulations, to submit for examination such written assignments of work as may be required.

Theses

13. Where a thesis is required as part of an examination the following conditions shall apply

(a) *Diplomas, Bachelors, and Masters Degrees*

- (i) The candidate shall submit two copies of the thesis to the Registrar and a short abstract bound in each copy of the thesis provided that a candidate for the degree of Master of Engineering shall submit three copies and a short abstract bound in each copy.
- (ii) The Registrar shall transmit the submitted copies to the examiners.
- (iii) On completion of the examination the supervisor of the thesis shall be responsible through the Head of the Department for the deposit of two copies with the University Library.
- (iv) On completion of the examination for the Degree of Master of Engineering the disposal of the third copy submitted shall be at the discretion of the Head of the Department.
- (v) Where more than the required number of copies of a thesis are submitted any additional copies shall be returned to the candidate.

(b) *Degree of Doctor of Philosophy*

- (i) The candidate shall submit three copies of the thesis to the Registrar and a short abstract bound in each copy of the thesis.
- (ii) On completion of the examination two copies shall be deposited with the University Library. The disposal of the third copy shall be at the discretion of the Head of the Department.

Notes: (i) The examination copy of any written thesis presented for a degree or diploma shall be the first copy; unless the thesis is cyclostyled printed, reproduced photographically or by electrostatic process and be bound in a form sufficiently durable for preservation and use in the University Library. The second copy may consist of a carbon duplicate of the typescript only. The Library will, if necessary, copy illustrated material such as maps and will bind this second copy of the thesis. This copy may be placed in a Departmental reading room.

- (ii) Candidates are recommended to obtain the booklet 'Pointers on the Binding of Theses' from the Bindery before proceeding with the typing and binding of the thesis.
- (iii) The author of a thesis has a right to impose conditions restricting the publication of his work to ensure for such a period as he may stipulate, without however curtailing the University Librarian's right to make and supply copies thereof in terms of subsection (3) of Section 21 of the Copyright Act (1962).
- (iv) Where it is suspected that a thesis contains defamatory material the University Librarian may restrict access to the thesis subject to confirmation by the Library Committee.
- (v) Supervisors are requested to notify the University Library when a thesis is submitted if it is believed to contain material which could be considered defamatory.
- (vi) Where a thesis has been presented as part of a degree which
 - (a) has been awarded but the thesis itself is a failed thesis restrictions on its use in the library may be imposed
 - (b) has not been awarded the thesis will not be deposited in the Library irrespective of whether the thesis itself has a pass or fail grade.

Abstracts

14. Where a thesis, dissertation, research essay, or original investigation is submitted as part of an examination for a Bachelor's or Master's degree, a Diploma, or the Degree of Doctor of Philosophy a candidate shall at the same time submit a short abstract not exceeding 500 words, suitable for publication. The abstract shall be bound in each copy of a thesis submitted.

Examination Centres

15. Pursuant to Regulation 1 hereof the University of Auckland will conduct examinations in the following centres: Apia, Auckland, Dargaville, Gisborne, Lautoka, Nuku'alofa, Paeroa, Rotorua, Rarotonga, Suva, and Whangarei. Internal candidates are required to sit their examinations at Auckland.

FEES REGULATIONS

The following fees have been prescribed by Council:

GENERAL FEES

Abandonmenteach application

\$
10

Ad Eundem Statum Admission (from overseas)	50
Additions or Deletions to a Course of Study	10
Academic Certificates	2
.....extra copies, each	50c
Aegrotat and Compassionate Pass	5
Cross-credits, Credit or Exemptions	
.....each paper	15
.....each credit	3
(with a maximum of \$50 for each full-time course as defined under the Tertiary Assistance Grants Regulations, with an overall maximum of \$120, e.g. BA 4-7 papers \$50; BSc 16-36 Stage I credits \$50; BE Intermediate 42 credits \$50; BE Intermediate and 1st Professional \$100; BE Intermediate, 1st Professional and 2nd Professional \$120)	
Deferred Payment of Fees	10
Extramural Enrolment (University of Auckland)	10
.....each credit	2
Extramural Enrolment (Massey University)	
any student living within the Auckland urban area	10
any student living outside the Auckland urban area if his record is held at the University of Auckland and he wishes to continue with an Auckland Course of Study	10
Permission to Enrol — having failed to make satisfactory progress	20
Provisional Admission	25

EXAMINATION FEES

DMus, DSc, LittD, LLD	each	100
-----------------------------	------	-----

COURSE MATERIAL

Departments may charge for materials supplied. Briefly these materials will be in lieu of text books and charges will vary from department to department.

STUDENTS' ASSOCIATION FEE

Students' Association Fee	43
---------------------------------	----

The following students do not need to pay the Students' Association Fee: Internal students for DipG&O; DipObst; DipPaed; DipPsychiat; PhD part-time; Masters Degree from 3rd year onwards; Thesis only, for MTP; Original Investigation only, for DipEd; Part II only, for DipEdPsych, DipClinPsych, DipGuid; Dissertations only, for LLB(Hons), BSc(Hons), DipTp, DipCrim, DipBIA, DipOpt, DipVal; Research Essay only, for DipLGA; Project only, for DipStats, DipCompMaths; Certificate in Radiochemistry, condensed courses held in April for medical research workers only. Graduate students enrolling for a single Certificate of Proficiency paper have the option of whether or not they pay the Students' Association fee. If such students wish to use the facilities of the Association, they will be required to pay the Association fee but will be exempt from the building levy. In the event of a graduate student deciding not to pay the Students' Association fee his library card will be stamped "NOT AUSA MEMBER".

A student enrolled full-time at the Auckland Technical Institute and concurrently enrolled at the University will be required to pay a Students' Association Fee of \$6 per paper, (general fee \$4; building levy \$2). Such student must complete the appropriate application form obtainable from the office of the Students' Association, have the form certified by the Managing Secretary, Students' Association, Auckland Technical Institute, and submit it to the University Registry before enrolment week.

The Students' Association Fee includes a Building Levy of \$12, or \$2 per paper if a student is concurrently enrolled full-time at the Auckland University Institute. No student shall be liable to pay a Building Levy who has previously paid it five times or more at this University or any other University in New Zealand as from January 1961. To be eligible for an exemption from the Building Levy a student must complete the appropriate application form obtainable from the office of the Students' Association and submit it to the Registry before enrolment week. Late applications for exemption will not be accepted after 30 November in the year the Building Levy was due or paid.

PENALTIES

Note: General fees, late fees, fines and penalties are not refundable.

Late Enrolment**(A) Internal students****(a) During Enrolment Week**

Failure to enrol on the appropriate day, morning or afternoon as required
by the enrolment timetable..... 5

(b) After Friday of Enrolment Week..... 20

In addition after end of first week of first term.....per week or part of a week 4

(c) DipG&O, DipObst — after 1 March or 1 September.....per week or part of a week 4

(d) DipPaed — after 1 October
per week or part of a week 4

(e) MBCbB (final year) — after 15 Novemberper week or part of a week 4

(B) Students for Instruction in a Single Instrument (Music)

After Friday of Enrolment Week 20

In addition after end of first week of first term.....per week or part of a week 4

Late Fees for Late Applications

Note: Late fees are payable in addition to the General fee.

(i) Additions or Deletions to Courses of Study

Applications received after the date prescribed in the Enrolment and
Course Regulations (General) Regulation 7.....per week or part of a week 4

(ii) Admission Ad Eundem Statum

from a New Zealand university

After 10 January and until the Friday preceding enrolment week..... 20

from an overseas university

After 30 September for an undergraduate course and until the Friday
preceding enrolment week 20

After 31 January for a graduate course and until the Friday
preceding enrolment week 20

(iii) Permission to Re-enrol —

Failure to make satisfactory progress

After 10 January and not later than the
Friday preceding enrolment week, each 20

Provisional Admission

Special Admission

Terms Carried Forward

Extramural Enrolment (University of
Auckland)

(iv) Pre-enrolment after due date..... 20

A fine of \$20 in addition to the prescribed fee and late fee is payable on any application under (ii) & (iii) above if application made after the Friday preceding enrolment week.

TUITION AND RESEARCH FEES

Notes: 1. Fees for private overseas students are shown at the end of this list.

2. A Master's candidate required to resubmit a thesis must re-enrol and pay the prescribed fee.

3. Students may be required to pay towards the cost of their field trips.

4. No refund of fees will be made unless an 'Application to Alter Course' form is handed in to the Registry on or before the appropriate date prescribed in Regulation 7 of the Enrolment and Course Regulations (General) and approved.

5. Definitions of full-time study are listed under Scholarships, Tertiary Assistance Grants and Awards.

ALL FACULTIES (EXCEPT MEDICINE AND HUMAN BIOLOGY)

Full-time course of study (except Masters and Doctorates).....each year 180

Masters.....first and second years, each 180

.....third and subsequent years each 20

Part-time course of study (with a maximum fee of \$180)

Papers including Law subjects, and Performance (as weighted for Music)		
and Studio (as weighted for Fine Arts).....	each paper	30
Credits including Studio (as weighted for Architecture).....	each credit	6
Half year papers in engineering and half papers in Law.....		15
For the half year papers in Engineering refer to the prescriptions for BE.		
Half papers in Law are: Introduction to Commercial Law, Introduction to Company Law, Introduction to Family Law, Commercial Papers and Practice, Land Conveyancing Papers and Practice, Wills and Trusts Practice.		
Dissertation, Research Topic, Original Investigation, DipGuid Part II,		
Research Essay, Project 44.421 for DipOpt.....	first year	30
.....	subsequent years, each	10
DipEdPsych Part II; DipCompMaths; DipMathEd; DipStats; DipBIA Case Studies;		
DipEnTech (Geotherm).....	second and subsequent years, each	20
DipClinPsych		
Part I.....	each year	12
Part II.....	first year	46
.....	subsequent years, each	10

FACULTY OF MEDICINE AND HUMAN BIOLOGY

BHB		
Full-time.....	each year	250
Part-time.....	each paper	42
MBChB		
Year I, Year II.....	each	280
Year III.....		20
MHB, MMedSc, MPhil.....	first and second years each	180
.....	third and subsequent years, each	20
DipG&O		
Part I and II.....	each	35
Dissertation.....		12
DipObst, composite fee.....		35
DipPaed, composite fee.....		58
DipPsychiat, Part I and II.....	each	58
Doctor of Philosophy		
First and Second year of full-time study.....	each	180
Each subsequent 6 months or part of 6 months of full-time study.....		90
(Candidates registered part-time for PhD are required to pay each year half the fee prescribed for full-time study.)		

PRIVATE OVERSEAS STUDENTS

A private overseas student on a student permit beginning a new Course of study from 1980:		
Full-time.....		\$1500
Part-time.....	pro rata proportion of	\$1500

Notes: (See also the Regulations below).

1. The charge covers all tuition fees but not the Students' Association fee and some other charges such as late fees, notes for courses, field trips.
2. Students exempted from the charge pay tuition fees as prescribed for the appropriate course of study.
3. The following are exempted from the charge:
 - (a) students continuing the same course of study for which they were enrolled in 1979 (A student completing a course such as BA and enrolling for MA is regarded as beginning a new course).
 - (b) students from Australia, the Cook Islands, Niue, the Tokelau Islands and specified South Pacific countries namely the Federated States of Micronesia, Fiji Islands, Kiribati, Nauru, Vanuatu, Papua New Guinea, Solomon Islands, Tonga, Tuvalu, Western Samoa.
 - (c) holders of a scholarship or bursary awarded by the New Zealand Government or any international intergovernmental organisation or agency.
 - (d) students under a reciprocal exchange scheme approved by the Minister of Education.
 - (e) students studying with substantial financial assistance that, in the opinion of the Director-General of Education, is provided directly or indirectly from Government funds.
 - (f) students under the Commonwealth Postgraduate Scholarship Scheme.
 - (g) students who began a school or university course before 1980 and who, with the approval of the Professorial Board, change their course within two years for academic reasons.
 - (h) students enrolled in New Zealand secondary schools before 1 January 1980, when they began their first course of study.
 - (i) students beginning a postgraduate course before 1 January 1981 who in 1979 completed a preparatory bridging course.

- (j) students who are dependents and are not on a study permit. (A dependent must return home when the permit on which he or she depends expires.)

THE EDUCATION (PRIVATE FOREIGN STUDENTS) REGULATIONS 1980

Title and Commencement

1. (a) These regulations may be cited as the Education (Private Foreign Students) Regulations 1980.
- (b) These regulations shall come into force on the 23rd day of January 1980.

Interpretation

2. In these regulations, unless the context otherwise requires,— “The Act” means the Education Act 1964:

“Block course means a course of study at a technical institute or community college that —

- (a) Lasts for no more than 12 weeks; and
- (b) Involves at least 25 hours of tuition each week:

“Full-time course” means —

- (a) A course of study, or any part of a course of study, at a technical institute or community college, where that course or part —

(i) Lasts for more than 26 weeks (excluding vacations); and

(ii) Involves more than 800 hours of tuition; or

- (b) A course of study, or any part of a course of study, at a university where that course or part is a full-time programme within the meaning of the Tertiary Bursaries Regulations 1976:

“Part-time course” means —

- (a) A course of study at a technical institute that is not a full-time course, a block course, or a seminar course; or

(b) A course of study, or any part of a course of study, at a university where that course or part is not a full-time programme as aforesaid:

“Seminar” means a course of study at a technical institute or community college that lasts for no more than 1 week:

“University” means a university within the meaning of section 9(a) of the Act.

South Pacific Countries

3. Each of the countries specified in the First Schedule to these regulations is, for the purposes of section 9A (3) (a) of the Act, hereby declared to be a South Pacific country.

Fees for Study at Tertiary Institutions

4. The prescribed fee required by section 9A (4) of the Act to be paid before a student to whom that subsection applies may be permitted in any year to undertake any part of any course of study that commenced after the 31st day of December 1979 shall be the fee set out in the second column of the Second Schedule to these regulations opposite the reference in the first column of that schedule to the class of course to which that part of that course of study belongs.

Additional Fee for Study at Technical Institute or Community College

5. The prescribed fee required by section 9A (7) of the Act to be paid before a student to whom that subsection applies may be permitted in any year to undertake any part of any course of study shall be the fee set out in the second column of the Third Schedule to these regulations opposite the reference in the first column of that schedule to the class of course to which that part of that course of study belongs.

FIRST SCHEDULE

South Pacific Countries

Federated States of Micronesia

Fiji

Kiribati

Nauru

New Hebrides

Papua New Guinea

Solomon Islands

Tonga

Tuvalu

Western Samoa

SECOND SCHEDULE

Prescribed Fees for Study at Tertiary Institutions

Class of Course	
Full-time course	\$1500
Part-time course at a technical institution or community college	\$2 for every hour of tuition that the course involves in the year concerned.
Part-time course at a university	A fee that is the same proportion of the product of \$1500 and the minimum number of years required for the completion of the course of study of which that part-time course forms part as, in the opinion of the Director-General, that part-time course is of that course of study.

Note: The third schedule prescribes fees for technical institutes and community colleges.

DISCIPLINE

Under the provisions of the University of Auckland Act 1961, the Senate has, subject to a right of appeal to the Council, the power to deal with all questions relating to the discipline of students. During the intervals between meetings of the Senate, and subject to a right of appeal to the Senate, the Vice-Chancellor may exercise alone the powers of the Senate as to discipline.

DISCIPLINARY REGULATIONS

1. These Regulations may be cited as the Disciplinary Regulations 1972.
 2. These Regulations shall come into force on 1 January, 1973.
 3. In these Regulations unless the context otherwise requires:
 - 'Class' means any lecture, tutorial, seminar, laboratory, or other assembly of students at which tuition is being given and includes any lecture or address within the University at which students are present;
 - 'Hall' means any hostel or hall of residence or other student accommodation under the control of the Council;
 - 'Student' means a duly enrolled student of the University and includes for the purposes of Regulation 4 hereof a person applying so to enrol;
 - 'Students' Association' means the Auckland University Students' Association Incorporated;
 - 'Warden' means the person who is for the time being in charge of any Hall and includes his duly appointed deputies;
 - 'The Act' means the University of Auckland Act 1961 and its amendments;
 - 'The University' includes any institution under the control of the Council;
 - 'University property' includes property occupied by the University, property owned by any institution under the control of the Council, and any property held by the Crown on behalf of or for the purposes of the University.
- Words and expressions defined in the Act have the meanings so defined.
- 4(a) Every student shall on enrolling at the University sign a declaration in the following form or to the like effect: 'I hereby solemnly promise that I will faithfully obey the rules and regulations of the University and be bound by the same.'
 - (b) The Senate shall have power to impose conditions on the attendance at classes of any student and to obtain his undertaking to observe those conditions, either at his enrolment, or in the course of his attendance at the University in all cases where in the reasonable opinion of the Senate it is necessary so to do in order to prevent any possible disturbance to the carrying out of normal activities at the University or otherwise to maintain order and discipline.
 - (c) The Senate or the Discipline Committee of the Senate may as delegate of the Council exercise the powers conferred on the Council by s. 24 (2) of the Act without however preventing the Council from exercising those powers.

5. No student or other member of the University shall:

- (a) act in a manner contrary to the good government of the University or prejudicial to its functioning as such;
- (b) wilfully or recklessly damage or deface, or wilfully move without authority, any property of the University or any other property within the University, precincts;
- (c) wilfully impede the activities of the University, whether in teaching, research or otherwise;
- (d) wilfully create any nuisance in or on the University precincts;
- (e) wilfully obstruct any officer or member of the University employed at the University in the due performance of his functions or of the work he is required to perform;
- (f) be in a part of the University precincts in which he is not, at that time, entitled to be, knowing that he is not entitled to be there at that time;
- (g) (i) start, ride, or park without prior permission, a cycle, a motorcycle, or a motor vehicle in University grounds;
- (ii) fail to comply with the University Parking Regulations at all times;
- (h) fail to comply with the directions on any notice erected with the authority of the Council and governing entry, speed and exit of vehicles, and the location of parking spaces;
- (i) commit any criminal offence in the University precincts;
- (j) smoke
 - (i) in the Library except with the permission of the Librarian; or
 - (ii) in any General Lecture Theatre; or
 - (iii) in any Seminar Room except with the express consent of all those present;
- (k) commit a breach of any University Statute or Regulation or of any rule of conduct made by any person authorized by the Council or the Senate to make such rule, provided that the Statute Regulation or rule has been published in the University Calendar or that reasonable notice thereof has been given by other means, to students generally or to the student charged with misconduct, before the misconduct is alleged to have taken place.

6. No student shall

- (a) knowingly fail to identify himself if required or to comply with such directions as may be reasonably made by the Vice-Chancellor, the Registrar, any Professor, member of the Senate, or Lecturer in order to maintain good order and discipline;
- (b) knowingly fail to comply with any reasonable direction given to him by the person in charge of a group of students going to, engaged in, or returning from a field trip or any other academic activity conducted by the University beyond the University precincts, or, while a member of such a group, do anything which would constitute misconduct if done within the University precincts;
- (c) fail to comply with any specific Departmental or Faculty Regulation in regard to appropriate dress in relation to safety or to professional courses;
- (d) bring or consume alcoholic liquors within the precincts of the University for other than official functions except with the permission of the Senate. Permission for alcoholic liquors to be consumed at other functions will be subject to the following conditions.
 - (i) where the function is held in a lecture theatre, reading room, seminar room, staff study or staff common room, one senior member of the staff shall be present throughout the function;
 - (ii) where the function is held within the facilities under the control of the Student Union Management Committee, a senior member of the staff or a member of the Student Executive or a member of the Student Union Management Committee shall be present throughout the function;
- (e) post student notices elsewhere than on the permanent notice boards provided for this purpose, and in accordance with the conditions laid down by the Student's Association.

7. The person in charge of a class may reprimand, or exclude from not more than three successive meetings of the class, any student whom he considers guilty of misconduct in class. Any exclusion from more than one meeting of the class under this Regulation shall be reported promptly to the Vice-Chancellor. A student reprimanded or excluded under this Regulation may appeal to the Vice-Chancellor or to the Senate for the matter to be reviewed. The Vice-Chancellor may suspend the operation of an order for exclusion from class until the appeal has been heard and determined.

8. The Senate shall have power

- (a) to impose on any student who does not observe the provisions of these Regulations; or the conditions (if any) attached to his attendance at classes pursuant to Regulations 4 and 16 thereof; or any direction given under Regulation 11 hereof; or who otherwise commits any

breach of University discipline; any one or more of the following penalties as it thinks fit.

- (i) such sum by way of restitution as may be appropriate for any damage so caused;
- (ii) a fine not exceeding \$300;
- (iii) a suspension from attendance at the University or any of its classes for such period as it thinks fit;
- (iv) expulsion from the University;
- (v) a limitation or prohibition on his attendance at any class or classes at the University or his use or enjoyment of any of the facilities of the University;
- (b) to withhold the granting of terms to any student who is in default with any payment due by him to the University under these or any other Regulations or any Statute;
- (c) to delegate the powers conferred on it by these Regulations to the Discipline Committee of the Senate without thereby preventing itself or the Vice-Chancellor pursuant to Regulation 9 hereof from exercising any such delegated power.

9. The Vice-Chancellor shall have power (subject always to Regulation 14 hereof) to exercise all the powers and authorities of the Senate under these Regulations and under the Act, including any powers delegated by the Senate to any committee of the Senate, during the intervals between meetings of the Senate or that Committee.

10. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate or Lecturer shall have power to report any student to the Discipline Committee for any breach of these regulations.

11. Any Warden shall have the power (subject always to Regulation 14 hereof)

- (a) from time to time to give such directions as he reasonably thinks fit for the maintenance of good order and discipline within the Hall under his charge provided however that all such directions shall if of general application be exhibited on the main notice board of the Hall to which they relate forthwith after they are given;
- (b) to impose as he thinks fit on any student who does not observe any of the directions so given, any one or more of the following penalties:
 - (i) such sum by way of restitution as may be appropriate for any damage so caused;
 - (ii) a fine not exceeding \$50;
 - (iii) a suspension from attendance at the Hall for such period as the Warden thinks fit;
 - (iv) expulsion from the Hall.

12. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate, or Lecturer may, in addition to reporting any breach of these Regulations to the Discipline Committee, order any student to pay the cost of replacing or repairing any University property lost, damaged or destroyed by reason of the wilfulness, negligence, or misconduct of that student. Any penalty so ordered shall be paid within 14 days.

13. The Executive of the Students' Association shall (without prejudice to the powers of the Senate under s. 34(3) of the Act) have power of disciplinary control over students within the Student Union Buildings or the precincts of the Student Union Buildings and in exercise of that power may

- (i) impose a fine not exceeding \$25 on any student guilty of any act prejudicial to the maintenance of discipline therein, and
- (ii) (whether or not in addition to imposing a fine) order any student to pay as a penalty the cost of replacing or repairing any property therein lost, damaged or destroyed by reason of the wilfulness, negligence, or misconduct of that student.

14(a) All fines and other penalties imposed under Regulations 9, 11, and 12 hereof or by the Discipline Committee under powers delegated to it under Regulation 8 hereof shall forthwith be reported to the Senate by the person or body imposing them.

(b) Any student on whom a fine or other penalty is imposed under Regulations 9, 11 and 12 hereof under powers delegated under Regulation 8 may within seven (7) days of imposition of that penalty, by giving notice to the Registrar in writing, appeal to the Senate against it. The Senate may hear and determine an appeal in such manner as it thinks proper.

(c) Any student who suffers any penalty under these Regulations by a decision of the Senate or the Discipline Committee of the Senate or the Executive of the Students' Association or whose appeal under the preceding clause of this Regulation is dismissed by a decision of the Senate may within seven (7) days of that decision, by giving notice to the Registrar in writing, appeal against it to the Council which may hear and determine the appeal in such manner as it thinks proper. The decision of the Council shall be final.

- 15(a) The grounds of Old Government House are open to all members of the University for their individual use for the purpose of quiet recreation;
- (b) No organised group activities will be permitted in those grounds without the specific permission of the Vice-Chancellor, acting on behalf of the Council, given in each case and in such terms as are appropriate;
- (c) Members of the University may bring guests into the University grounds but not into the grounds of Old Government House except in terms of clauses (a) and (b) above;
- (d) At all times, and more particularly at night, members of the University and their guests shall act in such a way as not to cause disturbance or inconvenience to those living in the grounds (both occupants of Old Government House and members of the custodial staff), or to residents in the immediate neighbourhood.

Notes: (i) If the above requirements are observed, no time limit on the use of the grounds will be necessary, nor shall there be any need for the Police to be on the campus by invitation or otherwise.

(ii) Members of the University while in the grounds are free to observe demonstrations which may occur in the adjoining streets, but they are reminded that the Statutory and Common Law powers of the Police enable the Police to enter the University campus and to take appropriate action in relation to offences committed thereon and to prevent a breach of the peace.

(iii) Whenever it appears likely that demonstrations of the kind mentioned in note (ii) above will occur, the Vice-Chancellor shall consult with the appropriate representatives of staff and students.

(iv) Any privileges of staff, students, and their guests in respect of the use of the grounds, may be withdrawn by the Vice-Chancellor, acting on behalf of Council; the Vice-Chancellor shall report the circumstances to the next following meeting of the Senate and Council.

16(a) No member of the Security Service enrolled as a student at the University shall carry out any inquiries into security matters within the precincts of the University.

(b) The proposed attendance of a member of the Security Service at the University shall be discussed between the Security Service and the University Authorities before his enrolment.

17. After the discussions contemplated in the preceding sub-clause 16(b) have been held, the Senate shall determine each year what special conditions (if any) as to attendance at classes shall apply to students who are members of the Security Service in order to maintain discipline among the students of the University by preventing any possible disturbance to the carrying out of normal teaching activities.

18. Nothing in these Regulations shall prejudice the rights and remedies of the University under the general law in respect of the misconduct or negligence of any student.

THE LIBRARY

The University Library was established in 1884 with a grant of £37 for books which were 'to be bought in England and uniformly bound in full calf with golden lettering'. Since then the Library has grown into a collection of more than 850,000 volumes, excluding thousands of unbound periodicals, pamphlets, and reprints. Over 11,000 periodical titles are currently received. The Library has benefited by a number of generous gifts among them being the collection of books in Classics and Old Testament Literature bequeathed by the late Professor A. C. Paterson and an extensive collection of material relating to the Labour movement in New Zealand and other countries presented by Mr P. W. G. McAra.

The University Library comprises the General Library in the Library Building on the corner of Princes Street and Alfred Street, divisional libraries in Architecture, Biological Sciences, Engineering, Fine Arts, Geography, Geology, Law, Medicine, Music, Science. In addition there are departmental reading rooms in a number of subjects. The General Library contains most of the books needed for under-graduate reading in arts subjects. It also contains more advanced material in Accountancy, Anthropology, Education, Geography, History, Languages and Literature, both classical and modern, Philosophy, Psychology.

A separate Undergraduate Reading Room has been opened in the former Ballroom of Old Government House. This contains 140 seats for readers and a collection of works in heavy demand.

More information about the Library, its services and organisation, can be found in the *Library Guide* and in the pamphlet *Books and Reading Accommodation in the University of Auckland*. These are available from the Reference Desk in the General Library. Library tours are offered during the week preceding enrolment and during the first week of lectures. Readers are encouraged to seek assistance throughout the year from Reference Department staff.

LIBRARY REGULATIONS

1. These regulations may be cited as the Library Regulations 1970 and shall come into force on 1 January, 1971.

2. Except where otherwise stated

(a) these regulations shall apply to all sections of the University Library, that is, the General Library, Undergraduate Reading Room, Architecture, Biological Sciences, Centre for Continuing Education, Engineering, Fine Arts, Geology, Geography, Law, Medicine, Music, and Science, and such other sections as may be added by the Senate;

(b) in these regulations 'books' includes all types of printed, written and photographic material, and (except where the context otherwise requires) gramophone records and tapes.

Hours of Opening

(General Library only)

3. The hours of opening shall be:

Mondays to Thursdays	Saturdays
8.30 am — 11 pm	9 am — 5 pm
Fridays	(Third Term — 9 pm)
8.30 am—8 pm	(Third Term — 11 pm)

May Study Break (first two weeks)

9 am — 6 pm

9 am — 1 pm

Summer Vacation

9 am — 5 pm

9 am — 12 noon

(Wed — 9 pm)

The Library shall be open on Sundays in first and second terms and August Study Break from 9 am to 5 pm and in third term from 9 am to 9 pm. No lending services shall be available on Sundays. The Library shall be closed on Anniversary Day, Waitangi Day, Good Friday, Easter Saturday, Easter Sunday, Easter Monday, Anzac Day, Queen's Birthday and for up to three weeks from and including Christmas Eve.

These hours may be varied at the discretion of the University Librarian and any variation shall be appropriately notified in the General Library.

Readers

4. (a) All members of the University* ordinarily resident in New Zealand and of its library and administrative staff shall be readers for the purpose of these Regulations and may

(i) use all sections of the Library; and

(ii) on completion of such registration formalities as the University Librarian requires, borrow books from it; provided that no person shall be deemed an undergraduate member of the University unless he is currently enrolled as such.

(b) By special permission of the University Librarian any person not included among those authorised by clause (a) of this Regulation may be a reader and accorded full or partial use of Library facilities.

(c) The University Librarian may at any time require from any reader as a condition of that reader's use of the Library and borrowing facilities that he pay to the University a sum of not more than \$15 as a deposit to be applied in payment or part payment of any sum for which he may become liable under Regulation 6 (d). Any balance of the deposit shall be refunded on the termination of his use of the library.

*Members of the University includes the University Council and all professors, lecturers and junior lecturers and all graduates and enrolled undergraduates of the University.

Borrowing

5. (a) No reader shall borrow any book otherwise than in accordance with these regulations.

(b) (General Library: only). Books may be borrowed whenever the General Library is open except on Sundays and such public holidays as the University Librarian may determine; but no books shall be issued after 10.30 pm on Monday to Friday, or after 4.30 pm on Saturdays. The hours during which books may be borrowed may be varied at the discretion of the University Librarian.

(c) (General Library only). Borrowing starts at 9 am and ceases 20 minutes before closing time. No borrowing on Sundays. The hours during which books may be borrowed may be varied at the discretion of the University Librarian. Borrowers shall write their name and address clearly

and legibly on the book card of each book and present book and card at the exit for stamping along with their identity card. The address given shall be that to which any notices should be sent. The desk assistant shall stamp the book with the date on which it is to be returned.

(d) Any person on leaving the Library shall on demand present all books and personal property for inspection.

(e) (General Library only). Any book on the open shelves which has a book card and date slip may be borrowed until the next end of term or for such shorter periods as the Librarian may decide. Borrowers shall be required to check the date stamped in the book by the desk assistant. Glass case books without 'not to be borrowed' labels may be borrowed for a fortnight only. All other materials shall be used only in the Library except that Teaching Staff and Postgraduate Students may borrow bound volumes of periodicals for fourteen days, and theses for fourteen days.

(f) Books from any section of the Library other than the General Library shall be borrowed direct from that Section.

(g) All books shall be subject to recall within 24 hours. Borrowers who fail to respond to a recall notice within 24 hours shall incur a fine of 50c plus 50c for each further 24 hours that the book is overdue. Borrowers who retain other books beyond the date for return stamped on the date slip incur a fine of 10c per day whether a notice has been sent or not.

(h) The librarian shall be under no obligation to notify borrowers when books are overdue and a fine may still be charged when books are returned after the date stamped, even though no notice has been received.

(i) Borrowers who wish to renew a book on limited loan for a further period may apply by letter (giving author, title and call number on the spine of the book) or in person, or (in the case of theses, periodicals or glass case books) by telephone. Renewal, will be refused if the book is reserved, and may be refused at the discretion of an authorised librarian. At the end of term, all out-standing books shall be returned or presented for renewal at the Lending Desk. They cannot be renewed by letter or by telephone at this time.

(j) Readers may reserve for borrowing one book a day by filling in a reservation card at the Lending Desk. The length of loan allowed shall depend on the number of other readers who are also waiting for the book. Borrowers who return limited loan reserve books late shall incur a fine of 50c per volume for each 24 hours the book is overdue.

(k) Books which are in heavy demand may be kept behind the Lending Desk. These Desk Copies shall be available for a specified period (advertised in the Library concerned) on surrender of the reader's identity card and may not be removed from the Library except in the case of overnight loans. Failure to return Desk Copies on time shall incur a fine of 25c per volume for each quarter hour or part of a quarter for which the book is not returned.

(l) Teaching staff and postgraduate students may apply to borrow books from another library through the Interloans Assistant. Such books are subject to the conditions imposed by that library.

(m) The gramophone records held in the General Library shall be available for borrowing on payment of a subscription determined by the University Librarian from time to time.*

(n) Library books may be taken out of New Zealand only with the prior permission of the University Librarian.

(o) Authorised librarians may refuse to issue excessive numbers of books to any one reader.

* Current subscriptions are: students \$9; staff and graduate borrowers \$10.

Discipline

6. (a) Bags, satchels and briefcases shall not be taken into the Library.

(b) Under no circumstances shall a book be passed on to another reader without being re-issued in that reader's name. Where this regulation is broken the reader in whose name the book is issued shall remain liable for all fines payable by reason of failure to return a book which is overdue or recalled.

(c) Every reader shall immediately notify to the Library any change of his address and thereupon renew the borrowing of all books issued to him.

(d) (i) Readers shall be responsible for, and shall make good, any loss of or damage to books on loan to them or being used by them in the Library. In addition to the cost of replacement or repair, readers may be charged an administration fee of \$5, whether or not the book if lost is subsequently found and returned in good order.

(ii) The loss of a book shall be reported immediately to an authorised librarian.

- (iii) A lost book remains the property of the University, notwithstanding payment of the bill for its replacement, and must be returned if found. A refund (in whole or part, according to the condition of the book on return) will be made for it but the administration fee may be retained.
- (e) No reader shall deface or mark any book.
- (f) The reservation of seats in the Library shall not be permitted. Books and any other articles left for any length of time on chairs or tables may be removed by any of the Library staff. No responsibility is accepted for personal belongings left in the Library.
- (g) Silence shall be observed in all public reading areas.
- (h) Bottles of ink shall not be brought into the Library.
- (i) No reader shall smoke or shall consume food or drink in any part of the Library open to readers.
- (j) A warning signal will be given 15 minutes before closing time and all readers shall vacate the Library by closing time.
- (k) Library fines or bills shall be paid at the lending desk of the Library concerned.
- (l) Where a fine or charge is not paid within 14 days of becoming due.
- (i) the University Librarian may withdraw library privileges from the reader in default for such period as he thinks fit;
- (ii) the Senate may impose on the reader any of the following penalties; refusal of terms; withholding of examination scripts; refusal of re-enrolment for the next academic year; disqualification from graduation.
- (m) No reader may borrow from the Library while any fine or charge payable by him is outstanding.
- (n) Any authorised librarian may require any reader who is guilty of disorderly or improper conduct or of any breach of these regulations to withdraw from the Library and the University Librarian may withdraw library privileges from that person for such period as he thinks fit. Nothing in these regulations shall limit the application to the Library (where relevant) of the Disciplinary Regulations 1972.

Note: The unauthorised borrowing or removal of books is regarded as a serious disciplinary offence.

Copyright

7. Every reader using copying facilities in the Library shall duly comply with the laws on copyright.

Note: (i) Readers are warned that if a copyright work is copied the copying must be a "fair dealing for the purpose of research or private study only" to comply with the laws on copyright.

- (a) No more than one copy of the work must be taken.
- (b) No whole copyright work by any author can be copied.
- (c) Single extracts must not exceed 4000 words. If a series of extracts is required, each extract must not exceed 3000 words to a total of 8000 words. In neither case must the total amount copied exceed 10% of the whole work.
- (ii) These rules apply to coin-operated copying machines and not to photocopying supplied by librarians.
- (iii) Failure to observe these rules may be treated as a breach of discipline. Users who are in doubt as to whether an item is in copyright should consult a member of the Library Staff.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF ARTS

BA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations; for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Arts shall follow a course of study of not fewer than three years.
2. The course of study for the Degree shall consist of twenty-one papers selected from those listed in the Schedule to these Regulations. Papers are classified in three stages, I, II, and III.
3. Every course of study shall include at least fourteen papers selected from subjects in Group A in the Schedule.
4. Every course of study for the Degree shall include
 - (a) at least six papers in one subject of which three are at stage III level;
 - (b) at least eleven papers higher than stage I level selected from two or more subjects;
 - (c) no more than eleven papers in any one subject.
5. Every course of study shall consist of four, five or six subjects: provided that in exceptional circumstances the Senate may, upon the recommendation of the Heads of Departments in which the candidate proposes to take advanced papers, approve a course consisting of more than six subjects.
6. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.

Requirements for Particular Subjects.

7. A candidate wishing to be enrolled in any subject which is also a subject of examination for the Degree of Bachelor of Science shall comply with such of the course Regulations for that Degree relating to prerequisites, combinations of subjects, and practical work, as are applicable to that subject, save where the Senate in individual cases allows otherwise.

Botany, Chemistry, Economics, Geography, Mathematics, Physics, Zoology

8. (a) A candidate may with the permission of the Senate enrol for stage II papers of a subject to which this Regulation applies without having been credited with the stage I papers. If a candidate is credited with stage II papers he shall not also have the stage I papers of the subject credited to his course. If the examiner certifies that the candidate though failing a stage II paper or papers, attained the standard of a pass at stage I of the subject, the candidate shall have the appropriate stage I paper or papers credited to his course.

- (b) This Regulation applies to the following subjects:

Botany	Mathematics
Chemistry	Physics
Economics	Zoology
Geography	

Chinese, Indonesian, Japanese

9. (a) A candidate with previous knowledge in any subject to which this Regulation applies may be required by the Senate to take stage II papers of that subject without having passed stage I papers. If the candidate passes stage II papers he shall be credited with stage II papers but shall not be credited with stage I papers as papers for any University degree or diploma. If the examiner certifies that the candidate though failing a stage II paper or papers, attained the standard of a pass at stage I of the subject, the candidate shall have the appropriate stage I paper or papers credited to his course.

- (b) This Regulation applies to the following subjects: Chinese, Indonesian, Japanese.

Law

10. (a) This Regulation applies (notwithstanding the provisions of Regulations 2, 3, 4, 5 and 6) to a candidate for this Degree who has been credited for this Degree with not less than fourteen papers (in this Regulation called 'arts papers'), of which three are at stage III level in one subject and five others are at a higher level than stage I.

- (b) Where the candidate:

(i) has been credited with fourteen arts papers and
 (ii) has been credited for the Degree of LLB or LLB (Hons) with five subjects from those listed in Parts I and II of the Schedule to this Regulation, of which at least two are from Part II — he shall be entitled to be credited with those five subjects as the remaining seven papers for this Degree.

(c) Where the candidate:

(i) has been credited with more than fourteen but less than twenty-one arts papers and

(ii) has been credited for the Degree of LLB or LLB (Hons) with one or more subjects from those listed in Parts I and II of 10(f) below.

then, if the Dean of the Faculty of Arts deems the subject or subjects (so credited) to be of sufficient weight, the candidate shall be entitled to be credited with it or them as the remaining paper or papers for this Degree.

(d) A candidate who has completed or is completing his course for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) under the Regulations published in the University of Auckland *Calendar* 1966, and who invokes this Regulation, may be credited with the subject: Constitutional and Administrative Law in place of the subject Constitutional Law.

Music

11. (a) Except with the leave of the Senate, no candidate may advance in Music (that is take any papers in that subject beyond Stage I level) unless he has, before enrolling for any Stage I paper in Music, satisfied the Head of Department that he has attained a suitable standard in the subject.

(b) A candidate advancing in Music shall comply with Regulations 6 and 7 of the Regulations for the Degree of Bachelor of Music as if he were enrolled for that Degree.

Oral Work

12. In each of the subjects Chinese, Indonesian and Japanese a candidate shall be required to pass in the oral work as well as the written papers.

Cross-credits, Credit, and Exemptions

13. (a) Except in the case of students to whom Regulations 10 applies, the total cross-credits, credits and exemptions granted to a candidate under Regulations 12, 13 and 14 of the Enrolment and Course Regulations (General) shall not exceed ten papers for this Degree.

(b) In the case of students to whom Regulation 10 applies, the maximum number of cross-credits, credits and exemptions granted to a candidate under Regulations 12, 13 and 14 of the Enrolment and Course Regulations (General) shall be determined by the Dean.

14. Notwithstanding anything in these Regulations a candidate who has successfully completed:

(i) a course or courses at a Teachers' College under the control of the Auckland Teachers' Colleges Council; or

(ii) the requirements for a Certificate Course of the Centre for Continuing Education, as listed in the Schedule to Regulation 13 of the Enrolment and Course Regulations (General), may be granted credit for this degree as provided by that Regulation.

15. The Senate may in such exceptional cases as it thinks fit, approve a personal Course of Study which does not conform to the foregoing Regulations. Such a course may include papers

offered in other Faculties.

16. (a) Except as otherwise provided in this Regulation, the Course of Study of every candidate shall be governed by these Regulations.

(b) A candidate who gained credit in any unit or units under any of the former Regulations for this Degree, shall be credited with such equivalent paper or papers as the Senate shall determine.

(c) For candidates who enrolled for this Degree before 1973 the subject prerequisites, corequisites and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department concerned.

(d) A candidate who gained credit in any paper or papers under any of the former Regulations may complete the Degree under these present regulations;

(e) These Regulations shall come into force on January 1 1981.

Schedule

1. This Schedule sets out paper numbers, prerequisites, corequisites, subjects, restrictions and other conditions applying to courses for the Degree of Bachelor of Arts.

2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the *Calendar*.

3. (a) The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

(b) Where a prerequisite has been waived by a Head of Department and re-imposed as a corequisite the paper or papers as to which that corequisite is imposed may not be credited as a pass for the candidate's Course of Study unless and until he has passed that corequisite.

4. (a) The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year. Except as provided elsewhere in these Regulations or in this Schedule, if a corequisite of a paper is failed then the paper passed cannot be used as a prerequisite to other courses.

(b) Except as provided elsewhere in these Regulations or in this Schedule, the corequisite marked ** in the Schedule are linked in the sense that they (i) must be attempted in the same year and will not be credited separately.

(ii) will be treated as a unit for the purpose of Examination Regulation 5 (b), of the Examination Regulations.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

The papers prescribed for this Degree are:

ANCIENT HISTORY

Group A

Ancient History I

12.100 Near Eastern History

11.100

12.102 Greek History

12.103 Roman History

Ancient History II

*12.200 A topic in Egyptian History

12.100 or 11.100

12.102 or 12.103

12.201 A topic in Mesopotamian History

with optional Early
English

Any two English I
papers

18.201 English Language

As for 18.200

18.210 16th and 17th Century
Prose and Poetry

As for 18.200

18.211 16th and 17th Century Drama

As for 18.200

18.212 Shakespeare: Selected Plays:
Tragedies and Comedies

As for 18.200

18.220 The English Novel 1900-1945

As for 18.200

See Qualifications
column

18.313

18.204

18.321

Students are advised that it is in their interest to take three English II papers in the same year.

Candidates may take a fourth paper in English II either concurrently or in a later year. The taking of a fifth paper requires Head of Department's permission, which will only be given in rare cases.

By permission of the Head of Department pre-requisites may be waived; such action will however be virtually limited to single papers for students who have fulfilled or are fulfilling Regulation 4(a) with three Stage III papers in another subject.

Note: Candidates should note that for entry to English III it is essential to have passed 18.200 or 18.201 and two of 18.210-18.212. However, by special permission of the Head of Department, students who have passed either 18.200 or 18.201 and either 18.210 or 18.211 and one other English II paper from 18.200, 18.201 and 18.220 may enrol in English III provided a further paper from 18.210, 211, 212 is enrolled in concurrently with the Stage III paper(s) and is subsequently passed.

Title of paper		Prerequisites	Corequisites	Restriction	Qualifications

**One French I
Text paper

All French I language papers are mutually exclusive except that, subject to the consent of the Head of Department, 34.100 may be taken after passing any other French I language paper except 34.110.

Selection of a French I language paper is subject to the consent of the Head of Department.

By permission of the Head of Department the co-requisite requirements may be waived, in particular so that a candidate may (a) present 34.100 or 34.110 alone, (b) present 34.102 instead of 34.100 as co-requisite to a text paper.

The marks for 34.100 or 34.110 bear a relative weighting of 3 to 2 for a co-requisite Text paper.

<i>Title of paper</i>		<i>Prerequisites</i>	<i>Corequisites</i>	<i>Restriction</i>	<i>Qualifications</i>

Subject Accounting Management Studies Applied Mathematics Botany Computer Science Chemistry Environmental Studies Geology Physics Zoology	Group B			
	Papers 01.102 and 01.103 as prescribed for the Degree of BCom. Management Studies paper 72.200 as prescribed for the Degree of BCom. For this paper prerequisites of two Economics I papers and two other papers or their equivalent will be required. Management Studies paper 72.303 and 72.305 as prescribed for the degree of BCom. Paper 72.200 is prerequisite. Six credits in each subject at Stage I (BSc) is equivalent to one Stage I paper in that subject (BA). Four credits in each subject at Stage II (BSc) is equivalent to one Stage II paper in that subject (BA). Four credits in each subject at Stage III (BSc) is equivalent to one Stage III paper in that subject (BA)			

* Starred papers will not be taught during the current *Calendar* year.

† Daggered papers will not be taught during the current *Calendar* year unless sufficient staff is available.

** Linked corequisite papers must be attempted in the same year and will not be credited separately.

THE DEGREE OF MASTER OF ARTS

MA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Arts shall before his enrolment for this Degree

(a) have been admitted or qualified for admission to the Degree of Bachelor of Arts, except as provided in Regulation 2 below, and

(b) (i) have fulfilled the prerequisites for his subject as listed in the Schedule to these regulations and have obtained a grade higher than an average of C in the Stage III papers in the subject he proposes to attempt for MA;

(ii) provided that in special circumstances where the Head of Department so recommends the Senate may accept an average grade of less than C+ or waive such prerequisites as it thinks fit.

2. Subject to the Admission Ad Eundem Statum Regulations, a candidate may enrol for this Degree after having completed at least nineteen papers, including eleven papers at advanced level, for the Bachelor of Arts Degree, provided that

(a) his proposed course for this Degree will extend over not fewer than two academic years;

(b) he has obtained grades averaging B — or above in the advanced papers for the Bachelor of Arts Degree of the subject which he proposes to take for this Degree;

(c) he satisfies the conditions in Regulation 1(b) above, or is exempted from them;

(d) the remaining paper or papers for the Bachelor of Arts Degree are not in the subject which he proposes to take for this Degree nor prerequisite to it;

(e) he enrolls for these two papers in the first year of his course for this Degree;

(f) should he not pass the remaining paper or papers in the first year of his Master of Arts course, his Master's course shall be suspended until he has passed the remaining paper or papers.

3. Except as provided elsewhere in these Regulations and in the Schedule a candidate shall take all papers required for this Degree in the same year. The Senate may require a candidate not devoting his full time to University work to take a prescribed course of studies for two years before taking the examination for any papers.

4. A candidate presenting subject 16, Languages and Literature, shall satisfy the requirements of Regulation 1(b) (i) in respect of each of the languages in his course. A candidate presenting subject 20 Mathematics, shall satisfy the requirements of Regulation 1(b) (i) in respect of Mathematics and Applied Mathematics.

5. A candidate shall be required to fulfil the requirements and pass the examination in one of the subjects prescribed in the Schedule provided that the Head of Department may require a student who fails to achieve a sufficient level in his paper or papers to substitute a further paper or papers for a thesis, dissertation or research essay where these are prescribed.

6. Notwithstanding anything in Regulation 5, a candidate for this Degree may with the permission of the Senate take:

(i) one Stage III or one Master's paper or:

(ii) one Stage III and one Master's paper or:

(iii) two Master's papers, in a subject other than the one in which he is taking his Degree, or:

(iv) two Master's papers or one Master's and one Stage III paper in:

subjects that both differ from the one in which he is taking this Degree, if in each case such a paper is related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the Degree is being taken.

7. No candidate shall take for this Degree any paper the same as or substantially equivalent to any other paper he has passed or is taking and obtain credit for both for this Degree.

8. No candidate who has previously failed in a subject for this degree shall enrol a second time in the same subject without the permission of Senate. For the purpose of this regulation, subject 16 Languages and Literature and any one of the individual subjects which under Clause 16 of the appended Schedule may be used to make up a combined Languages and Literature course, shall be regarded as the same subject.

9. The personal course of study of every candidate must be approved by the Head of Department.

Theses

10. Where a thesis is required the following conditions shall apply:

(a) The thesis shall embody the results obtained by the candidate in an investigation relating to some branch of the subject; or with the approval of the Senate shall consist of a review of the literature of some special problem, which may be combined with the repetition of some standard investigation on an aspect of that problem.

(b) In the case of a thesis recording laboratory work, a certificate shall be supplied to the Registrar by the supervisor stating that laboratory work has been carried out within the University.

(c) Except where otherwise provided in the schedule, the candidate must present his thesis in the year in which he first sits papers for his degree or, with the consent of the Head of Department concerned, in either of the subsequent two years, provided that the time may be extended, in exceptional cases, by Senate.

(d) The candidate shall submit his thesis to the Registrar by 1 November of the academic year in which it is presented or at a subsequent date within that academic year if so arranged with the Head of his Department. The Registrar shall deliver the thesis to the Head of the Department concerned.

(e) If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date specified by the examiner and approved by Senate.

11. Where a dissertation or research essay is required the following conditions shall apply:

(a) The candidate shall present the dissertation or research essay in the year prescribed under the appropriate Departmental heading in the Schedule;

(b) Except as provided in the Schedule, the candidate shall submit the dissertation or research essay to the Registrar by 1 November in the year in which it is due to be completed or at a subsequent date within the same academic year if so approved by the Head of Department concerned, provided that the period may be extended, in exceptional cases, by Senate. The Registrar shall deliver the dissertation or research essay to the Head of Department.

Note: An abstract is to be submitted with each copy of a thesis, dissertation or research essay, see Examination Regulation 14.

Honours

12. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory: provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he shall still be eligible for the award of Honours, subject to the provision of Subclause (c) of this Regulation.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree: Provided that the time may be extended, in exceptional cases, by the Senate. For the purpose of this Subclause, the academic year is deemed to begin on 1 March.

13. A candidate shall not take for this Degree a subject in which he has already passed for the Degree of Master of Commerce, or for the Degree of Master of Science, or as a principal subject for the Degree of Bachelor of Science (Honours).

14. The Senate, upon the recommendation of the Head or Heads of Departments concerned, may, in such exceptional circumstances as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations or to the Schedule below.

Schedule

(1) Ancient History

Prerequisites: Eight papers in the subject of Ancient History including three Stage III papers OR six papers in Ancient History if a student has passed three Stage III papers in Latin or Greek.

Requirements: Four papers and a special subject which counts as two papers and an essay which counts as one paper.

The papers shall be selected from 12.400-12.414, provided that one paper not already taken may be taken from 12.300-12.304. The special subject shall be one from 12.500/510 to 12.520/12.530.

Notwithstanding anything in Regulation 3 a candidate shall present three or four papers in the first year and the remaining paper (if any) and the special subject and an essay (12.603) or dissertation (12.604) in the year next following.

(2) Anthropology

Prerequisites: (i) Either eight papers in Anthropology and Maori Studies, or Anthropology and Linguistics, including three Stage III papers in Anthropology;

(ii) or with the special permission of Senate, three papers in Maori Studies III and five papers in Anthropology.

Requirements: Seven papers, or four papers and a thesis (03.601) which counts as three papers. The papers shall be selected from 03.400 to 03.417, 03.300 to 03.330, 83.300 to 83.307, 04.302 to 04.307 with no more than three papers from the following group of papers: 03.300 to 03.330, 83.300 to 83.307, 04.302 to 04.307.

Notwithstanding anything in Regulation 3, and except with the special permission of the Senate.

(i) a candidate shall present four papers in the first year and if taking seven papers, present the remaining papers in the following year.

(ii) a candidate who is engaged in full-time employment, or with other demanding responsibilities, may be permitted by the Head of Department to present three papers in the first year, or in special circumstances, two papers in the first year, and if taking seven papers, shall present all papers within three years of first enrolment for the degree.

(3) Art History

Prerequisites: Eight papers in the subject of Art History including three Stage III papers plus a pass in Stage I of Greek, Latin or a modern European language other than English.

Requirements: Four papers and a thesis (19.601) which counts as three papers. The papers shall be selected from either papers 19.400 to 19.408; or three papers 19.400 to 19.408 and one paper from options prescribed for Art History III; or two papers 19.400 to 19.408 and two papers from options prescribed for Art History III; provided that no paper that has been credited to the degree of Bachelor of Arts shall be taken for this Degree, and that papers 19.305 and 19.401 may not both be taken for this Degree.

(4) Chinese

Prerequisites: Eight papers in the subject of Chinese including three Stage III papers.

Requirements: Six papers and a dissertation (48.604) which counts as one paper.

Papers 48.400 and 48.401 and four others selected from 48.402 to 48.417. Notwithstanding anything in Regulation 3 a candidate may present the six papers and a dissertation in the same year of four papers in the first year including 48.400 and 48.401, and the two papers and dissertation in the year next following. The dissertation must be presented by 1 November in the second year of the course provided this period may be extended to 28 February of the following year with the permission of the Head of Department and provided further that the time may be extended by the Senate in special cases.

(5) Economics

Prerequisites: Eight papers in the subject of Economics including three Stage III papers.

Requirements: Six papers; for four papers and a thesis (13.601) which counts as two papers; or

five papers and a research essay (13.603) which counts as one paper.

The papers shall be selected from 13.400 to 13.412.

Notwithstanding anything in Regulation 3 a candidate presenting five papers and a research essay or six papers shall either present all papers and the research essay in the same year or, having presented four papers in the first year, present the remaining two papers or the one paper and research essay in the year next following.

(6) Education

Prerequisites: Eight papers in the subject of Education including three Stage III papers.

Co-requisites: Whenever 14.408 is taken, 14.407 or 32.413 must be taken concurrently or have been taken in the preceding year.

Requirements: (i) Four papers and a thesis (14.601) which counts as three papers. The papers shall be selected from 14.400 to 14.417.

OR (ii) Four papers and a folio of case work (14.606) with associated seminars counting as three papers. A candidate taking this course shall take four papers in the first year of enrolment, these four to include 14.405, 14.410 and two optional but relevant papers which must be approved by the Head of Department. Over the next one to two years he must prepare a folio of case work and attend a seminar course in guidance and counselling. At the end of this first year no more than ten students chosen on academic criteria and personal qualities will be permitted to proceed to the second year. Those not so chosen may complete this Degree by presenting a thesis.

OR (iii) Five papers as required as prerequisites for the Diploma in Educational Psychology Reg. 1(6) and a thesis (14.611) which counts as two papers.

In exceptional circumstances the Head of Department may permit a candidate who has attempted a thesis or folio of case work to complete the MA as either:

(iv) Six papers and a dissertation (14.604) which counts as one paper

OR (v) Seven papers.

Notwithstanding anything in Regulation 3 a candidate may, with the consent of the Head of Department, be permitted to present three papers or two papers in the first year and remaining papers in the year next following.

Note: In considering applications to attempt two or three papers only in the first year, the Head of Department may take into account the extent of a student's employment or other responsibilities outside the University.

(7) English

Prerequisites: (i) Two approved papers in a language other than English (normally two Stage I papers of a European language or two approved Stage II language papers from Maori Studies) and

(ii) Eight papers in English including 3 papers at Stage III with co-requisites and,

(iii) *Either* 3 further papers at Stage III which may be in English or in other subjects approved individually;

Or 2 further approved papers at Stage III in any subject or subjects if a student has taken four papers in English II

Note: Papers automatically approved for this purpose include papers at Stage III in allied subjects such as, languages other than English, History, Philosophy, Art History, Music. Other papers and combinations of papers are approved individually.

Requirements: Seven papers; or five papers and a thesis (18.601) which counts as two papers; or six papers and a dissertation (18.604) which counts as one paper. A research essay (18.603) may be substituted for the dissertation.

Notwithstanding anything in Regulation 3 candidates presenting

(a) Seven papers or

(b) Six papers and a research essay or dissertation shall present all papers or all papers and the research essay or dissertation in the same year or, having presented four papers in the first year, present the remaining three papers or two papers and research essay or dissertation in the year next following. Other combinations may be presented only with permission of the Head of Department, provided that no candidate may present fewer than three papers in the first year.

The papers shall be selected from 18.400 to 18.407, 18.409 to 18.422, 18.424 to 18.428, and from (but shall include not more than one of) the Stage III English papers for the Degree of Bachelor of Arts.

(8) French

Prerequisites: Eight papers in the subject French including three Stage III papers.

Requirements: Seven papers; or four papers and a thesis (34.601) which counts as three papers. Paper 34.400 and either six or three papers selected from 34.401 to 34.423. Paper 34.421 may only be taken with the permission of the Head of Department.

Notwithstanding anything in Regulation 3 a candidate presenting seven papers shall either present all papers in the same year or having presented four papers, one of which shall be paper 34.400, in the first year, shall present, with the approval of the Head of the Department, his thesis or the remaining three papers in the year next following.

(9) Geography

Prerequisites: Eight papers in the subject Geography including three Stage III papers.

Requirements: Four papers and a thesis (20.601) which counts as three papers. Notwithstanding anything in Regulation 3 a candidate must enrol for and sit the four papers in the first year, present the thesis in the year next following. In exceptional circumstances the Head of Department may defer the year of presentation and/or the date of submission.

Papers shall be selected from 20.400 to 20.441.

(10) German

Prerequisites: Eight papers in the subject German including three Stage III papers.

Requirements: Seven papers; or, with the approval of the Head of Department, five papers and a thesis (22.601) which shall count as two papers. Paper 22.400 and six papers selected from 22.401 to 22.417.

Notwithstanding anything in Regulation 3 a candidate presenting seven papers shall either present all papers in the same year or, having presented four papers in the first year, shall present the remaining three papers, or the thesis and one paper, in the year next following.

(11) Greek

Prerequisites: Eight papers in the subject Greek including three Stage III papers.

Requirements: Six papers.

Paper 10.400 and 10.401 and four papers selected from 10.402 to 10.408. The selection is to be approved by the Head of Department.

(12) History

Prerequisites: Eight papers in the subjects History or Asian History or both including three Stage III papers.

Requirements: Five papers and a research essay (24.603) which shall count as one paper; or four papers and a thesis (24.601) which shall count as two papers.

The papers shall be selected from 24.400 to 24.421.

Notwithstanding anything in Regulation 3, candidates presenting a research essay may attempt the five papers and present the essay in one year, or attempt four papers in the first year and present the remaining paper and research in the second year, or with the permission of the Head of Department attempt three papers in the first year and present the remaining two papers and research essay in the second year. Candidates presenting a thesis must attempt four papers in the first year.

(13) Indonesian

Prerequisites: Eight papers in the subject Indonesian including three papers at Stage III or Masters level.

Requirements: Six papers and a dissertation (80.604) which counts as one paper.

Papers 80.400, 80.401, 80.402 and three papers selected from 80.403 to 80.409.

Notwithstanding anything in Regulation 3 a candidate may present the six papers and a

dissertation in the same year or four papers in the first year and the two papers and the dissertation in the year next following.

The dissertation must be presented by 1 November in the second year of the course provided that this period may be extended to 28 February of the following year with permission of the Head of the Department and provided further that the time may be extended by the Senate in special cases.

(14) *Italian*

Prerequisites: Eight papers in the subject Italian including three Stage III papers.

Requirements: Seven papers; or four papers and a thesis (35.601) which counts as three papers. Paper 35.400 and either six or three papers selected from 35.401 to 35.424.

Notwithstanding anything in Regulation 3 a candidate presenting seven papers shall either present all papers in the same year or having presented four papers, one of which shall be paper 35.400, in the first year, shall present, with the approval of the Head of the Department, the thesis or the remaining three papers in the year next following.

(15) *Japanese*

Prerequisites: Eight papers in the subject Japanese including three Stage III papers.

Requirements: Six papers and a dissertation (81.604) which counts as one paper.

Papers 81.400, 81.401 and four papers selected from 81.402 to 81.407.

Notwithstanding anything in Regulation 3 a candidate may present the six papers and a dissertation in the same year or four papers in the first year including 81.400, 81.401 and the two papers and the dissertation in the year next following.

The dissertation must be presented by 1 November in the second year course provided that this period may be extended to 28 February of the following year with permission of the Head of the Department and provided further that the time may be extended by the Senate in special cases.

(16) *Languages and Literature*

Prerequisites: For the specific prerequisites for the individual courses a candidate is referred to the individual subjects making up a combined Languages and Literature course.

Requirements: Seven papers in any two of the subjects (i) to (viii); three papers to be taken from each language chosen and the seventh paper to be taken from either language chosen to be approved by the Head of the Department concerned.

(i) *English*

Two papers selected from 18.400 to 18.403 inclusive and one or two other papers from 18.404 to 18.407, 18.409 to 18.422 and 18.424 to 18.428. This selection of papers may be varied by permission of the Heads of the Departments concerned.

(ii) *Greek*

Paper 10.400, and two or three from 10.401 to 10.408.

(iii) *Latin*

Paper 9.400 and two or three from 9.401 to 9.407.

(iv) *French*

Paper 34.400 and two or three from 34.401 to 34.423.

(v) *German*

Three or four papers from 22.400 to 22.417.

(vi) *Italian*

Paper 35.400 and two or three from 35.401 to 35.420

(vii) *Russian*

Paper 43.410 and two or three from 43.411 to 43.425.

(viii) *Spanish*

Paper 45.400 and two or three from 45.401 to 45.419.

Notwithstanding anything in Regulation 3 a candidate presenting seven papers shall either present all papers in the first year or, having presented four papers in the first year, present three papers in the year next following.

(17) Latin

Prerequisites: Eight papers in the subject Latin including three Stage III papers, together with (i) two Stage I Greek papers, or

(ii) Greek 10.100 if a student has passed Ancient History 12.202.

Requirements: Six papers.

Papers 09.400 and 09.401 and four papers selected from 09.402 to 09.407. The selection is to be approved by the Head of Department.

(18) Linguistics

Prerequisites: Either eight papers in the subject Linguistics including three papers at Stage III level; or, with the permission of the Senate on the recommendation of the Head of Department, five papers in the subject Linguistics and three papers at Stage III level in the subject Maori Studies or in a language subject other than English.

Requirements: Four papers and a thesis (83.601) which shall count as three papers. The papers shall be selected from papers 83.400 to 83.403, 04.400 and 83.300 to 83.307 except that not more than two papers may be selected from 83.300 to 83.307.

Notwithstanding anything in Regulation 3

(i) a candidate shall present four papers in the first year,

(ii) a candidate who is engaged in full-time employment, or with other demanding responsibilities, may be permitted by the Head of Department to present two papers in the first year and two papers in the following year.

(19) Maori Studies

Prerequisites: Eight papers in the subject Maori Studies including three papers at Stage III level.

Requirements: Four papers and a thesis (04.601) which shall count as three papers. The papers shall be selected from papers 04.400 to 04.402 and 04.302 to 04.307 except that not more than two papers may be selected from 04.302 to 04.307.

Notwithstanding anything in Regulation 3.

(i) a candidate shall present four papers in the first year,

(ii) a candidate who is engaged in full-time employment, or with other demanding responsibilities, may be permitted by the Head of Department to present two papers in the first year and two papers in the following year.

(20) Mathematics

Prerequisites: Mathematics 220 or 221, 240 or 241, 260 (or 261 if passed before 1978) plus twenty 300 or 400 level credits approved by the Head of the Mathematics Department.

Of those twenty credits at least 16 shall be from courses in Mathematics and Computer Science, except that in special circumstances the Head of Department may approve a minimum of 12 such credits from Mathematics and Computer Science.

Papers totalling 20 credits and a thesis (26.601) which will count as 16 credits or papers totalling 20 credits and an advanced course of study (26.605) which will count as 16 credits.

A selection approved by the Head of the Department of Mathematics of papers from Mathematics 400 to 499 and Computer Science 400 to 499 with total value as shown in the *Prescriptions* of 20 credits together with a thesis or an advanced course of study, provided that up to four of these credits may be replaced by four stage three credits from papers in Mathematics and Computer Science not already taken for any degree or Diploma.

(21) Music

Prerequisites: Eight papers in the subject Music including 28.309, at least one of 28.202, 28.210 and 28.211 and at least one of 28.303 to 28.308; the candidate must satisfy the Head of the Department of his proficiency as a performer and his ability to read an approved language other than English.

Requirements: Four papers and a thesis (28.601) which shall count as two papers. The papers shall consist of 28.423, at least one of 28.406, 28.407, 28.409, 28.414, and two other papers selected from 28.400 to 28.402, 28.404 to 28.407, 28.409, 28.411, 28.414 to 28.416, 28.419 and

28.422. Candidates may with the approval of the Head of the Department include one or two papers not previously taken from those listed for Music III, but their course must include two examinable papers from 28.400 to 28.402, 28.404 to 28.407, 28.409, 28.414, 28.419 and 28.422.

(22) Philosophy

Prerequisites: Either: Eight papers including 29.101 and 29.306 and three other Stage III papers in the subject Philosophy.

Or: Eight papers including 29.101 and 29.306 in the subject Philosophy with two other Stage III papers in Philosophy and three other Stage III papers in any subject or subjects.

Requirements: Six papers; or four papers and a thesis (29.601) which shall count as two papers. One and only one paper may be selected from those at Stage III (29.300 to 29.307) which the student has not previously passed. All the other papers must be selected from 29.400 to 29.420. Notwithstanding anything in Regulation 3 a candidate shall present either all papers in the same year or, having presented four papers in the first year, present the remaining two papers in the year next following.

(23) Political Studies

Prerequisites: Eight papers in the subjects Political Studies and Asian Politics including three Stage III papers.

Requirements: Four papers and a thesis (30.601) which shall count as three papers; or seven papers.

The papers shall be selected from 30.400 to 30.412.

Notwithstanding anything in Regulation 3 a candidate presenting seven papers shall present four papers in the first year and present the remaining three papers in the year next following, except that, with the consent of the Head of Department, a candidate may present three papers in the first year and the remaining four papers in the year next following.

(24) Psychology

Prerequisites: Eight papers in the subject Psychology including three Stage III papers.

Requirements: Seven papers, or four papers and a thesis (32.601) which shall count as three papers. The papers shall be selected from 32.401 to 32.421. Except with special permission of the Head of Department, a candidate may enrol for a thesis subsequent to the first year of enrolment for this Degree only if he obtains an average grade of at least B- in the four papers.

Notwithstanding anything in Regulation 3 a candidate shall present 4 papers in the first year and if taking 7 papers present the remaining papers in the following year. A candidate who is engaged in full-time employment or with other demanding responsibilities may be permitted by the Head of Department to present 3 papers or in special circumstances, 2 papers in the first year; and if taking 7 papers shall present the papers within three years of first enrolment for the degree.

(25) Russian

Prerequisites: Eight papers in the subject Russian including three Stage III papers (43.310 and two others).

Requirements: Seven papers, or five papers and a thesis (43.601) which shall count as two papers. Papers 43.410 and at least one paper from 43.411 to 43.416 and at least one from 43.418 to 43.425. Paper 43.418 is a requirement for students intending to present a thesis in Russian literature. Notwithstanding anything in Regulation 3 a candidate presenting seven papers may present four papers in the first year and the remaining three papers in the year next following, or, with the consent of the Head of Department, three papers in the first year and the remaining four in the next following. All candidates presenting a thesis shall present either four or five papers in the first year and the remaining paper (if any) and the thesis in the year next following.

(26) Sociology

Prerequisites: Eight papers in the subject Sociology including three Stage III papers (normally including 82.312).

Requirements: Four papers and a thesis (82.601) which counts as three papers. With the

permission of the Head of Department, a student may take five or six papers, presenting a thesis (82.611) worth two papers or a research paper (82.603) or dissertation (82.604) worth one paper. In these cases the length shall not exceed 20,000 or 10,000 words respectively. The papers shall be selected from 82.400 to 82.416.

Notwithstanding anything in Regulation 3 a candidate shall either present all papers in the same year, or not fewer than two papers in the first year, presenting the remaining paper or papers in the following year.

(27) Spanish

Prerequisites: Eight papers in the subject Spanish including three Stage III papers.

Requirements: Seven papers; or four papers and a thesis (45.601) which counts as three papers. Paper 45.400 and either six or three papers selected from 45.401 to 45.421. Notwithstanding anything in Regulation 3 a candidate presenting seven papers shall either present all papers in the same year or, having presented four papers, one of which shall be paper 45.400, in the first year, shall present, with the approval of the Head of the Department, the thesis or the remaining three papers in the year next following.

†These papers will not be taught during the current *Calendar* year unless sufficient staff is available.

THE DEGREE OF DOCTOR OF LITERATURE

LittD

General Provisions

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Literature shall be a graduate of the University of Auckland, or of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Literature until at least eight years after graduation to his first degree.

3. The Degree of Doctor of Literature shall be awarded for an original contribution (or contributions) of special excellence to linguistic, literary, philosophical, social or historical knowledge.

4. The degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with

(a) Three copies of the work to be examined;

(b) A statutory declaration which shall

(i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and

(ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and

(iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination Procedure

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall

(a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application; and

(b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may

(a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or

(b) elect to proceed with the examination.

9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.

(b) The contents of the Moderator's report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:

(a) to report independently on the quality of the work and its value as a significant contribution to learning; and

(b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded by the Examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A re-submission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the degrees shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

DEGREE COURSE PRESCRIPTIONS

DEPARTMENT OF ANTHROPOLOGY

The Department of Anthropology includes three subjects: Anthropology, Maori Studies and Linguistics.

Some papers in this Department are offered under more than one subject. Such a paper will be listed under the same short title, but with a different code number for each subject. Thus *Introduction to Maori Society* is listed both under Anthropology with the code number 03.102, and Maori Studies, with the code number 04.101. Students will choose the subject under which they wish to take such double-listed papers.

No paper may be credited twice to the same degree.

Note: * This paper will not be taught during the current *Calendar* year

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Anthropology Stage I Level

Social Anthropology Papers

03.100 Introduction to Social Anthropology

Basic anthropological issues and approaches to the study of culture.

(1 hour lecture per week and 1 hour weekly tutorial; taught in two streams).

03.102 Introduction to Maori Society

Traditional Maori society; the effects of European contact; the contemporary culture. This same paper is offered as Maori Studies 04.101.

(1 hour lecture, 1 hour tutorial)

Prehistory paper

03.101 Elementary Prehistoric Archaeology and Physical Anthropology

Biological variation and evolution in human populations; evolution of the human species; behavioural and cultural evolution of Man up to the emergence of the first cities.

(1 hour lecture per week and 1 hour tutorial; taught in two streams).

Anthropology Stage II Level

Students should note that papers 03.200, 03.201, 03.202, 03.203, 03.204, 03.206, 03.207, 03.208 and 03.209 are pre or corequisite to certain Stage III and MA papers. Papers 03.200, 03.201, 03.202, 03.203, 03.204, 03.206, 03.207, 03.210 and 03.213 are available to a candidate who has not completed the normal prerequisite, provided that he has passed four papers in any subject, or subjects, and takes the normal prerequisites as a corequisite.

Social Anthropology Papers

03.200 Ethnography of Island Polynesia

A survey of a number of pre-European and contemporary rural Polynesian societies with emphasis on traditional Polynesian social, economic and political organisation. Prerequisite 03.100.

(2 hour lecture).

03.201 Melanesian Ethnography

A survey of Melanesian societies, with emphasis on traditional and changing social, economic, political and cultural features, especially on the village level. Prerequisite 03.100.

(2 hour lecture, discussion; taught in two streams).

03.202 Social Organisation

A survey of various methods for the description and analysis of social organisation. Prerequisite 03.100

(1 hour lecture, 1 hour fortnightly tutorial required).

03.203 Ethos and World View

Anthropological approaches to belief systems. Prerequisite 03.100.

(1 hour lecture, followed by 1 hour discussion; tutorials as necessary).

†03.210 Ethnic Groups and Inter-ethnic Relationships

Anthropological approaches to ethnicity. Prerequisite 03.100.

(1 hour lecture, 1 hour fortnightly tutorial required).

***03.211 Traditional Maori Society**

A critical examination of primary source material and the ethnographic record.

Prerequisites: 03.102 or 04.101.

(1 hour lecture, 1 tutorial fortnightly required).

The same paper is offered as Maori Studies 04.202.

03.212 Sociolinguistics

The study of language in its social context. Prerequisite: 03.100, plus 83.102 as corequisite; or 83.102, plus 03.100 as corequisite. Restriction: 03.317.

The same paper is offered as Linguistics 83.202.

(2 hours per week)

03.213 History of Anthropology

A historical survey of various ethnographies and schools of social anthropology. Prerequisite: 03.100. Restriction: 03.300.

(2 hour lecture/discussion)

Prehistory and Physical Anthropology Papers**03.204 Economic Prehistory**

The evolution of human economic systems. Prerequisite: 03.101.

(1 hour lecture, 1 hour tutorial fortnightly required).

03.206 Origins of Civilisation

The study of the early civilisations of the Near East and a comparative survey of early Chinese, American and other civilisations.

Prerequisite 03.101.

(1 hour lecture, 1 hour fortnightly tutorial required).

03.207 Human Evolution.

The genetics and evolution of human populations; the fossil evidence for human evolution; biological variation in contemporary human populations.

Prerequisite 03.101, 03.100.

(1 hour lecture, regular 2 hour tutorial/labs arranged).

03.208 The Coming of the Maori.

Polynesian origins, initial adaptations to New Zealand, local cultural development, classic Maori society, history to 1840 A. D. Prerequisite any one of 03.100, 03.101, 03.102 or Maori Studies 04.101, or Ancient History 12.100, or History 24.120.

The same paper is offered as Maori Studies 04.203.

(1 hour lecture, 1 hour fortnightly tutorial required. Field trips and short practical project required)..

Other Papers**03.209 Music of the World's Peoples**

Corequisites: 28.101, 28.102, 28.103.

The same paper is offered as Music 28.214. For prescription see under Music Department.

(1 hour lecture; 1 hour listening).

Anthropology Stage III Level

Students should note that paper 03.308 is prerequisite to paper 03.401 at MA level.

Social Anthropology Papers***03.300: History of Anthropology**

Anthropology and its history of ideas — the theorists, the theories, and their social contexts. Prerequisite: 03.100. Corequisites: 03.202, or any two of 03.200, 03.201, 03.203, 03.210, 03.211, 04.202.

(2 hour lecture/seminar).

***03.301 Kinship and Marriage**

A survey of the anthropological literature on kinship and marriage, with emphasis on different models of interpretation. Prerequisite 03.100; corequisite 03.202. (2 hour lecture/seminar).

03.302 Contemporary Problems in Social Anthropology

Selected contemporary issues in social anthropology.

Prerequisite 03.100; corequisite 03.202, although students are strongly advised to take 03.202 before enrolling in this paper.

(2 hour lecture and discussion).

03.303 Political Systems

Prerequisite 03.100; corequisite 03.202, although students are strongly advised to take 03.202 before enrolling in this paper.

(2 hour lecture/seminar).

***03.304 Anthropology of Law**

An anthropological study of legal processes and their interrelationship with polity, social control, legitimacy, and morality in various cultural contexts. Prerequisite 03.100; corequisite 03.202, although prior completion of this paper will be to the student's advantage.

(2 hour lecture/seminar).

†03.305 Special Topic in Melanesia

Prerequisite 03.100; corequisite 03.201.

(2 hour lecture/seminar).

03.306 Topics in Contemporary Maori Society

A survey of current Maori institutions, social groupings and events.

Prerequisites 03.211 or Maori Studies 04.202

(2 hour lecture and discussion)

The same paper is offered as Maori Studies 04.302.

***03.307 Special Topic in Social Anthropology**

Prerequisite 03.100; corequisite 03.202, although prior completion of this paper will be to the student's advantage.

(2 hour lecture/seminar)

†03.310 Social Movements

The origins, structure, and ideology of a variety of movements of protest and change.

Prerequisite: 03.100 and permission of Head of Department.

(2 hour lecture/seminar).

***03.311 Studies in Oral Literature**

Various theoretical frameworks and analytical techniques are applied to a body of oral literature from the Pacific.

Prerequisite 03.202 or 03.203. Recommended 03.200.

(2-hour seminar).

***03.312 Ecological Studies in Anthropology**

Environmental relations in man-dominated ecosystems. Prerequisites: 03.202; or 03.100 and permission of Head of Department.

(2 hour lecture/seminar.)

***03.313 Contemporary Polynesia**

A survey of recent social, economic and political changes in Fiji and Island Polynesia.

Corequisite 03.200; prerequisite 03.100.

(2 hour lecture).

***03.317 Sociolinguistics**

The ethnography of communication. Prerequisites: One of 03.100, 83.100, 83.101, 83.102.

(2 hour lecture.)

03.320 The Anthropology of Agriculture

Ecological and economic aspects of interactions between plants and human subsistence activities in traditional and developing societies, with emphasis on Pacific humid tropics.

Prerequisites: 03.101 and 03.202; or 03.100 and 03.101 and permission of Head of Department.

Restrictions: 03.321.

(2 hour lecture/seminar.)

***03.321 Economic Anthropology**

Non-industrial economic institutions in traditional and changing social settings.

Prerequisites: 03.202, or 03.100 and permission of Head of Department.

(2 hour lecture/seminar)

***03.322 Special Topic in Social Anthropology**

Contemporary Latin America.

Prerequisite 03.202, or 03.100 and permission of Head of Department.

03.323 Ethnohistory

Use of historical sources, oral traditions, archaeology and ethnography for the reconstruction of local histories and society about the time of initial European contact, with emphasis on Fiji and Tonga.

Prerequisites: 03.202 or 03.203, or 03.100 and permission of Head of Department.

(2 hour lecture seminar):

03.324 Special Topic in Social Anthropology

For 1981: Social Anthropology in Schools Curriculum.

Prerequisites: three papers in Social Anthropology and permission of Head of Department.

***03.328 Special Topic in Social Anthropology**

Regional Perspectives in Maori Society and Culture.

Prerequisite: 03.100 and 03.211/04.202.

03.329 Contemporary South Pacific Societies

Recent cultural, social, economic and political developments in Melanesia, Fiji and Island Polynesia.

Prerequisite: 03.200 or 03.201

Restrictions: 03.305 and 03.313

(2 hour lecture/discussion)

Prehistory and Physical Anthropology Papers**03.308 History, Theory and Introduction to Method in Archaeology**

Prerequisites: 03.101 plus 03.100, and either 03.204 or 03.208/04.203 or permission of Head of Department.

(2 hour lecture/tutorial; 5 days field work required).

03.309 Advanced Physical Anthropology

Intensive survey of Physical Anthropology.

Prerequisite: 03.207 (or permission of the Head of Department given appropriate science papers).

(2 hour lecture/seminar, regular tutorial/labs arranged.)

***03.314 Special Topic in Archaeology**

Problems in Asian prehistory and physical anthropology.

Prerequisite 03.101; corequisite either 03.204 or 03.206 or 03.208/04.203.

(2 hour lecture/seminar).

03.315 Regional Prehistory: Oceania

Archaeology, prehistory, historical linguistics, settlement pattern, and ethnohistory of a region. Prerequisite 03.101, corequisite 03.208, or 04.203. (2 hour lecture/tutorial).

†03.316 Regional Prehistory

For 1981: New World Prehistory

Prerequisites: 03.101 Corequisites: one of 03.204, 03.206, 03.207, 03.208/04.203. (2 hour lecture/seminar weekly).

03.319 Roman History

Britain from the Iron Age to the Anglo Saxons (c. AD 800).

Prerequisites: 12.103 and 03.101, or permission of the Head of Department.

(1 hour lecture twice weekly).

The same paper is offered as Ancient History 12.303. For prescription, see under Ancient History III. (Students taking this paper for anthropology do not have to take language option).

03.325 Experimental and Ethnographic Archaeology

Prerequisites: 03.204 or 03.206 or 03.208/04.203.

(2 hour lecture/seminar).

***03.327 Special Topic in Physical Anthropology**

Human Osteology for the Archaeologist and Physical Anthropologist. Techniques of field and laboratory identification, preservation and measurement. Prerequisite: 03.207 or permission of Head of Department given appropriate science papers.

(2 hour lecture/seminar, regular labs. arranged).

03.330 Special Topic in Archaeology

For 1981: Problems in Australian and New Zealand Prehistory

Prerequisite: 03.101

Corequisites: 03.204 or 03.206 or 03.208/04.203

(2 hour lecture/tutorial; some lab work required)

Other Papers**03.318 Music of Oceania**

Prerequisite: 03.209, Corequisite: 28.209.

(1 hour lecture).

The same paper is offered as Music 28.314. For prescription see under Music Department.

ANTHROPOLOGY FOR MA

The course of study of every student must be approved by the Head of Department. A candidate may present either seven papers, or four papers and a thesis (03.601) counting as three papers.

Students wishing to regard their degree as a qualification in social anthropology are required to take not fewer than three 03.400 level papers, other than "Special Topic" papers, in this sub-discipline, and when their course consists entirely of papers, to take not fewer than four such papers. Students wishing to regard their degree as a qualification in prehistory or physical anthropology are required to take 03.401 or 03.412 and at least one other paper in Anthropology at 03.400 level, and, where their course consists entirely of papers, are required to take 03.409.

Full-time students are, except with the special permission of Senate, required to present four papers in their first year of enrolment and either three papers or a thesis in their second year. Part-time students who are engaged in full-time employment or with other demanding responsibilities, may be permitted by the Head of Department to present three papers in the first year

or in special circumstances two papers in the first year; and if taking seven papers shall present all papers within three years of first enrolment for the degree.

Students presenting theses who are candidates for scholarships and prizes will be required to meet appropriate deadlines determined by their supervisors and Head of Department.

Social Anthropology Papers

03.400 Advanced Theory in Social Anthropology

A study of several contemporary theoretical works which focus upon central issues in anthropology or attempt to undertake a critical re-assessment of basic premises.

Prerequisites: at least two papers from 03.300-03.307, 03.310-03.313, 03.317, 03.320-03.323 (2 hour seminar).

***03.402 Special Topic in the Social Anthropology of Polynesia.**

(2 hour seminar)

03.404 Ritual and Symbolism

Anthropological interpretations of religion, ritual and systems of belief

(2 hour seminar)

***03.405 Special Topic in Social Anthropology**

(2 hour lecture/seminar)

03.408 Ethical Problems in Social Research

An examination of questions of responsibility, relevance, and the place of values in the conduct of social research.

(2 hour lecture/seminar).

***03.411 Special Topic in Social Anthropology**

Topic to be announced.

***03.413 Special Topic in Social Anthropology**

Topic to be announced.

03.414 Field Methods in Social Anthropology

An examination of the experience, methods and techniques of anthropological fieldwork, in relation to particular research problems.

(2 hour seminar)

03.415 Research Topic in Social Anthropology

Corequisites: At least two 03.400 level papers in social-anthropology excluding those labelled "Special Topic". This paper is not available to students who are intending to enrol for a thesis (03.601), except with special permission of Head of Department.

03.417 Classification in its Social Context

Recent developments in the study of folk classification.

Prehistory and Physical Anthropology Papers

03.401 Archaeological Method

Laboratory techniques, field survey and excavation. Prerequisite 03.308 (or permission of Head of Department). Previous field-work is also required for enrolment in this paper.

(3 hour lecture and laboratory; 4 weeks field-work required)

03.403 Prehistoric Ecology and Economics

A study of concepts and the archaeological evidence. Prerequisite 03.204 (or permission of

Head of Department). A current or previous enrolment in 03.308 is strongly advised. (2 hour lecture or seminar)

03.409 Research Topic in Physical Anthropology and/or Archaeology

Research problems in archaeology and/or physical anthropology such as computer applications and other special topics selected in consultation with staff. The paper requires either a series of research essays, or one major essay in the form of a short (40-50 pp.) research paper. Required of students who wish to regard their degree as a qualification in physical anthropology or prehistory and whose course consists entirely of papers. Also available to students doing a thesis degree, but not in the form of a single research essay.

03.412 Method and Theory in Physical Anthropology

A study of concepts and laboratory methods used in modern Physical Anthropology. Prerequisite 03.309 (or permission of Head of Department given appropriate Science papers) (2 hour lecture and laboratory).

03.416 Special Topic in Archaeology or Physical Anthropology

For 1981: Special topics selected in consultation with appropriate staff according to field of research.

Other Papers

03.410 Ethnomusicology

Advanced Theory and Method. Corequisite 03.318.

The same paper is offered as Music 28.414.

(1 hour lecture).

For prescription see under Music Department.

03.601 Thesis

MAORI STUDIES

Students who are beginning their study of Maori language should take 04.100 and 04.104 concurrently. Native speakers of Maori and those who have passed UE Maori are not permitted to take 04.104 which is intended for beginning students of the language. Such students should obtain the Head of Department's permission to enrol for higher level papers.

Maori Studies Stage I Level

04.100 Introduction to the Structure of Maori Language

(1 hour lecture, 1 hour tutorial per week)

04.101 Introduction to Maori Society

Traditional Maori society; the effects of European contact; the contemporary culture.

(1 hour lecture, 1 hour tutorial)

The same paper is offered as Anthropology 03.102.

04.104 Introduction to Spoken and Written Maori

(1 workshop, 1 oral tutorial, 1 language laboratory per week)

Maori Studies Stage II Level

Students should note that 04.204 and 04.205 are designed to be taken together and should be enrolled in concurrently.

†04.202 Traditional Maori Society

A critical examination of primary source material and the ethnographic record. Prerequisite: 03.102 or 04.101.

Note: The same paper is offered as Anthropology 03.211.

04.203 The Coming of the Maori

Polynesian origins, initial adaptation to New Zealand, local cultural development, classic Maori society, history to 1840 AD. Prerequisites Maori Studies 04.101 or any one of Anthropology 03.100, 03.101, 03.102, or Ancient History 12.100, or History 24.120.

(1 hour lecture, 1 hour fortnightly tutorial required. Field trips and short practical project required.)

The same paper is offered as Anthropology 03.208.

04.204 Second Year Maori Language: Structure and Prescribed Texts

Prerequisite: 04.100. The prerequisite will be waived for native speakers and those who have passed UE Maori.

(2 lectures per week)

04.205 Second Year Maori Language: Oral and Written Skills

Prerequisite: 04.104. The prerequisite will be waived for native speakers and those who have passed UE Maori.

(1 oral tutorial, 1 workshop, 1 language laboratory per week).

04.206 A Topic in Maori Material Culture

Topic for 1981: Maori weaving and plaitwork. *Ngaa mahi o te whare pora*. Prerequisites: 04.204 and 04.205.

(2 lectures per week)

Maori Studies Stage III Level

The language papers 04.306 and 04.307 are designed to be taken together and students should enrol in them concurrently.

04.302 Topics in Contemporary Maori Society

A survey of current Maori institutions, social groupings and events. Prerequisite 04.202 or Anthropology 03.211.

(2 hour lecture and discussion)

Note: The same paper is offered as Anthropology 03.306.

04.303 Special Topic in Maori Studies

In 1981: *Whaikoore me te kawa o te marae*. Prerequisite 04.204 or 04.205.

04.304 Maori Poetry and Song

A study of selected traditional song texts, their musical and literary form, and the traditional circumstances of their composition. Prerequisites: 04.204 or 04.205.

(2 hour lecture and practical instruction in *waiata* singing.)

04.305 Languages of Polynesia

A comparative-historical survey. Prerequisite 83.103 or 04.204.

(2 lectures per week)

The same paper is offered as Linguistics 83.303.

04.306 Third Year Maori Language: Structure and Prescribed Texts

Prerequisite: 04.204

(2 hour lecture)

04.307 Third Year Maori Language: Oral and Written Skills

Prerequisite: 04.205

(1 hour language laboratory, 1 hour workshop, 1 hour oral tutorial)

Maori Studies for MA and Honours

The course of study for every student must be approved by the Head of Department. A candidate must present four papers and a thesis (04.601) counting as three papers. Up to two papers listed under Stage III level Maori Studies, if not credited for a BA degree, may be offered as papers for an MA.

04.400 A topic in Maori language

In 1981: Recent developments in the study of Maori and Polynesian grammar.

04.401 A topic in Maori Literature

For 1981: Unpublished manuscripts, 1860-1920, showing the prophetic, political and cultural perspectives of Maori leaders.

†04.402 A topic in Maori Culture and Society

04.601 Thesis

LINGUISTICS

No Linguistics course may be taken externally.

Linguistics Stage I Level

83.102 Introduction to Descriptive Linguistics

(2 hours per week)

83.103 Introduction to Historical and Comparative Linguistics

Corequisites: 83.102, or permission of Head of Department.

(2 hours per week)

Linguistics Stage II Level

83.202 Sociolinguistics

The study of language in its social context. Prerequisite: 83.102; or 03.100 plus 83.102 as corequisite. Restriction: 03.317.

The same paper is taught as Anthropology 03.212.

(2 hours per week)

83.203 Phonology

Phonological and phonetic theory. The study of sound systems and rules. Course work will include practical problems of analysis.

Prerequisite 83.102.

(2 hours per week)

83.204 Grammatical Analysis

Grammatical theory. Types of grammatical systems. Descriptive problems in morphology and syntax.

Prerequisite: 83.102.

(2 hours per week)

Linguistics Stage III Level

†83.300 Recent Trends in Grammar

Enrolment by permission of the Head of Department.

†83.301 Special Topic in Linguistics

Enrolment by permission of the Head of Department.

Topic to be announced

†83.302 Special Topic in Linguistics

Topic to be announced

Enrolment by permission of Head of Department

83.303 Languages of Polynesia

A comparative-historical survey. Prerequisite 83.103 or 04.204.

(2 hours per week)

The same paper is offered as Maori Studies 04.305

†83.304 The History of Linguistics

A survey of the development of linguistic thought, with particular emphasis on the 20th century.

Enrolment by permission of the Head of Department.

83.305 Linguistic Analysis of Literature

Enrolment by permission of the Head of Department.

For prescription see under English 18.303

†83.306 Philosophy of Language

Enrolment by permission of the Head of Department.

For prescription see under Philosophy 29.202.

83.307 Phonology and New Zealand Speech

For prescription see under English 18.304.

Prerequisites 83.100 or 83.102 and permission of the Head of Department.

Linguistics for MA and Honours

The course of study of every student must be approved by the Head of Department. A candidate must present four papers and a thesis (83.601) counting as three papers.

A candidate who has passed three papers at Stage III level in the subject Maori Studies or in a language subject other than English and five papers in Linguistics may proceed to MA in Linguistics with the permission of Senate upon recommendation of the Head of Department.

Up to two papers listed under Stage III Linguistics, if not credited for a BA degree, may be offered as papers for an MA.

†83.400 A Topic in Descriptive Linguistics**†83.401 A Topic in Descriptive Linguistics****†83.402 A Topic in Sociolinguistics****†83.403 A Topic in Comparative Linguistics****83.601 Thesis**

*This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

DEPARTMENT OF ART HISTORY

For Art History prescriptions for BA, BFA, MFA see Index.

Art History for MA and Honours

(Four papers and a thesis (19.601) which counts as three papers).

Either:

(a) Four papers from 19.400 to 19.408,

or

(b) Three papers from 19.400 to 19.408 and one paper from the options prescribed for Stage III Art History.

or

(c) Two papers from 19.400 to 19.408 and two papers from the options prescribed for Stage III Art History.

†19.400 Topics in 17th Century Drawing.

*19.401 Topics in Australian and New Zealand Painting (Advanced)

†19.402 Special Topic in Western Art before 1600, to be prescribed by the Head of Department.

†19.403 Watteau and his Sources and Influences.

†19.404 Film Studies.

†19.405 Nicolas Poussin and 17th Century Classicism.

Note: A candidate who has been credited with a pass in paper 19.303 may not take this paper.

*19.406 Art Historiography

19.407 A Topic in Mediaeval Art

19.408 A Topic in 19th Century Art

The thesis (19.601) shall not exceed 30,000 words, and two copies must be handed in to the Registrar, not later than 1 November.

The subject for the thesis shall be chosen in consultation with the Head of the Department. Book lists will be distributed at the beginning of the year.

* This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

DEPARTMENT OF ASIAN LANGUAGES AND LITERATURES

Chinese I

Four hours of lectures and two hours of tutorials in modern Chinese a week. Papers 48.100, and 48.101 are linked.

A candidate's result in the final examination will be determined over 2 papers and an oral test.

48.100 Language Acquisition: Modern Chinese.

Written and oral expression in Chinese tested in some or all of the following ways: translation, comprehension, conversation, dictation, reading, comments on grammar. The script used for this paper will be *pin yin*.

48.101 Language Acquisition: The Chinese Script.

Introduction to Written Chinese. This subject will be tested in some or all of the following ways: Translation of prescribed texts, translation of unseen texts, transliteration of *pin yin* texts into Chinese characters.

†48.102 Literature Formative of the Chinese Tradition

A study in English translation of the Chinese Classics together with other Confucian, Taoist, Legalist, Mo-ist and Buddhist texts fundamental to the Chinese tradition.

Chinese II

Four hours of lectures in modern and classical Chinese and two hours of tutorials in modern Chinese a week. Papers 48.200, 48.201, 48.202 are linked.

A candidate's result in the final examination will be determined over 3 papers and an oral test.

48.200 Translation at Sight from and into Chinese.

48.201 Translation of and Comments on Prescribed Modern Texts.

48.202 Translation of and Comments on Prescribed Classical Texts, together with Questions on the History of Chinese Fiction.

Chinese III

Four hours of lectures in Modern and Classical Chinese and two hours of tutorials in Modern Chinese per week. Papers 48.300, 48.301, 48.302 are linked.

A candidate's result in the final examination will be determined over 3 papers and an oral test.

48.300 Translation at Sight from and into Chinese.

48.301 Translation of and Comments on Prescribed Modern Texts.

48.302 Translation of and Comments on Prescribed Classical Texts, together with Questions on the History of Chinese Literature.

With the approval of the Head of Department certain papers prescribed for Chinese MA and Honours may be selected as additional Stage III level papers.

Chinese for MA and Honours

Students intending to enrol for MA must consult the Head of the Department towards the end of the previous year to discuss optional papers and to obtain advice on vacation reading.

Twelve hours per week of lectures and tutorials. (Six papers comprising 48.400 and 48.401 and four others, together with a dissertation (48.604) of 10,000 words or more on a selected topic for which Chinese sources will be used).

48.400 Translation at Sight into Chinese and Free Composition.

48.401 Translation at Sight from Chinese Modern and Pre-Modern Texts together with Questions on Chinese Bibliography.

48.402 Translation of and Comments on Prescribed Literary Texts.

48.403 Translation of and Comments on Prescribed Historical Texts.

48.405 Chinese Poetry of the Tang and Song Dynasties.

48.406 A Study of the Philosophers of Ancient China, with Special Reference to the *Analects of Confucius* and the *Daode Jing*.

48.407 A Study of Neo-Confucianism with Special Reference to Zhu Xi and Wang Yangming

48.408 A Special Study on Chinese Buddhist Literature.

48.409 The Political, Religious and Social Background to the Literature of the Zhou Dynasty.

48.410 Historical Literature of the Zhou Dynasty with Special Reference to the *Chungiu Zuo* and *Shuan*

48.411 The Novel in Imperial China, with Special Reference to the *Sanguo Zhi*, *Yanyi* and the *Rulin Waishi*

48.412 The modern Novel, with Special Reference to Lu Xun and Mao Dun

48.413 Traditional Chinese Drama, with Special Reference to the *Xixiang Ji*.

48.414 Modern Drama, with Special Reference to the Plays of Cao Yu.

48.415 A Study of Newspaper and other Non-Literary Forms of Modern Chinese.

48.416 An Approved Topic.

48.417 A study of Chinese poetry, traditional and modern.

Every candidate will be required to pass an examination on the oral use of the language. In determining the class of Honours, the candidate's performance in the written papers, the dissertation, the oral examination and in coursework will be taken into consideration.

The attention of students who intend to enrol for MA is drawn to Regulation 6 of the General Provisions for the Degree of Master of Arts.

Note: There is no guarantee that all the papers listed above will be available in any one year.

Indonesian I

80.100 and 80.101 Modern Spoken Indonesian 1 and 2.

Formal and informal spoken Indonesian with an introduction to written styles. Students learn to speak and comprehend Indonesian as used for oral history and other surveys. No previous knowledge of Indonesian required. Four hours of lectures and two tutorials, plus language labs per week.

80.103 Indonesian literatures and civilizations.

A survey of social, religious and intellectual forces which have contributed to the formation of Indonesian literatures.

Papers 80.100 and 80.101 are linked. Paper 80.103 is open to any interested student, whether or not he or she is studying the Indonesian language.

Indonesian II

80.200 Advanced spoken Indonesian.

Continuation of 80.100 and 80.101. Further speech styles of Jakarta dialect. Assumes a basic knowledge of Indonesian or Malay. One hour lecture, one tutorial, plus language lab, per week.

80.201 Translation of and comments on prescribed Indonesian novels, short stories and essays, together with questions on the development of Indonesian prose-writing.

80.202 Translation of and comments on selected Indonesian poems, together with questions on the development of Indonesian poetry.

Papers 80.200, 80.201 and 80.202 are linked. A candidate's result in the final examination will be determined over three papers.

Indonesian III

Candidates must take 80.300, 80.301 and 80.302. The papers are linked. A candidate's result in the final examination will be determined over three papers and an oral test. 80.305 is a prerequisite for 80.407. With the approval of the Head of Department certain papers prescribed for Indonesian MA and Honours may be selected as additional Stage III level papers.

80.300 Translation at sight of passages of Indonesian non-literary prose and translation at sight into Indonesian.

80.301 Translation of and comments on prescribed classical Malay prose and poetry texts, some in Jawi script, and questions on the history of Classical Malay literature.

80.302 Translation of and comments on the prose of a particular Indonesian author.

80.305 Introduction to the comparative study of Indonesian languages.

80.306 An Approved Special Topic in Indonesian/Malay Language, Literature or Thought.

Indonesian for MA and Honours

Students intending to enrol for MA must consult the Head of the Department towards the end of the previous year to discuss optional papers and to obtain advice on vacation reading.

Twelve hours per week of lectures and tutorials. (Six papers comprising 80.400, 80.401, and 80.402 and three others, together with a dissertation (80.604) of 10,000 words or more on a selected topic for which Indonesian sources will be used.)

80.400 Translation at sight from and into Indonesian and free composition.

80.401 A study of modern Indonesian literature with special reference to the problems of literary criticism.

80.402 A study of selected classical Malay texts.

80.404 An introduction to textual criticism with special reference to classical Malay.

80.405 Muslim mysticism in classical Malay literature.

80.406 An introduction to the structural analysis of Indonesian/Malay.

80.407 A study of another Indonesian language.

80.409 An approved special topic in Indonesian/Malay language, literature or thought.

This paper may be taken more than once with permission of the Head of Department.

Every candidate will be required to pass an examination on the oral use of the language. In determining the class of Honours, the candidate's performance in the written papers, the dissertation, the oral examination and in course work will be taken into consideration.

The attention of students who intend to enrol for MA is drawn to regulation 6 of the General Provisions for the Degree of Master of Arts.

Note: There is no guarantee that all the papers listed above will be available in any one year.

Japanese I

Many students enrolling for Japanese I have studied Japanese previously at school. They will receive four hours of lectures and two hours of tutorials per week.

Students enrolling without a previous knowledge of the subject may receive a total of seven hours of teaching per week.

A candidate's result in the final examination will be determined over 2 papers and an oral test. Papers 81.100 and 81.101 are linked.

81.100 Translation at Sight from and into Japanese.

81.101 Introduction to the Japanese Language.

Basic spoken and written Japanese. Candidates will be examined on the prescribed textbooks.

81.102 Japanese Literature in Translation

A survey of Japanese literature in English translation from earliest times to the modern period. Papers 81.100 and 81.101 are linked. Paper 81.102 is open to any interested student, whether or not he or she is studying Japanese language.

Japanese II

Four hours of lectures and two hours of tutorials in modern Japanese per week. Papers 81.200, 81.201, and 81.202 are linked.

A candidate's result in the final examination will be determined over 3 papers and an oral test.

81.200 Translation at Sight from and into Japanese

81.201 Intermediate Japanese

This paper will be a continuation of 81.101. Candidates will be examined on the prescribed textbooks.

81.202 Language Acquisition: Modern Japanese

Written and oral use of Modern Japanese tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation, reading, and grammar.

Japanese III

Four hours of lectures and two hours of tutorials in Japanese per week.

Candidates must take either 81.300, 81.301 and 81.302 or 81.300, 81.301 and 81.303. The groups of papers are linked. A candidate's result in the final examination will be determined over three papers and an oral test. 81.300, 81.301 and 81.302 are prerequisites for the MA degree. Students may take 81.303 as a fourth paper in addition to 81.300, 81.301 and 81.302. As a fourth paper 81.303 must be passed with a minimum mark of 50%.

81.300 Translation at Sight from and into Japanese

81.301 Translation of and Comments on Prescribed Modern Texts

81.302 Translation of and Comments on Prescribed Classical Texts together with Questions on the History of Japanese Literature

81.303 Modern Japanese

Written and oral use of Japanese utilising selected non-literary texts. The tests will be based upon the materials covered.

With the approval of the Head of Department certain papers prescribed for Japanese MA and Honours may be selected as additional Stage III level papers.

Japanese for MA and Honours

Students intending to enrol for MA must consult the Head of the Department towards the end of the previous year to discuss optional papers and to obtain advice on vacation reading.

Prerequisite: Eight papers in Japanese including 81.300, 81.301 and 81.302.

Students are strongly advised to take 81.102 and 81.302 as part of their BA degree.

Twelve hours of lectures and tutorials. (Six papers comprising 81.400 and 81.401 and four others, together with a dissertation (81.604) of 10,000 words or more, on a selected topic for which Japanese sources will be used, or an annotated translation of a Japanese text).

81.400 Translation at Sight into Japanese and Free Composition**81.401 Translation at Sight from Modern Japanese Texts together with Questions on Japanese Bibliography****81.402 Translation of and Comments on Prescribed Modern Prose****81.403 Translation of and Comments on Prescribed Classical Prose****81.404 Translation of and Comments on Selections from Japanese Poetry.****81.405 Translation of and Comments on Selections from Japanese Drama****81.406 Special Study of either a Particular Classical Text or Body of Texts, or of a Modern Author.****81.407 Translation of and Comments on Modern Non-Literary Texts including Selections from Newspapers and Periodicals**

Every candidate will be required to pass an examination on the oral use of the language. In determining the class of Honours, the candidate's performance in the written papers, the dissertation, the oral examination and in coursework will be taken into consideration.

The attention of students who intend to enrol for MA is drawn to Regulation 6 of the General Provisions for the Degree of Master of Arts.

Note: There is no guarantee that all the papers listed above will be available in any one year.

BIOLOGY FOR BA

This is a stage I course for students who do not plan to take a science degree. The course is intended as a general survey of the biological sciences, with elementary chemistry, physics and mathematics being introduced as necessary. The course cannot be used as a prerequisite for advanced Botany or Zoology. Weekly attendance at one 2-hour laboratory is required. Enrolment is through the Zoology Department at the allotted time for Science courses. Prospective students are advised to consult the Zoology Department prior to enrolment. The two courses in the Biology for Arts series are taught in alternate years.

39.111 Unifying Concepts in Biology

Taught during 1981.

Cell Structure: Energy relationships: photosynthesis and respiration; Molecular Biology: control of synthesis of nucleic acids, proteins and macromolecules; Genetics: mechanisms of inheritance: Physiology.

***39.112 Biological Diversity and Function**

Presented during 1982. Resume of the Plant and Animal Kingdoms, with emphasis on human importance. Principles of Ecology and Organic Evolution.

DEPARTMENT OF CLASSICS AND ANCIENT HISTORY

The Department of Classics and Ancient History includes six subjects. Latin, Greek and Ancient History are taught to MA with Honours level, Classical Studies, Biblical History and Literature and Hebrew at Stage I only.

Hebrew II and Biblical History and Literature II will not be available until further notice.

Students should note that in the Classics and Ancient History Department most of the language papers at Stages I and II, and the basic papers at Stage III, are normally linked to other papers and must be taken, and passed, concurrently; the Ancient History papers may all be taken individually by students with the necessary prerequisites and corequisites, but students wishing to advance beyond Stage I should plan their courses carefully in consultation with a member of staff.

An MA with Honours in Latin and Greek (Combined Honours) requires that students pass Latin III and Greek III before enrolling in their MA year. Students planning this course should therefore start Latin and Greek together in their first year. Students who have taken the scholarship papers in Latin or Greek or who are sufficiently advanced in their studies may be enrolled for Stage II papers in place of Stage I papers. Such students should see the Head of Department at the earliest possible date.

One paper in Elementary Latin (09.102) is now available for those students who have not passed U.E Latin. It is intended that students with no Latin at all should be able to take this course, which is designed to lead on to Latin in a subsequent year, as well as to equip a student with the linguistic knowledge required for reading the documentary source materials needed for Ancient and Medieval History and for Renaissance Studies in many subjects.

Students who intend to advance to MA with Honours in Latin or Greek are strongly advised to enrol for the other as well in their first year. The prerequisites are stated in the MA Degree Course Regulations.

Students who intend to advance to Stage III in Ancient History are required to cope with documents in an ancient language, and must pass a prerequisite paper before enrolling for Stage III. The prerequisite paper for Paper 12.300 is 12.210, for 12.322 10.100, for 12.303 09.102. After 1977 all students must fulfil these prerequisites. Students who wish to take the Greek or Latin options at MA are advised to enrol in Greek or Latin papers in their first year, and do more than the prerequisite minimum. As much of the scholarly work on Ancient History (especially Egyptian and Akkadian subjects) is in foreign languages, students planning to take these options should enrol for German I and French I papers, in their first year preferably. Students should note that Greek III and Latin III may be used as the Stage III prerequisite to Ancient History MA with Honours provided that six Ancient History papers have been passed (see the MA Degree Course Regulations).

Students who intend to take Latin or Greek are advised that Ancient History papers, at least in the field relevant to their language, will be most useful, especially for those advancing beyond Stage I, since outlines of Roman (Greek) History are now no longer taught within the language courses. Students considering enrolling for any subject in the Department are strongly advised to come and see a member of staff during the pre-enrolment period. External students should consult the Department as early in the year as possible.

Note:

* This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Latin I

(Four hours per week for papers 09.100 and 09.101, which are linked if taken concurrently).

09.100 Prescribed books

Books, or groups of work, will be set; candidates will be given passages to translate, and questions will be asked on points of grammar and syntax and on prosody where relevant, and on the content of the books and their literary and historical background and on relevant Roman institutions.

09.101 Translation and Language

- (i) (50%) Translation at sight from Latin. A passage, or passages of Latin prose or verse or both will be set for Translation from Latin into English.
- (ii) (50%) A course on the structure and use of the language. Students will attend a course appropriate to their interest and experience in one of the following alternatives:
- (a) Elementary Prose Composition;
 - (b) Latin Composition: exercises in grammar and syntax;
 - (c) Linguistic and syntactical analysis of passages of Latin.
- Each course will comprise coursework and a formal examination.

09.102 Elementary Latin

(Two hours per week)

This paper is not linked to Latin 09.100 and 09.101 and may not be taken in the same year. Entry to this course for credit is restricted to those who have not passed UE Latin, or an equivalent examination. Others may apply to the Head of Department for permission to take this paper and not 09.100, 09.101.

A pass in the course is intended to enable students to:

- (a) read classical documents as required for Paper 12.303
- (b) read medieval documents as required for Papers in Medieval History
- (c) enrol for Latin Papers 09.100, 09.101 in the following year.

Latin II

(Five hours per week. Papers 09.200, 09.201 and 09.202 are linked).

Prerequisite 09.100, 09.101 unless direct entry is approved.

09.200, 09.201, 09.202

(i) Prescribed Books:

Books, or groups of works, will be set; candidates will be given passages to translate, and questions will be asked on points of grammar and syntax and on prosody where relevant, and on the content of the books and their literary and historical background, and on relevant Roman institutions.

(ii) Reading courses in Latin Literature:

Two courses of reading each on a prescribed subject connected with one of the set books; each course will be examined (i) by a coursework essay and (ii) by a number of passages for translation and comment in a formal examination.

(iii) Roman History:

Passages from specified works for translation and comment in examination and a coursework essay.

(iv) Unprepared Translation:

A passage, or passages, of prose and verse will be set for translation from Latin into English.

(v) One of the following:

- (a) Prose Composition: Elementary or more advanced;
- (b) Latin Composition: exercises in grammar and syntax.

Students will attend the course appropriate to their interest and previous experience. Each course will comprise coursework and a formal examination.

The proportion of the marks awarded on coursework and the detailed requirements will be announced at the beginning of the year.

Latin III

(Five hours per week. Papers 09.300, 09.301 and 09.302 are linked; for the remaining papers see under each paper).

Prerequisites 09.200, 09.201, 09.202.

09.300, 09.301, 09.302.

(i) Prescribed books:

As for Latin II

(iii) Roman History.

As for Latin II

(iv) Latin Language.

History of the Latin Language from earliest times to the Augustan Age.

(v) Unprepared Translation.

As for Latin II.

(vi) Composition.

A number of passages will be set for translation into Latin. These will include coursework exercises and a final examination.

A higher standard of work will be expected for Latin III in all sections of these papers. The proportion of the marks available which will be allotted to coursework and the detailed requirements will be announced at the beginning of the year.

09.303 Advanced Prose Composition or Verse Composition.

(One hour per week).

Prerequisite 09.300, 09.301, 09.302 for prose composition. For verse composition, permission of Head of Department.

Passages will be set for translation into Latin. A proportion of the marks available will be allotted to coursework.

09.304 A Subject or Subjects in Latin Poetry.

(One hour per week). (Restricted entry).

Corequisite 09.300, 09.301, 09.302.

The works (or selections of the works) of an author or authors will be set for translation and comment or criticism. The author(s) will normally be as for paper 09.402 or part of it, and students who offer this paper will not be able to offer 09.402 at MA and Honours level unless there has been a change of syllabus.

09.305 Literary Topic

(One hour per week). (Restricted entry).

Corequisites as for 09.304.

The topic will normally be as for paper 09.402 or 09.406 (or part thereof) and students who offer this paper will not be able to offer that paper at MA and Honours level unless there has been a change of syllabus.

09.306 Latin Language

(One hour per week). (Restricted entry).

Corequisites as for 09.304.

More advanced Latin Language. The syllabus will be as for paper 09.404; students who offer this paper will not be able to offer paper 09.404 at MA and Honours level unless there has been a change of syllabus.

09.307 Roman History.

(One hour per week). (Restricted entry).

Corequisites as for 09.304.

A period of Roman History to be studied with Latin texts. The syllabus will be as for paper 09.405; students who offer this paper will not be able to offer paper 09.405 at MA and Honours level unless there has been a change of syllabus.

09.308 Pax Romana

(Two hours per week). Paper 12.203 restricted.

Syllabus as for 12.203.

Note: For papers marked *Restricted entry* (09.304 — 09.307) permission of the Head of Department is required to enrol; permission will normally be granted if there is an Honours candidate wishing to take the equivalent paper.

Latin for MA and Honours

Honours in Latin (six papers)

Candidates must offer papers 09.400, 09.401 and *four* others, the selection to be approved by the Head of Department.

Except for paper 09.401 there are no special paper prerequisites, though there are certain restrictions.

Prerequisite: Eight papers in Latin, including 09.300-09.302.

09.400 Unprepared Translation of Latin Prose and Verse

09.401 Prose Composition or Verse Composition.

Passages of English Prose or Verse for translation into Latin. Some passages will be assessed as coursework. In a final examination one passage will be set for prose composition, either one or two shorter passages or a choice of passages will be set for verse composition. Candidates may not offer verse composition unless they have already taken and passed the verse option in paper 09.303.

09.402 Latin Poetry

(09.304 or 09.305 restricted without syllabus change).

Two subjects will normally be set with reference to prescribed texts. The examination will consist of passages for translation, and candidates will be required also to write commentaries on a choice of passages or at least one essay, or both. Passages may also, or alternatively, be set for practical criticism.

09.403 Latin Prose Writers

Two subjects will normally be set with reference to prescribed texts. The examination will consist of passages for translation, and candidates will be required also to write commentaries on a choice of passages or at least one essay, or both.

09.404 Latin Language

(09.306 restricted without syllabus change).

Either Vulgar Latin

The phonology, morphology, syntax and vocabulary of Vulgar Latin, as seen in the set texts. Comparison with inscriptional texts will be made where relevant. A knowledge of the history and literary background and significance of the set texts will also be required.

Or Early Latin

The phonology, morphology, syntax and vocabulary of Early Latin as seen in the set texts. Comparison with inscriptional texts will be made where relevant. A knowledge of the sources and characteristics of Plautine comedy will also be required.

09.405 Roman History

(09.307 restricted without syllabus change).

A subject with reference to the original Latin sources; candidates will be required to translate and comment on a selection of passages, and to write essays chosen from a selection.

09.406 A Subject in Latin Literature to be prescribed by the Head of Department

An author or group of similar authors will be chosen for special study. Candidates will read widely in the prescribed texts and be expected to translate passages, and write commentaries and essays on the subject matter of the texts and on their literary genre.

09.407 A Subject to be proposed by the student and approved by the Head of Department

The subject may be literary, philological, historical or philosophical and must be approved not later than 31 December of the year preceding enrolment.

Combined Honours (Languages and Literature)

See MA Degree Course Regulations.

Greek I

Papers 10.100, 10.101 are linked. Four lectures and a tutorial per week throughout the year.

10.100 Prescribed texts with grammatical study

Texts will be prescribed for reading; translation of passages will be required in examination.

and questions will be set which will require a candidate to show an understanding of the grammatical and syntactical usages in the texts.

10.101 Prescribed Texts with Grammatical Study.

A different group of texts from 10.100 may be set.

Greek II

(Five hours per week). Papers 10.200, 10.201 and 10.202 are linked.

Prerequisites 10.100, 10.101 or direct entry.

10.200, 10.201, 10.202

(i) Prescribed Books

Books or groups of works will be set; candidates will be given passages to translate, and questions will be asked on points of grammar and syntax and on prosody where relevant, and on the content of the books and their literary and historical background, and on relevant Greek institutions.

(ii) Reading course in Greek Literature.

A course of readings in Greek literature and practice in Translation. An essay will be set for coursework, and passages will be set for Translation in examination with questions on their grammar and syntax.

(iii) Greek History with reference to specified texts.

Passages for translation and comment in examination and a coursework essay.

(iv) Unprepared Translation.

Passages of Greek Prose and Verse will be set for translation into English.

(v) Use of the Language. The coursework will consist of practice in writing Greek (sentences and an introduction to prose composition) and studies in Greek grammar and syntax. These elements will be tested in a final examination.

Greek III

(Six hours per week Terms I and II, five hours per week Term III for papers 10.300, 10.301, 10.302; for the remaining papers see under each paper). Papers 10.300, 10.301 and 10.302 are linked.

Prerequisite papers 10.200, 10.201, 10.202.

10.300, 10.301, 10.302

(i) Prescribed Books.

As for Greek II

(ii) A reading course in Greek Literature.

Normally one work will be specified for reading; a coursework essay will be set on Greek Literature, normally on the specified work. In examination, passages from the reading course will be set for Translation with comment, literary and/or grammatical and syntactical.

(iii) Greek History.

As for Greek II

Or

Philosophy

The philosophy of Plato with special reference to one or more dialogues.

A coursework essay and passages for translation and comment in examination conditions.

(iv) Greek language. The Homeric dialect, including discussion of the Homeric hexameter, and a portion of Homer for special study.

Translation of a passage and questions on the dialect will be set in a formal examination.

(v) Unprepared Translation

As for Greek II.

(vi) Composition.

A number of passages will be set for translation into Greek; these will include coursework exercises and a final examination.

A higher standard of work will be expected for Greek III in all sections of these papers.

The proportion of the marks available which will be allotted to coursework will be announced at the beginning of the year.

10.303 Advanced Prose Composition or Verse Composition

(One hour per week).

Prerequisites: 10.300-10.302.

Passages will be set for translation into Greek. A proportion of the marks available will be allotted to coursework.

***10.304 Greek Poetry**

(One hour per week). (Restricted entry).

Corequisite 10.300-10.302.

Translation of pieces of Greek poetry from specified texts; passages may also be set for comment and a selection of essays will be set.

10.305 Literary Topic

(One hour per week). (Restricted entry).

Corequisite 10.300-10.302.

Translation of passages from prescribed texts. Passages may also be set for comment, and a selection of essays will be set.

10.306 Greek History

(One hour per week). (Restricted entry).

Corequisite 10.300-10.302.

Syllabus as prescribed for paper 10.405, which is restricted unless there has been a change of syllabus. May not be offered with 10.307.

10.307 Greek Philosophy

(One hour per week). (Restricted entry).

Corequisite 10.300-10.302.

Syllabus as prescribed for paper 10.406, which is restricted unless there has been a change of syllabus.

May not be offered with 10.306.

10.308 Greek Language

(One hour per week). (Restricted entry).

Corequisite 10.300-10.302

Syllabus as prescribed for paper 10.404, which is restricted unless there has been a change of syllabus.

10.309 Greece and Persia

(Two hours per week).

Corequisite 10.300-10.302.

Syllabus as prescribed for paper 12.202, which is restricted.

Note: For papers marked *Restricted entry* (10.304-10.308) permission of the Head of Department is required to enrol; permission will normally be granted if there is an Honours candidate wishing to take the equivalent paper among 10.404-10.408.**Greek for MA and Honours**

Candidates must offer papers 10.400 and 10.401 and four others, the selection to be approved by the Head of Department. Except for paper 10.401, there are no special paper prerequisites, though there are certain restrictions.

Prerequisite: Eight papers in Greek, including 10.300-10.302.

10.400 Unprepared Translation

Passages of prose and verse will be set for translation into English.

10.401 Prose Composition or Verse Composition.

Passages will be set for translation into Greek. The verse option in paper 10.303 is prerequisite for verse composition. For each option, some passages will be assessed as course work and one passage will be set for final examination.

The proportion of the marks allocated to coursework will be announced early in the year.

10.402 Greek Poetry

A subject or subjects will be set with reference to prescribed texts. In the final examination

candidates will be required to translate passages and may be required to comment on a selection of other passages; they will also be required to write at least one essay.

10.403 Greek Prose Writers

A subject or subjects will be set with reference to prescribed portions of the authors to be studied. In the final examination candidates will be required to translate passages and may be required to comment on a selection of other passages; they will also be required to write at least one essay.

10.404 Greek Language

(Paper 10.308 restricted unless there has been a change of syllabus.)

An advanced study of one or more Greek dialects with special reference to prescribed texts.

10.405 Greek History

(Paper 10.306 restricted unless there has been a change of syllabus.)

A subject in Greek History with reference to prescribed sources.

Permission of the Head of Department is required to take both this paper and 10.406.

10.406 Greek Philosophy

(Paper 10.307 restricted unless there has been a change of syllabus.)

A subject in Greek Philosophy with reference to prescribed texts.

Permission of the Head of Department is required to take both this paper and 10.405.

10.407 A Subject in Greek Literature to be prescribed by the Head of Department.

An author or group of similar authors will be chosen for special study. Candidates will read widely in the prescribed texts and be expected to translate passages, write commentaries and essays on the subject matter of the texts, and on their literary genre.

10.408 A subject to be proposed by the student and approved by the Head of Department.

The subject may be literary, philological, historical or philosophical and must be approved not later than 31 December of the year preceding enrolment.

Combined Honours: (Languages and Literature) See MA Degree Course Regulations.

CLASSICAL STUDIES

***73.102 Epic and Pastoral**

(Two hours per week)

Epic will be taught for the first sixteen weeks of the course and Pastoral for the remaining eight weeks. The principal authors to be studied will be Homer and Virgil (Aeneid) and in Pastoral Theocritus and Virgil (Eclogues).

Note: This paper will be taught in 1979 and at three-yearly intervals.

73.103 Comedy and Satire

(Two hours per week)

Each topic will occupy half the course. Plays from Aristophanes, Plautus and Terence will be studied in the comedy section and the main authors in the satire section will be Horace and Juvenal.

***73.104 Tragedy and Literary Criticism**

(Two hours per week)

Tragedy will occupy the first sixteen weeks of the course, and Literary Criticism the remaining eight weeks. In Tragedy, plays of the Greek dramatists Aeschylus, Sophocles and Euripides will be read together with those of Seneca. Literary Criticism will consist of a study of Aristotle's Poetics and Horace's Art of Poetry.

ANCIENT HISTORY

Ancient History I

12.100 Near Eastern History.

(Two hours per week). (Restricted 11.100).

This paper is prerequisite to 12.200 and 12.201.

An outline history of the ancient civilisations of Egypt, Mesopotamia and Israel from neolithic

times to Alexander the Great; the course will include artistic and cultural questions, and the civilisations of Anatolia, Syria and Iran will be considered in less detail.

12.102 Greek History

(Two hours per week)

This paper is normally prerequisite to paper 12.202.

An outline of Greek History from the Mycenaean Age to the Peace of Apamea (188 BC). Special attention will be paid to social and cultural questions and some attention will be given to the intellectual history of the period.

12.103 Roman History.

(Two hours per week).

This paper is normally prerequisite to paper 12.203.

An outline of Roman History from the earliest times till the foundation of Constantinople. Particular attention is paid to the Romans' achievement in government and in spreading civilisation and culture.

For all Stage I papers tutorial classes will be arranged.

Ancient History II

***12.200 Egyptian History**

(Two hours per week).

Prerequisite 12.100 or 11.100.

This paper is prerequisite to 12.300; one of 12.102 or 12.103 is corequisite.

Students planning to advance to 12.300 must take paper 12.210 with this paper. Egypt in the XVIIIth Dynasty (c. 1570-1320 B.C.). This course concentrates on the internal organisation and foreign policy of the kings of this dynasty.

12.201 Mesopotamian History

(Two hours per week).

Prerequisite 12.100 or 11.100

This paper is prerequisite to 12.301; one of 12.102 or 12.103 is corequisite.

Students taking this paper are advised to take paper 12.211 with it: when papers 12.301 and 12.501 become available, paper 12.211 will be necessary for them, but neither paper is available till further notice.

The Neo-Assyrian Empire (c. 884 — 612 B.C.).

This course will include a study of the Assyrian State, the aims, methods and historical importance of Assyrian imperialism, and its reflection in art, literature and religion. Special attention will be paid to contemporary documents.

The Department will provide copies of contemporary documentary material for those taking the Akkadian language option.

12.202 Greek History

(Two hours per week).

Prerequisite normally 12.102 or Greek II.

This paper is prerequisite to 12.322; one of 12.100, 11.100, or 12.103 is corequisite.

Students planning to advance to paper 12.322 must enrol for Greek I.

Greece and Persia (c. 546 — 323 B.C.).

This will involve a study of Herodotus' history and the first Persian War, the Greek counter-measures and the organisation of the Athenian Confederacy, Persian interventions in Greek inter-state struggles in the fifth and fourth centuries, and Alexander's anabasis. Documents will include public materials, decrees, and financial documents.

12.203 Roman History

(Two hours per week).

Prerequisite normally 12.103 or papers in either Latin II, or Latin I with approved History papers. This paper is prerequisite to 12.303; one of 12.100, 12.102 or 11.100 is corequisite.

Students planning to advance to paper 12.303 must enrol for Latin I or Latin 09.102.

The Pax Romana, with special reference to the first three centuries AD.

This will involve a study of Imperial Roman society — (the satirists' picture and other criteria).

Roman Central and Provincial government, and their attitudes to their neighbours; social and economic problems in the empire and the intellectual and religious cross-currents. Documents will include careers, public memorials, edicts and records of public benefactions.

12.210 Egyptian Language and Documents

(Two hours per week).

Prerequisite 11.100 or 12.100

This paper is prerequisite to 12.300 and 12.500; one of 12.102 or 12.103 is corequisite. The Egyptian Language, with special reference to Documents of the XVIIIth Dynasty and hieroglyphic writing.

12.211 Akkadian Language and Documents

(Two hours per week).

Prerequisite 11.100 or 12.100

This paper will be prerequisite to 12.301 and 12.501.

The Akkadian Language, with special reference to Documents of the Neo-Assyrian Empire and cuneiform writing.

12.220 A Topic in Egyptian History

(Two hours per week)

Restriction: 12.100

Syllabus as for 12.300.

Ancient History III

12.300 Egyptian History.

(Two hours per week).

Prerequisites normally 12.200 and 12.210. This paper is prerequisite to 12.500.

Egypt from Dynasty V to Dynasty XI; (24th to 21st centuries B.C.).

A study of the decline of Old Kingdom Civilisation, the ferment of disillusionment and heart-searching which followed, and the re-establishment of an ordered government and society in the Middle Kingdom. The course will be based on Egyptian historical and literary documents in English translation, together with some selected passages in the original Egyptian.

***12.301 Mesopotamian History.**

(Two hours per week).

Prerequisites normally 12.201 and 12.211. This paper will be prerequisite to 12.501.

12.303 Roman History.

(Two hours per week).

Prerequisites normally 12.203 and 09.102 or Latin I or II. This paper is prerequisite to 12.503.

Paper 03.319 is restricted.

Britain from the Iron Age to the Anglo-Saxons (c. A.D. 800).

12.304 Greek and Roman Historiography.

(Two hours per week).

Prerequisites normally 12.102, 12.103, one of 12.200-12.203.

A study of the principal historians of Greece and Rome, their aims and methods. The authors' works are studied in English translations.

†12.320 Special Topic

12.322 Tyranny

(Two hours per week)

Prerequisites normally 12.202 and 10.100

A study of the causes of the tyrannies in the Greek city-states, the aims and methods of the tyrants and the reasons for their expulsion. The course will consider the VII-VI century tyrants at the Isthmus of Corinth, in Ionia, and in Sicily, and the connexions between tyranny and imperialism (collaboration and resistance), the tyranny in Athens, and the tyrants in Sicily and elsewhere in the late Vth and following centuries.

Ancient History for MA and Honours.

Three or four papers from 12.400, 12.402 — 12.414 in the first year, one of the special subjects 12.500, 12.510, 12.501, 12.511, 12.502, 12.512, 12.503, 12.513 in the second year together with a fourth paper from 12.400-12.414 if not taken in the first year, and an essay (12.603) or dissertation (12.604) on a subject approved by the Head of Department.

Prerequisites: Eight papers from 12.100 to 12.322 including three of 12.300-12.322 or substitutes approved by the Head of Department. Note that papers 12.500 — 12.503 all have individual prerequisites.

12.400 A topic in Near Eastern History after Alexander the Great.

The Jews in the Greco-Roman World.

A study of the political and social developments in Judaea and the Diaspora, together with their cultural and ideological implications, from the Conquest of Alexander the Great to the outbreak of the First Revolt against Rome.

12.402 A topic in Greek History after Alexander the Great.

The relations between Greeks and Romans from the end of the third century B.C. down to approximately A.D. 180. There are two main parts. The first deals with the political contacts and conflicts of the two peoples ending in the destruction of Corinth in 146 B.C.. For this period the main literary sources are Polybius and Livy. The second main period begins with the reign of the Emperor Nero and deals more fully with the condition of Greece and the Greek cities of Asia Minor as revealed by the works of Plutarch and the letters of the Younger Pliny. This part of the course will also touch on the revival of Greek letters known as the "Second Sophistic".

***12.403 A topic in Roman History**

The later Roman Empire A.D. 193-337.

This course will include study of various developments — military, administrative, economic, religious, social — in a crucial period of change for the Roman Empire. Particular attention will be paid to the Severan period (A.D. 193-235).

***12.404 A topic in the social history of the Ancient World.**

The institution of slavery in the Ancient World. The paper considers the composition of the slave population at different periods, their numbers, employments and treatment; modes of liberation and the position of emancipated slaves; the impact of slavery on society, especially the family, farming, commerce and government; the causes of slave wars and revolts; slavery and serfdom and the other part-slave part-free statuses, with special reference to debtors' contracts.

***12.405 A topic in the economic history of the Ancient World**

12.406 Political Thought and Practice in the Ancient World

A study of the ideologies of the monarchies of the Near Eastern Kingdoms, the city-states of Greece and the Res Publica and Imperium of the Romans.

***12.412 The Hellenistic World and The Heritage of Hellenism.**

12.414 The Family in the Ancient World

This course will consider the known sources of information about the family, including marriage customs, laws affecting kinship, property and succession in the ancient civilisations, and consider the importance of these for the history of the societies considered.

One paper as prescribed for Ancient History III. not already taken at Stage III

One, or two papers from those prescribed for MA in another subject or subjects approved by the Heads of Department concerned.

12.409 A topic proposed by the student and approved by the Head of Department not later than 31 December of the year preceding enrolment.

The special subjects will be as follows:

12.500, 12.510 Egyptian History

Prerequisites 12.210 and 12.300

Subject for 1980: the Unity of Egypt.

A comparative study of the steps which led to the unification of Egypt at the beginning of the

Old, Middle and New Kingdoms, and of the reasons for the de-centralization at the end of each kingdom. This subject involves a close study of relevant texts in the original Egyptian. In this and other special subjects the examination will consist of two papers, one on the texts, including transliteration (where relevant) and translation, and (where relevant) on linguistic questions and the tradition and veracity of the texts; the other on their historical significance.

***12.501, *12.511 Mesopotamian History**

Prerequisites 12.211 and 12.301

Not available at present

12.502, 12.512 Greek History

Prerequisite 12.302 or 12.312, 12.322 or Greek III

A period in Greek History with reference to specified texts.

The syllabus and prescribed texts will be as for Paper 10.405.

For the examination see paper 12.500.

12.503, 12.513 Roman History

Prerequisites Latin III or 12.303 with either Latin 09.102 or Latin I.

The syllabus and prescribed texts will be as for Paper 09.405.

For the examination see paper 12.500.

†12.520, †12.530 Special Topic

Syllabus available from Department in February 1981 if this paper is to be taught.

12.603 Research Essay

12.604 Dissertation

BIBLICAL HISTORY AND LITERATURE

Biblical History and Literature I

11.100 Near Eastern History.

(Lectures as for 12.100 plus 10 lectures and a test on Israel. Students who do not wish to advance to 12.200 or 12.201 may omit either the Egypt or the Mesopotamia lectures)

Corequisites 11.101, restricted 12.100

An outline of the history of Israel is placed in the context of a general survey of the history of the ancient Near East, thus providing the necessary background to the literature of the Jewish people.

This paper may be used as a prerequisite to all Ancient History papers for which 12.100 is prerequisite provided that a piece of work in the relevant area has been presented in-course-work or examination.

11.101 Biblical Literature of the Old Testament.

(Two hours per week).

Corequisite 11.100, which normally must be taken concurrently or passed before enrolment in this paper.

A survey of the biblical literature of the period illustrating the different forms of literature in the Old Testament; a special study of the books of Amos and Psalms 1-41 from the standpoint of their literary form and their relationship to the history and the religion of their times.

***Biblical History and Literature II**

This subject is not available until further notice. One of the papers at least may require as a prerequisite a pass in papers at Latin I, Greek I, or Hebrew I as well as in Biblical History and Literature I levels.

***11.200 The History of Israel to A. D. 135.**

***11.201 The History of Christian Origins to A. D. 135.**

***11.202 The Biblical Archaeology of a Prescribed Period.**

***11.203 The Apocrypha with Prescribed Texts.**

HEBREW

Hebrew I

(Four hours per week).

Classical Hebrew Papers 23.100 and 23.101 are linked. Paper 23.102 is not available at present.

23.100 Classical Hebrew — Language.

Corequisite 23.101.

Translation of passages from selected portions of the Old Testament. Translation of a simple unprepared passage from a narrative portion of the Old Testament. Parsing of words; and questions on points of elementary syntax occurring in the prescribed work.

Note: No candidate who fails to satisfy the Examiner in the unprepared translation shall be deemed to fulfil the requirements in Hebrew.

23.101 Classical Hebrew — Texts

Corequisite 23.100.

Translation and pointing of a passage from the unpointed text taken from one of the selected portions of the Old Testament. Retranslation from English into Hebrew of an easy narrative passage from or based upon the prescribed prose. General questions on elementary grammar, with translations into pointed Hebrew of sentences chosen to test grammatical knowledge.

*23.102 Modern Hebrew.

*Hebrew II

*23.200 Classical Hebrew.

Prerequisites 23.100, 23.101.

Corequisites 23.201 and one of 23.202, 23.203.

Translation into idiomatic Biblical Hebrew of prose based on the prescribed texts, and of English sentences, illustrating Hebrew idiom and syntax; the pointing of passages from the prescribed texts; questions on the grammar and syntax of Biblical Hebrew.

*23.201 Classical Hebrew

Prerequisites 23.100, 23.101

Corequisites 23.200 and one of 23.202, 23.203.

Translation from prescribed texts from the Old Testament with questions on the grammatical and syntactical forms found therein. Translation of unprepared passages from the Old Testament including one from the unpointed text.

*23.202 Modern Hebrew.

Prerequisites 23.100, 23.101.

Corequisites 23.200, 23.201.

Modern Hebrew conversation and reading. Modern Hebrew grammar. Translation from selected Modern Hebrew texts.

*23.203 Classical Hebrew.

Prerequisites 23.100, 23.101.

Corequisites 23.200, 23.201.

Translation and annotation of selected portions of the Old Testament, together with the questions on the textual, literary and historical criticism of the books from which they are taken.

DEPARTMENT OF ECONOMICS

For Economics prescriptions see Faculty of Commerce.

DEPARTMENT OF EDUCATION

*This paper will not be taught during the current *Academic* year.

†This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Education I

14.100 An introduction to Educational Thought.

Corequisite: 14.101, if planning to enrol in more than one Stage II paper.

Selected historical and philosophical aspects of Western educational ideas.

14.101 Introduction to Development Psychology.

Corequisite: 14.100, if planning to enrol in more than one Stage II paper.
An introduction to human development.

Education II**14.200 Comparative Education.**

Prerequisite: 14.100, 14.101, if enrolling in more than one paper.
Area studies: Great Britain and U.S.A.

14.201 History of Education.

Prerequisites as for 14.200.
The period up to 1600.

14.202 New Zealand Education.

Prerequisite as for 14.200.
Issues and problems associated with the organisation, administration and practice of education in New Zealand.

14.203 Educational Psychology.

Prerequisite as for 14.200.
Educational psychology, with particular reference to learning theory and cognitive development.

14.204 The Evaluation of Individual Differences.

Prerequisites as for 14.200.
An introduction to the theory and practical aspects of evaluating individual differences. A course of practical work and elementary statistics must be completed concurrently.

14.206 School and Society. A Sociological Perspective

Prerequisites: As for 14.200
An introduction to contemporary sociology of education.

14.207 Evaluation in Classrooms.

Prerequisites as for 14.200.
An introduction to procedures for classroom evaluations. A course of practical work and elementary statistics must be completed concurrently.

14.208 The Philosophy of Education.

Prerequisites: As for 14.200.
An introduction to contemporary philosophy of education with an emphasis on ethics.

14.209 Introduction to Research in Education

Prerequisites as for 14.200
Selected topics for the beginning student in educational research including scientific method as applied to research in education, empirical procedures, the basic tools of related literature, statistics and measurement, and interpreting and reporting results.

Education III**14.300 Twentieth Century Educational Thought.**

Prerequisites: Two Education papers at Stage II level if enrolling in more than two papers. A study of selected educational philosophies.

14.301 Comparative Education.

Prerequisites as for 14.300.
Selected area studies.

14.302 History of Education.

Prerequisites as for 14.300.
The period from 1600 to 1900.

14.303 The Sociology of Education.

Prerequisites as for 14.300;
The nature and scope of sociological thinking and research as applied to education.

14.304 The Context of Educational Planning.

Prerequisites as for 14.300.

An examination of the rationale, modes, and problems of educational planning, with particular reference to developed industrial societies.

***14.305 The Guidance Process.**

Prerequisites as for 14.300.

The history and present position of guidance principles and practice, and the organisation of guidance in education systems with particular reference to New Zealand and other selected countries.

14.306 Introduction to Guidance and Counselling.

Prerequisites as for 14.300.

An examination of basic principles of guidance and counselling together with an analysis of current practice in selected education and community settings.

14.307 Principles of Curriculum Development.

Prerequisites as for 14.300.

A study of principles of curriculum development that may be derived from psychological, sociological and philosophical sources and their application to the analysis and construction of curricula in various institutions in New Zealand.

14.308 Educational Psychology: A Behavioural Approach.

Second half of the year

Prerequisites as for 14.300.

A study of contemporary ideas and research in human learning and instruction. Topics will include alternative approaches to schooling and applied behaviour analysis.

14.309 Developmental Psychology.

First half of the year

Prerequisites as for 14.300.

A study of selected aspects of infant and child development including the development of perception, cognition, language and problem solving.

14.310 Psychology of Adolescence.

Prerequisites as for 14.300.

A study of research on the physical, emotional, social and intellectual development of adolescents, and its relevance to New Zealand society.

14.311 Education of Exceptional Children.

Prerequisites as for 14.300. Students who have completed 32.208 may be admitted to this course.

An examination of the special educational needs of children showing atypical development and of the effectiveness of current special educational strategies.

14.312 Issues in Special Education.

Prerequisites as for 14.300.

A general treatment covering all types of atypical development and behaviour in children, dealing with basic concepts of development, home management, and educational organisation.

14.313 Educational Research

Prerequisites as for 14.300.

An advanced study of special educational provisions for children showing atypical development, including an intensive analysis for mentally retarded children.

†14.314 Pre-school Education

Prerequisites as for 14.300.

History and philosophy of pre-school education in New Zealand and in selected overseas countries; current New Zealand practices and provisions.

14.316 Early Determinants of Behaviour

Prerequisites as for 14.300.

A study of research dealing with the influence on later behaviour of variables operating prior to and shortly after birth.

14.317 Organisational Effectiveness: Applications to Educational Settings

Prerequisites: as for 14.300

A study of structural and interpersonal factors which influence the effectiveness of educational organisations.

Note: This course has special relevance to those with experience or interest in administration in educational or social service settings.

14.318 Studies in Higher Education

Prerequisites as for 14.300

An introduction to the aims and characteristics of courses in higher education and a study of curriculum design and instructional strategy at this level.

14.319 Special Topic: The Reading Process

A subject to be proposed by a staff member or a student and approved by the Head of Department. This must be approved not later than 31 December of the year preceding enrolment.

14.320 Special Topic in Moral Education**14.321 The Nature of Educational Theory**

Prerequisites as for 14.300.

A philosophical examination of problems in educational theory with an emphasis on teaching and learning.

14.322 Adult Learning and Education

Prerequisites as for 14.300

A study of the educational, developmental and psychological aspects of adulthood and of current issues in the fields of adult learning and education.

14.323 Special Topic: Issues Related to Reading Difficulties

A subject to be proposed by a staff member or a student and approved by the Head of Department. This must be approved not later than 31 December of the year preceding enrolment.

14.324 Special Topic: Environmental Psychology: Application to Education

A subject to be proposed by a staff member or a student and approved by the Head of Department. This must be approved not later than 31 December of the year preceding enrolment.

A course of prescribed practical work, observational visits or special seminars will be associated with each Education III paper. Details of these requirements are available at enrolment. These will normally involve over the year about twenty-four hours of supervised work in laboratories and elsewhere and additional time for assignments.

Education for MA and Honours

Seven papers; or six papers and a Dissertation (14.604) which counts as one paper; or four papers in the first year and a Thesis (14.601).

In special cases a candidate may with the approval of the Head of Department offer five papers and a Thesis (14.611) counting as two papers OR four papers and a folio of case work with associated seminars (14.606) counting as three papers.

14.400 Philosophy of Education

Philosophical issues in education.

14.401 Comparative Education

The comparative analysis of a selection of educational problems.

14.402 History of Education

An introduction to historical method applied to education.

14.403 New Zealand Education

A study of selected aspects of New Zealand education. Particular reference will be paid to major investigations in the areas selected.

14.404 The Sociology of Education

A more intensive examination of some of the matters introduced in Stage III, paper 14.303.

14.405 Educational and Vocational Guidance

An examination of theoretical and practical aspects of academic and careers guidance.

14.406 Educational Psychology

An advanced treatment of the behaviour of normal children with special reference to learning and the conditions which promote it.

14.407 Developmental Psychology

An advanced treatment of research in selected aspects of cognitive and personality development.

14.408 Issues in Deviant Development

Corequisite: 14.407 or 32.413

The application of critical and conceptual skills to selected research on the prevention and treatment of deviant development in children and adolescents.

14.409 Educational Research

The scope and methods of educational research, experiment, and evaluation, including related statistical procedures.

14.410 Principles and Practice of Counselling

Prerequisite: 14.306 will normally be a prerequisite for this course.

An advanced examination of counselling principles, together with practical experiences in selected counselling procedures.

14.412 Behaviour Analysis in Education

An examination of the application of behaviour analysis techniques to contemporary problems in education, including supervised research and field experience.

14.413 Education of Exceptional Children

Prerequisite: 14.311 will normally be a prerequisite for this course.

A psychological and theoretical analysis of techniques designed to identify and alter deviant development in children and adolescents.

14.414 Issues in Curriculum Development and Evaluation

A consideration of current issues in curriculum development and evaluation in primary, secondary and tertiary education.

14.415 Special Topic

The topic to be proposed by the student after consultation with staff members and approved by the Head of Department. The topic must be approved not later than 31 December of the year preceding enrolment.

14.416 Special Topic

The topic proposed by a staff member and approved by the Head of Department will be announced in the Department by 31 December of the year preceding enrolment.

14.417 Special Topic

The topic proposed by a staff member and approved by the Head of Department will be announced in the Department by 31 December of the year preceding enrolment.

14.601 Thesis

A candidate presenting a thesis, dissertation or folio of case work shall forward it to the Professor of Education, not later than 1 November in the year in which it is to be examined. A research seminar will be held once a week during the first half of the year for those preparing to write MA thesis.

A timetable for these seminars will be available at enrolment.

DEPARTMENT OF ENGLISH

Notes (i) Since the supply of text-books continues to be uncertain, some changes in courses may be unavoidable. Students will be notified of any such changes at the beginning of the academic year.

The books mentioned in the appendix are *prescribed* books — ie those which students must have. Students should obtain from the department the fuller version of prescriptions and book lists, which include *recommended* books (ie additional to those prescribed); and also lists of further prescribed books which are required for those papers not mentioned in the appendix.

All students should possess a good Dictionary; the *Concise Oxford* is recommended.

(ii) Students intending to take English as a major subject will find that the subjects which combine most appropriately with it are: any foreign language (including Latin or Greek) or Classical Studies, History, Philosophy, Art History, Music, Biblical History and Literature or Linguistics or Maori language papers.

English I

To advance to English II two English I papers must have been passed. Students intending to advance papers at English II are strongly advised to take 18.100. Each course involves one lecture per week for the whole year, and one lecture per week for half the year, with tutorials.

18.100 Introduction to Chaucer, Shakespeare and the Study of Language

18.101 Twentieth Century Literature

18.103 New Zealand Literature

18.104 Nineteenth Century Literature

English II

To advance to English III three specific English II papers must have been passed. See BA Schedule under English II: Qualifications. Each paper involves one lecture per week; tutorials are also given.

18.200 Mediaeval Literature:

Chaucer and his Contemporaries, with optional Early English

18.201 English Language

18.210 Sixteenth and Seventeenth Century Prose and Poetry

18.211 Sixteenth and Seventeenth Century Drama

18.212 Shakespeare: Selected Plays: Comedies and Tragedies

18.220 The English Novel 1900-1945

English III

The course consists normally of a minimum of three papers, and a maximum of six papers; students must take one paper from 18.300-18.304, one from 18.306-18.308, and one from the group 18.310 and 18.314-18.326. See BA Schedule under English III: Qualifications, and also MA prerequisites. Each paper involves one lecture per week, with tutorial work as arranged.

18.300 The English Language from Chaucer's day to the present

18.301 Old English Literature

18.302 Middle English Literature

Prerequisite: 18.200

18.303 The Linguistic Analysis of Literature

18.304 Phonology and New Zealand Speech

18.306 Prose, Poetry and Drama of the Eighteenth Century

18.307 The Age of Wordsworth

18.308 18th Century Novels

18.310 Shakespeare: Selected Plays

For 1981: Late Plays

18.314 Major Works, Sixteenth and Seventeenth Centuries

18.320 Victorian Literature

†18.323 American Literature: Poetry

18.325 Special Topic II as prescribed by the Head of Department: Novels 1945-1975

18.326 Special Topic III as prescribed by the Head of Department: Women Writers of the 20th Century.

Note: 18.301 and 18.302 are normally prerequisites for MA paper 18.403. 18.301 is a prerequisite for MA paper 18.400, 18.302 is a prerequisite for MA paper 18.411 and normally a prerequisite for 18.401. 18.301 is normally a prerequisite for MA paper 18.402.

English for MA and Honours

Note: For full details of courses and for prescribed books, intending students should consult the Head of Department towards the end of 1980; some papers listed below may not be given in 1981. It may be necessary to restrict entry to some classes:

(1) Single Honours — English

Students will select seven of the papers set out below, their selection of papers to be approved by the Head of the Department. One paper listed under Stage III English, if not already credited for a BA degree, may be offered as a paper for an MA. Not more than three papers may be taken from the period after 1930. With the permission of the Head of Department, a thesis (18.601) may be substituted for two papers or a dissertation (18.604) or a research essay (18.603) for one paper. The dissertation may take the form of a documented essay of about 25,000 words; the thesis will normally be longer, and will be upon a topic requiring detailed research. Candidates who propose to present their papers over two years will normally be required to submit specified coursework before sitting the examination for each paper. Those who present all their papers in one year will be given the opportunity to submit coursework. All students taking a paper from English III will be required to submit the prescribed coursework for that paper.

18.400 Old English

Prerequisite: Old English at Stage III level.

18.401 Middle English

Prerequisite: normally Middle English at Stage III level.

18.402 Norse (Icelandic)

Prerequisite: normally Old English at Stage III level.

†18.403 Introduction to English Philology.

Prerequisite: normally Old English and Middle English at Stage III level.

†18.404 Victorian Studies (24.415 History paper).

An interdisciplinary paper concerned with selected topics from English literature and British social and cultural history of the 19th Century.

18.405 Twentieth Century Poetry.

18.406 Shakespeare. Selected Plays and Poems.

18.407 Literary Criticism.

18.409 Twentieth Century Drama.

18.410 English Linguistics

For 1981: Transformational-Generative Grammar.

18.411 Selected Author or Authors I, to be prescribed by Head of Department.

For 1981: Chaucer.

Prerequisite: Middle English at Stage III level.

18.412 Bibliography and Textual Criticism.

18.413 Essays Paper

The course will consist of the supervised writing of short essays in a field or genre proposed by the student.

18.414 Selected Author or Authors II, to be prescribed by the Head of Department.

For 1981 Early Twentieth Century Fiction.

(1) Henry James.

(2) D. H. Lawrence.

(3) James Joyce.

18.415 Nineteenth Century American Prose and Fiction.

18.416 20th Century American Literature.**18.417 New Zealand Literature.**

The course will be based mainly on authors of prose and verse writing after 1910.

18.418 Special Topic I: To be prescribed by Head of Department

For 1981: Restoration Literature.

†18.419 Special Topic II: To be prescribed by Head of Department

For 1981: 15th Century English Drama.

A study of medieval drama (particularly morality and cycle plays), tracing its development to the early Tudor plays.

†18.420 Special Topic III: To be prescribed by Head of Department

For 1981: Film Studies (Art History paper 19.404)

This inter-departmental paper — shared by the Departments of English and Art History — will examine film as an art by studying the work of some major film-makers and also the major theories of film criticism.

18.421 Special Topic IV: To be prescribed by Head of Department

For 1981: Literature and Thought 1590-1650. A course in which literature is studied in relationship to the history, ideology and religion of the time.

18.422 Special Topic V: To be prescribed by Head of Department

For 1981: Literature and Literary Figures 1870-1915.

18.424 Selected Author or Authors III: To be prescribed by the Head of Department.

For 1981: Major Victorian Writers: Dickens.

†18.425 A Topic in Sociolinguistics

For prescription see under Linguistics 83.402

18.426 Special Topic VI: To be prescribed by Head of Department

For 1981: Concepts of Satire in Augustan Literature.

†18.427 Special Topic VII: To be prescribed by Head of Department**† 18.428 Special Topic VIII: To be prescribed by Head of Department****18.601 Thesis**

(equivalent to two papers).

18.603 Research Essay

(equivalent to one paper).

18.604 Dissertation

(equivalent to one paper).

(2) Combined Honours — English with another language (Languages and Literature)

Students will select three or four papers (set out above for Single Honours) as approved by the Heads of Department concerned.

DEPARTMENT OF GEOGRAPHY

* This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Geography I

Two papers are offered for Geography I. They may be taken separately or together, but students planning to advance in geography should enrol in both. Practical work, tutorials, and a field excursion form an integral part of the courses, and participation in these is required. There are no prescribed texts but a list of recommended books for each course is included in the departmental *Students' Guide* available from the departmental secretary.

20.101 Introductory Physical Geography

An introduction to geomorphology, climatology, biogeography and soils emphasising environmental processes.

20.102 Introductory Human Geography

Social and economic processes that determine spatial inequality and access to resources both within and between nations.

Geography II

Five papers are offered for Geography II. They may be taken separately, but students planning to advance in geography should enrol for 20.204 (or 26.180 or 26.181) and at least two others from 20.201, 20.202, 20.203, 20.205 and 20.240 (Asian Geography). A list of recommended books for each of the papers is included in the departmental *Students' Guide* available from the departmental secretary.

20.201 Physical Geography

The course deals with material drawn from the major branches of physical geography, namely, biogeography, climatology and geomorphology. Important environmental processes and phenomena are considered with water as the unifying theme. The main sections of the course are: oceans and ice; atmospheric and soil moisture; water over the land; water, plants and animals.

20.202 Human Geography

Discussion of population, economic and cultural patterns and interrelationships, and the principles and modes of analysis employed in human geography.

20.203 Remote Sensing Techniques

Photogrammetry, photo interpretation and an introduction to more recent techniques of remote sensing and their application.

20.204 Statistical Techniques in Geography

An introduction to elementary statistical methods for the non-mathematical student. The course covers descriptive statistics, the testing of simple statistical relationships, and the use of computer processing.

20.205 Man's Role in the Environment**Geography III**

In 1981 it is expected that at least seven papers will be offered for students wishing to do advanced work in geography. Each paper will involve at least two hours of lectures, seminars, or laboratory work per week; but students must also attend such additional practical work and fieldwork as may be required. A list of recommended books for each of the papers is included in the departmental *Students' Guide* available from the departmental secretary.

20.301 Geography of New Zealand

Emphasis is on the patterns and processes of social and economic regional development.

20.303 Geomorphology

A selection of topics from coastal, slope, and Quaternary geomorphology.

20.304 Biogeography and/or Climatology

The paper examines concepts and methods in environmental climatology and biogeography. The climatology component deals with the atmospheric environment near the ground.

***20.305 Social Geography**

A study of the processes underlying the ways in which social groups structure space.

20.306 Spatial Organisation of Third World Economies

A study of the historical, economic and political forces responsible for the spatial characteristics of Third World agriculture, marketing, industry, migration and urbanisation.

20.310 Area Study*20.311 Historical-Cultural Geography**

A topical approach to man's attitudes toward nature, the transformation of natural landscape into cultural landscape through time, religious organisation of environment, and the geography of folklore and place names.

†20.312 Special Topic**20.313 Advanced Statistical Techniques in Geography**

An examination of multivariate methods and spatial analysis.

20.316 Advanced Remote Sensing

Advanced analysis and digital processing of multispectral remotely sensed data.

†20.320 Resources and Environmental Management**Geography for MA, MSc, and Honours**

(Four papers and a thesis (20.601))

At least nine papers will be offered in 1981. Students will be required to select any four of the papers set out below. A list of recommended books for each of the papers is included in the departmental *Students' Guide* available from the departmental secretary.

20.400 History and Nature of Geography*20.410 Geography of the Southwest Pacific**

A study of the patterns and processes of island bio-physical environments, population, economic organisation and resource use.

†20.411 Geography of a Special Area**20.420 Biogeography-****†20.421 Climatology**

Topics in boundary layer and applied climatology.

20.422 Geomorphology**20.423 Soil Geography****20.424 Hydrology and Fluvial Geomorphology**

Pure and applied aspects of hydrology and fluvial geomorphology, incorporating field and laboratory techniques.

20.431 Historical Geography

Principles of land use competition and land use planning in rural and urban areas with emphasis on developed economies.

20.431 Historical Geography-

A cross cultural study of man's association with nature through time.

20.432 Inequality Among Nations: Development and Underdevelopment-

An examination of the historical processes that have led to increasing inequality between developed and underdeveloped countries.

20.433 Political Geography**20.434 Population Geography**

Analysis and applications of the methods and materials of demography.

20.435 Transport Geography*20.436 Urban Geography**

The emphasis of the course is on the evolution of urban systems and contemporary urban problems.

20.440 Special Topic

For 1981: Remote Sensing. An advanced study of remote sensing applications involving analysis of a range of recent imagery and data.

20.441 Special Topic

For 1981: Coastal Studies-

Asian Geography**20.130 Geography of East Asia**

A topical and regional approach to the geography of China and Japan. The course emphasises

the unity and diversity of East Asia; environment and cultural development; industrialisation and urbanisation; population problems; and environmental management.

†20.240 Geography of Malaysia, Singapore and Indonesia

This paper focuses on themes of population composition, and growth; urbanisation; economic structure and regional patterns; and problems of resource use.

DEPARTMENT OF GERMANIC LANGUAGES AND LITERATURE

The Department of Germanic Languages and Literature teaches two subjects: German and Scandinavian Studies.

Information about the Department is contained in the Departmental Handbook and the Handbook of the Faculty of Arts, both of which are available from the University Office.

Students intending to take an MA course should at all stages throughout their undergraduate studies consult the Head of Department concerning their degree structure, and should note carefully in the Departmental Handbook the strong recommendations concerning related subjects.

* This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

GERMAN

German I

Most students enrolling for German I have studied German previously. They are divided, on the basis of their knowledge, into streams. Each stream has five hours of teaching per week.

Students may enrol without previous knowledge of the subject. Such students have a different syllabus (including prescribed texts) from the rest of the class, and receive a total of six hours of teaching throughout the year.

Papers 22.100 and 22.101 are linked corequisites. A candidate's result will be determined over the two papers. See BA schedule.

In determining the final result, the candidate's performance during the year and in particular his performance in class tests, will be taken into consideration.

22.100 Language acquisition.

Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.101 Literature and texts.

Selected works of German literature for translation and comment. Literary criticism.

22.102 Aspects of modern German civilization.

This paper is open to any interested student, whether or not he or she is studying German language and literature. The paper is strongly recommended to students of German at all stages.

A survey of modern German history, thought and culture (i) Aspects of 19th and 20th century German history and thought; (ii) Literature (studied in translation), music, art and cinema of the period.

22.103 Reading Knowledge for Arts students in selected disciplines.

The study of German vocabulary and sentence structure; translation into English and comprehension of general and subject-related texts.

A minimum of 12 candidates is required.

1981: Ancient History and Classics.

German II

A candidate's result will be determined over the three papers. Papers 22.200, 22.201 and 22.202 are linked corequisites — see BA Schedule.

In determining the final result, the candidate's performance during the year and in particular his performance in literature assignments and in class tests, will be taken into consideration.

22.200 Language acquisition.

Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.201 Selected aspects of German literature and language.**22.202 Aspects of 20th Century German literature.****German III**

A candidate's result will be determined over papers 22.300, 22.301 and 22.302, which are linked corequisites. For the purposes of BA regulation 4(a) these three papers must normally be taken. *In determining the final result, the candidate's performance during the year and in particular his performance in literature assignments and in class tests will be taken into consideration.*

22.300 Language acquisition

Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.301 Medieval and Romantic texts**22.302 (i) 19th century narrative prose****(ii) Two options in German literature with special reference to selected authors from the time of Goethe onwards**

Students who have passed, or are taking concurrently, papers 22.300, 22.301 and 22.302 may, with the permission of the Head of Department, take up to three approved papers which are prescribed for German MA and Honours.

Recommendations for background reading for all papers will be circulated.

German for MA and Honours

Students intending to enrol for MA must consult the Head of the Department towards the end of the previous year to discuss optional papers and to obtain advice on vacation reading.

(1) Single Honours — German

Seven papers comprising 22.400 and six others, to be selected with the approval of the Head of the Department. With the approval of the Head of Department five papers and a thesis (22.601) may be offered. No student may offer for MA any paper in which he has already been credited with a pass.

22.400 Language acquisition. Translation at sight from and into German — Composition and other written work in German**22.401 Classical and post-classical Middle High German language and literature with special reference to *Tristan und Isolde* and the works of Hartmann von Aue****22.402 Classical Middle High German language and literature with special reference to Wolfram von Eschenbach's *Parzival* and the *Nibelungenlied*.****22.403 The political, religious and social background to Middle High German literature. Aspects of linguistic history****†22.404 Prosa der Goethezeit****22.405 The poetry of Rilke****22.406 The *Novelle* and the *Märchen* in the nineteenth century**

This paper is not available to candidates who have presented paper 22.411 prior to 1981.

22.407 Selected works of Brecht**22.408 Post-war German prose with special reference to Andersch, Handke, Walser and Böll****22.409 Scandinavian drama with special reference to Ibsen and Strindberg**

This paper deals with Scandinavian drama in English translation and is therefore open to students who have no knowledge of Scandinavian languages.

***22.410 Linguistic analysis of contemporary written German**

22.412 An approved special topic in German language or literature

22.413 Selected works of Thomas Mann

22.414 An approved special topic in German language or literature

22.415 An approved special topic in German language or literature

22.416 An approved special topic in German language or literature

22.417 An approved special topic in Germanic languages, literature, thought or history

With the approval of the Head of Department, a thesis may be substituted for two of the optional papers. Students receiving such approval will be required to do the thesis in a second year.

Every candidate will be required to pass an examination on the oral use of the language. In determining the Class of Honours, the Candidate's performance in the written papers, the oral examination and in course work will be taken into consideration.

(2) Combined Honours — German with another language

Three papers in German and three in the other subject, with the seventh paper selected from either subject.

Three or four papers in German as defined above for Single Honours, to be selected with the approval of the Head of the Department.

Every candidate will be required to pass an examination on the oral use of the language. In determining the Class of Honours, the candidate's performance in the written papers, the oral examination and in course work will be taken into consideration.

†22.002 Foreign Language Reading Course (German)

This course is designed for students who must satisfy, in another faculty, a foreign language reading requirement in German.

SCANDINAVIAN STUDIES

Scandinavian Studies I

Students may enrol without previous knowledge of the subject. Such students will receive a total of six hours of teaching per week.

A candidate's result will be determined over two papers. Papers 46.100 and 46.101 are linked corequisites — see BA Schedule.

In determining the final result, the candidate's performance during the year will be taken into consideration.

46.100 Language acquisition

Oral and written use of Swedish, tested in some or all of the following ways: comprehension, conversation, composition, translation from and into Swedish, dictation, reading.

46.101 (i) Prescribed texts in Swedish for translation

(ii) Selected works of Scandinavian literature

(iii) An outline of Scandinavian history, geography and literature

Scandinavian Studies II

A candidate's result will be determined over three papers. Papers 46.200, 46.201 and 46.202 are linked corequisites — see BA Schedule.

In determining the final result, the candidate's performance during the year will be taken into consideration.

46.200 Language acquisition

Oral and written use of Swedish, tested in some or all of the following ways: comprehension, conversation, composition, translation from and into Swedish, dictation, reading.

46.201 (i) The development of the Scandinavian languages with special reference to selected texts

(ii) Selected Danish and Norwegian texts since 1840

(iii) Twentieth century Swedish literature, with special reference to poetry and the novel

46.202 Scandinavian drama with special reference to Holberg, Ibsen, Strindberg and Ingmar Bergman

Scandinavian Studies III

In determining the final result, the candidate's performance during the year will be taken into consideration.

46.300 Language Acquisition.

Advanced oral and written Swedish; comprehension of written Danish and Norwegian ("Bökmål").

DEPARTMENT OF HISTORY

Fuller details concerning the Department's teaching programme and its requirements of students are contained in a guide which all students must obtain from the Department at 1A Wynyard Street. Students are advised to call at the Department before enrolment to discuss courses and to obtain reading lists and a leaflet entitled *Advice on Books to Buy*. This will list recommended texts for papers for which there are no prescribed texts.

NOTE:* This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

History I

24.100 From Versailles to Pearl Harbor: issues of peace and war.

(first half of year).

The origins of the Second World War in Europe and Asia. The course examines the challenges Germany and Japan presented to the status quo and considers the outcome.

24.101 The Russian Revolution.

(first half of year).

The origins of the 1917 revolution and the development of Russian society from Alexander III to Krushchev.

24.103 Fascism in the inter-war Years.

(second half of the year)

The nature of inter-war fascism with particular reference to the movement in Italy, Germany, Spain and France.

24.104 The Development of Modern Cities.

(second half of year)

The process of urbanisation in Great Britain, the United States and Australia; the economic and industrial development of selected cities; and the social consequences of urban growth.

24.105 The USA since 1890.

(second half of year).

The role of the United States in world affairs and a survey of internal social and political developments.

24.106 Marxism in Perspective

(first half of year)

Marxism as theory and practice in nineteenth century Europe. The course will follow the development of socialist theory in the context of industrialisation and the early labour movement.

†24.107 **Special Topic:** To be prescribed by Head of Department.

24.120 Race Relations in New Zealand.

(second half of year).

Race relations and cultural interaction in New Zealand from the early nineteenth century to the present day.

24.121 New Zealand Society and Politics

(first half of year).

New Zealand history (other than race relations and specifically Maori history) since 1840, but with the main emphasis on the period since 1870.

Note: Each of the above papers will be taught for half of the year, three lectures, one tutorial per week, in the following sequence: 24.100-24.103; 24.101-24.105; 24.106-24.104; 24.121-24.120. Second half year papers will start in the week beginning 22 June. Should their timetable permit, students may take a single paper, or two or more papers from different sequences.

Asian History I

24.130 China since the Opium War

(first half of year)

The collapse of Imperial China under the impact of foreign imperialism and internal upheavals and the subsequent struggle to rebuild a modern nation.

24.132 Nationalism and Revolution in Vietnam, Thailand and Indonesia.

(second half of year)

An examination of the nineteenth-century roots of nationalism and the significance of the revolutionary struggle in the twentieth century.

Note: There will be three lectures and one tutorial a week for each paper. Paper 24.132 will start in the week beginning 22 June.

History II

24.200 Rome and the Barbarians 300-800

(first half of year)

The central emphasis varies slightly from year to year. The general problem of 'decline and fall' is always examined, at political, religious, and cultural levels; and then two or more barbarian kingdoms are chosen to illustrate interaction between the empire and its 'invaders'.

24.201 Kingship and Society in Medieval England from King Alfred to Edward I.

(second half of year)

Studies in the development of royal power in England from the Anglo-Saxon period until the thirteenth century.

24.208 Early Modern Spain and its Silver Colonies

(first half of year)

This paper analyses the growth of the powerful Habsburg state from the late fifteenth century and its colonisation of Mexico and Peru. In the seventeenth century, the focus is on the decline of the metropolitan authority and on the erosion of its control over the colonial societies.

*24.210 The Growth of the Western European State in the 16th century

*24.211 The Growth of the Western European State in the 17th century

24.212 The French Enlightenment

(first half of year)

A study of eighteenth century French thought with some attention to its seventeenth century background. An essential part of the course will be the study in translation of some specified works by Montesquieu, Voltaire and Diderot.

24.213 Society and Revolution in France 1750-1800

(second half of year)

The social and economic development of France, focussing on the medium-term background to the Revolution at the end of the eighteenth century. Specific topics include population growth, religiosity, industrialisation, urbanisation, popular *mentalités*, criminality and the development of institutions.

24.230 Polynesian and European Exploration of the Pacific

(first half of year)

European exploration of the Pacific and theories on the origin and migration of Polynesians, including Maori voyages to New Zealand.

24.232 Colonial Society and the American Revolution

(second half of year)

The development of the societies and institutions of colonial America leading to the American Revolution.

24.233 Australian Society 1788-1980

(first half of year)

A study of some of the main factors that have shaped Australian society and the attitudes and values of Australians.

24.234 The Development of the Early Modern State in 16th and 17th century Europe

(second half of year)

The rise and nature of European monarchies, using England and France as models.

†24.235 Special Topic

To be prescribed by Head of Department

†24.236 Special Topic:

To be prescribed by Head of Department

Note: Each of the above papers will be taught for half of the year, two lectures, one tutorial per week, in the following sequence: 24.200-24.201; 24.208-24.234; 24.212-24.213; 24.230-24.232; 24.233 will be taught in the first half. Second half year papers will start in the week beginning 22 June. Should their timetable permit, students may take a single paper, or two or more papers from different sequences.

Asian History II**24.222 China under the Ming and Qing Dynasties**

(first half of year)

The social, political and economic structure of the final period of the Chinese empire, and the practice of imperial government under native and foreign rulers, China's relations with the outside world, and the development of her cultural heritage.

24.223 State and Society in pre-Colonial Island S.E. Asia.

(first half of year)

An introduction to the history and culture of Indonesia, Malaysia and the Philippines through a discussion of major themes such as the ecological system, the monsoon and trade, state formation, religion, etc.

24.224 State and Society in pre-Colonial Mainland S.E. Asia.

(second half of year)

An introduction to the history and culture of Burma, Thailand and 'Indo-China' through a discussion of major themes such as the ecological system, the monsoon and trade, state formation, religion, etc.

Note: Each paper will be taught for half of the year, two lectures, one tutorial per week 24.223-24.224 are taught in sequence, paper 24.224 starting in the week beginning 22 June. 24.222 will be taught in the first half. Papers 24.223 and 24.224 are not corequisite but candidates are advised that it is useful to take them in the same year.

History III**24.300 Byzantines, Arabs and Franks, 6th to 9th century.**

(first half of year).

An examination of political, religious, and social change within the Byzantine Empire before and during the Iconoclast Controversy. The concurrent impact of Islam on the Mediterranean world, as of the rise of the Franks in the West, will also be considered. Not available to students who passed 24.202 in 1974 or 1975.

24.301 The Mexican Revolution.

(second half of year)

The revolution (1910-1920) and the subsequent attempts to carry out its objectives: a study in the problems of reforming a society in an inherited environment of internal political corruption and external economic exploitation.

***24.302 The Reign of Henry VIII.**

(first half of year)

A study (involving the extensive use of primary sources) of King, Court, and Kingdom in the throes of a political revolution imposed from above and a religious reformation initiated from below.

24.303 The History of the Family in France and England.

(second half of year)

The social and demographic aspects of the family. The twin foci are the relationship of the family to its social, economic and political environment, and relationships among various members of the family. Specific topics of study include: household structure, the law and practice of marriage and divorce, the social relationship of women and men, child-rearing, sexuality, inheritance practices, and contraception.

24.304 The Habsburg Empire 1848-1918

(first half of year)

The problems of the central administration of the Empire and its political and ethnic components. Foreign policy to be dealt with only insofar as it throws light on the Empire's problems and fate.

24.306 From Vienna to Frankfurt: European International Relations 1815-71

(first half of year)

The main international problems brought about by the great economic and political changes of the century.

24.307 The Origins of the First World War

(second half of year)

The origins of the First World War through discussion of the foreign policies of the main European countries involved, including Italy, and an analysis of international relations from 1870, and particularly from 1890 to 1915.

24.309 British Labour History 1850-1918

(first half of year)

The conditions of life and work of the lower classes and the evolving nature of the industrial and political labour movements.

24.310 The American Civil War and Reconstruction

(first half of year)

The problems of slavery, race relations, and sectionalism in nineteenth century America.

24.314 Race in the Antipodes: New Zealand, Australia and South Africa in the 19th century

(second half of year)

The evolution of ideas about race in the nineteenth century, with case studies of New Zealand, Australia and South Africa.

24.315 Pacific History: culture contact to about 1900

(first half of year)

The relations between Pacific Islanders and Europeans (explorers, traders and missionaries) up to the colonial period.

†24.320 Special Topic

To be prescribed by Head of Department

24.321 American Labour History 1865-1940

(second half of year)

Economic and social conditions of manual workers; racial, ethnic and cultural divisions; mobility and class; trade unions; socialism and labour in politics.

24.322 Women in New Societies

(first half of year)

A comparative study of women's history in New Zealand, the USA and Australia.

24.323 Medieval Ideas

(second half of year)

Readings in medieval thought from Augustine to the beginnings of the Renaissance.

24.325 Special Topic

(first half of year)

1981: Edward VI and Mary. A study of the most serious political crisis in Tudor England, as weak regimes struggled to cope with inflation, social unrest and religious conflict, whilst at the same time they were torn apart by political in-fighting

24.326 Aspects of the History of European Antisemitism

(second half of year)

Introductory lectures will be given on attitudes to the Jews in the Ancient World, the New Testament, the Church Fathers and the Middle Ages. The main emphasis will be on the period since the Enlightenment. German antisemitism will be stressed and other topics will also be selected for study, including antisemitism in France, fascist Italy, the Habsburg monarchy and its successor states, and Russia.

24.327 Communism in Western Europe

(second half of year)

The development of Communist Parties in Western Europe from the Russian Revolution to the present.

24.328 Religion in Changing Societies.

(second half of year)

An exploration of selected topics bearing upon the theme of secularisation of society in Britain, Australia and New Zealand, from the late eighteenth century to the present, with emphasis on the late nineteenth and early twentieth centuries. Attention will be paid to the secularisation of education, the passing of the Puritan Sunday, the questioning of traditional Christian doctrine and the impact on religious practice of urbanisation and industrialisation.

†24.329 Special Topic

To be prescribed by Head of Department

Note: Each of the above papers will be taught for half of the year, one one-hour and one two-hour period per week, in the following sequences: 24.300-24.323; 24.304-24.326; 24.306-24.307; 24.309-24.321; 24.310-24.301; 24.315-24.314; 24.322-24.303; 24.325-24.327; 24.328 will be taught in the second half of the year. Second half year papers will start in the week beginning 22 June. Should their timetable permit, students may take a single paper or two or more papers from different sequences. But it may prove impossible owing to pressure of numbers in certain classes to allow students to enrol for all the papers of their first choice.

Asian History III**24.312 Sino-Japanese Relations since the Meiji Restoration**

(second half of year)

The relations of the two principal nations of the Far East, since the impact of the West; the breakdown of China's informal overseas empire; and the role of Japan in the development of Chinese nationalism.

24.324 Trade and Society in pre-Colonial Southeast Asia

(first half of year)

Trade is a key element in a study of Southeast Asian history. This course will examine how Southeast Asia's location midway between the major land and sea routes in the East-West trade determined the nature of its history and society in pre-colonial (i.e. pre-19th century) Southeast Asia.

24.330 British Imperialism in Southeast Asia

(first half of year)

A survey of British imperialism in the Southeast Asian context from the late eighteenth century to the years following the Second World War, with an emphasis on selected topics and areas.

Note: Each of the above papers will be taught for half of the year, one one-hour and one two-hour period per week, in the following sequence: 24.324-24.312. 24.330 will be taught in the first half of the year. Second half year papers start during the week beginning 22 June.

HISTORY FOR MA AND HONOURS

Five papers and a research essay (24.603) counting as one paper; or, with the permission of the Head of Department, four papers and a thesis (24.601). The research essay must be on a subject

connected with one of the candidate's formally examined MA papers or, with the permission of the Head of Department, with one of the papers, passed at History III. The thesis shall not exceed 50,000 words and two copies must be handed in to the Registrar. The research essay shall be between 10,000 and 20,000 words and two copies must be submitted to the Registrar. Notwithstanding anything in Regulation 3, candidates presenting a research essay may attempt the five papers and present the essay in one year, or attempt four papers in the first year and present the remaining paper and research essay in the second year, or with the permission of the Head of Department attempt three papers in the first year and present the remaining two papers and research essay in the second year. Candidates presenting a thesis must attempt four papers in the first year.

Students attempting the one-year MA must present their research essay by the last day of February in the calendar year following the examinations. Other students attempting research essays must present them by 1 November of the second year of the course. For the date for theses, see MA Regulations 10 (d). Students writing theses or research essays are expected to report regularly to their supervisors and to attend monthly graduate seminars on research methods.

24.400 Topics in New Zealand History

Aspects of New Zealand history at present engaging the attention of research workers, including political, social and racial questions.

24.401 The political development of the Pacific Islands from about 1870

An examination of political and related social change in the Pacific Islands from annexation to decolonization.

24.402 Racial Interaction in Southern Africa in the 20th century

The impact on race relations of the expansion and contraction of the South African frontier.

***24.403 Topics in Australian History since 1880**

A study of some of the main social and political changes from about 1880 with emphasis upon how these changes affected Australians' values and attitudes to life. Topics to be considered include urbanisation, political radicalism and conservatism, the fate of the churches, the search for an Australian identity, the impact of war and depression, the family.

***24.404 Kings, Lords, and Commons: Tudor Government and Society 1485-1603**

This course involves the extensive use of primary materials. It concentrates on the changing role of parliament; the shifting relationship between king, lords, and commons; and parliament's response to a wide variety of political, economic and social problems ranging from religion and witchcraft to treason and inflation.

***24.405 Topics in American History since 1880**

The course will concentrate on social and political change in the late 19th and early 20th centuries as reflected in demands for reform.

24.406 Individual and Community in Western Europe 1050-1200

The developments and changes in the relationship between communities (intellectual, religious, commercial, heretical) and the individuals which made them up. A reading knowledge of French or Latin (or perhaps German) is essential.

24.407 Indonesia and the Philippines: Colonial Experience and Post-colonial problems

This paper examines the similarities and contrasts in the colonial history of Indonesia and the Philippines and discusses some of the problems the two Republics have faced since independence.

***24.408 Russia since 1917**

24.409 British Social History 1870-1914

Social change in late nineteenth century Britain. Topics such as attitudes to poverty, social legislation, housing problems, the role of women and changes in education are covered.

†24.410 Philosophy of History

Identification of the main philosophical questions provided by the study of history in Western European Society and examination of the different ways in which those questions arose and were resolved at different periods in the Western European tradition.

24.411 Topics in the History of the Early American Republic

A study of early national American society and politics, with special reference to political culture, diplomacy and war in the years between 1776 and 1828.

24.413 The Origins of the Second World War

This course is mainly concerned with the origins of the war in Europe and lays particular emphasis upon the relationship between internal and international affairs.

†24.415/18.404 Victorian Studies

An inter-disciplinary paper, shared with the English department, concerned with selected topics from English literature and British social and cultural history of the nineteenth century.

24.418 Later Roman Paganism and its Western Critics

An examination of the interaction of pagan and Christian religious ideas with the social and political changes that characterised the Roman Empire in the fourth and early fifth centuries.

Note: Not available to students who passed the paper St Augustine at Stage III or MA in previous years.

24.419 New Zealand Oral History

An examination of the techniques and problems of oral history.

Note: (i) Only students who have previously studied New Zealand (eg 24.120, 24.121 or 24.400) may take this course.

(ii) With the permission of the Head of Department this course may be substituted for the research essay 24.603.

24.420 China's Struggle for Modernity: The Republican Era

An examination of China's fragmentation under the warlords and its tortuous development towards a new national unity.

24.421 Special Topic

1981: Social and Economic History of England 1500-1640

A study of the Tudor State's poverty, its attempt to create a regulated economy and social order, and its attempts to combat the novel and dramatic inflation, poverty and unemployment which afflicted contemporary society.

†24.422 Special Topic

To be prescribed by Head of Department

Note: (i) There is no guarantee that all the papers listed above will be available in any one year.

(ii) If enrolment for any MA paper falls below five, students will be given the option of transferring to another MA paper. As an alternative it may be possible in some cases to arrange for the paper to continue as a reading course, meeting once a fortnight.

(iii) All students intending to enrol for MA must see the Head of Department before formally enrolling, preferably at the end of the previous year.

DEPARTMENT OF MATHEMATICS

For prescriptions see Index.

DEPARTMENT OF MUSIC

Note: * This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Restrictions on Entry to Courses:

1. A candidate wishing to advance in Music for BA beyond Stage I is required to satisfy the Head of the Department of Music that he or she has attained a suitable standard in music, at an interview to be held in the first weeks of February before University enrolment week. A candidate who has not taken Music for the University Entrance or University Bursary Examinations will be required during his or her interview to satisfy the Head of Department of Music that he or she has reached an acceptable standard in harmony and aural perception.

Application to the Registrar must be made on the prescribed form and forwarded to the Secretary, Music Department, by 30 November (for entry to a course in the following year).

2. Enrolments in the following papers will be restricted as follows:

Number	Title of Paper	Restricted to	Method of Restriction
Stage I (BA)			
28.101	Musicianship	40	Interview
28.102	Materials of Music	40	Interview
28.103	History of Musical Style	80	Interview
Stage II (BA)			
28.110	Composition	15	Results in Stage I papers
28.112	Keyboard Harmony & Score-playing	20	As for 28.110 plus sight-reading ability
28.122	Introduction to Harmony and Counterpoint	40	Results in Stage I papers
28.202	Harmony and Counterpoint	20	Results in Stage I papers
28.215	Orchestration	15	Results in Stage I papers
*28.216	Studies in Electronic Music	10	Results in Stage I papers
28.217	Music Education	15	Results in Stage I papers and Interview
Stage III (BA)			
28.202	Harmony and Counterpoint	20	Results in Stage I papers
28.210	Composition	10	
28.211	Renaissance Polyphony	20	
28.212	Keyboard Harmony and Score-playing	15	
28.302	Advanced Harmony and Counterpoint	15	Results in Stage II papers
*28.318	Conducting	5	Results in Stage II papers and interview

Music I

28.101, 28.102, 28.103 as prescribed for BMus, 28.109 as prescribed for BA.

Prescriptions for BA

*28.109 Style Analysis (one paper)

A course based principally on compositions discussed more generally under 28.103

Music II

28.202, 28.203, *28.204, 28.205, *28.206, 28.207, *28.208, 28.209, 28.214, 28.215, *28.216, 28.217, †28.221, *28.222, 28.110, 28.112, 28.113, 28.122 as prescribed for BMus.

Music III

28.302, 28.303, *28.304, 28.305, *28.306, 28.307, *28.308, 28.309, 28.314, 28.316, *28.318, 28.323, 28.324, 28.202, 28.210 (2 papers) 28.211, 28.212 as prescribed for BMus.

Music for MA and Honours

Restriction on entry to Courses:

1. Interview by Board of teaching members of Music Faculty; and
2. Performance where applicable.

A candidate reading for this Degree will be required to satisfy the Head of the Department of Music of his proficiency as a performer and his ability to read an approved language other than English. (Four papers and a Thesis (28.601), which counts as two papers).

The papers to be chosen from 28.400, 28.401, †28.402, †28.404, 28.405, 28.406, 28.407, 28.409, 28.411, 28.414, 28.415, †28.416, 28.419, 28.422, 28.423 as prescribed for MMus.

Note: (1) The availability of these papers will depend on the number of students and their choice of papers.
(2) The specific requirements for choice of papers are given in MA Schedule (21).

DEPARTMENT OF PHILOSOPHY

Full details concerning the Philosophy Department, the content of its courses and its requirements of students are contained in a brochure entitled *Department of Philosophy : Course Outlines*. A copy can be obtained from the Philosophy Department Secretary, Room 214, first floor, Old Arts Building, Princes Street. The brochure also contains a full list of textbooks for each course. Students are strongly advised to consult the brochure and to seek advice from the

Department concerning their proposed Course of Study before enrolment. Students enrolling in Philosophy must obtain a copy of the brochure.

All students who propose to enrol in Philosophy III from 1980 onwards will be required to have passed paper 29.208 Metaphysics II. Those who have passed Philosophy II papers in years up to and including 1978, but not 1979, and who have satisfied the prerequisites for Philosophy III as listed in the BA Schedule during those years, will be permitted to enrol in Philosophy III in subsequent years.

Prerequisites and corequisites for the various papers offered by the Department are set out in detail in the BA Schedule. Students should note that paper 29.101 is a prerequisite for some Philosophy III papers. Students may be able to obtain an exemption from the prerequisite or corequisite requirement of 29.101 for various papers by passing a special examination in logic to be held immediately before enrolment week. Interested students should see the Head of Department at the earliest opportunity, preferably before the vacation, as some study through the vacation will be needed. A pass in the special examination carries no credit towards a degree.

Philosophy I

Note: Two hours per week for each paper including lectures and tutorials.

29.100 Introduction to Metaphysics and Theory of Knowledge

29.101 Introduction to Logic

29.102 Ethics

29.103 Social Philosophy

Philosophy II

Note: (i) Paper 29.208 is a prerequisite for all Philosophy III papers.

(ii) One two-hour period per week for each paper

(iii) The prerequisite for all Philosophy II papers is a pass in any two Philosophy I papers.

(iv) Where students not planning to major in philosophy can show that their taking a Philosophy II paper (other than 29.208) is appropriate to their overall course of study, the Head of Department will generally waive the prerequisite of a pass in two Philosophy I papers.

29.200 Philosophy of Mind

29.201 Logic II

*29.202 Philosophy of Language

29.203 Philosophy of Science

29.204 Greek Philosophy

29.205 Political Philosophy

*29.206 History of Scientific Ideas

29.207 Philosophy of Religion

29.208 Metaphysics II

+29.209 History of Philosophy

29.210 Special Topic:

1981: Semantics

29.211 Existentialism and Phenomenology

Philosophy III

Note: (i) Paper 29.208 is a prerequisite for all Philosophy III papers.

(ii) One two-hour period per week for each paper.

(iii) Students who wish to advance to MA in Philosophy must pass four Philosophy III papers, including paper 29.306 (for which 29.101 is a prerequisite), and attain an average grade of C+ or higher. For those students who complete a double major in Philosophy and another subject, the prerequisite for advancing to MA in Philosophy is a pass in three Philosophy III papers, including paper 29.306 (for which 29.101 is a prerequisite), the average grade for the three Philosophy III papers being C+ or higher.

29.300 Theory of Knowledge**29.301 Metaphysics III****†29.302 History of Philosophy (Ancient and Medieval)****29.303 History of Philosophy (Modern)**

1981, Kant and Schopenhauer

29.304 Ethics**29.305 Logic III****29.306 Contemporary Analytic Philosophy****†29.307 Special Topic**

(The topic will be determined by the Head of Department)

Philosophy for MA and Honours

Six papers; or six papers with four papers to be taken in the first year and two in the second year of the course; or, with the approval of the Head of Department, four papers and a thesis (29.601). One paper may be chosen from those offered in Philosophy III which the student has not previously passed. All other papers are to be selected from 29.400 to 29.420, not all of which may be offered in any one year. The selection must be approved by the Head of Department.

Prerequisites for enrolment for MA in Philosophy are passes in eight Philosophy papers, including 29.101, 29.306 and three other Philosophy III papers (or two other Philosophy III papers for students taking a double major). All Philosophy III papers must be passed at an average grade of C+ or higher.

Students intending to enrol for an MA in Philosophy *must* consult the Head of Department towards the end of the previous year to discuss the availability of papers, the proposed MA course, and textbooks, reference works and vacation reading for each course.

29.400 Ethics**29.401 Kant****29.402 Wittgenstein****29.403 Metaphysics****29.404 Philosophy of Language****29.405 Philosophical Psychology****29.406 Philosophy of Natural Science****29.407 Philosophy of Social Science****29.408 Philosophy of History****29.409 Philosophy of Mathematics****29.410 Philosophical Logic****29.411 Mathematical Logic****29.412 Topics in the History of Philosophy I****29.413 Topics in the History of Philosophy II****29.414 Topics in the History of Philosophy III****29.415 Topics in Modern Philosophy****29.416 Modern Continental Philosophy****29.417 Aesthetics****29.418 Special Topic****29.419 Special Topic**

29.420 Special Topic

Candidates for 29.420 will be required to write essays (to be submitted no later than the end of the fourth week of the third term) within a field of Philosophy to be specified by the Head of Department. There will be no examination paper.

DEPARTMENT OF POLITICAL STUDIES

* Note: This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Political Studies I

(first third of year)

DEPARTMENT OF PSYCHOLOGY

Note on textbooks: Students taking advanced courses are advised to consult with the lecturers concerned before purchasing books.

Notes on courses: The Schedule attached to the Course Regulations for the Degree of BA should be consulted for pre and corequisites. The Arts Faculty Handbook contains further useful advice.

* This paper will not be taught during the current *Calendar* year.

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Psychology I

32.108 Introduction to General Psychology

The psychological study of behaviour; biological and social determinants of behaviour; group behaviour; individual and group differences; development of behaviour; psychopathology and its treatments.

32.109 Introduction to Experimental Psychology

This paper will emphasise the application of the experimental method to the study of behaviour, with particular stress on sensation, perception, learning and motivation. (Laboratory attendance of 2 hours per week is required).

Psychology II

Three papers must be taken by students wishing to advance to Stage III.

32.206 Theory and method: Learning and Motivation

The first half of this course is a general introduction to techniques used by psychologists in the description and explanation of behaviour, with emphasis on statistical techniques of data analysis. The second half deals with the conditions under which learning occurs, and the nature of the learning process. Classical theories of learning and motivation are described, compared, and related to contemporary interpretations.

32.207 Sensory Processes: Physiological Psychology

The first half covers elements of psychophysics and detection theory, and an introduction to the coding of information in sensory systems, with an emphasis on vision and hearing. The second half provides an introduction to the physiological basis of behaviour.

32.208 Development Psychology: Interpersonal Behaviour

The first half of this course is concerned with the development of behaviour from birth to old age. The second half deals with individual aspects of social functioning, with an emphasis on perceptual and communicative processes.

(Laboratory attendance or other practical work of not less than two hours per week will be required for each paper at the Stage II level.

Psychology III

A pass in three Stage III papers is necessary for entry to MA and Honours in Psychology.

Note: Paper 32.301 covers some of the essential skills required for professional work in psychology and should be taken by all candidates who may wish to work with clients.

32.301 The Psychology of Individual Differences

A study of genetic sources of individual differences of their measurement, and of the construction and use of psychometric tests.

32.302 Psychological Theory

A consideration of some continuing and contemporary psychological issues and problems.

32.303 Cognitive Processes

An examination of the psychology of attention, pattern recognition, memory, problem solving, language and thinking.

32.304 The Theory and Systems of Personality

An examination of different theoretical conceptions of personality; the major viewpoints are clinical, psychometric, behaviouristic and phenomenological.

32.305 Physiological Psychology

An advanced study of the physiological bases of behaviour with emphasis on research methodology.

32.306 The Design of Psychological Experiments

A consideration of multiple regression, parametric and non-parametric methods, factorial design, probability, analysis of variance, and techniques suitable for single-case studies.

32.307 The Psychological Analysis of Vision and Hearing

Aspects of visual perception affecting behaviour in a variety of environments will be discussed. A study of the effects of noise on people will also be covered.

32.308 Research Topic

A research topic undertaken under the supervision of a staff member and written up for presentation instead of a final paper.

32.309 Learning

An examination of a wide range of data on learning and the control of behaviour. The topics will include: reinforcement, punishment, avoidance, law of effect, classical conditioning, conditioned reinforcement, anxiety and conditioned suppression, and stimulus control of behaviour.

***32.310 Comparative Psychology**

The study of the differences and similarities in the behaviour of animals.

†32.311 Social Behaviour

This course concentrates on social functioning in both intergroup and intragroup settings.

Psychology for MA and Honours

(Seven paper or four papers and a thesis 32.601 which is equivalent to three papers).

Students in consultation with the Head of the Department will select their papers from among the following:

32.401 History of Psychology

An historical account of psychology with special reference to the aspirations and activities of influential psychologists.

†32.402 Quantitative Psychology

The quantitative analysis of psychological phenomena. In 1980 topics will include the analysis of reaction time, systems theory; scaling; and others to be selected.

32.403 Applied Analysis of Human Behaviour

An examination of general issues in behaviour analysis, of approaches to psychological assessment, and of the application of behavioural techniques to psychological phenomena.

†32.404 Sensation and Perception

An advanced treatment of modern psychophysics and of the psychology of vision and hearing.

***32.405 Comparative Psychology**

The range and variety of human behaviour considered with the behaviour of other animals as an essential context.

32.406 Physiological Psychology

A study of current issues in the physiological bases of behaviour together with a laboratory course in techniques of physiological psychology.

***32.408 Clinical Neuropsychology**

An examination of the relation between the brain and mental functioning with an emphasis on clinical cases of brain damage.

†32.409 Abnormal Psychology

A consideration of the psychological analysis of mental disorders, including their aetiology, classification, assessment and treatment.

32.410 Neuropsychology

An advanced treatment of functional models of the human brain and of neurolinguistics, with an emphasis on the contributions of Lashley, Hebb and Luria.

32.411 Advanced Operant Behaviour

An advanced study of selected topics in learning at the level of current research.

†32.412 Social Psychology

An examination of selected research topics in social psychology with a special emphasis on the underlying theories.

32.413 Contemporary Issues in Development Psychology

A study of psychological development in infancy and early childhood including as examination of the development of the learning process.

32.415 Critical Issues in Psychology

An examination of methodological, metatheoretical and social issues affecting the study and practice of psychology.

32.416 Cognitive Psychology

A study of selected aspects of human cognition, which includes perception, attention, memory, problem solving and language.

32.417 Special Topic in Psychology**32.418 Special Topic in Psychology****32.419 The Design of Psychological Experiment**

A consideration of multiple regression, parametric and non-parametric methods, factorial design, probability, analysis of variance, introduction to computer packages, and techniques suitable for single case studies.

Note: Students who have already passed 32.306 are not eligible to take this paper.

32.420 Research Topic in Psychology

A research topic undertaken under the supervision of a staff member and written up for presentation instead of a final paper.

32.421 Theories and Systems of Psychotherapy

A study of the theoretical bases of various systems of psychotherapy with particular emphasis on problems associated with matching systems to individuals.

DEPARTMENT OF ROMANCE LANGUAGES

Note: * This paper will not be taught during the current *Calendar* year

† This paper will not be taught during the current *Calendar* year unless sufficient staff is available

French Stage I**Language papers****34.100 or 34.110 Language Acquisition**

(Entry to 34.110 is given after a streaming test or a later decision by the Head of Department)
Oral and written expression in French, aural and written comprehension; tested in some or all of the following ways: comprehension, explanation, conversation, composition, translation, dictation, reading aloud; with linguistic and stylistic analysis.

34.102 Language Comprehension

Aural and reading comprehension using texts on contemporary issues, and (optionally) conversation on the same topics.

34.104 Language comprehension in specific areas A: Science.

Aural and reading comprehension using general science texts.

34.106 Language Comprehension in specific areas B: Social Science, Art History, Music.

Aural and reading comprehension using texts in areas or disciplines to be specified each year. (A minimum of five candidates per area is required)

1981: Social Science, Art history

34.150 French for beginners: a full-skill course leading into 34.100.*Text papers****34.101 Twentieth Century Literary Texts**

34.103 Twentieth Century Texts**34.109 Contemporary French Civilisation****French Stage II****34.200 Language Acquisition**

Oral and written expression in French, aural and written comprehension; tested in some or all of the following ways: comprehension, explanation, conversation, composition, exposition of an unprepared topic, translation, dictation, reading aloud; with linguistic and stylistic analysis.

34.203 Nineteenth Century Literary Texts

1981: Romanticism

34.204 Nineteenth Century Language**34.209 Nineteenth Century French Civilisation****34.201 Nineteenth and/or Twentieth Century Literary Texts**

1981: Shorter Fiction

34.202 Nineteenth and/or Twentieth Century Literary Texts

1981: Poetry.

34.205 Medieval Texts*34.210 Professional translation of written texts**

Practical training in professional translation between English and French. Enrolment by permission of the Head of Department (not a corequisite paper)

34.214 Language Studies for intending teachers of French

A study of the structure of French with reference to different linguistic models and their relevance for teaching.

French Stage III**34.300 Language Acquisition**

Oral and written expression in French, aural and written comprehension; tested in some or all of the following ways: comprehension, explanation, conversation, composition, exposition of an unprepared topic, translation, dictation, reading aloud; with linguistic and stylistic analysis.

34.310 Seventeenth and Eighteenth Century Literary Texts

1981: Theatre

34.302 Eighteenth Century Texts

1981: Prose

34.304 Seventeenth Century Language*34.305 Eighteenth Century Language****34.306 Old French Language and Literature****34.308 A Topic in Nineteenth and/or Twentieth Century Literature**

1981: The Novel and Society

34.309 A Topic in Nineteenth and/or Twentieth Century Literature

1981: Coming of Age in the Novel

34.307 A Literary Topic

1981: Poesie et chansons a l'époque moderne.

Foreign Language Reading Examination (French)**34.500 FLRE in French (without lectures)****34.501 FLRE in French (with lectures)**

Note: Students wishing to gain this qualification are advised as follows: (a) if you passed in French at Bursaries or Scholarship levels, you should with some reading in French in your own subject be able to pass in 34.500; if you wish to refresh or improve your knowledge, you should enrol in 34.501 and attend lectures in 34.104 or 34.106 according to your discipline.

(b) if you passed in French at a lower level than Bursaries, but have done at least two years of Secondary School French, you should enrol for 34.501, 34.102, 34.104 or 34.106;
 (c) if you have done no French at all, you should enrol in a beginner's course at the Centre for Continuing Education. A pass in 34.500 or 34.501 gives a prerequisite qualification but does not count towards a degree; a pass in 34.100, 34.102, 34.104 or 34.106 also counts towards several undergraduate degrees.

French for MA and Honours

Seven papers or four papers and a thesis (34.601)

The requirements are given in section (8) of the MA Schedule. The thesis must be taken in a second year. For the MA in Languages and Literature, the requirements are in section (16) of the MA schedule; there is no thesis option. Paper 34.400 is compulsory for both subjects, and the marks for it bear a relative weighting of three to two for each other paper in French. Selection of paper 34.421 is subject to the permission of the Head of the Department. Prerequisites may be waived by the Head of the Department. All intending MA students should consult staff in the year preceding enrolment.

34.400 Language Acquisition

Oral and written use of French, tested by: comprehension, explanation, conversation, composition, exposition of an unprepared topic, translation, dictation, reading aloud; with linguistic and stylistic analysis. (Prerequisite: 34.300).

***34.401 A Special Topic in Old French Literature**

34.402 A Special Topic in Renaissance Literature

1981: Poetry

34.403 A Special Topic in Sixteenth and Seventeenth Century Thought

1981: Philosophical Thought

***34.404 A Special Topic in Seventeenth Century Literature**

34.406 A Special Topic in Nineteenth and/or Twentieth Century Literature

1981: Novels of Social Comment and Human Relations

***34.423 A Special Topic in Nineteenth and/or Twentieth Century Literature**

34.407 A Special Topic in Twentieth Century Literature

1981: Chemins de la pensée.

34.408 A Special Topic in Twentieth Century Literature.

1981: Camus and Beckett

34.409 A Special Topic in Twentieth Century Literature

1981: Contemporary Literary Criticism

34.410 An Approved Literary Topic

1981: La Femme aux 17e et 19e Siècles

***34.411 An Approved Literary Topic**

***34.412 Old Picard Language and Literature**

(Recommended prerequisite: 34.205 or 34.306)

34.413 Middle French Language and Literature

34.416 Principles of Lexicology and Lexicography and their application to French

34.417 Applied Linguistics, as related to French

34.418 Overseas Regional French

34.419 French Creoles

34.420 An approved topic in Linguistics

34.421 Research Techniques in Language Literature or Civilisation

Particular reference will be paid to one aspect in which an original investigation must be undertaken. The prerequisites are determined by the Head of the Department.

***34.422 Linguistic analysis of French**

34.601 Thesis

(Equivalent to 3 papers)

Italian I

A guide to Italian studies at Auckland is available from the Romance Languages Department, 22 Princes Street. Students are warmly invited to visit the Italian lecturers before enrolment to discuss courses. It is best to phone to make an appointment.

(Methods of assessment for all Italian papers — coursework, examinations etc — are determined at the beginning of the year in consultation with the students for each course).

35.102 and 35.103 Italian Language and Society 1 and 2

Open to beginners and more advanced students, these papers must be taken together.

Students learn to speak, read and write Italian using material on issues in contemporary Italian life, society, politics and thought.

Five hours of classes in small groups and one tutorial per week; weekly assignment and occasional essays.

35.104 Italian Language in Opera and Song.

Primarily intended for singers. Comprehension and pronunciation. Study of Italian texts of operatic libretti, madrigals, songs. May be taken by both BA students and students from the Faculty of Music. One and a half hours per week.

35.105 Twentieth Century Literature and Film.

May be taken as additional paper by students taking Italian papers 35.106 and 35.107 or 35.102 and 35.103. People with good prior knowledge of Italian can take it on its own. Selected 20th century Italian fiction, film, poetry. Two classes per week.

35.106 and 35.107 Italian Language Acquisition and Introduction to Italian Culture 1 and 2.

Open to beginners and more advanced students, these papers must be taken together. Students learn to speak, read and write Italian. In addition, aspects of the history of Italian culture will be studied, including: history of Italian language, literature, thought and arts.

Five hours of classes in small groups and one tutorial per week; weekly assignments and occasional essays.

Italian II**35.200 Language Acquisition**

Advanced reading, grammar, writing, conversation in Italian. Three hours per week. Weekly assignments. May be combined with any one or more of the following papers for Italian II.

35.202 Fourteenth Century Literary Texts: Dante**35.203 Fourteenth Century Literary Texts: Boccaccio and Petrarca****35.204 A Special Topic in Twentieth Century Literature or Culture**

1981: Italian fiction and cinema.

One two-hour discussion per week.

35.210 Major Themes in Italian Renaissance Culture**35.211 A Special Topic in Italian Renaissance Literature 1*****35.212 A Special Topic in Italian Renaissance Literature 2****35.230 A Special Topic in Italian Literature**

Students wishing to suggest a topic should do so before Christmas 1980

Papers 35.202, 35.203 are normally available in odd numbered years, 1981 etc; papers 35.210, 35.211 and 35.212 in even numbered years, 1982 etc.

Italian III**35.300 Language Acquisition**

Advanced reading, grammar, writing, conversation in Italian using material reflecting current events in Italy. Three hours per week. Weekly assignments. May be combined with any one or more of the following papers for Italian III.

35.302 Fourteenth Century Literary Texts: Dante

35.303 Fourteenth Century Literary Texts: Boccaccio and Petrarca

35.305 A Special Topic in Twentieth Century Literature or Culture

1981: Italian fiction and cinema.

One two-hour discussion per week.

***35.310 Major Themes in Italian Renaissance Culture**

***35.311 A Special Topic in Italian Renaissance Literature 1**

***35.312 A Special Topic in Italian Renaissance Literature 2**

35.321 A Special Topic in Italian Language

Students wishing to suggest a topic should do so before Christmas 1980.

35.330 A Special Topic in Italian Literature

Students wishing to suggest a topic should do so before Christmas 1980.

Papers 35.302, 35.303 are normally available in odd numbered years, 1981 etc; papers 35.310, 35.311 and 35.312 in even numbered years, 1982 etc.

Italian for MA and Honours

The specific requirements for Italian are given in MA Schedule (14) and Languages and Literature including Italian in MA Schedule (16). In both cases paper 35.400 is compulsory.

35.400 Language Acquisition: Oral and Written Use of Italian

Tested in some or all of the following ways: translation, composition, conversation, comprehension, reading.

35.402 An Approved Topic in Linguistics

35.403 Linguistics: Principles and Methods Applied to the Study of Contemporary Italian

35.404 A Special Linguistics Topic

35.405 Thirteenth Century Literature

35.406 The Works of Dante

35.407 The Works of Boccaccio and the Genesis of Italian Prose

35.408 The Italian Theatre of the Renaissance; Teatro Erudito and Commedia dell'Arte

35.409 Italian Theatre in the Eighteenth Century: Goldoni, Gozzi and the Development of the Italian Theatre

35.411 Verismo, with Special Reference to the Works of Verga

35.412 Pirandello and 20th Century Drama; Futurism, Pirandello, Dario Fo

35.413 A Special Topic in 20th Century Italian Poetry

35.414 A Special Topic in the 20th Century Italian Novel

35.415 An Approved Literary or Cultural Topic

35.418 Italian Novel and Cinema after 1945

35.419 Theories and Examples of the Avant-Garde in Italy

35.420 Methodologies of Literary Criticism from Romanticism to Structuralism

35.421 An Approved Topic in Linguistics

35.422 An Approved Literary or Cultural Topic

35.423 An Approved Literary or Cultural Topic

35.424 An Approved Literary or Cultural Topic

Intending MA students should consult with the Italian staff during their final BA year.

Spanish Stage I

45.100 Language Acquisition

Two lectures; one oral class; one language laboratory session; total four hours per week. Language acquisition: oral and written expression in Spanish, aural and written comprehension; tested in some or all of the following ways: comprehension, explanation, conversation, composition, translation, dictation, reading aloud; with linguistic and stylistic analysis.

45.101 Selected Texts in Twentieth Century Literature

One lecture a week; tutorials on request; two essays.

45.102 Language: Oral, Aural and Reading Comprehension, Translation from Spanish to English

One lecture per week; one oral class; one language laboratory session.

Spanish Stage II

45.200 Language Acquisition

One lecture; one oral class, one language laboratory session. Language acquisition: oral and written expression in Spanish, aural and written comprehension; tested in some or all of the following ways: comprehension, explanation, conversation, composition, translation, dictation, reading aloud; with linguistic and stylistic analysis.

45.201 Medieval and Golden Age Literary Texts

One lecture weekly; tutorials on request; one (or two) essays.

45.202 Nineteenth and Twentieth Century Literary Texts

One lecture per week, tutorials on request; one (or two) essays.

45.203 Literary Analysis, with Prescribed Texts.

One lecture per week, tutorials on request; one (or two) essays.

***45.204 Twentieth Century Latin American Texts**

One lecture per week, tutorials on request; one or two essays.

Spanish Stage III

45.300 Language Acquisition

One lecture; one oral class; one language laboratory session. Language acquisition: oral and written expression in Spanish, aural and written comprehension; tested in some or all of the following ways: comprehension, explanation, conversation, composition, translation, dictation, reading aloud; with linguistic and stylistic analysis.

45.301 Medieval Literature

One lecture per week; tutorials on request; one (or two) essays.

45.302 Golden Age Literature

One lecture per week; tutorials on request; one (or two) essays.

45.303 Nineteenth Century Literary Texts

One lecture per week; tutorials on request; one (or two) essays.

45.304 Twentieth Century Literary Texts

One lecture per week; tutorials on request; one (or two) essays.

***45.305 Twentieth Century Latin American Literature**

One lecture per week; tutorials on request; one (or two) essays.

Spanish for MA and Honours

(Seven papers or four papers and a thesis (45.601))

The specific requirements for Spanish are given in MA Schedule (26); and for Languages and Literature including Spanish in MA Schedule (18). In both cases, paper 45.400 is compulsory and the marks for it bear a relative weighting of three to two for each other paper.

45.400 Language Acquisition

Oral and written expression in Spanish, aural and written comprehension; tested in some or all

of the following ways: comprehension, explanation, conversation, composition, exposition of an unprepared topic, translation, dictation, reading; with linguistic and stylistic analysis.

45.401 A Topic in Medieval Literature

45.402 Golden Age Poetry

45.403 The Picaresque Novel

45.404 Major Dramatists of the 17th Century

45.405 Minor Dramatists of the 17th Century

45.406 Cervantes

45.407 The Nineteenth-Century Novel

45.408 The '98 Generation

45.409 The Contemporary Spanish Novel

45.410 Twentieth Century Spanish Poetry

45.411 Twentieth Century Spanish theatre

45.412 Twentieth Century Latin American Novel

45.413 Twentieth Century Latin American Poetry

45.414 Twentieth Century Latin American theatre

45.415 Portuguese Language and a Topic in Twentieth Century Portuguese Literature

45.416 A Topic in Twentieth Century Brazilian Literature

45.417 Eighteenth Century Literature

45.418 Applied Linguistics as related to Spanish

45.419 Research Techniques in Language and/or Literature

45.420 Special Topic in Spanish Literature

45.421 Special Topic in Latin American Literature

Intending MA students should consult with the senior staff of the Department during their final BA year.

DEPARTMENT OF RUSSIAN

Note: *This paper will not be taught during the current *Calendar* year.

†This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Russian I

Students may enrol for Stage I papers without any prior knowledge of the subject areas. The two Russian language papers, 43.100 and 43.101, are linked corequisites and are also prerequisites for all students advancing to Stage II except, with the approval of the HOD, those with Bursary-level knowledge of the language; 43.111, 43.112 and 43.113 can be taken independently of each other and of any other papers in the Department. Students intending to advance in Russian are strongly advised to take Paper 43.112 during either their first or second year of study.

Paper 43.111 is offered in alternate years: offered in 1981. Paper 43.112 is unlikely to be offered in 1982.

Note: The readings for papers 43.112 and 43.113 are entirely in English.

43.100 and 43.101 Russian Language Acquisition 1 and 2

Written and oral use of Russian, tested in some or all of the following ways: translation into Russian, composition, comprehension, conversation, dictation, reading. Literary and non-literary texts for translation from Russian.

The two papers must be taken together.

Five hours and one language laboratory session per week; regular assignments.

43.111 Language Acquisition: Serbo-Croatian.

Elementary written and oral use of Serbo-Croatian, aural and reading comprehension of texts on Yugoslav culture and civilisation, tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation, reading.

Three hours per week. Optional library use of the Language Laboratory.

43.112 Russian Civilisation.

A survey of the political, social, economic, religious, intellectual and artistic forces which historically have helped to shape modern Russia.

Two consecutive hours per week; two assignments.

43.113 The Classics of Russian Literature.

Studies in major examples of Russian prose fiction.

Two consecutive hours per week; two essays.

Russian II

Papers 43.210, 43.211 and 43.212 are linked corequisites. Paper 43.211 consists of two half-papers. Students who have not already taken paper 43.112 are strongly advised to do so alongside their Russian II papers.

43.210 Language Acquisition: Russian.

Written and oral use of Russian tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation, reading.

Three hours and one language laboratory session per week. Optional library use of the Language Laboratory.

43.211 (i) Introduction to Modern Russian.

The structure of the contemporary standard language, with special reference to phonology and morphology.

One class per week in the second and third terms.

(ii) The Russian Lyric in the Nineteenth Century.

Studies in 19th Century lyric poetry. Introduced by a series of lectures on literary theory.

One class per week; one major assignment.

43.212 The Russian Short Story in the Nineteenth Century.

Selected short prose works by major Russian writers from Karamzin to Chekhov.

One class per week; three assignments.

Russian III

Papers 43.310 and any two from 43.311, 43.312 and 43.313 are linked corequisites. Paper 43.311 is offered in alternate years and will not be offered in 1981.

43.310 Language Acquisition: Russian.

Written and oral use of Russian tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation, reading.

Three hours per week. Optional library use of the Language Laboratory.

***43.311 Introduction to Russian and Slavonic Linguistics.**

Description and analysis of Modern Russian, with historical explanations of "anomalies"; Survey of some major Slavonic languages and their background.

43.312 The Russian Novel in the Nineteenth Century:

Pushkin's *Evgenii Onegin* and one major novel each by Dostoevskii and L. Tolstoy.

One class per week; three assignments.

43.313 Introduction to Russian Literature of the Twentieth Century.

Representative literary texts by major Russian writers active since 1905.

One class per week; three assignments.

With the approval of the Head of Department certain papers from Russian MA and Honours may be offered as additional Stage III level papers.

Note: Paper 43.311 is substantially similar to 43.411; students will therefore be admitted either to paper 43.311 or to paper 43.411.

Russian for MA and Honours

No student may offer any paper for the MA degree in which he has already been credited with a pass at Stage III.

The specific requirements for Russian are given in MA schedule (24); and for Language and Literature including Russian in MA schedule (16). In both cases, paper 43.410 is compulsory. The prerequisite for each of papers 43.412, 43.413, 43.416 and 43.419 is paper 43.311 or 43.411. The prerequisite for paper 43.417 is 43.111, except in the case of students with sufficient prior knowledge. Paper 43.418 is a requirement for students intending to present a thesis in Russian literature. (Paper 43.411 is not available to those who have taken paper 43.311.)

43.410 Language Acquisition: Russian

*43.411 Introduction to Russian and Slavonic Linguistics

*43.412 A Special Topic in Russian Linguistics

*43.413 The History of the Russian Literary Language

*43.414 Lexicology and Practical Stylistics of Contemporary Standard Russian

43.415 A Special Topic in Russian or Slavonic Linguistics

1981: Old Church Slavonic

43.416 Comparative Studies in the Modern Slavonic Languages

*43.417 A Special Topic in Serbo-Croatian Linguistics and/or Literature

*43.418 Introduction to Research in Russian Literature

*43.419 Studies in Early Russian Literature

*43.420 Studies in Eighteenth-Century Russian Literature

*43.421 A Special Topic in Russian Poetry

*43.422 A Special Topic in Russian Prose

43.423 A Special Study of a Russian Writer

1981: Boris Pasternak

*43.424 A Topic in Russian Literary Theory and Criticism

43.425 A Further Special Topic

1981: St Petersburg-Leningrad in Russian Prose and Poetry

Intending MA Students should consult the Head of Department during their final BA year about the availability of MA papers and the possibility of their presenting a thesis (43.601) in lieu of two papers.

43.601 Thesis

DEPARTMENT OF SOCIOLOGY

Note: *This paper will not be taught during the current *Calendar* year.

†This paper will not be taught during the current *Calendar* year unless sufficient staff is available

Sociology I

82.101 The Social Structure of New Zealand

82.102 A History of Sociological ideas

Students are expected to attend a one hour weekly tutorial in addition to lectures in 18.101 and 18.102.

Sociology II

82.200 Sociological Theory

82.201 Sociological Methods

Students are expected to attend a weekly tutorial in addition to lectures in 82.200 and 82.201

†82.202 A Topic in Comparative Sociology

*82.203 Sociology of a Selected Region

82.204 Contemporary Social Problems

82.205 Social Stratification

*82.206 Regional and Community Development

†82.207 Sociology of the Family

†82.208 Special Topic to be prescribed by the Head of Department

Sociology III

82.300 Industrial Sociology

82.301 Political Sociology

*82.302 Sociology of the Family

82.303 Sociology of Religion

82.304 Minority and Ethnic Relations

82.305 Social Stratification in Australia and New Zealand

*82.306 Community Studies

82.307 Social Change and Modernization

†82.309 Special Topic to be prescribed by the Head of the Department

†82.310 Special Topic to be prescribed by the Head of Department

†82.311 Special Topic to be prescribed by the Head of Department

82.312 Sociological Analysis

*82.313 Sociology of a selected region

†82.314 Deviance

82.315 Sociology of the Arts

Students including three Stage III Sociology papers in their degree must attempt 82.312 as one of them.

Sociology for MA and Honours

Four papers and a thesis (82.601), which shall count as three papers and shall not exceed 30,000 words. With the permission of the Head of Department a student may take five or six papers, presenting a thesis (82.611) worth two papers, or a research paper (82.603) or dissertation (82.604) worth one paper. In these cases, the length shall not exceed 20,000 or 10,000 words respectively.

At least seven papers will be offered from the following list depending on staffing arrangements. All students' courses must be approved by the Head of Department. Students should consult the Department at the end of the previous year for details and reading lists. Students are strongly recommended to include 82.400 and 82.401 in their programmes.

82.400 Advanced Problems in Sociological Theory

82.401 Advanced Problems in Sociological Method

82.402 Sociology of a Selected Region

Topic for 1981: South Pacific Basin

†82.403 Advanced Topics in Economic Sociology

82.404 Advanced Topics in Political Sociology

82.405 Deviance

***82.406 Urban Sociology and Ecology**

†82.407 Rural Sociology

82.408 Complex Organisations

82.409 Industrial Sociology

82.410 Applied Sociology

Topic for 1981: Models of Social Development

***82.411 Mass Communications**

82.412 Special Topic to be prescribed by Head of Department

Topic for 1981: Sociology of the Arts

†82.413 Special Topic to be prescribed by Head of Department

†82.414 Special Topic to be prescribed by Head of Department

†82.415 Special Topic to be prescribed by Head of Department

***82.416 New Zealand Family**

Note: All graduate students are expected to attend and contribute to the Staff Graduate Seminars. A programme will be published.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN DRAMA

*DipDrama

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Diploma in Drama shall before his enrolment for this Diploma have been admitted or qualified for admission to the Degree of Bachelor of Arts having passed in not fewer than three papers at Stage II in English, or another European language, or such other subject or subjects as the Senate may approve; or provided that, if not so qualified, a person may with the leave of the Senate be a candidate for this Diploma if before enrolment he —
 - (i) has been admitted or qualified for admission to some other university degree approved for this purpose by the Senate; or
 - (ii) holds or has qualified for an award or qualification in dramatic work approved for this purpose by the Senate; or
 - (iii) has had in the opinion of the Senate extensive experience in the theatre or in teaching drama.
 2. A candidate for this Diploma shall follow a course of study for a period of not less than one year.
 3. The Course shall consist of such written and practical work as may be prescribed in theatrical, dramatic, and related fields.
 4. A candidate shall throughout his enrolment for this Diploma carry out such practical work and shall participate in such approved theatrical work or plays as the Lecturer in charge of the Course shall require.
 5. These Regulations shall come into force on 1 January 1977.
- * This Course will not be taught during the current Calendar year.

DIPLOMA IN EDUCATION

DipEd

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Diploma in Education shall before his enrolment for this Diploma
 - (a) have been admitted or qualified for admission to a degree at a university in New Zealand except as provided in Regulation 2 below or have been awarded or qualified for the award of a University diploma approved by the Senate; and
 - (b) have passed papers 14.100 and 14.101 as prescribed for the Degree of Bachelor of Arts, provided that those papers or either of them may with the permission of the Head of Department be taken concurrently with papers in Part I of the course.

Note: Approved diplomas at present are the Diplomas in Fine Arts and Music and the Diplomas in Home Science and Physical Education of the University of Otago. In special circumstances the Senate may permit a candidate who is the holder of a diploma other than those listed above, to undertake the course.

2. Subject to the Admission Ad Eundem Statum Regulations, a candidate may enrol for the Diploma in Education after having completed at least twenty papers for the Bachelor of Arts Degree, or the equivalent in another degree; provided that
 - (a) the proposed course for this Diploma will extend over not fewer than two academic years.
 - (b) the remaining papers of the Bachelor's degree are taken in the first year of the Diploma course.
 - (c) Should the candidate not pass the remaining paper or papers the Diploma course shall be suspended until they have been passed.
3. (a) The course of study for the Diploma in Education shall consist of two parts:

Part I —

Four papers in Education at Stage II or III as prescribed for the Degree of Bachelor of Arts and not having already been credited to a degree or diploma, of which not more than two are at Stage II.

Part II —

A report on an original investigation (14.500) having the value of two papers, of a topic approved by the Head of the Department of Education.

(b) A candidate shall be required to pass each paper in Part I and the original investigation in Part II.

4. As to the investigation and report for Part II —

(a) the topic shall be submitted to the Head of Department in reasonable time before the 31st of March of the year in which the report is to be submitted, so that it may be approved by that date;

(b) the report shall be submitted within three years of the year in which the candidate completes Part I, or within such longer period as the Senate may in special circumstances permit;

(c) the report shall be delivered to the Registrar by 1 November, or later date approved by the Head of Department, of the year in which it is submitted.

Note: (1) A research seminar will be held once a week during the first half of the year for those preparing to carry out an original investigation.

(2) An abstract is to be submitted with the original investigation. (See Examination Regulation 14).

5. Every candidate shall present to the Head of Department a certificate from an approved authority that he has been engaged for at least two years in full-time work in the practice of teaching, or in education work of a related character, such as vocational guidance, child guidance, child welfare, social work or community education, and has shown efficiency therein.

6. The Senate may, in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

7. These Regulations shall come into force on 1 January 1977.

DIPLOMA IN EDUCATIONAL PSYCHOLOGY

DipEdPsych

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Diploma in Educational Psychology shall before his enrolment for this Diploma:

(a) have been admitted or have qualified for admission to a Bachelor's Degree; and

(b) have passed the following five papers in Education as prescribed for the Master of Arts Degree:

14.407 Developmental Psychology

14.408 Issues in Deviant Development

14.410 Principles and Practice of Counselling

14.412 Behaviour Analysis in Education

14.413 Atypical Children

or equivalent papers as approved by the Senate; and (c) have passed 5 papers including at least 3 papers above Stage I as prescribed for the Bachelor of Arts or Science Degree in both Education and Psychology; and

(d) satisfy the Senate that he is likely to benefit from the training provided by the course for this Diploma.

Note: Normally an interview supported by referees' statements, and evidence of training or experience in relevant work such as teaching, youth work, or counselling will be required under 1 (d).

2. A candidate for this Diploma shall follow a course of not less than two years' full-time study nor more than four years' study (whether full or part-time); provided that the latter period may with the permission of the Senate be extended in exceptional circumstances.

3. The course of study for the Diploma shall consist of two Parts:

Part I:

Satisfactory participation in and completion of a full-time professional training course including passing each stage of the on-course assessment requirements (16.100).

Note: The professional training courses are designed to follow on from the theory introduced in each of the five Masters papers listed in 1(b). Course prescriptions may be obtained from the Department.

Part II:

(a) Satisfactory supervised participation in the work of approved psychological, special educational, and social work services, and in seminars on case work and professional practice (16.200).

(b) A comprehensive oral examination covering the work of the whole course (16.201).

4 (a) A candidate shall be required to pass each paper or section of each part of the Diploma.

(b) A candidate who has not passed a section of Part I may, with permission of the Head of Department, take that section concurrently with work in Part II, in the second year.

(c) A candidate shall not be permitted to resubmit case work and professional practice material (16.200) nor to resit the oral examination (16.201), more than once.

5. (a) The Diploma may be awarded with Honours.

(b) A candidate for Honours shall be required, after completing the requirements of Parts I and II, to submit a Dissertation (16.604) reporting an advanced study of one of the following types, as approved by the Head of Department:

(i) a survey of the literature bearing on a topic relevant to clinical or professional practice.

or (ii) an original or replication research study.

or (iii) an evaluation of a clinical procedure.

(c) The Dissertation shall be:

(i) submitted within three years of the year in which the candidate completes Part II; and

(ii) delivered to the Registrar by 1 November, or later date approved by the Head of Department, of the year in which it is submitted.

Notes: 1. A research seminar will be held once a week during the first half of the year for those preparing to write a Dissertation.

2. An abstract is to be submitted with the dissertation: see Examination Regulation 14.

(d) Honours shall be awarded upon the results of the Dissertation but if the Dissertation is not of sufficient standard the Diploma shall be awarded to the candidate without Honours.

6. Under exceptional circumstances the Senate may grant exemption from any of the requirements under Regulations 1, 2, 3 and 4.

Transitional Provisions

7 (i) Students first enrolled for the Diploma under the former Regulations (last published in the 1976 Calendar) before 1977 may complete the requirements for the Diploma under those former regulations, except that completion of course 16.102 shall not be required.

DIPLOMA IN GUIDANCE AND COUNSELLING**DipGuid**

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Diploma in Guidance and Counselling shall before his enrolment for this Diploma

(a) have been awarded or qualified for the award of a Degree of a University in New Zealand, or in special cases have been awarded or qualified for the award of a University Diploma approved by the Senate and,

(b) have passed paper 14.204 The Evaluation of Individual Differences, as prescribed for the Degree of Bachelor of Arts; except that this may be taken concurrently with papers from Regulation 2 (a) with the permission of the Head of the Department of Education.

2. The course of Study for the Diploma shall consist of two Parts:

Part I

(a) Three papers (not already passed for any other degree or diploma) from 14.308, 14.309, 14.310, 14.311, 14.312, 14.317 and 14.320; and

(b) papers 14.405 and 14.410 provided that in exceptional circumstances a candidate may substitute for any or all of these papers a course or courses of study approved by the Head of Department.

Part II

Preparation and presentation of a folio of casework, 14.606, counting as three papers; together with satisfactory participation in such seminars and counselling and related activities as the Head of Department may require.

Note: Most students will require 1000 hours or more of face to face counselling work and related activities with clients to attain competence in casework.

3. No more than ten students chosen on academic criteria and personal qualities shall in any one year be admitted for Part II.

4. The folio of casework required for Part II shall be

(a) submitted within three years of the year in which the candidate completed Part I, or within such longer period as the Senate may in special circumstances permit; and

(b) delivered to the Registrar by 1 November, or later date approved by the Head of Department, of the year in which it is submitted.

5. A candidate shall be required to pass each paper of Part I and to pass Part II as a whole.

6. The Senate may in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

7. These Regulations shall come into force on 1 January 1977.

DIPLOMA IN LOCAL GOVERNMENT AND ADMINISTRATION

DipLGA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Local Government & Administration shall before his enrolment have been awarded or qualified for the award of a Degree or Diploma of this University, provided that, if not so qualified, a person may with the leave of the Senate be a candidate for the Diploma in Local Government & Administration if before enrolment he:

(i) holds or has qualified for the award of a professional qualification in Accountancy, Management, or other approved discipline; or

(ii) has had not less than five years responsible practical experience in a responsible position in local government or administration.

2. A candidate for the Diploma shall pursue a course of study for a period of not less than one year, provided that for part-time students the course of study shall extend over a period of not less than two years.

3. Except with the permission of the Senate in exceptional circumstances,

(i) the course of study must be completed within four years of the date of first enrolment for the Diploma; and

(ii) the Research Essay, (Paper 30.603) must be submitted within two years of the date of first enrolment for that paper.

4. A candidate who first enrolled for the Diploma prior to 1980 may until the end of 1981 submit the Research Essay under the Regulations which were in force at the time of his first enrolment.

5. No candidate shall be credited for this Diploma with any paper which he has passed for another degree or diploma.

6. (a) A candidate shall be required in his first year of study to take Part I.

(b) No candidate shall take papers for Part 2 or for Part 3 unless he has passed or enrolled concurrently in the papers for Part 1.

Subjects

7. The subjects for examination for the Diploma shall be:

Part 1.

The Local Government System in New Zealand 30.500 Public Administration 30.501.

Part 2.

Urban Government and Politics 30.402, as prescribed for MA (Candidates who have already been credited with 30.402 may substitute Urban Geography 20.436, as prescribed for MA and MSc).

Part 3.*Either*

Two papers from the following:

Local Government Law, 25.220, as prescribed for LLB.

Public Sector Accounting, 01.204 as prescribed for BCom.

Planning law and Administration, 36.202, as prescribed for BTP and Dip TP.

Public Economics 13.204, as prescribed for BA and BCom.

Macro-economics 13.201, as prescribed for BA and BCom.

Micro-economics 13.200, as prescribed for BA and BCom.

Organisational Studies 72.200, as prescribed for BCom.

Special paper as prescribed for any other Degree or Diploma of this University and approved by the Head of Department.

OR

Research Essay 30.503 (which counts as two papers).

Note: An abstract is to be submitted with the Research Essay, see Examination Regulation 14.

Prerequisites or Corequisites.

8. A candidate shall, before taking any of papers 13.200, 13.201, 13.204, 01.204 for this Diploma pass or enrol concurrently in paper 13.100 Micro-economics and paper 13.101 Macro-economics, or have obtained a waiver of this requirement from the Head of the Department of Economics or the Head of Department of Accountancy as necessary.

9. These regulations shall come into force on 1 January 1980.

DIPLOMA COURSE PRESCRIPTIONS

DIPLOMA IN DRAMA

*The Diploma in drama will not be offered in 1981. It will, however, be offered again in 1982 under the direction of Mervyn Thompson, Senior lecturer in Drama together with other professional tutors and University lecturers.

The purpose of the Diploma in Drama is to offer a basic training in theatre to those wishing to work in schools, or in the community.

Candidates wishing to enrol in 1982 in the Course for the Diploma in Drama (75.100) are required to give notice of their intention to the Registrar of the University by letter not later than 20 January 1982.

The entry to the Course in any year is restricted to 20 students.

Candidates should have a Bachelor of Arts Degree from Auckland or some other University or should hold an award or qualification in dramatic work or have had extensive experience in the theatre or in the teaching of drama. Generally, candidates under 20 years of age are not considered for the course.

Candidates may be called for interview and required to produce evidence of qualifications and special skills.

The Course is a full-time course extending over one year. Permission to take other courses or do other theatre work will be granted only in rare instances.

The Course will include the following:

- (i) Fundamentals of acting including speech, movement and improvisation.
- (ii) Basic techniques of the theatre, eg lighting, design, wardrobe, direction.
- (iii) Television acting and the use of television equipment.
- (iv) Practical study from selected texts.
- (v) Selected aspects from the history of the theatre and drama.
- (vi) Selected aspects from the theory of drama.
- (vii) Theatre criticism.
- (viii) Practical work in production.
- (ix) Brief exercises in the making of theatre for young people.
- (x) Exercises in group theatre and playmaking.

A list of books required for study will be available from the department. All students should obtain this.

DEPARTMENT OF POLITICAL STUDIES

DIPLOMA IN LOCAL GOVERNMENT AND ADMINISTRATION

The course for the Diploma in Local Government and Administration may be completed in not less than one year of full-time study or two years of part-time study. Students are required to take the Part I papers in the first year of study.

The prescriptions for the Part I papers in the preceding regulations are given below.

30.500 The New Zealand Local Government System

The evolution, structure and characteristics of the system. Reorganisation schemes and functional features. Local politics, elections and public participation.

30.501 Public Administration

Selected issues in the study and practice of administration with special reference to New Zealand public administration.

30.503 Research Essay

A research essay may be presented in lieu of two papers from Part 3 of the course. It shall consist of 18,000 to 20,000 words on an approved topic in Local Government Administration or Politics.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF SCIENCE

BSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the degree of Bachelor of Science shall follow a Course of study of not fewer than three years.
2. In these Regulations
 - (a) a 'course' is an independently assessed segment of work in a subject, the successful completion of which results in the award of credits as set out in the Schedule to these Regulations.
 - (b) courses are classified as Stage I (papers numbered .100-.199), Stage II (.200-.299) and Stage III (.300-.399).
 - (c) for the purposes of these Regulations, courses for the Degree of Bachelor of Science in the Subject Biology will count as courses in Botany or Zoology, but not in both.
3. A complete Course of study requires the gaining of 96 credits, of which
 - (a) at least 36 are from courses above Stage I
 - (b) at least 12 are from Stage III courses in the Faculty of Science
 - (c) at least 48 are from courses in the Subjects Biochemistry, Biology, Botany, Cell Biology, Chemistry, Computer Science, Geology, Mathematics, Physics and Zoology and of these at least 12 are from the subjects of Physics or Chemistry or both.

Course Load

4. A candidate may not enrol in any one year for courses totalling more than 50 credits.
5. A candidate may not take in any one year any combination of either
 - (a) Stage II and Stage III courses, or
 - (b) Stage III courses
 in which practical work is involved where the total credits exceed 30.
6. Except as provided in Regulation 9, a candidate may not enrol for a Stage II course until he has 24 Stage I credits.

Practical Work Requirements.

7. A candidate in any course of the subjects Biochemistry, Biology, Botany, Cell Biology, Chemistry, Geography, Geology, Psychology and Zoology, must pass, besides the written examination, in such practical work as may be prescribed by the Head of Department provided that the candidate's mark in such practical work may, with the leave of the Senate, be carried forward to a subsequent year*.

Credit for other Courses.

- 8(a) The Senate may permit a candidate to take for this Degree up to a limit of 12 credits calculated in accordance with the schedule to this Regulation any of the courses or subjects, not presented for this Degree, to which this Regulation applies.
- (b) This Regulation applies to any course or subject (as the case may be) (i) prescribed and defined in the Regulations for any of the Degrees of BArch, BA, BCom, BE, LLB, LLB (Hons), and (ii) not the same as or substantially overlapping with any course prescribed for this Degree.

SCHEDULE

Arts	per paper	5 credits
Commerce	per paper	5 credits
Architecture	per credit	1 credit
Engineering	full year subject	6 credits
	half year subject	4 credits
Law	per hour of teaching	2 credits
	per week (in any subject taken)	

9. Notwithstanding anything in Regulation 6 the Senate may permit a candidate to enrol for Stage II courses in Biology, Botany, Chemistry, Geography, Physics, Mathematics or Zoology without having passed the prescribed prerequisite courses provided that:

* Note: Candidates wishing to carry forward marks in practical work from a previous year must apply to the Head of Department by 1 March.

(a) The candidate shall only be credited with a pass in the Stage II course and not in the prerequisite course.

(b) A candidate failing the Stage II course may be credited with a pass at Stage I if the examiner certifies he has reached that level.

(c) Where the candidate gained at least 12 credits under this Regulation in Stage II courses in Biology, Botany, Chemistry, Geography, Physics, Pure Mathematics or Zoology he may also include in his Course of study, two papers as prescribed for the Degree of Bachelor of Arts in addition to any Course that may be taken under Regulation 8 of these Regulations. Five credits will be given for each paper passed.

Entry with NZCS

10. Notwithstanding anything in these Regulations a candidate who has passed with merit the written and practical examinations for the New Zealand Certificate of Science or other recognised technical qualifications of comparable standard may be credited with such specified courses, and/or given such unspecified credits not exceeding 36 credits in total, as the Senate may determine.

Note: Any such candidate who has not passed the University Entrance Examination shall apply for admission under the Special Admission Regulations.

Cross-Credits, Credit and Exemptions

11 (1)(a) A candidate who has passed the Intermediate Examination for the Degree of Bachelor of Engineering, may be credited with subjects of that Examination as equivalent courses for the Course of study governed by the Regulations for this Degree, up to a maximum of 42 Stage I credits.

(b) A candidate who has been enrolled for the Degree of Bachelor of Engineering without taking the Intermediate Examination for that degree, may not be credited with the subjects of that examination as equivalent courses but may be credited up to a maximum of 36 Stage I credits on qualifying for the Degree of Bachelor of Engineering.

(c) The 42 credits available under Regulation 1(a) above supersede the maximum 36 credits available under the enrolment and Course Regulations.

(2)(a) A candidate who has passed the Intermediate Examination for the Degree of Bachelor of Engineering and who has also passed for that degree

(i) Engineering Mathematics II and Engineering Mathematics III prior to 1972 or

(ii) Engineering Mathematics I (or prior to 1980) Engineering Mathematics IA and IB and Engineering Mathematics II.

shall be credited with Mathematics 240 and 260 plus 4 unspecified Stage II science credits for the course of study governed by the Regulations for this degree.

(b) Credits under Regulation 2(a) above shall be additional to any permitted to a candidate under Regulation 11(1) of this degree.

(3) A candidate receiving credits under 11(1) or 11(2) above shall not receive any credits under Regulation 8(a).

(4) A candidate who has completed the course for a Degree of Bachelor of Engineering shall normally be expected to study for at least two additional years to complete the Degree of Bachelor of Science.

12. A candidate who holds the Diploma in Optometry may be credited with the courses Psychology 108, Psychology 109 and three courses at advanced levels in Psychology for this Degree in addition to any units (or subjects) which he may be entitled to transfer by way of cross-credit under Regulation 12 of the Enrolment and Course Regulations (General).

Transitional Provisions

13. (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.

(b) A candidate who gained credit in any unit or units under any of the former Regulations for this Degree, shall be credited with such equivalent course or courses as the Senate shall determine.

(c) For candidates who enrolled for this Degree before 1973 the subject prerequisites, corequisites and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department concerned.

Exceptions

14. (a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.

15. These Regulations shall come into force on January 1 1973.

SCHEDULE

1. This schedule sets out course numbers, examination numbers, credits, prerequisites, corequisites, and restrictions applying to Courses of study offered for the Degree of Bachelor of Science.

2. The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.

3. The heading 'prerequisites' in relation to a course refers to other courses which must be passed before the candidate may take that course.

4. The heading 'corequisites' in relation to a course refers to other courses which must be taken concurrently with that course or have been passed in a previous year.

5. The heading 'restrictions' in relation to a course refers to a course which cannot be taken together with that course.

6. A candidate may not take a further stage of a course until he satisfied all prerequisite and corequisite requirements for that course.

Bot	06.341	Genetics	23	6x6	3		Bot 301	
	06.361	Advanced Plant Taxonomy	23	6x6	3		Bot 302	

Note: 1. Minimum enrolment in any one Botany course — 4 students.

2. A student may not enrol for more than six credits in Botany III until he has passed in nine credits from Bio 213, Bot 201, 202 and 221.

3. In exceptional circumstances, with the approval of the Head of Department, one or more prerequisites may be taken as corequisites.

4. Students enrolled in Botany 333 who are taking or have passed Cell Biology 302 or 305 will be required to submit assignments in place of Virology laboratories in Botany 333.

CELL BIOLOGY

Cell Bio	40.303	Molecular and Cellular Biology	46	12x6	6	(i) Chem 101 and 102 or Chem 100 (ii) 12 credits from any course in Botany, Biology, Zoology or Biochemistry (iii) 18 credits from any Stage II or Stage III Science courses.		
	40.304	Molecular Genetics	46	12x6	6		40.303	
	40.305	Virology and Immunology	46	12x6	6		40.303	

CHEMISTRY

Chem	08.100	Accelerated Stage I Course	46	23x3	8	Enrolment requires approval from the Head of Department	08.210	08.101; 08.102
------	--------	----------------------------	----	------	---	---------------------------------------------------------	--------	----------------

Note: (a) This course may not be taught in 1981 if less than 10 students enrol for it.

(b) Credit for 08.101 or 08.102 may be given in lieu of 08.100 for inadequate performance in 08.100.

COMPUTER SCIENCE

Note: (i) For prerequisite purposes 07.190, 07.191, 07.290 may be regarded as being equivalent to the former Mathematics papers 26.190, 26.191, 26.190 respectively.

(ii) Prior to 1980 paper 07.340 was numbered 07.320.

(iii) Students credited with both 07.190 and 07.191 will be treated for prerequisite purposes as though they had been credited with both 07.100 and 07.105.

(iv) Although no laboratory hours are shown for the Computer Science papers 07.100, 105, 190, 191 these courses involve extensive practical work outside scheduled class hours.

Zoo	38.309	Comparative Physiology	23	6x6	3		Zoo 301 or 302	Zoo 209

<i>Subjects</i>	<i>Course No</i>	<i>Title of Course</i>	<i>Total Lecture Hours Per Course</i>	<i>Minimum Lab Hours</i>	<i>Credits</i>	<i>Prerequisites</i>	<i>Corequisites</i>	<i>Restrictions</i>
Bio	38.310	Animal Morphogenesis	23	6x6	3		Zoo 301 or 302	
	39.311	Freshwater Ecology	23	6x6	3	15 credits at Stage II level in Bio Bot and/or Zoo		
	39.312	Coastal Marine Biology	23	6x6	3	As for 311		
	39.313	Ecology and Biogeography of Terrestrial Ecosystems	23	6x6	3	Bio 211, 213 plus 9 credits at Stage II level in Bio, Bot and/or Zoo	Bio 207 or 307	
	39.314	Applied Ecology	23	6x6	3	As for 311		
	39.316	Biological Oceanography	23	6x6	3	Zoo 201/301 and 9 credits at Stage II level, in Bio, Bot and/or Zoo (Bio 211 is desirable).		

Notes: (a) The first 12 credits obtained in courses Zoology 201-309 inclusive and Biology 207/307, 211, 212 shall be deemed to be at the Stage II level. Others will be credited as Stage III credits. Students passing one of the basic courses (201, 202) at second year will be automatically enrolled at Stage III level for the second of these courses in the third year.

(b) Chordate Zoology and Non-chordate Zoology are taught in alternate years. Chordate Zoology will be taught in 1982.

(c) Any candidate majoring in another subject may, with the permission of the Head of Department, take up to two courses in Zoology without fulfilling the prerequisites and corequisites listed in the schedule.

*Starred papers will not be taught during the current *Calendar* year.

*Daggered papers will not be taught during the current *Calendar* year unless sufficient staff is available.

THE DEGREE OF BACHELOR OF SCIENCE (HONOURS)

BSc(Hons)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

1. The Degree may be awarded in each of the following Honours Schools:

Geology

Mathematics

2. Admission to the Course of study for the Degree of Bachelor of Science (Honours) shall be at the discretion of the Senate and shall be given at either the end of the second year or third year after matriculation provided that where the proviso to Regulation 8 applies, admission may be granted at the end of the third or fourth year after matriculation.

3. No candidate shall be admitted to an Honours School without the approval of the Head of Department of that School and of the Senate. Such approval shall be granted or withheld upon a consideration of the candidate's performance in the courses of University study already pursued by the candidate and particularly in the courses required as prerequisites to that Honours School.

4. No candidate may be awarded the degree of Bachelor of Science (Honours) if he has previously been awarded the degree of Bachelor of Science of this University.

5. In each Honours School a candidate's Course of study for the Degree shall comprise:

(a) such prerequisites, being courses prescribed for the Degree of Bachelor of Science, and

(b) such Honours Parts (being Parts III and IV, or Part IV as the case may be) and

(c) such Foreign Language requirements as the Head of the Department within the Honours School may prescribe, and

(d) such courses in other subjects as may be required and prescribed in that Honours School under Regulation 14:

provided that

(i) except where the Senate in its discretion otherwise permits, the number of prerequisite courses shall be not fewer than 72 credits in a case of entry into an Honours School at the end of the second year after matriculation and not fewer than 96 in a case of entry at the end of the third such year;

(ii) in the case of any prerequisite subject and with the approval of the Senate, if the candidate has been permitted to enrol for and has passed at Stage II without having passed at Stage I, Stage II may be substituted for Stage I, and Stage III may then be substituted for Stage II;

6. A candidate in any subject for this Degree where practical work is prescribed, must pass beside the written examination, in such practical work as may be prescribed by the Head of the Department.

Withdrawal and Exclusion from Course

7. A candidate may withdraw from the Honours School and be granted such credits and exemptions for courses for the Degree of Bachelor of Science as the Senate shall determine.

8. A candidate shall be required to pass as a whole each Part of the Honours Course of study so that his performance in all courses comprising this Part shall be considered: provided that a candidate who has failed to pass an Honours Part as a whole may in such exceptional circumstances as the Senate approves be credited with a course or courses of that Part and permitted in a subsequent year to present the course or courses not so credited, together with (if the Senate permits) a course or courses of the next succeeding Part.

The candidate shall then be required in that year to pass as a whole in all the courses so presented upon the same conditions as those herein prescribed.

9. A candidate shall sit his final examinations for the degree within four years of his matriculation: provided that at the discretion of the Senate the period may be extended to five years

(a) where a candidate first enrolled in the subject of his Honours School in his second year after matriculation, or

(b) in any special circumstances.

10. A candidate who, on the results of his examination, does not reach the standard required in the Honours School in which he is enrolled, shall be excluded by the Senate from the Honours

School but he may be granted such credits and exemptions for courses for the Degree of Bachelor of Science as the Senate shall determine.

Classes of Honours

11. The Degree of Bachelor of Science (Honours) may be awarded with First Class or Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division. The class of Honours awarded shall be determined primarily on the performance of the candidate in the examinations in his final year but account may be taken of his work throughout his Course of study.

12. The Senate may determine in respect of any candidate who fails to qualify for the Degree that he be awarded the Degree of Bachelor of Science or be credited with courses towards that Degree or be credited with the Degree of Bachelor of Science together with appropriate credits towards the Degree of Master of Science.

Transfer to BSc (Hons)

13. The Senate may, on written application by a candidate for the Degree of Bachelor of Science and without payment of a fee, grant him permission to transfer to a Course of study under these Regulations and allow him to be credited with a pass in such courses as the Senate shall determine.

Requirements of Honours Schools

14. Subject to the provisos to Regulation 5, the Honours Courses of study with subject and courses of examination are as follows:

Geology

Prerequisites

(a) For a candidate seeking admission to the Honours School at the end of his second year after matriculation.

Geology, four courses, totalling 24 credits.

Chemistry 100, or Chemistry 101 and 102

and 36 credits from other courses in any of the following subjects:

Botany, Chemistry, Geology, Mathematics, Physics, Zoology, or in any other subject approved by the Head of Department.

(b) For a candidate seeking admission to the Honours School at the end of his third year after matriculation.

Structure of Course of study as specified for entry at the end of the second year.

Four courses from 21.301, 21.302, 21.303, 21.304, 21.305, 21.306 plus 21.307.

In special cases, with the approval of the Head of Department of Geology, courses at an advanced level in any other subjects may be substituted for any of the above, provided that the candidate has gained at least 12 credits from Geology Stage III courses.

Geology Honours Part III

(Geology courses totalling not fewer than 24 credits, together with practical work).

Part III shall contain courses prescribed as Geology second or third year courses, for a total of not fewer than 24 credits. In special cases, with the approval of the Head of the Department of Geology, advanced courses of other subjects may be substituted for Geology courses, provided that the Course of study contains Geology courses totalling at least 12 credits.

Geology Honours Part IV

(Three papers together with practical work and thesis).

The student shall follow one year's Course of study approved by the Head of the Department of Geology and carry out an original investigation on an approved topic.* The examination shall consist of three papers prescribed for the Degree of Master of Science (21.401, 21.402, 21.403, 21.404, 21.405, 21.406 and 21.408) and a thesis embodying the results of the investigation which shall be equivalent to one paper. The thesis shall be delivered to the Registrar at the beginning of the second half of the second term.

*Notes: (i) Intending students should consult the Head of Department about the research topic immediately after completing the papers for Part III.

(ii) The language for the Foreign Language Reading Examination will be French, German, Russian, or other language approved by Senate and this examination should be taken as early as possible.

(iii) An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Mathematics**Prerequisites**

(a) For a candidate seeking admission to the Honours School at the end of his second year after matriculation,

A total of 72 credits from the following subjects:

Mathematics, Chemistry, Physics, or in any other subject approved by the Head of the Department of Mathematics provided that prerequisite courses, together with the papers selected for Part III, will enable the candidate to attain a level equivalent to the prerequisites for entry to Part IV.

(b) For a candidate seeking admission to the Honours School at the end of his third year after matriculation, Mathematics 220, 240, 260 (or 261 if passed before 1978) plus twenty 300 or 400 level credits approved by the Head of the Mathematics Department. Of those twenty credits at least 16 shall be from courses in Mathematics; except that in special circumstances the Head of Department may approve a minimum of 12 such mathematical credits.

Mathematics Honours Part III

(24 credits in courses approved by the Head of Department of Mathematics).

Part III shall consist of courses approved by the Head of Department of Mathematics totalling 24 credits and including such Mathematics papers as will enable attainment of a level equivalent to the prerequisites for entry to Part IV.

Mathematics Honours Part IV

(20 credits in courses approved by the Head of the Department of Mathematics).

Part IV shall consist of papers approved by the Head of the Department of Mathematics totalling 20 credits.

Note: Normally these will be selected from papers Mathematics 400 to 499 and Computer Science 490 to 499 provided that up to four credits may be replaced by four stage three credits from papers in Mathematics and Computer Science.

THE DEGREE OF MASTER OF SCIENCE MSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eumdem Statum Regulations, a candidate for the Degree of Master of Science shall before his enrolment for this Degree.

(a) (i) have been admitted or qualified for admission to the Degree of Bachelor of Science, except as provided in Regulation 2, below, or

(ii) have been admitted or qualified for admission to the Degree of Bachelor of Science (Honours), or

(iii) in the subject Psychology in lieu of the requirement of paragraph (i) of this clause have been awarded or qualified for the award of the Diploma in Optometry;

(b) have passed the following subject prerequisites or have passed the subject he offers in the final year of the course for the Degree of Bachelor of Science (Honours); provided that in special cases recommended by the Head of the Department the Senate may exempt the candidate from this requirement:

Biochemistry Biochemistry 301 and 302

Botany 24 Stage III credits including at least 12 Stage III credits from Botany and/or Biology.

Cell Biology Either Cell Biology 301 and 302; or Cell Biology 303 and at least six credits from Cell Biology 304 and 305.

Chemistry 08.210, 08.220, 08.230 and 18 credits from courses 08.310-08.391.

Computer Science At least 24 credits in Computer Science above Stage I level. At least 24 credits at Stage III level of which at least 12 shall be from courses in Computer Science. In special circumstances the Head of Department may approve lower minimum requirements.

Geography 24 Stage III credits including at least 12 Stage III credits from Geography.

Geology 24 Stage III credits including at least 12 Stage III credits from Geology.

Mathematics Mathematics 220 or 221, 240 or 241, 260 (or 261 if passed before 1978) plus twenty 300 or 400 level credits approved by the Head of the Mathematics Department. Of those twenty credits at least 16 shall be from courses in Mathematics and Computer Science; except that in special circumstances the Head of Department may approve a minimum of 12 such credits from Mathematics and Computer Science.

Physics Physics 210, 220, 240, 250, 290; and 22 credits from courses approved by the Head of Department, including at least 12 credits from the courses Physics 310-385 and at least 6 credits from the laboratory courses Physics 390-393.

Psychology

- (i) either 24 Stage III credits including at least 12 stage III credits from Psychology; or
- (ii) the completed requirements for the Diploma in Optometry.

Zoology

24 stage III credits, including at least 12 Stage III credits from Zoology or Biology.

(c) have passed with an average Grade of C+ or better, either in all Stage III courses prescribed for the Degree of Bachelor of Science which are prerequisites for the subject taken for this Masters Degree; or in all subjects in Division IV for the Diploma of Optometry if that Diploma is the prerequisite for the subject Psychology taken for this Degree; provided that the Heads of Department may at their discretion approve a lower grade for the purpose of this clause.

2. With the approval of the Head of Department, a candidate may enrol for this degree after having gained at least 90 credits, including 36 credits above Stage I level for the Degree of Bachelor of Science, provided that

- (a) his proposed course for this Degree will extend over not fewer than two academic years;
- (b) he has obtained grades averaging B- or above in the advanced papers for the Degree of Bachelor of Science of the subject which he proposes to take for this Degree;
- (c) he satisfies the conditions in Regulation 1 (b) and (c) above, or is exempted from them;
- (d) he must have completed the prerequisite courses for this Degree;
- (e) he enrolls for the remaining course or courses for the Degree of Bachelor of Science in the first year of his course for this Degree.

(f) should he not pass the remaining course or courses for the Degree of Bachelor of Science in the first year of his Master of Science course, his Master's course shall be suspended until he has passed the remaining course or courses.

3. A candidate may sit the examination papers required for this Degree over two successive years. He may only elect to follow this course of study when he first enrolls for the Degree. Such candidates shall not be eligible to gain Honours.

4. A candidate for this Degree, may with the permission of the Heads of the Departments concerned and with the approval of the Senate take one Master's paper in a subject other than that in which he is taking his degree. Each such paper shall substitute for one paper of the subject in which the Degree is being taken.

5. (a) A candidate who has qualified for the Degree of Bachelor of Science shall be required in the subject he takes to pass the prescribed examinations and to present a thesis where that is prescribed, in accordance with Regulation 12 of these Regulations.

(b) A candidate who has qualified for the Degree of Bachelor of Science (Honours) shall be required to present a thesis only, which shall be as prescribed in Regulation 12 in the subject Geology or Mathematics. Provided that a candidate who has done work for the Mathematics Degree Bachelor of Science (Honours) but has qualified for admission not to that Degree but to the Degree of Bachelor of Science, may be granted exemption from such part of the Course of study for the Degree of Master of Science as the Senate may approve, subject to his paying the prescribed fee as if that part were an exempted unit for the purpose of Regulation 13 of the Enrolment and Course Regulations (General).

6. Where a thesis is required the following conditions shall apply:

- (a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of the Department.
- (b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.

(c) In the case of a thesis requiring laboratory work, such work shall be carried out within the University provided that the Senate may permit a candidate to carry out such work in an approved institute outside the University for such limited period or periods as may be necessary.

(d) A candidate (other than one in the Departments of Geography, Mathematics and Psychology) shall present his thesis not later than twenty-four months after his first enrolment for this degree, but on a recommendation from the Head of Department, the Dean of the Faculty may permit an extension of not more than one year. For candidates in the Departments of Geography, Mathematics and Psychology, regulation 10(c) and 10(d) for the degree of Master of Arts applies.

(e) The candidate shall submit his thesis to the Registrar by the prescribed date. The Registrar shall deliver the thesis to the Head of the Department concerned.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

7. A candidate shall not take a subject which he has already passed for the Degree of Master of Arts.

Honours

8. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division, and Second Division. The degree may be awarded with distinction to a candidate who has already qualified for admission to the Degree of Bachelor of Science (Honours) and has achieved a standard equivalent to first class honours.

(b) Honours shall not be awarded in a particular subject to any candidate who enrolled for and failed to qualify for admission to the Degree of Bachelor of Science (Honours) in that Subject.

(c) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory: provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination, so that he shall still be eligible for the award of Honours subject to the provisions of sub-clause (e) of this Regulation.

(d) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within twenty-four months of his first enrolment for this Degree provided that this period may be extended, in exceptional cases, by the Senate.

9. (a) Notwithstanding anything to the contrary in the foregoing Regulations a candidate may upon the recommendation of the Heads of the Departments concerned and with the approval of the Senate:

(i) substitute an Engineering paper for any papers, paper, or part of a paper prescribed in Regulation 12, and

(ii) substitute a thesis (to carry such weight as may be determined) in an Engineering subject for a thesis in any subject prescribed in Regulation 12; so that part but not the whole of the candidate's course for this Degree may be taken in Engineering.

Note: A candidate changing in toto from one Faculty to another should enrol for the Degree of Master of Philosophy.

(b) The Senate may require the candidate to take any appropriate prerequisite courses before granting any such approval.

(c) In this Regulation 'an Engineering paper' and 'an Engineering subject' mean respectively any paper and any subject prescribed in or for the purposes of Regulation 3 of the Regulations for the Degree of Master of Engineering.

Savings and Transitional Provisions

10. (a) All candidates enrolled for this Degree

(i) who completed a Bachelor of Science Degree in, or before, 1972 shall pass the subject prerequisites listed in the 1972 Calendar;

(ii) shall have their course governed by these Regulations, except those referred to in sub-clause (i).

(b) The Senate may, on written application by a candidate who enrolled for a Bachelor of Science Degree of this University before 1973, approve a course of study which does not

conform to the subject prerequisites published in the 1972 *Calendar* or to those listed here.

11. These Regulations shall come into force on 1 January, 1973.

List of Subjects

12. The subjects of examination and relative requirements as to theses for this Degree, together with the prescription numbers relative to each examination paper, are as follows:

Anatomy (Two papers and a thesis 65.621 which shall count as four papers): Papers 65.401, 65.402.

Biochemistry (Three papers and a thesis 66.601 which shall count as three papers): Papers 66.401 to 66.403.

Botany (Three papers and a thesis 06.601 which shall count as three papers): Paper 06.401 plus two papers from 06.411 to 06.461.

Cell Biology (Three papers and a thesis 40.601 which shall count as three papers): Papers 40.401, 40.402, 40.403.

Chemistry (Seven papers and a thesis 08.601 which shall count one-third towards the assessment for the final grade): A selection approved by the Head of Department of Chemistry of six papers from 08.410, 08.411, 08.412, 08.420, 08.421, 08.422, 08.430, 08.431, 08.432, 08.440, which together shall count one-half towards the assessment for the final grade, and paper 08.450 which shall count one-sixth towards the assessment for the final grade.

Computer Science (Papers totalling 16 credits and a thesis which will count as 16 credits or papers totalling 16 credits and an advanced course of study which will count as 16 credits): A selection approved by the Head of the Department of Computer Science of papers from Computer Science 400 to 499 with total credit value as shown in the prescriptions of 16 credits together with a thesis or an advanced course of study.

Geography (Four papers and a thesis 20.601 which shall count as three papers): Four papers from 20.400 to 20.441.

Geology (Three papers and a thesis 21.601 which shall count as two papers; Foreign Language Reading Examination): Three papers from 21.401 to 21.406 and 21.408. Approved foreign languages are French, German and Russian.

Mathematics (Papers totalling 20 credits and a thesis which will count as 16 credits or papers totalling 20 credits and an advanced course of study which will count as 16 credits): A selection approved by the Head of the Department of Mathematics of papers from Mathematics 400 to 499 and Computer Science 490 to 499, with total value as shown in the *Prescriptions* of 20 credits together with a thesis or an advanced course of study, provided that up to four of these credits may be replaced by four stage three credits from papers in Mathematics and Computer Science not already taken for any other Degree or Diploma.

Pathology (Two papers and a thesis 67.621 which shall count as four papers): Papers 68.401, 68.402.

Physics (Four papers and a thesis 31.601 which shall count as four papers): Four papers from 31.410-31.485.

Physiology (Two papers and a thesis 67.621 which shall count as two papers): Papers 67.401, 67.402.

Psychology (Four papers and a thesis 32.601 which shall count as three papers): Four papers from 32.401 to 32.453.

Zoology (Three papers and a thesis 38.601 which shall count as three papers): Paper 38.401 and two papers from 38.402 to 38.410.

THE DEGREE OF DOCTOR OF SCIENCE DSc

General Provisions

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Science shall be a graduate of the University of Auckland, or of the

University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Science until at least eight years after graduation to his first degree.

3. The Degree of Doctor of Science shall be awarded for an original contribution (or contributions) of special excellence in some branch of pure or applied science.

4. The degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:

(a) Three copies of the work to be examined;

(b) A statutory declaration which shall —

(i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and

(ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and

(iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination Procedure

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall:

(a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate be advised to withdraw his application.

(b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may —

(a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or

(b) elect to proceed with the examination.

9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand.

(b) The contents of the Moderator's report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:

(a) to report independently on the quality of the work and its value as a significant contribution to learning; and

(b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A re-submission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall consider the reports of the Examiners and prepare a final report based upon them which, together with the reports of the Examiners, shall be placed before the Senate and the Senate shall determine whether or not the degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where the Examiners' recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner, and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

DEGREE COURSE PRESCRIPTIONS

DEPARTMENT OF ANATOMY

Anatomy for MSc and Honours

Two papers and a thesis (65.621)

65.401, 65.402 The study of selected fields of Anatomy at an Advanced Level with Detailed Study of One Particular Field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

Students from other Universities must have completed Anatomy III or the equivalent.

DEPARTMENT OF BIOCHEMISTRY

Stage II

Prerequisites: See BSc Schedule.

Biochemistry 201 (One paper and practical work).

An introductory course based on the unifying theme of energy in biochemical systems. Topics are the role of energy in living systems; photosynthesis as a process of solar energy capture for biosynthesis; metabolism as a process for rearrangement of molecular fragments; respiration as the controlled release of energy from molecular fragments; enzymes as regulatory molecules; nucleic acids as stores of biochemical information.

The course is a prerequisite for those proceeding to papers 66.301, 66.302 and the MSc degree in Biochemistry. Passes are required in both the written paper and in practical work (BSc Regulation 7).

Lectures: Students will attend two lectures a week. Two tests will be held during the year, attendance at which will be compulsory for the granting of terms.

Laboratories: Students are required to attend practical classes totalling 72 hours, at times to be arranged during the second half of the year. Performance in practical work will contribute to the final grade for the course. Students should wear a laboratory coat and covered footwear in the laboratory.

Prerequisites: Chemistry 8.101 or 8.100. Biology 39.101 is recommended.

Entry to Biochemistry II is limited to 70. Students who intend to enrol should make preliminary application to the Secretary, Department of Biochemistry, on the appropriate departmental form not later than 20 January.

Stage III

Prerequisites See BSc Schedule.

Biochemistry 301 (One paper and practical work).

66.301 Topics introduced in paper 66.201 are expanded and examined in greater depth. The emphasis is placed upon the biochemistry of macromolecules. Practical work is concerned with the theory and practice of analytical procedures commonly used by biochemists.

Biochemistry 302 (One paper and practical work).

66.302 This course examines metabolic interrelationships and regulation. Practical work is project-oriented using techniques encountered in Biochemistry 66.301.

Laboratories: Students are required to attend practical classes of not less than six hours a week. Performance in laboratory work will contribute to the final grade for the course. Students should wear a laboratory coat and covered footwear during practical classes.

Entry to Biochemistry III may have to be restricted if the number of applicants exceeds the number of laboratory places. Students who intend to enrol should make preliminary appli-

cation to the Secretary, Department of Biochemistry, on the appropriate departmental form not later than 20 January. Candidates who lack one or more of the prerequisites listed in the BSc Schedule are also permitted to make preliminary application. Competence in mathematics up to University Entrance level is assumed.

Biochemistry for MSc

Three papers and a thesis (66.601)

66.401, 66.402, 66.403. The general study of Biochemistry at an advanced level, with more detailed study in fields of enzymology, metabolic pathways, microbial metabolism, biochemical control mechanisms and biochemical endocrinology.

Candidates for the Master's Degree should consult the Head of the Department as soon as possible after the completion of the Bachelor's Degree, in order to select a thesis topic and to obtain advice on vacation reading.

The course will be of a minimum duration of one year; the student should normally expect to complete his thesis during the following year.

Students from other Universities must have taken Biochemistry to an advanced undergraduate level (eg Biochemistry III as offered at Otago University).

Research in Biochemistry

Research facilities are available for PhD students and Post-doctoral workers in several fields of animal, microbial and plant biochemistry.

Intending applicants should make application to the Head of Department in the first instance.

DEPARTMENT OF BOTANY BIOLOGY

Biology 101 Central Concepts in Biology

An introductory course dealing with biological concepts common to animals, micro-organisms and plants; organic evolution; the biochemistry of macromolecules, especially nucleic acids and proteins; enzyme action and catalysis; cellular energetics; fundamental processes of ecosystems; population and community dynamics; genetic principles and mechanisms. This course may be taken as part of the Stage 1 requirement in either Botany or Zoology, but may not receive credit in both.

Biology 207/307 Biometry

Elementary statistical methods and concepts with particular emphasis on their application in biological research.

Biology 211 Population and Community Ecology

Elementary demography and models of population growth; population genetics with emphasis on the concepts of selection and fitness; two-species interactions, competition and predation; multispecies associations. The emphasis will be on experimental ecology of both plants and animals from a wide range of habitats. There will be a compulsory field course of one week, the first week of the May vacation from 9-16 May, 1981.

Biology 212/312 Coastal Marine Biology

The biodivisions of the seas; the habitat structure of New Zealand shores and immediate sublittoral, with particular reference to habits and zoning of macro-organisms; descriptive schemes of community space and the search for underlying physical and biotic parameters; coastal biogeography and tropical shore ecology; conservation and utilisation of the coastline. Practical work includes a 7-day field course to Whangarei Heads the second week of the May vacation 17-24 May, and optional day trips.

Biology 213 New Zealand Vegetation

New Zealand vegetation since the break-up of Gondwanaland. Palynological studies of Pleistocene and Holocene vegetation. Alpine environments. Major forest types. Lowland 'swamp' and

coastal communities. Emphasis will be placed on autecological studies and the dynamics of the ecosystems described, including the role of native and introduced fauna. Practical work will include an experimental project and day field trips to selected sites.

Biology 311 Freshwater Ecology

Animal and plant freshwater communities, particularly of lakes and rivers; the physical and chemical environment; physiography of rivers and lakes; hydrology; pollution. Part of the course will consist of a field trip during May vacation and a weekend field course.

Biology 313 The Ecology and Biogeography of Terrestrial Ecosystems

Different types of ecosystems and the world's major biomes. Current controversies on diversity and stability in communities. Energy flow, trophic structure and the food web. Ecosystem integration through animal-plant-pathogen interaction. Nutrient cycling. Concepts of vegetation as discrete communities or continua. Ordination and classification techniques. Sampling. The breakup of Gondwanaland. Climatic changes during the Pleistocene and Holocene. Holocene vegetation history in New Zealand and elsewhere and its bearing on the concept of climatic climax vegetation. Forest dynamics. Practical work will include a number of field trips and a one week field course during enrolment week, with emphasis on forest ecology.

Biology 314 Applied Ecology

Principles and practice of pest control; resource management, including natural recreational resources, forests and fisheries; aspects of the conservation of natural ecosystems — the planning process.

Biology 316 Biological Oceanography

Characteristics of marine communities: the physical and chemical environment and primary production; marine algology; zooplankton and secondary production; characteristics of plankton, nekton, benthos and meiofaunas in shallow and deep seas. Practical work includes day or weekend field trips and several days of laboratory investigations.

BOTANY

Stage I

The first year course for students in Botany, Zoology or Biology consists of three 6-credit papers, Biology 101 (Paper 39.101), Botany 102 (Paper 06.102) and Zoology 102 (38.102).

Biology 101 Central Concepts in Biology

(See Biology prescriptions).

Botany 102 Form and Function in Plants

An introductory course including the study of major plant groups. Topics covered include major features of NZ flora and vegetation; cytological and anatomical architecture and their relation to photosynthesis, respiration, translocation and transpiration; the regulation of growth and reproduction. The course will include a number of small group discussions and one or two field trips which students will be expected to attend.

Stage II

The course consists of Botany 201 or 202 together with Botany 221 and Biology 213 and practical work including field trips.

Botany 201 Lower Plants

The Biology of fungi, algae, bryophytes and pteridophytes. This course will next be offered in 1981.

***Botany 202 Higher Plants**

The anatomy, morphology and systematics of gymnosperms and angiosperms together with an introduction to cytology and ultrastructure.

Botany 221 Plant Physiology

Water: Water potentials and water movement in the soil-plant-atmospheric continuum, water stress, plant adaptation.

Oxygen: principles of gas exchange, structural adaptations to oxygen deficit, biochemical adaptations to oxygen deficit.

Temperature: Mineral nutrition: criteria of essentiality, uptake mechanisms, role of nutrients.

Stage III

The course consists of a selection from papers from Biology 311, 313, 314, 316 and Botany 301-361 together with practical work, including field trips.

Biology 311 Freshwater Ecology

(See Biology prescriptions).

Biology 313 Ecology and Biogeography of Terrestrial Ecosystems

(See Biology prescriptions).

Biology 314 Applied Ecology

(See Biology prescriptions).

Biology 316 Biological Oceanography

(See Biology prescriptions).

Botany 301 Lower Plants

The Biology of fungi, algae, bryophytes and pteridophytes.

***Botany 302 Higher Plants.**

The anatomy, morphology and systematics of gymnosperms and angiosperms together with an introduction to cytology and ultrastructure.

Botany 321 Plant Physiology.

Photosynthetic metabolism, with particular reference to productivity: light reactions, carbon pathways, photorespiration, limiting factors and diffusion resistances. Respiratory metabolism in response to environmental factors.

Botany 325 Differentiation in Plants.

An integrated study of physiological, structural and ultrastructural aspects of differentiation processes in plants. Emphasis is placed on hormonal interactions and the associated ultrastructural changes involved in a range of processes which will include: cell division, differentiation of the wall, plastid development, embryo dormancy and germination, tropisms, correlative growth processes, flowering.

Botany 331 Plant Pathology 1.

History; principles of plant pathology; introduction to host-parasite relations; etiology and control of specific soil-borne diseases.

Botany 332 Plant Pathology 2.

Mycological review; abiotic disease; environment effects on fungal disease; aerobiology; fungicides and disease control; specific diseases of significance in N.Z. economy.

Botany 333 Plant Pathology 3.

Introductory bacteriology, nematology and virology.

Botany 341 Genetics

Plant cytogenetics including the study of the nucleus in division, changes in chromosome structure and number and the meiotic behaviour of chromosome anomalies in hybrids and polyploids. Genetics of recombination with emphasis on the mapping of gene loci; theories of crossing-over; tetrad analysis particularly in the fungi.

Botany 361 Advanced Plant Taxonomy

Classical and experimental approaches to the study of taxonomic relationships in metaphytes including cytological, chromosomal, chemical and numerical techniques as well as field and herbarium methods and a knowledge of plant nomenclature rules. Phylogenetic and phenetic systems of classification, analysis of variation, floral biology and speciation processes.

Botany for MSc

Botany 401 and two other papers listed below together with a thesis (06.601) equivalent to three papers.

Botany 401 Advanced Topics in Botany
Botany 411 Plant Hydrobiology
Botany 413 Vegetation Dynamics and Description
Botany 414 Plant Population Ecology
Botany 421 Advanced Plant Physiology
Botany 422 Plant Biochemistry
Botany 431 Advanced Plant Pathology
Botany 432 Epidemiology of Plant Diseases
***Botany 441 Genetics and Evolution**
Botany 451 Plant Ultrastructure and Differentiation
Botany 461 Phylogeny and Systematics
 (See also MSc Regulation 4)

Laboratory Work

The practical work will be assessed separately and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical work is necessary for credit to be awarded for a paper (BSc Regulation 7).

DEPARTMENT OF CELL BIOLOGY

Stage III

Prerequisites: See BSc Schedule.

40.303 Cellular and Molecular Biology

Course Prescription

Lectures: Optical and electron microscopical methods used in the study of cell structure. The fine structure of cellular organelles and components in relation to their function. The structure, biosynthesis and function of nucleic acids and proteins. The Genetic Code. Genetic regulatory mechanisms in bacteria and eukaryotes. The mammalian cell cycle and control of growth of mammalian cells by hormones and other agents.

Laboratories: The laboratory course will cover basic methods used to fix and examine biological material by light and electron microscopy. Experiments will also be performed with proteins and nucleic acids to illustrate the properties and techniques used to investigate the structure and function of these materials.

40.304 Molecular Genetics

Course Prescription

Lectures: The units of mutation, function and recombination in bacteria and bacterial viruses. The transmission and recombination of genetic material in bacterial viruses, bacteria and diploid micro-organisms. Eukaryotic somatic-cell genetics. Aspects of the genetics of plant cells in culture and haploid plants.

Laboratories: The laboratory course will cover basic methods used in bacteriology and microbiology as an introduction to experiments in microbial genetics. Experiments will be performed to illustrate methods of transmission of genetic information in micro-organisms and the experimental application of such techniques to the resolution of problems of gene order and organisation on chromosomes.

40.305 Virology and Immunology

Course Prescription

Lectures: The structure and replication of bacterial, plant and animal viruses. Immunity, the structure and synthesis of antibodies and the cellular basis of the immune response.

Laboratories: The laboratory course will cover basic methods used in virology to purify and characterise viruses and techniques used for studying antibodies and the cells that synthesise such molecules. An introduction to techniques used in the culture of animal cells forms part of this course.

Cell Biology for MSc and Honours

Three papers and a Thesis (40.601)

40.401 Molecular Biology and Ultrastructure, 40.402 Molecular Genetics, 40.403 Virology and Immunology

The material for Cell Biology 303, 304 and 305 considered in greater depth, with knowledge of

some of the current original literature. The course will be based on selected topics in Virology, Electron Microscopy, Molecular Biology, Microbial and Molecular Genetics, and Immunology.

Prerequisites: For Auckland students, at least 12 credits either from Cell Biology 301 and 302 (prior to 1979), or from Cell Biology 303, 304 or 305. Students from other universities or colleges must have taken some suitable subject to an advanced undergraduate level (e.g. Biochemistry Advanced II or Microbiology Advanced II as offered at Otago University).

For Auckland students who do not have 12 credits in Cell Biology third-year courses as part of their undergraduate degree, and for students from other universities the MSc degree will normally involve a two-year course, in which the candidates may be required to take all or part of the course work for Cell Biology Stage III, and keep terms in that subject(s).

Students are reminded of the requirement of a grade higher than C+ in prerequisite Stage II and Stage III Subjects for BSc (see MSc Regulation 1 (c)).

Thesis: The preparation of a thesis (40.601) is a most important feature of the work and a large part of the student's time should be devoted to this aspect of the course. The topic of research for the thesis can be in virology, electron microscopy, molecular genetics, molecular biology with special reference to nucleic acids and proteins, or in basic aspects of immunology.

Research in Cell Biology

Facilities are available for research by PhD and post-doctoral students in fields of virology, immunology, molecular genetics, electron microscopy, and molecular biology, with special reference to nucleic acids and proteins.

Intending students should consult the Head of the Department as early as possible.

Note: An MSc in Cell Biology is not a prerequisite for PhD registration.

DEPARTMENT OF CHEMISTRY

The courses in Chemistry for the BSc Degree under these regulations are progressive; although prerequisites have not been prescribed more restrictively than necessary, students should bear in mind that familiarity with relevant material from earlier courses is assumed in the later ones.

First Year Courses.

08.101 (6 credits) Principles of Organic Chemistry

(One paper and practical work).

A pass both in the written paper and the practical course is necessary (BSc Regulation 7).

Lectures: Students will attend four lectures a week in the first half of the academic year. Tests will be held from time to time outside lecture hours, and performance in these tests will contribute to the final grade for the written paper.

Laboratories: Students will attend a practical class of three hours each week in the first half of the academic year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

08.102 (6 credits) Principles of Inorganic Chemistry

(One paper and practical work).

A pass both in the written paper and the practical course is necessary (BSc Regulation 7).

Lectures: Students will attend four lectures a week in the second half of the academic year. Tests will be held from time to time outside lecture hours, and performance in these tests will contribute to the final grade for the written paper.

Laboratories: Students will attend a practical class of three hours each week in the second half of the academic year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Students intending to proceed to Chemistry 08.210 or Chemistry 08.220 are strongly advised to take Mathematics 26.140 (or an equivalent course) beforehand. Students intending to take Third-year Chemistry courses should include Physics 31.115 and 31.125 (or 31.110 and 31.120).

Accelerated First Year Course

08.100 (8 credits) Organic and Inorganic Chemistry

Note: This course may not be taught in 1981 if less than 10 students enrol for it.

(One paper and practical work).

A pass both in the written paper and the practical course is necessary (BSc Regulation 7). This is an accelerated course covering the material of both Chemistry 101 and Chemistry 102.

Lectures: Students will attend two lectures a week. Two tests will be held during the year outside lecture hours and performance in these tests will contribute to the final grade for the written paper.

Laboratories: Students will attend a practical class of three hours each week. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. This course is intended to be taken simultaneously with Chemistry 210. Students taking Chemistry 100 are strongly advised to include Mathematics 26.140 (or an equivalent course) in their course concurrently. Entry to Chemistry 100 is restricted to students, who, on the evidence of high marks in the University Bursary or Scholarship examinations, have demonstrated previous ability in Chemistry. Students intending to take third-year courses should include Physics 31.115 and 31.125 (or 31.110 and 31.120).

Advanced Courses

Familiarity with the relevant material in the first-year courses will be assumed.

08.210 (6 credits) Physical, Analytical and General Chemistry

(One three-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). This course includes analytical chemistry; structural and quantitative aspects of spectroscopy, chemical thermodynamics and kinetics.

Lectures: Students will attend two lectures a week. One test will be held outside lecture hours.

Laboratories: The practical course covers both analytical and physical chemistry. Students will attend practical classes of not less than 72 hours by doing six hours per week for half the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.101, or 08.102, or 08.100.

08.220 (6 credits) Inorganic, Structural and Theoretical Chemistry

(One three-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course provides an introduction to chemical bonding, and to the chemistry of the solid state. Aspects of the chemistry of transition metal and main group elements are treated at greater depth. An introduction to kinetic studies of inorganic systems is also included.

Lectures: Students will attend two lectures a week. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 72 hours by doing 6 hours per week for half the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.101, or 08.102, or 08.100.

08.230 (6 credits) Organic Chemistry

(One three-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course is based on the prescribed text and covers the structure and reactions of carbon compounds, classified by functional groups. An introduction to the chemistry of molecules of biological importance is included.

Lectures: Students will attend two lectures a week. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 72 hours by doing six hours per week for half the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.101 plus 08.102 or 08.100.

08.270 (3 credits) Environmental Chemistry

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course covers aspects of the chemistry of the atmosphere, natural waters, and the land surface. A section on hazards associated with chemicals and their handling is also included.

Lectures: Students will attend one lecture a week. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes, totalling 36 hours at times to be arranged. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisites: 08.101 and 08.102 or 08.100

Corequisite: 08.210

08.310 (3 credits) General Physical Chemistry

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course will include Chemical thermodynamics, ionics, electrodis, surface chemistry.

Lectures: Students will attend one lecture a week. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 36 hours during the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.210.

08.311 (3 credits) Molecular Physical Chemistry

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course will include molecular spectroscopy, statistical mechanics, thermodynamics, electric and magnetic properties of molecules.

Lectures: Students will attend one lecture a week. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 36 hours during the year.

No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.210.

08.320 (3 credits) Inorganic Chemistry

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course will cover aspects of organo-metallic chemistry, bio-inorganic chemistry and inorganic kinetics.

Lectures: Students will attend a total of 23 lectures during the year. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 36 hours during the year. No student may enter the laboratory unless he is wearing an approved form of eye protection.

Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.220.

08.321 (3 credits) Physical-Inorganic Chemistry

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course includes aspects of Inorganic kinetics, quantum chemistry, and co-ordination chemistry.

Lectures: Students will attend a total of 23 lectures during the year. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 36 hours during the year. No student may enter the laboratory unless he is wearing an approved form of eye protection.

Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.220.

08.331 (3 credits) Advanced Organic Chemistry (a) Structure and Mechanisms

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). This course will cover aspects of the investigation of organic reactions including physical-organic chemistry and a more detailed examination of organic reaction classes.

Lectures: Students will attend two lectures per week during the first half of the year. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 36 hours during the year. This will normally be done over a six-week period during the first half of the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.230.

08.330 (3 credits) Advanced Organic Chemistry (b) Reactions and Synthesis

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). This is a course in which the principles of organic chemistry are applied to organic synthesis. Bond forming reactions and functional group modification are covered, together with illustrations of specific syntheses of the laboratory and industrial type.

Lectures: Students will attend two lectures per week during the second half of the year. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 36 hours during the year. This will normally be done over a six-week period during the second half of the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.230.

Corequisite: 08.331.

08.340 (3 credits) Structural Methods in Chemistry

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course covers the investigation of crystal and molecular structure. Background theory is discussed for X-ray structural analysis, molecular spectroscopy and mass spectroscopy. Practical applications in inorganic and organic chemistry are included throughout.

Lectures: Students will attend 32 lectures during the year. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes for 20 hours during the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.210.

Corequisites: 08.220 and 08.230.

08.350 (2 credits) Elementary Radiochemistry

08.351 (2 credits) Advanced Radiochemistry

For detailed prescriptions for 08.350 and 08.351, see Regulations for Certificates in Principles and Practice of Radiochemistry.

08.360 (3 credits) Analytical Chemistry

(One two-hour paper and practical work).

A pass both in the written paper and in the practical course is necessary (BSc Regulation 7). The course will cover instrumental methods of analysis. It will consist of 16 lectures and 48 hours laboratory work on a project in analysis. One test will be held outside lecture hours. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.210.

†08.390 (3 credits) Advanced Topics in Chemistry

†08.391 (3 credits) Advanced Topics in Chemistry

Chemistry for MSc and Honours

Candidates must select six courses from those numbered 08.410-08.440 inclusive and all candidates must take Course 08.450. At least one course must be chosen from division (a), Physical Chemistry, one from (b), Inorganic Chemistry, and one from (c), Organic Chemistry. The assessment of a student's overall attainment in the degree will be made on the basis that each of the six papers chosen from 08.410-08.440 has a weight of one, that paper 08.450 has a weight of two, and the thesis 08.601 has a weight of four.

Students intending to read for MSc and Honours should consult the Head of the Department as soon as possible after the completion of the Bachelor's Degree, regarding allocation of a thesis topic and to ensure availability of laboratory facilities. The course is normally of one year's duration, but the thesis may, with the approval of the Head of the Department, be completed during the second year. (See clause 2 (c) of the Enrolment and Course Regulations (General).)

An overall prerequisite for the course is that students have completed 08.210, 08.220 and 08.230 and 18 credits from Chemistry Courses at the third-year level. Additional prerequisites for individual papers are also generally required.

(a) Physical Chemistry

08.410 General Physical Chemistry

(One 2-hour paper).

This course will cover surface chemistry, electrochemistry, the liquid state and thermodynamics.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 08.310.

08.411 Molecular Spectroscopy

(One 2-hour paper).

This course will cover vibrational and magnetic resonance spectroscopy.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 08.311 or 08.340.

08.412 Chemical Kinetics

(One 2-hour paper).

This course will cover experimental and theoretical aspects of chemical kinetics.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 08.210.

(b) Inorganic Chemistry

08.420 Organo-metallic chemistry

(One 2-hour paper).

The course covers advanced aspects of organo-metallic chemistry with emphasis on the heavier metals and low-valent co-ordination compounds.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 08.320.

08.421 Physical Methods in Inorganic Chemistry

(One 2-hour paper).

The course deals with molecular structure and conformation, and the application of advanced physical techniques in the elucidation of the structural and electronic states of inorganic co-ordination complexes and biological models.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 08.321 or 08.340.

08.422 Inorganic Kinetics and Mechanisms

(One 2-hour paper).

This course covers an advanced study of reactions of co-ordination compounds including substitution reactions, rearrangement reactions and electron transfer reactions. Metal ion catalysed and metallo-enzyme catalysed reactions are also studied.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 08.220.

(c) Organic Chemistry

08.430 General Organic Chemistry

(One 2-hour paper).

This course will cover stereochemistry, conformational analysis, and aspects of organic synthesis.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 08.330 or 08.331.

08.431 Intermediates, Rearrangements and Radicals

(One 2-hour paper.)

This course will cover the above topics at a greater depth than at the 08.331 level.

Lectures: Students will attend 20 lectures during the year.*Prerequisite:* 08.330 or 08.331.**08.432 Industrial and Applied Organic Chemistry**

(One 2-hour paper.)

This course will cover both the fundamental chemistry and other aspects of topics drawn from both the heavy and the fine organic chemical industries.

Lectures: Students will attend 20 lectures during the year.*Prerequisite:* 08.230.**(d) General Chemistry****08.440 Quantum Chemistry**

(One 2-hour paper.)

This course will deal with molecular orbital, ligand field, and angular momentum theory.

Lectures: Students will attend 20 lectures during the year.*Prerequisite:* 08.321**08.450 Special Topics in Chemistry**

(One 3-hour paper.)

Students must choose three topics in specialised areas of chemistry from a selection to be offered.

Lectures: Students will attend 10 lectures in each topic selected.

In addition to attending prescribed lectures, students will be required to prepare and discuss a number of selected topics of special interest.

DEPARTMENT OF COMPUTER SCIENCE**Stage I Courses****Computer Science 100 (6 credits) Computers and Programming**

An introduction to algorithm and program design. Programming in a structured programming language. Number systems and machine arithmetic. An introduction to computer architecture and machine level programming.

Computer Science 105 (6 credits) Algorithms and Data Structures

Stacks, lists, queues, trees, strings and other elementary data structures. Algorithms and programming techniques for manipulating structured data. Algorithms for scientific applications. An introduction to operating systems.

Computer Science 190 (6 credits) Introduction to Algorithmic Processes

This course will be available only in 1981 and only for students who have previously been credited with 07.191. To complete the course a student attends a selection of the lectures in papers 07.100 and 07.105 as announced by the department prior to enrolment.

Computer Science 191 (6 credits) Introduction to Computing

This course will be available only in 1981 and only for students who have previously been credited with 07.190. To complete the course a student attends a selection of the lectures in papers 07.100 and 07.105, as announced by the department prior to enrolment.

Stage II Courses**Computer Science 210 (4 credits) Computer Organization**

This course deals with the logical structure of digital computers and systems. Topics include: number representation and binary arithmetic; digital logic; implementation of a simplified processor; architectural aspects of conventional machines; assembly languages; hardware requirements for high-level language support; computer peripherals.

Computer Science 220 (4 credits) Information Structures and Programming Languages

Design, analysis and correctness of algorithms; graphs and data structures; file, list, string and array processing and associated languages e.g. LISP, SNOBOL.

Computer Science 230 (4 credits) Computing Laboratory

This course provides extensive practical programming experience and backs up and expands upon concepts taught in other courses, especially 07.220.

Computer Science 250 (4 credits) The Theory of Computation

Mathematical preliminaries: graphs, trees, semigroups. Grammars, languages and automata. Finite-state automata and regular languages. Push-down automata and context-free languages. Turing machines and computability. Complexity and correctness.

Computer Science 290 (4 credits) Numerical Computation

Introduction to the numerical algorithms fundamental to scientific computer work. Interpolation and approximation, numerical differentiation and integration, solution of nonlinear equations, linear systems of equations.

Stage III Courses**Computer Science 301 (2 credits) Topic in Computer Science (a)****Computer Science 302 (2 credits) Topic in Computer Science (b)****Computer Science 303 (4 credits) Topic in Computer Science (c)****Computer Science 304 (4 credits) Topic in Computer Science (d)**

One or more of these topics papers may be taught in any particular year. The actual contents of such courses and the requirements that must be met before departmental approval to enrol in them is given, will be announced prior to enrolment. Enrolment is subject to the approval of the Head of Department.

Computer Science 310 (4 credits) Advanced Computer Organisation

This paper is an extension of Computer Science 210 covering topics such as microprogramming, virtual storage and advanced machine structures. Comparison of several different case-study machines.

Computer Science 320 (4 credits) Advanced Information Structures

This course deals with the storage and manipulation of data. Material includes: development of database management systems; hierarchic, network and relational data models; languages for data description, manipulation and querying; performance, reliability and security; design considerations; existing systems; advanced topics.

Computer Science 340 (4 credits) Operating Systems

Principles of operating systems, including handling of concurrent processes, memory management, processor management, task scheduling, file systems and protection. Comparison and evaluation of several current systems.

Computer Science 390 (4 credits) Numerical Analysis

Analysis of methods of numerical interpolation, differentiation and quadrature. Numerical methods for ordinary differential equations.

Courses for MSc and Honours

To satisfy the prerequisites for the MSc degree two separate requirements must be satisfied. The first of these is that the course work in Computer Science above Stage I level amounts to at least 24 credits, and the second is that the total number of credits at Stage III level be at least 24 with at least 12 in Computer Science. In special circumstances the department would consider a relaxation of either of these requirements. Students accepted as candidates for this degree select papers approved by the Head of the Computer Science Department from 07.400 to 07.499, with a total value of 16 credits.

In addition they write a thesis (07.601) or take an advanced course of study (07.605), either of which counts as 16 credits. Not all 400 level papers will be offered each year but those that are, together with their prescriptions, will be announced prior to enrolment.

A candidate must normally complete his thesis or advanced course of study not later than twenty-four months after his first enrolment for this degree.

Computer Science 401 (2 credits) Advanced Topic in Computer Science (a)**Computer Science 402 (2 credits) Advanced Topic in Computer Science (b)****Computer Science 403 (2 credits) Advanced Topic in Computer Science (c)**

Computer Science 404 (2 credits) Advanced Topic in Computer Science (d)
Computer Science 405 (2 credits) Project in Computer Science
Computer Science 406 (2 credits) Seminar in Computer Science
Computer Science 410 (2 credits) Computer Architecture
Computer Science 411 (2 credits) Topic in Computer Architecture
Computer Science 416 (2 credits) Computer Graphics
Computer Science 420 (2 credits) Database Management Systems
Computer Science 430 (2 credits) Theory of Compilers
Computer Science 431 (2 credits) Compiler Construction
Computer Science 440 (2 credits) Advanced Operating Systems
Computer Science 441 (2 credits) Topic in Operating Systems
Computer Science 450 (4 credits) Theoretical Computer Science
Computer Science 460 (2 credits) Artificial Intelligence
Computer Science 461 (2 credits) Computational Logic
Computer Science 490 (2 credits) Numerical Linear Algebra
Computer Science 491 (2 credits) Numerical Quadrature
Computer Science 492 (2 credits) Numerical Solution of Ordinary Differential Equations
Computer Science 493 (2 credits) Numerical Solution of Partial Differential Equations
Computer Science 494 (2 credits) Mathematical Software

Diploma in Computational Mathematics

See under Diploma Regulations and Prescriptions

DEPARTMENT OF GEOGRAPHY

Geography for BSc

The prescriptions for Geography courses are as prescribed for Geography papers for BA.

Geography for MSc and Honours

(Four papers and a thesis (20.601)).

A candidate is expected to enrol for and sit the four papers in the first year, present the thesis in the year next following and submit it for examination by 1 November of that year. Papers shall be selected from 20.400 to 20.441. The prescriptions for Geography courses are as prescribed for Geography papers for MA.

DEPARTMENT OF GEOLOGY

Stage I

Two courses are offered:

21.100 Fundamentals of General and Environmental Geology.

Sixty-nine hours lectures, 46 hours laboratories. 8 credits. The earth as a planet; materials and basic structure of the lithosphere, igneous activity, metamorphism, tectonism and structural geology; general geomorphology, weathering, erosion and principles of sedimentation; introductory paleontology and stratigraphy; the geologic history of New Zealand and the South-west Pacific; mineral deposits; environmental and engineering geology. The practical course will include identification of elementary rocks and minerals, examination of fossils, preparation and interpretation of simple geologic maps.

Field Classes: Each student will be required to attend at least two field excursions, arranged usually on weekends during term time.

Practical Work: One two-hour practical class must be attended each week. The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.150 Applications of Geological Concepts and Methods

(corequisite 21.100)

Twenty-three hours lectures, 54 hours laboratories.

4 credits. The history of, and scientific method in, geology; stratigraphic correlation, paleontology and paleoecology; the planetary system and elementary geophysics; igneous, metamorphic and sedimentary petrography, applied aspects of structure and tectonics.

Field Classes: Each student will be required to attend at least two field excursions, arranged usually on weekends during term time.

Practical Work: One three hour practical class must be attended each week. The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

Note: Students terminating at Stage I Geology need only take 21.100 to acquire a sound background to all aspects of the discipline. A pass in both 21.100 and 21.150 is necessary before a student can advance to Stage II courses in Geology. Any student taking both 21.100 and 21.150 and failing in the former whilst passing the latter will receive 4 credits and will not be permitted to advance in Geology until 21.100 has been passed. Students in 1981 who have only one of 21.101, 21.102 will not be permitted to enrol in 21.100, but with the permission of the Head of Department may enrol in 21.150 whether concurrently enrolled in a Geology Stage II or III course or not.

Stage II

Three courses are offered:

21.201 Introductory Tectonics

(Prerequisite 21.100 plus 21.150)

Fifty-eight hours lectures, 46 hours laboratories, 6 credits. Elements and mechanical principles of structural geology. Structures of metamorphic rocks. Geological maps and their construction, regional geology, and hypotheses of global tectonics in the light of geophysics. Aspects of engineering geology.

Field Classes: A field camp lasting about a week will be held probably during the first vacation and other one-day excursions may be arranged throughout the year. Attendance at the field classes is compulsory and students must be prepared to pay a large part of the cost of these classes which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.202 New Zealand Historical Geology

(Prerequisite 21.100 plus 21.150)

Fifty-eight hours lectures, 46 hours laboratories, 6 credits. Advanced treatment of the full New Zealand stratigraphic sequence, biostratigraphy, paleogeography, and geological history, with the regional geology of some smaller areas and the comparative paleontology necessary as a background to biostratigraphy.

Field Classes: In conjunction with course 21.201 a field camp lasting about a week will be held probably during the first vacation; other one day excursions may be arranged throughout the year. Attendance at the field classes is compulsory and students must be prepared to pay a large part of the cost of these classes, which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.203 Introduction to Mineralogy and Petrology

(Prerequisite 21.100 plus 21.150; Corequisite: Chemistry 08.100 or 08.102)

Forty-six hours lectures, 69 hours laboratories, 6 credits. Crystal morphology. Principles of optics. Systematic and determinative mineralogy. Descriptive petrography of common rock types. Principles of phase equilibria in mineral systems.

Field Classes: One-day excursions may be arranged throughout the year. Attendance at these classes is compulsory and students must be prepared to pay a large part of the costs involved.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical courses and the written paper is necessary. Students will be required to attend one two-hour laboratory per week in the first and fourth quarter and two two-hour laboratories per week in the second and third quarter.

Stage III

Compulsory Field Class in Geological Mapping.

All students enrolling in a Stage III course in Geology (except 21.306) are required to attend a two-week Field Class in Geological Mapping, and to submit a satisfactory finished map and

report on it. The Field Class required will normally be the Stage III one usually held during two weeks of February prior to the commencement of other Stage III courses; except that the Head of the Department may permit a student to attend instead the Stage II Field Class which is usually held in the May vacation. This Field Class is a part of the field classes which are specified for individual Stage III courses. It may be held anywhere in New Zealand and students must be prepared to pay a large part of the cost. All students intending to enrol for a Stage III course in Geology must notify the Head of Department of their intention, and collect their instructions for the field class, before December 15th in the preceding year. The instructions will include information concerning Enrolment, Bursary payments during the field course, and the weighting of the field class report within the various Stage III courses during the subsequent year.

The following seven courses are offered:

21.301 Advanced Tectonics and Applied Geology

(Prerequisites 21.201 and 21.202)

Forty-six hours lectures, 69 hours laboratories, 6 credits. Regional geology of selected areas with special emphasis on orogenic belts. Introduction to applied geophysics; geology and geophysics of the southwest Pacific. Advanced methods in structural geology. Elements of surveying; photogrammetry and photogeology; principles and practice in engineering geology. Slide-rule and pocket calculation techniques are used throughout this course.

Field Classes: Attendance at the Stage III Compulsory Field Class in Geological Mapping is required.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical work and the written paper is necessary.

21.302 Sedimentology and Marine Geology

(Prerequisites 21.201, 21.203) for exemptions see schedule.

Forty-six hours lectures, 69 hours laboratories, 6 credits. Physical, chemical and biological processes in the major environments of sedimentation; geomorphology, origin and structure of submarine physiographic provinces. Petrography of sedimentary rocks; processes of modern marine sedimentation and erosion.

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days of field work will be held throughout the year; attendance is compulsory and students must be prepared to pay a large part of the cost of trips which may be made anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical work and the written paper is necessary.

21.303 Advanced Paleontology

(Prerequisites 21.102 or (21.100 plus 21.150) or 39.101 plus either 06.102 or 38.102)

Forty-six hours lectures, 69 hours laboratories, 6 credits. Advanced treatment of major invertebrate groups (Foraminiferida, Brachiopoda, Mollusca, Coelenterata, Echinodermata, Arthropoda) covering their morphology, origin, evolution, paleoecology and geological history. Paleoecological principles and practice, paleoecology of other groups of organisms (ichnofossils, Bryozoa, etc.)

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days of field work will be arranged throughout the year anywhere in New Zealand, attendance is compulsory and students must be prepared to pay a large part of the cost of these excursions.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

Note: Since the prerequisites for this course are first-year courses it is possible to take 21.303 as a second year course: students who intend to major in Geology must obtain the permission of the Head of Department to take 21.303 in their second year.

21.304 Minerals and Mineral Deposits

(Prerequisites 21.203, Chemistry 08.102 or Chemistry 08.100; Corequisites 21.302 and 21.305). Sixty-nine hours lectures, 46 hours laboratories, 6 credits. Systematic mineralogy and crystal

chemistry; advanced determinative mineralogy using a variety of analytical and instrumental techniques; mineral deposits in sedimentary, igneous and metamorphic environments and their genesis; elementary aspects of geochemistry.

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days will be spent in the field throughout the year. Attendance at these classes is compulsory and students must be prepared to pay a large part of the cost of these excursions which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.305 Igneous and Metamorphic Petrology.

(Prerequisites 21.203, Chemistry 08.102 or 08.100).

Forty-six hours lectures, 69 hours laboratories, 6 credits. Petrography, chemistry, petrogenesis and regional settings of igneous and metamorphic rocks.

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days will be spent in the field throughout the year. Attendance is compulsory and students must be prepared to pay a large part of the cost of these trips which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.306 Applied Geophysics

(Prerequisites: 21.201, 26.121, 26.141, (31.110 or 31.113 or 31.115), (31.120 or 31.123 or 31.125) OR (21.101 or 21.100, plus 21.150), 31.210. Corequisite, 31.330).

Thirty-six hours lectures, 3 credits. A lecture course covering physical principles, equipment and techniques used in investigating the physical composition of the earth's crust and in mineral exploration. Standard numerical and graphical interpretation methods are discussed, and are used to interpret gravity, magnetic, seismic and DC-resistivity measurements to derive realistic geological gross structures and structures of mineral deposits.

21.307 Experimental Geophysics (joint laboratory course with Physics Department).

(Prerequisites as for 21.306. Corequisites 21.306, 31.330).

Seventy-two hours laboratories, 3 credits. This is a laboratory course associated with 21.306; use and calibration of geophysical instrumentation, experiments to illustrate basic principles, analysis and interpretation of field data involving both Geology and Geophysics. This course is identical with course Physics 31.393 and those students who satisfy the prerequisites 31.210 and 31.290 should enrol in 31.393.

Field Classes. In addition to the Stage III Compulsory Field Class in Geological Mapping, about five days of field work will be held throughout the year anywhere in New Zealand. Students must be prepared to pay a large part of the cost of these excursions which are compulsory.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the Marks Schedule of the University. Part of the practical work is designed to prepare the students for the interpretation of the fieldwork in the 21.307 (31.393) course.

BSc (Hons) Part IV in Geology

(Three papers and a research report 21.603).

The regulations which cover the BSc (Hons) course are listed elsewhere. This course in Geology is designed to enable students of high ability to complete an Honours degree in four years and thus be eligible to proceed direct to a PhD degree, and for the award of post-graduate scholarships. Students enrolled for BSc (Hons) Part IV in Geology undertake course work as for first-year MSc students and will select three papers from those prescribed for the MSc degree (21.401-21.406 and 21.408). In addition, they must complete a research project by the beginning of the second half of the academic year, and the marks allotted for the project report count as equivalent to one paper. Admission to the Honours School may be granted at the end of either the second or third year after first enrolment in the Geology Department. Students who wish to be considered for enrolment should consult the Head of Department prior to enrolment or at any time during the preceding year. Students who have been admitted to Part IV should

consult the Geology staff about textbooks and particularly about fourth-year research projects at the end of their Stage III year.

Students are reminded of the Foreign Language Reading requirement for admission to the degree of BSc (Hons). Candidates must show proficiency in one of the following languages: French, German or Russian.

MSc and Honours in Geology

(Three papers and a Thesis (21.601)).

The MSc is normally a full-time two-year degree, following the completion of a BSc, and consists of three written papers to be selected from 21.401-21.406 and 21.408 together with a thesis which, for examination assessment, counts as two written papers. Students are reminded of the Foreign Language Reading requirement for admission to the degree of MSc or MSc (Hons); proficiency must be shown in one of the following languages: French, German, Russian.

21.401 Tectonics and Structural Geology

Analysis of complex structural sequences in metamorphic and non-metamorphic rocks. Principles of strain analysis and rock mechanics. Selected topics in regional geology as related to tectonic theory.

21.402 Sediments and Sedimentary Processes

Sedimentary processes and products in both ancient and modern settings. Identification and interpretation of sedimentary environments; the provenance and subsequent diagenetic history of terrigenous and carbonate sediments.

21.403 Stratigraphy and Paleontology

Principles and practice in stratigraphy and correlation, the fossil record and its interpretation, the historical geology of New Zealand.

21.404 Mineralogy and Geochemistry

The crystal chemistry of mineral systems, the abundance and distribution of the elements in specific geological environments, and selected mineral groups and their paragenesis.

21.405 Genesis of Igneous and Metamorphic rocks

Studies in the petrology of igneous and metamorphic rocks covering geological settings, PT environments, petrochemistry and mineral assemblages with emphasis on recent developments in the theoretical, experimental and observational fields.

21.406 Advanced Applied Geophysics

The theory and practice of the interpretation of geophysical measurements. The topics covered are presented in two groups in alternate years: (i) (odd years) potential field theory, quantitative interpretation of gravitational and magnetic anomalies (two- and three-dimensional bodies); (ii) (even years) DC and AC resistivity measurements, seismic wave transmission, refraction and reflection studies. Practical work: The year's practical work will be assessed by means of exercises to be completed during the lecture course which will be held during the first half of the year, and two essays and discussion of a seminar topic in the second half.

Note: This course is the same as Physics 433 and is given jointly by the Geology and Physics Departments. Previous enrolment in Physics 330, Geology 306 and Geology 307 is desirable.

21.408 Advanced Engineering Geology

Application of geology to engineering practice with emphasis on the geological, physical and structural variants in rockmasses and soilmasses. Aspects of ground investigation methods, aggregates, relevant clay mineralogy, groundwater, sediments and soils, excavation methods, stability of slopes, foundation requirements and relationship to soil mechanics and rock mechanics.

Note: Interested students should also refer to School of Engineering courses in Geomechanics.

PhD in Geology

(Thesis (21.602) and an oral examination).

Facilities are available for research by PhD candidates in many branches of Geology: geochemistry, petrology, mineralogy, structural geology, paleontology and stratigraphy, sedimentology,

marine geology, geophysics and engineering geology. Students intending to work for this degree should have reached a satisfactory level of attainment in BSc (Hons) or MSc. Students working for this degree who have not already shown proficiency in a foreign language will be required to pass the Foreign Language Reading Examination in French, German, Russian or some other language approved by the Head of Department.

LEIGH LABORATORY

The Leigh Laboratory is situated on the east coast, some seventy kilometres north of Auckland, at Goat Island Bay, Leigh. It provides research and some advanced course space, facilities such as running seawater, and living accommodation for twenty workers. Present work is centred on the ecology, physiology and systematics of shore and shallow water organisms, and geology and marine geophysics, but the laboratory is open to workers in any branch of marine research.

Excellent collecting grounds are available in the district, although the area in the immediate vicinity of the laboratory is designated a marine reserve, in which certain limitations are imposed. Within ten kilometres of the laboratory there are examples of almost every kind of shore from mangrove swamps and quiet harbours to exposed rocky shores and surf beaches. A full climate station is maintained and climatic variables in the intertidal region are regularly monitored. The laboratory owns various small boats which are available for nearshore collecting. Scuba work and for plankton sampling. Larger boats can be chartered locally. Certain SCUBA equipment and divers' air compressor are available and there are full facilities for quantitative phytoplankton work, seawater chemistry, underwater sound transmission and reception, and respiratory and photosynthetic measurements using electrodes or manometry. Tank rooms with constantly running seawater can be used for the maintenance of animals and seaweeds.

The Laboratory is managed by a committee composed of the Heads of such Departments as Zoology, Botany and Physics. Students who wish to work at the Laboratory must make arrangements with the Director through their supervisors and any other bookings can be made in advance by contacting the Director, Dr W. J. Ballantine, R.D., Leigh (Telephone, Warkworth 26-111). Facilities and accommodation are available to students proceeding to the BSc, BSc(Hons), MSc, or PhD degrees as well as staff and visiting scientists.

DEPARTMENT OF MATHEMATICS

Stage I Courses

Maths 120 (6 credits) 26.120 Principles of Algebra

Maths 121 (6 credits) 26.121 Introductory Algebra

Maths 122 (6 credits) 26.122 Finite Mathematics

These are alternative courses and only one of them may be selected by any student. Students intending to advance in Mathematics to higher stages will normally take Maths 120. However, well prepared students are encouraged to enrol in Maths 221 instead of Maths 120.

The syllabus for Maths 120 is: Sets, relations, functions; introduction to formal systems and mathematical logic; number systems, integers, mathematical induction, rational numbers, real and complex numbers, de Moivre's theorem, vectors, matrices, transformations in the plane, linear equations; introduction to groups, rings and fields.

Maths 121 will consist of a selection of topics from the above prescription excluding groups, rings and fields, together with a brief introduction to probability and statistics. This course is appropriate for engineering students and for science students not intending to major in Mathematics. Maths 122 will consist of a selection of topics from the following: Logic, sets, principles of counting, vectors and matrices, linear equations, probability and Markov chains, linear programming, the theory of games, number systems. This course is appropriate for commerce students and for arts, law and social science students not intending to major in Mathematics.

However, as this is a first course in mathematics, better prepared students are encouraged to take Maths 120 instead.

Students who pass Maths 121 or 122 will require permission from the Head of Department before they may enrol for Maths 220.

Maths 140 (6 credits) 26.140 Principles of Calculus**Maths 141 (6 credits) 26.141 Introductory Calculus****Maths 142 (6 credits) 26.142 Concepts of Calculus**

Limits, continuity; derivatives and integrals; differential calculus of polynomials and rational functions; antiderivatives and integrals of polynomials; logarithmic, exponential and circular functions; calculus in Euclidean geometry; applications.

These are alternative courses and only one of them may be selected by any student. Students intending to advance in Mathematics to higher stages will normally take Maths 140. However, well prepared students are encouraged to enrol in Maths 241 instead of Maths 140.

Other students are recommended to take Maths 141 or Maths 142, both of which will concentrate more on techniques than on theory. Maths 141 is specially designed to meet the needs of engineering and science students while Maths 142 is more appropriate for arts, commerce and social science students.

Students who pass Maths 141 or Maths 142 will require permission from the Head of the Department before they may enrol in Maths 240.

Maths 170 (6 credits) 26.170 Principles of Mechanics

Elementary vector algebra; statics of a particle and rigid body; centres of mass and moments of inertia; dynamics of a single particle including work, energy, momentum, simple harmonic motion, motion in a circle and projectiles; introduction to dynamics of a system of particles and of a rigid body.

Maths 180 (6 credits) 26.180 Principles of Statistics

Axioms of probability, random variables, probability distributions, expected values, discrete bivariate distributions, sampling distributions, small and large sample inference, regression.

Maths 181 (6 credits) 26.181 Introduction to Probability and Statistics

The syllabus is similar to that of 26.180 but with less emphasis on mathematical proofs and more emphasis on statistical techniques and their applications. Further topics such as contingency tables, goodness of fit tests will be included. Students intending to advance in statistics to Stage III will normally take 26.180. Other students who do not have a good background of pure mathematics and statistics at the sixth or seventh form level are advised to take 26.181. If in doubt, please consult the lecturer in charge of the course. A special version of 26.181 called 26.181C (for departmental purposes only), is available for commerce students. Students who pass 26.181 will require permission from the Head of the Department before they may enrol in 26.280.

Note: Papers previously listed as Maths 190 and Maths 191 are now papers Computer Science 190 and Computer Science 191. See under Department of Computer Science.

Stage II Courses**Maths 210 (6 credits) 26.210 Principles of Mathematics**

Enrolment in this course requires permission from the Head of the Department. The course consists of a wide selection of topics from various branches of Mathematics, and further information about the course can be obtained from the Administrative Secretary of the Department of Mathematics.

Maths 220 (6 credits) 26.220 Linear Algebra

Matrices, vector spaces, linear mappings, determinants, eigenvalues and eigenvectors, non-singular reduction of quadratic forms, Sylvester's law of inertia, inner products, orthogonal reduction of real quadratic forms.

Maths 221 (8 credits) 26.221 Algebra (accelerated course)

A selection of topics from Maths 120 and Maths 220 taught as a unified course. Well prepared students are encouraged to seek permission to enrol in this course rather than in Maths 120.

Maths 240 (4 credits) 26.240 Calculus

Algebra and geometry of vectors in three dimensional space; calculus of vector valued functions, curves, functions of several variables, partial derivatives, chain rule, maxima and minima, div, grad and curl; multiple integrals; least upper bounds; sequences and series, introduction to power series.

Maths 241 (8 credits) 26.241 Calculus and Analysis (accelerated course)

A selection of topics from Maths 140 and Maths 240 taught as a unified course. Well prepared students are encouraged to seek permission to enrol in this course rather than in Maths 140.

Maths 260 (4 credits) 26.260 Differential Equations

Methods for the solution of ordinary differential equations, including variation of parameters, Laplace Transform methods, and power series solutions; elementary Fourier series and boundary value problems.

Maths 280 (4 credits) 26.280 Statistical Theory

Probability spaces, distribution theory of one or more variables, probability and moment generating functions, sampling theory for the normal distribution, estimation, hypothesis testing, linear models.

Maths 281 (4 credits) 26.281 Statistical Methods

Basic statistical methods, introduction to analysis of variance and experimental design, goodness of fit, contingency tables, non-parametric methods, regression, sample survey methods.

Note: The paper previously listed as Maths 290 is now paper Computer Science 290. See under Department of Computer Science.

Stage III Courses**†Maths 310 (4 credits) 26.310 Special Topics in Pure Mathematics (a)**

Enrolment in this paper requires permission from the Head of the Department. If this paper is offered, further information may be obtained from the Administrative Secretary of the Department of Mathematics.

†Maths 311 (2 credits) 26.311 Special Topics in Pure Mathematics (b)

Enrolment in this paper requires permission from the Head of the Department. If this paper is offered, further information may be obtained from the Administrative Secretary of the Department of Mathematics.

Maths 315 (4 credits) 26.315 Formal Logic

Formal systems, proof-theoretic and model-theoretic approaches to classical and modal sentential logic, introduction to first-order logic.

Maths 320 (4 credits) 26.320 Algebraic Structures**Maths 321 (4 credits) 26.321 Introduction to Abstract Algebra**

Groups, rings, unique factorization domains, fields.

The object of these courses is to give a basic introduction to modern algebra, exclusive of linear algebra. They are alternative courses, and only one of them may be selected by any student. Both courses are acceptable and suitable as a prerequisite for Maths 420, and the Mathematics Department reserves the right to direct which of these courses a particular student shall take.

Maths 330 (2 credits) 26.330 Introductory Analysis

Elements of set theory, the real number system, sequences and series of functions, uniform convergence, Riemann-Stieltjes integration.

Maths 331 (4 credits) 26.331 Principles of Analysis (accelerated course).

A selection of topics from 26.330 and 26.340 taught as a unified course. This course follows on from 26.241 and enrolment requires permission from the Head of the Department of Mathematics.

Maths 335 (2 credits) 26.335 Metric and Normed Spaces

Metric and normed linear spaces with particular reference to n -dimensional Euclidean space and $C[a,b]$, compactness, connectedness, completeness and their applications.

Maths 340 (4 credits) 26.340 Multivariable Calculus.

Differential and integral calculus of vector-valued functions of several variables and applications.

Maths 345 (2 credits) 26.345 Techniques of Complex Variables

Analytic functions, power series, calculation of integrals by residues.

†Maths 350 (4 credits) 26.350 Topics in Mathematics

A selection of topics chosen from axiom systems, affine geometry, Euclidean geometry, projec-

tive geometry, Minkowski space and special relativity, hyperbolic geometry, topology, differential geometry, groups and geometry.

Maths 360 (4 credits) 26.360 Applied Analysis

Differential equations, the special functions of applied mathematics, orthogonal polynomials, Fourier series, Boundary value problems.

***Maths 362 (4 credits) 26.362 Special topics in applied mathematics**

Enrolment in this course requires permission from the Head of the Department. If this paper is offered, further information may be obtained from the Administrative Secretary of the Department of Mathematics.

Maths 370 (4 credits) 26.370 Mechanics

General dynamical principles, theory of rotating axes, motion under central forces, motion of a rigid body, Lagrange's equations of motion, Hamiltonian theory, special theory of relativity.

Maths 371 (4 credits) 26.371 Field Theory

An introduction to electromagnetism and fluid dynamics.

Maths 380 (4 credits) 26.380 Probability

Introduction to stochastic processes, generating functions, recurrent event theory, Markov chains including applications to random walks and discrete branching processes, Poisson processes, birth and death processes including applications to queueing processes, miscellaneous topics.

Maths 381 (4 credits) 26.381 Statistical Analysis

Expectation and covariance operators for random vectors, quadratic forms, multivariate normal distribution, detailed study of multiple linear regression, analysis of variance and covariance.

Note: The paper previously listed as Maths 390 is now paper Computer Science 390. See under Department of Computer Science.

Maths 391 (4 credits) 26.391 Optimization in Operations Research

Linear programming; Simplex and revised Simplex methods; duality, and the dual Simplex method; post optimal analysis; decomposition and column generation; integer programming; cutting planes and branch and bound; dynamic programming; network analysis, transportation and flow problems.

Maths 395 (4 credits) 26.395 Mathematical Modelling for Operations Research

Digital simulation techniques and applications, Monte-Carlo methods and related statistical analysis; introduction to deterministic and stochastic models in such areas as queueing theory, inventory control, reliability, Markov decision processes, risk analysis.

Courses for MA, MSc and Honours

The Prerequisites for the MA and MSc degrees are: Mathematics 220 or 221, 240 or 241, 260 (or at least one of 261 and 360 prior to 1978) plus twenty 300 or 400 level credits approved by the Head of the Mathematics Department. Normally at least 16 of these credits shall be from courses in Mathematics and Computer Science, but 12 credits in Mathematics and Computer Science may be approved in special cases.

The student shall select papers, approved by the Head of the Mathematics Department, from 26.400 to 26.499 and 07.490 to 07.499 with a total credit value of 20 credits, together with a thesis (26.601) or an advanced course of study (26.605), which will count as 16 credits. Up to four of the 20 credits may be replaced by four stage three credits from Mathematics and Computer Science papers not already taken for any other Degree or Diploma.

For 1980 a candidate who has not passed Mathematics 320 or 321, 330 or 331 and 340 will normally be required to pass these papers or their equivalents during their first Masters year. A similar requirement will operate after 1980 and prospective Masters students should consult the Administrative Secretary of the Mathematics Department for further details, preferably when they enrol for their 300 level papers.

Not all 400 level papers listed will be offered each year. The list of papers to be offered and their prescriptions will be determined each year by the Head of the Department of Mathematics. The number of credits for each paper is given after the title.

A candidate must normally complete his thesis or advanced course of study not later than twenty four months after his first enrolment for this degree.

26.401	Topic in Pure Mathematics A (2)	26.447	Topics in Analysis B (2)
26.402	Topic in Pure Mathematics B (2)	26.448	Special Topics in Analysis (4)
26.403	Special Topic in Pure Mathematics (4)	26.449	Advanced Topics in Analysis (4)

26.445	Quasiconformal Analysis (2)		
26.446	Topics in Analysis A (2)		

The number of credits for each paper is given in brackets.

BSc (Honours) in Mathematics

Prerequisites for Part IV of the BSc (Hons) degree are the same as for an MA or MSc degree in Mathematics. Normally only students of proven ability (B+ or above) may be considered for entry at either Part III or Part IV level.

The courses available at Part III level are such as will allow a candidate to satisfy the prerequisites for Part IV. The requirements for Part IV are: a selection of papers, approved by the Head of the Mathematics Department, from 26.400 to 26.499 and Computer Science 07.490 to 07.499 with a total credit value of 20 credits. The comments above concerning 320 or 321 etc with regard to the first year of the Masters degree also apply to Part IV of the BSc (Hons).

Students who obtain the BSc (Hons) will be permitted to complete the MSc by presenting a thesis or completing an advanced course of study as approved by the Head of the Department of Mathematics.

Diploma in Mathematical Education

See under Diploma Regulations and Prescriptions

Diploma in Statistics

See under Diploma Regulations and Prescriptions

DEPARTMENT OF MECHANICAL ENGINEERING

55.001 Engineering Mechanics I

An introductory course dealing with the concepts and principles of rigid-body mechanics and their application to the analysis of simple mechanical systems.

The following topics are discussed:

(a) Statics: resolution and summation of force and couple vectors, conditions of equilibrium, external and internal forces in plane and space structures, distributed forces (including elementary hydrostatics), the concept of stress. The laws of dry friction and their application to machines.

(b) Kinematics: rectilinear and curvilinear motion of particles, relative motions, coriolis acceleration, plane motion of rigid bodies, simple kinematic motion.

(c) Kinetics: Newton's laws of motion, forces and accelerations of particles and rigid bodies in plane motion, moments of inertia, introduction to gyroscopic motion, mechanical vibrations. The concepts of work and energy, potential and kinetic energy of particles and rigid bodies, the principle of energy conservation, power. The concept of momentum, impulsive motion, the principle of conservation of momentum for particles and rigid bodies.

DEPARTMENT OF PATHOLOGY

Pathology for MSc and Honours

(Two papers and a Thesis (68.621)).

68.401, 68.402 the study of selected fields of Pathology at an advanced level with detailed study of one particular field. The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

DEPARTMENT OF PHILOSOPHY

Stage II course

Philosophy 29.203 (5 credits) Philosophy of Science

This course is available for second and third year BSc students. It provides an introduction to the logic, methodology, ontology and epistemology of science, and other problem areas where philosophy intersects with foundational issues in special sciences. No prior acquaintance with philosophy will be presupposed. However, students will be required to master some elementary logic. Full details of the course, including texts, can be found in the brochure *Department of Philosophy: Course Outlines* available (free) from the Departmental Secretary.

DEPARTMENT OF PHYSICS

Stage I courses

Physics 104 (2 credits) Basic Electronics for Instrumentation

This course is given in even numbered years. It is intended for nonphysicists who need to use and understand electronic instrumentation. It aims to provide a basic understanding of electronic circuits and electronic instruments commonly used for scientific purposes.

The topics covered include:

- (1) the calculation, measurement and observation of direct, alternating and transient electrical signals;
- (2) a discussion of the factors which cause measurement and observational errors;
- (3) the characteristics of some active circuit devices, including transducers;
- (4) the operating principles and uses of power supplies, amplifiers and oscilloscopes;
- (5) simple logic circuits and their use in the control of experimental parameters.

The course will consist of 12 1-hour lectures and 12 2-hour laboratory periods. The laboratory work is an integral part of the course in which a substantial part of the instruction will take place.

Physics 105 Acoustics (Paper 28.113 for BMus)

This course is provided as an option for the degree of Bachelor of Music only and is examined as paper 28.113. Topics covered include the fundamental principles of oscillations and wave propagation; stationary waves; resonance; loudness; pitch; tone quality; intervals and scales; the principles of operation of stringed, woodwind, brass and other instruments; the electronic production and reproduction of sound; and the acoustics of rooms.

Physics 110 and 120

These courses are given in the first and second half-years respectively and are intended for students who wish to advance in the physical sciences and mathematics.

Both courses must be passed before certain of the Stage II and more advanced courses in physics may be taken.

Mathematics up to University Entrance standard will be assumed. Students who have not completed a further year of study in physics beyond University Entrance standard may have difficulty with these courses.

Students who do not attain the standard required for a pass in Physics 110 or 120 may be credited with a pass in Physics 115 or 125 respectively.

Physics 110 (6 credits)

Lectures for four hours per week in the first half-year selected from the following topics: mechanics, wave motion, heat and thermodynamics, fluid mechanics, sound and light. Tutorial assistance is available.

Laboratory Course. Three hours of practical work each week, in conjunction with the lecture material.

Physics 120 (6 credits)

Lectures for four hours per week in the second half-year from the following topics: electricity, relativity, and modern physics. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.

+Physics 111 (2 credits) Thermal Physics

This course will be given in the first half-year and is designed to introduce students to the thermal properties and behaviour of matter. It will be recommended to students intending to take Physics 313 as an appropriate introductory paper to that advanced course, as well as to students who have completed Physics 110 and 120 courses but wish to broaden their foundation knowledge of the subject. Students with a serious interest in the quantitative aspects of the "energy problem" may also find this physics course useful. It is anticipated that students will enrol in the course in their second or third year of study.

Mathematics up to University Entrance standard will be assumed. Students who have not completed a further year of study in physics beyond University Entrance standard may have difficulty with this course.

The course comprises two hours of lectures per week on thermometry, thermal expansion, ideal and real gases, elementary kinetic theory, calorimetry, heat transfer processes, the First and Second Laws of Thermodynamics, Carnot's theorems, and the thermodynamic concept of entropy. Tutorial assistance is available. There is no minimum laboratory hour requirement.

Physics 113 and 123

These courses are given in the first and second half-years respectively as part of the requirement for Engineering Intermediate. They are similar in content and standard to the courses Physics

110 and 120, and may be credited in lieu of those courses towards the BSc degree for students who do not wish to continue in Engineering. This credit will satisfy any prerequisite requirements for the advanced courses in physics which refer to Physics 110 or 120. Students who do not attain the standard required for a pass in Physics 113 or 123 may be credited with a pass in Physics 115 or 125 for the purposes of the BSc degree.

Mathematics up to University Entrance standard will be assumed. Students who have not completed a further year of study in physics beyond University Entrance standard may have difficulty with these courses.

Physics 113 (6 credits)

Lectures for four hours per week in the first half-year selected from the following topics: heat, thermodynamics, wave-motion, sound and light. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.

Physics 123 (6 credits)

Lectures for four hours per week in the second half-year selected from the following topics: electricity, relativity, and modern physics. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.

Physics 115 and 125

These courses are given in the first and second half-years respectively and are intended primarily for students who intend to proceed to courses in medicine (Otago), dentistry, agriculture, architecture, home science, surveying, pharmacy and optometry. They are also recommended for students taking a BA degree or a BSc degree in natural science subjects. Mathematics and physics up to University Entrance standard will be assumed.

Students who are credited with a pass in Physics 115 or 125 may enrol for Physics 200 but are not eligible to enrol for any other advanced courses in Physics. Students who gain a sufficiently high standard of pass in Physics 115 or 125 may be granted a pass in Physics 110 or 120 respectively.

Physics 115 (6 credits)

Lectures for four hours per week selected from the following topics: mechanics, wave-motion, heat and thermodynamics, sound and light. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with lecture material.

Physics 125 (6 credits)

Lectures for four hours per week selected from the following topics: electricity, relativity, and modern physics. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.

Stage II Lecture Courses

Note: There is no laboratory requirement for any of the advanced lecture courses in Physics, but not more than TWO of the courses Physics 210-250 may be credited unless the laboratory course Physics 290 is also credited.

Direct Entry

Students who have gained an Entrance Scholarship with outstanding marks in both Physics and Mathematics may be granted direct entry to Stage II courses in Physics. Enquiries should be first made to the Head of Department.

Physics 200 (4 credits) Topics in Contemporary and Applied Physics

This course provides an introduction to a variety of topics in physics of contemporary interest, such as space physics, astrophysics, geophysics and biophysics. It also discusses the basic physics involved in a variety of general topics such as music, photography and microscopy. The course is descriptive in nature and makes extensive use of demonstrations, slides, films and closed circuit TV. One two-hour lecture per week is devoted to each topic, with a different lecturer each week. The prerequisite for Physics 200 is one of the courses Physics 110-125 or Physico-chemistry for Human Biology. This course is examined by continuous assessment.

Lectures: Two hours per week throughout the year.

Physics 201 (2 credits) Astrophysics

This is an introductory course covering such topics as stellar structure and evolution, galaxies and cosmological theories.

The prerequisites for Physics 201 are any one of Physics 110, 113 or 115, together with any one of Physics 120, 123 or 125.

Physics 210-250

The prerequisites for each of these courses are Physics 110 and 120, and Mathematics 120 and 140. Students are recommended to enrol concurrently in Mathematics 240 and 261. Each course comprises two hours of lectures each week during one half-year. Tutorial assistance may be provided by arrangement with the lecturer.

Lists of text books or books for recommended reading are available from the Departmental Office by 1 December of the year prior to enrolment.

Physics 210 (2 credits) Oscillations and Waves

The aim of this course is to examine the general properties of waves and to consider the usefulness of wave equations by means of specific examples. Undamped, damped and forced vibrations are treated for electrical and mechanical systems. The course emphasises the usefulness of Fourier transforms in wave analysis, and gives close attention to their application in a qualitative understanding of Fraunhofer diffraction.

Physics 220 (2 credits) Electromagnetism and Optics

The electromagnetism part of this course covers the basic theory of the commonly observed electromagnetic phenomena and shows that they lead to Maxwell's equations (integral form). The optics part deals with optical sources, coherence, diffraction, holography, interferometers and polarisation.

Physics 240 (2 credits) Electronic Physics

The aim of this course is to provide students with a fundamental understanding of the basic electronic circuits which are useful in physics instrumentation. The lectures will cover (i) d-c, a-c and transient circuit theory, (ii) semiconductor device physics, (iii) circuit applications of semiconductor devices, and (iv) principles of electronic design and instrumentation.

Note: Students are recommended to enrol concurrently in the laboratory course Physics 290; however, those students specialising in Computer Studies who are taking Physics 240 solely as a prerequisite to Physics 343 are recommended to enrol for Physics 290 concurrently with Physics 343, unless they intend to enrol for Physics 390, 391 and 392.

Physics 250 (2 credits) Quantum Physics

The aim of this course is to introduce students to the concepts and methods of quantum theory. The formal structure of the theory will not be stressed. The course will cover the Schrodinger equation, and its application to simple quantum systems.

Stage II Laboratory Course**Physics 290 (6 credits) Experimental Physics**

This is a laboratory course which supplements the lectures at Stage II level. It occupies two three-hour periods each week throughout the year, and is examined on the basis of continuous assessment. The course is preceded by an introductory lecture and concludes with a short examination (oral or written) to determine minor adjustments to student grades. Physics 290 is prerequisite to the laboratory course at Stage III level, and must be passed before more than two of the courses Physics 210-250 may be credited.

The prerequisites for Physics 290 are Physics 110 and 120, Mathematics 120 and 140. The corequisites are TWO of the courses Physics 201-250.

Note: Students specialising in Computer Studies should refer to the note under Physics 240.

Stage III Lecture Courses

Note: There is no laboratory requirement for any of the advanced lecture courses in Physics, but not more than THREE of the courses Physics 312-385 may be credited unless at least ONE of the laboratory courses Physics 390-392 is also credited.

Physics 312-385

The prerequisites for these courses are listed in the schedule of courses. Students are recommended to enrol concurrently in Mathematics at Stage III level, the courses Mathematics 340,

360, 381, 390 being the most relevant.

Students should note the prerequisite requirement for MSc in physics and the arrangements concerning MSc theses.

Each course comprises two hours of lectures for one half-year. Tutorial assistance may be provided by arrangement.

Lists of text books or books for recommended reading are available from the Departmental Office by 1 December of year prior to enrolment.

Physics 312 (2 credits) Classical Mechanics

This course aims to give a brief review of the non-relativistic mechanics of systems of particles, and to develop the principles of generalised classical mechanics as they are used in physics. It will deal with the following topics: momentum, energy, angular momentum of single particles, and particle systems, generalised co-ordinates, constraints, Lagrange's equations, two-body problem, central forces and orbits, rigid body motion, Hamilton's principle, conservation theorems and symmetries, Hamilton's equations, canonical transformations, Poisson brackets. Emphasis is also laid on the parallels between the classical and quantum theories of mechanics.

Physics 313 (2 credits) Thermodynamics and Statistical Mechanics

This course is designed to extend the elementary consideration of heat and kinetic theory to cover the foundations of statistical mechanics, with application to quantum statistics. The following topics are covered: thermodynamics — first and second laws, entropy; kinetic theory — Boltzmann transport equation, H-theorem, transport problems; statistical mechanics — Boltzmann, Fermi and Bose distributions.

Physics 320 (2 credits) Electromagnetism and Electromagnetic Waves

The course extends the electromagnetism of Physics 220 to the general situation, carrying on through Maxwell's equations to the propagation and properties of EM waves. The lectures are based on the following topics: electrostatics in terms of Laplace's equation, including its solution in terms of Legendre polynomials and cylindrical harmonics; dielectrics; magnetic fields and currents; Maxwell's equations; Lienard Wiechert potentials. Electromagnetic wave propagation, wave guides; radiation from antennas, reflection, refraction and scattering of electromagnetic waves. Introduction to physics of plasmas as relating to electromagnetic waves.

Physics 330 (2 credits) Terrestrial Physics

A general introduction to the physics of the solid Earth, including aspects of the gravitational field, the rotation and figure of the Earth, seismology and the internal structure of the Earth, the Earth's internal heat, the geomagnetic field, paleomagnetism and geodynamics:

Note: Physics 330 is a corequisite to Geology 306 (Applied Geophysics) and Geology 307/Physics 393 (Experimental Geophysics). It has associated with it some particular experiments in applied geophysics which are also available to any student enrolled for the laboratory courses Physics 391 or 392.

Physics 331 (2 credits) Marine Physics

A general introduction to ocean physics including a review of the physical properties of ocean water, the application of fluid mechanics to dynamic phenomena in the ocean and atmosphere, such as geostrophic, gradient, inertial flow, wind driven circulation, gravity waves, the tides and underwater acoustics.

Physics 332 (2 credits) Atmospheric Physics

A general introduction to physical processes involved in the lower atmosphere, including the origin, composition and structure of the atmosphere; the radiation balance; optical phenomena; atmospheric electricity; cloud physics; the thermodynamics and circulation of the atmosphere.

Note: Courses Physics 330, 331, 332, may be taken independently but the three taken together are designed to provide an overall view of the physics of the Earth.

Physics 341 (2 credits) Circuit Electrophysics.

This course is concerned with steady-state a-c circuit theory applied to both passive and active circuit analysis. Topics discussed include complex vector loci, Nyquist and Bode diagrams, matrix representation, s-plane concepts and operational amplifiers. Emphasis is placed on circuits suitable for instrumentation and data acquisition wherever possible. In common with Physics 343 this course is of interest to students intending to undertake experimental work although it is rather more theoretically biased.

Note: Students in this course will benefit substantially by also enrolling in Physics 390, 391 or 392.

Physics 342 (2 credits) Semiconductor Devices.

This course is concerned with understanding the electrical behaviour of semiconductor devices. It contains material relating to the physics of semiconductor junctions, device fabrication and integration, electrical characteristics of discrete and integrated devices, circuit models and device applications.

Although the course is general in nature, and is designed to follow Physics 240, students will benefit from concurrent enrolment in Physics 341.

Note: Students in this course are encouraged to enrol concurrently in Physics 390, 391 or 392.

Physics 343 (2 credits) Pulse and Digital Electronics.

This course provides a systematic introduction to digital circuits and concepts that are basic to contemporary instrumentation and computation. The aim is to lead students from simple switching concepts in linear passive circuits via non-linear discrete semiconductor devices to integrated circuits and basic instrumentation systems. The course is of interest to all students intending to undertake experimental work and it is recommended by the Board of Computer Studies for students with an interest in Computer Science.

Note: Students in this course will benefit substantially by also enrolling in Physics 290, 390, 391 or 392.

Physics 350 (2 credits) Quantum Mechanics and Atomic Physics.

The course is designed to give an understanding of the observed behaviour of atomic systems in terms of the quantum theory. The following topics are discussed: (a) the one-dimensional Schrodinger equation and its application to linear molecules; (b) the quantization of orbital angular momentum and the extension of Schrodinger's equation to three dimensions; (c) perturbation theory and an introduction to matrix mechanics; (d) the spectra of hydrogen, hydrogen-like ions, alkali-like spectra and exotic atoms and their interpretation; (e) the spectra of helium, helium-like ions and the alkaline earth elements and their interpretation.

Physics 352 (2 credits) Molecular and Solid-State Physics.

The molecular physics section of the course covers the following topics: the hydrogen molecular ion, the hydrogen molecule, covalent and ionic bonds, molecular rotational and vibrational spectra and their interpretation using the Schrodinger theory. The solid state section of the course deals with the structure of crystals and crystal lattices, lattice vibrations and the thermal properties of solids. The band theory of solids in terms of the quantum theory is also covered, as well as other selected topics. Concurrent or prior enrolment in Physics 350 is considered very desirable.

Physics 353 (2 credits) Nuclear and Particle Physics.

The aim of this course is to discuss the basic properties of atomic nuclei and elementary particles, and to give an introduction to recent developments in these fields. The course is divided into two sections: Nuclear physics: basic properties of nuclei, radioactive decay, nuclear reaction mechanisms, introduction to nuclear models. Particle physics: discovery of mesons, resonances and strange particles, basic properties of elementary particles and their interactions, introduction to quark models. Concurrent or prior enrolment in Physics 350 is considered very desirable.

+Physics 356 (2 credits) Nuclear Science

This course covers many topics of practical interest to experimental nuclear physicists and the theoretical backgrounds of several of the experiments in Physics 390-392 are discussed. The interaction of charged particles, neutrons and gamma rays with matter and applications of these ideas to detectors and to target fabrication. Fission, fusion and radioactive decay. Nuclear analytical techniques (neutron and charged particle activation, induced x-ray emission, microbeams, backscattering and surface analysis). Beam optics, vacuum physics, machine physics.

Physics 380-385 (each 2 credits) Selected Topics.

Subject to the approval of the Head of Department students may select not more than two topics from those offered at MSc level in Physics. Any necessary prerequisites or corequisites will be as determined by the Head of Department.

Stage III Laboratory Courses

Physics 390, 391, 392 (each 3 credits) Experimental Physics A, B, C

Three general laboratory courses are available at Stage III level in Physics, and students may enrol for one or more of these in the same or subsequent years. Each course normally occupies two three-hour laboratory periods for half the year, but laboratory times are flexible depending on the allocation of experiments in the Advanced Laboratory, and Physics 392 may be spread over the whole year, at the discretion of the course organiser. Each course will contain a representative selection of experiments from different branches of physics, but will in addition contain experiments selected as far as is practicable to suit the particular interests of students. Experiments are available in general physics, atomic and nuclear physics, electronic physics and pure and applied geophysics.

In view of the value to be derived towards an understanding of experimental physics, it is expected that all students taking any of the 390-series laboratory courses will offer themselves for a period of Stage I laboratory demonstrating.

Prerequisites for enrolment in Physics 390, 391 or 392 are passes in TWO of the courses 31.201 to 31.250. Corequisites are concurrent enrolment (or passes) in ONE of the courses 31.312 to 31.353 for each Physics 390/1/2 course enrolment. At least ONE of the courses 390, 391 and 392 must be credited before more than three of the courses Physics 312-385 may be credited. At least TWO of the courses 390, 391, 392 or 393 are required as a prerequisite to Masters in Physics. The Stage II laboratory course Physics 290 is prerequisite to each of 390, 391 and 392.

Physics 393 (3 credits) Experimental Geophysics

This is a joint course offered by the Geology and Physics Departments and is the same as Geology 307. Students holding the Physics prerequisites 31.210 and 31.290 should enrol in Physics 393. For further information on this course students should consult the entry under 21.307 Experimental Geophysics.

Physics for MSc and Honours

Students are required to enrol and be examined in four papers from those listed below and a thesis (Physics 601) which counts as four papers. In addition they will be invited to attend one further course without formal enrolment. All Masters papers will be examined at the end of the year.

Lecture Courses Physics 410-485.

A number of lecture courses are available for the MSc degree in Physics covering a wide range of topics. Not all the papers listed may be offered each year and a sufficient number of enrolments will be required in each case. With the approval of Senate a Masters paper in another subject may be substituted for one of the papers in Physics. Further, with the approval of the Head of Department it is possible to select one Stage III course in Physics not previously taken, or with the approval of both Heads of Departments concerned, one Stage III course in another subject as one of the four courses required for the MSc degree in Physics. In these cases additional course work may be required and a special examination will be sat as one of the "selected topics" 31.480-485.

Students will be advised in their selection of courses at enrolment but should discuss their proposed course of study and possible thesis topic with lecturing staff before the end of the Stage III year.

There are no specific prerequisites for the individual lecture courses, but it is desirable that students should have taken the corresponding Stage III course where this is indicated. Concurrent enrolment in suitable courses may be advised.

Lists of textbooks or books for recommended reading are available from the Departmental Office by 1 December of the year prior to enrolment, but the advice of the lecturing staff should be sought before purchases are made.

Physics 410 Transform methods

This course deals with the theory and application of transform methods to linear physical systems. Topics presented will include: convolution, continuous and discrete Fourier transforms, Laplace transforms, z transforms and Hilbert transforms; with applications selected from: electric circuits, signal processing, optics, wave theory, spectroscopy and statistics.

Physics 414 Relativity

Introductory lectures on tensors are followed by a review of the Special Theory of Relativity. This covers kinematics, dynamics, and electromagnetism. Special emphasis is laid on the covariance of relativistic relations. Tensor theory is then further developed, and the fundamental postulates leading to the General Theory of Relativity presented. The course concludes with a brief study of Einstein's theory of gravitation and observational tests.

Physics 420 Laboratory and Space Plasma

The treatment of plasma physics is restricted to the fully ionized state. The subject is introduced by considering the motion of charged particles under the "guiding centre" approximation. Fluid type equations are developed to describe the properties of plasma. Solutions with application to astrophysics and fusion machines are considered. Propagation of electrostatic and electromagnetic waves in homogeneous magnetised plasma is given some emphasis. About eight lectures on space physics are devoted to the solar wind and the earth's magnetosphere and ionosphere.

Note: Previous enrolment in Physics 320 is desirable.

Physics 431 Wave Propagation

A general treatment of propagation of acoustic, electromagnetic, seismic and surface waves with selected applications in underwater acoustics, oceanography, radio waves in the ionosphere, geophysical exploration and earthquake analysis. Topics include rays and normal modes in inhomogeneous layered media, reflection coefficients, attenuation, WKB approximations, stress-strain tensors, Rayleigh, Love and head waves and whole Earth models.

Physics 432 Cloud Physics

The aim of the course is to provide a detailed understanding of the condition of the atmosphere and the various physical processes which lead to the formation of clouds, the onset of precipitation and the occurrence of lightning discharges. The contents of the course includes the theory of nucleation of condensation, freezing and sublimation. The measurement of nucleating agents in the atmosphere. Observations of cloud microstructure and its relation to rainfall probability. The theory of droplet growth and the development of droplet populations. The formation of rain and its characteristics. The growth of ice in the atmosphere, leading to precipitation. The electrical properties of clouds and studies of the lightning flash. Thunderstorm theories. Current research in cloud physics.

Note: Previous enrolment in Physics 332 is desirable.

Physics 433 Advanced Applied Geophysics

The theory and practice of the interpretation of geophysical measurements. The topics covered are presented in two groups in alternate years: (i) (odd numbered years) potential field theory, quantitative interpretation of gravitational and magnetic anomalies (two and three-dimensional bodies); (ii) (even numbered years) DC and AC resistivity measurements, seismic wave transmission refraction and reflection studies.

Practical Work: The year's practical work will be assessed by means of exercises to be completed during the lecture course which will be held during the first half of the year and two essays and a discussion of a seminar topic in the second half.

Note: This course is the same as Geology 406 and is given jointly by the Geology and Physics Departments. Previous enrolment in Physics 330, Geology 306 and Physics 393 is desirable.

Physics 441 Signal Processing

This course is concerned with the theory and application of modern techniques used in the transmission, reception and interpretation of signals. Topics presented include: operational amplifiers and active filters, modulation and detection of signals in the presence of noise, signal analysis by analogue and digital processes, digital filtering, phased detectors and optical signal processing methods.

Note: Previous enrolment in Physics 341 is desirable and concurrent enrolment in Physics 410 is recommended.

Physics 443 Integrated Electronics

A course in digital and high speed pulse electronics with application in instrumentation and digital systems. Topics discussed include: number systems and codes, combinational logic, sequential digital systems (synchronous and asynchronous), digital system components and high speed switching devices.

The course is of interest to students intending to undertake experimental work in any field of study and particularly to those with an interest in Computer Science.

Note: Previous enrolment in Physics 343 is desirable.

Physics 450 Quantum Theory

Relativistic quantum mechanics and spin, scattering theory, rotations and other symmetry operations, quantum theory of radiation; with applications in atomic, nuclear and particle physics. Previous enrolment in Physics 312 and 350 is desirable.

Physics 453 Nuclear Physics

The aim of this course is to present a unified picture of nuclear structure and interactions. The main topics discussed are the nucleon-nucleon interaction, nuclear matter and nuclear models, and nuclear reactions.

Note: Previous enrolment in third year nuclear physics courses and in Physics 350 is desirable, and concurrent enrolment in Physics 450 is strongly recommended.

†Physics 454 Elementary Particle Physics

Properties of the elementary particles as experimentally found and introduction to the theory of their strong electromagnetic and weak interactions; quantum field theory; cosmic rays; survey of current experimental and theoretical research approaches.

Note: Previous enrolment in Physics 350 and 353 is desirable, and students are recommended to enrol concurrently in Physics 450.

†Physics 455 Quantum Optics

Modern developments in the basic theoretical description of light fields and of optical phenomena. Statistical properties of light fields, coherence, photon detection, photo-electron counting and correlation with applications to very high resolution spectroscopy in light-scattering processes. The laser and non-linear optical phenomena.

Note: Previous enrolment in Physics 350 is desirable.

Physics 480-485 Selected Topics

Special Lectures

Short courses of lectures on special techniques and instrumentation relevant to research activities of interest to the Department will be given from time to time. These lectures are available to staff and students and do not form part of the MSc examination.

Physics 601 Thesis

An experimental or theoretical thesis is required, and will count as four papers. A list of thesis topics available is produced during the third term for the following year. Students with special research interests may include other suggestions for consideration. A suitable thesis programme will then be allocated by the Head of Department after discussion with the teaching staff concerned.

With the approval of the Head of Department the thesis may be submitted by February 1st of the year following first enrolment for the Master of Science degree provided that students have commenced work on the thesis in December of their Stage III year.

Theses will otherwise be expected to be completed by October 1st of the second year of enrolment. Extensions of time for a third year may be granted in *special* circumstances.

The Department is prepared to meet the cost of an additional copy of the thesis for the Departmental thesis library and students are asked to provide such a copy.

†This paper will not be taught during the current *Calendar* year unless sufficient staff is available.

Research in Physics

Facilities are available for postgraduate and postdoctoral research in Physics in a wide variety of fields. Further information is available from the Departmental Office.

The PhD degree in Physics normally requires about two and a half to three years full-time work. Part-time study is possible after the initial two years.

DEPARTMENT OF PHYSIOLOGY

Stage II

67.201 Introductory Physiology

(one paper and practical work)

An introductory course on cellular and organ physiology and relevant processes, particularly in mammalian systems. Topics are muscle, nervous system, motor control and sensory function; cardiovascular and respiratory systems and blood, with their exchange and transport functions; endocrine and reproductive systems, with humoral control of cell metabolism; alimentary system, digestion and absorption; kidney function; body fluids. There is little overlap with course 38.209/309 offered by the Zoology Department.

Lectures: Students will attend two lectures a week.

Laboratories: Students are required to attend practical classes of not less than three hours per week. Performance in laboratory work will contribute to the final grade for the course.

Prerequisites: Chemistry 08.100 or 08.101 or 08.102. 6 credits from any course in Biology or Zoology.

A maximum number will be determined by the available accommodation.

Stage III

*67.301 Systematic Physiology

(one paper and practical work)

This course examines specific aspects of physiology which demonstrate the integration of function from the level of the cell to that of the whole organism. Oxygen supply and demand, regulation of body fluids, cardiovascular control, body temperature regulation and determinants of function in the central nervous system are considered in depth. Special emphasis is placed on mammalian systems. Practical work complements the lecture course and provides training in a wide range of the techniques used in physiology.

Lectures: Students will attend two lectures a week.

Laboratories: Students are required to attend practical classes of not less than three hours per week. Performance in laboratory work will contribute to the final grade for the course.

Prerequisite: Physiology 67.201 and 12 or more credits from any science course at the Stage II or III level.

A maximum number will be determined by the available accommodation.

Not to be taught in 1981.

Physiology for MSc and Honours

(Two papers and a Thesis (67.621)).

67.401, 67.402

The study of selected fields of Physiology at an advanced level with detailed study of one particular field. The thesis will be based on a research project and will be the major feature of the year's work.

Students from other Universities must have completed Physiology III or the equivalent.

DEPARTMENT OF PSYCHOLOGY

Psychology for BSc

The prescriptions for Psychology courses are as prescribed for BA

Note: Zoology and Mathematics are useful subjects for students advancing in Psychology for degrees in Science. The Schedule attached to the Course Regulations for the Degree of BSc should be consulted for prerequisites and corequisites. The Science Faculty handbook contains further useful advice.

Psychology for MSc and Honours

[Four papers and a Thesis (32.601) which is equivalent to three papers.]

Students in consultation with the Head of Department will select four papers from among the following: 32.401-32.421. For prescriptions for papers 32.401-32.413 and 32.415-32.421 see Psychology for MA and Honours.

32.451 Physiological Optics

A review of selected areas of visual physiology.

32.452 Special Topic in Optometry

The special topic in 1981 will be the application of physiological optics to advanced techniques for determination of the refractive status of the eye.

32.453 Research Topic in Optometry

The research topic in 1981 will be cornea and contact lens research techniques.

DEPARTMENT OF ZOOLOGY**Stage I**

The first year course for students in Botany, Zoology or Biology comprises three 6-credit papers, Biology 101, (paper 39.101), Botany 102, (paper 6.102) and Zoology 102 (paper 38.102).

Biology 101 Central Concepts of Biology

An introductory course dealing with biological concepts common to animals, micro-organisms and plants; organic evolution; the biochemistry of macromolecules, especially nucleic acids and proteins; enzyme action and catalysis; cellular energetics; fundamental processes of ecosystems; population and community dynamics; genetic principles and mechanisms. This course may be taken as part of the Stage I requirement in either Botany or Zoology, but may not receive credit in both.

Zoology 102 Animal Evolution and Diversity

A survey of the evolution of animals, considering both the broad aspects of the evolutionary progression and detailed adaptations in physiology and anatomy to specific habitat and life history situations.

Biology for BA

This is a Stage I course for students who do not plan to take a science degree. The course is intended as a general survey of the biological sciences, with elementary chemistry, physics and mathematics being introduced as necessary. The course cannot be used as a prerequisite for advanced Botany or Zoology. Weekly attendance at one 2-hour laboratory is required. Enrolment is through the Zoology Department at the allotted time for the Science course.

Prospective students are advised to consult the Zoology Department prior to enrolment.

The two courses in the Biology for Arts series are taught in alternate years.

39.111 Unifying concepts in Biology

Given during the first half of the year 1981.

Cell Structure; Energy relationships; photosynthesis and respiration; Molecular Biology; control of synthesis of nucleic acids, proteins and macromolecules; Genetics: mechanisms of inheritance; Physiology.

***39.112 Biological Diversity and Function**

Given during the second half of the year 1982. Resume of the Plant and Animal Kingdoms, with emphasis on human importance. Principles of Ecology and Organic Evolution.

Advanced Courses**Zoology 201, 301 Non-chordate Zoology**

The classification, structure and functioning of the invertebrates. A wide range of phyla will be considered; less emphasis will be given to land arthropods. (Detailed treatment of these is given in 38.205-305).

***Zoology 202, 302 Chordate Zoology**

The evolution and biology of the hemichordates and protochordates and vertebrates from fish through to mammals. Particular emphasis is placed on the functional design of vertebrate animals and their adaptations to special environments.

The practical course includes the study of vertebrate animals in the laboratory.

Zoology 203, 303 Animal Orientation and Timing

Orientation mechanisms and biological timing. A study of the orientation behaviour involved

in habitat selection, migration, homing and predation in animals, with emphasis on the investigation of the mechanisms of these reactions using control systems analysis and sense organ physiology. The adaptive significance, nature and control mechanisms of biological clocks will also be studied in detail.

Zoology 204, 304 Social Behaviour of Animals

An evolutionary study of the behavioural ecology of social animals. Communication: evolution and ontogeny of signals, channels of communication, individual recognition, aggressive and courtship signalling; cultural transmission and dialect formation. Social structures: use of space, territories, hierarchies; mating systems, strategies of the sexes, monogamy, polygamy, co-operative breeding; kin groupings.

Zoology 205, 305 Entomology

The structure, evolution and systematics of the insects. An introduction to those terrestrial groups related to insects i.e. Onychopora, Myriapoda, and Arachnida, the basic structure and morphology of insects, and a systematic coverage of the insect orders. Applied Entomology.

Biology 207, 307 Biometry

Elementary statistical methods and concepts with particular emphasis on their application in biological research.

Zoology 209, 309 Comparative Physiology

Elementary concepts in Animal Physiology with emphasis on adaptation to environment. Respiration, neurophysiology, salt and water balance receive special attention. The practical course provides an introduction to methods and instrumentation of importance in biological experimentation. There is little overlap with course 39.221 offered by the Botany Department.

Biology 211 Population and Community Ecology

Elementary demography and models of population growth: population genetics with emphasis on the concepts of selection and fitness; two-species interactions, competition and predation; multispecies associations. The emphasis will be on experimental ecology of both plants and animals from a wide range of habitats. There will be a compulsory field course of one week during the first week of the May vacation 9-14 May 1981.

Biology 212, 312 Coastal Marine Biology

The biodivision of the seas: the habitat structure of New Zealand shores and immediate sublittoral, with particular reference to habits and zoning of macro-organisms; descriptive schemes of community space and the search for underlying physical and biotic parameters; coastal biogeography and tropical shore ecology; conservation and utilisation of the coastline. Practical work includes a 7-day field course to Whangarei Heads during the 2nd week of May vacation, and optional day trips.

Biology 39.213 New Zealand Vegetation

New Zealand vegetation since the break-up of Gondwanaland. Palynological studies of Pleistocene and Holocene vegetation. Alpine environments. Major forest types. Lowland swamp and coastal communities. Emphasis will be placed on autecological studies and the dynamics of the ecosystems described, including the role of native and introduced fauna. Practical work will include an experimental project and day field-trips to selected sites.

Zoology 310 Animal Morphogenesis

Aspects of the cellular structure, behaviour and biochemistry which relate to morphogenesis. Particular topics will be chosen in relation to interests of staff. Laboratory work will emphasise techniques and will include preparation of material for transmission and scanning electron microscopy.

Biology 311 Freshwater Ecology

Animal and plant freshwater communities, particularly of lakes and rivers: the physical and chemical environment; physiography of rivers and lakes; hydrology; pollution. Part of the course will consist of a field trip and a weekend field course during May vacation.

Biology 313 The Ecology and Biogeography of Terrestrial Ecosystems

Different types of ecosystems and the world's major biomes. Current controversies on diversity and stability in communities. Energy flow, trophic structure and the food web. Ecosystem integration through animal-plant-pathogen interaction. Nutrient cycling. Concepts of vegeta-

tion as discrete communities or continua. Ordination and classification techniques. Sampling. The Breakup of Gondwanaland. Climatic changes during the Pleistocene and Holocene. Holocene vegetation history in New Zealand and elsewhere and its bearing on the concept of climatic climax vegetation. Forest dynamics. Practical work will include a number of field trips and a one-week field course during enrolment week, with emphasis on forest ecology.

Biology 314 Applied Ecology

Principles and practice of pest control; resource management, including natural recreational resources, forests and fisheries; aspects of the conservation of natural ecosystems — the planning process; wildlife management.

Biology 316 Biological Oceanography

Characteristics of marine communities; the physical and chemical environment and primary production; marine algology; zooplankton and secondary production; characteristics of plankton, nekton, benthos and meiofaunas in shallow and deep seas. Practical work includes day or weekend field trips and several days of laboratory investigation.

Laboratory Work

One practical class each week for first year courses and two classes each week for advanced courses is the minimum requirement. The practical work will be assessed separately and the marks will be included in the marks schedule of the University. A pass both in the written examination and in the practical work is necessary. (BSc Regulation 7).

All research students are required to lodge a deposit of \$10 with the Department of Zoology before being granted access to equipment in the Department.

Zoology for MSc

(Three papers selected from 38.401-38.410 and a Thesis (38.601)).

This course normally requires from fifteen months to two years and necessitates full-time attendance. Students who propose to undertake the MSc Degree should consult the Head of the Department towards the end of the previous year. Students will take 38.401 and 2 other papers from those listed.

38.401 Evolution and Natural Selection

The Neo-Darwinian theory is appraised, wider and more deeply than at the undergraduate level. This study comprises two equal parts: considered in the first is the theory and, especially, the weaknesses in it, and in the second actual evolutionary changes within populations and species. Much of this study will be done through independent reading.

38.402 Comparative Physiology

Advanced topics of comparative respirometry and neurophysiology.

38.403 Marine Biology

Selected topics such as the distribution patterns of plankton, reproductive and larval strategies of marine animals, and the population dynamics of fish and benthic animals.

38.404 Entomology and Pest Management

(a) The functional anatomy and reproductive and life history strategies that make insects so varied and abundant, and

(b) modern views of pest management leading up to a review of integrated strategies.

38.405 Behavioural Ecology and Sociobiology

Selected topics on the evolution of sociality in animals, including man.

38.406 Southern Oceans' Biogeography

The geology and tectonics of the southern continents, the evolution of the circulation of the southern oceans, palaeoclimatology. Understanding of these phenomena is used to interpret the biogeography of the southern hemisphere lands with emphasis on the NZ region. Taught jointly with Botany and Geology.

38.407 Morphogenesis

Recent work on membrane structure, cellular adhesion, segregation and recognition is considered and related to the overall control of morphogenetic systems, i.e. what governs pattern formation during development.

38.408 Chronobiology

The study of biological clocks: their adaptive significance, location, chemical nature and mathematical models.

38.409 Physiological Control Systems

An introduction to control theory and its application to physiological systems. Taught jointly with Department of Physiology.

38.410 Community Ecology

A series of seminars leading to an understanding of community dynamics as exemplified by succession and island biogeography.

Postgraduate Research: MSc Thesis and PhD

Staff and facilities are available for Masters and PhD research in many areas of zoology, environmental biology and the interaction of plants and animals. Although much research is field oriented, of animals in natural and experimental situations, excellent facilities are also available for physiological and ultrastructural studies.

Research by staff covers such diverse interests as marine ecology, especially of the inshore communities; the behavioural ecology of both terrestrial and aquatic animals, with emphasis on sociality and communication; entomology and pest management; the physiology of nervous and respiratory systems; chronobiology, morphogenesis, ultrastructure and cellular and organ functions.

There runs through all studies the related themes of evolutionary change and adaptation, and of systematics and population dynamics. Encouragement is given to an experimental approach based soundly on statistical techniques.

Much of the marine research is done at the Leigh Marine Laboratory; studies of native birds and lizards occur throughout the Hauraki Gulf Islands.

The McGregor Museum

The museum is open daily from 10 am until 5 pm.

ENVIRONMENTAL STUDIES**Environmental Studies**

An inter-disciplinary undergraduate paper in Environmental Studies is offered at Stage II level. Responsibility for the administration of this paper has been assigned to the Department of Town Planning on a temporary basis until the end of 1981.

†84.200 Environmental Studies (4 credits)

Prerequisites: 24 Stage I credits or the equivalent from any Faculty, including six credits from the Science Faculty.

Introduction to global environmental problems of population, resources and pollution, with local illustrations through tutorials and field trips.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN CLINICAL PSYCHOLOGY

DipClinPsych

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Clinical Psychology shall

(a) have been admitted or qualified for admission to a Bachelor's degree of the University of Auckland and

(b) have satisfied the prerequisites for admission to a Master's degree in Psychology of this University.

2. Admission to the Course of study for the Diploma shall be at the discretion of the Senate on consideration of a recommendation from the Head of the Department of Psychology.

3. A candidate for the Diploma shall

(a) follow a Course of study of not less than three years

(b) concurrently follow a Course of study for a Master's degree in Psychology which shall include papers 32.403 and 32.409 and a thesis in the field of clinical psychology.

Course Content

4. The Course of study for the Diploma shall consist of two Parts

Part 1 32.500 (two years).

Lectures, laboratory work, and clinical instruction in the practice of psychology. Each candidate will be required to undertake a minimum of 12 hours per week during the first academic year and 15 hours per week during the second academic year of supervised clinical work with patients at the Department of Psychology or at any approved mental health institution (as may be required).

Part 2 32.501 (one year).

Practical work of not less than 38 hours per week within the psychology section of the Department of Justice, within the Department of Health, or within the Department of Psychology of the University.

5. No candidate shall be permitted to proceed to Part 2 until he has completed to the satisfaction of the Head of the Department of Psychology the work required for Part 1 of the course and has completed the requirements for a Master's degree in Psychology.

6. A candidate shall carry out to the satisfaction of the Head of the Department of Psychology such class, laboratory, clinical and practical work as may be required.

7. A candidate shall be deemed to have completed the requirements for the Diploma when he is awarded a pass on a final examination which shall include examination of a patient, the candidate's written report on the patient, and an oral examination.

8. These Regulations shall come into force on 1 January 1974.

DIPLOMA IN COMPUTATIONAL MATHEMATICS

DipCompMaths

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Computational Mathematics shall before enrolment for this Diploma

(a) have been admitted or have qualified for admission to a Bachelor's degree, and

(b) except where the Senate otherwise permits, have passed in the following courses as prescribed for the degree of BSc:

(i) Mathematics 220 or 221, 240 or 241

(ii) At least one of Mathematics 170, 180

(iii) Computer Science 230, 290, 390

(iv) One further paper in Computer Science or Applied Mathematics carrying at least four credits above Stage I.

2. A candidate permitted by the Senate to enrol for the Diploma without having fulfilled all the prerequisite requirements, may be required by the Senate to include all or any of the unfulfilled prerequisite as additional papers.

3. A candidate for the Diploma shall follow a Course of study of one year.

4(a) The Course of study for the Diploma shall consist of the following papers:

07.590 Studies in Computational Mathematics (weighting 6)

07.591 Exercises in Computational Mathematics (weighting 2)

07.592 Seminar in Computational Mathematics (weighting 1)

07.593 Project in Computational Mathematics (weighting 3)

(b) A candidate shall be required to pass as a whole the papers weighted respectively as shown in paragraph (a) of this Regulation.

5(a) The project (07.593) shall be delivered to the Registrar by 1 November, or later date approved by the Head of Department of Computer Science, of the year of the candidate's enrolment for the UDiploma.

(b) Save where the Senate extends the time, the requirements for the Diploma shall be completed within that year.

6. These Regulations shall come into force on 1 January 1980.

DIPLOMA IN ENERGY TECHNOLOGY (GEOTHERMAL)

DipEnTech (Geotherm)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Energy Technology (Geothermal) shall before his enrolment for this Diploma

(a) have been admitted or have qualified for admission to a Bachelors degree in science or engineering or

(b) have reached an equivalent level of attainment in science or engineering to the approval of the Senate.

2. Admission to the Course of study shall be at the discretion of the Senate on consideration of a recommendation from the Board of Studies, Geothermal Institute.

3. A candidate for the Diploma shall follow a Course of study of one year.

4. The Course of study for the Diploma shall consist of three parts. The Diploma shall be granted by examination.

Part I

A core paper in Geothermal Systems and Technology (86.100).

Part II

EITHER (a) Geothermal Exploration for Earth Scientists (86.101) and

(b) Geothermal Exploration Technology (86.102) OR

(c) Geothermal Production Technology (86.103) and

(d) Geothermal Energy Utilisation (86.104)

Part III

A project (86.606) on some aspect of Geothermal Energy

5. The project (86.606) shall be delivered to the Registrar by November 1 of the year of the candidates enrolment for the Diploma, or such later date as may be approved by Senate.

6. These Regulations shall come into force on January 1, 1979.

DIPLOMA IN MATHEMATICAL EDUCATION

DipMathEd

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Mathematical Education shall before enrolment for this Diploma have been admitted or have

qualified for admission to a Bachelor's degree, or have satisfied Regulation 2 of the Regulations for the Degree of Master of Arts or Regulation 2 of the Regulations for the Degree of Master of Science, and shall

(a) have passed in the following Mathematics courses (as prescribed for the Degree of BSc):

(i) Papers 220 and 221 and 240 or 241 and (ii) one other 200 level course in mathematics; or

(b) have to the satisfaction of the Senate reached an equivalent level of attainment.

2. A candidate for this Diploma shall follow a Course of study for one year full-time or two years part-time or for such longer periods (either full or part-time) as the Senate on the recommendation of the Head of the Department of Mathematics may require or permit.

3. (a) A candidate shall complete a Course of study approved by the Head of the Department of Mathematics consisting of papers having a total credit value of 24 credits selected from 300/400 or 500 level Mathematics papers. The selection must include a project, 26.500 which counts as four credits. At least 16 credits must be selected from papers 26.500-26.569

(b) A candidate who does not have an adequate knowledge of the major areas of secondary school mathematics will be required to make up the deficiency by attending an appropriate course or courses as directed by the Head of the Department of Mathematics.

4. A candidate shall deliver the project required in Regulation 3(a) to the Registrar by not later than 1 November in the year following the year of first enrolment, or by such later date as the Senate may in exceptional circumstances permit.

5. No candidates may present for this Diploma a paper which is the same or substantially similar in content to any paper he has already passed for any other Degree or Diploma.

6. These Regulations shall come into force on 1 January, 1980.

DIPLOMA IN OPTOMETRY

DipOpt

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Optometry shall follow a Course of study of not fewer than four years.

2. The subjects of examination for the Diploma in Optometry shall be:

Division I

(As prescribed for the Degree of Bachelor of Science).

Chemistry 101, 102

Physics 115, 125 or 110, 120

Zoology 102

Biology 101

Division II

Optics 44.201

Motility and Binocular Vision 44.202

Ocular Anatomy 44.203

Ocular Physiology 44.204

Clinical Optometry II 44.211

Introduction to Pathology 44.212

Introduction to General Psychology 32.108

Introduction to Experimental Psychology 32.109

Division III

Sensory Aspects of Vision 44.301

Applied Optics 44.302

Binocular Vision and its Anomalies 44.303

Ocular Pathology 44.304

Clinical Optometry III 44.311

Contact Lens Practice 44.312

Sensory processes: Physiological Psychology 32.207

One paper from 32.206, 32.208

Division IV

Advanced Physiological Optics 44.401
 Environmental Optometry 44.402
 Socio-Economic Optometry 44.403
 Clinical Optometry IV 44.411
 Pediatric Optometry 44.412
 Geriatric Optometry 44.413
 Clinical Practice 44.414
 Project 44.421
 The Design of Psychological Experiments 32.306

Note: Students who enrolled for this Diploma and passed 32.307 prior to 1981 will not be required to take 32.306

3. Project. A candidate taking Project 44.421 is required to submit not later than 1 November in the year he presents the other subjects in Division IV, or at a subsequent date approved by the Head of the Department of Psychology, a satisfactory dissertation on a clinical topic approved by the Head of the Department.

4. Except with the approval of Senate, a candidate for the Diploma shall not enrol: in the subjects of Division II unless he has passed in the subjects of Division I

in the subjects of Division III unless he has passed in the subjects of Division II

in the subjects of Division IV unless he has passed in the subjects of Division III.

5. In the subject Optometry the practical work shall be assessed separately for each candidate. A pass in both practical work and the written papers is necessary. The practical marks alone may, with the approval of the Senate, be credited to a subsequent year.

In Division IV each section of paper 44.414 shall be assessed separately, and a pass in each section shall be required for the paper as a whole to be passed. Paper 44.414 shall be passed in the same year as 44.411 for a pass in each to be credited.

6. A candidate who holds the Degree of Bachelor of Science and has been credited with psychology courses at Stage I, II and III, may, on payment of the prescribed fees under the Fees Regulations, be credited with the courses Psychology I and three courses at advanced levels in Psychology for this Diploma in addition to any papers (or subjects) which he may be entitled to transfer under Regulation 12 of the Enrolment and Course Regulations (General).

7(a) Except as otherwise provided in this Regulation the course of every candidate shall be governed by these Regulations.

(b) A candidate who passed in any unit under any of the former Regulations for this Diploma shall be credited with such equivalent papers or subjects as the Senate may determine.

DIPLOMA IN STATISTICS DipStats

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Statistics shall before enrolment for this Diploma have been admitted or have qualified for admission to a Bachelor's degree or have satisfied Regulation 2 for the Degree of Master of Arts or Regulation 2 of the Regulations for the Degree of Master of Science, and shall

(a) have passed in the following Mathematics courses (as prescribed for the Degree of BSc):

(i) Papers 220 or 221 and 240 or 241 and (ii) paper 280 or (before 1974) paper 381; or

(b) have reached an equivalent level of attainment to the approval of the Senate.

2. A candidate for this Diploma shall follow a Course of study for one year full-time or two years part-time or for such longer periods (either full or part-time) as the Senate on the recommendation of the Head of the Department of Mathematics may require or permit.

3(a) A candidate shall complete a Course of study approved by the Head of the Department of Mathematics on the recommendation of the Head of the Statistics Unit, consisting of papers:

having a total credit value of 20 credits selected from 300, 400 or 500 level papers in Mathematics and Computer Science and 300 or 400 level statistics papers in other subjects; together with a project, 26.580, which counts as four credits. At least 12 credits must be selected from papers 26.380, 26.381, 26.391 or 26.395, 26.480 to 26.489 and 26.581 to 26.589.

(b) A candidate who has no knowledge of computing shall be required to attend an appropriate course in computer programming.

4. A candidate shall deliver the project required in Regulation 3(a) to the Registrar by not later than 1 November in the year following the year of first enrolment, or by such later date as the Senate may in exceptional circumstances permit.

5. No candidate may present for this Diploma a paper which is the same or substantially similar in content to any paper he has already passed for any other Degree or Diploma.

6. These Regulations shall come into force on 1 January, 1974.

DIPLOMA COURSE PRESCRIPTIONS

DIPLOMA IN CLINICAL PSYCHOLOGY

The Course of study for this Diploma is designed to prepare the candidate for professional competence as a clinical psychologist.

The duration of the course is three years. Not more than five candidates may be admitted to the course for the first time in any one year. Candidates wishing to enrol should consult the Head of Department before 31 October preceding their first enrolment for the course.

Part 1 32.500 (two years)

In the first year candidates are required to complete papers 32.403 and 32.409 plus at least two other graduate papers; perform work supervised at the Department of Psychology; and visit as instructed.

In the second year candidates are required to complete the writing of their master's thesis to be submitted by the end of this year; and attend classes as required; and perform clinical work of no less than 15 hours per week at the Department of Psychology or another approved mental health institution.

Candidates wishing to take Part 2 in the following year should consult the Head of Department at the end of their second year in Part 1 of the course.

Part 2 32.501 (third year)

Practical work of not less than 38 hours per week in an approved mental health institution is required.

The final examination in the third year of the course will normally take place over two days towards the end of November.

DIPLOMA IN COMPUTATIONAL MATHEMATICS

Candidates for this diploma must have completed a Bachelor's degree and will normally have obtained passes in Computer Science 07.290 and Mathematics papers 26.220 or 26.221, 26.240 or 26.241 and at least one of 26.170 and 26.180. They will also normally have obtained passes in Computer Science papers 07.230, 07.390 and a further advanced paper in Computer Science or Applied Mathematics, although they may be permitted to complete some of the requirements while enrolled for the diploma. The course of study consists of a lecture course (07.590) together with practical work (07.591), participation in a Seminar series (07.592) and the completion of a project (07.593).

07.590 Studies in Computational Mathematics

Numerical methods in linear algebra, differential equations, optimisation, and related fields. The construction of algorithms for the efficient solution of computational problems.

07.591 Exercises in Computational Mathematics

Practical work in computer programming and the construction of Mathematical software.

07.592 Seminar in Computational Mathematics

To satisfy the requirements of this course, each candidate participates in the seminar series arranged by the Department of Computer Science and presents at least one seminar to the satisfaction of the Head of the Department of Computer Science.

07.593 Project in Computational Mathematics

An investigation, supported by computer work, of some approved topic in Computational Mathematics or of an application to some other subject.

DIPLOMA IN ENERGY TECHNOLOGY (GEOTHERMAL)

The Course of study for this Diploma is taught under the auspices of the Geothermal Institute which has been set up within the University of Auckland by special funding from the United Nations Development Programme and the New Zealand Government. Teaching will be carried out within the Faculty of Science and the School of Engineering by the academic staff, and by visiting lecturers from Government agencies and private organisations engaged in geothermal exploration and development.

Application for admission to this Diploma course must be made to the Board of Studies, Geothermal Institute by 1 August for entry to the course in the following year. The number of students accepted for the course will be restricted each year. For 1979 and 1980 the student intake will be confined to applicants from developing countries and from New Zealand.

Note: Any prospective student who has not passed the University Entrance Examination, who has been previously enrolled at a New Zealand University other than the University of Auckland, or who last attended an overseas university must apply for admission under the Provisional Admission, and Admission Ad Eundem Statum Regulations as defined elsewhere in the *Calendar*.

Part I will be the equivalent of two papers. The examination for the Diploma shall be in three parts and must be passed as a whole.

Part I

Geothermal Systems and Technology (86.100)

Scope of geothermal projects. Basic facts of geothermal systems. Introduction to geothermal exploration and technology. Reservoir engineering. Chemistry of thermal fluids. Economic, environmental and legal aspects. Case Studies.

Part 2

EITHER (a) Geothermal Exploration for Earth Scientists (86.101).

Petrology, secondary mineralisation and alteration. Drillhole logging. Geochemistry of geothermal fluids. Geophysical investigation of geothermal fields. Estimation and assessment of thermal field potential, and

(b) Geothermal Exploration Technology (86.102).

Planimetric and geological mapping techniques. Mapping and sampling of geothermal discharges. Geophysical prospecting techniques. Geochemical analysis. Drillhole logging techniques and instrumentation, **OR**

(c) Geothermal Production Technology (86.103).

Drilling techniques and completion tests, fluid transmission, thermodynamics and fluid mechanics of geothermal fluids, well operation and analysis, reservoir modelling and assessment, corrosion and deposition, materials for geothermal plant, and

(d) Geothermal Energy Utilisation (86.104)

Applied thermodynamics. Industrial, agricultural and domestic use of heat. Process heat. Power cycles and electricity generation. Waste disposal, land erosion, subsidence. Environmental effects of geothermal wastes. Environmental Impact Report preparation. Assessment of geothermal fields as undeveloped natural resources, tourist development, wilderness protection. Development planning and costing.

Part 3

A written project on some aspect of geothermal energy including some degree of original research by the candidate (86.606).

DIPLOMA IN MATHEMATICAL EDUCATION

Candidates for this Diploma must have completed or almost completed a Bachelor's degree and will normally have obtained passes in papers 26.220 or 26.221, 26.240 or 26.241 and one other 200 level paper in Mathematics. The course of study consists of papers having a total credit value of 24 credits selected from 30, 400 or 500 level Mathematics papers. The selection must include a project, 26.500 which counts as four credits. At least 16 credits must be selected from papers 26.500-26.569. The 500 level papers are listed below together with their credit values:

- 26.500 Project in Mathematical Education (4)**
- 26.505 Topics in the History of Mathematics (4)**
- 26.515 Mathematical Logic and the Philosophy of Mathematics (6)**
- 26.520 Elementary Algebra from an Advanced Standpoint (6)**
- 26.530 Elementary Calculus from an Advanced Standpoint (4)**
- 26.550 Elementary Geometry from an Advanced Standpoint (4)**
- 26.560 Advanced Studies of Topics in Elementary Mathematics (4)**
- 26.561 Studies in Applied Mathematics Education**
- 26.562 Topics in Mathematical Education A (4)**
- 26.563 Topics in Mathematical Education B (4)**
- 26.564 Special topics in Mathematical Education (6)**
- 26.565 Advanced topics in Mathematical Education (6)**

DIPLOMA IN OPTOMETRY

Department of Psychology

Optometry II

(Six papers and practical work).

44.201 Optics

(A knowledge of elementary optics will be assumed). A study of geometrical and physical optics with emphasis on lenses and lens systems; visual and ophthalmic applications.

44.202 Motility and Binocular Vision

The characteristics and control of ocular movements; accommodation and convergence; sensory aspects of binocular vision and space perception.

44.203 Ocular Anatomy

Gross and microscopic structure of the eye and its adnexa; the bony orbit; visual pathways and visual cortex; development and comparative anatomy of the eye.

44.204 Ocular Physiology

Activity of the various structures related to their function. Metabolic activity; synaptic transmission; maintenance of transparency and intraocular pressure.

44.211 Clinical Optometry

The theory, instruments and techniques of examinations of refractive error and visual functions.

44.212 Introduction to Pathology

Histological appearances of normal tissues; general theory of pathological processes.

Note: Students will be required to provide themselves with a number of ophthalmic instruments for their personal use throughout the course. The major items are a hand ophthalmoscope, retinoscope, Traquair targets, trial frame and focussing torch. Guidance will be given by the staff in the selection and purchase of suitable equipment, and of sundry additional small items which are required.

Optometry III

(Six papers and practical work).

44.301 Sensory Aspects of Vision

Physical and psychophysical description of the visual stimulus; photochemistry and electrophysiology of vision.

44.302 Applied Optics

A further study of lens systems with emphasis on the design of optical systems; the eye as an optical instrument; ophthalmic lens design.

44.303 Binocular Vision and its Anomalies

Abnormal sensory and motor aspects of binocular vision; associated anomalies of the central nervous system.

44.304 Ocular Pathology

The effects of pathological processes on the structures and functions of the eye; introduction to clinical recognition of abnormal ocular conditions.

44.311 Clinical Optometry

The principles of optometric examination and prescribing.

44.312 Contact Lens Practice

Clinical aspects of contact lens fitting techniques. Complications of contact lens wearing; contraindications.

Optometry IV

(Seven papers, and minor research project).

44.401 Advanced Physiological Optics

Nature and distribution of refractive errors; theories of emmetropization; ocular genetics. Application of contemporary research in physiological optics to clinical optometry.

44.402 Environmental Optometry

The design of the visual environment and its effects on visual efficiency, productivity and safety; occupational hazards and eye protection; principles of illuminating engineering, light sources, glare, lighting for special tasks.

44.403 Socio-Economic Optometry

Socio-economic aspects of optometric practice. Relationships between the practitioner, patient and allied professions.

44.411 Clinical Optometry IV

Special techniques of examination; investigation of visual fields; correction of aniseikonia; analysis of clinical findings.

44.412 Paediatric Optometry

The clinical examination of motility and binocular vision; recognition, classification and treatment of strabismus; special examination techniques for children.

44.413 Geriatric Optometry

Age changes in the eye. Clinical management of the ageing eye — criteria for referral; management of low visual acuity.

44.414 Clinical Practice

Practical aspects of optometrical examination.

44.421 Project

A minor investigation into a topic in physiological optics or optometry.

DIPLOMA IN STATISTICS

This diploma is available to students who have completed or almost completed a Bachelor's degree, and have obtained passes in Mathematics papers 220, 240 and 280, or their equivalents. The course of study is tailored to fit individual student needs and is made up of papers having a total credit value of 20 credits selected from 300, 400 or 500 level papers in statistics, operations research, computer science and mathematics, and relevant papers offered by other departments, together with a project, 26.580. Candidates may complete the course in one year's full-time study or else spend two or more years on a part-time basis. Details are available from the mathematics department and the Diploma Course Regulations in this calendar should be consulted. The 500 level papers are listed below together with their credit values:

26.580 Project in Statistics (4)**26.581 Topics in Statistics (4)****26.582 Special Topics in Statistics (4)****26.583 Further Topics in Statistics (4)**

CERTIFICATE REGULATIONS

CERTIFICATES IN THE PRINCIPLES AND PRACTICE OF RADIO-CHEMISTRY

08.350 Elementary Certificate

The course for this Certificate involves ten lectures and eleven laboratory classes each of three hours' duration.

Candidates may attend laboratory classes once a week in the first half year, once a week in the second half year, or by arrangement. No student may enter the laboratory unless he is wearing an approved form of eye protection.

The course is designed to suit the needs of chemists and biologists who anticipate working with tracer quantities of radio-isotopes. Topics covered include:

Counting methods

Counting statistics

Handling radioactive substances

Source preparation

Radiological safety

Three channel beta scintillation spectrometer

Gas-liquid chromatography of volatile beta-emitting substances

Examinations: Candidates will be assessed on their practical work together with a written test.

Prerequisite: 08.210, but students having need of radiochemical techniques may be admitted to 08.350 without having passed 08.210 upon obtaining the approval of the Head of the Chemistry Department.

A knowledge of Physics to about first year standard will be assumed.

08.351 Advanced Certificate

The course for the Advanced Certificate is intended to be taken in the same year as, or in a subsequent year to the Elementary Certificate. The course involves ten lectures given in the second half year, together with eleven laboratory classes each of three hours' duration. Candidates offering both Elementary and Advanced Certificates in the same year must attend the laboratory once each week throughout the session. No student may enter the laboratory unless wearing an approved form of eye protection.

Candidates offering the Advanced Certificate only may attend the laboratory by arrangement. The course is designed to give a more detailed knowledge of radiochemical procedure. Topics covered include:

Gamma spectroscopy

Neutron activation

Radio-isotope generators

Radiochemical analytical procedures

Radiochemical synthesis

Applications

Examinations: Candidates will be assessed on their practical work together with a written test.

Prerequisite: 08.350 (**Note:** 08.350 may be taken in the same year).

A knowledge of Physics to about first year standard will be assumed.

THE DEGREE OF BACHELOR OF COMMERCE

BCom

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

Admission

1 (a) Admission to any paper in Part I of the Course of Study in Commerce shall be at the discretion of the Senate. Application for admission shall be made to the Registrar in writing before 10 January, or such other date as the Senate may determine, of the year in which the applicant proposes to enrol.

(b) Admission to any paper in Part I shall be granted or withheld upon a consideration of the past performance of the applicant at school and in university and public examinations, and upon an interview where this is required.

Minimum Time for Degree

2. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Commerce shall follow a course of study of not fewer than three years.

Definition of a Paper

3. In these Regulations a paper means an examinable part of one year's work in a subject. Papers are classified in three Stages, I, II, III, prescribed for this Degree in the Schedule to these Regulations.

Course Content

4. Every candidate in his Course of Study for this degree

(a) shall comply with the requirements specified below for Part I and Part II;

(b) shall comply with the requirements specified in the Schedule to these Regulations.

Part I

5. Except as provided elsewhere in these Regulations, for Part I a candidate shall be required

(a) to pass in two papers selected from

Mathematics, Applied 26.180, 26.181

Mathematics, Pure 26.120, 26.122, 26.140, 26.142

Computer Science 07.100, 07.105

Economics 13.102;

(b) to pass the following Stage I papers

Accounting 01.100, 01.101 or 01.102; 01.103

Commercial Law 02.100

Economics 13.100, 13.101; or 13.103, 13.104;

Order of Presenting Course

(c) before taking any other paper for Part I of this degree, to pass or enrol concurrently in the papers in paragraph (a) of this Regulation;

(d) before taking any paper for Part II of this degree, to pass or enrol concurrently in the papers in paragraph (b) of this Regulation: provided that the Senate may waive the requirements of paragraph (c) or paragraph (d) of this Regulation for a candidate

(i) who has been admitted or qualified for admission to a degree of this University; or

(ii) enrolled, under Regulation 13 (1) of these Regulations, conjointly for this degree and the Degree of Bachelor of Arts or the Degree of Bachelor of Science; or

(iii) enrolled conjointly for this degree and the Degree of Bachelor of Laws.

Part II

6. (a) Except as provided elsewhere in these Regulations, for Part II a candidate shall be required to pass no fewer than thirteen papers, including no fewer than three Stage III papers selected from the subjects Accounting, Economics, and Management Studies;

(b) A candidate may include as one, two, or three papers for this degree one, two, or three papers not already passed for this degree from any subject prescribed for any other degree of this University; provided that (i) for Science courses to be available for credit under this clause each such Science course must carry a minimum of four credits in the Schedule to the Regulations for the degree of BSc, and (ii) for the purpose of this Regulation, Science courses

carrying lesser credit may be aggregated with other Science courses from the same stage of the same subject.

Maximum Course Load

7. Except with the permission of the Senate no candidate shall take in any one year more than eight papers for this Degree.

Direct Entry

8. (a) Notwithstanding anything in Regulations 4, 5 and 6 of these Regulations a candidate may with the leave of the Senate take Stage II papers of any subject to which this Regulation applies without having passed Stage I. If a candidate passes a Stage II paper in a subject he shall not be credited with any prerequisite Stage I paper of that subject. If the examiner certifies that the candidate though failing a Stage II paper attained the standard of a pass in a Stage I paper the candidate shall be credited with a pass in a Stage I paper of that subject.

(b) This Regulation applies to the following subjects

Accounting
Economics
Mathematics

Credits

9. (1) (a) A candidate who has passed for another Degree of this University two Stage II level papers in Pure Mathematics or equivalent and has passed papers 13.200 and 13.201 of Economics shall be credited with papers 13.100 and 13.101 of Economics, on payment of the fees required by Regulation 12 of the Enrolment and Course Regulations (General)

(b) A candidate who, for the Degree of Bachelor of Engineering, has passed Engineering Mathematics I and Engineering Mathematics II shall be credited with Mathematics 26.240 and 26.360 on payment of the fees required by Regulation 12 of the Enrolment and Course Regulations (General)

Provided that the total credits granted to a candidate under paragraphs (a) and (b) of this clause of this Regulation and Regulation 12 of the Enrolment and Course Regulations (General) shall not exceed eight.

(2) A candidate who, for the Degree of Bachelor of Engineering, has been exempted from the Intermediate Examination shall be exempted without credit from Mathematics 26.122 and 26.142.

10. A candidate for this degree who abandoned another course of study and passed in a paper listed in the Schedule to these Regulations without receiving credit for that paper for any degree or diploma, may be credited with that paper for this degree.

11. (1) Notwithstanding anything elsewhere in these Regulations a candidate who has qualified with merit for the New Zealand Certificate of Commerce in Accountancy, or who has completed the Professional Examination in Accountancy, or who has passed with merit in at least six subjects of the Professional Examination in Accountancy, may be admitted by the Senate to the course for this Degree with credit for Accounting 01.100, 01.101, Commercial Law 02.100 and 02.200 and two other unspecified papers provided he pays the fees required by Regulation 12 of Enrolment and Course Regulations (General).

(2) A candidate who has completed the Diploma in Business and Industrial Administration shall be credited with Management Studies 72.200, Economics 13.103 and two unspecified papers on payment of the fees required by Regulation 12 of the Enrolment and Course Regulations (General).

BCom/LLB, BCom/LLB (Hons)

12. (1) A candidate who

(a) for this degree or for the Degree of Bachelor of Laws or Bachelor of Laws (Honours), has passed the following papers

(i) two papers selected from
Mathematics, Applied 26.180, 26.181
Mathematics, Pure 26.120, 26.122, 26.140, 26.142
Computer Science 07.100, 07.105
Economics 13.102;

(ii) Accounting 01.100 and 01.101;

(iii) Economics 13.100, 13.101; or 13.103 and 13.104; and

- (b) for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) has passed
- (iv) Legal System 25.103;
- (v) Law of Contract 25.105;
- (vi) Commercial Law 25.204 or Advanced Commercial Law 25.302;
- (vii) Company Law and Partnership 25.208 or Company Finance 25.309;
- (viii) Industrial Law 25.212;
- (ix) Income Tax 25.221; and
- (c) for this degree has in addition passed no fewer than eight Stage II or Stage III papers (including no fewer than three Stage III papers from the subjects Accounting, Economics, and Management Studies) selected from those specifically listed in the Schedule, in the subjects Accounting, Economics, Management Studies, Psychology, Mathematics and Computer Science, shall be deemed to have satisfied the requirements for this degree.
- (2) The papers so credited to this degree under this Regulation shall be admitted as cross-credits, exemptions, or additional cross-credits as the case may be for the purpose of Regulation 12 of the Enrolment and Course Regulations (General).

BCom/BA, BCom/BSc

- 13(1) A candidate whose academic record is, in the opinion of the Dean of the Faculty of Commerce, of sufficiently high standard, may, with the permission of the Senate, be admitted to a conjoint course of study for this Degree and the Degree either of BA or of BSc (in this Regulation called "a conjoint course").
- (2) Admission to a conjoint course of study shall be either at the beginning of that course or immediately after the first year of academic study either for this Degree or the Degree of BA or of BSc.
- (3) A candidate taking a conjoint course shall be required to re-enrol for it, with the permission of the Dean of the Faculty of Commerce and of the Dean of the other Faculty concerned, in each year after the year of first enrolment (so that a continuous enrolment is maintained).
- (4) A candidate who has taken a conjoint course and who
 - (a) has passed for the Degree of Bachelor of Arts or the Degree of Bachelor of Science the following papers.
 - (i) Two papers selected from
Mathematics, Applied 26.180, 26.181
Mathematics, Pure 26.120, 26.122, 26.140, 26.142
Computer Science 07.100, 07.105
Economics 13.102
 - (ii) Economics 13.100, 13.101; or 13.103, 13.104; and
 - (b) for Part I of this degree has passed
 - (i) Accounting; 01.100; 01.101 or 01.102; 01.103
 - (ii) Commercial Law 02.100; and
- (c) for Part II of this degree has passed no fewer than seven Stage II or Stage III papers selected from those specifically listed in the Schedule, in the subjects Accounting, Commercial Law, Economics, Management Studies, Psychology, Mathematics and Computer Science, including no fewer than three Stage III papers selected from the subjects Accounting, Economics, and Management Studies; and
- (d) has completed the requirements for either the Degree of Bachelor of Arts or the Degree of Bachelor of Science, shall be deemed to have satisfied the requirements for this degree.
- (5) The papers so credited to this degree under this Regulation shall be admitted as cross-credits, exemptions, or additional cross-credits as the case may be for the purpose of Regulation 12 of the Enrolment and Course Regulations (General).

Elective Papers

- 14. Except as provided in Regulation 6(b), a candidate wishing to take for this Degree any unit, course or paper which is also prescribed for any other degree, shall comply with such of the Regulations for each of those Degrees as apply to that unit, course, or paper.
- 15. No candidate shall take a subject, unit or paper the same as or substantially equivalent to any other subject, unit or paper, and obtain credit for both for this degree.

Savings and Transitional Provisions

16. (1) Except as otherwise provided in this Regulation the course of study of every candidate shall be governed by these Regulations.
2. A candidate who passed under any of the former Regulations for this degree in any unit of which the papers are also papers under these Regulations shall be credited with passes in those papers under these Regulations provided that the Senate is satisfied that the prescription in any such paper is at least the equivalent of that prescribed under these Regulations.
- (3) A candidate who enrolled for the degree before 1971 may be permitted by the Senate to complete the requirements for the degree by following a prescribed Course of Study.
- (4) The Senate may, in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.
17. These Regulations shall come into force on 1 January, 1977.

Schedule

1. This schedule sets out paper numbers, prerequisites, corequisites, restrictions and other conditions applying to papers for the Degree of Bachelor of Commerce.
2. The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the *Calendar*.
3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.
4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.
5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.
6. A candidate may not take a further stage of a subject until he satisfies all prerequisite and corequisite requirements for that stage of the subject.

ACCOUNTING

Note: A requirement for the granting of terms to candidates presenting papers in Accounting is the completion of assignments to the satisfaction of the Head of the Department of Accountancy (see General Statutes and Regulations, Terms).

ACCOUNTING — Stage I

01.100	Introduction to Accounting (a)	
01.101	Introduction to Accounting (b)	01.100
01.102	Financial Accounting	01.103
01.103	Management Accounting	01.102

ACCOUNTING — Stage II

01.200	Financial Accounting	01.100
01.201	Accounting for Special Entities	01.100
01.202	Cost & Management Accounting	01.101 or 01.102 and 01.103.
01.203	Accounting Systems & Data Processing	01.101
01.204	Public Sector Accounting	01.100

ACCOUNTING — Stage III

01.300	Financial Accounting	01.200
01.301	Auditing	01.200 01.203
01.302	Cost & Management Accounting	01.202
01.303	Investment Analysis & Planning	01.200 or 01.102; 01.103 and 01.202
01.304	COBOL Programming and Systems Analysis	01.203

COMMERCIAL LAW

Note: A requirement for the granting of terms to candidates presenting papers in Commercial Law is the completion of assignments to the satisfaction of the Head of the Department of Accountancy (see General Statutes and Regulations, Terms).

COMMERCIAL LAW — Stage I

02.100 Introduction to Law

COMMERCIAL LAW — Stage II

02.200 Contract Law 02.100

02.201 Finance Law 02.100 02.200

COMMERCIAL LAW — Stage III

02.300 Company Law and Partnership 02.200

02.301 Taxation and Estate Planning 02.200

02.302 Industrial Law 02.200

02.304 Law of Marketing and Overseas Trade 02.201

02.300 is not available to a candidate who has passed Commercial Law prior to 1969.

COMPUTER SCIENCE**COMPUTER SCIENCE — Stage I**

07.190 Introduction to Algorithmic Processes (Not taught after 1981) 07.191

07.100; 07.105
26.190

	<i>Title of paper</i>	<i>Prerequisites</i>	<i>Corequisites</i>	<i>Restrictions</i>	<i>Qualifications</i>

26.122	Finite Mathematics			26.120, 26.121, 26.221	
26.140	Principles of Calculus			26.141, 26.142, 26.241	
26.142	Concepts of Calculus			26.140, 26.141, 26.241	

MATHEMATICS, PURE — Stage II

One or two papers from courses as prescribed for BSc

At the discretion of Head of Department of Mathematics

MATHEMATICS, PURE — Stage III

One, two or three papers from courses as prescribed for BSc

At the discretion of the Head of Department of Mathematics

ELECTIVE PAPERS — any Stage

One, two or three papers as prescribed for any other Degree not already taken for this Degree.

The Head of Department of the subject concerned may require the candidate to pass in a paper or course as prescribed for any other Degree.

PSYCHOLOGY**PSYCHOLOGY — Stage II**

†32.210 Psychology for Commerce

Students who have passed 32.110 or 32.204 may not take 32.210.

*This paper will not be taught in the current *Calendar* year.

†This paper may not be taught during current *Calendar* year unless sufficient staff is available.

THE DEGREE OF MASTER OF COMMERCE

MCom

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations. Students not qualified to enrol for MCom by reason of Clause 1 (a) of these Regulations may be permitted to enrol for MPhil.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Commerce shall before his enrolment for this Degree

(a) have been admitted or qualified for admission to the Degree of Bachelor of Commerce, and (b)(i) have fulfilled the prerequisites for his subject as shown in the Schedule to these Regulations, and

(ii) have obtained a grade higher than C— in each Stage III paper in the subject which he proposes to take for this Degree,

provided that, in special circumstances where the Head of Department so recommends, the Senate may for the respective purposes of this Subclause (b) of this Regulation, waive such preconditions as it thinks fit.

2. A candidate shall be required to fulfil the requirements of and pass the examination in one of the subjects prescribed in the Schedule.

3. Notwithstanding anything in Regulation 2, a candidate for this Degree may with the permission of the Senate take

(i) one Stage III or one Master's paper or (ii) one Stage III and one Master's paper, or (iii) two Master's papers, in a subject other than the one in which he is taking his Degree, if each such paper is related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the Degree is being taken.

4. No candidate shall take for this Degree any paper the same as or substantially equivalent to any other paper he has passed or is taking and obtain credit for both for this Degree.

5. A candidate shall not take for this Degree a subject in which he has already passed for the Degree of Master of Arts or the Degree of Master of Philosophy.

6. Except as provided in the Schedule a candidate shall take all papers required for this Degree in the same year.

7. Subject to Regulation 9(d), a candidate shall complete the requirements for this Degree within twenty-four months of his first enrolment for the Degree.

Honours

8(a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) To be eligible for the award of Honours a candidate shall pass no fewer than four papers in the first year of enrolment for this Degree.

(c) Honours shall not be awarded if the papers in the first year in which a candidate sits an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory, provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or exceptional circumstances beyond his control (certified as under the Aegrotat Pass or Compassionate Pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to present himself at a subsequent written examination and still be eligible for the award of Honours, subject to the provisions of Regulation 7 above, and to Regulations 8 and 9 of the Examination Regulations.

Thesis

9(a) A thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.

(b) A thesis may be presented in the first year of enrolment for this Degree only with the approval of the Head of Department concerned.

(c) A candidate may enrol for a thesis in any year subsequent to the first year of enrolment for this Degree only if he obtains an average grade of at least B — in the papers sat in the first year.

(d) A candidate shall present his thesis not later than twenty-four months after his first enrolment for this Degree, provided that this period may be extended by the Head of Department concerned for not more than one year and in exceptional circumstances for longer by the Senate.

(e) If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to represent it subject to Regulation 9 (d) above by a later date specified by the Head of Department.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Personal Course of Study

10. The personal Course of study of a candidate shall require the approval of the appropriate Head of Department.

11. The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

Savings and Transitional Provisions

12(a) Except as otherwise provided in this Regulation the course of every candidate shall be governed by these Regulations.

(b) A candidate enrolled for this Degree under the Regulations published in the 1974 *Calendar* may complete the Degree under those Regulations or he may elect to transfer to the present Regulations. A candidate electing to transfer to these Regulations shall not be permitted to present papers which in the opinion of the Head of Department concerned contain a substantial portion of work included in papers for which the candidate has received credits.

13. These Regulations shall come into force on 1 January, 1975.

SCHEDULE

(1) Accounting

Prerequisites: Eight papers in the subject Accounting including three Stage III papers.

Requirements: Six papers; or four papers and a thesis (01.601) which shall count as two papers; or five papers and a research essay (01.603) which shall count as one paper.

To be eligible for honours a candidate shall pass no fewer than four papers in the first year of enrolment for this degree. A candidate not seeking honours may enrol for a minimum of three papers in the first year.

The papers shall be selected from 01.400 to 01.414 and 02.400 to 02.406.

Provided that a candidate may, with the approval of the Head of the Department, substitute for one or two Accounting papers for this Degree advanced papers not already taken by him from those prescribed for the Degree of Bachelor of Commerce in either Accounting or Commercial Law or both as follows:

Two advanced BCom papers for one paper for this Degree; three advanced BCom papers for two papers for this Degree; and further provided that a candidate substituting in terms of this clause is not eligible for the award of Honours.

(2) Economics

Prerequisites: Eight papers in the subject Economics including three Stage III papers.

Requirements: Six papers; or four papers and a thesis (13.601) which shall count as two papers; or five papers and a research essay (13.603) which shall count as one paper.

The papers shall be selected from 13.400 to 13.413.

Notwithstanding anything in Regulation 6, a candidate presenting five papers and a research essay or six papers shall either present all papers or all papers and the research essay in the same year or, having presented four papers in the first year, present the remaining two papers or the one paper and research essay in the year next following.

(3) Management Studies

Prerequisites: Eight papers in the subjects Management Studies, Accounting or Economics including any two Stage III Management Studies papers.

Requirements: Five papers and a research essay (72.603) which counts as one paper or four papers and a thesis (72.601) which counts as two papers. The papers shall be selected from 72.400 to 72.415.

In special circumstances and with the permission of the Head of Department, a candidate may present five papers and a research essay or four papers and a thesis in the first year of enrolment for this degree. Notwithstanding anything in Regulation 6, a candidate presenting five papers and a research essay shall either present all papers in the first year or, having presented four papers in the first year, present the remaining one paper and the research essay in the year next following.

DEGREE COURSE PRESCRIPTIONS

DEPARTMENT OF ACCOUNTANCY

ACCOUNTING I

01.100 Introduction to Accounting (a)

Basic financial accounting method including an introduction to external reporting.

01.101 Introduction to Accounting (b)

Introduction to accounting theory, management accounting and the design and operation of business information systems.

01.102 Financial Accounting

Basic concepts and techniques in business accounting and financial management.

01.103 Management Accounting

Budgeting and cost accounting for business planning, control and capital expansion.

ACCOUNTING II

01.200 Financial Accounting

Company accounting and finance.

01.201 Accounting for Special Entities

Trust accounting; farm accounting; and other selected topics..

01.202 Cost and Management Accounting

Budgetary and standard cost control systems, internal control and divisional performance appraisal.

01.203 Accounting Systems and Data Processing

Accounting systems for information and control, commercial data processing and computer programming.

01.204 Public Sector Accounting

Central, regional and local government accounting and finance including the accounts of government trading corporations and other statutory bodies.

ACCOUNTING III

01.300 Financial Accounting

Contemporary issues in financial accounting theory and practice.

01.301 Auditing

01.302 Cost and Management Accounting

Accounting for planning, decision-making and control.

01.303 Investment Analysis and Planning

Corporate investment for risky investments, capital structure and dividend policies, corporate financing and management of assets.

01.304 COBOL Programming and Systems Analysis

Introduction to Commercial Computer Programming and the theory and techniques associated with the analysis and design of commercial computer applications.

ACCOUNTING FOR MCOM AND HONOURS

The requirements for the MCom degree are six papers, or five papers and a research essay, or four papers and a thesis. To be eligible for honours a candidate must take at least four papers in the first year and satisfy the remaining requirements during the following year. A candidate not seeking honours may enrol for a minimum of three papers in the first year and three papers in the following year. (Refer course regulations).

01.400 Accounting Theory

01.401 Financial Accounting

01.402 Management Accounting

- 01.403 Concepts of Capital and Profit
- 01.404 History of Accounting Thought
- 01.405 Accounting Information Systems
- 01.406 Behavioural Aspects of Accounting
- 01.407 Budgetary Control
- 01.408 Special Topic
- 01.409 Special Topic
- 01.410 Evaluation of Accounting Information
- 01.411 Special Topic
- 01.412 Special Topic
- 01.413 Management Decision Making and Control in the Government Sector.
- 01.414 International Accounting
- 01.601 Thesis

01.603 Research Essay

02.400 Selected Legal Problems

02.401 Taxation

02.402 Forensic Accounting

02.403 Law of Marketing

02.404 Special Topic

02.405 Special Topic

02.406 Export Law

An examination of those aspects of law and accounting which impinge on the activities of New Zealand exporters with particular reference to: the formation and construction of international contracts of sale and carriage; export documentation and finance; representation and marketing overseas and the taxation advantages available to exporters.

Note: There is no guarantee that all these papers will be available to students during the current Calendar year. Students intending to read for MCom should consult the staff toward the end of the previous year about preliminary vocational reading.

COMMERCIAL LAW I

02.100 Introduction to Law

An introduction to the New Zealand legal system.

COMMERCIAL LAW II

02.200 Contract Law

The principles of the law of contract and of agency.

02.201 Finance Law

Legal methods of raising and securing finance, including chattel mortgages, agreements for hire purchase and sale of goods, suretyship, insurance, and negotiable instruments.

COMMERCIAL LAW III

02.300 Company Law and Partnership

The general principles of company law and partnership in New Zealand.

02.301 Taxation and Estate Planning

The general principles of the law and practice of land and income tax, property speculation tax, estate and gift duties and estate planning.

02.302 Industrial Law

Legal problems in industry, business and professional practice.

02.304 Law of Marketing and Overseas Trade

The law relating to the marketing of goods inside New Zealand and for the export market.

DEPARTMENT OF COMPUTER SCIENCE

For Prescriptions see under BSc

DEPARTMENT OF ECONOMICS

ECONOMICS I

Note: Papers 13.100 and 13.101 are for students who wish to advance beyond Stage I in Economics. Mathematics up to University Entrance level will be assumed. All other students are advised to take Papers 13.103 and 13.104.

13.100 Microeconomics

The economic activity of individuals, households and business firms, covering markets and prices, demand, supply and distribution.

13.101 Macroeconomics

The economic activity of the complete national economy and its interrelationship with the rest of the world, covering the measurement and level of economic activity, money, banking and prices, government economic policy and international trade.

13.102 Statistical Methods

An introduction to statistical reasoning and its applications in business and economics. Probability, distributions, statistical estimation and decision-making.

13.103 Principles of Economics

Basic principles of the economic behaviour of individuals, households and business firms and of the complete national economy and its interrelationships with the rest of the world.

13.104 Applied Economics

The application of basic principles of economics to selected New Zealand policy issues including trade, unemployment, inflation, regional development, local authority reorganisation and finance, population and the environment.

ECONOMICS II

13.200 Microeconomics

The economic behaviour of individuals, firms and industries. The course consists of theory and of selected applications in about equal proportions.

13.201 Macroeconomics

A study of the determination and interaction of basic macroeconomic variables like output, employment, the money supply, and the price level.

13.203 Managerial Economics

A survey of the use of applied micro-economic techniques for solving management problems.

13.204 Public Economics

The study of the public sector's expenditures and revenues and their impact on income distribution. Particular policy issues in New Zealand such as education, poverty and pollution will be studied.

13.205 Introduction to Econometrics

An introduction to model building and research methodology in economics. Selected empirical topics in both micro- and macroeconomics will be studied.

13.210 The Industrialisation of Britain to 1870

An introductory economic history of the first country to undergo industrialisation.

The theory of value and distribution from both neo-classical and Marxist perspectives. Topics include sectoral models, factor markets and NZ case studies.

13.301 Macroeconomic Theory and Policy

Employment and output theory; money; models of growth and fluctuations.

13.302 Econometrics***13.303 Operations Research****13.304 International Trade****13.305 Financial Economics**

Microeconomic theory extended to cover time, uncertainty, taxation, transaction costs, and such legal entities as companies.

13.306 Classical, Marxist & Modern Economic Ideas

An introduction to the history of economic ideas and to comparative economics.

13.307 Public Expenditure

Welfare economics, social policy and public sector pricing and investment decisions.

13.308 Economics of Labour**13.309 Special Topic**

To be prescribed by the Head of Department.

13.310 Economic History of Australia and New Zealand***13.312 Special Topic****13.313 Management and Enterprise in the British Economy 1750-1939****ECONOMICS FOR MA, MCOM AND HONOURS**

Note: Except by permission of the Head of the Department no candidate shall take the subject Economics unless he has passed either 13.300 or 13.301 for Economics III.

Candidates who propose to take paper 13.402 must consult the lecturer in charge regarding Mathematics papers to be taken in the Bachelor's degree course.

Students intending to take any of the Honours papers should see the Head of the Department before the end of the previous year for advice on combinations of papers and reading lists.

13.400 Growth and Fluctuations**13.401 Monetary Theory****13.402 Econometrics****13.403 Operations Research****13.404 Development and Planning****13.405 Public Economics****13.406 The History of Economic Thought****13.407 Comparative Economics: Primitive, Peasant, Industrial and Socialist Economies****13.408 Urban Economics****13.409 Mathematical Programming**

13.410 Special Topic

To be prescribed by the Head of the Department.

13.411 Special Topic

To be prescribed by the Head of the Department.

13.412 Economic Forecasting

13.413 Special Topic

To be prescribed by the Head of the Department.

13.601 Thesis

13.603 Research Essay

Note: There is no guarantee that all these papers will be available to students during the current Calendar year.

DEPARTMENT OF MANAGEMENT STUDIES

Management Studies emphasises the integration of the specialised functional disciplines which are common to both public and private enterprises. The systematic processes of management are policy-making, planning, organising, executing and controlling the overall activities so that performance meets or exceeds pre-set objectives.

MANAGEMENT STUDIES II

72.200 Organisational Studies

A behavioural and structural analysis of organisations, and the management of human resources in support of organisational aims.

72.201 Marketing Management

Factors affecting demand in various types of markets and methods of satisfying it through product planning, pricing, promotion, distribution and general organisation and strategy.

72.202 Management Science

An introduction to mathematical, statistical and computer techniques to assist decision-making, planning and policy formation in the public and private sectors, including applications to financial, marketing and operations management.

72.203 Organisational Structures

The study of organisational structures for differing tasks and environments. Flows of work, material, information and decisions. Formal and informal communications. Organisational design.

72.204 Organisational Behaviour

Individual and group behaviour in organisations.

72.220 Transaction Processing

Methods of document processing, record-keeping, and control for computer and supporting clerical systems.

72.221 Programming Laboratory

Practice and experimentation in the use of a major business programming language.

MANAGEMENT STUDIES III

72.300 Policy Studies

Formation of strategy and policies to reconcile external demands and opportunities with internal capabilities of an enterprise.

72.301 Consumer Behaviour

A review of behavioural science concepts applicable to complex consumer behaviour. Application of these concepts in case material.

72.302 Operations Management

Planning, organisation and control of manufacturing and other processes for the production of goods and services.

***72.303 Industrial Relations Theory**

Development of industrial relations theory and of theories of collective bargaining. Managerial ideologies and their impact on industrial relations behaviour. Trade unionism and ideologies of the labour movement. The political activities of trade unions and employer organisations. Union democracy and oligarchy and the internal government of trade unions. The role of government in industrial relations and in wage and salary determination. Strikes and disputes. Industrial democracy and issues and experiments in employee participation and control. Multinational companies and industrial relations.

†72.304 Management Information Systems

The management information system applied to the decision-making processes of planning, organising and controlling.

72.306 Marketing Research

Identification of information needs for marketing decisions, and development of appropriate data collection and reporting techniques.

72.307 Personnel Administration

Policies and procedures of personnel management. The role of the personnel manager. The recruitment, selection and allocation of labour. Job and organisational design and the personnel function. Manpower forecasting and manpower planning. Training, development and performance appraisal of staff. Incentive payment systems and the design and administration of wage and salary policies at the level of the firm.

†72.308 Operation Research**72.309 International Business**

International trade forces. Investigation of the international business environment and formulation of appropriate multi-national business and marketing strategies.

72.310 Organisational Research Methods

Methods for scientific research concerning organisations, including the design of field experiments and evaluation methods.

72.311 Special Topic

To be prescribed by the Head of Department

72.312 Special Topic

To be prescribed by the Head of Department

72.320 Systems Design

Translation of information requirements into systems and programme specifications.

72.321 Systems Project

Systems analysis, design, and development techniques combined to solve a specific problem.

72.322 Information Analysis

Determination of information needs and patterns of data flow.

72.323 Systems Economics

Determination of technical, operational and economic feasibility of computer proposals.

MANAGEMENT STUDIES FOR MCOM AND HONOURS**72.400 Case Studies in General Management**

Practice in making balanced operational decisions affecting finance, marketing, R & D, production, and personnel, at the level in the organisation where these specialist activities come together under the authority of a general manager.

72.401 Advanced Marketing Problems

Identification of current trends in various markets and development of strategic marketing decisions affecting these markets.

72.402 Management of Change (in the Post-Industrial Society)

Innovation and development of new products and services, using forecasting and long range planning techniques, together with aspects of behavioural analysis and organisational development.

72.403 Industrial Relations: Theory and Practice

Examination of industrial relations practice in New Zealand in the context of theories of industrial relations behaviour.

72.404 Real Time Management Information Systems

Application of real time technology to managerial systems of planning, organising, and controlling.

72.405 Organisational Development

Study of the ways in which organisations can best adapt to the challenges of modern society, advances in technology, and continuing changes in their environment.

72.406 Entrepreneurial Behaviour and Small Business Management

Theories of entrepreneurial behaviour and their application to small business. The managerial process in the small firm.

72.407 Empirical Study in New Zealand Management

Investigation into a current problem facing the management of a local enterprise.

72.408 Operations Research

72.409 Mathematical Programming

72.410 Special Topic

To be prescribed by the Head of Department.

72.411 Special Topic

To be prescribed by the Head of Department.

72.412 Special Topic

To be prescribed by the Head of Department.

72.413 Special Topic

To be prescribed by the Head of Department.

72.414 Special Topic

To be prescribed by the Head of Department.

72.415 Special Topic

To be prescribed by the Head of Department.

72.601 Thesis

72.603 Research Essay

Note: There is no guarantee that all these papers will be available to students during the current calendar year.

DEPARTMENT OF MATHEMATICS

For Prescriptions see Index.

DEPARTMENT OF PSYCHOLOGY

PSYCHOLOGY II

†32.210 Psychology for Commerce

An examination of basic psychological principles related to organisation and management, and development of student awareness regarding behaviour and organisational settings.

**THE PROFESSIONAL EXAMINATIONS FOR MEMBERSHIP OF
THE NEW ZEALAND SOCIETY OF ACCOUNTANTS**

Exemptions

Exemptions are granted by the New Zealand Society of Accountants to students who have passed degree subjects as follows:

(a) Students who passed in the unit Accounting II prior to 1971 should consult the 1974 Calendar page 345. Other students who enrolled for the first time prior to 1975 should consult the 1976 Calendar page 297.

(b) Other students will be required to complete the BCom degree passing in the Accounting papers: 01.100, 01.101, 01.200, 01.201, or 01.204, 01.202, 01.203, 01.300, 01.301, 01.302 and the Commercial Law papers numbered: 02.100, 02.200, 02.201, 02.300 and 02.301.

Any of the above papers not passed for credit to the BCom must be passed for COP.

Students should note that exemptions from the New Zealand Society of Accountants' Professional Examinations can be authorised by the Society only; so those with any queries regarding the Society's requirements should write directly to the Assistant Secretary, New Zealand Society of Accountants, PO Box 11-342 Wellington.

Cost and Management Division

Students who graduate with a BCom having satisfied the above requirements of the New Zealand Society of Accountants will also gain exemption from the examinations of the Cost and Management Accounting Division if they pass the following, either for the degree or COP: 72.200 and one of 01.303, 13.203, or 72.201.

THE EXAMINATIONS FOR MEMBERSHIP OF THE INSTITUTE OF COST AND MANAGEMENT ACCOUNTANTS (UNITED KINGDOM)

BCom graduates who have followed a course covering the papers required by the New Zealand Society of Accountants and the Cost and Management Accounting Division for exemption from their examinations are exempt from foundation stage, sections A and B and professional stage, part 1 of the ICMA examinations (10 out of 18 papers).

All other BCom graduates are exempt from foundation stage, sections A and B of the ICMA examinations (6 out of 18 papers).

Candidates who consider that they may be eligible for exemption under the relevant regulations should write to the Institute of Cost and Management Accountants, 63 Portland Place, London W1N 4AB, United Kingdom, specifying the exemption claimed and enclosing relevant certificates.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN BUSINESS AND INDUSTRIAL ADMINISTRATION

DipBIA

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations. Every intending new candidate must apply to the Registrar for permission to enrol in the Course not later than 31 January of the year in which he wishes to enrol.

An intending candidate who seeks admission on the basis of a professional qualification, the New Zealand Certificate in Engineering, or practical experience must apply for admission in accordance with the requirements of the Provisional and Special Admission Regulations.

General Provisions

1. (i) Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Business and Industrial Administration shall before his enrolment for this Diploma
 - (a) have been admitted or qualified for admission to a Bachelor's degree of the University of Auckland, and have had not less than two years of practical experience, or
 - (b) (i) hold or have qualified for the award of either a professional qualification in Accountancy, Engineering, Science or other approved discipline or a New Zealand Certificate in Engineering or in Science with outstanding merit and
 - (ii) have had not less than two years of practical experience; or
 - (c) have had not less than five years of practical experience.
 (ii) In this regulation 'practical experience' means responsible managerial experience in business or industry.
2. A candidate shall be required to satisfy the Senate that his knowledge of Mathematics is adequate for the course.
3. A candidate for the Diploma in Business and Industrial Administration shall follow a course of study of not less than one year.

Course Content

4(a) The subjects for the Diploma shall be:

Management and Financial Accounting 70.100

Quantitative Management Techniques I 70.101

Management I 70.102.

Industrial Management 70.103.

Management II 70.104.

Case Studies I 70.105.

Case Studies II 70.106.

Managerial Economics 70.107 or Economics for Management 70.108.

Any two of the following:

† Business Forecasting 70.109 or Government and Business 70.110.

† Hospital Administration I 70.111.

† Hospital Administration II 70.112.

Industrial Psychology 70.113.

Marketing Management 70.114.

† Quantitative Management Techniques II 70.115.

Special Topic A 70.116.

Special Topic B 70.117.

Note: Not all of the optional subjects listed will be taught during the current Calendar year.

(b) Each candidate shall by 1 October in the year he presents the final subject for his Diploma or in special circumstances at a later date approved by the Senate, submit a dissertation (70.604) upon a topic approved by the Senate.

5(a) No candidate shall be credited for this Diploma with any subject which he has passed for another Degree or Diploma.

(b) A candidate who, in the opinion of the Senate, has passed for any other Degree or Diploma any paper or subject similar in content to any subject for this Diploma shall instead of that subject take such other subject for this Diploma as the Senate may require.

DIPLOMA COURSE PRESCRIPTIONS

DIPLOMA IN BUSINESS AND INDUSTRIAL ADMINISTRATION

There is during the current *Calendar* year a limitation on the number of candidates that may be enrolled for any subject of the course. The maximum number in any subject is 30.

The course is designed as a two-year part-time course, or for a limited number of candidates, as a one-year full-time course. Classes are held during the mornings from 8.00 am to 12.30 pm.

Part-time candidates normally attend twice weekly.

In general, for part-time candidates, the subjects of the first year comprise:

Management and Financial Accounting 70.100

Quantitative Management Techniques I 70.101

Management I 70.102

Industrial Management 70.103

Case Studies I 70.105

The remaining subjects listed in Regulation 4 of the regulations for the course are available for the second year of the part-time course.

Further details, explanatory notes, and reading lists are contained in a handbook available free from the Enquiry counter, Registry, 24 Princes Street, Auckland.

The prescriptions for the subjects named in the preceding Regulations are given below:

70.100 Management and Financial Accounting

Introduction of Management and Financial Accounting including taxation.

70.101 Quantitative Management Techniques I

Introduction to statistical techniques, probability distributions, correlation, tests of significance. Applications to research, production, sales and service studies. Resume of O.R. techniques.

70.102 Management I

Management theory, organisation, planning, administration, human, legal, financial, productive, distributive and control aspects.

70.103 Industrial Management

Method study, work, measurement, work performance, plant and work place layout, PMTS, PERT, value analysis, ergonomics, work sampling. Analysis of systems, procedures; planning and control techniques.

70.104 Management II

Administrative, economic, financial and investment theories and techniques. Long range planning, short term objectives and controls. Motivation of people.

70.105 Case Studies I

A series of case studies centred on organisation, management, administration, work study, industrial relations, systems and procedures, costs, etc.

70.106 Case Studies II

A series of case studies based on analysis, diagnosis, decision making and control in situations covering most aspects of management and administration including total company strategy, finance, marketing, investment, use of computers, etc.

70.107 Managerial Economics

Analysis of consumer behaviour, theory of the firm, determination of price and output, forms of competition, competitive strategies, theory of advertising.

70.108 Economics for Management

A study of those aspects of macro, micro and international economics which will assist the practising manager to understand the economic environment of New Zealand and the nations with whom New Zealand has trade relationships.

+70.109 Business Forecasting

A study of concepts and techniques related to economic forecasting, marketing research and sales forecasting. Business policy formulation and corporate planning procedures.

+70.110 Government and Business

The economic framework. Money, banking, government finance and international payments. Employment, inflation and growth. Fiscal and monetary policies.

+70.111 Hospital Administration I

A descriptive study of the accepted body of knowledge relating to the administration of hospitals and similar organisations.

+70.112 Hospital Administration II

A study of the specialised techniques, policies and concepts related to the administration of hospitals and similar organisations.

70.113 Industrial Psychology

Organisational behaviour. Human relations in business and industry. Personnel selection, training, counselling. Labour relations. Sociological environment. Interviews and questionnaires.

70.114 Marketing Management

Introduction to marketing functions. The practice of marketing, distribution, market research, advertising, selling, pricing and product development.

+70.115 Quantitative Management Techniques II

Analysis of variance. Introduction to design of experiments. Quality control. Operations Research. Business and industrial applications of statistics and operations research.

70.116 Special Topic A

An advanced course on a topic to be determined each year by the Course Organiser.

70.117 Special Topic B

A special project or course on a topic to be determined each year by the Course Organiser.

Note: Papers marked with a dagger (†) may not be taught during the current *Calendar* year.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF LAWS LLB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Laws shall be required to

- (a) pursue a Course of study for a period of not less than four years;
- (b) pass an Intermediate Examination and three Law Examinations;
- (c) carry out work in the detailed application of law to the satisfaction of the Faculty of Law.

Examinations

2. Except as hereinafter provided a candidate shall be required to pass as a whole each Law Examination. The Senate shall take into consideration his performance in all subjects of the Examination.

Provided that

(a) A candidate who has failed to pass any Law Examination as a whole may at the discretion of the Senate be credited with a subject or subjects of that Examination and permitted in a subsequent year to present the subject or subjects not so credited together with a subject or subjects of the next succeeding Law Examination.

(b) A candidate who has passed the Intermediate Examination may at the discretion of the Senate be permitted to sit either Part A only or Part B only of the First Law Examination, presenting the remaining part in a subsequent year together with a subject or subjects of the next succeeding Examination.

(c) A candidate who is undertaking the Degree or any part of the Degree, upon a part-time basis, or in conjunction with any other degree shall be required to pass an Examination consisting of such work, less than the full Examination, as the Senate shall in its discretion determine and present the remaining part of the Examination in a subsequent year, together with a subject or subjects of the next succeeding Examination.

A candidate who sits either the First or Second Law Examination as provided under (b) and (c) above, shall not be required to take any subject from the succeeding Examination.

A candidate to whom any of the foregoing provisos applies shall be required to pass as a whole an Examination consisting of the subjects he is taking in any year, so that his performance in all subjects taken in that year shall be considered.

A candidate who has failed only one subject of a Law Examination may be required by the Senate to pass in the following February a special examination in that subject to be credited with a pass in the Examination as a whole.

Subjects

3. The subjects for the Degree of Bachelor of Laws shall be:

Intermediate Examination

(a) Two papers in English at Stage I, II, or III prescribed for the Degree of Bachelor of Arts, or Two papers in Philosophy at Stage I, II, or III prescribed for the Degree of Bachelor of Arts, or

Two papers in Languages and Literature at Stage I, II, or III from one of the relevant subjects listed in the Schedule to the Regulations for the Degree of Bachelor of Arts,

Note: The subjects included in the BA Schedule are: Chinese, Indonesian, Russian, French, Italian, Scandinavian Studies, German, Japanese, Spanish, Greek, Latin, Hebrew, Maori,

and

(b) Not less than

- (i) Four arts papers (at any stage or stages), or
- (ii) Twenty-four science credits, or
- (iii) An equivalent combination of one or two or three arts papers (at any stage or stages) with eighteen, twelve or six science credits respectively from subjects prescribed for the Degree of

Bachelor of Arts or the Degree of Bachelor of Science, as the case may be provided that in respect of the arts papers and science credits, a candidate shall be required to comply with all relevant regulations for the Degrees of BA or BSc as the case may be (including regulations and requirements relating to corequisites, prerequisites, restrictions, combinations of subjects and practical work).

First Law Examination

Part A

- 25.103 Legal System
- 25.102 Constitutional Law

- 25.319 Planning Law
- 25.320 Restitution
- 25.321 Supervised Research
- 25.322 Vendor and Purchaser
- 25.323 Estate and Tax Planning
- 25.324 Air and Space Law
- 25.325 Maori Land Law
- 25.326, 25.327, 25.328, 25.329, 25.330, 25.331, 25.332, 25.333, 25.334. Special Topics approved by the Dean of the Faculty of Law.

And

any one or more optional subjects prescribed for the Second Law Examination.

Note: (i) Subjects indicated by an asterisk (*) will not be taught during the current *Calendar* year.
 (ii) Subjects listed as optional subjects for the Second and Third Law Examinations will be taught only if sufficient staff are available and if enrolments are adequate to warrant the teaching of the subject.

Exemptions

- 4(a) A candidate who has been credited for the Degree of Bachelor of Arts or the Degree of Bachelor of Science with any of the units specified for the Intermediate Examination shall be credited with such unit or units for the purposes of this Degree.
- (b) A candidate who is a graduate of any University in New Zealand shall be exempted from passing the Intermediate Examination, and his course of study may be pursued for a period of not less than three years.
- (c) In granting admission *ad eundem statum* to a candidate from an overseas University in one or more units or subjects of the Degree the Senate may require that the candidate shall pass an Examination in the law and practice in New Zealand, covering such matters as may from time to time be prescribed by the Senate.

Notes: (1) The prescriptions for the Examination in the law and practice in New Zealand may be obtained on application to the Dean of the Faculty of Law.

(2) Every candidate desiring to be examined in the law and practice in New Zealand shall give to the Registrar notice in writing of his desire to be so examined and shall pay to the Registrar an examination fee of \$10.

(3) Such examination shall be held at such time and place as may be fixed by the Vice-Chancellor.

Practical Courses

- 5. No candidate shall be admitted to this Degree unless the Registrar has received from the Dean of the Faculty of Law a certificate that the candidate has complied with the requirements of Regulation 1(c).

Approval of Courses

- 6. The personal course of study of every candidate shall require the approval of the Senate provided that

- (a) The Senate may delegate to the Faculty of Law the power to give such approval and may also delegate the discretionary powers conferred in Regulations 2 and 4 of these Regulations.
- (b) The candidate may appeal to the Senate where approval of a personal course of study has been withheld by a decision of the Faculty acting under the delegation of any of the powers referred to in the previous proviso.

Course Requirements

7. Every candidate shall be required

(a) To undertake as part of his Third Law Examination a course of study comprising a sufficient number of advanced law courses. The Faculty of Law shall determine from time to time which subjects shall be advanced courses for the purpose of this requirement and how many of such courses (not exceeding two-fifths of the Third Law Examination) shall be the minimum requirement.

(b) To undertake in both his Second and Third Law Examinations a course of study comprising sufficient law subjects to amount to a full-time course of about 14 hours of instruction per week. The Faculty of Law shall from time to time determine the composition of a full-time course for these purposes.

Note: The Handbook of the Faculty of Law will state the advanced subjects, the prerequisites if any, and the weight of each subject within a full-time course of study.

Courses in Other Faculties

8(a) In lieu of optional law subjects (totalling not more than one-fifth of the content of the Second and Third Law Examinations combined) a candidate may take such units or papers offered by other Faculties and related to his law studies as are approved by the Dean of the Faculty of Law. Provided that he shall before enrolling in such units or papers obtain the permission of the Head of the Department in which they are being taken and of the Dean of the Faculty of Law; but the Faculty of Law may in special cases apply this provision to a candidate who has previously taken units or papers in another Faculty which would have qualified under this Regulation if prior approval had been obtained.

(b) Subject to Regulation 10 of the Enrolment and Course Regulations (General) any unit or paper taken by a candidate under this Regulation may be credited only to the Degree of Bachelor of Laws.

Research Paper

9. A candidate for the degree of Bachelor of Laws may with the prior approval of the Dean of the Faculty of Law, elect to present a research paper in lieu of examination in a subject of the Third Law Examination;

Provided that the teacher in the subject shall certify that the research paper is related to that subject, and the candidate shall comply with the terms requirements in that subject.

BCom/LLB

10(a) A candidate shall be accredited with any subject named in the left hand column of the schedule to this paragraph of this Regulation if he has passed for the Degree of Bachelor of Commerce the paper or papers named opposite that subject in the right hand column of the schedule.

Schedule

Introduction to Commercial Law 25.203

Company Law and Partnership 25.208

Industrial Law 25.212

Revenue Law 25.221 or Income Tax 25.221

Finance Law 02.201

Company Law and Partnership 02.300

Industrial Law 02.302

Taxation and Estate Planning 02.301

(b) A candidate who has passed for the Degree of Bachelor of Commerce one or more of the papers named in the schedule to this paragraph of this Regulation (called 'approved commerce papers'), and who includes in his course of study for this Degree at least two advanced law courses under Regulation 7, shall be credited

(i) with one optional subject in the Second or Third Law Examination if he has passed one approved commerce paper;

(ii) with two optional subjects in those Examinations if he has passed two or more approved commerce papers;

provided that any approved commerce paper for which he is so given credit shall be counted as an approved paper taken in another Faculty for the purpose of Regulation 8 (but so that paragraph (b) of that Regulation shall not apply to it).

Financial Accounting 01.300

Auditing 01.301

Investment Analysis & Planning 01.303

Law of Marketing and Overseas Trade 02.304

Principles of Finance 13.305

Industrial Relations and Manpower Management 72.303

(c) Credits under this Regulation shall be additional to any permitted to a candidate under the Enrolment and Course Regulations (General).

(d) No candidate shall be entitled under this Regulation to credits for more than five law subjects.

11. The course of every candidate shall be governed by these Regulations.

Commencement

12. These regulations shall apply to all students taking the Degree of Bachelor of Laws from 1 January 1973.

Provided that any candidate who commenced his law course before that date shall be entitled to the following credits:

(a) A pass in Legal System before 1973 shall be credited as both a pass in Legal System and a pass in Legal History.

(b) A pass in any of the subjects in subclause (ii) of Division III of the 1966 Degree Regulations (1972 Calendar, p. 441) shall be credited as a pass in Constitutional Law.

(c) Subject to the foregoing provisions passes in any of the subjects mentioned in Divisions I and II of the 1966 Degree Regulations shall be credited as passes in the corresponding subjects in the Regulations for this Degree.

(d) Passes in any of the subjects in Division III of the 1966 Degree Regulations shall (unless already credited under subclause (ii) above) be credited as equivalent to one-fifth of either the Second Law or Third Law Examination.

(e) A pass in Introduction to Commercial Law shall not be required where the candidate has before 1973 either passed Commercial Law and the Law of Personal Property under the 1966 Degree Regulations or passed or been credited with or exempted from not less than twelve subjects towards his LLB degree.

And provided further that where the course of any candidate is not specifically covered by the above provisions and in other cases where there is doubt concerning the course of any candidate such course shall be settled by the Dean of the Faculty of Law.

And provided also that any candidate who commenced his law course before 1967 shall be entitled to the benefit of any transitional provisions which may previously have applied to him.

THE DEGREE OF BACHELOR OF LAWS (HONOURS)**LLB (Hons)**

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Degree of Bachelor of Laws (Honours) shall be required to

(a)(i) pursue a course of study for a period of not less than four years and as prescribed in Regulation 2;

(ii) pass an Intermediate Examination and three Law Examinations;

(iii) carry out work in the detailed application of law to the satisfaction of the Faculty of Law as prescribed in the Regulations for the Degree of Bachelor of Laws, excepting Regulation 9 as to the substitution of a research paper in lieu of an examination in his Third Law Examination; and

(b) present the additional work specified in Regulation 3 and maintain a superior standard of work throughout the course as prescribed in Regulation 6.

Course Requirements

2. Every candidate shall be required

(a) To take at least one of the following subjects:

25.310 Comparative Law

25.316 Law Reform

25.218 Legal History

25.317 Legal Philosophy or any two of

25.225 Law and Society, 25.226 Legal Analysis and 25.227 Legal Theory

(b) To undertake as part of his Third Law Examination a course of study comprising a sufficient number of advanced law courses. The Faculty of Law shall determine from time to time which subjects shall be advanced courses for the purposes of this requirement, and how many of such courses (not exceeding two-fifths of the Third Law Examinations) shall be the minimum requirement.

(c) To undertake in both his Second and Third Law Examinations, a course of study comprising sufficient law subjects to amount to a full-time course of about 14 hours of instruction per week. The Faculty of Law shall from time to time determine the composition of a full-time course for these purposes.

Note: The Handbook of the Faculty of Law will state the advanced subjects, the prerequisites if any, and the weight of each subject within a full-time course of study.

Additional Work

3. In addition to the foregoing requirements, every candidate shall during his course undertake the following work:

(a) Two additional subjects from those listed in Regulation 4, carrying out to the satisfaction of the Faculty of Law such written or other work as may be prescribed by the Dean of the Faculty of Law in connection with those subjects.

(b) The presentation, not later than twelve months after completing the Third Law Examination, of a dissertation (25.604) embodying the results of research undertaken under the direct supervision of a University teacher in the Faculty of Law. Provided that the Senate may in its discretion extend the time for the presentation of the dissertation.

Note: An abstract is to be submitted with the dissertation. See Examination Regulation 14.

Subjects

4. The subjects provided for in Regulation 3 shall be:

25.341 Admiralty Law

25.342 Air and Space Law

25.343 Aspects of Industrial Law

25.344 Business Regulation

25.345 Causes of Crime

25.346 Civil Rights

25.347 Commercial Letters of Credit

25.348 Consumer Law

25.349 Copyright and Patent Law

25.350 Corporation Finance

25.351 Economic Regulation

25.352 Environmental Law

25.353 Estate Planning

25.354 Insurance (other than Marine Insurance) Law

25.355 International Business and Finance, Law of

25.356 Law and Social Problems

25.357 Law of Banking

25.358 Law of Landlord and Tenant

25.359 Law Reform

25.360 Law Relating to Computers

25.361 Legal Accounting

25.362 Legal Aspects of Race Relations

25.363 Legal Education

25.364 Legal History

25.365 Legal Problems of the European Common Market

25.366 Local Government Law

25.367 Maori Land Law

25.368 Marine Insurance Law

25.369 Medico-Legal Problems

25.370 Military Law

25.371 Penology

25.372 Problems in Choice of Law

- 25.373 Problems in Contract and Tort
- 25.374 Problems in Criminal Law
- 25.375 Problems in Equity
- 25.376 Problems in Legal Philosophy
- 25.377 Professional Responsibility
- 25.378 Registration of Title to Land
- 25.379 Remedies against the Government
- 25.380 Securities Law
- 25.381 Selected topics in Comparative Law
- 25.382 Shipping Law
- 25.383 Social Control of Land
- 25.384 State and Local Taxation
- 25.385 The Law Relating to Damages
- 25.386 The Legal Process
- 25.387 Trial Practice
- 25.388 United Nations Law and Problems of World Order
- 25.389 Pacific Legal Studies
- 25.390 Women and the Law
- 25.391 Restitution
- 25.392 Advanced studies in a selected topic as prescribed by the Dean of the Faculty of Law
- 25.393 Advanced studies in a selected topic as prescribed by the Dean of the Faculty of Law
- 25.394 Advanced studies in a selected topic as prescribed by the Dean of the Faculty of Law
- 25.395 Advanced studies in a selected topic as prescribed by the Dean of the Faculty of Law
- 25.396 Advanced studies in a selected topic as prescribed by the Dean of the Faculty of Law
- 25.397 Advanced studies in a selected topic as prescribed by the Dean of the Faculty of Law
- 25.398 Advanced studies in a selected topic as prescribed by the Dean of the Faculty of Law
- 25.604 Dissertation

Note: The subjects listed as optional or seminar subjects will be taught only if sufficient staff are available and if enrolments are adequate to warrant the teaching of the subject.

5. Any candidate may with the prior approval of the Dean of the Faculty of Law elect to present a research paper in lieu of an examination in a subject of the Third Law Examination or a subject listed in Regulation 4. In cases approved by the Dean of the Faculty of Law, notwithstanding anything in Regulation 3, a candidate may present a dissertation in lieu of an examination in a subject of the Third Law Examination.

Provided that in either case the teacher in the subject shall certify that the research paper or dissertation is related to that subject and the candidate shall comply with the requirements for obtaining terms in that subject.

Standards

6. The Degree of Bachelor of Laws (Honours) shall be awarded to candidates who have fulfilled the requirements of these Regulations and whose work throughout the course has been in the opinion of the Faculty of Law of a sufficiently high standard.

Transfer to LLB(Hons)

7. The Senate may, on written application by a candidate who has completed only the First Law Examination and, in special circumstances any other candidate, and without payment of a fee, grant him permission to transfer to a course under these Regulations and allow him to be credited with a pass in such subjects as he has passed in his course for the Degree of Bachelor of Laws.

Transfer to LLB

8. A candidate whose work does not in the opinion of the Faculty of Law satisfy the standard prescribed in Regulation 6, or who at any stage elects to withdraw from the Degree of Bachelor of Laws (Honours), shall be entitled to have credited to the Degree of Bachelor of Laws without payment of a fee those subjects (being subjects for the Degree of Bachelor of Laws) in which he has passed or in which he has been credited with a pass.

9. The course of every candidate shall be governed by these Regulations.

Commencement

10. These Regulations shall apply to all candidates taking the Degree of Bachelor of Laws (Honours) from January 1973, provided that any candidate who commenced his law course

before that date or before 1967 shall be entitled to the credits prescribed in Regulation 12 of the Regulations for the Degree of Bachelor of Laws.

Note: Legal Practice: A student completing his First Law Examination is required to enrol for 25.406 Legal Practice I, his Second Law Examination 25.407 Legal Practice II and his Third Law Examination 25.408 Legal Practice III.

LAW PROFESSIONAL EXAMINATIONS

A candidate seeking admission as a barrister and solicitor of the Supreme Court of New Zealand must, in accordance with the Professional Examinations in Law Regulations 1966:

(a) qualify for admission to the Degree of Bachelor of Laws or Bachelor of Laws (Honours); and

(b) pass, or be credited with a pass in the following additional subjects:

25.314 Evidence

25.401 Court Papers and Practice

25.402 Office and Court Room Practice

25.403 Commercial Papers and Practice

25.404 Land Conveyancing Papers and Practice

25.405 Wills and Trusts Practice.

Each of the subjects will be taught in the Faculty of Law.

In all of these subjects, other than Evidence, a candidate is credited with a pass if the Registrar receives a certificate from a teacher in the Faculty of Law that the candidate, having taken the course of study in the subject and done the work of the course to the satisfaction of the teacher, should be credited with a pass in the subject.

Alternatively the candidate must pass the examination in the subject.

A candidate who has been credited with the subject the Law of Evidence in his course for the Degree of Bachelor of Laws shall substitute for the paper in Evidence a paper in a law subject approved for the purpose by the Dean of the Faculty of Law at the University at which the candidate is enrolled. (Professional Examination in Law Regulations 1966, Regulation 1 (d).)

THE DEGREE OF MASTER OF LAWS

LLM

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Laws shall before his enrolment for this degree

(i) have attained an average grade of B- or higher in his Course of Study for the Degree of LLB, or

(ii) have had at least three years' experience in legal practice after his admission as a barrister or solicitor, or

(iii) have otherwise shown to the satisfaction of the Faculty of Law his capacity to undertake advanced study and research in the subjects he proposes to take for this degree.

2. No person who has been admitted to the Degree of Master of Jurisprudence shall be admitted to the Degree of Master of Laws.

Course Content

3(a) Every candidate for the Degree of Master of Laws shall either

(i) in one year both keep terms at the Masters stage and pass the examinations in six papers in the subjects prescribed in Regulation 4 of these Regulations, or

(ii) keep terms at the Masters stage and pass the examinations in four papers in subjects so prescribed, in one year, and present a thesis (25.601) under the conditions prescribed in Regulation 5, or

(iii) both keep terms at the Masters stage and pass the examinations in four papers in subjects so prescribed in one year, and in four other papers in the following year.

(b) The choice of subjects to be taken by each candidate shall be subject to the approval of the Dean of the Faculty of Law.

4. The subjects of examination for the Degree are:

- 25.501, 25.502 Administrative Law
- 25.561, 25.562 Air and Space Law
- 25.503, 25.504 Commercial Law
- 25.505, 25.506 Comparative Law
- 25.507, 25.508 Constitutional Law
- 25.509, 15.510 Conflict of Laws
- 25.511, 25.512 Creditors Remedies
- 25.513, 25.514 Criminal Law
- 25.515, 25.516 Criminology
- 25.517, 25.518 Environmental Law
- 25.519, 25.520 Equity
- 25.521, 25.522 Family Law
- 25.523, 25.524 Industrial Law
- 25.525, 25.526 International Law
- 25.527, 25.528 Jurisprudence
- 25.529, 25.530 Land Law
- 25.531, 25.532 Law and Society
- 25.533, 25.534 Law of Banking and Exchange Control
- 25.535, 25.536 Law of Bodies Corporate and Unincorporate
- 25.537, 25.538 Law of Contract
- 25.539, 25.540 Law of Evidence
- 25.541, 25.542 Law of Taxation and Estate Planning
- 25.543, 25.544 Law of Torts
- 25.545, 25.546 Law Reform
- 25.547, 25.548 Local Government Law
- 25.549, 25.550 Pacific Legal Studies
- 25.551, 25.552 Planning Law
- 25.553, 25.554 Restitution
- 25.555, 25.556 Sales and Sales Financing
- 25.557, 25.558 Shipping Law
- 25.559, 25.560 Transport Law
- 25.563, 25.564 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.565, 25.566 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.567, 25.568 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.569, 25.570 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.571, 25.572 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.573, 25.574 Special Topics to be prescribed by the Dean of the Faculty of Law

Note: Subjects that may be offered in the current *Calendar* year will be by arrangement with the Dean. The prescriptions are stated in the *Calendar*.

Thesis

5. When a candidate elects to present a thesis (25.601) the following conditions shall apply:

- (a) The thesis shall be of the value of four papers, and shall consist of an original contribution to the history, philosophy, exposition, or criticism of the law, prepared under the supervision of a University teacher, upon a subject approved by the Dean of the Faculty of Law.
- (b) A candidate may present his thesis in the year in which he takes his examination or in a subsequent year.
- (c) The candidate shall deliver his thesis to the Registrar by 1 November of the year in which it is presented or at a subsequent date arranged with his supervising teacher.
- (d) At the discretion of the Dean of the Faculty of Law the candidate may be required to attend, within four weeks of the date on which the thesis was submitted, an oral examination on the subject of the thesis. For this purpose either two or three examiners shall be appointed by the Dean of the Faculty of Law.
- (e) Where a candidate presents a thesis which is of insufficient standard on first presentation,

the Senate may in exceptional circumstances, when recommended by the examiners, permit the candidate to rewrite the thesis and submit it again by a specified date.

(f) The thesis shall be presented within three years of the year in which the examination is first taken provided that this period may in special cases be extended by the Senate.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Honours

6. (a) The Degree of Master of Laws may be awarded with or without Honours.

(b) A candidate who is required to re-sit a written examination or to re-submit the thesis shall not be eligible for an award with Honours.

7. These Regulations shall come into force on 1 January, 1969.

Note: Students proposing to enrol for a Masters degree are expected to discuss their enrolment with the Dean not later than the December preceding their enrolment.

THE DEGREE OF MASTER OF JURISPRUDENCE

MJur

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Degree of Master of Jurisprudence shall before his enrolment for this Degree have been admitted or qualified for admission to the Degree of Bachelor of Laws (Honours).

2. No person who has been admitted to the Degree of Master of Laws shall be admitted to the Degree of Master of Jurisprudence.

Course Content

3. (a) Every candidate for the Degree of Master of Jurisprudence shall either

(i) in one year both keep terms at the Masters stage and pass the examinations in four papers in the subjects prescribed in Regulation 4 of these Regulations, or

(ii) present a thesis (25.611) under the conditions prescribed in Regulation 5.

(b) The choice of subjects to be taken by each candidate proceeding under Regulation 3 (a) (i)

(i) shall be subject to the approval of the Dean of the Faculty of Law, and

(ii) shall not include any subject with which the candidate has been credited for the Degree of Master of Commerce.

4. The subjects of examination for the Degree are:

25.501, 25.502 Administrative Law

25.561, 25.562 Air and Space Law

25.503, 25.504 Commercial Law

25.505, 25.506 Comparative Law

25.507, 25.508 Constitutional Law

25.509, 25.510 Conflict of Laws

25.511, 25.512 Creditors Remedies

25.513, 25.514 Criminal Law

25.515, 25.516 Criminology

25.517, 25.518 Environmental Law

25.519, 25.520 Equity

25.521, 25.522 Family Law

25.523, 25.524 Industrial Law

25.525, 25.526 International Law

25.527, 25.528 Jurisprudence

25.529, 25.530 Land Law

25.531, 25.532 Law and Society

25.533, 25.534 Law of Banking and Exchange Control

25.535, 25.536 Law of Bodies Corporate and Unincorporate

25.537, 25.538 Law of Contract

- 25.539, 25.540 Law of Evidence
- 25.541, 25.542 Law of Taxation and Estate Planning
- 25.543, 25.544 Law of Torts
- 25.545, 25.546 Law Reform
- 25.547, 25.548 Local Government Law
- 25.549, 25.550 Pacific Legal Studies
- 25.551, 25.552 Planning Law
- 25.553, 25.554 Restitution
- 25.555, 25.556 Sales and Sales Financing
- 25.557, 25.558 Shipping Law
- 25.559, 25.560 Transport Law
- 25.563, 25.564 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.565, 25.566 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.567, 25.568 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.569, 25.570 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.571, 25.572 Special Topics to be prescribed by the Dean of the Faculty of Law
- 25.573, 25.574 Special Topics to be prescribed by the Dean of the Faculty of Law

Note: Subjects that may be offered in the current *Calendar* year will be by arrangement with the Dean. The prescriptions are stated elsewhere in the *Calendar*.

Thesis

5. When a candidate elects to present a thesis (25.611) the following conditions shall apply:
- (a) The thesis shall consist of an original contribution to the history, philosophy, exposition or criticism of the law, prepared under the supervision of a University teacher, upon a subject approved by the Dean of the Faculty of Law.
 - (b) The candidate shall deliver his thesis to the Registrar by 1 November of the year in which it is presented, or at a subsequent date arranged with his supervising teacher.
 - (c) At the discretion of the Dean of the Faculty of Law the candidate may be required, within four weeks of the date on which the thesis was submitted, to attend an oral examination on the subject of the thesis. For this purpose either two or three examiners shall be appointed by the Dean of the Faculty of Law.
 - (d) Where a candidate presents a thesis which is of insufficient standard on first presentation, the Senate may in exceptional circumstances when recommended by the examiners, permit the candidate to rewrite the thesis and submit it again by a specified date.
 - (e) The thesis shall be presented not later than three years after the candidate's enrolment for the Degree, provided that this period may in special cases be extended by the Senate.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Distinction

- 6 (a) The Degree of Master of Jurisprudence may be awarded with or without Distinction.
 (b) A candidate who is required to re-sit a written examination or to re-submit the thesis shall not be eligible for an award with Distinction.
7. These Regulations shall come into force on 1 January, 1969.

Note: Students proposing to enrol for a Masters degree are expected to discuss their enrolment with the Dean not later than the December preceding their enrolment.

THE DEGREE OF DOCTOR OF LAWS LLD

General Provisions

- 1. Except as provided in the Admission ad eundem Statum Regulations, a candidate for the Degree of Doctor of Laws shall be a graduate of the University of Auckland, or of the University of New Zealand.
- 2. No candidate shall present himself for the Degree of Doctor of Laws until at least eight years after graduation to his first degree.
- 3. The Degree of Doctor of Laws shall be awarded for an original contribution (or contributions) of special excellence to the history, philosophy, exposition or criticism of law.

4. The Degree shall be awarded on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation, provided that in addition to such published work the candidate may submit unpublished work in support of his application.

5. No work shall be considered for the Degree if the work or a major portion thereof, has previously formed the basis of an award of any Degree or Diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:

(a) three copies of the work to be examined;

(b) a statutory declaration which shall

(i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and

(ii) state what portion (if any) of work submitted has been previously presented for a Degree or Diploma of the University of Auckland or any other University; and

(iii) declare that the work in substantially its present form has not been previously accepted for the award of a Degree or Diploma in this or any other University and is not being concurrently submitted for a Degree or Diploma in any other University.

Examination Procedure

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall

(a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application; and

(b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may

(a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or

(b) elect to proceed with the examination.

9 (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional Examiner who may be a member of the teaching staff of the University of Auckland.

(b) The contents of the Moderator's report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:

(a) to report independently on the quality of the work and its value as a significant contribution to learning; and

(b) to recommend whether or not the Degree should be awarded, provided that where the recommendation is that the Degree should not be awarded the Examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A resubmission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the Degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two Examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR LLB AND FOR LLB (Hons)

First Law Examination

Part A

25.103 The Legal System

An introduction to the New Zealand legal system. Legal reasoning and the judicial process, including selected problems in statutory interpretation. Selected legal institutions in New Zealand and in England. The sources of law. Selected legal concepts.

Second Law Examination

Compulsory

25.201 Land Law

The principles of land law including the doctrines of tenures and estates, registration of title to land, the elements of law of landlord and tenant, the law relating to incorporeal hereditaments and security interests in land.

25.202 Equity and the Law of Succession

The general principles of equity and the law of trusts. An introduction to the law of wills and succession and the administration of estates.

25.203 Introduction to Commercial Law

Elements of the law governing sale and transfer of goods, hire purchase and chattels securities.

25.204 Commercial Law

The principles of the law relating to the sale and transfer of goods including bailment and hire purchase, negotiable instruments, and securities over and charges upon personal property including relevant aspects of bankruptcy, suretyship and arbitration.

Optional

25.205 Administrative Law

The general principles of administrative law. Subordinate legislation. Discretionary powers of Ministers, officials and local bodies. Administrative tribunals and their functions. Controls over the exercise of legislative, judicial and other powers.

25.206 Advanced Contract and Tort

Selected advanced problems in the law of contract and tort. Actions which may be brought either in contract or tort. Quasi-contractual remedies.

25.207 Advanced Criminal Law

Selected advanced problems in criminal law and criminal procedure.

25.208 Company Law and Partnership

An introduction to the principles of company law and the law of partnership. Rights and liabilities of those who form, operate and deal with companies, and partnerships.

25.209 Copyright Patents Trademarks and Unfair Competition

Studies in the content and impact of copyright, patents, trademarks, and unfair competition in New Zealand and elsewhere.

25.210 Criminology

An introduction to the theory of criminology. Selected studies in crime and its causes, law enforcement, the administration of criminal justice, and the nature and purpose of the penal system.

25.211 Family Law

The law and procedure relating to marriage, divorce and other matrimonial causes. The legal relationship of husband and wife and of parent and child. Matrimonial property. Maintenance and other domestic proceedings. Adoption, guardianship, and paternity proceedings.

25.212 Industrial Law

Selected studies in the relationship of employer and employee, with reference to industrial accidents, the organising of employees into trade unions, the negotiation and settlement of labour disputes, and the New Zealand system of industrial awards and wage fixing and restraint.

25.213 International Institutions

The principles of international law as they relate to the structure and functioning of international institutions. The role of international institutions in the settlement of international disputes particularly the role of the international court of justice. Selected projects relating to specific international institutions.

25.214 International Law

An introduction to the law of nations. Selected topics in the adjudication and settlement of international disputes, the law of war, peace and neutrality, and the law of international institutions.

25.215 Introduction to Company Law and Partnership

An introduction to the basic concepts and principles of company law and the law of partnership.

25.216 Introduction to Family Law

Elements of family law.

25.218 Legal History

An introduction to the history of present-day legal rules and institutions. Selected topics in English and New Zealand legal history.

25.220 Local Government Law

An introduction to the law governing the structure, powers and territorial definition of local government units. Selected studies in the legal problems of local government and its relationship with central government.

25.221 Income Tax

The principles of the law relating to income tax.

***25.222 Roman Law**

Outline of Roman private law according to Justinian and Gaius. Sources and historical development of Roman Law. The law of actions; the law of property; obligations; family and succession. Translation of substantial portions of the Latin text shall not be required.

A study of the law as it defines women's role in society with particular emphasis on the use of the law to eliminate discrimination.

25.224 Pacific Legal Studies

Selected aspects of customary, private, public and international law of Pacific States and territories with particular regard to Fiji, Western Samoa, the Cook Islands, Niue, and Tokelau Islands, New Zealand and Papua New Guinea.

25.225 Law and Society

What is the impact of social forces on the legal system? How do the rules and orders of the legal system affect social behaviour? This course attempts to answer these questions by examining the legal system through the eyes of social science research. Particular reference will be made to the New Zealand legal system and to avenues towards an improved legal culture.

Note: No prior training in the social sciences is prerequisite.

25.226 Legal Analysis

Analysis of the logical structure of legal rules and of the nature of fundamental logical concepts of the law such as duty, right, liberty and power; analysis of a selection of important substantive concepts of the law such as status, office, contract, trust, punishment, ownership, corporation; some discussion of the place of rules, principles and values in legal reasoning.

25.227 Legal Theory

Theories about the nature of law and the nature of legal reasoning; theories about the relationship of law to social attitudes and behaviour; the interaction of law and values.

Note: The courses 25.225 Law and Society, 25.226 Legal Analysis and 25.227 Legal Theory comprise aspects of what was formerly taught as a single course under the title Jurisprudence.

25.228, 25.229, 25.230, 25.231, 25.232, 25.233, 25.234, 25.235, 25.236 Special Topics**25.407 Legal Practice II**

Note: Some of these courses will be taught for the full year and others will not. Students should refer to the current Law School Handbook to find out the size of courses they propose to take in any particular year, since this may vary from time to time.

Third Law Examination*Optional***25.301 Advanced Administrative Law**

Advanced problems in selected areas of Administrative Law.

25.302 Advanced Commercial Law

Advanced Studies in selected areas of Commercial law.

25.303 Advanced Constitutional Law

Advanced problems in selected areas of Constitutional Law.

25.304 Advanced Criminology

Advanced problems in the causes of crime, the administration of criminal justice, and the punishment and treatment of the offender. Selected studies in criminological methods and research.

25.305 Advanced Family Law

Advanced problems in selected areas of Family Law.

25.306 Advanced Industrial Law

Advanced studies in selected areas of Industrial Law.

25.307 Advanced International Law

Advanced studies in selected areas of the law of nations.

25.324 Air and Space Law

The principles of international and municipal law regulating airspace and outer space, aircraft, spacecraft, persons on board such craft and the rights and obligations of operators and users of aircraft and spacecraft, taking into consideration the economic and technical problems involved and aspects of national and international policies.

25.308 Civil Procedure

Advanced studies in procedure in civil actions and other proceedings, with reference to the evolution of the present form of civil action, pleadings, discovery and other pre-trial devices; joinder of parties; jurisdiction (including equitable jurisdiction), appellate procedure.

25.309 Company Finance

Problems of company finance, including the raising of capital and loans, rights to dividend and distribution of assets, amendment of corporate instruments, re-organisation, holding and subsidiary companies.

25.310 Comparative Law

A study of selected systems of law with particular reference to the development of civil law on the Continent of Europe.

25.311 Conflict of Laws

Selected studies in the law governing transactions with elements outside New Zealand courts, fundamental concepts of conflict of laws, and the validity and enforcement of foreign judgments.

25.312 Creditors Remedies

Legal problems arising where a debtor is in financial difficulties. Selected studies in the rights of unsecured creditors in bankruptcy and company liquidation; other methods of enforcing judgments.

25.313 Environmental Law

An analysis and criticism of the existing legal framework relating to the use and protection of the physical environment (Courts, agencies and Parliament as institutions for dealing with environmental problems. A study of specific environmental problems such as air and water pollution, agricultural chemicals, marine pollution). International aspects of environmental problems.

25.314 Evidence

The general principles of the law of evidence in civil and criminal cases. A critical evaluation of forensic law in New Zealand, including a comparison with systems of trial in other countries.

25.315 International Trade

Advanced problems in international commercial law. Selected studies in commercial law, administrative law and international law problems arising from the transfer of goods from one country to another, with consideration of public controls such as tariffs and import licensing.

25.316 Law Reform

A study of the institutions responsible for law reform and the methods by which reform is achieved. A selection of legal rules and institutions which have been, or may be, the subject of reform.

25.317 Legal Philosophy

Advanced studies in the philosophy of law and legal sociology.

25.319 Planning Law

An introduction to the law relating to town and country planning. Selected studies in urban and rural planning problems, and processes and decisions of planning authorities, and the function of courts in planning matters.

25.320 Restitution

Selected problems focusing on situations and available remedies where benefits have been wrongfully or unfairly acquired. Particular consideration will be given to the contract-breaking plaintiff who has rendered services, contracts procured by duress, the murdering beneficiary; benefits acquired from illegal transactions, profits made from improperly acquired information, and good faith acquisition and dealing with property to which defendant is not entitled and with trust property.

25.321 Supervised Research**25.322 Vendor and Purchaser**

Advanced problems in the sale of land. Selected case studies examining the legal and taxation consequences of the agreement for sale and purchase and the conveyance of land, and the function and responsibility of the lawyer acting in such transactions.

25.323 Estate and Tax Planning

The principles of the law relating to estate and gift duties, estate planning and tax planning.

25.325 Maori Land Law

Legal problems of Maori land holding.
Occupation and use.

25.326, 25.327, 25.328, 25.329, 25.330, 25.331, 25.332, 25.333, 25.334

Special Topics to be prescribed by the Dean of the Faculty of Law.

Any one or more optional courses prescribed for the Second Law Examination.

25.408 Legal Practice III

Note: Students should consult the current Law School Handbook to find out the size of these courses, and any prerequisites for taking them, since these may vary from time to time.

PRESCRIPTIONS FOR LLB (Hons)**For the Subjects Listed in Regulation 4****25.341 Admiralty Law**

Admiralty jurisdiction, extent of territorial waters, sources of maritime law, nature of maritime liens, bills of lading and charter parties, aspects of conflict of laws in admiralty, rules established by international law in admiralty cases.

25.342 Air and Space Law

Same prescription as for 25.324 (LLB).

25.343 Aspects of Industrial Law

Analysis of selected problems in industrial law and industrial relations.

25.344 Business Regulation

Government regulation of business, analysis of scope of control, its purposes and dangers, the common law and statutory regulation of trade and industry, restraint of trade and monopoly restrictive trade practices.

25.345 Causes of Crime

The significance of primary and secondary criminogenic factors.

The law of landlord and tenant, including statutory tenancies and fair rents legislation.

25.359 Law Reform

Methods of Law Reform with particular reference to New Zealand.

Note: Students may be required to prepare research papers for Law Reform Committees.

25.360 Law Relating to Computers

An introduction to selected topics related to computers, including a brief introduction to elementary programme preparation, computerisation of statute and case law, protection of software, labour relations affected by computers and databank privacy.

25.361 Legal Accounting

A critical examination of generally accepted accounting principles, an introduction to corporate financial problems, accounting problems of a law office.

25.362 Legal Aspects of Race Relations

Investigation of legal efforts to combat discrimination, and an inquiry into the validity of law in this field.

25.363 Legal Education

The objectives, methods and development of legal education and the functions and obligations of the law teacher.

25.364 Legal History

The effect on law of social, economic and constitutional change, with particular reference to England and New Zealand.

25.365 Legal Problems of the European Common Market

The objectives, structures and functions and relationships of the European Economic Community and other European regional arrangements.

25.366 Local Government Law

The law developed and applied in local government, construction and operation of statutory powers of local and public authorities, bylaws, financing, contractual and tortious liability.

25.367 Maori Land Law

Legal problems of Maori land holding. Occupation and use.

25.368 Marine Insurance Law

The law governing marine insurance.

25.369 Medico-Legal Problems

A study of the relationship between law and medicine, preparation and presentation of medical proof in litigation, expert medical testimony.

25.370 Military Law

Aspects of military law, the relation of civil to military jurisdiction, court martial procedure.

25.371 Penology

An analysis of theory and practice in regard to the punishment and treatment of the offender.

25.372 Problems in Choice of Law

The application of choice of law methods to specific situations, the feasibility of developing choice of law rules and principles consistent with predictability and uniformity.

25.373 Problems in Contract and Tort

Analysis of selected problems arising in the law of contract and the law of tort.

25.374 Problems in Criminal Law

Analysis of selected problems in criminal law.

25.375 Problems in Equity

Problems relating to the equitable jurisdiction of the courts, with particular reference to the law of trusts.

25.376 Problems in Legal Philosophy

Selected jurisprudential problems of definition of law; the concept of justice, relation of law and morality, the function of legal analysis.

25.377 Professional Responsibility

The role of the legal profession in modern society, the obligations of a barrister and solicitor, conflict of interest, defending the unpopular client or cause.

25.378 Registration of Title to Land

Legal problems of the Torrens system of title registration.

Advanced studies in the history, exposition and comparison of selected topics of the law of transport, including land, sea and air transport, including rules of international law and of municipal law.

25.563, 25.564 Special Topic

To be prescribed by the Dean of the Faculty of Law.

25.565, 25.566 Special Topic

To be prescribed by the Dean of the Faculty of Law.

25.567, 25.568 Special Topic

To be prescribed by the Dean of the Faculty of Law.

25.569, 25.570 Special Topic

To be prescribed by the Dean of the Faculty of Law.

25.571, 25.572 Special Topic

To be prescribed by the Dean of the Faculty of Law.

25.573, 25.574 Special Topic

To be prescribed by the Dean of the Faculty of Law.

DIPLOMA COURSE REGULATIONS**DIPLOMA IN CRIMINOLOGY****DipCrim**

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Criminology shall follow a course of study of not fewer than two years.

List of Subjects

2. The subjects of examination for the Diploma in Criminology shall be:
Division I

(1) 25.101 Criminal Law

(2) Two Sociology papers at first-year level, these papers to be approved by the Head of the Department of Sociology and by the Dean of the Faculty of Law.

(3) Two further papers, selected from any of those taught within the Departments of:

Anthropology

Education

Philosophy

Psychology or

Sociology

and each approved by the Head of the Department concerned and by the Dean of the Faculty of Law.

(4) 25.210 Criminology

Division II

(5) 25.241 Studies in criminal aetiology

(6) 25.242 Penal Policy

(7) 25.243 Crime and its prevention in New Zealand

(8) 25.244 Research Methods in Criminology

Exemptions

3 (a) An exemption shall be granted to any candidate who for the purposes of any other Diploma or any Degree of this University has passed any unit or subject or has gained any Certificate of Proficiency which in the opinion of the Dean of the Faculty of Law is the same as or substantially equivalent to any subject in Division I under Regulation 2, notwithstanding anything to the contrary in Regulation 12 of the Enrolment and Course Regulations (General) but subject to the payment of the prescribed fee for an exempted unit.

(b) No exemption shall be granted in respect of any subject in Division II under clause (a) of this Regulation.

Course Sequence

4. Except with the approval of the Senate, a candidate shall not take any subject in Division II under Regulation 2 until he has passed all subjects in Division I under that Regulation.

Honours

5 (a) The Diploma may be awarded with Honours upon the results of a Dissertation (25.614) which shall

(i) embody the results of an investigation made by the candidate and approved by the Dean of the Faculty of Law in some branch of Criminology, and

(ii) be submitted to the Registrar no later than 1 November in the third year following the candidate's completion of the course prescribed in Regulation 2 or at a date approved by the Dean of the Faculty of Law.

(b) In the case of a Dissertation failing to reach a standard sufficient for Honours, the candidate may be awarded the Diploma without Honours.

6. A candidate wishing to take Honours shall obtain the approval of the Senate to do so before 31 January of the year in which he wishes to enrol, provided that no person who has been awarded the Diploma in Criminology shall be eligible to take the Diploma with Honours.

Note: An abstract is to be submitted with the dissertation, see Examination Regulation 14.

Personal Course of Study

7. The personal course of study of every candidate shall require the approval of the Senate, provided that the Senate may delegate to the Faculty of Law the power to give such approval but provided further that, where approval of a course of study has been withheld by a decision of the Faculty of Law acting under delegation of that power, the candidate may appeal to the Senate against that decision; and "approval" shall include the right to approve of a pass in any subject included in Regulation 2 of the previous Regulations in substitution for a pass in any subject in Regulation 2 of these Regulations.

Revocation and Transitions

8(a) The course of every candidate shall be governed by these Regulations.

(b) The Regulations governing the Diploma in Criminology which were included in the University of Auckland Calendar for 1972 (in this Regulation called "the 1972 Regulations") are hereby revoked: provided that a candidate who enrolled under the 1972 Regulations or under any previous Regulations for the Diploma in Criminology included in the University of Auckland Calendar and who, except for presenting a satisfactory Dissertation, has completed the course therein prescribed may

(i) apply to present a Dissertation and to take Honours in accordance with Regulation 6 as if the course completed under the 1971 Regulations or earlier Regulations were the subject prescribed under Regulation 2, or

(ii) apply to be awarded the Diploma without Honours.

(c) The course of every candidate who enrolled under the 1972 Regulations or under any previous Regulations for the Diploma in Criminology included in the University of Auckland Calendar shall be settled by the Dean of the Faculty of Law.

9. These Regulations shall come into force on 1 January 1973.

DIPLOMA COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR DipCrim

For the Subjects Listed in Regulation 2, Division II

25.241 Studies in Criminal Aetiology

Investigation of certain individual and general factors in the causation, transmission and distribution of crime in the contexts of sociology, economics, psychology and psychiatry.

25.242 Penal Policy

The scope, aims and assumptions of the criminal justice system. The police. The Courts and the sentencing process. Measures available for juveniles. The treatment of the adult offender: institutional and non-institutional sanctions and their impact. Evaluation of penal measures.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF MUSIC

BMus

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Music shall

- (a) before his enrolment for this Degree satisfy the Head of the Department of Music that he has attained a suitable standard in music, and
- (b) follow a Course of study of not fewer than three years.

Course Entrance

2. A candidate for entrance to the Course of study for the Degree shall give notice in writing on the prescribed form to the Registrar not later than 30 November immediately preceding the year in which the candidate wishes to enrol.

Course Requirements

3. The Course of study for the Degree shall consist of twenty-two papers selected from those listed in the Schedule to these Regulations. Papers are classified in three stages, I, II and III.

4. Every Course of study shall include

- (a) at least four papers in Music at Stage I level.
- (b) no more than eleven papers in Music at Stage II level.
- (c) at least three papers in Music at Stage III level.
- (d) at least two papers (not being papers in Music) from those prescribed for the Degree of Bachelor of Arts (whether Group A or Group B of the Schedule to the Regulations for that Degree).

5. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.

6. A candidate shall participate in approved choral or instrumental work within the University throughout his enrolment for this Degree, to the satisfaction of the Head of the Department of Music.

7. A student must satisfy the Head of Department that the necessary tests in Aural training have been undertaken and passed.

Note: The training consists of listening to a course of tests on tapes and working at exercises coupled with these tests. Students will be periodically examined. Good students will be able to complete the prescribed course in a year; others may take longer.

8. The Senate may on the recommendation of the Head of Department grant a credit of two unspecified Music papers at Stage I level towards this Degree to any student who has passed the examination in Performance 28.120 for the Degree of Bachelor of Music (Performance) or Diploma in Music with a grade of C-, or a credit of two unspecified Music papers at Stage II level towards this Degree to any student who has passed the examination in Performance 28.220 for the Degree of Bachelor of Music (Performance) or Diploma in Music with a grade of C-.

Note: See Regulations 4 and 6 of the Regulations for the Degree of Bachelor of Music (Performance) and Regulations 6 and 7 of the Regulations for the Diploma in Music.

9. A candidate wishing to be enrolled in any subject which is also a subject of examination for the Degree of Bachelor of Arts shall comply with such of the course regulations for that Degree relating to prerequisites, combinations of subjects, and practical work, as are applicable to that subject, save where the Senate in individual cases allows otherwise.

10. The Senate may, in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

Application of Regulations and Transitional Provisions

11 (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.

(b) A candidate who gained credit in any unit or units or was entitled to exemptions under any of the former Regulations for this Degree shall be credited with such equivalent paper or papers as the Senate may determine.

(c) For candidates who enrolled for this Degree before 1976 the subject prerequisites, corequisites, and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department of Music.

12. These Regulations shall come into force on 1 January, 1976.

Schedule

1. This Schedule sets out paper numbers, subjects, prerequisites, corequisites, restrictions, and other conditions applying to Courses of study for the Degree of Bachelor of Music.

2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the *Calendar*.

3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

The papers prescribed for this Degree are:

MUSIC

Note: The number enrolling in certain papers is restricted. Candidates should consult Calendar Prescriptions for BMus, paragraph 2.

THE DEGREE OF BACHELOR OF MUSIC (PERFORMANCE)

BMus (Performance)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Music (Performance) shall
 - (a) before his enrolment for this Degree satisfy the Head of the Department of Music that he has attained a suitable standard in music, including performance and
 - (b) follow a Course of full-time study of not fewer than four years, and
 - (c) follow his Course of study continuously except where and in so far as the Head of Department permits otherwise.

Course Entrance

2. A candidate for entrance to the Course of study for this Degree shall give notice in writing on the prescribed form to the Registrar not later than 30 June immediately preceding the year in which the candidate wishes to enrol.

Course Requirements

3. The Course of study for the Degree shall consist of twenty-eight papers selected from those listed in the Schedule to these Regulations. Papers are classified in four stages — I, II, III and IV.

4. For Performance 28.120, 28.220, 28.320 and 28.420, a candidate shall
 - (a) carry out performance work (including the giving of class demonstrations), and
 - (b) attend all classes in individual training and such classes in ensemble training, including orchestral rehearsals, as may be required, and
 - (c) pass a Performance examination, with a grade of C or better in the case of 28.120 and 28.220, in any one of the following subjects.

†Flute	†French Horn	Violin	Piano
†Oboe	†Trumpet	Viola	Harpsichord
†Clarinet	†Trombone	Cello	Organ
†Bassoon	†Tuba	†Double Bass	Singing
			†Percussion

Note: (i) † This instrument may not be taught during the current Calendar year.

(ii) A candidate who passes the subject Performance 28.120 with a grade of C- and is therefore not eligible to proceed with the Course of study for BMus (Performance) may in respect of that pass apply for a credit of two unspecified Stage I Music papers towards the Course of study for the Degree of BMus. A candidate who passes the subject Performance 28.220 with a grade of C- and is therefore not eligible to proceed with the Course of study for BMus (Performance) may in respect of that pass apply for a credit of two unspecified Stage II Music papers towards the Course of study for the Degree of BMus. See Regulation 8 of the Regulations for that Degree.

(d) A candidate presenting Singing shall attend such language Courses and do such language work as the Head of the Department of Music may require.

(e) Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ, its technique and repertoire, as part of the Course.

5. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.

6. A candidate who (having been a candidate for this Degree) has been granted credit towards the Degree of Bachelor of Music under Regulation 8 of the Regulations for that Degree shall not at a later time re-enrol for this Degree.

Note: See note to Regulation 4 of these Regulations.

7. It shall be a condition of a candidate's being permitted to pursue or continue this Course of study that he

(a) shall not undertake any musical work, including musical competitions and examinations, outside the Course without the consent of the Head of Department of Music, and

(b) shall participate in approved choral or instrumental work within the University throughout his enrolment for this Degree, to the satisfaction of the Head of Department of Music.

(c) shall not enrol for any other Course of study without the leave of the Head of Department of Music.

8. (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.

(b) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

(c) A candidate who gained credit in any unit or units of a Professional Examination under any of the Regulations for the Degree of Bachelor of Music (Executant) shall be credited with such equivalent paper or papers as the Senate may determine.

9. These Regulations shall come into force on 1 January 1976.

Schedule

1. This Schedule sets out groups, paper numbers, subjects, prerequisites, corequisites, restrictions, and other conditions applying to Courses of study for the Degree of Bachelor of Music (Performance).

2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the *Calendar*.

3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

The papers prescribed for this Degree are:

MUSIC

Note: The number enrolling in certain papers is restricted. Candidates should consult Calendar Prescriptions for BMus, paragraph 2.

THE DEGREE OF BACHELOR OF MUSIC (PERFORMANCE) WITH HONOURS

BMus (Performance) (Hons)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Music (Performance) with Honours shall before his enrolment for this Degree
 - (a) have been admitted or qualified for admission to the Degree of Bachelor of Music (Performance)
 - (b)(i) have obtained a grade higher than C- in each compulsory paper in Music at Stage II and Stage III levels provided that in special circumstances where the Head of Department so recommends the Senate may accept a C- pass in any paper or papers, and
 - (ii) satisfy the Head of Department of his proficiency as a performer
 - (c) have been accepted by a Music Department Selection Committee for study for the Degree of Bachelor of Music (Performance) with Honours, at an interview held in the December prior to first enrolment for the Degree of Bachelor of Music (Performance) with Honours.
2. Subject to the Admission Ad Eundem Statum Regulations, a candidate may enrol for this degree having completed at least 24 papers including at least three at advanced level for the Bachelor of Music (Performance) degree, provided that
 - (a) his proposed course for the degree of Bachelor of Music (Performance) with Honours is a full-time course and will extend over not fewer than two academic years
 - (b) he has obtained grades averaging B- or above in the Stage III level papers for the Bachelor of Music (Performance) degree
 - (c) he enrolls in not more than one paper in the first year of his course for the degree of Bachelor of Music (Performance) with Honours
 - (d) he satisfies the requirements of Regulations 1(b) and (c) above
 - (e) should he not pass the remaining paper or papers in the first year of his Bachelor of Music (Performance) with Honours course, his Honours course shall be suspended until he has passed the remaining paper or papers.
3. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Music (Performance) with Honours shall follow a course of full-time study of not less than one year.

Course Requirements

4. The Course of study for this Degree shall consist of 28:525 Performance (which shall count as five papers) and any one of the papers 28.400-402, 28.404-407, 28.409-411, 28.414-416, 28.419, 28.421-423, 28.604 as prescribed for the Degree of Master of Music.
5. For Performance 28.525 a candidate shall
 - (a) carry out performance work (including the giving of class demonstrations)
 - (b) attend all classes in individual training and such classes in ensemble training, including orchestral rehearsals, as may be required
 - (c) pass a performance examination in any one of the following subjects:

†Flute	†French Horn	Violin	Harpsichord	†Percussion
†Oboe	†Trumpet	Viola	Piano	
Organ	†Clarinet	†Trombone	Cello	
Singing	†Bassoon	†Tuba	†Double Bass	

(d) Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ, its technique and repertoire as part of the course.

(e) A candidate presenting Singing for this Degree shall attend such language courses and do such language work as the Head of the Department of Music may require.

6. It shall be a condition of a candidate's being permitted to pursue or continue this Course of study that he

- (a) shall not undertake any musical work, including musical competitions and examinations, outside the course without the consent of the Head of the Department of Music
 - (b) shall participate in approved choral or instrumental work within the University throughout his enrolment for this Degree, to the satisfaction of the Head of the Department of Music, and
 - (c) shall not enrol for any other Course of study without the leave of the Head of the Department of Music.
7. The degree of Bachelor of Music (Performance) with Honours shall be awarded to candidates who have fulfilled these Regulations and whose work throughout the course has been in the opinion of the Faculty of Music of a sufficiently high standard.
8. The Senate may in such exceptional cases as it thinks fit, approve a personal Course of study which does not conform to the foregoing Regulations.
9. These Regulations shall come into force on January 1, 1980.

THE DEGREE OF MASTER OF MUSIC

MMus

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Music shall before his enrolment for this Degree
 - (a) have been admitted or qualified for admission either to the Degree of Bachelor of Music or to the Degree of Bachelor of Music (Performance), and
 - (b) (i) have obtained a grade higher than C- in each compulsory paper in Music at Stage II and Stage III levels provided that in special circumstances where the Head of Department so recommends the Senate may accept a C- pass in any paper or papers, and
 - (ii) if taking Performance for this Degree, satisfy the Head of the Department of his proficiency as a performer.
 - (c) have been accepted by a Music Department Selection Committee for study for the Degree of Master of Music, at an interview held in the December prior to first enrolment for the Degree of Master of Music.
2. Subject to the Admission Ad Eundem Statum Regulations, a candidate may enrol for this degree having completed at least 20 papers including at least three papers at advanced level for the Bachelor of Music Degree or having completed at least 24 papers including at least three papers at advanced level for the Bachelor of Music (Performance) degree, provided that
 - (a) his proposed Course for the Degree of Master of Music is a full-time Course and will extend over not fewer than two academic years;
 - (b) he has obtained grades averaging B- or above in the Stage III level papers for the Bachelor of Music Degree or, in the case of a student taking Performance for a Masters Degree, grades averaging B- or above in the Stage III level papers for the Bachelor of Music (Performance) degree;
 - (c) he enrolls for the paper or papers in the first year of his Course for the Degree of Master of Music;
 - (d) he satisfies the requirements in Regulations 1(b) and (c) above;
 - (e) should he not pass the remaining paper or papers in the first year of his Master of Music Course, his Masters Course shall be suspended until he has passed the remaining paper or papers.
3. No candidate shall be accepted for enrolment for this degree if he has been previously awarded the degree of Bachelor of Music (Performance) with Honours in this University.
4. A candidate for this Degree shall pursue a course of study of not fewer than two years.
5. A candidate shall participate in approved choral or instrumental work within the University throughout his enrolment for this Degree, to the satisfaction of the Head of the Department of Music.

Course Content

6. The Course of study for this Degree shall consist of
 - (a) four papers and a Composition which counts as two papers, or

- (b) four papers and a Recital which counts as two papers, or
- (c) four papers and a Thesis which counts as two papers.

7. (a) The papers prescribed for this Degree are:

- 28.400 Special Topic
- 28.401 Special Topic
- †28.402 Aesthetics in Music
- †28.404 Studies in Organology
- 28.405 History of Music (Special Period)
- 28.406 Studies in Music Notation
- 28.407 Studies in Music Theory
- 28.409 Analysis and Criticism
- 28.410 Composition
- 28.411 Fugue
- 28.414 Ethnomusicology
- 28.415 Advanced Orchestration
- †28.416 Electronic Music
- 28.419 Studies in Performance Practice
- 28.421 Seminar in Music Literature
- 28.422 Stylistic Study of a Specific Composer's Work
- 28.423 Seminar in Musicology
- 28.520 Performance
- 28.604 Dissertation

(b) A candidate intending to write a Composition (28.610) for this Degree must take Composition 28.410 and at least one of the following papers: 28.409, 28.411, 28.415, 28.416.

(c) A candidate intending to present a Recital (28.620) must take Performance (28.520) and at least one of the following papers: 28.404, 28.419, 28.421.

(d) A candidate intending to write a Thesis (28.601) must take Seminar in Musicology (28.423) and at least one of the following papers: 28.406, 28.407, 28.409, 28.414. He must also satisfy the Head of Department of Music of his proficiency as a performer and his ability to read an approved language other than English.

8. (a) A candidate for this degree may with the approval of the Head of Department of Music take one paper not previously taken from those listed under Music III of the Schedule to the Regulations for the Degree of Bachelor of Music, with the exception of the following papers: History of Musical Style (28.303-308), Conducting (28.318).

(b) A candidate for this degree may with the permission of the Senate take one Stage III or one Masters paper in a subject other than Music, if such paper is related to the candidate's research or professional interests. Such paper shall substitute for and be equivalent to one paper in the degree of Master of Music.

Composition

9. When a candidate elects to write a Composition (28.610), the following conditions shall apply:

- (a) The Composition shall be prepared under the supervision of a University teacher.
- (b) A candidate may present his Composition in the year in which he takes the papers or, subject to the provisions of paragraph (c) of this regulation, in a subsequent year.
- (c) A candidate shall present his Composition within three years of the year in which he takes the papers, provided that the time may be extended in exceptional cases by the Senate.
- (d) The candidate shall submit his Composition together with a certificate from the supervisor stating that the work was carried out by the candidate under his supervision to the Registrar by 1 November in the year in which it is to be presented, or at a subsequent date if so arranged with the Head of the Department.
- (e) If the examiner with the concurrence of the assessor so recommends, a Composition which is not satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

Performance

10. When a candidate elects to present a Recital (28.620), the following conditions shall apply:

- (a) A candidate shall present a concert Recital of approximately one hour's duration, the programme to be approved by the Head of the Department. The candidate shall submit his

proposed programme to the Head of the Department for approval not later than the end of the first term.

(b) The Recital shall be restricted to ONE of the following:

(i) An approved orchestral instrument

(ii) The pianoforte

(iii) The organ and/or harpsichord

(iv) Any other instrument approved by the Head of the Department

(v) Singing.

(c) A candidate may present his Recital in the year in which he takes the papers or, subject to provisions of paragraph (d) of this regulation, in a subsequent year.

(d) A candidate shall present his Recital within three years of the year in which he takes the papers, provided that the time may be extended in exceptional cases by the Senate.

(e) The candidate shall present himself for the Recital on a date to be specified by the Head of the Department.

(f) If the Recital is not satisfactory and if the examiner with the concurrence of the assessor so recommends, the candidate may be permitted to present a further Recital at a later date to be specified by the examiner.

Thesis

11. When a candidate elects to write a Thesis (28.601), the following conditions shall apply:

(a) The Thesis shall embody the results obtained by the candidate in an investigation relating to some branch of Music.

(b) A candidate may present his Thesis in the year in which he takes the papers or, subject to the provisions of paragraph (c) of this regulation, in a subsequent year.

(c) A candidate shall present his Thesis within three years of the year in which he takes the papers, provided that the time may be extended in exceptional cases by the Senate.

(d) the candidate shall submit his Thesis to the Registrar by 1 November of the year in which it is to be presented or at a subsequent date if so arranged with the Head of the Department.

(e) If the examiner with the concurrence of the assessor so recommends, a thesis which is not satisfactory shall be returned to the candidate, who may be permitted to revise it and to re-submit it by a later date to be specified by the examiner.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Honours

12. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate sits an examination for the Degree are unsatisfactory or if the Composition or Performance or Thesis at its first presentation is unsatisfactory; provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he shall be eligible for the award of Honours subject to the provisions of sub-clause (c) of this Regulation.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree, provided that this period may in exceptional cases be extended by the Senate.

Special Provision

13. The Senate may in such special circumstances as it thinks fit approve a personal course of study which does not conform to the foregoing regulations.

* This paper will not be taught during the current *Calendar* year

† This paper may not be taught during the current *Calendar* year

†† This paper is taught in even-numbered years

THE DEGREE OF DOCTOR OF MUSIC

MusD

General Provisions

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Music shall hold the Degree of Master of Music of the University of Auckland or Bachelor of Music of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Music until at least five years after graduation to the qualifying degree.
3. The Degree of Doctor of Music shall be awarded for distinction in musical composition.
4. The candidate shall submit not more than three works of his own, published or otherwise, such works to be selected from the following:
An oratorio, an opera, a cantata, a symphony for full orchestra, a concerto, an extended piece of chamber music.
5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.
6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:
 - (a) Three copies of the work to be examined,
 - (b) A statutory declaration which shall:
 - (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and
 - (ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and
 - (iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination Procedure

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall:
 - (a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether in his opinion the examination should proceed or whether the candidate should be advised to withdraw his application.
 - (b) State the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.
8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may:
 - (a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or
 - (b) elect to proceed with examination.
9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.
- (b) The contents of the Moderator's report shall not be communicated to the Examiners.
10. The duties of each Examiner shall be:
 - (a) to report independently on the quality of the work; and
 - (b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A re-submission shall be accompanied by a further full examination fee.
11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.
12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the degree shall be awarded.
13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two Examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner; and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR BMus

Restrictions on Entry to Courses

1. A candidate before enrolment for this Degree is required to satisfy the Head of Department of Music that he or she has attained a suitable standard in music, at an interview to be held in the first weeks of February before University enrolment week. A candidate who has not taken Music for the University Entrance or University Bursary Examinations will be required during his or her interview to satisfy the Head of Department of Music that he or she has reached an acceptable standard in harmony and aural perception. Application to the Registrar must be made on the prescribed form and forwarded to the Secretary, Music Department, by 30 November (for entry to a course in the following year).

Composition 28.110. Candidates wishing to take this paper in the *first* year of their course will be asked to state this in their application form. They will be required at interview to satisfy the Head of Department of Music as to their competence in Composition in order to be admitted to this course in the first year of their studies.

2. Enrolments in the following papers will be restricted as follows:

Number	Title of Paper	Restricted to	Method of Restriction
28.101	Musicianship	40	Interview
28.102	Materials of Music	40	Interview
28.103	History of Musical Style	80	Interview
28.110	Composition	15	Interview. See paragraph 1 above.
28.112	Keyboard Harmony & Score-playing	20	Interview
28.122	Introduction to Harmony and Counterpoint	40	Interview
28.202	Harmony and Counterpoint	20	Results in Stage I papers
28.210	Composition	10	Results in Stage I papers
28.211	Renaissance Polyphony	20	Results in Stage I papers
28.212	Keyboard Harmony & Score-playing	15	Results in Stage I papers
28.215	Orchestration	15	Results in Stage I papers
*28.216	Studies in Electronic Music	10	Results in Stage I papers
28.217	Music Education	15	Results in Stage I papers and interview
28.302	Advanced Harmony & Counterpoint	15	Results in Stage II papers and interview
28.310	Composition	5	Results in Stage II papers
*28.318	Conducting		Results in Stage II papers and interview

28.101 Musicianship (one paper)

The development of musicianship skills through the art of listening, related aural perception, elementary conducting and vocal techniques including sight singing. Listening skills will concentrate on the development of perception through aural analysis of short works in varying styles using appropriate class and recorded material.

28.102 Materials of Music (one paper)

The development of musical sensitivity through a creative study of the elements of music: rhythm, melody, harmony, timbre, texture, style and form. Compositions will be set in similar styles to those studied in History of Musical Style (28.103). These will be performed and discussed in small group tutorials.

28.103 History of Musical Style (one paper)

From the Gregorian age to the present day, with reference to prescribed scores. In addition to two weekly lectures, a weekly seminar is held, dealing with current musical events, and giving an opportunity for students to discuss musical topics.

28.110 Composition

(one paper)

The composition of new musical material and examination of other sources. At the end of the year students, working under the supervision of their teacher, shall submit completed original compositions, not later than two calendar months from the commencement of the third term.

28.112 Keyboard Harmony and Score-Playing

(one paper)

Playing at sight from vocal and instrumental scores and from figured basses; harmonization of melodies.

28.113 Acoustics

(one paper)

The fundamental principles of oscillations and wave propagation; stationary waves; resonance; loudness; pitch; tone quality; intervals and scales; the principles of operation of stringed, woodwind, brass and other instruments; the electronic production and reproduction of sound; and the acoustics of rooms. This is the same paper as Physics 31.105.

28.122 Introduction to Harmony and Counterpoint

(one paper)

Diatonic Harmony: Practical exercises and analyses of examples from Seventeenth to Nineteenth Century Music.

28.202 Harmony and Counterpoint

(one paper)

Tonal harmony and counterpoint, diatonic and chromatic; vocal and instrumental. History of Musical Style

28.203 The Middle Ages**

(one paper)

A survey of music in the Middle Ages with regard to notation, forms, instruments, theory and the socio-historical-cultural background.

***28.204 The Renaissance††**

(one paper)

A survey of music in the Renaissance period, with regard to notations, forms, instruments, theory and the socio-historical-cultural background.

28.205 The Baroque Era**

(one paper)

A survey of music in the Baroque Era, including examination of forms, instruments, notation, theory and the general background.

***28.206 The Classical Era††**

(one paper)

A survey of music in the Classical period, including examination of forms, instruments, notation, theory and the general background.

28.207 The Romantic Era**

(one paper)

A survey of music in the Romantic Era, with special attention to forms, the development of concert life, opera, musicology, and the general cultural-historical background.

***28.208 The Twentieth Century††**

(one paper)

A survey of music in the Twentieth Century, embracing nationalism, serialism, electronic music, jazz and pop, with attention to the historical, cultural and sociological background, and including films and other visual material.

28.209 Materials and Analysis

The study and analysis of melodic, harmonic, rhythmic, structural and other compositional elements, through the examination of a wide range of music from plainsong and early polyphony to the present.

28.210 Composition

(Counts as two papers)

The composition of works for a wide variety of media in conjunction with analysis of short pieces. Expansion of technique and realisation of performances.

28.211 Renaissance Polyphony

(one paper)

Style, technique and procedure in the vocal polyphony of the fifteenth and sixteenth centuries.

28.212 Keyboard Harmony and Score-Playing

(one paper)

Playing at sight from vocal scores, including the C clef, and orchestral scores; the realization of Eighteenth Century continuo parts; harmonization of melodies; transposition; improvisation. The development of any or all of these studies will be directed towards the particular keyboard instrument — piano, organ, or harpsichord — of each student

28.214 Ethnomusicology**Music of the World's Peoples**

(one paper)

Historical development of ethnomusicology; the culture concept; music as human behaviour; elementary structural analysis; folk music; introduction to music styles from Asia, the Americas and Africa.

28.215 Orchestration

(one paper)

An arrangement from short score for an orchestra not exceeding the following: 2 flutes, 2 oboes, 2 clarinets, 2 bassoons, 4 horns, 2 trumpets, 3 trombones, tuba, harp, percussion, strings.

***28.216 Studies in Electronic Music††**

(one paper)

A study of the major works in this medium composed during the last thirty years. Introduction to studio techniques; tape music and different methods of sound synthesis. Applications to personal creative work.

28.217 Music Education

(one paper)

A variety of experiences in Music Education, including a micro-teaching project, child development in relation to learning music and music in aesthetic education.

†28.221 Technique and Repertoire

(one paper)

This course is designed to cover subjects of importance to students of the various instruments, or to students of singing.

(a) For instrumentalists the course will cover:

(i) The evolution of instruments and their use. Present day interpretation in the light of historical knowledge.

(ii) Great performers and schools of playing. Style in performance.

(iii) Repertoire.

(iv) The construction and planning of the instruments, where relevant.

(b) For singers the course will cover:

(i) The evolution of opera, oratorio, lieder and art song.

(ii) Great performers and styles in performance.

(iii) Singers' repertoire.

(iv) Basic stagecraft.

***28.222 History of Church Music**

(one paper)

The examination of Christian Church Music.

28.302 Advanced Harmony and Counterpoint

(one paper)

Advanced Harmony and Counterpoint, and Analysis of large-scale forms from the Sixteenth to Twentieth Centuries.

28.303-308 History of Musical Style

As for papers 28.203-208 respectively, but taken and examined at Stage III level.

28.309 Materials and Analysis

(one paper)

The study and analysis at advanced level of melodic, harmonic, rhythmic, structural and other compositional elements through the examination of a wide range of music from plainsong and early polyphony to the present.

28.310 Composition

(counts as three papers)

Composing for a wide variety of media, voices, instruments, tape. Special assignments and observation of Twentieth Century music will be included.

28.314 Ethnomusicology

(one paper)

Music of Oceania

Maori music and music styles of Polynesia, Melanesia and Micronesia.

28.316 Studies in Contemporary Music**

(one paper)

Music since 1960

A study of music of our times including works by Stockhausen, Berio, Boulez, Xenakis, Ligeti, Maxwell Davies, Penderecki and the Polish School, and recent works by selected New Zealand composers. Individual projects both practical and written.

***28.318 Conducting**

(one paper)

The basic elements of baton technique; rehearsal planning and management, practical work with recordings and with class students leading to practical work with choral and instrumental groups.

28.323 Special Topic

(one paper)

As prescribed from year to year by Head of Department

For 1981: Wagner's *Ring*

A critical and analytical study of the *Ring*, touching also on the sources and genesis of the work as well as its influence on the arts during the last hundred years.

28.324 Special Topic

For 1981: Russian Chamber Music

(one paper)

As prescribed from year to year by Head of Department

* This paper will not be taught during the current *Calendar* year.

† This paper may not be taught during the current *Calendar* year.

** Taught in odd-numbered years

†† Taught in even-numbered years

PRESCRIPTIONS FOR BMus (Performance)**Restrictions on Entry to Courses.**

A candidate before enrolment for this Degree is required to satisfy the Head of the Department of Music that he or she has attained a suitable standard in music including performance at an interview to be held during the August/September study break preceding the year of enrolment.

Application to the Registrar must be made on the prescribed form and forwarded to the Secretary, Music Department, by 30 June (for entry to the course in the following year).

The prescriptions for papers for the Degree of Bachelor of Music (Performance) shall be the same as those for the corresponding subjects for the Degree of Bachelor of Music, and as follows:

Performance

See section 4(a), (b) and (c) of the Regulations for the Degree of Bachelor of Music (Performance)

Performance 28.120 counts as 3 papers

Performance 28.220 counts as 3 papers

Performance 28.320 counts as 4 papers

Performance 28.420 counts as 4 papers

A candidate presenting Singing shall attend such language courses and do such language work as the Head of the Department of Music may require. The most suitable paper in Italian is Paper 35.104 — Italian Language in Opera and Song. (Study of Italian texts of sung material; operatic libretti, madrigals, motets etc; comprehension and pronunciation)

Similar papers in German and in French will be available as required. These papers should be taken in the first, second and third years, respectively, of a student's Performance course, and enrolment should be for Certificate of Proficiency (COP).

Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ, its technique and repertoire, as part of the course.

PRESCRIPTIONS FOR BMus (Performance) (Hons)

28.525 Performance

(five papers)

Preparation for and presentation of a public performance of a well-balanced recital programme.

PRESCRIPTIONS FOR MMus

Restriction on entry to Courses

1. Interview of Board of teaching members of Music Faculty; and
2. Performance where applicable.

Note: The availability of these papers will depend on the number of students and their choice.

28.400 Special Topic

Candidates will have opportunity to deal with aspects of music not covered by other papers.

28.401 Special Topic

Candidates will have opportunity to deal with aspects of music not covered by other papers.

†28.402 Aesthetics in Music

The beautiful in music; Music and meaning; Art as an experience; Perception and aesthetic value.

†28.404 Studies in Organology

Selected topics in the History of Musical Instruments, instrument building, tunings, treatises and other sources.

28.405 History of Music (Special Period)

Detailed examination in the History of Music of a special period, not previously studied from 28.203-208.

28.406 Studies in Music Notation

Basic problems of notation, neumes, rhythmic modes, tablatures, modern notation and scoring.

28.407 Studies in Music Theory

A study of selected theoretical writings from the Middle Ages to the present day.

28.409 Analysis and Criticism

The extension of analytical techniques to more complex works, and the study of analytical theories with particular attention to those of Schenker. The study of critical positions in relation to music, with practical assignments in criticism.

28.410 Composition

Composing for a wide variety of media, voices, instruments, tape.

Special assignments and observation of twentieth century music will be included. At least one composition should be scored for musical forces available within the Department of Music and directed by the student in a public performance.

28.411 Fugue

Fugue in not more than four parts, either vocal or instrumental.

28.414 Ethnomusicology

Field method; transcription and analysis; study of selected scholars.

Note: 28.314 Ethnomusicology is a prerequisite for this paper.

†28.415 Advanced Orchestration

Study of contemporary practice in orchestration especially as it relates to new timbral resources; analysis of recent works and recent developments in instrumental technique; scoring for various instrumental forces.

†28.416 Electronic Music

Personal composition using electro-acoustic resources (musique concrete and synthesiser) with or without conventional instruments and voices. Detailed study of recent developments in electro-acoustic music especially new analogue and computer-generated pieces.

Note: 28.216, Studies in Electronic Music, is a prerequisite for this paper.

28.419 Studies in Performance Practice

Selected topics for discussion and investigation from the field of Performance Practice. The study of source materials; individual projects for report orally and in writing; performance of music from the area(s) studied.

28.421 Seminar in Music Literature

A survey of the music literature in selected fields with specific problems for discussion and investigation, and individual reports both orally and in writing.

28.422 Stylistic Study of a Specific Composer's work

Study of the whole, or representative or selected portions of a composer's work in terms of tonality, texture, form and historical significance.

28.423 Seminar in Musicology

Musicological method; bibliographical studies; selected problems for discussion and investigation with individual reports orally and in writing.

28.520 Performance

Performance work as under the Regulations for the Degree of Bachelor of Music (Performance) with Honours.

28.601 Thesis

(see also under Degree Regulations, MMus)

(two papers)

An investigation into some branch or area of music, under the guidance of a supervisor and embodying some elements of research.

28.604 Dissertation

(one paper)

Investigation of an approved topic.

28.610 Composition

(see also under Degree Regulations, MMus)

(two papers)

The preparation and presentation of one or more original compositions, under the guidance of a supervisor.

28.620 Recital

(see also under Degree Regulations, MMus)

(two papers)

The preparation for and presentation of a public performance of a well balanced recital programme.

* This paper will not be taught during current *Calendar* year.

† This paper may not be taught during the current *Calendar* year.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN MUSIC

DipMus

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

An intending candidate who has not been granted the University Entrance qualification by the Universities Entrance Board must apply for admission in accordance with the requirements of the Provisional Admission and Special Admission Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Music shall

- (a) before his enrolment for the Diploma satisfy the Head of the Department of Music that he has attained a suitable standard in music, including performance
- (b) follow a course of full-time study of not fewer than three years, and
- (c) follow his course of study continuously, except where and in so far as the Head of Department permits otherwise.

Course Entrance

2. A candidate for entrance to the course of study for this Diploma shall give notice in writing on the prescribed form to the Registrar not later than 30 June immediately preceding the year in which the candidate wishes to enrol.

Course Requirements

3. The course of study for the Diploma shall consist of not fewer than eighteen papers selected from those listed in the Schedule to these Regulations. Papers are listed in three stages — I, II and III.

4. Except with the permission of the Senate no candidate shall take in any one year more than eight papers for this Diploma.

5. A candidate with previous knowledge in Aural Training or Harmony may be required by the Head of the Department of Music to take in his first year Musicianship (28.101) and Materials of Music (28.102). If the candidate passes he shall be credited with a pass in each paper accordingly, but shall not be credited with a pass in Rudiments and Basic Aural Perception (28.001) and Basic Harmony (28.002). The candidate shall take in the third year of his course for this Diploma two other papers from the selection lists for Stage II and III. Where the candidate fails each or either of the papers 28.101 and 28.102 but is certified by the examiner to have attained the standard of a pass in paper 28.001 or 28.002 or both (as the case may be), the candidate shall have the appropriate paper or papers credited to his course.

6. Once a candidate enrolls for paper 28.101 he shall be required to satisfy the Head of Department that the necessary tests in Aural training have been undertaken and passed.

Note: The training consists of listening to a course of tests on cassettes and working at exercises coupled with these tests. Students will be periodically examined. Good students will be able to complete the prescribed course in a year; others may take longer.

7. For Performance 28.120, 28.220, 28.325 a candidate shall

- (a) carry out performance work (including the giving of class demonstrations), and
- (b) attend all classes in individual training and such classes in ensemble training, including orchestral rehearsals, as may be required, and
- (c) pass a Performance examination, with a grade of C or better in the case of 28.120 and 28.220, in any one of the following subjects:

†Flute	†French Horn	Violin	Piano	†Percussion
†Oboe	†Trumpet	Viola	Harp	
†Clarinet	†Trombone	Cello	Organ	
†Bassoon	†Tuba	†Double Bass	Singing	

Note: A candidate who passes the subject Performance 28.120 with a grade of C- and is therefore not eligible to proceed with the Course of study for DipMus may in respect of that pass apply for a credit of two unspecified Stage I Music papers towards the Course of Study for the Degree of BMus if he is eligible for enrolment for that degree. A candidate who passes the subject Performance 28.220 with a grade of C- and is therefore not eligible to proceed with the course of study for DipMus may in respect of that pass apply for a credit of two unspecified Stage II Music papers towards the course of study for the Degree of BMus if he is eligible for enrolment for that Degree.
See Regulation 8 of the Regulations for that degree.

(d) if presenting Singing for this Diploma attend such language courses and do such language work as the Head of the Department of Music may require.

(e) Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ its technique and repertoire as part of the course.

8. The candidate who (having been a candidate for this Diploma) has been granted credit towards the Degree of BMus under Regulation 8 of the Regulations for that degree shall not at later time re-enrol for this diploma.

9. It shall be a condition of a candidate's being permitted to pursue or continue this Course of study that he

(a) shall not undertake any musical work, including musical competitions and examinations, outside the course without the consent of the Head of Department of Music,

(b) shall participate in approved choral or instrumental work within the University throughout his enrolment for this Diploma, to the satisfaction of the Head of Department of Music, and

(c) shall not enrol for any other Course of study without the leave of the Head of Department of Music.

10. (a) Except as otherwise provided the Course of study of every candidate shall be governed by these Regulations.

(b) A candidate who has gained a credit for any subject under any former Regulations under the Diploma in Music shall be credited with such equivalent paper or papers as the Senate may determine.

11. The Senate may in such exceptional cases as it thinks fit, approve a personal Course of study which does not conform to the foregoing Regulations.

12. These Regulations shall come into force on 1 January 1976.

Schedule

1. This Schedule sets out paper numbers, prerequisites, corequisites, restrictions, and other conditions applying to Courses of study for the Diploma in Music.

2. This Schedule shall be read with the Regulations for the Diploma and with the prescriptions set out elsewhere in the *Calendar*.

3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper;

4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

The papers prescribed for this Diploma are:

MUSIC

Note: The number enrolling in certain papers is restricted. Candidates should consult Calendar Prescriptions for BMus, paragraph 2.

Stage I

28.001	Basic Aural Perception and Rudiments		28.002 28.103 28.120	A candidate who is considered to be of high enough standard may be required by the Head of Department to enrol for 28.101 and 28.102 in place of these two papers (See Reg (I) of the DipMus Regulations)	A candidate is required to take a minimum of six papers at Stage I
28.002	Basic Harmony		28.001 28.103 28.120		
28.101	Musicianship		28.102, 28.103, 28.120		
28.102	Materials of Music		28.101, 28.103, 28.120		
28.103	History of Musical Style		28.001 and 28.002 or 28.101 and 28.102, 28.120		
28.120	Performance (counts as 3 papers)		28.001 and 28.002 or 28.101 and 28.102, 28.103		A C pass or better must be obtained before advancing to 28.220.

Stage II

28.101	Musicianship	28.001	28.220 and one paper from Selection list.		A candidate is required to take a minimum of 6 papers at Stage II.
28.102	Materials and Music	28.002	28.220		If a candidate has taken papers 28.101 and 28.102 at Stage I he will be required to take 28.122 and 28.209 at this Stage.

<i>Paper No.</i>	<i>Title of Paper</i>	<i>Prerequisites</i>	<i>Corequisites</i>	<i>Restrictions</i>	<i>Qualifications</i>
28.122	Introduction to Harmony	28.101, 28.102	28.209, 28.220 and one other from Selection list		
28.209	Materials and Analysis	28.101, 28.102	28.122, 28.220 and one other		
28.220	Performance (counts as 3 papers)	A pass at C or better in 28.120	28.101 and 28.102 or 28.122 and 28.209, and one other		A C pass or better must be obtained before advancing to 28.325
Stage III — A candidate is required to take a minimum of six papers at Stage III					
28.122	Introduction to Harmony and Counterpoint	28.101, 28.102, 28.220	28.325		If a candidate has taken papers 28.122 and 28.209 at Stage II he must then select at least two papers from the Selection list below.
28.209	Materials and Analysis				
28.325	Performance (counts as 4 papers)	A pass at C or better in 28.220	28.122, 28.209 or two papers from Selection list.		

SELECTION LIST

28.110	Composition	28.211	Renaissance Polyphony
28.112	Keyboard Harmony and Scoreplaying (1)	28.212	Keyboard Harmony and Scoreplaying (1)
28.113	Acoustics	28.214	Ethnomusicology
28.202	Harmony and Counterpoint	28.215	Orchestration
28.203	History of Musical Style	*28.216	Studies in Electronic Music††
— The Middle Ages**		28.217	Music Education
*28.204	— The Renaissance††	†28.221	Technique and Repertoire (2)
28.205	— The Baroque Era**	*28.222	History of Church Music (3)
*28.206	— The Classical Era††	28.316	Studies in Contemporary Music**
28.207	— The Romantic Era**	28.323	Special Topic
*28.208	— The Twentieth Century††	28.324	Special Topic

(1) Required for Organ, Piano and Harpsichord candidates

(2) Available for certain Performance subjects only. Must be taken if Head of Department so requires.

(3) Required for Organ candidates

** Taught in odd-numbered years

†† Taught in even-numbered years

DIPLOMA IN MUSIC WITH HONOURS

DipMus(Hons)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Music with Honours shall
 - (a) before his enrolment for this Diploma have qualified for the award of the Diploma in Music, and
 - (b) satisfy the Senate that in the work presented for the Diploma in Music he has attained a high standard, and
 - (c) follow a Course of full-time study of not less than one year.

Course Requirements

2. The Course of study for this Diploma shall consist of:
 - 28.425 Performance (which shall count as four papers)
 - 28.309 Materials and Analysis, and
 - any one of the papers listed in the selection list for the Diploma in Music not previously taken.
3. For Performance 28.425 a candidate shall
 - (a) carry out performance work (including the giving of class demonstrations), and
 - (b) attend all classes in individual training and such classes in ensemble training, including orchestral rehearsals, as may be required, and
 - (c) pass a performance examination in any one of the following subjects:

†Flute	†French Horn	Violin	Harpsichord	†Percussion
†Oboe	†Trumpet	Viola	Piano	
Organ	†Clarinet	†Trombone	Cello	
Singing	†Bassoon	†Tuba	†Double Bass	
 - (d) Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ its technique and repertoire as part of the course.
 - (e) A candidate presenting Singing for this Diploma shall attend such language courses and do such language work as the Head of the Department of Music may require.

4. It shall be a condition of a candidate's being permitted to pursue or continue this Course of study that he
 - (a) shall not undertake any musical work, including musical competitions and examinations, outside the course without the consent of the Head of Department of Music, and
 - (b) shall participate in approved choral or instrumental work within the University throughout his enrolment for this Diploma, to the satisfaction of the Head of Department of Music.
 - (c) shall not enrol for any other Course of study without the leave of the Head of Department of Music.

5. A candidate shall be required to pass the Course of study as a whole so that his performance in both Performance IV and the papers shall be considered.

6. Except as otherwise provided in these Regulations the Course of study of every candidate shall be governed by these Regulations.

7. The Senate may in such exceptional cases as it thinks fit, approve a personal Course of study which does not conform to the foregoing Regulations.

8. These Regulations shall come into force on 1 January 1976.

Note: *This paper will not be taught during the current *Calendar* year.

†This paper may not be taught during the current *Calendar* year.

DIPLOMA COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR DipMus

Restrictions on Entry to Courses

A candidate before enrolment for this Diploma is required to satisfy the Head of Department of Music that he or she has attained a suitable standard in music including performance at an interview to be held during the August/September study break preceding the year of enrolment.

Application to the Registrar must be made on the prescribed form and forwarded to the Secretary, Music Department, by 30 June (for entry to the course in the following year).

The prescriptions for papers for the Diploma in Music shall be the same as those for the corresponding subjects for the Degree of Bachelor of Music, and as follows:

28.001 Basic Aural Perception and Rudiments

(one paper)

A course integrating Aural Perception and Harmonisation of elementary material. Pitch and Rhythmic notation.

28.002 Basic Harmony

(one paper)

The setting of melodies in 2, 3 and 4 parts. Aural analysis of various styles.

Performance

See Regulation 6 of the Regulations for the Diploma in Music.

Performance 28.120 counts as 3 papers

Performance 28.220 counts as 3 papers

Performance 28.325 counts as 4 papers

A candidate presenting Singing shall attend such language courses and do such language work as the Head of the Department of Music may require. The most suitable paper in Italian is Paper 35.104 — Italian: Language in Opera and Song. (Study of Italian texts of sung material: operatic libretti, madrigals, motets, etc; comprehension and pronunciation).

Similar papers in German and French will be available as required. These papers should be taken in the first, second and third years, respectively, of a student's Performance course, and enrolment should be for Certificate of Proficiency (COP).

Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ, its technique and repertoire, as part of the course.

PRESCRIPTIONS FOR DipMus(Hons)

28.425 Performance

(four papers)

Preparation for and presentation of a public performance of a well-balanced recital programme.

REGULATIONS FOR COURSE OF INSTRUCTION IN A SINGLE INSTRUMENT

Admission to a Course of Instruction in a single instrument with a full-time member of the staff may be granted subject to the approval of the Head of the Department of Music. Students enrolled for a Course of Instruction in a single subject must comply with the following regulations:

Enrolment

1. Enrolment shall be for a period of not less than one term and enrolment must be completed during the enrolling period immediately before the commencement of the first term.

Payment of Fees

2. Tuition fees as prescribed under the Fees Regulations must be paid at enrolment.

Refund of Fees

3. Should a student wish to discontinue the Course the following refunds may be made where the fee for two or three terms has been paid at enrolment:

- (i) One-third refund in the case of the fee for two terms and two-thirds refund in the case of the fee for three terms provided written notice of withdrawal is received by the Registrar before the commencement of the second term;
- (ii) One-third refund in the case of the fee for three terms provided written notice of withdrawal is received by the Registrar before the commencement of the third term.

Unsatisfactory Term Work

4. The notice of all students is drawn to Regulations 8 and 9 (i) of the Enrolment and Course Regulations (General).

Declaration to Obey Statutes and Regulations

5. The Matriculation Regulations shall not apply to candidates enrolling for these courses but every student enrolling for a course must sign the following declaration:

"I do solemnly promise that I will faithfully obey the Statutes and the Regulations of the University of Auckland so far as they apply to me."

Prescriptions

6. Each course shall be under the direction of the Head of the Department of Music and shall consist of the following:

(i) Weekly individual lessons of one half-hour's duration for a term of ten weeks or of one hour's duration fortnightly for five weeks, provided that arrangements may be made for one hour weekly lessons to be taken with a proportionate increase of fees.

(ii) Tests of ability and where appropriate ensemble playing including orchestral rehearsals, as may be required by the Head of the Department of Music.

7. It shall be a condition of a candidate's being permitted to pursue or continue this course that he shall not undertake any musical work, including music competitions and examinations, outside the course without the consent of the Head of the Department of Music.

8. Instruction is offered in the following subjects: Violin, Viola, Cello, Piano, Singing.

SCHOOL OF ARCHITECTURE

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF ARCHITECTURE

BArch

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

An intending candidate who has not been granted the University Entrance Qualification by the Universities Entrance Board and who seeks admission on the basis of the New Zealand Certificate in Draughting (Architecture), the New Zealand Certificate in Building, the New Zealand Certificate in Engineering (Civil Option), or the New Zealand Certificate in Quantity Surveying must apply for admission in accordance with the requirements of the Provisional and Special Admission Regulations.

General Provisions

1 (a) Subject to the Admission Ad Eundem Statum Regulations and except as otherwise provided in these regulations, a candidate for the degree of Bachelor of Architecture shall be required to

(i) pursue a course of study of not less than five years, and

(ii) pass the Intermediate Examination and complete to the satisfaction of the Senate the requirements of the four Professional Examinations.

(b) Except as hereinafter provided a candidate shall be required to pass as a whole the Intermediate Examination and the requirements of each Professional Examination. In recommending him for a pass in any Examination the Senate shall take into consideration his performance in all subjects of that Examination.

A candidate who has failed to pass any Examination as a whole may, on the recommendation of the Senate, be credited with a subject or subjects of that Examination. He may in a subsequent year take the remaining subjects of that Examination together with such subjects of the succeeding Professional Examinations, if any, as the Senate may permit. He shall be required to pass such a composite examination under the same conditions as set out above.

Honours

2. The Degree of Bachelor of Architecture may be awarded with or without Honours according to the standard of the candidate's work in the Fourth Professional Examination (taking into account also his record in the other Professional Examinations).

Concessions

3. The Senate may exempt a candidate from the Intermediate Examination

(a) who has reached a standard satisfactory to the Senate in the University Entrance Scholarship Examination, provided that one of the subjects is Mathematics, Additional Mathematics, or Physics; or

(b) who has been admitted or has qualified for admission to a Degree or, on the special recommendation of the Head of the School of Architecture, a Diploma, in any Faculty of this University; or

(c) who has by examination qualified with outstanding merit for the New Zealand Certificate in Building, or the New Zealand Certificate in Draughting (Architecture), or the New Zealand Certificate in Engineering (Civil Option), or the New Zealand Certificate in Quantity Surveying, and who has completed the practical requirements for the award of such Certificate.

4. The Senate may exempt a candidate from the Intermediate and First Professional Examinations, or from the Intermediate Examination and such parts of the First Professional Examination as it deems fit, if the candidate

(i) has by examination qualified with outstanding merit for the New Zealand Certificate in Draughting (Architecture) and has completed the practical requirements for the award of that Certificate; or

(ii) has been awarded or has qualified for the award of the Degree of Bachelor of Engineering (Civil), and his undergraduate record in that Degree is of a sufficiently high standard in the opinion of the Head of the School of Architecture.

Note: A candidate granted exemption under Regulations 3 or 4 shall pay the fees required under Regulation 12 of the Enrolment and Course Regulations (General).

Intermediate

5. (a) The subjects of the Intermediate Examination shall be:

Three subjects comprising one chosen by the candidate from each of the Groups A, B, and C listed in the Schedule to this Regulation, of subjects prescribed for the Degree of BA or of BSc as the case may be:

provided that

(i) in the case of any or each of the three subjects a candidate may substitute for that subject an equivalent subject passed at another New Zealand University;

(ii) a candidate who, in the Universities Bursaries Examination, has obtained a 'B' Grade or better and has gained not less than 50 marks in one of the subjects Pure Mathematics, Applied Mathematics or Physics, may choose instead of a subject from Group A an additional subject from Group B or Group C;

(iii) in exceptional circumstances and on the recommendation of the Dean of the Faculty of Architecture and Town Planning, the Senate may permit a candidate to choose the three subjects from those appearing in the Schedule to this Regulation without restriction as to Groups, save that one shall be chosen from Group A unless the foregoing proviso (ii) applies.

(b) In respect of each subject chosen from the schedule to this Regulation, a candidate shall be required

(i) to pass at least two arts papers or to obtain at least 12 science credits (as the case may be) and (ii) to comply with such of the course regulations for the Degree of Bachelor of Arts or Bachelor of Science as are applicable (including all requirements as to practical work and all prerequisites, corequisites and restrictions).

Group A

6. A candidate, who in the Architecture Intermediate Examination has passed Economics, shall not take 15.136 General Economics.

7. (a) For each Professional Examination a candidate shall be required to gain credits from the subjects set out in the Schedule to Regulation 11, including core subjects for that Professional Examination set out in Part A of that schedule and other subjects from Part B of that schedule, in accordance with the following:

First Professional Examination

Studio 1 (18 credits) and at least 18 further credits including 18 credits in other core subjects.

Second Professional Examination

Studio 2 (18 credits) and at least 18 further credits including 18 credits in other core subjects.

Third Professional Examination

Studio 3 (18 credits which may include 3 credits in a subject group elective) and at least 18

further credits which shall include 8 credits in other core subjects and may include credits in other subjects.

Fourth Professional Examination

Studio 4 (18 credits comprising 9 credits in a subthesis and a further 9 credits which may include 3 credits in a subject elective) and at least 18 further credits which shall include 4 credits in other core subjects and may include credits in other subjects; *or*

Studio 4 Extended (27 credits comprising 9 credits in a subthesis and a further 18 credits which may include 3 credits in a subject elective) and at least 9 further credits which shall include 4 credits in other core subjects and may include credits in other subjects.

Note: (i) A candidate who does not attain the standard required for a pass in Studio 4 Extended (27 credits) may be credited with a pass in Studio 4 (18 credits).

(ii) Students who fail to pass Studio 2 are advised to consult the Dean before seeking to enrol in core subjects for Third and Fourth Professional Examinations and subject electives.

(b) The Senate may permit a candidate to take a subject or subjects as defined in the Regulations for a degree in any Faculty, in lieu of a subject or subjects set out in Part C of the Schedule to Regulation 11, up to an equivalent of 10 credits for this degree, and credits will be awarded for a pass in such subjects in accordance with the following:

<i>Faculty</i>	<i>Segment of Study</i>	<i>Equivalent credits for this degree</i>
Arts & Commerce	Paper	5 credits
Engineering	Subject	3 credits
Law	Instruction hour/week	2 credits
Science	Credit	1 credit

8. A candidate may not gain credits for any Professional Examination in any subject for which he gained credits in a previous Professional Examination; provided that

(a) where a candidate has in 1977 or any later year gained more credits than required to complete the Professional Examination for which he is enrolled, the additional credits to a maximum of six may be credited to the next succeeding Professional Examination.

(b) A candidate who has failed to gain the required number of credits in the subjects of a Professional Examination and enrolls to repeat subjects or take other subjects to make up the required number of credits for that Professional Examination, may at the discretion of the Head of the School of Architecture take additional subjects to provide not more than 6 credits; and such of those credits as the candidate gains in excess of the credits required to complete that Professional Examination may to a maximum of six be credited to the next succeeding Professional Examination.

9. A candidate shall not enrol for more than 42 credits in any Professional Examination; provided that a candidate who has failed to gain 6 or fewer of the required number of credits in a Professional Examination, may, at the discretion of the Head of the School of Architecture, enrol in subjects for the remainder of the required number of credits, together with the subjects of the next succeeding Professional Examination, up to a total of not more than 42 credits.

10. A candidate may not take a subject unless he has passed or been exempted the prerequisite subject for that subject as provided in Regulation 11, and the Schedule to it; provided that

(a) where the prerequisite subject and the advanced subject are taught consecutively in one year, the candidate may enrol for both, but he may not take the advanced subject if he does not pass the prerequisite subject; and

(b) Where the candidate has been exempted from one or more of the subjects of the course for this degree under Regulation 4 or the Ad Eundem Statum Regulations, the Senate may at its discretion exempt him from the requirements of this Regulation.

Note: A candidate who is ineligible under proviso (a) to take an advanced subject should withdraw from that subject in accordance with Regulation 7 of the Enrolment and Course Regulations (General).

11 (a) The subjects of the Professional Examination shall be as listed and numbered under the headings *Title of subject* and *Number of subject* in the Schedule to this Regulation, (the core subjects being in Part A, and the other subjects in Part B). The credits to be awarded and the prerequisite or corequisite for each subject shall be as shown in the appropriate column opposite the name of the subject.

(b) Each subject referred to in the Schedule to this Regulation as 'Special Topic' and the prerequisite or prerequisites for it shall be as determined by the Head of the School of Architecture.

(c) Each subject named or referred to in the Schedule to this Regulation shall be an independently assessed segment of work, the successful completion of which shall result in the award of the number of credits shown.

15.360 — 15.369 Special Topics, content to be determined		1		
15.170 — 15.189, 15.270 — 15.289,				
15.370 — 15.389 Special Topics, content to be determined		2		
15.390 — 15.399 Special Topics, content to be determined		3		

Note: Subjects listed in Part B of the Schedule will be taught only if sufficient staff are available and if enrolments are adequate to warrant teaching the subject.

THE DEGREE OF MASTER OF ARCHITECTURE

MArch

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

- I. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Architecture shall before his enrolment for this Degree
 - (a) have been admitted or qualified for admission to the Degree of Bachelor of Architecture, or
 - (b)(i) have been awarded or qualified for the award of the Diploma in Architecture, and
 - (ii) satisfy the Senate that he is qualified to pursue the course for the degree by reason of his

professional work or by reason of his having pursued a further course of study or investigation since he was awarded or qualified for the award of the Diploma provided that the Senate may in addition require a person seeking enrolment under this provision to pass a special examination.

2. A candidate for the Degree of Master of Architecture shall

(a)(i) follow a course of full-time study of not less than one year, or

(ii) follow a course of part-time study of not fewer than two years:

provided that such full-time or part-time study may be carried out in an approved institution outside the University for such period or periods as may be determined by the Senate from time to time, and

(b) submit a thesis, and

(c) except as provided in Regulation 6, pass a written examination.

3. The following conditions shall apply to the preparation and presentation of the thesis (15.601): (a) The thesis shall embody the results obtained by the candidate of an original investigation or design or advanced study relative to Architecture. Its title and an outline of the proposed work shall be submitted to the Faculty of Architecture for approval not later than 1 February of the year in which the candidate enrolls provided that approval may be given to a title and outline submitted or resubmitted not later than 31 March of that year. The work shall be carried out by the candidate himself under the supervision of a Supervisor appointed by the Senate from the School of Architecture.

(b) The candidate shall submit the thesis, accompanied by a certificate from the Supervisor stating that the work has been carried out wholly by the candidate under his supervision, to the Registrar not later than 1 November in the year in which it is presented, or at a subsequent date if so arranged with the Dean of the Faculty of Architecture and Town Planning. The Registrar shall hand the thesis to the Dean of the Faculty of Architecture and Town Planning.

(c) If the Examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it at a later date, to be specified by the Examiner. A thesis that has been submitted twice may not be submitted for a third time.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

4(a) A candidate who has not been exempted from presenting the written examination shall take such examination not later than in the fourth year after enrolling for the degree.

(b) Every candidate shall submit his thesis by 1 November of the fourth year after enrolment for the degree, provided that this period may in special cases be extended by the Senate.

5. Except as provided in Regulation 6 a candidate shall be required to pass in one of the following subjects:

(1) 15.502 Building Science

(2) 15.503 Design Theory

(3) 15.506 Practice and Law

6. The candidate will be advised on enrolment whether or not he will be required to present himself for examination in the written paper, provided that, if exemption is granted and if the thesis when presented is not considered to be satisfactory, a candidate may be required either to: (a) pass the written examination, or

(b) pass the written examination in addition to resubmitting the thesis.

7. Where a candidate has been required to take the written examination the Senate shall take into consideration the combined results of the thesis and the written examination in recommending a candidate for admission to the Degree of Master of Architecture.

JOINT SPECIAL EXAMINATION OF NZIA AND AERB

Note: These regulations are prescribed by the Education Committee of the New Zealand Institute of Architects and administered by a Special Examination Committee representing both the NZIA and the Architects Education and Registration Board.

The Joint Special Examination is recognised by the AERB as a qualification for registration (see AERB ordinances).

Persons who complete the Joint Special Examination are required to make separate application for registration to the AERB in accordance with the Board's ordinances, and are required to attend the Board's professional interview.

Registration is a prerequisite to corporate membership of the NZIA.

1. Persons who fulfil the conditions set out in Clause 2 or Clause 3 may apply to the Special Examination Committee for admission to this Examination.
2. The Committee will consider applicants who:
 - (a) hold an overseas qualification acceptable in the country in which it was obtained as being of professional standard in architecture;
 - (b) make application on the form provided;
 - (c) provide documentary evidence of the qualification obtained, including where possible details of the course prescriptions and grades obtained;
 - (d) provide details of their experience and examples of their work, together with suitable corroborative evidence. The extent of the applicant's personal involvement in the preparation of the material shall be certified by affidavit;
 - (e) provide a written report, thesis, review or article, the sole work of the applicant, on some architectural or related topic, as an indication of the candidate's ability to study or analyse a topic and write clearly upon it.
3. The Committee will consider applicants who:
 - (a) by their work have demonstrated a level of achievement worthy of an architect;
 - (b) are not less than 30 years of age and have not less than 10 years' suitable architectural experience;
 - (c) make application on the form provided;
 - (d) provide details of their experience and examples of their work, together with suitable corroborative evidence. The extent of the applicant's personal involvement in the preparation of the material shall be certified by affidavit;
 - (e) provide a written report, thesis, review or article, the sole work of the applicant, on some architectural or related topic, as an indication of the candidate's ability to study or analyse a topic and write clearly upon it;
 - (f) provide evidence of age;
 - (g) provide statements from at least three registered architects attesting to the applicant's experience, achievements and suitability for the profession;
 - (h) provide any further information that may be requested by the Committee.
4. A fee of \$50 shall be paid by the applicant to the NZIA upon making formal application to the Examination. This fee is not refundable.
5. Each applicant shall be interviewed by the Committee or by a sub-committee comprising at least two members thereof.
6. Following such interview, the Committee shall admit applicants to the Examination or refuse admission at its discretion.
7. On admitting a candidate to the Examination the Committee
 - (i) may at its discretion exempt the candidate from either or both of the subjects of the Examination set out in Clause 8,
 - (ii) may at its discretion require the candidate to pass any other subject or subjects prescribed for a recognised qualification in architecture in New Zealand, and
 - (iii) shall require of the candidate such further period of approved practical experience (up to 140 weeks from the date of application) as it sees fit.
8. Applicants admitted to the Examination shall be required to pass the following subjects:
 - (i) Professional Practice (ii) Building Law
 subject to such exemption as may be allowed in each case by the Committee.
9. A pass in subjects 8(i) and (ii) will be obtained by a candidate who passes the corresponding subjects for the BArch degree of the University of Auckland.
10. On passing the required subjects and satisfying the Committee that any further period of required practical experience has been satisfactorily completed, the candidate shall be entitled to a Certificate stating that he has completed the requirements of the Joint Special Examination.
11. On refusing an applicant admission to the Examination the Committee shall advise him in writing of reasons for its decision. The Committee will consider a further application after not less than three years from the date of the previous application.
12. Application forms for admission to the Examination may be obtained from the Chief Executive, NZIA, PO Box 438, Wellington, or from the Dean of the Faculty of Architecture & Town Planning, University of Auckland, Private Bag, Auckland.
13. These regulations shall come into effect on 1 January 1978.

DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR BArch

The prescriptions for the subjects named in the preceding Regulations for BArch are listed below.

15.101 Studio 1

A course of study and practice in Architectural Design in the studios and laboratories of the School of Architecture, with related lectures and seminars. Its scope includes the development of architectural skill and understanding and the co-ordination of subject matter of the course.

15.201 Studio 2

15.301 Studio 3

15.401 Studio 4

15.402 Studio 4 Extended

} Advanced stages of the work in Studio 1.

15.111 Architectural Design I

Introductory consideration of the phenomena architecture perception and design, and of design process and method. Formal aspects of space materials, structure and services. Historical emphases up to the present day.

15.112 Man-Environment Studies I

An introduction to physical, social and cultural aspects of man's relation to the natural and built environment.

15.113 Construction I

Principles of Building Construction, material studies, building services.

15.114 Environmental Control I

Climate, man, and energy considerations in buildings. Introduction to psychophysics, including lighting and vision, hearing and noise control, thermal comfort and ventilation.

15.115 Structure I

Forces acting on buildings, study of equilibrium, resistance of elements and simple assemblies. Design and performance features of commonly used materials.

15.116 Drawing I

Basic freehand drawing; instrumental drawing; basic descriptive geometry; conventional projections; basic perspective. Other communication techniques.

15.117 20th Century Architecture

Description of principal architectural movements and personalities of contemporary architecture from c.1900 to c.1970.

15.211 Architectural Design 2

Design process, form structures, selected historical studies including New Zealand architecture.

15.212 Man-Environment Studies 2

Human factors in environmental design. Environmental perception, cognition and meaning. Social interaction and the environment. An introduction to current environmental research methods and findings with conclusions for architectural theory.

15.213 Construction 2

Advanced studies in the subject matter of Construction I.

15.214 Environmental Control 2

Advanced studies in the subject matter of Environmental Control I.

15.215 Structure 2

Deflection characteristics of common elements, force as arrested movements, approximations of complex building frames, instabilities, introduction to efficient but seldom used systems, discussion of techniques used by structural engineers for frame analysis.

15.218 Professional Practice 1

The architectural profession in New Zealand. Historical background and controlling legislation. Codes of professional practice.

15.216 Drawing 2

Selected freehand techniques; instrumental drawing; advanced descriptive geometry; perspective, sciagraphy. Further communication techniques.

15.311 Architectural Design 3.

Buildings in the urban context; design and control of development; townscape and landscape.

15.319 Building Economics 1A

Microeconomics as parameters in building decisions: Urban land economics, density, buildings as investment.

15.320 Contract Documentation

Preparation of documentation at all stages of architectural service; briefs, feasibility studies, reports, working drawings, certification; developments in this area. Principles and practice involved in the preparation of specifications, interpretation; performance specifications. Computer assistance in documentation.

15.418 Professional Practice 2

The architect, his appointment, authority, duties, responsibilities and liabilities. Control administration. Financing of building projects. Relationships with clients and related professions.

15.421 Building Law

Aspects of law as they affect the practice of architecture, building, land and related property.

15.132 19th Century Architecture

Description of developments of architectural style and building technique during period c.1750-c.1880 showing the foundations upon which the 20th century architecture develops.

15.134 History of Building

Studies in the development of built environment in settlements, buildings and technology.

15.135 Polynesian Architecture

A chronological study of the architectural efforts of the Maori from the prehistoric period up to the present day.

15.136 General Economics

Basic principles of the economic behaviour of individuals, households, and business firms, and of the complete national economy and its interrelationships with the rest of the world.

15.321 Advanced Design Methods

A study of techniques for problem stating, survey; analysis, production of alternatives, evaluation and testing, plus critical path analysis techniques and a look at some strategies.

15.426 Design Theory Elective

A fourth year Studio project emphasising theory and techniques from Design Theory in its concept, synthesis and evaluation.

15.324 Architectural Aesthetics

Discussion of aesthetic principles as they relate to the visual arts, especially to architecture and to individual experience, and to architectural design. Further development of architectural form perception.

15.325 History of Architectural Theory

History of western architectural theories from Greek to modern times.

15.330 Design & Building Evaluation

Man-environment interactions as a basis for evaluation of the performance of the built environment and a theory of its function. Techniques and applications of performance measurement and appraisal.

15.332 Man-Environment Studies 3

Further investigation of the principles from the behavioural sciences related to the use, perception, evaluation, research and design of the built environment. Statistical analysis of findings and theories about human response, preferences and behaviour in environmental settings.

15.412 Man-Environment Elective

A fourth year Studio project emphasising theory and techniques from Man-Environment Studies in its concept, synthesis and evaluation.

15.331 Town Planning

The evolution of modern town planning theory and practice. The planning process. Contemporary town planning in New Zealand.

15.333 NZ Architecture

Studies in Architecture in New Zealand with reference to historical influences and particular developments.

15.337 Building Economics 1B

Major assignment relative to Building Economics 1A.

15.420 Building Economics 2

Factors governing productivity. Process of substitution in history of building technology. Skill, tools, energy converters, materials and organisations.

15.519 Building Economics Elective

Individual project in Building Economics.

15.338 Commercial Practice & Management

A general appreciation of the principles and practice of accounting and commercial practice relevant to the practice of architecture. Management theory organisation; administration, production, distribution and control aspects; economic, financial and investment theories and techniques.

15.339 Cost Control

Cost planning and control in relation to the design team and design process. Economic feasibility. Cost in use studies. The quantity surveyor. Pricing.

15.340 Sound

A consolidation of the material previewed in the Environmental Control subjects on acoustics and noise control — i.e. the origins, behaviour, description and measurement of sound, and the elements of noise control, room acoustics and the hearing process.

15.344 Audio-Electronics

An introduction to the design of sound systems for use in auditoria and theatres.

15.439 Acoustics

Advanced studies in room acoustics. Control of reverberation, electronic assistance of reverberation, theory and measurements for reflection masking and integration, application in design, acoustical models, mathematical models of rooms.

15.540 Acoustics Elective

Individual project in Acoustics.

15.444 Noise Control

Advanced studies in noise control. Mathematical treatment of theory.

15.542 Noise Control Elective

Individual project in Noise Control.

15.313 Construction 3

Critical international survey of the building process; the laws, methods and organisations developed by communities to produce their buildings.

15.413 Construction 4

Methods of building construction, conventional and unconventional. Site organisation, office, labour, plant and materials handling.

15.513 Construction Elective

A field survey and report on an agreed topic related to Construction 3 or Construction 4.

15.345 Construction Management

Introduction to quantitative techniques in management of construction projects.

15.445 Construction Management Elective

Individual project in Construction Management.

15.315 Structure 3

Simplified analysis of concrete and steel designs and explanations of code requirements.

15.415 Structure 4

Advanced analysis in concrete and steel design and qualitative study of secondary stresses.

15.346 Timber Technology

Rationalisation of timber performance in structure, and discussion of engineering use including both current and predicted techniques.

15.341 Building Services

Advanced studies in building services, their design performance and co-ordination.

15.449 Building Services Elective

Individual project in Building Services.

15.343 Thermal Environment

Advanced studies in thermal environment control; heating, air-conditioning and cooling of buildings.

15.447 Thermal Environment Elective

Individual project in Thermal Environment.

15.351 Lighting

Advanced studies in natural and artificial lighting in buildings.

15.352 Materials Science

Advanced studies in building materials.

15.353 Computer Applications

Applications in documentation and problem solving in building.

15.354 Computer Programming

Introduction to programming in Fortran and Basic, together with practical exercises.

15.160-15.169

15.260-15.269

15.360-15.369

} Special Topics

15.170-15.189

15.270-15.289

15.370-15.389

15.390-15.399

} Special Topics

Courses which may be taught in any year, on topics in architecture: the availability, content, prerequisites and corequisites to be determined each year by the Head of the School of Architecture.

DIPLOMA COURSE REGULATIONS

SCHOOL OF ARCHITECTURE

DIPLOMA IN VALUATION

Dip Val

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations and except as otherwise provided in these regulations, a candidate for the Diploma in Valuation shall

(a) have been admitted or qualified for admission to a Bachelor's degree of the University of Auckland, or

(b) hold or have qualified for the award of an approved professional or technician qualification in valuation, or

(c) have passed an Intermediate Examination comprising seven papers from the following papers, including Statistical Methods 13.102 (or Maths 26.180 or 26.181) and Economics 13.103 and 13.104 (or, 13.100 and 13.101) and at least one paper from Mathematics 26.120, 26.121, 26.122, 26.140, 26.141, 26.142, Computer Science 07.190, 07.191, and at least three papers from Accounting 01.100, 01.101

Commercial Law 02.100

Geography 20.101, 20.102

Valuation 1 37.101

2. A candidate for this Diploma (including the Intermediate Examination) shall follow a course of study of not less than three years.

3. The subjects of the examination shall be:

	Credits		Prerequisite	Note
Statistical Methods	5	13.102 (or 26.180 or 26.181)		
Principles of Economics	5	13.103 (or 13.100 or 15.136)		
Construction 1	4	15.113		(1)(2)
Valuation 1	5	37.101		(1)
Valuation Law 1	2	37.102		(1)
Town Planning	2	15.331		(2)
Building Economics 1A	3	15.319	15.113 (or corequisite)	(2)
Valuation Law 2	2	37.302	37.102 (or corequisite)	
Valuation Accounting	4	37.307	37.101 (or corequisite)	
Urban Land Economics	6	37.311	37.101 (or corequisite)	
Valuation 2	5	37.201	37.101	
Building Technology	5	37.115		(1)(2)
Construction 2	4	15.213	15.113	(2)
Property Management 1	2	37.308	37.201 (or corequisite)	
Concrete & Steel	2	37.309	15.113	(2)
Valuation 3	5	37.301	37.101	
Property Management 1A	3	37.313	37.201 (or corequisite)	(3)
Research Topic	6	37.312	37.101	
Dissertation (for Honours)	—	37.604		

provided that

(i) a candidate who is qualified under regulation 1(b) is exempted from the subjects marked (1) above.

(ii) a candidate who has passed equivalent subjects for the degree of Bachelor of Architecture is exempted from subjects marked (2) above.

(iii) a candidate enrolled for this Diploma prior to 1980 and who otherwise completes this Diploma by 1983 is not required to take the subject marked (3) above.

(iv) a candidate who has passed any of the above subjects prior to enrolment for this Diploma shall have those subjects cross-credited.

(v) a candidate who in the opinion of the Senate has passed for any other degree or diploma or professional or technician qualification a subject equivalent in content to any of the above subjects may be exempted from that subject.

4. (a) The Diploma in Valuation may be awarded with or without Honours.

(b) A candidate shall be eligible to enrol for Honours only with the leave of the Senate. A high standard is required in the work prescribed in Regulation 3.

(c) The Senate shall inform him as soon as reasonably possible after the completion of that work as to whether he has leave to enrol for Honours.

(d) Not later than 10 January next following, an eligible candidate wishing to enrol for Honours shall notify the Registrar in writing.

(e) A candidate for Honours shall submit a Dissertation to which the following conditions shall apply:

(i) the Dissertation shall embody the results obtained by the candidate in an investigation, approved by the Head of the School of Architecture, in some branch of the subject of Valuation;

(ii) a candidate shall in the first, second or third year following the work described in Regulation 3 submit his Dissertation to the Registrar by 1 November or at a subsequent date approved by the Head of the School of Architecture;

(iii) Honours shall be awarded upon the result of the Dissertation but if the Dissertation is not of sufficient standard the Diploma shall be awarded to the candidate without Honours.

Note: An abstract is to be submitted with the Dissertation (see Examination Regulation 14).

5. These Regulations shall come into force on 1 January 1979.

DIPLOMA COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR DIPLOMA IN VALUATION

Note: A review of entry qualifications will be undertaken in 1983, at which time those then enrolled for the course, eligible for a substantial number of credits, may be required to do some alternative courses.

Prescriptions for the subjects named in the preceding regulations are given below:

13.102 Statistical Methods

An introduction to statistical reasoning and its applications in business and economics. Probability, distributions, statistical estimation and decision-making.

13.103 Principles of Economics

Basic principles of the economic behaviour of individuals, households and business firms and of the complete national economy and its interrelationships with the rest of the world.

15.113 Construction 1

Principles of building construction, material studies, building services.

37.101 Valuation 1

Introduction to the principles and practice of valuations. Candidates will be required to submit written reports for various purposes on results of property inspections and investigations.

37.102 Valuation Law 1

Aspects of law as they affect the practice of valuation, building, land and related property.

15.331 Town Planning

The evolution of modern town planning theory and practice. The planning process. Contemporary town planning in New Zealand.

15.319 Building Economics 1A

Microeconomics as parameters in building decisions. Urban land economics, density, buildings as investment.

37.302 Valuation Law 2

Advanced studies in valuation law.

37.307 Valuation Accounting

Elements of financial and managerial accounting, finance and economics. The limitations, analysis and interpretations of accounting statements of sole traders, partnerships and companies. Goodwill and share valuations. Depreciation, sinking funds, investment analysis by discounted cash flow techniques.

37.311 Urban Land Economics

Studies in urban land economics. Advanced studies in statistical analysis and application.

37.201 Valuation 2

Studies in valuation principles and practice. The candidate will undertake field studies and submit written reports.

37.115 Building Technology

Basic psychology, climate, siting, sun control, heating/cooling insulation, ventilation, acoustics, natural and artificial lighting.

The writing and interpretation of specifications. The methods of measuring and valuing improvements. The preparation of estimates. The general principles of design applied in architecture.

15.213 Construction 2

Advanced studies in the subject matter of Construction 1.

37.308 Property Management 1

History of property management, general principles, interrelationships of the land professions, the management office, property records. Decision making, political and social issues of property ownership and occupation; the goals, objectives and policies of property management.

37.309 Concrete and Steel

A general study of good and reasonable practices associated with the use of structural steel, reinforced concrete and prestressed concrete buildings.

37.301 Valuation 3

Advanced studies in the principles and practice of valuation. The candidate will undertake field studies and submit written reports.

37.313 Property Management 1A

Advanced studies in property management.

37.312 Research Topic

Advanced survey techniques, sampling, multiple regression analysis, sensitivity analysis and applications. A report shall be written on the results of an investigation into an aspect of applied urban valuation or property management, approved by the Head of the School of Architecture.

The report shall not be less than 5000 words.

37.604 Dissertation (for Honours)

The dissertation shall be a written discourse, generally not less than 5000 words nor more than 10,000 words in length, on an original aspect of urban valuation, or property management, approved by the Head of the School of Architecture. It must be an original work and presented in the form appropriate to its value as permanent department reference material.

DEPARTMENT OF TOWN PLANNING

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF TOWN PLANNING

BTP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations; for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

General Provisions

1(a) Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Town Planning shall

- (i) pursue a course of study for a period of not less than four years;
 - (ii) pass an Intermediate Examination and two Town Planning Examinations;
 - (iii) carry out practical work in the application of Town Planning to the satisfaction of the Head of Department.
- (b) Except with the permission of Senate no candidate for this Degree shall take in any one year more than nine papers.

Examinations

2. Except as hereinafter provided a candidate shall be required to pass as a whole the Intermediate Examination and each Town Planning Examination so that his performance in all papers of the Examination shall be considered; provided that

(a) where a candidate fails to pass an Examination (whether Intermediate or Town Planning) as a whole he may at the discretion of the Senate be

- (i) credited with a paper or papers of that Examination, and
- (ii) permitted in a subsequent year to present the paper or papers not so credited, together with a paper or papers of the First or Second Town Planning Examination as the case may be.

(b) No candidate may enrol for any papers of the First Town Planning Examination until he has passed at least six papers prescribed at Stage II level for the Intermediate Examination.

(c) A candidate who is studying for this degree part-time or in conjunction with any other degree, may be required to pass an examination consisting of such work, less than the full Examination, as the Senate may in its discretion determine and present the remaining papers of the full Examination in a subsequent year, together with a paper or papers of the next succeeding Examination.

(d) A candidate to whom either of the foregoing provisos (a) and (c) applies shall be required to pass as a whole an Examination consisting of the papers taken in any year, so that the candidate's performance in all papers taken in that year shall be considered.

3. The Examinations for this Degree shall be:

Intermediate Examination

(a) The Course of study for the Intermediate Examination shall consist of

(i) ten Arts papers or equivalent Science credits (or an equivalent combination of papers and credits), of which three-fifths are above Stage I level, from the following subjects as prescribed for the Degree of BA or BSc as the case may be:

Anthropology	English	Philosophy
Art History	Geography	Political Studies
Biology	Geology	Psychology
Botany	History	Sociology
Computer Science	Mathematics	Zoology
Economics		

Any other subject or subjects prescribed for the Degree of BA or BSc may be approved by the Head of Department for the purposes of this paragraph.

(ii) four other papers or equivalent credits (or an equivalent combination of papers and credits) from any subjects prescribed for the Degree of BA or BSc or for any other degree approved by the Head of Department of Town Planning for the purposes of the candidate's Course of Study.

(b) A candidate who has passed the Second Professional Examination for BArch or BE, or the Second Law Examination for LLB or LLB(Hons), or two professional years for a degree of another New Zealand University may, with the approval of the Senate, be exempted the requirements of the Intermediate Examination.

(c) A candidate who has qualified with outstanding merit for the New Zealand Certificate in Draughting (Town and Country Planning) or the New Zealand Certificate in Town Planning may, with the approval of the Senate, be exempted the requirements of the Intermediate Examination.

Note: Any such candidate is required to apply for admission under the Special Admission Regulations.

First Town Planning Examination

Part A

- 36.200 Planning Theory
- 36.201 Planning Techniques
- 36.202 Planning Law and Administration

Part B not fewer than two of the following:

- 36.203 Urban Settlements
- 36.204 Society and Settlements
- 36.205 Communications and Utilities

Part C

Two Stage III papers from one of the subjects listed for the Intermediate Examination in paragraph (a) (i) of this Regulation.

Second Town Planning Examination

Part A

- 36.300 Advanced Planning Theory
- 36.301 Advanced Planning Techniques
- 36.302 Advanced Planning Law and Administration and one of
- 36.303 Research Essay .
- 36.304
- 36.305 } Special Topics approved by the Head of the Department of Town Planning
- 36.306 }
- 36.307 }

Research Essay. (i) A candidate for the Research Essay (36.303) shall submit the Essay (that is, two copies of it) by the due date but in any case, except with special leave of the Senate, not later than the expiry of two years from his first enrolment for the Essay.

(ii) The due date is 1 October in the first year of enrolment for the Essay or a later date approved by the Head of Department.

(iii) Where the candidate does not submit the Essay by a due date within his first year of enrolment for it, he shall re-enrol for the Essay in the following year.

Part B not fewer than two of the following:

- 36.203 Urban Settlements
- 36.204 Society and Settlements
- 36.205 Communications and Utilities
- 36.310 Urban Design
- 36.311 History of Town Planning
- 36.312 Resource Management
- 36.313 Housing
- 36.314 Rural Planning
- 36.315 Landscape Planning
- 36.316 } Special Topics approved by the Head of the Department of Town Planning
- 36.317 }

Part C

One Stage III paper from the subjects for the Intermediate Examination as in paragraph (a) (i) of this Regulation and prescribed for the Degree of BA or BSc as approved by the Head of the Department of Town Planning.

Restrictions Prerequisites and Corequisites

4(a) As to Part B of the Second Town Planning Examination:

- (i) No candidate shall take paper 36.203 or paper 36.204 or paper 36.205 if he has already been credited with that paper for Part B of the First Town Planning Examination.
- (ii) No candidate shall take any of the papers 36.311, 36.312, 36.313, 36.314, 36.315, 36.316 or 36.317 unless he has passed in or taken concurrently the papers 36.203, 36.204 and 36.205.
- (b) In respect of the papers and equivalent credits taken from this Degree (whether for the Intermediate Examination or for Part C of the First or the Second Town Planning Examination) each candidate shall be required to comply with all Regulations applicable thereto for the Degree of BA or BSc or other Degree (including Regulations and requirements relating to corequisites, prerequisites, restrictions, combinations of subject and practical work).

Exemptions

5(a) A candidate who has been credited for a Degree with any of the papers or equivalent credits specified for the Intermediate Examination may be credited with those papers or credits for the purpose of this Degree.

(b) Subject to the Admission Ad Eundem Statum Regulations, a candidate who is a graduate of any New Zealand University shall be exempted from passing the Intermediate Examination, and his Course of study shall be pursued for a period of not less than two years.

(c) A candidate proceeding under paragraph (b) of this Regulation or Regulation 3 (b) may substitute for any or all of the papers prescribed for Part C of the First and Second Town Planning Examinations not fewer than the same number of papers prescribed for any other Degree or Diploma as approved by the Head of the Department of Town Planning.

(d) A candidate may substitute papers from Part B of the Second Town Planning Examination for an equal number of papers from Part C of the First and Second Town Planning Examinations as approved by the Head of the Department of Town Planning provided the candidate passes or has passed three papers at Stage III level.

Practical Course

6. No candidate shall be admitted to this Degree unless the Registrar has received from the Head of the Department of Town Planning a certificate that the candidate has complied with the requirements of the Department as to practical work.

7. These Regulations shall come into force on 1 January, 1975

THE DEGREE OF MASTER OF TOWN PLANNING

MTP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the degree of Master of Town Planning shall before enrolment:

(a) have been admitted or qualified for admission to the Degree of Bachelor of Town Planning, and

(b) have obtained, in the opinion of the Head of the Department, a sufficiently high standard in Part A of the Second Town Planning Examination, with no paper graded lower than C.

2. Except as provided elsewhere in these Regulations a candidate shall take all papers required for this Degree in the same year. A candidate who is engaged in full-time employment, or with other demanding responsibilities, may be permitted by the Head of Department to present three or four papers in the first year, or in special circumstances two papers in the first year; and shall present all papers within three years of first enrolment for the Degree.

3. No candidate shall take for this Degree any paper that is the same or substantially equivalent to any other paper that he has passed or is taking and obtain credit for both for this Degree.

Course Content

4. Every candidate for the Degree of Master of Town Planning shall be required to pass in five papers and a research essay (36.603) which shall count as one paper; or four papers and a thesis (36.601) which shall count as two papers. The papers shall be chosen from

†36.400 Planning Theory

†36.401 Planning Techniques

†36.402 Planning Law and Administration

36.403

36.404

36.405

36.406

36.407

36.408

} Special topics approved by the Head of the Department of Town Planning

36.603 Research Essay

52.740 Public Health Engineering Seminar (as prescribed for the Degree of ME)

52.780 Transportation Planning (as prescribed for the Degree of ME)

20.436 Urban Geography (as prescribed for the subject Geography for the Degree of MA)

30.402 A topic on urban government and politics (as prescribed for the subject Political Studies for the Degree of MA)

82.406 Urban Sociology and Ecology (as prescribed for the subject Sociology for the Degree of MA)

25.383 Social Control of Land (as prescribed for the Degree of LLB (Hons))

15.503 Design Theory (as prescribed for the Degree of MArch) provided that the Head of Department of Town Planning must approve the relevance of paper 15.503 to the subject of investigation for the thesis before a candidate may enrol in that paper.

Thesis

5. Where a thesis is required the following conditions shall apply:

(a) The thesis shall embody the results obtained by the candidate in an investigation in some branch of Town Planning.

(b) A candidate shall present his thesis in the final year in which he takes the papers or within the next three years, provided that the time may be extended in exceptional cases by the Senate.

(c) If the examiner with the concurrence of the assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Honours

6. (a) There shall be two Classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory; provided that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified as under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he is still eligible for the award of Honours, subject to the provisions of paragraph (c) of this Regulation.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree.

Transitional Provision

7. Notwithstanding anything in paragraph (a) of Regulation 1, a candidate who has been awarded or qualified for the award of the Diploma in Town Planning shall be eligible to enrol for this Degree up to and including the year 1983; but the Degree shall not be awarded with Honours if the candidate has been awarded the Diploma in Town Planning with Honours under former regulations.

8. These Regulations shall come into force on 1 January 1975.

DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR BTP

36.200 Planning Theory

The main contributors to planning thought, their theories and ideas, together with examples of the application of these. The objectives of present-day regional and town planning. Town planning in the context of social, economic, and physical planning.

36.201 Planning Techniques

Contemporary planning techniques in New Zealand and overseas.

Techniques of survey, organisation of data and prediction.

Land use requirements and development controls.

36.202 Planning Law and Administration

Introduction to planning law, the legal system and public administration.

The Town and Country Planning Act 1977, and the Town and Country Planning Regulations 1978. Subdivisional legislation.

†36.203 Urban Settlements

The functions, structure and physical form of urban settlement.

Spatial theories of the town.

36.204 Society and Settlements

The process of urbanization. Economic, political, and social aspects of urban growth and change.

36.205 Communications and Utilities

The principles governing the provision of public utility services and transport facilities. Public health engineering. Traffic engineering.

The influence upon urban development of communication and utility systems.

36.300 Advanced Planning Theory

Theoretical approaches to the formulation of planning policies.

The purpose of national and regional planning and development.

The responsibilities of national and regional governments.

Metropolitan growth and decentralization.

36.301 Advanced Planning Techniques

Special land use and development controls. Methods of assessing and testing planning proposals. Urban development models and their application.

36.302 Advanced Planning Law and Administration

Selected aspects of New Zealand planning legislation and the legal system. Methods of land use regulations. Development and functions of local government and other planning agencies. Public participation in planning.

36.310 Urban Design

Introduction to the concepts and techniques of urban design. Appreciation of the physical form of the built environment. The landscape of urban areas. Relationship between the built and natural environments.

36.311 History of Town Planning

The historical development of cities. The evolution of planning theories and methods. The history of city government and administration.

36.312 Resource Management

A description of natural resources. The utilisation and conservation of resources. The maintenance of environmental quality. Methods of environmental management.

36.313 Housing

Influences upon the type, distribution and quality of housing in New Zealand. The evolution of housing policies. Rehabilitation of housing. Financial aspects of housing.

36.314 Rural Planning

Existing rural land use in New Zealand. Competing demands for rural land. Land use capability surveys. Soil and water conservation. Coastal development. Rural smallholdings. Maori land issues. Legislation affecting rural land use.

36.315 Landscape Planning

An introduction to current practices and theory in the development and conservation of urban and rural landscape in New Zealand.

36.316 Special Topic to be approved by the Head of the Department.

36.317 Special Topic to be approved by the Head of the Department.

PRESCRIPTIONS FOR MTP

The prescriptions of the subjects named in the preceding regulations are given below:

+36.400 Planning Theory

National, regional and metropolitan planning. National resources and policies for development. Case studies of important projects. The role of forecasting.

+36.401 Planning Techniques

Evolution of planning techniques. Special land use and development controls. Methods of assessing and testing planning proposals.

+36.402 Planning Law and Administration

Evolution of statutory planning. Methods of land use regulation. Public participation in planning. Development and functions of local government and other planning agencies.

36.403

36.404

36.405

36.406

36.407

36.408

Special Topics approved by the Head of the Department of Town Planning.

36.603 Research Essay

52.740 Public Health Engineering

As prescribed for the Degree of ME.

52.780 Transportation Planning

As prescribed for the Degree of ME.

20.436 Urban Geography

As prescribed for the subject Geography for the Degree of MA.

30.402 A Topic on Urban Government and Politics

As prescribed for the subject Political Studies for the Degree of MA.

82.406 Urban Sociology and Ecology

As prescribed for the subject Sociology for the Degree of MA.

25.383 Social Control of Land

As prescribed for the Degree of LLB(Hons).

15.503 Design Theory

As prescribed for the Degree of MArch, provided that the Head of Department of Town Planning must approve the relevance of paper 15.503 to the subject of investigation for the thesis before a candidate may enrol in that paper.

PRESCRIPTIONS FOR ENVIRONMENTAL STUDIES

Environmental Studies

An inter-disciplinary undergraduate paper in Environmental Studies is offered at Stage II level. Responsibility for the administration of this paper has been assigned to the Department of Town Planning on a temporary basis until the end of 1981.

+84.200 Environmental Studies (4 credits)

Prerequisites: 24 Stage I credits or the equivalent from any Faculty, including six credits from the Science Faculty.

Introduction to global environmental problems of population, resources and pollution, with local illustrations through tutorials and field trips.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN TOWN PLANNING

DipTP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study, students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

An intending candidate who seeks admission under the proviso of Regulation 1 of these Regulations may need to apply for admission in accordance with the requirements of the Provisional and Special Admission Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Town Planning shall before enrolment have been admitted or have qualified for admission to a Degree in Architecture, Engineering, Law, or Surveying; or to a Bachelor's Degree for which he has passed at least three Stage III papers in the subjects of Economics, Geography, or Sociology, or any of those subjects; provided that, if not so qualified, a person may, with the leave of the Senate, enrol for the Diploma if he

(i) has been admitted or has qualified for admission to any other Degree, or

(ii) holds a professional qualification in Architecture, Engineering, Surveying, or Town Planning,

or

(iii) has been awarded or qualified for the award of a Diploma in Architecture or Surveying or

(iv) has been awarded or qualified for the award of a Diploma in Urban Valuation, his first enrolment for which was made before 1975.

Course Content

2. Every candidate shall be required to:

(i) pass six papers from Parts A and B of the First Town Planning Examination

(ii) pass four papers from Part A and two papers from Part B of the Second Town Planning Examination and

(iii) complete the practical course prescribed for the Degree of Bachelor of Town Planning.

3. No candidate shall take for this Diploma a paper the same as or substantially equivalent to any paper he has passed for another University Diploma or Degree and shall for any such paper substitute another paper approved by the Head of the Department of Town Planning.

4. (a) Except as otherwise provided in this Regulation the course of every candidate shall be governed by these Regulations.

(b) The Regulations governing the Diploma in Town Planning which were published in the University of Auckland *Calendar* for 1974 (in this Regulation called the 1974 Regulations) are hereby revoked, provided that a candidate who enrolled under the 1974 Regulations shall, with the exception of the dissertation, complete work and requirements equivalent to those prescribed in the 1974 Regulations by 1 November 1975 and may submit up to and including the year 1978 a dissertation (36.399) in accordance with Regulation 2 (c) of those Regulations, in order to qualify for the Diploma.

5. These regulations shall come into force on 1 January, 1975.

DIPLOMA COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR DipTP

The prescriptions of the subjects are as for the Bachelor of Town Planning:

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF ENGINEERING

BE

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

Honours

1. The Degree of Bachelor of Engineering may be awarded with or without Honours according to the standard of the candidate's work. There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division.

General Provisions

2(a) Except as otherwise provided, a candidate for the degree of Bachelor of Engineering shall be required

- (i) to pursue a Course of study for a period of not less than four years, and
 - (ii) to pass an Intermediate Examination and the examinations of the three Professional Years, and
 - (iii) to perform Practical Work to the satisfaction of the Faculty of Engineering, and
 - (iv) to perform Laboratory and Field Work to the satisfaction of the Faculty of Engineering.
- (b) A candidate shall be required to pass as a whole the Intermediate Examination and each Professional Examination (including each Examination under Regulation 4), so that his performance in all the subjects of the Examination shall be considered: provided that a candidate who has failed to pass any such Examination as a whole may at the discretion of the Senate be credited with a subject or subjects of the Examination and permitted in a subsequent year to present the subjects not so credited, together with (if the Senate permits) a subject or subjects of the next succeeding Examination. The candidate shall then be required to pass a composite Examination in all the subjects so presented upon the same conditions as those prescribed in this sub-clause.

Concessions

3(a) A candidate who has been credited for the Degree of Bachelor of Science with any or all of the courses Chemistry 101 or 102, Mathematics 120 or 121, Mathematics 140 or 141, Physics 113, and Physics 123 shall be credited with such course or courses for this Degree.

(b) For the purpose of this Regulation only

- (i) two of the courses Chemistry 100, 201, 202 and 203 may be substituted for Chemistry 101, 102.
 - (ii) Stage II Physics courses totalling 6 credits may be substituted for each of the courses Physics 113 and 123.
 - (iii) Stage II Pure Mathematics courses totalling 6 credits may be substituted for each of the courses Pure Mathematics 120 or 121 and 140 or 141.
 - (c) A candidate who has been credited for the Degree of Bachelor of Science with the course Mathematics 170 or Stage II or III Applied Mathematics courses totalling 6 credits may be credited with such course or courses in lieu of Engineering Mechanics I 55.001 for this Degree.
4. A candidate for the Degree of Bachelor of Engineering who
- (a)(i) has been awarded or has qualified for the award of the Degree of Bachelor of Science, or
 - (ii) has completed within two years the examination requirements for the award of the Degree of Bachelor of Science, or
 - (iii) was permitted to enrol for Stage II or Stage III courses in a subject without first presenting that subject at Stage I and who, if the Stage I courses not taken were included, would have qualified within two years for the award of the Degree of Bachelor of Science, shall be required to pursue a Course of study for a period of not less than two years in such subjects for the Degree as the Dean of the Faculty may prescribe and to pass Examinations in each year in the subjects so prescribed for that year; provided that
 - (b)(i) the Examination for the first year shall be such that the amount of necessary study shall be substantially the same as for the Second Professional Examination;

(ii) all the subjects and courses of the Third Professional Examination shall be included in the candidate's Course of study but none such in the first year.

(iii) the candidate shall be exempt from the courses and subjects of the Intermediate Examination and from such other subjects of the Degree as are not prescribed for his Course under this Regulation.

5. Any candidate who has passed in one year in Mathematics 120 or 121, Mathematics 140 or 141, Physics 113, Physics 123 and Chemistry 101, 102 or the substitutes permitted under Regulation 3 (b), and one other course, may be exempted by the Senate from the subjects of the Intermediate Examination, provided that he has also completed a Course in Elementary Mechanics approved by the Senate.

6(a) The Senate may exempt a candidate from the Intermediate Examination if it is satisfied that in the Entrance Scholarships Examination he has reached a satisfactory standard and if the subjects the candidate has taken include Chemistry, Physics, Pure Mathematics, and Applied Mathematics. If the candidate has reached an exceptional standard in the Entrance Scholarships Examination, the Senate may grant the exemption if the subjects taken include Chemistry, Physics, and Pure Mathematics either at the Bursary or Scholarship level.

(b) The Senate may permit a candidate who has gained a pass in the Bursary examination, or a Junior Scholarship, to substitute courses, papers or subjects totalling or equivalent to 12 credits, for prescribed courses of Engineering Intermediate related to one subject of the Bursary Examination in which he attained a standard of achievement approved by the Senate.

Substitution for Engineering Mechanics I shall not be permitted.

7(a) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate in Engineering, and who has completed the practical requirements for the award of that Certificate, may be exempted by the Senate from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

(b) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate of Science (Metallurgy) or Chemistry and who has completed the practical requirements for the award of that Certificate may for the Course in Chemical and Materials Engineering be exempted from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

(c) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate of Science (Physics) in the sub-division of Applied Electronics and who has completed the practical requirements for the award of that Certificate may for the Course in Electrical Engineering be exempted from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

8. Regulations 3, 4, 5, 6, and 7 of these Regulations shall be read together with, so far as they are not inconsistent with, the provisions of the Enrolment and Course Regulations (General) relating to cross-credits and exemptions.

Practical Work

9. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Practical Work.

Laboratory and Field Work

10. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Laboratory and Field Work.

Prerequisites

11. No student may enrol (a) for any subject of the First Professional Year without having completed the whole of the Intermediate Examination;

(b) for any subject of the Third Professional Year without having completed the whole of the First Professional Examination.

Note: In considering the enrolment of a student whose course is irregular by reason of past omissions or failures, the Dean will recommend for approval only a course for which he finds the student adequately prepared by his previous studies.

Form of Course

12. The candidate shall follow one of the following five courses:

Chemical and Materials Engineering

Civil Engineering.

Electrical Engineering

Engineering Science

Mechanical Engineering

List of Subjects

13. Subjects in the Professional years taught in the first half year only will be examined mid-year. Subjects taught in the second half year only and full year subjects will be examined at the end of the year. Refer to course prescriptions for details. The subjects of the Examinations for the Degree shall be:

Intermediate Examination

<i>Subject</i>	<i>Course No.</i>
Chemistry	08.101
Chemistry	08.102
Engineering Mechanics I	55.001
Mathematics	26.120 or 26.121
Mathematics	26.140 or 26.141
Physics	31.113
Physics	31.123

- 53.141 Power Apparatus and Systems I
- 54.111 Engineering Mathematics I
- 55.102 Mechanical Engineering IE

Second Professional Year

- 51.222 Electrical Engineering Materials
- 53.204 Electrical Engineering Design
- 53.221 Networks, Lines and Fields
- 53.231 Electronics II
- 53.241 Power Apparatus and Systems II
- 53.271 Control Systems
- 54.211 Engineering Mathematics II
- 55.231 Industrial Administration

*Third Professional Year (1981 only. See *Note)*

- 53.300 Electronics II
- 53.310 Transmission Lines and Circuits
- 53.320 Utilisation of Electricity II
- 53.330 Electrical Design
- 53.340** Project in Electrical Engineering
- 55.231 Industrial Administration
- †† Two electives chosen from the list below:
- 53.381 Computer Engineering
- 53.400 Applied Network Synthesis
- 53.410 Communications
- 53.420 Control Systems II
- 53.430 Electromagnetic Fields II
- 53.440 Power Systems
- 53.450 Semiconductors
- 53.460 Special Topic in Electrical Engineering
- 54.314 Engineering Analysis B
- 55.333 Engineering Economics

An approved subject from another University course

†† The choice of elective subjects must be approved by the Head of the Department of Electrical Engineering. There should be no timetable conflict in the proposed course. Approval will depend on the compatibility of the chosen subjects with the candidate's personal aptitudes and interests, their mutual compatibility and the coherence of the proposed course as a whole. Not all electives will be available in a given year.

** A candidate is required to submit a report on project work, carried out on a topic assigned by the Head of the Department of Electrical Engineering. The work shall be supervised by a member of the staff.

* Note: A revised course structure in the First and Second Professional Years became effective in 1980 and 1981 respectively. The situation in 1981 is transitional for the Third Professional Year. The revised course structure for the Third Professional Year which will become effective in 1982 is given below for information.

Third Professional Year (1982 and subsequent years)

- 50.201 General Studies II
- 53.301 Project in Electrical Engineering
- 53.302 Advanced Electrical Engineering A
- 53.303 Advanced Electrical Engineering B
- Three electives chosen from the list below:
- 53.304 Special Topic in Electrical Engineering
- 53.321 Applied Network Synthesis
- 53.331 Semiconductors
- 53.341 Advanced Power Systems
- 53.351 Advanced Communications
- 53.361 Electromagnetic Fields
- 53.371 Advanced Control Engineering
- 53.381 Computer Engineering
- 54.314 Engineering Analysis B
- 55.333 Engineering Economics

An approved subject from another University course

ENGINEERING SCIENCE

First Professional Year

- 50.101 General Studies I
- 50.111 Engineering Design
- 51.121 Materials I
- 51.151 Thermodynamics
- 52.122 Fluid Mechanics IS
- 53.111 Electrical Engineering IG
- 54.112 Engineering Mathematics IS
- 55.101 Engineering Mechanics II

Second Professional Year

- 53.211 Electrical Engineering IIS
- 54.212 Engineering Mathematics IIS
- 54.241 Continuum Mechanics I
- 54.251 Operations Research I
- 54.291 Engineering Science Design
- 55.231 Industrial Administration
- 55.241 Mechanics of Materials I

Third Professional Year

- 50.201 General Studies II
 - 54.303** Project in Engineering Science
 - 54.312 Engineering Mathematics IIIS
 - 54.341 Continuum Mechanics II
 - 54.351 Operations Research II
- Two subjects chosen from the following list:
- 54.301 Special Topic in Engineering Science A
 - 54.302 Special Topic in Engineering Science B
 - 54.342 Geothermal Modelling
 - 54.343 Mechanics of Structures
 - 54.352 Stochastic Methods in Operations Research
 - 54.361 Control Theory
 - 54.371 Bio-engineering

An approved subject from any Third Professional Engineering course or another University course.

** A candidate is required to submit a report on project work carried out on a topic assigned by the Head of the Department of Theoretical and Applied Mechanics. The work shall be supervised by a member of the staff.

Note i) The choice of elective subjects must be approved by the Head of the Department of Theoretical and Applied Mechanics. There should be no timetable conflict in the proposed course. Approval will depend on the compatibility of the chosen subjects with the candidate's personal aptitudes and interests, and the coherence of the proposed course as a whole.

ii) A subject chosen from another University course must be of an appropriate weight and academic level. The syllabus may not be the same or substantially overlap that of another subject in the candidate's course. In respect of subjects from other degrees, a subject from the list above will be considered equivalent to one paper for BA or BCom at stage II or stage III or to three credits for BSc at stage II or stage III.

iii) In normal circumstances one elective subject is to be chosen from those taught in the first half-year and one from those taught in the second half-year.

iv) Those students who have previously passed General Studies II for their Second Professional Examination will be required to take an additional elective subject in their Third Professional Year.

v) Some electives may not be available in any given year.

MECHANICAL ENGINEERING

First Professional Year

- 50.101 General Studies I
- 50.111 Engineering Design
- 51.121 Materials I
- 53.111 Electrical Engineering IG
- 54.111 Engineering Mathematics I
- 55.101 Engineering Mechanics II
- 55.111 Thermodynamics and Fluid Mechanics I

Second Professional Year

- 50.201 General Studies II
- 54.211 Engineering Mathematics II
- 55.211 Thermodynamics and Fluid Mechanics II
- 55.221 Theory of Machines
- 55.231 Industrial Administration
- 55.241 Mechanics of Materials I
- 55.261 Mechanical Engineering Design I

Third Professional Year

- 55.301 Project in Mechanical Engineering
 - 55.361 Mechanical Engineering Design II
- Six subjects chosen from the list below:
- 55.322 Acoustics and Vibrations
 - 55.312 Applied Aerodynamics
 - 53.311 Applied Electricity
 - 55.311 Applied Fluid Mechanics
 - 55.352 Applied Thermodynamics
 - 55.321 Control Engineering
 - 54.313 Engineering Analysis A
 - 54.314 Engineering Analysis B
 - 55.302 Engineering Case Studies
 - 55.333 Engineering Economics
 - 55.331 Industrial Engineering
 - 55.332 Manufacturing Systems
 - 55.341 Mechanics of Materials IIA (1981 only Mechanics of Materials IIIA 55.420)
 - 55.342 Mechanics of Materials IIB (1981 only Mechanics of Materials IIIB 55.490)
 - 55.371 Production Technology
 - 55.303 Special Topic in Mechanical Engineering
 - 55.351 Thermal Engineering
- One, or two, approved subjects from another course.

Note: The choice of elective subjects must be approved by the Head of the Department of Mechanical Engineering. There should be no timetable conflict in the proposed course. Approval will depend on the compatibility of the chosen subjects with the candidate's personal aptitudes and interests, their mutual compatibility and the coherence of the proposed course as a whole.

A subject chosen from another course must be of an appropriate weight and academic level. The syllabus may not be the same or substantially overlap that of another subject in the candidate's course. In respect of subjects from other degrees, a subject from the list above will be considered equivalent to one paper for BA or BCom at stage II or stage III or to three credits for BSc at stage II or stage III or to four credits for BAArch at third or fourth professional.

In normal circumstances three subjects are to be chosen from those taught in the first half-year and three from those taught in the second half-year.

Savings and Transitional Provisions

14. The Regulations governing the Degree of Bachelor of Engineering set forth in the University of Auckland *Calendar* for 1980 are hereby revoked: provided that every candidate who began his course under the last mentioned Regulations shall be credited for the purpose of these present regulations with such units as the Senate may determine.

15. These Regulations shall come into force on 1 January 1981.

THE DEGREE OF MASTER OF ENGINEERING ME

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Engineering shall

- (a) before his enrolment for this Degree have been admitted or qualified for admission to the Degree of Bachelor of Engineering, and
 - (b) follow a Course study of not less than one year.
2. Every candidate for this Degree shall
- (a) pass in each of eight subjects where those subjects do not include Project D, *or*
 - (b) pass in Project D and six other subjects, *or*
 - (c)(i) pass in each of three subjects, and
 - (ii) pass in respect of a thesis (which shall count as equivalent to five subjects).

Subjects

3. The following conditions shall apply to the choice of subjects:

(a) Every candidate shall choose his subjects in consultation with the Head of his Department from those listed in clause (b) of this Regulation; provided that no subject that has been credited to another Degree shall be taken for this Degree.

(b) The subjects of examination for the Degree are:

(i)

- 50.700 Project A
- 50.710 Project B
- 50.720 Project C
- 50.730 Project D (value 2 papers)
- 51.700 Advanced Materials
- 51.710 Advanced Process Control
- 51.720 Chemical Engineering Seminar
- 51.730 Materials Seminar
- 51.740 Studies in Chemical Engineering
- 51.750 Studies in Materials Engineering
- 51.760 Biochemical Engineering Seminar
- 51.770 Advanced Chemical Engineering
- 52.700 Earthquake Engineering
- 52.710 Fluid Mechanics Seminar
- 52.720 Geomechanics Seminar
- 52.730 Mechanics and Properties of Materials Seminar
- 52.740 Public Health Engineering Seminar
- 52.750 Structural Dynamics
- 52.760 Structures Seminar
- 52.770 Transportation Engineering Seminar
- 52.780 Transportation Planning
- 52.790 Transportation Systems Analysis
- 52.800 Special Seminar in Civil Engineering
- 52.810 Structural Analysis
- 52.820 Space Structures
- 52.860 Advanced Fluid Mechanics
- 52.870 Coastal Engineering
- 52.880 Advanced Water Resources
- 52.890 Applied Geomechanics
- 52.900 Earth Structures
- 52.910 Traffic Engineering
- 52.920 Structural Design
- 25.313 Environmental Law
- 53.700 Advanced Control Systems
- 53.710 Advanced Electrical Engineering
- 53.721 Electromagnetic Theory
- 53.730 Heavy Current Electronics
- 53.740 Microprocessors and Minicomputers
- 53.750 Studies in Electrical Engineering
- 53.760 Computer Aided Network Analysis
- 54.700 Studies in Engineering Mathematics
- 54.710 Studies in Engineering Science

- 54.720 Studies in Control Theory
- 54.730 Studies in Continuum Mechanics A
- 54.740 Studies in Continuum Mechanics B
- 54.750 Finite Element Methods
- 54.760 Studies in Operations Research A
- 54.770 Studies in Operations Research B
- 54.780 Advanced Systems Analysis
- 54.790 Random Processes
- 55.700 Advanced Mechanical Engineering
- 55.710 Advanced Applied Aerodynamics
- 55.720 Advanced Mechanics of Materials
- 55.730 Advanced Production Technology
- 55.740 Productivity Management
- 55.750 Studies in Mechanical Engineering
- 86.100 Geothermal Systems and Technology
- 86.103 Geothermal Production Technology
- 86.104 Geothermal Energy Utilisation
- 86.106 A project on some aspect of Geothermal Energy
- (ii) those subjects approved by the Head of Department from any of those offered at Third Professional level for the BE Degree.
- (iii) subject to the permission of the Heads of Departments concerned, one or two papers chosen from those offered in any other Faculty at the final-year undergraduate level or the master's level provided
 - (a) that prerequisite and timetabling requirements can be met, and
 - (b) that the syllabus is not the same as or substantially overlapping with any course prescribed for this Degree, and
 - (c) that the paper has a weight not less than that of an engineering paper.

Project Work

- 4. (a) No candidate shall take
 - (i) Project A, B, C or D if he submits a thesis for this Degree;
 - (ii) more than one of the Projects A, B or C if he takes Project D.
- (b) A candidate who takes Project D must submit his project report not later than twelve months after his enrolment for this project provided that the Senate may, in exceptional circumstances, extend this period.
- (c) A candidate who takes Project A, B or C must submit his project report on the last day of the period in which the project is taken provided that the Senate may, in exceptional circumstances, extend this period.

Thesis

- 5. The following conditions shall apply to the thesis (56.601):
 - (a) The thesis shall embody the results obtained by the candidate in an investigation in a subject approved by the Head of the Department.
 - (b) The investigation shall be carried out personally by the candidate at the University under the direct supervision of a member of the academic staff: Provided that
 - (i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as may be determined from time to time by the Senate;
 - (ii) field work may be carried out at such places and for such periods as the Senate may determine.
 - (c)(i) The supervisor shall be the principal examiner.
 - (ii) The Senate acting on the advice of the Head of the Department shall appoint either an external assessor or a second internal examiner.

(d) At the discretion of the Head of the Department the candidate may be required to attend an oral examination on the subject of the thesis, which shall take place within four weeks of the date on which the thesis was submitted, or within such longer period as the Senate may in special circumstances approve.

(e) If the supervisor with the consent of the assessor or second examiner as the case may be so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date to be specified by the supervisor.

(f) A candidate shall present the thesis not later than 18 months or, if (s)he is a part-time candidate not later than 36 months, after the first enrolment for this Degree, provided that the Senate may, in exceptional circumstances, extend this period.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

(g) Notwithstanding anything in Regulation 5(f) a part-time candidate shall present the thesis not later than 36 months after the first enrolment for this Degree, provided that the Senate may, in exceptional circumstances, extend this period.

Classes of Pass

6. The Degree of Master of Engineering may, on the recommendation of the Senate, be awarded with distinction.

7. These regulations shall come into force on 1 January, 1972.

‡ Not all electives will be available in a given year.

RESEARCH IN ENGINEERING

Facilities are available for research by PhD students and postdoctoral fellows in each of the Departments of Engineering in a wide range of topics and also within the Radio Research Centre, which comes under the Department of Electrical Engineering, in communications, ionospheric and ground wave radio propagation, antennas and radio direction-finding.

Attention is drawn to the fact that the Honours degree qualifying a PhD student for registration need not necessarily be one in Engineering. Graduates with a good Honours degree in Physics, Chemistry, or Mathematics, for example, could be considered for registration in Engineering.

PROFESSIONAL INSTITUTION COURSES

Candidates for the examinations of the Council of Engineering Institutions may take courses selected from the BE syllabus. Prospective candidates should consult the Dean of the Faculty before planning their course.

DEGREE COURSE PRESCRIPTIONS

††PRESCRIPTIONS FOR BE

The prescriptions for the subjects named in the preceding Regulations are listed below.

Intermediate Examination

<i>Subject</i>	<i>Course No.</i>
Chemistry	08.101
Chemistry	08.102
Engineering Mechanics I	55.001
Mathematics	26.120 or 26.121
Mathematics	26.140 or 26.141
Physics	31.113
Physics	31.123

As prescribed for the degree of Bachelor of Science.

Professional Examinations

50.101 General Studies I

[Three lectures and one tutorial per week. Second half-year]

A study of the formation and growth of ideas and their effect on the development of western culture in the last two hundred years: population growth, the rise of the city, the impact of science and technology, social and political responses.

50.111 Engineering Design

[One lecture and one three-hour drawing office class per week]

The elements of engineering draughting and graphics. Introduction to the application of mechanics to the design of mechanical and structural components.

50.201 General Studies II

[Three lectures and one tutorial per week. First half-year]

A survey of some of the problems of contemporary man, including aspects of politics, sociology, ecology and technology and their interactions.

51.111 Chemical Engineering 1A

[Four lectures and one tutorial per week. First half-year]

Fluid properties and definitions. Hydrostatics and stability of floating bodies. Fluid flow, energy and continuity relationships. Viscosity. Compressible flow. Force and momentum relationship. Flow measurement. Dimensional analysis and similarity. Introduction to Turbomachinery. Mass and energy balances with and without chemical reaction and with recycle. Heat transfer by conduction and radiation.

51.112 Chemical Engineering 1B

[Four lectures and one tutorial per week. Second half-year]

Classical chemical thermodynamics up to and including the concepts of chemical potential, fugacity and activity; applications of these concepts. Thermodynamics of power and refrigeration cycles, and flow processes. Introduction to statistical thermodynamics. Incompressible Newtonian flow; fluid resistance; friction factor; boundary layer concepts; flow in closed channels; losses; flow measurement; turbulent flow; pumping; piping networks.

51.121 Materials I

[Three lectures and one tutorial per week. First half-year]

Mechanical properties and testing of engineering materials; atomic and structural aspects; deformation and strengthening mechanisms; annealing; working processes; temperature dependent properties of materials; microstructures; solidification and phase equilibria; heat treatment; non-destructive testing; corrosion; non-metallic materials including polymers, wood, ceramics and concrete.

51.151 Thermodynamics

[Three lectures and one tutorial per week. Second half-year]

Classical chemical thermodynamics up to and including the concepts of chemical potential, fugacity and activity; applications of these concepts. Thermodynamics of power and refrigeration cycles and flow processes. Introduction to statistical thermodynamics.

51.211 Chemical Engineering IIA

[Two lectures and one tutorial per week]

Non-Newtonian fluid flow; flow models and applications; aspects of open-channel flow; compressible flow. Heat transfer by diffusion and convection; convection correlations; boiling and condensation heat transfer; heat exchanger operation and design. Steady-state mass and energy balancing including graphical methods. Evaporator types; sizing performance; multiple effect evaporation; vapour recompression. Drying equipment; drying mechanisms; simultaneous heat and mass transfer; drying curves and applications.

51.212 Chemical Engineering IIB

[Two lectures and one tutorial per week]

Mass transfer operations; phase equilibria; single and multistage processes; simple and multi-component distillation; liquid-liquid and solid-liquid extraction; differential contact operations; gas absorption; combined heat, mass and momentum transfer; humidification and cooling towers; other transfer operations.

51.221 Materials II

[Three lectures and one tutorial per week]

Topics in materials engineering including: kinetics of metallurgical reactions, imperfections and plastic flow, mechanical behaviour of materials, x-ray diffraction, deformation processing, solidification and casting, metallurgy and properties of engineering alloys. Corrosion and oxidation.

51.222 Electrical Engineering Materials

[Three lectures and one tutorial per week. First half-year]

Free electron theory; zone theory; electron conduction in metals and alloy. Theory of semiconductors. Semiconducting materials. Superconductivity. Electron emission. Dielectric processes. Magnetic processes. Optical processes. Thermo-electricity.

51.231 Chemical Engineering Design I

[One lecture and one two-hour drawing office class per week]

Analysis of simple structures; design of steel beams, columns, trusses and reinforced concrete beams and footings; effects of earthquakes. The general specification of a process; alternative processing schemes; the basis for process selection; the development of precise heat and material balances and their subsequent updating as detailed design proceeds; the process flow diagram and description; a process of relevance to New Zealand will be chosen to illuminate this course and Chemical Engineering Design II. Students will be guided in the design of a holdup vessel and a pressure vessel for this process using all relevant standards.

51.241 Advanced Chemistry A

[Three lectures per week. First half-year]

Organic chemistry; industrial organic chemistry; analytical chemistry; chemical safety.

51.242 Advanced Chemistry B

[Three lectures per week. Second half-year]

Chemical kinetics; heterogeneous catalysis; electrochemistry; air pollution; biological chemistry.

51.311 Chemical Engineering IIIA

[Five lectures per week. First half-year]

Dynamic modelling of linear open-loop system; transfer functions; linear closed-loop systems; analysis and control; control theory; stability analysis using root-locus and frequency response methods. Controller tuning; industrial application with simple and complex control systems. Introductory principles of biochemistry and microbiology; industrial applications; enzyme reactions; fermentations; membrane processing; chromatography and application to the dairy and meat process industries.

51.312 Chemical Engineering IIIB

[Two lectures per week]

A course on particulate technology, including characterisation of particles; fluid dynamics; analysis of separation processes; separation mechanisms; size reduction; particle size measurement; sedimentation; fluidisation; conveying; filtration; packed beds; solid/solid separations; gas cleaning; agglomeration; storage; atomisation; mixing.

51.313 Chemical Engineering IIIC

[Three lectures per week. Second half-year]

The restraints of thermodynamics and kinetics; effects of temperature and pressure on process rate; batch and continuous stirred tank models as they apply to homogeneous reactions; limitations of the models and the use of residence time analysis; heterogeneous reactions and an introduction to biochemical reactor design and combustion.

51.321 Materials III

[Three lectures per week. Second half-year]

Methods of joining metals. The structure, physical properties and mechanical properties of polymers. Plastics in chemical engineering plant. Properties of ceramic materials. Advanced metallographic techniques. The treatment of metal surfaces, including coatings, electroplating, anodising and hardfacing. Selection and specification of materials.

51.331 Chemical Engineering Design II

[One lecture and one three-hour drawing office class per week]

Plant start-up and the need for ancillary process piping. General problems of materials transportation; safe design and hazard analysis; single risk and double jeopardy principles; reliability of components; sequence controllers, venting and fire control; pumps, compressors and ejectors; their specification; structure of the chemical industry; plant commissioning and start-up; legal requirements including obligations to the public; the employer and the procession; basis of contract law, common law and patent law; environment, health, air and water pollution legislation; engineering economics and overall cost estimation. Students will develop the example given in Chemical Engineering Design I to include pipe, valve and instrument schedules, a pipe and instrumentation diagram, a hazard analysis, an environmental impact report outline and a cost estimate of the overall process. In addition they will design or specify individual heat exchangers, towers and chemical reactors.

1.361 Project in Chemical and Materials Engineering

student is required to submit a report on project work carried out on a topic assigned by the head of Department of Chemical and Materials Engineering. The work shall be supervised by member of the staff.

1.111 Mechanics of Materials

Three lectures and one shared tutorial per week. Second half-year]

stress, strain and stress/strain relationships; application of these concepts to simple structural members. Properties of civil engineering materials.

1.121 Fluid Mechanics I

Two lectures and one shared tutorial per week. First half-year]

fluid properties and definitions. Hydrostatics and stability of floating bodies. Fluid flow, energy and continuity relationships. Viscosity. Compressible flow. Force and momentum relationship. Flow measurement. Dimensional Analysis and similarity. Introduction to turbomachinery.

1.122 Fluid Mechanics IS

Three lectures and one tutorial per week. First half-year]

fluid properties and definitions. Hydrostatics and stability of floating bodies. Fluid flow, energy and continuity relationships. Viscosity. Compressible flow. Force and momentum relationship. Flow measurement. Dimensional analysis and similarity. Introduction to Turbomachinery. Mass and energy balances with and without chemical reaction and with recycle.

1.131 Introductory Geology for Engineers

Three lectures and one shared tutorial per week. First half-year]

principles of physical and structural geology; seismology and elementary stratigraphy. Geology and mineralogy of the common rocks, rock groups and rock forming minerals. Geological surveying and mapping. Geology of water supply and the general application of geology to Civil Engineering.

41 Structures I

Two lectures and one shared tutorial per week]

analysis of determinate structures; approximate analysis of indeterminate structures, plastic analysis of framed structures; appreciation of structural systems.

52.151 Surveying

[Two lectures and one shared tutorial per week. Second half-year]

Introduction to land surveying theory and practice for Civil Engineers. Principles of typical surveying equipment and of its operation and application.

52.211 Properties of Materials and Design

[Three lectures and two hours drawing office per week]

The analysis and design of components of civil engineering structures. Further properties of civil engineering materials.

52.221 Fluid Mechanics II

[Two lectures and one shared tutorial per week]

Laminar viscous flows and elements of lubrication.

Turbulent viscous flows. The nature of turbulent fluid flow.

Fundamentals of external flows, laminar and turbulent boundary layers, separation, lift and drag, velocity distribution and resistance to flows.

Internal flows, velocity distribution and resistance in pipe flow, pipe networks, unsteady flows in pipelines. Compressive flow in pipelines and pipeline conveyance.

Open channel flow. Energy and momentum concepts applied to steady and unsteady open channel flow. Gradually and spatially varied flow. Open channel transitions. Resistance in open channel flows.

Introduction to concepts of modelling.

52.231 Geomechanics I

[Two lectures and one shared tutorial per week]

Nature and classification of soils. Physical properties of soils and rocks: density, permeability, stress-strain relationships, strength. Fluid flow in soils. Consolidation theory. States of stress in earth masses. Settlement analysis. Stability problems: bearing capacity, slope stability, earth pressures on retaining structures.

52.241 Structures II

[Two lectures and one shared tutorial per week]

Analysis of indeterminate structures by force and displacement methods. Moment distribution and moment area methods for framed structures. Analysis of frames subject to dynamic loads.

52.271 Traffic and Highway Engineering

[Two lectures and one shared tutorial per week]

Basic elements of intersection and highway capacity, intersection design, signal control design, theoretical analysis of traffic flow. Introduction to traffic and transportation planning. Transport in NZ.

Highway location, geometrics and alignment design. Earthwork volumes. Setting out works. Pavement design. Roading materials. Construction techniques.

52.301 Special Topic in Civil Engineering

[Three lectures and one tutorial per week. Second half-year]

A course on a topic in Civil Engineering to be determined each year by the Head of Department of Civil Engineering.

52.302 Mechanics of Structures and Materials

[Three lectures and one tutorial per week. First half-year]

Dynamics of multistoried structures; seismic performance of buildings; stability of columns; plastic analysis of steel frames; theory of reinforced and prestressed concrete; properties of concrete and structural steel

52.311 Mechanics and Properties of Materials

[Three lectures and one tutorial per week. Second half-year]

A selection of topics from the following:

- elasticity and plasticity; experimental methods; beams, plates and shell theory; stability of structural sections, analysis of joints; shear walls and deep beams; civil engineering materials; further material on traditional materials as well as information on modern advances.

52.321 Hydrology

[Two lectures and one tutorial per week. First half-year]

Introduction to hydrology, precipitation, interception, evaporation, transpiration, infiltration, groundwater, runoff and hydrographs, storage, flood estimation and flood routing. Loose boundary hydraulics. Elements of river control work. Introduction to concepts of coastal engineering.

52.322 Fluid Mechanics III

[Three lectures and one tutorial per week. Second half-year]

Introduction to the generalised form of equations of motion and to concept of potential flow. Introduction to flow through porous medium and application of potential flow techniques to analysis of flow through porous media, unsteady groundwater flow and leaky aquifers, intrusion of salt water.

Introduction to the theory of water waves, wave forces and coastal processes.

Introduction to the elements of dispersion and diffusion into water and atmosphere.

52.323 Water Resources Engineering

[Three lectures and one tutorial per week. Second half-year]

Introduction to synthetic hydrology, reservoir capacity and yield analysis, design of flood control structures, irrigation and drainage, urban drainage, introduction to coastal engineering, water resources systems engineering, and related topics.

52.331 Geotechnical Engineering

[Two lectures and one tutorial per week. First half-year]

Site investigation. Application of engineering geology. Foundation engineering: selection: design: construction. Problems associated with house foundations. Foundation instrumentation and observed performance. Geotechnical processes, compaction. Applications of rock mechanics.

52.332 Geomechanics II

[Three lectures and one tutorial per week. Second half-year]

A selection from the following:

Further strength and stress strain properties of soils and rocks. Numerical methods applied to steady and transient fluid flow in soils. Soil dynamics applied to earthquake engineering and foundation vibrations. Earth and rock fill dams: — design and construction. Soil structure interaction: beams on elastic foundations, laterally loaded piles, flexible bulkheads, tunnels, culverts, conduits and silos: design loadings. Reinforcement of soil and rock masses. Computer-oriented design methods.

52.333 Engineering Geology

[Three lectures and one tutorial per week. Second half-year]

Geological principles applied to engineering problems.

52.341 Structures III

[Three lectures and one tutorial per week. Second half-year]

Direct stiffness method for truss and frame structures; energy theorems; approximate methods for asymmetrical buildings, multibeam bridges, simple cable networks and shell structures.

52.361 Civil Engineering Design I

[Two lectures and one two-hour drawing office class per week. First half-year]

Civil Engineering design with emphasis on concrete and steel structures involving continuity.

52.362 Civil Engineering Design II

[Two lectures and one two-hour drawing office class per week. Second half-year]

Introduction to further design techniques including structures in which seismic considerations are important.

52.371 Traffic Systems Design

[Three lectures and one tutorial per week. Second half-year]

Signal control design, linking and area control. Traffic management techniques. Driver characteristics and safety. Traffic control devices and design application. Design of parking and street lighting. Introduction to traffic flow and queuing theory, systems simulation and applications.

52.381 Civil Engineering Administration

[Two lectures and one tutorial per week, first half-year. Three lectures and one tutorial per week, second half-year]

An introduction to financial, legal and managerial principles, and their application to problems in civil engineering management. Systems approach to decision making. Topics related to professional engineering practice.

52.382 Management Techniques

[Three lectures and one tutorial per week. Second half-year]

Introduction to project planning and the making and implementation of decisions.

52.391 Public Health Engineering

[Two lectures and one tutorial per week. First half-year]

Water use; supply and treatment. Urban drainage. Waste-water treatment and disposal. Water pollution control. Solid waste management. Air pollution control. Planning and environmental factors relevant to provision of public health engineering works.

52.392 Water Quality Engineering

[Three lectures per week. Second half-year]

Chemistry and microbiology of water. Unit operations and process design in water and waste-water treatment. Engineering management of natural water quality.

53.111 Electrical Engineering IG

(Three lectures and one tutorial per week. Second half-year)

An introductory course, with principal emphasis on electric circuit theory and electronics.

53.121 Networks

[Two lectures in the first half-year, one in the second half-year and one tutorial per week]

Basic network theory and network theorems. Signal waveforms. Network response. Introduction to single and three-phase A.C. circuits. A.C. bridges.

53.131 Electronics I

[Two lectures and one tutorial per week. Second half-year]

Electronics: Basic device principles. Application of junction diodes in power supplies. Theoretical and practical considerations of transistors as amplifiers.

Digital Systems: Basic logic elements. Concept of finite states and the general finite state machine. Logic system synthesis.

53.141 Power Apparatus and Systems I

[Two lectures and one tutorial per week. First half-year]

Review of electromagnetic theory. Magnetic materials and their properties with D.C. and A.C. excitation. The magnetic circuit. The single phase transformer. Introduction to electrical machines.

53.204 Electrical Engineering Design

[Three hours per week]

Electric wiring conventions. Regulations, standards and codes. The protection of circuits and equipment. The properties and selection of materials. Thermal design. Reliability of circuits and systems. Printed circuit techniques. Electromagnetic shielding. Computer-aided circuit analysis.

53.211 Electrical Engineering IIS

[Three lectures and one tutorial per week. First half-year]

Electronic devices, small signal amplifier theory. Network analysis, transfer functions. Analogue computing systems, simulation. Electronic logic elements, digital systems. Hybrid computation. Electromagnetic field theory.

53.221 Networks, Lines and Fields

[Three lectures and one tutorial per week]

Networks: Bridge circuits; resonance, Q, gain bandwidth considerations, tuned coupled circuits; Laplace transforms; pole-zero diagrams and applications; Two Port coupling networks; filter design using Image Parameters, frequency and impedance transformation; filter design using approximate methods; active filter design. Fields: Vector Analysis Revision; static fields; the electric field and materials; vector potentials; fields varying in time; Maxwell's equations;

electromagnetic waves; Poynting's theorem; skin effect; approximate solution of field problems. Lines: Introduction to lines, nominal T and π ; transmission lines with distributed constants; surges on lines; AC lines; standing waves, resonance and antiresonance; Smith chart; common transmission lines, parameters, higher order modes; high frequency lines, communication lines and high power lines. Signals: Signal levels and logarithmic units; signal spectrum and transmission in band-limited channels; modulation techniques; electrical noise.

53.231 Electronics II

[Two lectures and one tutorial per week]

Digital: Binary, codes, code conversion; binary number conventions, 2's complement; binary arithmetic operations, addition, subtraction, multiplication; computer basics, microprocessors, typical structures, memory elements, peripheral devices. Analogue: Y parameters for passive and active circuits; feedback amplifiers, instrumentation amplifiers; sample and hold circuits, A/D and D/A conversion; thyristor-controlled rectifiers and inverters, line commutated converters.

53.241 Power Apparatus and Systems II

[Three lectures and one tutorial per week. Second half-year]

Multi-circuit and polyphase transformers. Motor starting and speed control. Power electronics. Synchronous machines: infinite busbar operation; load-sharing; stability. Elements of power supply systems.

53.271 Control Systems

[Three lectures per week. First half-year]

Analysis of linear control systems. Stability criteria. Design methods based on Nyquist, Bode, and Nicols plots. Root locus methods. Analogue computer simulation.

53.300 Electronics II

[Three lectures per week. First half-year]

High frequency device models; frequency response of basic amplifier configurations; power amplifiers; stability and frequency response of feedback amplifiers; oscillators and wave form generators; Topics selected from: difference amplifiers, operational amplifiers, phase locked loops, analogue/digital conversion, digital/analogue conversion, sample and hold circuits, charge couple devices; opto-electronics, transducers, integrated circuit techniques.

53.310 Transmission Lines and Circuits

[Three lectures per week. First half-year]

Coupling networks; filters and attenuators. Transmission lines: response to AC from power frequencies to UHF. Wave guides.

53.311 Applied Electricity

[Three lectures per week. Second half-year]

A course on electrical and electronic components and circuits leading to the study of industrial instrumentation, control systems and application of electrical energy.

53.312 Electrical Engineering for Civil Engineers

[Three lectures and one tutorial per week. Second half-year]

A descriptive introduction to electric power, generation, transmission and distribution systems. Three phase theory and practice. Elementary theory of the induction motor, its control, and practical applications in civil engineering systems. Electrical safety and regulations. Concepts of instrumentation in engineering; transducers, digital logic and systems; aspects of solid state devices, analogue computers and applications; microprocessors and microcomputers; control systems; telemetry in instrumentation.

53.320 Utilisation of Electricity II

[Three lectures per week. First half-year]

Transformers, polyphase and multi-winding. Harmonic phenomena. Induction motors, polyphase and single-phase. Starting speed control and general characteristics. Variable speed drives — motor characteristics.

53.330 Electrical Design

[Three hours per week. First half-year]

Detailed treatment of some aspects of design relevant to the synthesis of electrical systems.

53.340 Project in Electrical Engineering

A student is required to submit a report on project work carried out on a topic assigned by the Head of the Department of Electrical Engineering. The work shall be supervised by a member of the staff. The report shall carry the weight of two papers.

53.381 Computer Engineering

[Three hours per week. Second half-year]

Computer design: system configuration, computer instructions, timing and control, execution of instructions, design of registers, control. Microprogramming, control algorithm driven design, engineering considerations. Memory and storage: memory management, memory devices, mass-storage systems. Microcomputer system design: 8 bit, 16 bit devices. Bit slice system realisation: computer design using bit slice.

53.400 Applied Network Synthesis

[Three hours per week. Second half-year]

A detailed study of both passive and active network transfer functions. Emphasis on low-pass and band-pass networks for amplifiers, oscillators, and other instrumentation used in industry and for research. Introduction to irrational transfer functions; and to active negative impedance converters and gyrators.

53.410 Communications

[Three hours per week. Second half-year]

Information theory, properties of communication channels. Statistics of signals. Noise. Properties of analogue and digital modulation systems. Multiplexing methods. PCM principles and transmission.

53.420 Control Systems II

[Three hours per week. Second half-year]

Introduction to modern control theory and applications. State space description of dynamic systems and solutions of the state equation. Examples of multivariable feedback and time optimal switched systems using this formulation. Computer control basics including analogue/digital conversion, digital control algorithms and microprocessor devices.

53.430 Electromagnetic Fields II

[Three hours per week. Second half-year]

Field theory. Waveguides. Radio propagation. Antennas. Radio communication and radar systems.

53.440 Power Systems

[Three hours per week. Second half-year]

Computer methods of power system analyses. Symmetrical components and fault calculations, generalised protection theory. Synchronous stability. Economic consideration.

53.450 Semiconductors

[Three hours per week. Second half-year]

Review of properties and conduction processes of semiconductor materials. The P-N junction. Diode devices. Transistors: modelling of bi-polar and field effect devices, measurement of equivalent circuit parameters, high level injection and switching characteristics. Special devices. Noise models.

53.460 Special Topic in Electrical Engineering

[Three hours per week. Second half-year]

An advanced course on a topic to be determined each year by the Head of the Department of Electrical Engineering.

54.111 Engineering Mathematics I

[Two lectures and one tutorial per week]

Elementary transcendental functions of a real variable, with a brief introduction to complex arguments, representation in rectangular and polar co-ordinates, curve sketching.

Differential calculus of one variable. Leibniz theorem, mean values, Taylor's theorem, power series, limiting values, partial differentiation. Integral calculus of one variable, improper integrals. Ordinary differential equations, isoclines, first order homogeneous and linear kinds, second order constant coefficient, simultaneous equations. Linear algebra, solvability of sets of

equations, matrix notations and operations, homogeneous equations, numerical methods of solution by elimination and iteration.

Statistical and probabilistic methods, sampling theory, estimation and confidence intervals, regression and correlation, experimental data analysis; all with Engineering applications. Course in computer programming with exercises.

54.112 Engineering Mathematics IS

[Two lectures in the first half-year, three in the second half-year and one tutorial per week]

As for 54.111 Engineering Mathematics I, plus:

Introductory Computer modelling.

54.211 Engineering Mathematics II

[Two lectures and one tutorial per week]

Ordinary Differential Equations: Laplace transforms; linear differential equations; application to vibrations, beams, etc; simultaneous differential equations; numerical methods for ordinary differential equations.

Partial differential equations: Fourier series; separation of variables technique for partial differential equation; boundary value problems involving the diffusion, Laplace and wave equations. Linear algebra and optimisation: linear vector spaces, bases; matrices, solution of equations, partitioning; linear programming concepts; simplex methods, tableau solution; duality and post-optimal analysis; applications of L.P. and packages.

Computer methods; introduction to FORTRAN programming; programme structuring for applications; introductory simulation methods.

54.212 Engineering Mathematics IIS

[Three lectures and one tutorial per week]

Ordinary Differential Equations: Laplace transforms; linear differential equations; application to vibrations, beams, etc; simultaneous differential equations; numerical methods for ordinary differential equations.

Partial differential equations: Fourier series; separation of variables technique for partial differential equation; boundary value problems involving the diffusion, Laplace and wave equations. Computational Techniques: application of the following techniques to the solution of engineering problems: polynomial approximation; linear algebraic equations; numerical solution of transcendental equations; ordinary differential equations, integral equations.

Engineering Statistics: probability distributions; change of variable; hypothesis testing; parameter estimation; correlation and regression.

54.241 Continuum Mechanics I

[Two lectures in the first half-year, three in the second half-year, and one tutorial per week]

Vector and tensor analysis; analysis of stress and strain; constitutive relations and field equations; analytical and numerical solution of problems in fluid mechanics and linear elasticity; finite difference and finite element methods. Open channel flow.

54.251 Operations Research I

[Two lectures and one tutorial per week]

Linear programming, simplex and revised simplex methods, duality and dual simplex, sensitivity and post-optimal analysis, modelling and applications. Digital computer simulation, Monte Carlo methods, statistical design and analysis of simulation experiments; introduction to queuing theory; applications of simulation especially to waiting-line problems.

54.291 Engineering Science Design

[One lecture and one two-hour drawing office class per week in the first half-year; three contact hours per week in second half-year]

Analysis of simple structures; design of steel beams, columns and trusses and reinforced concrete beams; effects of earthquakes.

Systems analysis and design concepts applied to the computer solution of engineering problems, particularly in continuum mechanics and operations research, including preparation of initial specifications, implementation of algorithms and presentation of results.

54.301 Special Topic in Engineering Science A

[Three lectures per week. First half-year]

An advanced course on a topic to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.302 Special Topic in Engineering Science B

[Three lectures per week. Second half-year]

An advanced course on a topic to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.303 Project in Engineering Science.

[Equivalent in weight to one elective subject. Normally done in the second half-year]

An investigation carried out under the supervision of a member of staff on a topic assigned by the Head of the Department of Theoretical and Applied Mechanics. A written report on the work must be submitted.

No final examination. Grade assessed on the work done and the report.

54.312 Engineering Mathematics IIIS

[Three lectures per week]

A course in advanced engineering mathematics including such subjects as complex variable theory, variational calculus, integral transforms, selected topics on differential equations, computational techniques and statistics.

54.313 Engineering Analysis A

[Three lectures per week. First half-year]

An approved choice of three modules from a list prepared each year by the Head of the Department of Theoretical and Applied Mechanics. The list will include modules from the subject areas of Engineering Mathematics, Computational Techniques, Engineering Statistics, Mechanics and Operations Research.

54.314 Engineering Analysis B

[Three lectures per week. Second half-year]

An approved choice of three modules from a list prepared each year by the Head of the Department of Theoretical and Applied Mechanics. The list will include modules from the subject areas of Engineering Mathematics, Computational Techniques, Engineering Statistics, Mechanics and Operations Research.

54.341 Continuum Mechanics II

[Two hours per week]

(a) Mechanics of solids including such topics as elastostatics in two and three dimensions, elastodynamics, thermoelasticity, principles of structural analysis, etc.

(b) Mechanics of fluids including such topics as potential flow, vorticity dynamics, boundary layer analysis and an introduction to compressible flow, turbulence, wave motion, and hydrodynamic stability.

54.342 Geothermal Modelling

[Three lectures per week. Second half-year]

A study of methods currently used for modelling convective flows in geothermal systems.

54.343 Mechanics of Structures

[Three hours per week. Second half-year]

Such topics as the static, stability and dynamic analysis of framed structures, shells, membrane and cable structures.

Assignments will require a reasonable facility at computer programming.

54.351 Operations Research II

[Two lectures per week]

Introduction to deterministic and stochastic models in such areas as inventory control, reliability, decision processes, scheduling; integer programming, including cutting planes and branch and bound techniques; dynamic programming with applications; network analysis, transportation and flow problems.

(Professional practice of OR, case studies, and computer packages with applications will be covered in Engineering Science Laboratory)

54.352 Stochastic Models in Operations Research

[Three hours per week. Second half-year]

The application of non-deterministic methods in Operations Research, including topics such as Markov processes, stochastic programming, time series analysis, forecasting.

54.361 Control Theory

[Three hours per week. Second half-year]

As for 53.371 Advanced Control Engineering.

54.371 Bio-engineering

[Three lectures per week. Second half-year]

Introduction to the application of engineering principles and methods to biological problems. Mechanical properties of living tissue: constitutive laws, structure/function relationships, myocardial and lung mechanics, haemodynamics. Biological control mechanisms. Electrophysiology. Instrumentation and measurement: principles and applications.

55.101 Engineering Mechanics II

[Three lectures and one tutorial per week. First half-year]

Dynamics; kinematics and kinetics in two and three dimensions. Vibrations. Mechanics of solids and structures; Bending moment and shear-force diagrams of determinate beams and frames, stresses in beams, deflection of beams. Stresses in shafts. Thin-walled pressure vessels. Buckling of columns. Analysis of stress, Mohr's circle diagram.

55.102 Mechanical Engineering IE

[Three lectures and one tutorial per week. Second half-year]

Introduction to the fundamentals of thermodynamics, power cycles and heat transfer. Elementary stress analysis. Miscellaneous topics.

55.111 Thermodynamics and Fluid Mechanics I

[Three lectures and one tutorial per week]

Thermodynamic variables, thermostatics and hydrostatics. Integral equations of conservation of mass, momentum and energy, equations of state. Applications to turbomachinery, power and refrigeration cycles.

55.211 Thermodynamics and Fluid Mechanics II

[Two lectures and one tutorial per week]

Thermodynamic relations, dimensional analysis, advanced thermodynamic cycles. Integral equations of conservation of mass, momentum and energy, with application to energy conversion and heat transfer. Compressible flow in pipes and nozzles. Mixtures and solutions, combustion. Laminar and turbulent flow, elements of external flows.

55.221 Theory of Machines

[Two lectures and one tutorial per week]

Machines: Belts, clutches and other friction devices, gears and gearboxes, balancing.

Vibrations: Undamped and damped single and multiple degree-of-freedom lumped-mass systems, simple distributed mass systems, phase-plane diagrams, viscous and Coulomb damping.

Control: Concept of negative feed-back, block diagrams, transfer functions, elementary frequency-response analysis.

55.231 Industrial Administration

[Three lectures per week. Second half-year]

An introduction to management theory and practice, outlining such topics as: company formation, finance, accounting, and organisation; management theory and functions; economic, financial and other project analysis and evaluation; human and industrial relations; leadership, motivation, entrepreneurship; quantitative management techniques; contracts, standards, patents and legal liabilities; productivity, quality assurance, marketing and exports; occupational safety.

55.241 Mechanics of Materials I

[Two lectures and one tutorial per week]

Bending of beams. Elastic and plastic analysis of simple indeterminate beams and frames. Torsion of shafts, noncircular and thin-walled sections. Analysis of stress and strain. Constitutive relations. Yield and fracture in metals. Stability. Sheet forming, bulk forming and metal-cutting processes. Experimental stress analysis, testing methods; non-destructive testing.

55.261 Mechanical Engineering Design I

[Two lectures and one two-hour drawing office class per week]

The concept, design and specification of machines, mechanical plant and structures. Study of production processes such as sheet forming, bulk forming, metal cutting, welding, casting and moulding. Optimisation of production processes. Relationship of production and design.

No final examination: Grade assessed on course assignments.

55.301 Project in Mechanical Engineering

[About six scheduled hours per week. Equivalent in weight to two elective subjects]

A comprehensive investigation and report on a topic assigned by the Head of the Department of Mechanical Engineering.

No final examination: Grade assessed on project report and year's work.

55.302 Engineering Case Studies.

[Equivalent to one elective subject. Second half-year]

An investigation and report, or detailed design, on a selected topic in mechanical engineering. For example: (i) a design from initial feasibility study to prototype drawings; (ii) a critical appraisal of the performance, or failure, of some industrial plant, equipment or scheme; (iii) a study of the technical and commercial viability of an engineering enterprise. Each study will be undertaken by a small group of students and will be supervised by a member of staff.

No final examination: Grade assessed on group performance and individual final report.

55.303 Special Topic in Mechanical Engineering

[Three lectures per week. Either first or second half-year]

An advanced course on a topic to be determined each year by the Head of the Department of Mechanical Engineering.

55.311 Applied Fluid Mechanics

[Three lectures per week. First half-year]

Differential equations of fluid motion and simple solutions, boundary layers, turbulent flow, heat transfer, lubrication. Turbomachinery. Two-phase flow.

55.312 Applied Aerodynamics

[Three lectures per week. Second half-year]

Wing theory, aircraft performance and stability. VTOL and STOL aircraft, ground effect vehicles. Propellers, windmills. Natural winds, the earth's boundary layer. Wind effects on buildings and structures. Aeroelasticity. Compressible flow.

55.321 Control Engineering

[Three lectures per week. First half-year]

Classical linear control theory as applied to mechanical and other relevant systems: an introduction to state-space methods and to digital control techniques.

55.322 Acoustics and Vibrations

[Three lectures per week. Second half-year]

The nature and effects of noise and vibrations. Vibrations of continuous systems, including plates and membranes. Control at the source by design and control of transmission. Techniques and apparatus for measurement. Human factors. Case studies.

55.331 Industrial Engineering

[Three lectures per week. First half-year]

A course designed to introduce the student to industrial problems, and the techniques used to solve these. Aimed at effective productivity management in manufacturing, the course considers both human and technological aspects, such as work study, ergonomics, job evaluation, wage incentive schemes, network and other planning techniques, value engineering, product rationalisation, plant layout and materials handling, terotechnology, quality control, and the statistical design of experiments.

55.332 Manufacturing Systems

[Three lectures per week. Second half-year]

A course designed to introduce the student to the selection, design and operation of modern manufacturing systems. Technological, economical and social aspects are considered, with emphasis on the use of appropriate manufacturing technology. Topics dealt with include: types and classification of manufacturing systems; analysis of system parameters: layout, material

flow, workpiece spectrum and handling, flexibility, reliability, maintenance, economics; low-cost to full automation; micro-electronics in manufacturing, CAD/CAM, computer-integrated flexible manufacturing systems; industrial robots; metallic v. non-metallic products; system simulation using physical models; international and New Zealand developments.

55.333 Engineering Economics

[Three lectures per week. Second half-year]

A course intended to familiarise the student with the financial aspects of engineering management. Emphasis will be placed on topics such as alternative forms of costing, budgeting and profit planning, breakeven analysis, transfer pricing, replacement and maintenance policies, make or buy decisions and project cost estimation.

Techniques of evaluating project and capital equipment expenditure, including consideration of the sociological and environmental factors, will be studied, for both private and public sector investments.

55.341 Mechanics of Materials IIA (1981 only: Mechanics of Materials IIIA 55.420)

[Three lectures per week. First half-year]

A senior course dealing with the mechanical behaviour and properties of materials, strongly biased towards mechanical engineering practice. Topics such as: strengthening mechanisms, elastic stress analysis, stress concentrations, plasticity, fracture, fracture toughness, residual stresses, creep, limit analysis, selection of engineering materials. Case studies.

55.342 Mechanics of Materials IIB (1981 only: Mechanics of Materials IIIB 55.490)

[Three lectures per week. Second half-year]

A senior course dealing with the mechanical behaviour and stress analysis of machine components and other mechanical engineering configurations. Topics such as: flat plates, pressure vessels, structural frames, thin-walled sections, thermal stresses, stress waves in solids, mechanical testing, failure analysis, case studies.

55.351 Thermal Engineering

[Three lectures per week. First half-year]

Energy resources: their use and consequent environmental impacts. Economics of energy conversion. Engine cycles, emissions. Heat and mass transfer and applications: heat exchanger and drier design.

55.352 Applied Thermodynamics

[Three lectures per week. Second half-year]

Combustion processes, equilibrium. Properties of mixtures and solutions; application in cycles. 2-phase flow. Magnetohydrodynamics and other advanced cycles. Heat transfer: radiation.

55.361 Mechanical Engineering Design II

[Two lectures and one two-hour drawing office class per week]

EITHER A. Plant and process design: Design of mechanical structures. Handling of unit loads and bulk materials. Building services and environmental equipment. Selected plant equipment, e.g. pressure vessels.

OR B. Machine design: Manufacturing machinery. Engines, turbo machines, rotating assemblies. Vehicles. Dynamic structures. Jig and tool design. Product design.

AND Lectures on professional mechanical engineering practice.

No final examination: Grade assessed on course assignments.

55.371 Production Technology

[Three lectures per week. Second half-year]

Further studies in metal cutting processes. Metal forming processes: extrusion, drawing, rolling, swaging, stretching and deep drawing. Lubrication and metalworking. Vacuum forming, injection moulding and extrusion of plastics. The economics of manufacturing processes. Machine control systems. Case studies.

†† Not all electives will be available in a given year.

Practical Work

(1) By the end of the First Professional Year all students are required to have completed to the approval of the Faculty a course in Workshop Practice. Students who have attended similar courses elsewhere before enrolling at Auckland may apply to the Faculty for approval of such courses.

(2) Before graduation students shall obtain approved practical experience in workshops or in engineering works for a minimum period of 1200 hours. This is expected to be undertaken during the summer vacation. Overtime up to 10 hours per week on suitable work may be allowed.

At least 320 hours must be spent in general engineering workshops; this should be completed before entering the Second Professional Year.

Mechanical engineering students may put in the whole of their practical time in engineering workshops, or may use some of this time in obtaining subprofessional experience, for example, in a drawing office. However, Mechanical students should bear in mind that the Institution of Mechanical Engineers requires a minimum of eighteen months of workshop experience before accepting an application for Corporate Membership.

Students in Chemical and Materials Engineering may put in up to 600 hours in general engineering workshops. They must put in not fewer than 600 hours in approved plants or laboratories operating in the chemical engineering or materials engineering field. The work in such plants or laboratories may be of a subprofessional nature, for example work as a technician in analytical or quality-control laboratories associated with a processing industry.

Other students may carry out further work in engineering workshops or may obtain experience appropriate to their specialised fields. Some of the remaining time may be spent in gaining subprofessional experience such as surveying field work in the case of Civil Engineering students. Every student should normally have completed the first two periods of his practical work before completing the academic requirements of the degree.

(3) The approval of the Faculty of any proposed practical work must be obtained before its commencement. Students are advised to obtain as wide experience as possible in practical work and therefore approval will not normally be given for more than one period in a particular workshop or works.

(4) At the conclusion of each period of practical work each student must submit to Faculty: (a) a certificate signed by his employer showing the actual number of hours worked in ordinary time and also of overtime, and the type of work on which he has been engaged; (b) a full report by the student on the work done and the observations made. These reports will be graded and may be taken into account in recommending scholarships and other awards. Official certificates and instructions on the form of the report may be obtained from the School office.

The due date for handing in practical work reports shall be the July 31 immediately following the completion of the particular work period. If a report is not submitted by this date then that work period will not be recognised except under exceptional circumstances. For final reports submitted after March 1, it is unlikely that students will be able to graduate at the graduation ceremony of that year.

(5) A student who by virtue of exempting qualifications is admitted to an engineering course at a stage later than First Professional must fulfil the requirements of these regulations, with the exception that clause (1) relating to a course in Workshop Practice may be waived.

(6) Faculty may, however, approve work of an engineering nature carried out by a student before enrolling for Engineering. Faculty may also approve previous work, not exceeding 250 hours, of a general nature other than engineering. In all cases where approval is sought for work carried out before enrolling for an engineering course, a student must make application to Faculty in writing before 1 April of the year of the first enrolment in that course. Faculty may require certificates and a full report on such work before approval is considered.

Laboratory and Field Work

1. Laboratory work related to subjects of the First and Second Professional Years of the course is undertaken in integrated programmes designated First Professional Laboratories and Second Professional Laboratories.

2. In order to gain the formal recognition of having completed the laboratory work necessary for admission to the degree, a candidate shall attend the First Professional Laboratory and Second Professional Laboratory courses, carry out the experiments and submit reports, to a required standard.

3. Laboratory work related to subjects of the Third Professional year is an integral part of each subject. A candidate's satisfactory attendance and performance, including the submission of reports, forms a part of the requirement for a pass in each subject.

4. Candidates taking the subjects Surveying and Traffic and Highway Engineering shall, to a required standard, undertake Field Work, including the submission of reports.

††PRESCRIPTIONS FOR ME

51.700 Advanced Materials

An advanced course on selected topics in materials science or materials engineering.

51.710 Advanced Process Control

Advanced concepts of control, stability and optimization. Analysis of non-linear systems. Computer control.

51.720 Chemical Engineering Seminar

A graduate course on a topic or topics from the advanced fields of fluid mechanics; transport phenomena, heat transfer, particulate technology, chemical reactors and fuel technology.

51.730 Materials Seminar

A graduate course on a topic or topics in the field of materials to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.740 Studies in Chemical Engineering

An advanced course on topics to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.750 Studies in Materials Engineering

An advanced course on topics to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.760 Biochemical Engineering Seminar

A graduate course on selected topics in biochemical engineering; biological reactors, fermentation, protein processing and enzymology.

51.770 Advanced Chemical Engineering

An advanced course on selected topics such as fluid flow, rheology, heat transfer, mass transfer, separation processes.

52.700 Earthquake Engineering

The fundamentals of seismology including earthquake waves, magnitudes and felt-intensities. The damaging effects of earthquake upon land and the constructions of man. Study of some relevant historical earthquakes. Strong earthquake motions and the vibratory response of land and buildings. Fundamentals of the earthquake-resistant design of engineering structures.

52.710 Fluid Mechanics Seminar

Special topics selected from fluid dynamics, water resources engineering, statistics and numerical methods.

52.720 Geomechanics Seminar

Advanced studies of recent developments in theoretical soil mechanics.

52.730 Mechanics and Properties of Materials Seminar

Special topics selected from recent developments in the mechanics and properties of selected materials used in civil engineering.

52.740 Public Health Engineering Seminar

Selected topics from water and wastewater engineering pollution control.

52.750 Structural Dynamics

Vibration Theory. Linear theory of discrete and continuous systems including the shear beam and coupled shear walls. Introduction to the non-linear theory of vibration. Response of structures to earthquake, traffic and wind loading. Response spectra concepts. Normal mode analysis. Numerical integration techniques.

52.760 Structures Seminar

Selected topics from recent developments in structural analysis and design.

52.770 Transportation Engineering Seminar

Selected topics from recent developments in the planning and design of transport facilities and systems.

52.780 Transportation Planning

Land use, transport and travel. Spatial interaction models. Data surveys. Forecasting techniques. Analytical models for trip generation/attraction, distribution, assignment and modal split. Urban planning models. Model and network tests. Operational, economic and environmental evaluations. Computer programmes.

25.313 Environmental Law

See prescriptions for LLB.

52.790 Transportation Systems Analysis

Selected analytical techniques taken from: probability and statistics, queuing theory, simulation, linear and dynamic programming, network flow and allocation algorithms, and applied to the planning and design of transport facilities. Characteristics of transport systems and urban structure. Economic evaluation of transport projects. Transport systems planning techniques applied to urban planning.

52.800 Special Seminar in Civil Engineering

An advanced course on a topic to be determined each year by the Head of the Department of Civil Engineering.

52.810 Structural Analysis

Analytical methods for some or all of the following structures: space frames and grids, shear wall systems, folded plate structures, bridge superstructures. Solution techniques will include approximate methods, matrix and computer methods. Optimisation techniques and computer-aided design may also be included.

52.820 Space Structures

Selected topics in the analysis of space structures such as cable structures, plate and shell structures. Special consideration for stability, elasticity and plasticity may also be included.

52.860 Advanced Fluid Mechanics

Selected topics from applied fluid mechanics and hydraulics.

52.870 Coastal Engineering

Waves, wave theories, wave forces on structures. Breakers, tsunamis, flow induced oscillations, resonance problems, tidal estuaries. Sediment transport by waves. Topics from coastal and harbour engineering.

52.880 Advanced Water Resources Engineering

Selected topics from hydrology and water resources engineering.

52.890 Applied Geomechanics

Application of the principles of soil mechanics, rock mechanics and engineering geology to practical problems in civil engineering.

52.900 Earth Structures

The stability, deformation, design and construction of earth structures.

52.910 Traffic Engineering

Design and capacity of highways and intersections, motorways and interchanges, weaving sections and rotaries. Traffic control and safety. Accident studies and analyses. Co-ordination of traffic signals and area traffic control. Travel and delay studies. Planning and design for pedestrian and vehicular traffic. Large-scale parking.

52.920 Structural Design

Design philosophies. Special considerations in steel, reinforced concrete, prestressed concrete and masonry structural design. The background to and the use of design codes.

53.700 Advanced Control Systems

Theory of modern control systems with emphasis on optimization techniques for both deterministic and stochastic processes. State space modelling of dynamic systems and choice of suitable performance criteria. Examples of applications and discussion of computational problems.

53.710 Advanced Electrical Engineering

An advanced course on selected topics in Electrical Engineering.

53.721 Electromagnetic Theory

Selected topics in electromagnetic theory. The emphasis is on mathematical analysis.

53.730 Heavy Current Electronics

Selected topics in the utilisation of thyristor devices in industrial electrical engineering applications.

53.740 Microprocessors and Minicomputers

Review of computer basics including number representation, logical and arithmetic operations, A/D and D/A conversion, computer architecture. Programming systems for small computers, input-output, interrupts instruction sets. Applications in the fields of signal processing, communications, control, data logging.

53.750 Studies in Electrical Engineering

An advanced course on a topic to be determined each year by the Head of the Department of Electrical Engineering

53.760 Computer Aided Network Analysis

Computer simulation of active and passive networks.

54.700 Studies in Engineering Mathematics

A graduate course in Mathematics applied to Engineering problems on such topics as the theory of ordinary differential equations, partial differential equations, perturbation methods, advanced numerical analysis, etc.

54.710 Studies in Engineering Science

A graduate course on topics to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.720 Studies in Control Theory

A graduate course in modern Control Theory including such topics as optimal control, stochastic and nonlinear systems.

54.730 Studies in Continuum Mechanics A**54.740 Studies in Continuum Mechanics B**

Graduate courses in Continuum Mechanics covering topics in the mechanics of solids and fluids and other continua.

54.750 Finite Element Methods

A graduate course on finite element formulations and application to problems such as stress analysis, seepage, dynamics, stability, temperature stress, freezing. A background such as that gained in Computational Techniques II or Structures IIIB would be desirable.

54.760 Studies in Operations Research A**54.770 Studies in Operations Research B**

Graduate courses in recent developments in Operations Research and applications.

54.780 Advanced Systems Analysis

A graduate course on a selection of topics from systems analysis and operations research. This subject cannot be credited if 54.23 or 54.45 have previously been credited towards a degree.

54.790 Random Processes

A graduate course in the theory and application of discrete and continuous random processes including topics such as queueing models, Markov processes, information theory, Monte Carlo simulation, turbulence and random vibration.

55.700 Advanced Mechanical Engineering

A course of lectures and directed reading on particular topics in mechanical engineering allied to the thesis subjects of students taking the ME degree.

55.710 Advanced Applied Aerodynamics

Selected topics such as aerofoil theory, turbulence, boundary layers; aerodynamic machines, natural aerodynamics, industrial aerodynamics, gas dynamics. Experimental methods.

55.720 Advanced Mechanics of Materials

Study of selected topics in the nature, mechanical behaviour and properties of materials, with particular relevance to industrial production processes.

55.730 Advanced Production Technology

Selected topics from process metallurgy including casting, welding, metal forming and heat treatment; production specification, inspection and quality control; metal removal processes and optimisation; advanced machine and process control systems.

55.740 Productivity Management

The course will consist of two major sections. The first will alert the student to the human-relations requirements for an increase in industrial productivity. The second will be concerned with the techniques and the important peripheral matters necessary for planned productivity improvements.

55.750 Studies in Mechanical Engineering

A course of lectures and directed reading in a topic to be determined each year by the Head of the Department of Mechanical Engineering.

1980: To be announced

86.100 Geothermal Systems and Technology**86.103 Geothermal Production Technology****86.104 Geothermal Energy Utilisation****86.606 A project on some aspects of Geothermal Energy****50.700, 50.710, 50.720, 50.730 Project A, B, C, D**

A candidate may take the equivalent of three single paper projects. For example, he may take Projects A, B and C, or Project D and one of Projects A, B and C. He is required to submit a report on each project carried out. These projects may include design studies, a survey and evaluation of modern advances in a branch of engineering, a small experimental or theoretical research project, the development of a new design procedure, the development of a computer package.

†† Not all electives will be available in a given year.

Professional Institution Courses

Candidates for the examinations of the Council of Engineering Institutions may take Courses selected from the BE syllabus. Prospective candidates should consult the Dean of the Faculty before planning their Course.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF FINE ARTS BFA OPTION I AND OPTION II

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Fine Arts shall

- (a) follow a course of study of not fewer than four years, taking either Option I or Option II prescribed in these regulations and
- (b) pass four Professional Examinations.

2. In these Regulations:

'Papers' includes Studio I, Studio II, Studio III and Studio IV.

'Prescribed or approved papers' in relation to any candidate means the following papers:

Studio Theory: 27.201-27.208, 27.211-27.216, 27.301

Art History II: 19.259, 19.260 and 19.261

Art History III: 19.301, 19.302, 19.304, 19.305, 19.306, 19.307, 19.308.

Any other paper (or the equivalent credits)

- (i) prescribed for the Degree of BA, BSc or any other Degree and
- (ii) approved by the Head of the Department of Fine Arts for the course of that candidate for this Degree and by the Head of the Department in which the paper is taken.

3. The subjects of Examination for the Degree shall be:

Option I

First Professional Examination 6 papers, consisting of

- (i) Studio I: 27.150 having the value of 4 papers, and
- (ii) Art History I: 19.151, 19.152.

Second Professional Examination 9 papers, consisting of:

- Either (a) (i) Studio II: 27.250 having the value of 6 papers and
- (ii) three prescribed or approved papers.

Or (b) (i) Studio II: 27.251 having the value of 7 papers and

- (ii) Two prescribed or approved papers.

Third Professional Examination 9 papers, consisting of:

- Either (a) (i) Studio III: 27.350 having the value of 6 papers and
- (ii) Three prescribed or approved papers.

Or (b) (i) Studio III: 27.351 having the value of 7 papers and

- (ii) Two prescribed or approved papers.

Fourth Professional Examination 9 papers, consisting of:

- Either (a) Studio IV: 27.450 having the value of 9 papers

Or (b) Studio IV: 27.451 having the value of 7 papers and any two papers in Studio Theory 27.201-27.208, 27.211-27.216.

Option II

First Professional Examination 6 papers, consisting of:

- (i) Studio I: 27.151 having the value of 4 papers; and
- (ii) Art History I: 19.151, 19.152.

Second Professional Examination 9 papers, consisting of:

- Either (a) (i) Studio II: 27.252 having the value of 3 papers; and
- (ii) Six prescribed or approved papers.

Or (b) (i) Studio II: 27.253 having the value of 4 papers; and

- (ii) Five prescribed or approved papers.

Third Professional Examination 9 papers, consisting of:

- Either (a) (i) Studio III: 27.352 having the value of 3 papers; and
- (ii) Six prescribed or approved papers.

Or (b) (i) Studio III: 27.353 having the value of 4 papers; and

- (ii) Five prescribed or approved papers.

Fourth Professional Examination 9 papers, consisting of:

- (i) Studio IV: 27.452 having the value of 6 papers; and
- (ii) Three prescribed or approved papers.

Studio

4. In each Professional year work for Studio shall consist of:

- (a) a formal submission of work at the conclusion of each study period; and

- (b) a final formal submission of work; which may include written examination papers, as required by the Dean of the Faculty.

5. A candidate shall be required to pass as a whole each Professional Examination consisting of more than one subject, so that his performance in all the papers of the Examination shall be considered; provided that

- (a) a candidate who has failed to pass any such Examination as a whole may, at the discretion of the Senate, be credited with a paper or papers of that Examination, and permitted in a subsequent year to take the papers not so credited; and

- (b) a candidate who does not pass the Second Professional Examination as a whole, but is credited with a paper or papers of that Examination may, if the Senate permits, take with the papers being re-presented for that Examination a paper or papers for the Third Professional Examination.

6. In respect of every prescribed or approved paper prescribed for a Degree other than this (that is, every paper taken for this Degree other than Studio I, II, III and IV and the papers in Studio Theory) a candidate shall be required to comply with all regulations applicable thereto for the Degree of BA, BSc or other Degree (including all prerequisites, corequisites and restrictions).

Revocations

7.(1) The course of every candidate shall be governed by these Regulations.

(2) The Regulations governing the Degree of Bachelor of Fine Arts last published in the University of Auckland Calendar for 1974 are hereby revoked.

(3) The Regulations governing the Diploma in Fine Arts and the Diploma in Fine Arts (Honours) respectively, last published in the University of Auckland Calendar for 1974 are hereby revoked.

8. These regulations shall come into force on 1 January 1975.

THE DEGREE OF MASTER OF FINE ARTS MFA

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Fine Arts shall

- (a) before his enrolment for this Degree have been admitted or have qualified for admission to the Degree of Bachelor of Fine Arts, and

- (b) have passed with a Grade higher than C+ in Studio IV in his Bachelor of Fine Arts course provided that in special circumstances where the Head of Department so recommends the Senate may accept a C+ pass, and

- (c) follow a Course of study of not less than two years, taking either of the Options prescribed under these Regulations.

2. In these Regulations:

'prescribed or approved papers' in relation to any candidate means the following papers:

Studio Theory

Any paper other than a paper in Art History, prescribed for any Degree other than this Degree and approved by the Head of the Department of Fine Arts for the Course of that candidate and by the Head of the Department in which the paper is taken.

Course Content

3. The subjects of examination for the Degree shall be:

Option I

First Year; Part I: Advanced Studio V Practice and Theory 27.550 having the value of four papers.

Second Year: Part II. Studio VI 27.650 having the value of three papers. A candidate shall carry out work satisfactory to the Dean of the School of Fine Arts within an individually planned programme approved by the Head of the Department including the presentation of an exhibition of his work and an adequate printed catalogue thereof not later than 1 November in the year in which the work is undertaken or such later date as may be approved by the Head of the Department.

Option II

First Year; Part I:

(a) Art History IV: Two papers approved by the Head of the Department of Fine Arts being either two papers chosen from 19.400-19.408 or one paper chosen from 19.400-19.408, and one of the papers prescribed for Art History III not already credited to the Degree of Bachelor of Fine Arts; provided that papers 19.305 and 19.401 may not both be taken for this Degree
or

(b) Any two prescribed or approved papers not already credited to the Degree of Bachelor of Fine Arts.

First Year; Part II: Studio V 27.551 which shall have the value of three papers. A candidate shall carry out work satisfactory to the Dean of the School of Fine Arts within an individually planned programme approved by the Head of the Department including the presentation of an exhibition of his work and an adequate printed catalogue thereof not later than 1 November in the year in which the work is undertaken or such later date as may be approved by the Head of the Department.

Second Year: Part III. One of the following which shall have the value of three papers:

(a) Thesis 19.601 on a special topic of Art History approved by the Head of the Department of Art History, or

(b) Thesis 27.601 on a special topic related to the candidate's programme of work for Studio V and approved by the Head of the Department of Fine Arts.

4. (1) No candidate taking Option I shall take Studio VI without having first passed in Studio V unless the Head of the Department permits the work for Studio V to be examined with the work for Studio VI in the second year of the course.

(2) A candidate taking Option II shall not take Art History IV unless he has either passed 8 papers in Art History including three Stage III papers or complied with such prerequisites as the Head of the Department of Fine Arts may otherwise prescribe for him.

(3) In respect of any prescribed or approved paper taken in Option II and prescribed for a Degree other than this, a candidate shall be required to comply with all Regulations applicable thereto for that other Degree (including all prerequisites, corequisites and restrictions).

Savings and Transitional Provisions

5. (1) Except as otherwise provided in this Regulation, the course of every candidate shall be governed by these Regulations.

(2) The Regulations governing the Degree of Master of Fine Arts which were last published in the University of Auckland Calendar for 1974 (in this Regulation called "the old Regulations") are hereby revoked.

(3) A candidate who began the course for the Degree of Master of Fine Arts in 1974 shall be entitled to the following credits:

(a) If he passed Art History IV and Studio IV under the old Regulations and chooses Option I, he shall be credited with Studio V and one prescribed or approved paper.

(b) If he passed Art History IV under the old Regulations and chooses Option II, he shall be credited with Art History IV.

Honours

6(a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions: First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate is examined in Art History for this Degree are unsatisfactory or if either the work in Studio V,

VI, or the thesis at its first presentation is unsatisfactory: provided that, subject to the provisions of paragraph (c) of this Regulation, a candidate whose performance at the written examination has been seriously impaired by illness (certified as under the aegrotat Regulations) may elect, instead of applying for an aegrotat award, to present himself at a subsequent written examination and still be eligible for the award of Honours.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of passing the final subject of his Bachelor's Degree; provided that this period may in special cases be extended by the Senate.

7. These Regulations shall come into force on 1 January 1976.

DEGREE COURSE PRESCRIPTIONS

DEPARTMENT OF ART HISTORY

Art History I

(Two papers).

19.151 Renaissance Art to c.1520

19.152 Western Art from c.1820 to the present day.

Art History II

(Three papers).

19.259 Topics in 18th and early 19th Century Art.

Prerequisites: 19.151, 19.152.

19.260 Topics in Baroque Art

Prerequisites: 19.151, 19.152. Restrictions 19.257.

19.261 Topics in 17th and Early 18th Century Art in Northern Europe.

Prerequisites: 19.151, 19.152. Restrictions 19.258.

Art History III

(Three papers).

19.301 Special Topic in Medieval Art

To be prescribed by the Head of Department.

Prerequisites: Two of 19.251-19.253, or two of 19.257-19.261.

19.302 Mid-19th Century Painting in France and Britain

Prerequisites: Two of 19.251-19.253, or two of 19.257-19.261.

***19.304 Durer and his Sources and Influence.**

Prerequisites: Two of 19.251-19.253, or two of 19.257-19.261.

19.305 New Zealand Art (General)

Prerequisites: Two of 19.251-19.253, or two of 19.257-19.261, corequisite 19.308, or 19.302, or 19.307.

19.306 Special Topic in Western Art after 1500: Women in Art

Prerequisites: Two of 19.251-19.253, or two of 19.257-19.261.

19.307 Art in the USA, 1945 to the present day

Prerequisites: Two of 19.251-19.253, or two of 19.257-19.261.

19.308 Topics in early 20th Century Art

Pre-requisites: Two of 19.251-19.253, or two of 19.257-19.261.

Art History for MFA

†19.400 Topics in 17th Century Drawing

***19.401 Topics in Australian and New Zealand Painting (advanced)**

†19.402 Special Topic in Western Art before 1600

To be prescribed by the Head of Department.

†19.403 Watteau and his Sources and Influence

†19.404 Film Studies

†19.405 Nicolas Poussin and 17th Century Classicism.

Note: A candidate who has been credited with a pass in 19.303 may not take this paper.

***19.406 Art Historiography**

19.407 A Topic in Medieval Art**19.408 A Topic in 19th Century Art**

* This paper will not be taught during the current *Calendar* year.

† This paper may not be taught during the current *Calendar* year unless sufficient staff is available.

SCHOOL OF FINE ARTS

In 1888, by the Will of John Edward Elam, the sum of approximately £6500 was provided to establish in Auckland the Elam School of Art and Design latterly known as the Elam School of Fine Arts. The first premises of the School in 1889 were in the Art Gallery Building. In 1950 the School came under the control of the University and now operates as the School of Fine Arts.

Studio Theory**27.201 Art Criticism*****27.202 Comparative Studies**

A reading/seminar programme concerned with ideas, philosophy and attitudes.

†27.203 Design Methodology

The study of methods used in the collection and collation of information, the recognition, analysis and description of complex problems, and the generation and presentation of solutions.

†27.204 Two-Dimensional Development

The evolution and communication of ideas and information through drawings and diagrams based on formal conventions.

Topics from the development of photography**†27.205 Up to Alfred Stieglitz in Berlin i.e. 19th century****†27.206 From Alfred Stieglitz in America, i.e. 20th century****Topics from the development of motion pictures*****27.207 Up to the End of the Silent Era, and*****27.208 From the Introduction of Sound****Special Topics in painting, sculpture or design approved by the Head of the Department.**

For Studio III and IV students only. A programme based on discussions of art-works displayed by students at seminar meetings with written comments or reviews of the works.

††27.211 Special Topic**††27.212 Special Topic****††27.213 Special Topic****††27.214 Special Topic****27.215 Professional Practice for Painters****27.216 Workshop Practice**

Notes: * This paper will not be taught during the current *Calendar* year.

† This paper may not be taught during the current *Calendar* year.

†† Not all electives will be available in a given year.

†27.301 Professional Practice for Designers

Business methods and procedures commonly used by professional designers; Topics may include:

(a) Preparation of a portfolio; (b) What to expect after graduation; (c) Correspondence; (d) Reports and report writing; (e) Fee structure; (f) Estimating fees, fee letters and contracts; (g) Business structure; (h) Setting up an office; (i) Running an office; (j) Budgeting (overheads etc.); (k) Securing work and clients; (l) Accountants and taxation; (m) Design and the Law; (n) Ethics; (o) Design organisations; (p) Special topics related to the individual student's requirements.

Studio For BFA**Studio I****Option I 27.150****Option II 27.151**

Exploration of those disciplines which are fundamental to the development of the artist and designer. Basic elements of two and three-dimensional design (space, shape, line, rhythm, texture) and the varied properties and qualities of colour and light. The creative potential and characteristic limitations of various media such as wood, stone, plastic, metal, glass and pigment. Methods of techniques such as welding, casting, print-making, painting, and photographic media. Observation and analysis of the structure of the natural world and human environment. Drawing as an expressive means of communication, and as a vital stimulus to personal development.

Studio II**Option I 27.250, 27.251****Option II 27.252, 27.253**

Individually planned programme as approved by the Dean of the School of Fine Arts, with content related to the student's requirements, for example, drawing and one or more of the following: painting, sculpture and design. Advanced experimentation in techniques and materials.

Design includes Graphic and Industrial Design, and Jewellery. Due to accommodation, Jewellery is limited to 4 students at any one time.

Studio III**Option I 27.350, 27.351****Option II 27.352, 27.353**

Development of Studio II in selected fields.

Studio IV**Option I 27.450, 27.451****Option II 27.452**

Development of Studio III in selected fields.

Studio for MFA**Studio V****Option I 27.550****Option II 27.551**

The candidate's programme shall be a practical performance in some aspect of the fine arts. The proposed programme shall be submitted for approval to the Dean of the School of Fine Arts by 31 March.

Studio VI**Option I 27.650**

The work in Studio VI may be in an aspect of the fine arts other than that approved for Studio V. The proposed programme shall be submitted for approval to the Dean of the School of Fine Arts by 31 March.

Thesis for MFA**Option II****Either****19.601**

A thesis on a topic in Art History, to be approved by the Head of the Department of Art History. The thesis must be submitted to the Registrar by 1 November.

or**27.601**

A thesis shall embody the results obtained by the candidate of an original investigation or advanced study relative to the candidate's programme in Studio V. The proposed topic shall be submitted for approval to the Dean of the School of Fine Arts by 31 March.

Post Graduate Medical Committee

SCHOOL OF MEDICINE

The medical Course in the University of Auckland is of six year's duration. The degree of Bachelor of Human Biology (BHB) is awarded upon satisfactory completion of the first three years. Ultimately the course leads to the degrees of Bachelor of Medicine and Bachelor of Surgery. (MBChB)

Bachelor of Human Biology

Although subjects for the early years of the course are taught in association with departments of the Faculty of Science the Curriculum has been drawn up as a fully integrated medical Course. During the first year such aspects of Biology, Chemistry and Physics as provide the necessary language and concepts for the understanding of the Medical Sciences are studied. The Behavioural Sciences are introduced and opportunities provided for hospital visits and attendance at case presentations and lectures on selected medical topics. During the second and third years the Course presents a detailed analysis of the normal structure and function of the human organism together with an introduction into the ways in which the intrinsic biological mechanism are disturbed in disease. The course during these two years is presented by the Departments of Anatomy, Pharmacology, Physiology, Biochemistry, Pathology, and Psychology, with assistance from the Clinical Departments. It is over this period that the medical students pursue a child study by following the progress and growth of an individual, new born infant.

Fundamental biochemical and physiological mechanisms — largely expressed at cellular levels — and their structural bases are considered first, followed by a study of the principal organ systems which ensure the continuance of these functions. The study of the locomotor and nervous systems, of the complex control of body activity, metabolism and nutrition, of reproduction and growth, and of fundamental aspects of Pathology form further major units of the course.

Admission to the first year of the course is restricted to those students who intend to complete the six year Course for entry into the medical profession.

Bachelor of Medicine and Bachelor of Surgery

The clinical triennium follows qualification for the award of the Degree of Bachelor of Human Biology. The Auckland Hospital Board has made available for teaching purposes all hospitals under its control; at present instruction has been arranged at the four major hospitals — Auckland Hospital, Green Lane, Middlemore and National Women's. The Waikato Hospital Board also provides teaching facilities at Waikato Hospital for students in Medicine, Surgery and Paediatrics. Subjects to be studied include Medicine, Surgery, Obstetrics and Gynaecology, Paediatrics, Pathology, Psychiatry, Clinical Pharmacology and Community Health together with their main sub-specialities. During their final year Trainee Interns will be expected to undertake some supervised responsibility for the care of patients.

An introductory course of five weeks duration acquaints the students with the art and techniques of interrogating and examining patients. This is followed by a period of study in the hospital wards and outpatients clinics during which the student is given the opportunity to witness the forms in which disease may present itself, and to study the management of disease processes within the general and special fields of modern medicine. Emphasis is placed upon topic teaching by which a particular disease or injury is studied at the one time in all its aspects — medical, surgical, pathological, social, etc.

During the Clinical Course students will spend a proportion of their time in elective studies, that is pursuing in depth, subjects of particular interest to them. They will also serve a period in general practice under the direction of family doctors.

Other Degrees and Diplomas

All departments undertake graduate teaching in medicine for the research degrees of PhD and Master of Medical Science (MMed Sc) or Master of Human Biology (MHB). Opportunities exist to follow the MHB course on completion of the Human Biology course for preclinical subjects, and the MMedSc on completion of the second year for MBChB for clinical subjects. These opportunities allow for research activities during the medical course but, necessarily, prolong it. The Degree of Master of Medical Science replaces the MD and ChM offered by other universities.

In addition diploma courses are offered in the Postgraduate School of Obstetrics and Gynaecology and by the department of Paediatrics. All clinical departments are associated with the

basic and advanced vocational training for the examinations and diplomas offered by the various colleges.

Materials Fees (See Fees Regulations)

BHB I, II and III \$10.00

MBChB I and II \$20.00

MBChB I and II \$17.50

MBChB I \$ 3.50

for learning material (major texts, tapeslides, reprints and notes) largely provided in the A. V. Carrell.

for provision and laundering of white coats.

Case notes folder (personal property).

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF HUMAN BIOLOGY

BHB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

General Provision

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the degree of Bachelor of Human Biology shall follow a Course of study of not fewer than three years.

Admission

2. (a) Admission to the Course of study in Human Biology shall be at the discretion of the Senate. Application for admission to the Course shall be made to the Registrar in writing before 1 October or such other date as the Senate may determine, of the year preceding that in which the applicant proposes to enrol.

(b) Admission to Part I of the Course of study shall be granted or withheld upon a consideration of the past performance of the applicant at school and in public examinations, and upon an interview where this is required.

(c) In such exceptional circumstances as the Senate may approve or under the Admission Ad Eundem Statum Regulations, admission may be granted to an applicant to Part II or Part III.

Course Content

3. The Course of study shall consist of three Parts. A candidate shall be required to pass as a whole each Part of the Course of study: provided that a candidate, who re-enrols for a Part of the Course of study having failed to pass it as a whole at the first attempt, may be allowed to carry out, to the satisfaction of the Heads of Departments concerned, alternative work in lieu of the work in that Part where his previous performance was satisfactory.* For the purpose of assessing the grade of this candidate as a whole for a Part of the Course of study the Senate may approve that the satisfactory pass grade in that previous work be carried forward.

*Normally a B-grade or better.

4. Except as provided in Regulation 2 (c) hereof no candidate shall be permitted to enrol in Part II of the Course until he has passed Part I, or in Part III until he has passed Part II.

5. A candidate shall carry out to the satisfaction of the Senate such practical work in each Part of the Course of study as may be required.

6. The papers prescribed for examination for the Course of study in Human Biology are:

Part I

Biology 60.100, 60.101, 60.102

Physico-Chemistry 60.103, 60.104, 60.105

Behavioural Science I 60.108

Part II

Human Cell and Tissue Biology 60.203, 60.204

Visceral Organ Systems 60.205, 60.206, 60.207

Behavioural Science II 60.208

Part III

General Pathology 60.301

Neurolocomotor Systems 60.302, 60.303

Human Reproduction and Development 60.304

Homeostasis 60.305

Pharmacology 60.306

Behavioural Science III 60.308

7.(a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.

8. These Regulations shall come into force on 1 January 1979.

THE DEGREE OF BACHELOR OF MEDICINE AND BACHELOR OF SURGERY

MBChB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Medicine and Bachelor of Surgery shall before enrolment have qualified for admission to the Degree of Bachelor of Human Biology not more than one academic year previously, except where the Senate otherwise permits.
2. (a) Each candidate shall follow a Course of study of not fewer than three years.
(b) No candidate shall be permitted to proceed to his second year of study until he has completed, to the satisfaction of the Senate, the work prescribed for his first year.
(c) Each candidate shall follow his course of study for Year I and Year II continuously and where he fails to do so he may return to his course of study only with the approval of the Senate, and on such conditions as the Senate may determine.
(d) No candidate shall be permitted to proceed to Year III until he has passed Years I and II as a whole.

Practical Work

3. A candidate shall carry out to the satisfaction of the Senate, such practical and clinical work in each year of the course as may be required.

Course Content

4. The Course shall consist of:

Year I (Year IV of the medical course)

Year Code: 90.651

- (a) Lectures, laboratory work and instruction in the clinical skills of medicine, including methods of interviewing and examining the patient, Clinical Pharmacology, Community Health, Pathology.
- (b) Lectures, laboratory work and clinical instruction in systematic medicine with instruction in diagnosis and management of patients in the hospital and the community. The study of man in his environment.

A candidate will be required to undertake a four week clerkship in July/August, in either Medicine or Surgery. A further clerkship of four weeks shall be taken either in November or in the following February in another clinical discipline.

Year II (Year V of the medical course)

Year Code: 90.652

Lectures, laboratory work and clinical instruction continue in systematic medicine, with increasing emphasis on clinical work in the specialties of Obstetrics and Gynaecology, Paediatrics, Psychiatry, together with practical experience in Community Health and courses in environmental health and forensic pathology.

At the conclusion of Year II there will be a composite examination of four written papers (90.100, 90.101, 90.102, 90.103) and four oral and/or clinical examinations (90.104)

Year III (Year VI of the medical course)

Year Code: 90.653

Clinical work as a trainee intern and with responsibility for patients over three successive periods of three months each together with a further three month elective period.

5. (a) A candidate shall be deemed to pass Years I and II of the course when the Senate so resolves after consideration of a report from the Faculty of Medicine and Human Biology, as to the candidate's performance and results in his work for those Years.
(b) A candidate shall be deemed to have completed Year III successfully if he obtains passing assessments from each of the periods of that academic Year.

The candidate shall not be deemed to be qualified for admission to the Degree except upon a

favourable recommendation of the Senate based on those assessments and on a general report by the Faculty of Medicine and Human Biology of the candidate's general performance throughout the course.

6. The regulations shall come into force on 1 January, 1979.

THE DEGREE OF MASTER OF HUMAN BIOLOGY MHB

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

Note: Any student wishing to enrol for this degree must consult the Head of the appropriate Department before making an application to enrol.

General Provisions

1. Subject to the Admission, Ad Eundem Statum regulations, a candidate for the Degree of Master of Human Biology shall before his enrolment for this degree have been admitted or qualified for admission to the Degree of Bachelor of Human Biology.

Course Content

2. Every candidate for the degree shall

(a) pass the examinations, and

(b) pass in respect of a thesis (which shall count as four papers) in one of the following subjects:

65.405, 65.406 Anatomy (two papers and a thesis 65.601).

63.403, 63.404 Behavioural Science (two papers and a thesis 63.601).

66.405, 66.406 Biochemistry (two papers and a thesis 66.611).

68.403, 68.404 Pathology (two papers and a thesis 68.601).

67.405, 67.406 Physiology (two papers and a thesis 67.601).

96.400, 96.401 Pharmacology (two papers and a thesis 96.601).

Thesis

3. The following conditions shall apply to the thesis:

(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of Department.

(b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.

(c) In the case of a thesis recording laboratory work, the Supervisor shall certify to the Registrar in writing that the laboratory work has been carried out within the University, or within such other institution as may be approved by the Senate for the purposes of this regulation. Laboratory work for the degree in Biochemistry shall be conducted in the Department of Biochemistry.

(d) A candidate shall submit his thesis to the Registrar by 1 November in the year in which he first enrolls for the degree or at such later date in that or the next year as may be arranged by the Head of Department in consultation with the Supervisor. An extension of time beyond two years from the date of first enrolment for the degree may in exceptional circumstances be approved by the Senate.

(e) If the Supervisor, after consultation with the Head of Department and with the consent of the Assessor, so recommends, a thesis which is not considered satisfactory will be returned to the candidate, who may be permitted to revise and resubmit the thesis at a later date to be specified by the Head of Department after consultation with the Supervisor.

Note: An abstract is to be submitted with each copy of the thesis; see Examination Regulation 14.

Honours

4. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in which a candidate takes an examination for the degree are unsatisfactory; provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circum-

stances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination, so that he shall still be eligible for the award of Honours subject to the provisions of sub-clause (c) of this regulation.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within two years of his first enrolment for this degree provided that this period may be extended, in exceptional cases, by the Senate.

5. These regulations shall come into force on 1 January 1977.

THE DEGREE OF MASTER OF MEDICAL SCIENCE

MMedSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

Note: Any student wishing to enrol for this degree must consult the Head of the appropriate Department before making an application to enrol. The number of candidates that can be accepted in any subject for the degree is limited. Applications close 15 October for the following year and only those students who have been advised that they have been accepted for the course will be permitted to enrol.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Medical Science shall

(a) before his enrolment for this Degree have

passed year II of the course prescribed for the degree of Bachelor of Medicine and Bachelor of Surgery; and

(b) follow a Course of study of not less than one year.

2. A candidate who is not devoting his full time to University study shall if the Senate so requires follow a two-year course of part-time study of such content as the Senate may prescribe.

Course Content

3. Every candidate for the Degree shall

(a) pass the examinations, and

(b) pass in respect of a thesis (which shall count as four papers) in one of the following subjects:

96.402, 96.403 Clinical Pharmacology (Two papers and a thesis 96.611)

91.400, 91.401 Community Health (Two papers and a thesis 91.601)

92.400, 92.401 Medicine (Two papers and a thesis 92.601)

47.400, 47.401 Obstetrics and Gynaecology (Two papers and a thesis 47.601)

93.400, 93.401 Paediatrics (Two papers and a thesis 93.601)

68.405, 68.406 Pathology (Two papers and a thesis 68.611)

94.400, 94.401 Psychiatry (Two papers and a thesis 94.601)

95.400, 95.401 Surgery (Two papers and a thesis 95.601)

90.400, 90.401 A Medical subject approved by the Senate on the recommendation of the Faculty of Medicine and Human Biology (Two papers and a thesis 90.601)

Thesis

4. The following conditions shall apply to the thesis:

(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of the Department.

(b) Thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.

(c) In the case of a thesis recording laboratory work, a supervisor shall certify to the Registrar in writing that the laboratory work has been carried out within the University, or within such other institution as may be approved by the Senate for the purposes of this Regulation.

(d) A candidate shall present his thesis in the same year as that in which he first takes his examination (if any) or with the consent of the Head of the Department and subject to paragraph (g) of this Regulation, in any subsequent year.

(e) The candidate shall submit his thesis to the Registrar by 1 November in the year in which it is presented or at such later date as may be arranged with the Head of the Department.

(f) If the supervisor with the consent of the Assessor so recommends a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date to be specified by the supervisor.

(g) No thesis shall be presented later than the third year after that in which the candidate first takes his examination for this Degree provided that this period may in special cases be extended by the Senate.

Note: An abstract is to be submitted with each copy of the thesis see Examination Regulation 14.

5. A candidate shall not enrol for a subject which he has already passed for the Degree of Master of Science.

6. These Regulations shall come into force on 1 January 1972.

DEGREE COURSE PRESCRIPTIONS**PRESCRIPTIONS FOR BHB****Course of Study in Human Biology — Part I**

Departments of Biochemistry, Botany, Cell Biology, Chemistry, Physics, Psychology, Zoology.

Biology

(Three papers and practical work).

60.100, 60.101, 60.102

Cells, structure and physiology; elementary biochemistry; form and function of animals and plants; the history of the vertebrates; genetics; evolution; principles of ecology and behaviour; biological mathematics.

Physico-Chemistry

(Three papers and practical work).

60.103, 60.104, 60.105

A study of the structure and properties of matter covering the following areas:

- i) *Organic chemistry* (including the structure and isomerism of organic molecules, functional groups and their properties, polymers, an introduction to compounds involved in biochemical reactions).
- ii) *Introductory biochemistry* (proteins; enzymes, carbohydrates and polysaccharides, intermediary metabolism).
- iii) *Analytical and physical chemistry* (spectrophotometry, spectrometry, chromatography, radiochemistry, solution chemistry, reaction kinetics, thermodynamics).
- iv) *Physics and computing* (waves, light and optical systems, digital waveforms, electronics, electrostatics, mechanics, fluids, elasticity, topics in computing).

Behavioural Science I

(One paper and practical work).

60.108

An introduction to the scientific study of behaviour. The course includes a treatment of the topics of learning, motivation, emotion, sensory and perceptual processes, verbal behaviour, and cognitive functions. An introduction to experimental methods and statistics. An introduction to medical sociology.

Course of Study in Human Biology — Part II

Departments of Anatomy, Biochemistry, Physiology, Psychology.

Human Cell and Tissue Biology

(Two papers and practical work).

60.203, 60.204

A study of fundamental concepts in molecular, cellular and tissue biology in man.

Visceral Organ Systems**60.205, 60.206, 60.207**

A study of the circulatory, respiratory, alimentary, renal and reproductive systems; the gross anatomy of the trunk; and general biochemistry.

Behavioural Science II

(One paper and practical work).

60.208

The study of development from conception through infancy, childhood, adolescence, youth, the working years, to old age. Adjustment to stresses, resources available to individuals and to the community. Communication and interpersonal processes. Topics in medical sociology. Brain and behaviour.

Course of Study in Human Biology — Part III

Departments of Anatomy, Biochemistry, Pathology, Physiology, Psychology, Pharmacology/Clinical Pharmacology.

General Pathology

(One paper and practical work).

60.301

A study of the principles of Pathology.

Neurolocomotor System

(Two papers and practical work).

60.302, 60.303

A study of the limbs and back and of the nervous system including the special senses.

Human Reproduction and Development

(One paper and practical work).

60.304

A study of the biology of human reproduction and sexuality; aspects of human genetics, foetal development, growth and ageing; biochemical aspects of endocrinology and nutrition.

Homeostasis

(One paper and practical work).

60.305

A study of the integrated physiology of human organ systems including their control, the correction of disturbance.

Pharmacology

(One paper and course work).

60.306

This course covers the absorption, distribution and fate of administered drugs; drug toxicity and abuse; the evaluation of new drugs; and the mechanisms of action of drugs that affect the various homeostatic control systems in the body.

Behavioural Science III

(One paper and practical work).

60.308

Assessment of normal and disabled persons. Introduction to aspects of clinical practice, counselling and human sexuality.

Course work assessment is included in the schedule of the University, and a pass in both written examinations and in course work is necessary.

PREScriptions FOR MBChB

The duration of the course will be three years.

First year of course for MBChB (Fourth year of the Medical Course)

Practice of Medicine:

An introduction to clinical medicine is provided during the first section of the first term. Methods of history taking and physical examination are demonstrated and practised by students. Students are also introduced to the principles underlying application of laboratory techniques and organ imaging to solving of patients' problems. The disciplines of medicine, surgery, paediatrics, psychiatry, obstetrics and gynaecology, pathology and radiology (organ imaging) contribute to the course. Lectures, symposia, case demonstrations, tutorial teaching, and bedside instruction, all play a part in this section of the course.

Systems of Medicine

During the remainder of the first year, a combined course, the Systems of Medicine, will cover the wide range of human disease arranged on a System basis. The natural history, pathology,

disordered physiology, methods of diagnosis and treatment of common diseases will be covered. Each discipline of medicine will contribute to the teaching. The principles of clinical pharmacology and therapeutics will be taught together with the Systems of Medicine course.

Community Health

Community Health will consist of a course throughout this year dealing with family practice, interpersonal relationships, preventive aspects of medicine, health education, epidemiology, and occupational health.

The course is designed to give the students an understanding of the human being in constant encounter with social and other environmental influences.

Students are required to undertake a course of field studies, participating in community health projects and visiting a number of institutions in the community for the welfare of the incapacitated.

Clinical Clerkship

In addition to the theoretical teaching, practical clinical experience will be gained in physical examination as it relates to gynaecology and obstetrics, medicine, paediatrics, psychiatry and surgery. Instruction will take the form of supervised history taking and examination with bedside demonstration, combined with tutorials.

Second year of the Course for MBChB (Fifth year of the Medical Course)

90.100, 90.101, 90.102, 90.103, 90.104

The combined topic teaching of the Systems of Medicine and Community Health will be completed. The class will be divided in halves, one majoring in Medicine and Surgery and completing topic (organ systems) teaching; the other in Psychiatry, Paediatrics and Obstetrics and Gynaecology. These allocations will change at mid-year.

A number of topics not included within the System of Medicine teaching will be covered in whole and half-class sessions. These include Medico-legal aspects of practice, a short course in ethics and the humanities, management of patients with malignant disease, head injuries, alcoholism and aspects of rehabilitation medicine.

At the conclusion of the year, there will be a composite examination consisting of four written papers and oral and/or clinical examinations.

Third year of the Course for MBChB (Sixth year of the Medical Course)

This is a trainee intern year of 52 weeks divided into four quarters of 12 weeks each and 4 weeks holiday. One of these quarters will be an "Elective" period when the student may take optional training in special disciplines of medicine. A list of approved electives will be provided from which to choose.

The remaining 36 weeks will be spent participating, under supervision, in the responsible care of sick people in hospital and in the home.

Assessment, including clinical and oral examinations where appropriate, of the student's progress will be made at the end of each assignment.

A salary will be paid to the trainee intern by the Hospital Board.

Experience in General Practice

The student is attached to an approved teaching practice for four weeks, during which time he sees patients and discusses their management with the general practitioner, attends house visits with him and takes part in a weekly seminar conducted by a general practice member of the Department of Community Health.

Gynaecology and Obstetrics

Gynaecology and Obstetrics will deal with the physiology, endocrinology and pathology of human reproduction, and their application to the clinical practice of gynaecological and obstetric medicine.

The teaching will emphasise the incorporation of the principles of this subject into total medical practice.

The theoretical teaching will be within the course on the systems of medicine and clinical clerkships will be required during the third year of the course concurrent with a clerkship in neonatal paediatrics.

Medicine

Various common medical diseases affecting different organ systems of the body will be considered with emphasis on their natural history, clinical presentation, methods of diagnosis, together with principles of treatment and prevention. Clinical clerkship will provide experience both in acute general medicine and, during the second year of the course, on selected aspects of different specialities within internal medicine. Tutorial teaching will play an important part in this teaching programme in which emphasis will be placed on the quality of the written as well as the verbal case presentations.

Paediatrics

The undergraduate course in Paediatrics commences with an interdisciplinary child development and family study in the second and third years of the course in Human Biology. Patient-based teaching in Paediatrics is carried out in the hospital and community setting over the three years of the clinical course.

Prevention of disease and the effect of disease on the developing child are emphasised in the departmental contribution to the course of lectures given in the first two years of the clinical course on the organic and psycho-social basis of ill health. At the end of this course of lectures students are examined in their knowledge and comprehension of the principles of Paediatrics. In the third year of the clinical course there is a period of trainee internship in Paediatrics which is mandatory and a term of elective study in the broad field of child health is offered.

Pathology

Teaching in Pathology commences in the third term of the third year of the course in Human Biology, and continues throughout the first, second and third years of the course for MBChB. Subjects under the aegis of Pathology include the Morphological Basis of Disease, Medical Microbiology, Haematology, Immunology, Chemical Pathology, and Forensic Medicine.

During the first part of the first year of the Course for MBChB, the principles of pathology and microbiology are taught on the basis of the teaching in these subjects undertaken during the latter part of the course in Human Biology.

During the remainder of the first year, and through the second year, the teaching in pathology is largely integrated with the teaching programmes of other clinical departments.

An elective programme in pathology is available for periods of up to 3 months during the third year of the course.

Psychiatry

With a background concept of normal human behaviour patterns engendered in the Behavioural Sciences component of the Human Biology course, students will receive instruction during the clinical triennium in the recognition of mental aberration and abnormal behaviour, and in the management of patients who suffer psychiatric disturbance. Most of this teaching will be incorporated in the Systems of Medicine course.

The Department of Psychiatry will join with other clinical departments, especially the departments of Paediatrics and Community Health, in conducting research towards the identification of health problems in society and the delineation of remedial measures, including methods of health education. Students will participate in these projects.

Surgery

Surgical diseases will be taught covering their natural history, pathology, methods of diagnosis (including special investigations such as radiology and clinical biochemistry), and general principles of treatment. Included in the surgical diseases will be those related to eye, ear, nose and throat, the musculo-skeletal system, the genito-urinary system, the nervous system and those related to plastic surgery. The theoretical teaching of these subjects will be done within the Systems of Medicine course.

Clinical Clerkships will be required in general surgery and the special divisions of surgery listed above, including the Accident and Emergency Department. Theoretical and practical teaching in anaesthesia will be given.

The examination in surgery will be part of the composite examination at the end of second year together with assignments during the third year.

PRESCRIPTIONS FOR MHB

Department of Anatomy

65.405, 65.406, 65.601 The study of selected fields of Anatomy at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

Department of Biochemistry

(Two papers and a thesis)

66.405, 66.406, 66.611 The general study of Biochemistry at an advanced level with particular reference to topics of medical relevance.

Candidates for the Master's Degree should consult the Head of the Department as soon as possible after completion of course prerequisites in order to select a thesis topic and obtain advice on vacation reading.

Research work for the thesis will be the major feature of the year's work and will be carried out in the Department. Attendance at departmental seminars and informal group discussions is obligatory.

Department of Pathology

(Two papers and a thesis)

68.403, 68.404, 68.601 The study of selected fields of Pathology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the main feature of the year's work. The topic must be arranged with the Head of Department before the end of the preceding academic year.

Department of Physiology

(Two papers and a thesis)

67.405, 67.406, 67.601 The study of selected fields of Physiology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of Department before the end of the preceding academic year.

Department of Pharmacology/Clinical Pharmacology

(Two papers and a thesis)

96.400, 96.401, 96.601 The study of selected fields of Pharmacology and Clinical Pharmacology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of Department before the end of the preceding academic year.

Department of Psychology

(Two papers and a thesis)

63.403, 63.404, 63.601 The general study of the Behavioural Sciences to Medicine. One or more special topics.

The thesis will be based on a research project. An outline of the project must be submitted for the approval of the Head of the Department, before the end of the previous academic year after discussion with the person, for the time being, in charge of Behavioural Science teaching.

DIPLOMA COURSE REGULATIONS

†DIPLOMA IN PAEDIATRICS

DipPaed

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Paediatrics shall
 - (a) enrol not later than 1 October or such later date as the Senate approves;
 - (b) on 31 December following his enrolment for this Diploma have held a medical qualification registrable in New Zealand, for three years or more, or have been a graduate from the Central Medical School of Fiji for three years or more;
 - (c) sit the examinations in the year following his enrolment.

Course Content

2. Every candidate for the Diploma shall
 - (a) follow the prescribed course of study
 - (b) before 30 June of the year in which he sits the examinations, have completed six months resident paediatric appointment in a hospital or hospitals approved for this purpose.

Examinations

3. The examinations for the Diploma shall be
 - †(a) Written 93.405, 93.406
 - †(b) Clinical
 - †(c) Oral
4. These Regulations shall come into force 1 January 1974.

Notes: (i) † This Course will not be taught during the current *Calendar* year unless sufficient staff is available.

(ii) The Diploma in Paediatrics is a qualification which serves to recognise general medical practitioners who have been trained to manage the common paediatric abnormalities encountered in practice. The course is limited to two candidates in 1980 and preference for inclusion will be given to those practitioners who do not have easy access to paediatric consultant services. The prerequisite of at least a six months' appointment in an approved teaching hospital is mandatory.

Approved teaching hospitals:

1. Princess Mary Hospital for Children, Auckland and
2. National Women's Hospital, Auckland

(for a maximum of three of the six months required under the Regulations for the Diploma).

This list may be extended or varied from time to time with the approval of Senate.

(iii) The examination for the Diploma will test knowledge and ability in the areas of Child Development, Preventive Paediatrics, and Management of Common disorders of childhood with emphasis on those aspects encountered in remote and medically developing areas.

The examinations will normally be held in June each year at the School of Medicine.

DIPLOMA IN PSYCHIATRY

This Diploma has been discontinued. Any candidate enrolled for the Diploma before 1979 may complete under the former Regulations, provided he re-enrols and completes the course not later than 31 December, 1983.

POSTGRADUATE SCHOOL OF OBSTETRICS AND GYNAECOLOGY

Within the Department of Obstetrics and Gynaecology

The Department is situated at the National Women's Hospital, Claude Road, Auckland 3. In addition to training Auckland medical students there are extensive facilities for postgraduate education in obstetrics and gynaecology.

DIPLOMA IN GYNAECOLOGY AND OBSTETRICS

DipG&O

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. A candidate for the Diploma in Gynaecology and Obstetrics shall
 - (a) enrol not later than 1 March for the June examination and 1 September for the December examination, or such later dates as the Senate approves; and
 - (b) before sitting for Part 2 of the examination:
 - (i) hold a qualifying degree or diploma approved by the Medical Council of New Zealand for four years and be registered in New Zealand or hold equivalent Commonwealth registration for three years, or
 - (ii) be a medical diplomate of the Fiji School of Medicine of six years' standing; and
 - (c) hold for at least one year the Diploma in Obstetrics of the University of Auckland or of Otago or of the Royal College of Obstetricians and Gynaecologists; and
 - (d) have undertaken at least two years' training in the specialty of gynaecology and obstetrics in posts approved by the Royal College of Obstetricians and Gynaecologists provided that only one year of service at the Colonial War Memorial Hospital, Suva, shall count towards the total; and
 - (e) prior to his acceptance for Part 2 of the examination, have submitted dissertations on an obstetrical and on a gynaecological subject which has been approved by the Head of the Department.
- Notwithstanding anything in this Regulation, the Vice-Chancellor may on the recommendation of Senate relax or modify these conditions.

Examinations

2. The examinations for the Diploma in Gynaecology and Obstetrics shall consist of two parts which may be taken separately or together.

Part 1 shall consist of a written examination (two papers), 47.101, 47.102 on reproductive biology and basic medical sciences as applied to gynaecology and obstetrics. The *Part 1* examination may be taken during the training period specified above in 1 (d).

Part 2

- (a) written (two papers), 47.103, 47.104
- (b) clinical
- (c) oral.

The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology during June and December.

3. These Regulations shall come into force 1 January, 1972.

DIPLOMA IN OBSTETRICS

DipObst

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. A candidate for the Diploma in Obstetrics shall
 - (a) enrol not later than 1 March for the June examination and 1 September for the December examination, or such later dates as the Senate approves;
 - (b) on 31 May preceding the June examination or on 30 November preceding the December examination

- (i) have either held a registrable medical qualification for eighteen months or been a graduate from the Fiji Medical School for four years, or been a graduate from the Medical Faculty of the University of Papua New Guinea for four years, and have completed eighteen months appointment in hospitals including at least six months in obstetrics for family practice at one of the hospitals approved for this purpose, or
- (ii) have held registrable medical qualification for at least seven years, and have submitted evidence of having personally conducted at least 300 deliveries, and have presented a certificate signed by the Head of the Department that the candidate has during the three years immediately preceding the examinations, attended an approved course of postgraduate instruction in obstetrics and family practice.

Note: The approved course should last for at least one week and may be taken after the candidate has enrolled but must be completed before sitting the examinations.

Notwithstanding anything in this Regulation the Vice-Chancellor may on the recommendation of Senate relax or modify these conditions.

Examinations

2. The examinations for the Diploma in Obstetrics shall be

- (a) Written (one three-hour paper — 47.500)
- (b) Clinical
- (c) Oral.

3. The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology during June and December each year provided that should there be sufficient candidates, examinations may be held elsewhere at suitable dates.

HIGHER ACADEMIC TRAINING IN OBSTETRICS AND GYNAECOLOGY

(i) Membership of the Royal College of Obstetricians and Gynaecologists and Membership of the Australian College of Obstetricians and Gynaecologists

Resident posts providing specialist training suitable for the Membership examination are available at the National Women's and associated hospitals. A formal teaching programme for both part I and part II examinations is provided for residents. Elective time posts in neonatal paediatrics, anaesthesia and pathology can also be arranged.

(ii) MSc or PhD Degrees

Research appointments are available at the National Women's Hospital and afford the opportunity of preparing for the MSc and PhD Degrees of the University of Auckland.

Applications will be welcome from scientists and medical graduates who wish to carry out research in biochemistry, endocrinology, or the scientific background of obstetrics, gynaecology, and neonatal paediatrics.

REFRESHER TRAINING FOR FAMILY DOCTORS AND SPECIALISTS

(i) Practitioners with interests in the fields covered at the School may attend for periods of up to four weeks as visiting postgraduates. During the time they are attending the Postgraduate School attachments to the Auckland Hospital Board as Honorary Medical Officers can be made in order to facilitate the performance of practical procedures. Visitors may attend the daily teaching sessions as well as gain practical experience tailored to their needs.

(ii) Short courses usually of a week's duration are held at regular intervals. In addition to teaching at Diploma level advanced courses are provided.

(iii) Departmental staff are available to participate in courses throughout New Zealand by arrangement with the Head of the Department.

DIPLOMA COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR DipG&O

Part I

The subjects covered by two papers will include basic sciences such as anatomy, biochemistry, cell biology, embryology, endocrinology, genetics, immunology, medical sociology, microbiology, pathology, pharmacology, physiology and elementary statistics. The examination will deal with those aspects of these subjects which should form part of the general education of any specialist and particularly those aspects which are applicable to obstetrics and gynaecology.

Dissertations

Candidates are advised to discuss the preparation of their dissertations with the Head of the Department at an early stage in their training period. Both obstetric and gynaecological dissertations are designed to give candidates the opportunity to study in detail conditions of their own choice and to express their own views based on personal experience and on a study of the literature. The dissertations should show clear evidence of ability to make use of a reference library and of the English language. Socio-medical topics may be particularly suitable for one or other of the dissertations. The dissertations should be accurately typed in good English and simply bound. In general the size of the dissertations should be in the order of 3000-4000 words each and credit will be given for original contributions.

Part 2

Two written papers

(a) Obstetrics, and such aspects of endocrinology, medicine, neonatal paediatrics and surgery as are relevant to the practice of obstetrics.

(b) Gynaecology, and such aspects of endocrinology, medicine, medical sociology and surgery as are relevant to the practice of gynaecology.

A clinical examination which will include presentation and discussion of obstetric and gynaecological cases.

An oral examination in obstetrics and gynaecology. In this candidates should be prepared to discuss their dissertations, to be examined on applied anatomy, physiology and pathology, and to be shown radiographs, instruments, specimens and histological slides for comment.

PRESCRIPTIONS FOR DipObst

This is a general practitioner qualification and serves to distinguish those general practitioners who have been trained to handle the common abnormalities encountered in obstetrical practice. A six months' resident appointment to the staff of a teaching obstetrical and gynaecological unit is required before candidates are allowed to sit the examination, but see also provision 1(b)(ii) of the preceding regulations. Details of such appointments are available on application. With the object of encouraging medical practitioners who intend to carry out an obstetric practice modifications have been made in the Diploma regulations to bring these more in line with the Royal College regulations in England and to make it possible for medical practitioners to take the examination soon after their obstetric appointment during their first post-registration year.

The new regulations also allow diplomates of the Fiji Central School of Medicine to take the examination following a period of residence at an approved hospital.

The examinations shall include questions on the anatomy, physiology, pathology and management of normal and abnormal pregnancy, labour and puerperium, including the care of the new-born during the first month of life.

In addition, the candidates will be required to have a knowledge of the physiology and pathology of medical gynaecology, including abnormal menstruation, amenorrhoea and dysmenorrhoea, endocrine therapy, abortions, infertility and contraception, ectopic pregnancies and moles, vaginal discharges, the diagnostic facets of malignancy, and such minor surgical procedures as may be encountered in a predominantly obstetrical practice.

The following are approved Hospitals for the purpose of Regulation 1(b)(i):

(1) Auckland: National Women's with or without rotation to Middlemore and St Helens Hospitals.

(2) Christchurch Womens

- (3) Dunedin
- (4) Invercargill; Kew Hospital
- (5) Lower Hutt
- (6) Palmerston North
- (7) Rotorua
- (8) Waikato
- (9) Wanganui
- (10) Wellington
- (11) Whangarei

(12) Any other hospital which meets the current criteria for approval during the full tenure of the post.

(13) Any hospital recognised by the Royal College of Obstetricians and Gynaecologists or the Australian College of Obstetricians and Gynaecologists.

That approval of hospitals will be recognised on criteria of:

- (i) Specialist and registrar staff in obstetrics, gynaecology and neonatal paediatrics.
- (ii) The number of normal and abnormal patients attending the hospital clinics.
- (iii) The provision of graduate teaching in antenatal, postnatal and gynaecological clinics, wards and delivery rooms, including teaching in neonatal paediatrics and family planning. The post must be a continuous one of six months.

THE POSTGRADUATE MEDICAL COMMITTEE

The Postgraduate Medical Committee, under the Chairmanship of the Associate Dean of Postgraduate Affairs in Medicine accepts responsibility for the organisation and supervision of graduate and postgraduate work among the medical practitioners in Auckland. The activity of the Committee is linked with the School of Medicine and with the hospitals under the control of the Auckland Hospital Board.

The Committee arranges annual courses throughout the academic year in surgery, internal medicine, surgery, anaesthesia, radiology, pathology, psychiatry, paediatrics and dentistry. It also arranges visits by overseas medical speakers both in the University and in the associated hospitals and publishes a monthly bulletin of medical postgraduate affairs, *This Month*.

The co-ordination and supervision of post graduate studies is carried out with the help of advisory committees of the Postgraduate Committee, each of which is responsible for its particular area of medical education including supervision of the registrar and graduate training programme and the organisation of such visiting professors as come to Auckland under the sponsorship of the Auckland Savings Bank and other auspices.

All graduates attending one of the annual courses of the Committee and all overseas graduates undergoing postgraduate training in the Auckland hospitals are required to enrol with the Postgraduate Medical Committee as graduate students of the University of Auckland.

The activities in postgraduate medicine are outlined in a booklet which is available from the Associate Dean's office.

The members of the Postgraduate Committee are the Chairman, the Associate Dean of Postgraduate Affairs in Medicine, Dr C. H. Maclaurin; the Deputy Chairman, Dr P. M. Barnham; the Honorary Treasurer, Dr E. J. W. Stephens; the Honorary Secretary, Dr Robin H. Briant; Associate Professor, R. A. Boas; Professor D. G. Bonham; Dr P. J. Chapman; Professor D. S. Cole, Dean of Medicine; Dr H. Doerr; Dr R. K. Haydon; Dr T. G. Hawley; Dr J. R. D. Mathews; Dr R. F. Moody; Dr O. R. Nicholson; Associate Professor J. C. Probert; and Associate Professor, J. D. Wilson.

The office of the Committee is in the School of Medicine.

DEGREE COURSE REGULATIONS

THE DEGREE OF MASTER OF PHILOSOPHY

MPhil

Note: This Degree fills a special, limited need. It permits a student, in special approved cases only, to take a Master's Degree in a Faculty other than that in which he has qualified for a Bachelor's Degree, and only when the Master's Course concerned cannot be taken in the Faculty in which he completed his Bachelor's Degree.

Permission to enrol for the Degree of Master of Philosophy will be given only where Senate is satisfied that the student holds qualifications at least equivalent to those normally required for the Master's Course concerned. Normally at least Stage III of the subject to be taken for MPhil would have to be included in the prerequisites.

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate shall before his enrolment for this Degree

- (a) have been admitted or qualified for admission to a Bachelor's Degree, and
- (b) have been approved by the Senate as qualified to pursue a Course of study for a Masters Degree in a Faculty other than that in which he qualified for his Bachelor's Degree.

Course Content

2. Every candidate for the Degree of Master of Philosophy shall comply with the Course Regulations for a Master's Degree prescribed in the Faculty in which he is pursuing his Course of study.

3. The Degree shall be awarded by the Senate after receipt of a certificate from the Head of the Department in which the Course for the Degree has been taken, stating that the candidate has completed the prescribed requirements.

Honours

4. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory: provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass, provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he shall still be eligible for the award of Honours, subject to the provision of subclause (c) of this regulation.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree: provided that this period may be extended, in exceptional cases, by the Senate.

5. These Regulations shall come into force on 1 January, 1971.

THE DEGREE OF DOCTOR OF PHILOSOPHY

PhD

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Every candidate for the Degree of Doctor of Philosophy shall apply to the Head of his Department for registration as such, showing:

- (a) that he has the requisite preliminary qualification set out in regulation 2 hereof, and
- (b) that he has adequate training and ability to pursue a Course of advanced study and research.

2. The preliminary qualification shall be

- (a) qualification for admission to a Bachelor's Degree with Honours, or a Bachelor's (Honours)

Degree, or a Master's Degree with Honours of this University, or

(b) qualification for admission to a Master's Degree First Class or Second Class, or

(c) qualification for admission to the Degree of Bachelor of Medicine and Bachelor of Surgery together with evidence that the candidate has carried out research which, in the opinion of the Senate, is satisfactory evidence of the candidate's ability to pursue a Course of advanced study and research for this Degree.

(d) in the case of a graduate of another University, admission to the Course under the provisions of the Admission Ad Eundem Statum Regulations, or

(e) any other qualification approved by the Senate in the particular case of any candidate.

3 (a) The Senate (Deans Committee) having received a recommendation from the Head of the Department concerned (or in Engineering and Medicine and Human Biology, from the Dean concerned) shall determine if the candidate may be registered and the date and conditions of that registration.

(b) A recommendation for registration shall include:

(i) the field of study

(ii) the date of registration

(iii) the name of a supervisor or supervisors from members of the academic staff

(iv) satisfactory evidence of the candidate's training and ability to pursue the proposed Course of Study

(v) a statement of any foreign language requirement (or none) which the candidate must satisfy as part of the Course of Study

(vi) where submitted by the Dean of Engineering, a description of the papers required in terms of clause 8(a) of these Regulations.

4. A candidate for a Master's Degree may, after the completion of at least one year's work for that Degree at a standard considered satisfactory by the Senate, be registered as a candidate for the Degree of Doctor of Philosophy. Any such candidate so registered may be allowed credit for the work for the Master's Course if that work can form part of the doctoral thesis. The date of registration shall not be earlier than the end of the academic year in which he completed papers for Master's or Bachelor's Degree with Honours.

5 (a) After being registered as a candidate for the Degree of Doctor of Philosophy the candidate shall pursue a Course of advanced study and research at the University to the satisfaction of the Head of the Department and the Supervisor for a period of at least two calendar years from the date of registration, during which he shall work at his advanced study and research full time under the supervision of a teacher in the University; provided that

(i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as may be determined from time to time by the Senate;

(ii) field work may be carried out at such places and for such periods as the Senate may determine;

(iii) research requiring the use at first hand of documents or books not available within the University may be undertaken in an approved institution outside the University, for such period or periods and on such conditions as may be determined from time to time by the Senate;

(iv) when a candidate has completed the initial period of two years full-time study and research he may apply to the Senate for permission to continue as a part-time candidate. Any such application must be supported by the Supervisor and the Head of the Department.

(b) For the purpose of this regulation a candidate shall be deemed to work full time if he has no occupation other than his study of research; provided that he may

(i) with the approval of his Supervisor and the Head of the Department engage for an average period of not more than six hours in any one week in academic work other than his study or research;

(ii) take such statutory, recreational and other holidays as are normally incidental to full-time occupation.

6 (a) Notwithstanding anything in Regulation 5, a part-time member of the academic staff whose duties as such require of him not more than 12 hours work in any one week and who has no other occupation except his study or research may register as a candidate for the Degree of Doctor of Philosophy. After being so registered he shall pursue a course of advanced study and research at the University over a period which shall, except in special circumstances to be determined by the Senate, be of at least three calendar years from the date of his registration, to the satisfaction of the Head of his Department and the Supervisor.

(b) Notwithstanding anything in Regulation 5, a full-time member of the academic staff, other than a Head of the Department, may register as a candidate for the Degree of Doctor of Philosophy. After being so registered he shall pursue a course of advanced study and research at the University over a period which shall, except in special circumstances to be determined by the Senate, be of at least four calendar years from the date of his registration to the satisfaction of the Head of his Department and the Supervisor.

(c) Notwithstanding anything in Regulation 5, a full-time member of the teaching staff of a Teachers' College in Greater Auckland may apply for registration as a candidate for the Degree of Doctor of Philosophy and shall submit with his application a statement from the Principal of the College that his college work is such as to allow him to pursue a course at the University for the Degree of Doctor of Philosophy. After being registered he shall pursue to the satisfaction of the Head of his Department and the Supervisor, a course of advanced study and research at the University over a period of at least four calendar years from the date of his registration.

7. The Supervisor shall submit to the Senate, through the Head of the Department, a brief report on the progress of the candidate at the end of each year, provided that in the case of a candidate who is a member of the teaching staff of a Teachers' College the Supervisor shall submit a report at the end of each six months. A candidate's registration may be terminated by the Senate if an unfavourable report is received.

8 (a) A candidate for the Degree of Doctor of Philosophy in Engineering shall take three papers prescribed for the Degree of Master of Engineering or papers deemed by the Deans Committee to be equivalent provided that the Senate on the recommendation of the Deans Committee may waive or modify this requirement.

(b) A candidate shall not be eligible to enrol for any other course while registered for the Degree of Doctor of Philosophy unless he obtains the prior permission of the Senate.

9 (a) A candidate who has fulfilled the conditions required by these Regulations may apply at any time within six years from the date of registration to the Registrar to be examined provided that a full-time member of the academic staff, or a member of the teaching staff of a Teachers' College, may apply at any time within eight years and this period may in special circumstances be extended by the Senate for a full-time member of the academic staff who has not while registered for the Degree been a full-time research student.

(b) A candidate shall submit to the Registrar three bound copies of a thesis embodying the results of his research which shall be retained by the University.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

10 (a) After having accepted the candidate's application to be examined the Senate, shall, upon the recommendation of the Head of the Department, approve the title of the thesis and shall appoint as examiners:

- (i) The Supervisor or Supervisors,
- (ii) one person, who shall also act as Oral Examiner, and who may be a member of the staff of this University if there is no specialist in the field at another University in New Zealand, and
- (iii) one person who may not be a member of the staff of this University except in such circumstances as the Senate thinks fit.

(b) The Senate may, on the recommendation of the Head of the Department, appoint a further examiner and in exceptional circumstances two further examiners.

11. The Supervisor shall forward to the Registrar a certificate stating that the work described in the thesis was carried out by the candidate under his supervision and that the conditions laid down in Regulation 5 or 6 have been fulfilled.

12 (a) A copy of the thesis shall be submitted to each examiner. Except where the Vice-Chancellor acting on the advice of the examiners, otherwise authorises the Supervisor and one external examiner shall together examine the candidate orally on the subject of the thesis and on the general field to which the subject belongs. The oral examination shall be held after the reports from the external examiners have been received, and not sooner than six weeks after the submission of the thesis, except in very special circumstances and with the approval of the Senate. At the request of the oral examiners the candidate may be required to present himself for a written examination. The oral examiners shall make a joint report to the Senate on the whole examination. The examiners may recommend that a thesis, not considered entirely suitable by them for acceptance, may be revised by the candidate for resubmission on one further occasion only.

(b) Where a candidate registered for this Degree who has not qualified for or been awarded a Masters Degree of this University submits or re-submits a thesis not considered entirely suitable to the examiners, the Senate may recommend that the thesis be submitted for a Masters Degree without Honours in the appropriate Faculty provided that the candidate satisfies all other requirements for that Masters Degree.

CERTIFICATE COURSE REGULATIONS

CERTIFICATE OF PROFICIENCY COP

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. In these regulations a "pass" means a pass in any paper or subject or in any examinable part of a subject.

"Certificate of Proficiency" means a Certificate issued by the University as to a pass otherwise than for a Degree or Diploma.

2. With the permission of the Senate a matriculated student may be enrolled under the Enrolment and Course Regulations (General) for the purpose of obtaining a Certificate of Proficiency.

3. To obtain a Certificate of Proficiency a student who is enrolled under Regulation 2 must keep terms in accordance with the Terms Regulations, comply with the provisions of the Examination Regulations and pass the appropriate examinations.

4. Where a candidate has obtained a pass for a Certificate of Proficiency he may at any time have that pass credited to a Degree or Diploma if he has complied with, or in exceptional circumstances is exempted by the Senate from, any prerequisite, corequisite condition or other requirement prescribed for that Degree or Diploma.

5. A candidate who (a) has obtained a pass in any subject at Masters level for a Certificate of Proficiency and (b) would have been eligible for Honours if he had presented that subject under the appropriate Masters Degree Regulations, may be awarded a Certificate of Proficiency with Honours of the appropriate class provided in those Regulations.

Note: A member of the permanent academic staff of this University with overseas university qualifications may be permitted to enrol for a paper or a subject for Certificate of Proficiency without having to make a formal application for admission *Ad Eundem Statum*.

INTER FACULTY STUDIES

Operations Research

Operations Research can be defined briefly as the application of scientific methods to management problems. It is widely used in areas such as optimal scheduling, inventory control, decision analysis and many similar applications, both on a short-term basis and to assist in long-range planning.

Training for Operations Research is frequently inter-disciplinary and in the University there are several paths along which Operations Research may be approached. Because of this, the major routes are described here, and further reference should be made to relevant prescriptions in the Faculties of Commerce, Engineering and Science.

1. In the Faculty of Science, the Department of Mathematics offers courses which contain topics dealing with the theory and methodology of basic stochastic and deterministic techniques in Operations Research. In particular the following Courses are relevant:

Probability	26.380
Optimization in Operations Research	26.390
Mathematical Modelling for Operations Research	26.395

Related papers are available at undergraduate and graduate level towards the Degrees BSc, BSc(Hons), MSc or towards the Diplomas DipCompMaths, DipStats. Interested students should consult the Head of the Department of Mathematics.

2. In the Faculty of Commerce students wishing to specialise in Operations Research for the B.Com degree should consider the following papers offered by the Department of Management Studies and Economics:

Managerial Economics	13.203
Operations Research	72.308 (13.303)
Operations Research	72.408 (13.403)
Mathematical Programming	72.409 (13.409)
together with related papers in Accounting, Computer Science, Economics, Engineering, Management Studies and Mathematics.	

At the graduate level students may choose courses in Operations Research towards the degrees of M. Com or M.Phil which may include a thesis or a research essay in this area. Interested students should consult the Head of the Department of Management Studies or of Economics.

3. In Engineering students may specialise in Operations Research within the professional degree by taking the Engineering Science course, which includes:

Operations Research IA and IB	54.258	54.259
Operations Research IIC and IID	54.458	54.459
Project	54.410	

Appropriate papers in such areas as computation, statistics, industrial administration and transportation are also available. The project topic can be chosen from a wide area of application in industry and corporate administration.

At the graduate level, students may specialise in Operations Research for the degrees of ME, M.Phil and Ph.D. by choosing from:

Studies in Operations Research A	54.760
Studies in Operations Research B	54.770
Random Processes	54.790
Studies in Engineering Science	54.710

and related papers (offered by several Engineering Departments) such as Control, Transportation, Microprocessors and Minicomputers.

Interested students should consult the Head of the Department of Theoretical and Applied Mechanics.

INTERMEDIATE COURSES FOR DEGREES OR DIPLOMAS FOR OTHER NZ UNIVERSITIES

Intermediate Courses for Degrees or Diplomas of other New Zealand Universities

Intermediate courses may be taken at the University of Auckland for a number of degrees and diplomas offered by other New Zealand universities. Enquiries in the first instance must be made to the University concerned before any enrolment for that University is made at the University of Auckland.

A student wishing to enrol at Auckland for an Intermediate course for a degree or diploma at another University is required to include on the enrolment forms the course of study and the University for which it is being taken as an Intermediate e.g. Pharmacy Intermediate (Otago), Forestry Intermediate (Canterbury).

A student who decides to remain at Auckland after having passed Intermediate papers for another University's course may apply to have those papers credited to an Auckland course by completing the appropriate form (Abandonment) and paying the prescribed fee of \$10.

CENTRE FOR CONTINUING EDUCATION COMPUTER CENTRE

Contents

- 478 Centre for Continuing Education
- 478 Computer Centre
- 479 Computer System Regulations

CENTRE FOR CONTINUING EDUCATION

The Centre for Continuing Education is a department of the University, the special function of which is to create opportunities for the whole community to attend courses and other activities of a university standard for personal enjoyment and development or advancement of professional knowledge. Nearly all courses are conducted by university academic staff or outside specialists. It makes available to the general public a wide variety of courses in the humanities, sciences, music and the arts. These are usually of ten weeks or longer. Day or weekend seminars are also promoted both at the Centre and in Northland. In addition to its general offering of music courses, the Centre organises and promotes the annual Cambridge Music School, a two week residential school for serious performers and composers from throughout New Zealand.

Adults contemplating degree studies for the first time are offered a "New Start" programme which is designed to introduce them to university study methods and facilities. Short introductory courses in some arts subjects not taught in the secondary schools, e.g. psychology, economics, sociology, education, Maori studies, are specifically designed for intending degree students.

Certificate courses are conducted in Personnel Management and Industrial Relations, Community Studies and Criminological Studies. A programme of short courses providing professional development for workers in Health and Welfare is also available. The Centre continues to build up expertise in the fields of adult learning and Maori adult education.

The Centre also promotes a wide-ranging series of seminars, courses and conferences for such professional groups as engineers, businessmen, teachers, surveyors, valuers.

Publicity brochures about the Centre's activities are available on request from the Centre for Continuing Education. More information can be obtained by telephoning the Centre (792-300, extensions 320 or 9735), writing to the Centre for Continuing Education, University of Auckland, Private Bag, Auckland or calling at the General Office of the Centre, Old Choral Hall, 7 Symonds Street.

COMPUTER CENTRE

The Computer Centre provides digital computing for users throughout the campus. Three styles of service are available:-

1. Batch Processing:

Jobs submitted at the Centre are handled by a Burroughs B6700. Its principal characteristics are

Memory	160K, 48-bit words
Magnetic Disc	180 Mbytes pack, 60 Mbytes fixed head
Magnetic Tapes	1 7-track NRZI, 4 1600 bpi PE
Card Readers	600 cpm, 1400 cpm
Line Printers	400 lpm, 1200 lpm
Paper Tape Reader	500 cps

Data Communications Processor

Languages available include Algol, Fortran, Cobol, Basic PL/I, Snobol 4/14 and Lisp. A range of applications programmes is also available, including linear programming, statistics, numerical analysis and scheduling.

2. Time Sharing:

A number of interactive computer terminals (currently about 15) are provided at various locations around the University. These are connected to a Prime 400 computer, whose characteristics are

Memory	256K, 16-bit words
Magnetic Disc	60 Mbytes pack, 2 flexible disc drives
Magnetic Tape	1600 bpi PE
Line Printer	200 lpm

Fortran and Basic are available on this system, together with an interactive text editor.

University departments are charged for all use their members and students make of the batch-processing services. Similar charges will be introduced for the use of time-sharing services as soon as possible. Information about charging rates and budget allocations is available through the Computer Centre office.

3.3 Undergraduate Services:

In 1981 the Centre will support Undergraduate processing via interactive terminals connected to a Digital Equipment DECSystem 10. Most of these terminals will initially be located in the Users' Work Room (ground floor).

Staff members and research students intending to use Computer Centre facilities should first obtain from the office (a) a Usercode, (b) information sheets relating to those parts of the service they intend using, (c) information about forthcoming courses.

The Computer Centre building is open between 8 am and 9 pm weekdays only, vacation periods included. Operating hours for 1980 are expected to be 8 am to 12 midnight with some expanded operating hours during the second term.

COMPUTER SYSTEM REGULATIONS

Pursuant to section 22 of the University of Auckland Act, 1961 the Council of the University makes the following Regulations: —

1. These Regulations may be cited as the Computer System Regulations 1975 and shall come into force on 1 January 1976.

2. In these Regulations, unless the context otherwise requires — "System" means any Computer System controlled and operated by the Council whether at the Computer Centre established in the University or elsewhere. "Director" in relation to any System means the person authorised by the Council to control it.

3. No student or any other member of the University shall:

- (a) without authority of the Director gain access or attempt to gain access to the System;
- (b) obtain or attempt to obtain from the System any information to which he is not entitled;
- (c) use or attempt to use the System so as to cause costs to be incurred —
 - (i) by the University, without the consent of his Head of Department and the Head of any other Department concerned;
 - (ii) by any person other than the University, without the consent of that other person.

4. Any breach of Regulation 3 of these Regulations shall be deemed to be a breach of the Disciplinary Regulations of the University.

Notes: (i) Application to use a Computer System must be made to the person in control — that is, to the Director of the Computer Centre or, in the case of a system under the control of a Head of Department, to that Head of Department or his nominee.

(ii) Withdrawal of complete facilities for improper use:

The purpose of the Regulations is to make certain improper uses of the Computer Centre breaches of University discipline, so that any breach of Regulation 3 may, if committed by a student, be dealt with under the Disciplinary Regulations. Each user of the Computer System must note that any improper use, whether or not it can be or is so dealt with and whether or not it is within the scope of Regulation 3 above, may lead to his being temporarily or permanently refused the use of the System, by the Director of the Computer Centre or by the Head of Department concerned. Any person aggrieved by such a refusal may, in the ordinary course of University administration, have the matter referred, through the Vice-Chancellor, to the Council.

STUDENT SERVICES

ACADEMIC DRESS

The Auckland Branch of the New Zealand Federation of University Women owns a stock of Academic Gowns, Hoods and Caps (black trencher with a tassel). These are available for hire at all times during the year. Details may be obtained at the Registry. A student completing the requirements for a degree or diploma will receive information regarding the hire of academic dress for the Graduation Ceremony with his result card.

CAREERS ADVISORY SERVICE

The Careers Advisory Service has four main functions:

1. To give advice and information to students and graduates of the University about career opportunities, and to put them in touch with prospective employers.
2. To prepare and circulate a newsletter for students and graduates, informing them of specific vacancies offered by employers.
3. The MID YEAR CAMPUS VISITS and CAREERS WEEK (held after examinations in November) provide opportunities for students to meet employers on the campus and discuss employment prospects.
4. To increase the awareness in the community of the potential benefits of employing University graduates.

Students are encouraged to visit the Careers Advisory Service in the early stages of their University course to discuss suitable employment opportunities for when they complete their degrees.

The Careers Advisory Service is located in the suite of offices behind the Upper Lecture Theatre — inquiries to the Secretary in Room 14. The Service is open during normal university administrative hours. Ph 792-300, exts 703/632.

THE CHAPEL

The Maclaurin Chapel was established under a deed of trust by Sir William Goodfellow, Hon. LLD, in memory of his son, Richard Maclaurin Goodfellow, killed during service with the Fleet Air Arm in World War II, and of Professor Richard Cockburn Maclaurin, one of Auckland's most distinguished graduates.

University representatives are included on the Board of Management which is responsible for administering the trust.

Services conducted in the University Chapel are non-denominational in character, and all members of the University are welcomed. Regular services are held during term time as follows: — Communion Service, 1.10 pm on Wednesdays. University Lunchtime Service, 1.10 pm on Thursdays. Special Services as advertised.

CHAPLAINS

There are three chaplains to the University — two of whom represent those denominations which have membership in the National Council of Churches, and the Roman Catholic chaplain who works in a chaplaincy team of students and staff at Newman Hall. The Maclaurin Chaplain, the Rev. Dr K. Sharpe, who is appointed by the Richard Maclaurin Goodfellow Foundation, may be contacted in his office in the Chapel complex (phone 792-300, extension 732).

The Chaplain appointed by the Auckland Council of Churches, has his rooms behind the Upper Lecture Theatre (Room 10) (phone 792-300, extension 495).

The Roman Catholic Chaplain, Father A. Loughnan, resides at Newman Hall, 16 Waterloo Quadrant. (phone 374-990).

The three chaplains work together as the University chaplaincy service. They are available to any member of the University for consultation.

NEWMAN HALL

Newman Hall is the University Catholic Centre at 16 Waterloo Quadrant. It is named for Cardinal Newman, the nineteenth century scholar, in commemoration of whom the annual Newman Lecture is held.

Newman Hall is the centre for the University Parish, which is the community of students, graduates and staff. The chaplaincy is carried on by a group consisting of the University Catholic Chaplain who is a Dominican priest, and students and staff. Members of the community live at Newman Hall and are available at any time (student members, phone 32-618). The major services are Mass at 7.00 pm every Sunday (February till Christmas), weekday mass during term at 1.10 pm (except Thursdays when all the Christian groups join in an ecumenical service at the Maclaurin Chapel), and a penitential service every term.

Further details may be obtained from the Newman Hall secretary (phone 374-990).

ACCOMMODATION SERVICE

An accommodation service is provided without charge for students and intending students of the University.

The Student Lodgings Officer is available to receive applications for admission to University Halls of Residence and to assist students to find board in private homes.

A notice board giving details of houses, flats and rooms available for occupation by students is maintained in the accommodation office, which is situated in room 005 in the basement of the Old Arts Building.

HALLS OF RESIDENCE

The University administers two Halls of Residence and, in addition, one other Hall works within the University system.

All three Halls offer three meals a day. There are also two other University administered establishments which offer students furnished accommodation but do not provide meals. All establishments accommodate both men and women. Applications for admission, which close on 31 October 1980, should be addressed to the Student Lodgings Officer, University of Auckland, Private Bag, Auckland. Late applications are accepted for the waiting list.

Grafton Hall, Seafield View Road, Grafton, administered by the Presbyterian Methodist Congregational Foundation Inc and within 15 minutes' walk of the University. Accommodation and full board is provided for 159 students.

International House, 27 Whitaker Place, administered by the University and within seven minutes' walk of the campus. Accommodation and full board is provided for 159 residents.

O'Rorke Hall, 49 Symonds Street, administered by the University and within three minutes' walk of the campus. Accommodation and full board is provided for 170 students.

Norman Spencer Senior Student Apartments, 9 St Stephens Avenue, Parnell. Accommodation is available for approximately 50 senior students in single study bedrooms with use of well equipped communal cooking and bathroom facilities. There is limited accommodation for married couples.

Park Road Student Flats, Grafton. Accommodation is provided for 44 students (12 in single rooms and 32 in shared rooms). Each room has its own bathroom but residents must share the communal kitchen.

LOST PROPERTY

All enquiries regarding lost property should be referred to the Head Custodian or the Enquiries counter in the Registry.

METRICATION

Teaching throughout the University is in metric units, but in some subjects where imperial units are embodied in legislation or regulation, these may still be referred to until authorised values in the new units are gazetted.

Students are recommended to purchase metric texts where these are available.

The system of units being adopted is known as SI (International System). It is a new system, internationally agreed, and is not a modified old metric system. Care must be taken in the selection of texts and conversion data which may be found useful. The sole authoritative publication on the subject is New Zealand Standard 6501: 1972. **THE INTERNATIONAL SYSTEM (SI) UNITS AND THEIR APPLICATION.** If this is not available the provisional NZS 6501P: 1971 may be used.

PARKING

Street parking is available for two-wheel vehicles in Symonds Street between Alfred and Wellesley Streets, in Alfred Street, and in Symonds Street between Grafton Road and the Human Sciences building.

Provision has been made for parking of bicycles on the following areas: Concourse, School of Engineering, Symonds Street; Concourse, Recreation Centre, Symonds Street; Physics Building, Princes Street side; Accountancy, Area 1, Alfred Street; School of Architecture, Symonds Street; School of Medicine, Park Road.

An area in lower Grafton Road (area No. 13) has been set aside for students' cars. Admission is on production of student identity card and payment of 20 cents. Check out passes are available for re-entry later the same day but no guarantee is given that a space will be available. No charge is made for this area during the weekend or after 4 pm on weekdays.

Students may use the parking facilities in Wynyard Street (between Grafton and Alten Roads) without charge after 5.45 pm any day, at any time during the weekends and during December and January. Students may be asked to show identity cards in order to distinguish themselves from ordinary members of the public.

The parking building at 36 Princes Street is available for general parking after 5.45 each evening and weekends.

PRESS CORRESPONDENCE

Members of the University are reminded that it is normal practice to sign Press correspondence as from the University only when the writer has some special competence in the subject discussed. For members of the teaching staff, such subjects would normally be those within the area of their academic competence, and for students, matters of general student concern. Student members should indicate their student status either in the body of the letter or in the address given. On matters of general public interest, all members of the University write in their private capacity.

COUNSELLING

The Counselling Service is free and confidential for any member of the University community who wishes to use it. Anyone using the Service (and this includes intending students) may discuss without fear of judgment, criticism or pressure any issue of a personal, social, vocational or academic nature. The aim of the Service is to enable people to relate more satisfactorily with other people in their immediate and general environment. For this purpose, personal counselling is provided, as well as group activities. The Counselling Service also offers direct assistance for improving study and reading skills. The Service is free, confidential, voluntary and readily available. The three full-time counsellors are Lorna McLay, David Simpson and Brian Lythe, the last-named with a special responsibility for overseas students. They are available during usual University hours, preferably by appointment, but in matters of urgency, without. An appointment may readily be made by ringing the Secretary, telephone 792-300, extensions 595/596, at Counselling, above the Post Office, main campus.

STUDENT HEALTH SERVICE

The University of Auckland Student Health Service is staffed by a full-time Director, a nursing sister and eleven part-time doctors including a Psychiatrist. The service is available to all students and is designed to help students maintain an optimum state of health. A full clinical service is provided as well as immunisations against infectious diseases and for those going on overseas travel.

The hours of appointment are as follows:

Monday to Friday: 9 am to 4.30 pm.

During the evening and at weekends there is an emergency service available at 153 Newton Road and the doctor on duty can be contacted by phoning 794-540.

TELEPHONES

Telephones for the use of students are provided by the Students' Association in the Student Union Building. In addition, Public Telephones are provided by the Post Office in the Arts Building (adjacent to the Bank), the Library Building (first floor by the lifts), the Thomas Building and at the School of Engineering (adjacent to the Library).

Students are not permitted to make or receive outside calls through the University main telephone system except on University business.

STUDENTS' ASSOCIATION

Executive

The Executive consists of a full-time President and fourteen other positions; Administrative Vice-President, Welfare Officer, Education Vice-President, Treasurer, Societies Representative, International Affairs Officer, Publications Officer, Sports Clubs Representative, Cultural Affairs Officer, SRC Chairperson, National Affairs Officer, Overseas Students' Officer, Environmental Affairs Officer, and Women's Rights Officer.

The official Association noticeboard outside the Custodian's Office carries information on Association activities and meetings, as well as details on Association appointments to various bodies and committees.

Students' Association Activities

The Association is an Incorporated Society founded in 1891. The aim of the Association is to further the interests of the student body within the University and without. The student body is an integral part of the University community and the Association and its members are involved not only in the government of the University but also in fostering social, intellectual and sporting activities within the University.

In recent years the Association has changed from a merely social and service organisation catering for the needs of students on Campus to an organisation concerned with student problems in their widest context.

The control of the business and affairs of the Association rests with the Executive Committee elected annually and comprising a full-time President and fourteen portfolio holders together with the Association Secretary — a full-time administrative post. The Executive is the official mouthpiece for the Association and takes official action on behalf of the Association in the interests of the student body. Through this Executive which acts as a co-ordinating body the Association undertakes a wide and varied number of activities.

The Association is a link between individual students, the academic and administrative staff of the University. Students now elect four representatives to Senate, one representative to University Council, representatives to departmental and faculty committees as well as representatives to committee of Senate, Council and the Association. Through its Executive, the Association represents students in matters involving their interest within the University and the Community at large.

The Student Representative Council (SRC) was set up in 1969 and membership is open to all students. The political and policymaking body of the Association, SRC is empowered to act on any matter of concern to students.

There are over one hundred clubs and societies affiliated to the Association covering many spheres of student interest. The sports clubs cater for almost all sporting interests and most participate in the local Auckland inter-club competitions and in the NZUSU tournaments. The cultural societies cater for a wide range of religious, academic, social, cultural, and political interests. Information about these clubs and societies is available in the *Orientation Handbook*.

The Association organises social functions during the course of the year ranging from informal dances to the Graduates Ball. During the first two weeks of the academic year the Association organises the Orientation Fortnight to acquaint new students with the varied facets of University life. The Association organises student concessions for its members with a number of city

firms and with the promoters of attractions of interest to students, through the Discount Handbook available to all students.

The Association runs an employment bureau to obtain part-time and vacation work for students. Other services provided by the Association are "Contact" (an advisory and information service run by students for other students) and a legal referral system. The NZUSA Travel Bureau runs a very busy travel office in the Administration Block for use by staff and students. The Association is responsible for various publications including a weekly broadsheet *This Is The Week This Is*, outlining current activities for the week; a student newspaper *Craccum* which appears weekly during term and traditionally expresses students' views and features news of interest to students; such publications as *Tenancy Booklet* and *Sexuality Booklet* and as well distributes the various publications of the national body, NZUSA.

The Association occupies the Student Union Building whose control and use is subject to management by the Student Union Management Committee consisting of six students and five representatives of the University including representatives of the Senate, Council and Sub-Professorial staff.

The Student Union is made up of five blocks. The cafeteria block is under the general supervision of the Catering Manager and contains a basement and kitchen and the ground floor cafeteria seating 600 where a full hot and cold meal service is available. The Restaurant which seats 100 is on the first floor and provides a higher quality meal for students and staff. The Milk Bar on the basement level offers sweets, milkshakes, ice-creams, etc, and has indoor and outdoor seating for 70. The Coffee Bar also on the basement level which seats 90 is open for extended hours and serves coffee, tea and light snacks.

The Administration block contains the Association offices, Council Room, general meeting rooms, and the Executive offices along with the offices of the President and the Association Secretary, Assistant Registrar (Student Union), and the Accountant.

The public office is open from 9 am to 5 pm for Association business. Alongside this stands the block housing the University Bookshop Auckland Ltd, in which the Association has a half interest, above which are the main common rooms. Underneath both these blocks is the basement, storage, toilets and student locker area. The two blocks nearest Alfred Street contain the TV room, billiards room, the sick bay, a common room, and table tennis room.

All students are required to pay the annual Students' Association fee of \$43, a portion of which is paid into the building fund. The building fund levy is payable for 5 continuous years of attendance at the University of Auckland, credit being given for attendance at other New Zealand Universities for any full year. The building fund is used to finance present and future buildings in the Student Union.

The Maidment Arts Centre, on the corner of Princes Street and Alfred Street, caters for the cultural activities of the Association and the University. The centre contains two theatres, the larger being the Kenneth Maidment Theatre seating 450, while the smaller Little Theatre is suitable for audiences of up to 120.

The Maidment Arts Centre is managed by Theatre Management Committee which comprises five Association and four University Members.

The Recreation Centre, administered by a Joint Students' Association/University Committee, opened mid 1977 and provides seven squash courts, a work-out gymnasium and weight training area on a lower level. On the ground level is the main gymnasium adjacent to which are areas for fencing and the martial arts. The Recreation Centre also includes badminton, basketball, and tennis courts and has been planned to meet a comprehensive range of student sporting needs.

Hours of Catering Services

	Term	Study Breaks

THE NEW ZEALAND UNIVERSITY STUDENTS' ASSOCIATION

Formed in 1929, the New Zealand University Students' Association is the national union of New Zealand's university students, to which all seven local university students' associations are affiliated, giving a total membership of approximately 40,000.

NZUSA acts for students in all matters of national concern. Education and student welfare are NZUSA's major concerns, but it also takes stands on wider social and political issues on which students, through their representatives, have expressed their collective views.

NZUSA's National Office is in Wellington and is headed by the President along with General and Education and Welfare Vice-Presidents and two Research Officers. In addition there are two part-time officers, the Women's Rights Action Committee Co-ordinator and the National Overseas Students' Action Committee Co-ordinator.

NZUSA's policies are made by representatives of its constituent students' associations at Council Meetings twice a year. These policies are carried out under the guidance of the National Executive consisting of the Presidents of the constituent associations and the full-time elected officers of NZUSA.

NZUSA also maintains a travel service through its wholly owned company Student Travel Bureau Ltd. STB Ltd operates the Air New Zealand domestic standby scheme and provides students with low cost overseas travel. STB Ltd has offices on most university campuses including Auckland.

NZUSA's activities are funded by an annual levy of approximately \$4 paid by constituent students' associations on account of each individual member. More information about NZUSA can be gained by contacting AUSA or by writing to the President, PO Box 9047, Courtenay Place, Wellington.

AUCKLAND UNIVERSITY DISTRICT GRADUATES' ASSOCIATION (INC.)

President: R. H. Lockstone, BA, Dip Ed, N.Z.

The Graduates' Association was formed in 1951 with the primary aim of assisting the Court of Convocation to carry out its function of electing six members of the Court to the University Council, the governing body of the University of Auckland, and to make representations to the Council on any matter concerning the interests of the University.

Other objects of the Graduates' Association are the provision of facilities for intellectual and social intercourse among University graduates, the promotion of interest in University affairs among graduates and others, the publishing of magazines, periodicals, etc dealing with matters concerning graduates or University affairs, and generally furthering the interests of University graduates who are, or have been, members of the Court.

The Association also concerns itself with the interests of undergraduates, particularly in relation to welfare, accommodation, etc. A recent Association project was the setting up of a student loan fund for short-term loans to students in temporary financial difficulties. (Applications for these are made through the Student Counsellors.)

Most lectures and discussions are held at the Maclaurin Hall in Princes Street, and most social functions at the Student Union.

Membership of the Association is open to graduates and diploma holders of any University (in or out of New Zealand).

Those eligible to join the Association who have not already done so would be welcomed as members. The President, Mr R. H. Lockstone, 40 Landscape Rd, Mt Eden, phone 689-519, will be pleased to receive membership inquiries or to give further information about the activities of the Association and the Court of Convocation.

AUCKLAND UNIVERSITY CLUB (INC.)

President: D. J. Oldham.

Vice-Presidents: Pat Kelaher, G. F. Witton.

Secretary/Manager: Niki Elliot.

The Auckland University Club Inc., having obtained a Club Charter, opened its premises on the top floor of the Cafeteria Block in the Student Union on 1 June 1968. The Club provides the means by which former graduates can maintain close links with other graduates, with present students and with members of the University Staff. It encourages a closer relationship between the University and the professional and business community.

Membership is open to persons over the age of 20 who are members of the Court of Convocation of the University of Auckland, graduates or diploma holders of other Universities, members of professional societies who have gained a substantial portion of their professional qualifications as students of the University of Auckland, and members of The Auckland University Students' Assn (Inc.). Numbers are limited in terms of the Club Charter to 2250. Application forms are available from the Secretary.

The Club is located in its own premises at 23/25 Princes St where the facilities include a restaurant, two bars, private function room, reading room and a pool room.

THE NEW ZEALAND UNIVERSITIES GRADUATES ASSOCIATION (UK)

The New Zealand Universities Graduates Association (UK) was formed in 1967 with the main aim of creating and fostering opportunities for graduates of New Zealand Universities to establish contacts with other New Zealand graduates in the United Kingdom of Great Britain and Northern Ireland.

Other objects of the Association are the establishment of links with Universities and University organisations throughout the United Kingdom and New Zealand, and to make known to visitors the names of individuals or organisations who might be helpful to them.

Membership is open to holders of a degree or equivalent professional qualifications and associate membership is available to all members of NZUSA who are not yet graduates. Subscriptions are subject to review and in 1979 were member £2, Associate member £1.50, Student £0.75, husband and wife (both qualified) £3.

The Secretary will be pleased to receive membership inquiries and give further information. Postal Address: Secretary Dr M. Barak, Baydon Cottage, Folders Lane, Burgess Hill, Sussex, UK.

ENROLMENT PRE-ENROLMENT

Because of insufficient accommodation and restrictions on staffing there will be a limitation on the number of students who can be enrolled for certain courses at the University in 1981. With a few exceptions (see Notes) those wishing to enrol in 1981 for any of the Courses of Study listed below must complete a pre-enrolment application by the date prescribed. Application forms are available from the Registrar, University of Auckland, Private Bag, Auckland, or at the Inquiries Counter, Administration Building, 24 Princes Street. An intending student will not be permitted to enrol in any of the Course of Study listed below unless he has received notice in reply to his pre-enrolment application that a place is available to him in 1981. Students wishing to enrol for Courses of Study other than those listed below do not need to pre-enrol.

Architecture and Town Planning

Note: *The closing date for Enrolment for 1982 will be on the date stated in 1980 for 1981.

**Students enrolling for the first time at any University will not be required to pre-enrol in these courses.

Students required to pre-enrol by 10 January or 20 January but who fail to do so by the Friday preceeding enrolment week; may, at enrolment, be enrolled provisionally subject to places being available when those who have pre-enrolled have been placed. Enrolments, provisional on place cannot be confirmed until after enrolment week and subject to payment of late fee of \$20 in addition to the late penalty of \$20.

The above pre-enrolment requirements do not apply to applicants in the categories mentioned in Notes 1-5 below.

Notes:

1. Admission Ad Eundem Statum

(a) *Students from other New Zealand Universities wishing to transfer to the University of Auckland*

Students on the books of another university in New Zealand wishing to transfer to the University of Auckland are required to make application to transfer on the appropriate form (Form C) to the Registrar not later than 10 January. A late application may be accepted until the Friday preceeding enrolment week with the permission of the Senate and subject to the availability of places and upon payment of a late fee of \$20, and after the Friday preceeding enrolment week upon payment of an additional fine of \$20.

Because the University of Auckland is unable adequately to accommodate all of the students who in 1981 will seek to gain admission, students wishing to transfer to the University of Auckland for any undergraduate course shall be admitted **ONLY IF THERE ARE COMPELLING CIRCUMSTANCES FOR TRANSFER TO AUCKLAND**. Students wishing to enrol for papers at Stage I level in Arts, Science and Intermediate examinations will be selected on priority gradings based largely on their previous academic record. They may be required to nominate alternative papers and may be re-distributed to these alternative papers if there are inadequate places in the papers of their first choice.

(b) *Students from Overseas*

Overseas students wishing to be admitted for the first time to a New Zealand university must (i) if applying for undergraduate status, or credits at the University of Auckland, apply to this University for admission not later than 30 September for a place for the following year:

(ii) if not applying for undergraduate status or credits but for admission at entrance level, apply to the Overseas Students Admissions Committee (OSAC), Box 12-348, Wellington North, N.Z., not later than 1 July for a place for the following year.

(iii) if applying for graduate status, apply to the University for admission not later than 31 January.

Late applications may be accepted until the Friday preceeding enrolment week upon payment of a late fee of \$20 and after the Friday preceeding enrolment week upon payment of an additional fine of \$20.

2. Terms Carried Forward

Applications close 10 January, but late applications will be accepted up to, subject to places being available, the Friday preceeding enrolment week upon payment of a late fee of \$20 and after the Friday preceeding enrolment week upon payment of an additional fine of \$20. Application forms are available from the Registry.

3. Provisional Admission

Applications close 10 January, but late applications may be accepted up to the Friday preceeding Enrolment week and then only with the permission of Senate and on payment of a late fee of \$20, and subject to places being available. Applications may be accepted after the Friday preceeding enrolment week upon payment of an additional fine of \$20. Application forms are available from the Registry. A limitation has been placed on the number of students that may be enrolled for the first time at this University with Provisional Admission. (Students seeking exemption for BArch (Regulations 3 and 4), BCom (Regulation 11), BE (Regulation 7), or BSc (Regulation 10) shall not for this purpose be counted as applicants for Provisional Admission.)

4. Special Admission

Applications for Special Admission for Professional Examinations in Architecture or Engineering, Town Planning Examinations, BCom, BSc, DipBIA, DipDrama, DipLGA and DipMus close 10 January. Late applications may be accepted until the Friday preceeding enrolment week upon payment of a late fee of \$20 and after the Friday preceeding enrolment week upon payment of an additional fine of \$20. Application forms (Form S) are available from the Registry.

5. Failure to make Sufficient Progress in Course of Study — Prior Permission of Senate to Re-enrol

Students, both graduate and undergraduate, including those transferring from another university, shall not be accepted for enrolment in 1981 unless they have made satisfactory progress or have previously obtained the permission of the Senate to enrol in 1981. For definition of satisfactory progress refer to Enrolment and Course Regulations (General). A student will be deemed to have been engaged in academic studies whether or not he attempted the final examination if at 31 March in that year he was enrolled for a paper or subject as an internal student or had been granted Terms Carried Forward in a paper or subject.

Applications for permission to re-enrol, with the prescribed fee of \$20 close 10 January, but late applications will be accepted up to the Friday preceeding enrolment week upon payment of a late fee of \$20 and after the Friday preceeding enrolment week upon payment of an additional fine of \$20.

6. Pre-Enrolment Interviews

A General Information and Advisory Centre in the Student Union, 6 Alfred Street, will be open from 16 February until the end of enrolment week on 27 February. The Liaison Office will be open from 19 January.

7. Late Enrolments

Students enrolling late in the Faculties of Arts or Science, and for Intermediate examinations, if they have obtained prior permission to enrol late, must name any Stage I Arts and Science papers for which they wish to enrol. At enrolment they may be required to nominate alternative papers and to accept re-distribution into these alternatives.

Students who have failed to seek prior permission to enrol late but who have been accepted for late enrolment, will be allocated the lowest priority grade for acceptance into those Stage I papers where there is a restriction on enrolment.

Note: This applies to all students who apply to enrol or who enrol late including transfers, provisional admissions, exclusion students and Ad Eundem admissions.

8. Penalties

(a) Late Pre-Enrolment

A late fee of \$20 will be imposed on students who have failed to apply for pre-enrolment by 10 January or 20 January but make application by the Friday preceeding enrolment week. An additional fine of \$20 will be imposed on applications after the Friday preceeding enrolment week. Enrolment is subject to places being available.

(b) Late Enrolment

A student who has been granted a place and fails to enrol on the appropriate day and morning or afternoon as set out in the enrolment timetable may forfeit his place, or if permitted to enrol

(i) may be subject to a penalty of \$5 for enrolling during enrolment week on the wrong day, morning or afternoon, or

(ii) if enrolling after enrolment week will be subject to a penalty of \$20 together with a further penalty of \$4 for each week or part of a week that the enrolment is late.

(c) Late Additions or Deletions to Courses

A fine of \$4 for each week or part of a week that the application is late for alterations after the following dates:

Note: Late application for pre-enrolment for BHB will only be accepted up to 1 November on payment of the late fee.

(i) Laboratory subjects including the subjects Studio, in the Faculty of Architecture and Fine Arts and any subject of the First, Second, or Third Law Examination for LLB or LLB (Hons) Degree or for the Law Professional Examination.....*After Friday, 13 March*

(ii) Subjects of an Engineering Professional year. *After the First Friday after the commencement of lectures.*

(iii) All other papers and subjects which are taught from the beginning of the academic year.....*After 31 March*

(iv) All other papers and subjects commencing after the beginning of the academic year. *After the Second Friday, after the commencement of lectures in the papers concerned*

(v) Subjects for BArch, DipVal or NZIA/AERB Special Examination. *After the Second Friday, following commencement of lectures.*

(vi) Masters courses and linked co-requisite papers where other linked co-requisites are being substituted.....*After 30 April.*

(d) Choice of Course

The Course of study of a student making a late enrolment will be determined by the Senate and will not necessarily conform with that proposed by the student concerned. In determining such Course the Senate will have regard to prior claims upon both laboratory and classroom space of students who have enrolled in accordance with the above timetable.

9. Refund of Fees

Students are advised to note particular Regulation 7 of the Enrolment and Course (General) Regulations with regard to refund of fees where they alter their Course of Study after enrolment. Under this regulation a full refund of fees paid will be allowed in respect of papers or subjects deleted on or before 31 March, or on or before a later date as listed in Regulation 7. No refund of fees will be made for papers or subjects deleted after 31 March, except as previously listed. Holders of Education Department bursaries, Government study awards, Training College bursaries, Secondary Teachers' Studentships, etc, should note that the University will claim tuition fees from the Department of Education, or authority concerned in respect of those papers or subjects for which they are enrolled as at 31 March and that no amendments to Courses involving alteration to a claim for tuition fees can be accepted after that date.

10. Limitations

Limitations have been placed on the number of students that can be accepted in 1981 for the following Courses of study or subjects.

FACULTY OF ARCHITECTURE AND TOWN PLANNING

For all Courses in the Faculty of Architecture and Town Planning (including Intermediate years).....	810
First Professional for BArch.....	60
First Town Planning Examination (for BTP and DipTP).....	45
DipVal (for the first time).....	40

1981 ENROLMENT TIMETABLE

Students wishing to enrol at the University of Auckland in 1981 are required to attend at the University, Princes Street, to enrol during the hours 9 a.m. to 5 p.m., Monday to Friday 23-27 February 1981 inclusive in accordance with this timetable. Enrolment is not completed until all fees in cash are paid in full.

Students who were required to pre-enrol are asked to bring with them their 'confirmation of place'.

Students enrolling for the first time at a university should bring their UE, HSC, Bursary or Scholarship results or evidence of Admission Ad Eundem Statum at entrance level.

Any student who has changed name since last enrolment should produce a marriage certificate, a deedpoll, or a statutory declaration.

Students enrolling in more than one Faculty should note that only *one* enrolment form is required.

Students may collect their enrolment forms from the Old Arts Building, 22 Princes Street, the day before they are required to enrol (Friday 20 February for those enrolling on Monday the 23rd). Postgraduate students in Engineering may complete their departmental enrolment on Friday 20 February.

INITIALS OF SURNAME
MORNING AFTERNOON

ARCHITECTURE AND TOWN PLANNING

Intermediate for BArch, BTP DipVal

23 Monday A — K L — Z

BArch, MArch, MPhil, PhD, Special
Examination of NZIA and AERB
DipVal, BTP, DipTP, MTP, COP

26 Thursday A — D E — K

27 Friday L — R S — Z

ARTS

BA, COP and all BA students enrolling in Music
All Courses of Study except those listed
below

23 Monday A — C D — G

24 Tuesday H — J K — M

25 Wednesday N — R S — V

26 Thursday W — Z

If your 1981 Course of Study includes BCom
or LLB papers

25 Wednesday A — K L — Z

If your surname initial is W — Z and your 1981
Course of Study includes papers in Science subjects
other than Geography or Pure Mathematics

23 Monday W — Z

If you are enrolling for Arts papers for an
Intermediate Course, refer to the appropriate
faculty.

DipEdPsych
MA, MPhil, DipEd, DipLGA,
DipGuid, PhD

23 Monday A — Z

26 Thursday A — G H — Z

COMMERCE

BCom, COP

All Courses of Study except those listed
below

25 Wednesday A — B C — E

26 Thursday F — J K — M

27 Friday N — S T — Z

If your 1981 Course of Study includes BA, BSc,
or, LLB papers

25 Wednesday A — K L — Z

MCom, MPhil, PhD

SCIENCE

BSc, DipOpt, DipClinPsych, COP and papers to
qualify for entry to courses of study at other New
Zealand universities, including Agriculture,
Dentistry, Engineering
Food Technology, Home Science, Medicine,
Surveying, and Veterinary Science.

23 Monday A — C D — H
24 Tuesday I — M N — R
25 Wednesday S — Z

If your 1981 Course of Study includes BCom or
LLB papers

25 Wednesday A — Z

BSc(Hons), DipCompMaths, DipMathEd,
DipStats, MSc, MPhil, PhD
DipEnTech (Geotherm)

25 Wednesday A — Z
24 Tuesday A — Z

LECTURE AND LABORATORY TIMETABLES

The following section contains lecture and laboratory times for students taking Courses in the Faculties of Arts, Commerce, and Science.

Timetables for lectures in the Schools of Architecture, Engineering, Fine Arts, Law, Medicine, and Music will appear on departmental noticeboards at the beginning of the session.

Notes:

- (1) The timetable is a basic structure only; additional information is available from the Department.
- (2) Certain classes are held at times arranged by the Departments concerned, in particular these are:
 - (i) lectures for Masters degree courses;
 - (ii) tutorials and oral and practical classes (this applies to a large number of subjects);
- Details of all the above are placed on Departmental noticeboards or promulgated at early class meetings.
- (3) Stage 1 Science lectures are given in sets. Before the beginning of the session students should consult Departmental noticeboards to see which sets of lectures they are required to attend and to confirm the hours shown in the timetable.
- (4) Departments will announce the allocation of individual courses to particular lecture hours. Some of the lecture hours shown will be used for optional or alternative courses and in some cases all lecture hours allocated may not be utilised.
- (5) Students will not be permitted to enrol in Courses of Study that have a clash in lecture times, except with the approval of the Senate.
- (6) Bracketed Papers. Each bracketed paper will be taught at one or more of the times listed. Details are available from the Departments concerned.

ABBREVIATIONS

For Building locations see map inside front cover.

Bot	Botany Lecture Theatre, Old Biology Building (access from 3A Symonds St)
C Bio	Cell Biology Lecture Theatre, Room 220 Thomas Building (access from 3A Symonds St)
Chem	Chemistry Building (corner Symonds and Wellesley Streets) contains the large and medium lecture theatres.
Eng	Engineering School, 24 Symonds St.
HS	Human Sciences Building, entry from 10 Symonds Street
Lib	Library Building, corner Princes and Alfred Streets.
ULT	Upper and Lower Lecture Theatre Building.
LLT	Behind Old Arts building, access from 22 Princes Street or 1A Symonds Street.
Maths	Mathematics Lecture Theatres, Physics/Maths Building (36 Princes St).
O A	Old Arts Building (22 Princes Street).
OCH	Old Choral Hall, corner Symonds and Alfreds Streets
Phys	Physics Lecture Theatres, Physics/Maths Building (36 Princes Street).
Zoo	Zoology Lecture Theatre, Old Biology Building (access from 3A Symonds St).
Dept	Departmental Room.
T	Theatre.
(i)(x)	Class Streams.
1-4	Quarters of year (for Science classes only). Where teaching is for the full year quarters are not shown.

Note: This timetable is subject to change as class numbers and staff teaching commitments become stabilized.

For Arts and Commerce only

- (A) — first HALF year only, commencing approx 2 March
- (B) — second HALF year only, commencing approx 22 June
- (C) — first THIRD year only, commencing approx 2 March
- (D) — second THIRD year only, commencing approx 4 May
- (E) — third THIRD year only, commencing approx 27 July

As these are approximate dates, Departmental notice boards for information handouts should be checked for exact dates.

SCHOLARSHIPS, TERTIARY ASSISTANCE GRANTS AND OTHER AWARDS

TERTIARY ASSISTANCE GRANTS

Tertiary Assistance Grants are available to students who hold the necessary academic qualifications and are New Zealand citizens or permanently resident in New Zealand.

Leaflets outlining the provisions of the tertiary assistance grants regulations are available from the Registry.

To be eligible for a tertiary study grant a student must be enrolled in and attending all the lectures, laboratories and tutorials in either:

- one of the combinations of subjects set out below, or
- some other combination of subjects approved by Senate.

DEFINITIONS OF FULL-TIME STUDY 1981

Architecture and Town Planning

Architecture Intermediate All subjects required for the Intermediate under BArch Reg 5.
36 credits

BArch 6 Arts papers or equivalent in the first year.

Town Planning Intermediate 7 Arts papers or equivalent in the second year.

BTP 7 papers

DipTP 6 papers

DipVal 6 Subjects

Arts

BA Either 6 papers in the first year of enrolment at any University
or 7 papers

Dip Drama 3 Stage III and 3 other papers

DipEd All work as specified under DipDrama Reg 3 and 4.

The required 4 papers and Original Investigation. In the case of a student taking Education 14.100 and 14.101 as well as Diploma subjects: 14.100 and 14.101 and either 4 papers or 3 papers and Original Investigation.

DipEdPsych Pt I or Pt II

DipGuid Pt I or Pt II

DipLGA All subjects required under DipLGA Reg 5.

Commerce

BCom Either 6 papers
or 3 Stage III and 2 other papers

Engineering

Engineering Intermediate

All subjects required for the Intermediate under BE Reg 13.

BE A Professional year or equivalent.

DipBIA All subjects required under DipBIA Reg 4.

Fine Arts

BFA 6 papers in the first Professional year
9 papers in the second, third and fourth Professional years.

Law

Law Intermediate

LLB All subjects required under LLB Reg 3.
First, second or third Law examination

LLB Hons or equivalent

DipCrim Division I or II or equivalent

Medicine and Human Biology**BHB**

Part I, II or III

MBChB

Part I or II

Music**BMus**

Either

6 papers in the first year of enrolment at any University

or

7 papers

or

3 stage III and 3 other papers

BMus (Performance)

Performance and 3 papers

BMus (Performance) (Hons)

All work as specified under Reg 4

DipMus**DipMus (Hons)**

6 papers

Science**BSc**

Either

36 credits

or

30 credits including 18 above Stage I

or

24 credits other than Stage I

or

24 credits including 12 at Stage III

BSc (Hons)

Part III or IV

Dip Comp Maths

All subjects required under DipComp Maths Reg 4.

DipEn Tech (Geotherm)

Parts I, II and III

DipMath Ed

All subjects required under DipMath Ed Reg 3.

DipOpt

Division I, II, III or IV or equivalent

DipStats

All subjects required under DipStats Reg 3.

Masters' Courses

The student must be pursuing a full-time course approved by the Head of the Department.

TENURE

In general, students have a standard entitlement to assistance for two recognised courses or five years, whichever is the lesser. (The entitlement to fees grant is for assistance for two recognised courses or the equivalent of five years of full-time study, whichever is the lesser). The period of tenure for the various courses that have been recognised for tertiary grants purposes is as follows:

One Year:	DipBIA, DipCompMaths, DipDrama, DipEd, DipEdPsych, DipEnTech (Geotherm), DipGuid, DipLGA, DipMus (Hons), DipStats, DipMathEd, MTP, MArch, MJur, LLM (papers only), MMedSc, MHB, BMus (Performance) (Hons), ME (papers only)
Two Years:	DipCrim, DipTp, MBChB, MA, MCom, MSc, MPhil, MFA, ME (papers and thesis) MMus, LLM (papers and thesis)
Three Years:	BA, BCom, BHB, BMus, BSc, DipMus, DipVal, ACA
Four Years:	BCom/ACA, BE, BFA, BMus (Performance), BSc (Hons), BTP, DipOpt, LLB, LLB (Hons)
Five Year:	BArch, BA/LLB†, BA/LLB (Hons)†, BA/BMust†, BA/BMus (Performance)†, BA/DipMust†, BA/DipMus (Hons)†, BCom/LLB†, BCom/LLB (Hons)†, BHB/MBChB, BMus/DipMust†, BMus/DipMus (Hons)†, BSc/DipOpt†, BMus (Performance)/BMus (Performance) (Hons), BA/MA, BA/MA/DipClinPsych, BSc/MSc, BSc (Hons)/MSc, BCom/MCom, LLB/LLM (papers only), LLB (Hons)/MJur, BMus/MMus, BE/ME (papers only), BTP/MTP
Six Years:	LLB/LLM (papers and thesis)*, BFA/MFA*, BHB/MBChB/MMedSc*, BHB/MHB/MBChB*, BCom/ACA/MCom*, BArch/MArch* BE/ME (papers and thesis)*

Note (i) Conjoint courses, marked with a dagger (†), count as two courses. Other combined courses count as one course only.

(ii) Those combinations of courses marked with an asterisk (*) have been approved as "long"

courses and are exempt from the five-year limit on assistance. No other combinations qualify for more than five years' assistance.

(iii) A further year's fees assistance is available for Law Professionals in the following combinations only: LLB/LLM/LawProf and LLB (Hons)/MJur/LawProf, LLB/LawProf and LLB (Hons)/LawProf.

SCHOLARSHIPS AND PRIZES

A booklet entitled *Awards Handbook* is available without charge from the enquiry counter at the Registry, Princes Street. This booklet gives full details of the regulations governing scholarships, bursaries, prizes and other awards administered by the University and details of funds available for special assistance.

A handbook published annually entitled *University Grants Committee Handbook* gives full details of the regulations governing awards administered by the University Grants Committee. This handbook is available from Whitcoulls Ltd, booksellers, and for reference in the University library.

The attention of students and graduates is drawn to the Scholarships Notice Boards in the cloister on the lower ground floor of the Old Arts Building and in the Student Union.

Review of Scholarship

The Council, in awarding any scholarship, reserves the right to reduce the annual value of such scholarship at any time and from time to time during the tenure of it by any holder should the annual income of the funds of such scholarship, in the opinion of the Council, render such reduction expedient. All scholarships offered are subject to review in the event of the candidate being awarded other scholarships. Every holder of a scholarship shall be deemed to accept the award of same, subject to the above reservation, and notwithstanding that the value of such scholarship is set out specifically in the Regulations.

Re-award of a Scholarship discontinued by the Original Holder.

Fresh applications may be called for in any scholarship discontinued after a period of three months or more from the original date of award; the re-award in the event of the discontinuation of the scholarship to be made on the basis of the original application if possible.

History and Legislation

Contents

526 Chronology of Events

527 Legislation

For Legislation consult the 1979 edition of the Calendar

529 Arms of the University

CHRONOLOGY OF EVENTS*Compiled from previous Calendars*

- 1882 Auckland University College Act passed, establishing college and endowing it with statutory grant.
- 1883 College affiliated to University of New Zealand on 6 March and formally opened on 21 May. First Chairman of College Council, Sir Maurice O'Rorke. Foundation professors: T. G. Tucker (Classics and English); G. F. Walker, succeeded by W. S. Aldis (Mathematics); F. D. Brown (Chemistry and Physics); A. P. W. Thomas (Biology and Geology). First Registrar, Rev. R. B. Kidd. Legal subjects lectured on by District Judge. Lectures given for some years in temporary premises.
- 1887 Natural Science Department moved to Princes Street.
- 1889 School of Music established.
- 1890 Premises occupied in Parliament Street.
- 1894 Chairs of Classics and English separated. Rev D. W. Runciman appointed Registrar.
- 1895 Department of Modern Languages established.
- 1899 Lectures in History, Political Economy, etc begun.
- 1900 Lectures in Engineering begun.
- 1902 Chair of Music established.
- 1906 School of Mines and Engineering established. School of Commerce established. Lectures in Education begun.
- 1907 Chair of Engineering established. Rev C. M. Nelson appointed Registrar.
- 1908 Choral Hall, Symonds Street, purchased.
- 1910 Chair of Modern Languages established.
- 1911 School of Mines, Alfred Street, built.
- 1913 Separate Chairs of Physics and Chemistry established.
- 1915 Chair of History and Economics established.
- 1916 Mr T. W. Leys elected Chairman of College Council. Choral Hall occupied by School of Music and School of Law.
- 1917 School of Architecture established. Rev A. B. Chappel appointed Registrar.
- 1918 Faculties of Arts, Law, Commerce, and Music transferred to old Grammar School, Symonds Street.
- 1919 Science building, Symonds Street, formally opened. Permanent site acquired in Princes Street.
- 1920 Hon Sir George Fowlds elected Chairman of College Council. Chair of Law established.
- 1921 Chair of Philosophy established.
- 1922 Mr M. R. O'Shea appointed Registrar.
- 1924 Chair of Education established. School of Forestry established.
- 1925 Chair of Architecture established. School of Agriculture established.
- 1926 Arts and Students' Buildings, Princes Street, formally opened. Faculties of Arts, Science, Law, Education, Commerce, Engineering, Agriculture and Forestry established.
- 1927 Chair of Economics and Chair of Geology established. Departments of Economics and History separated.
- 1929 School of Agriculture transferred to Massey Agricultural College.
- 1931 School of Forestry transferred to Canterbury University.
- 1933 Mr K. Mackenzie elected Chairman of College Council. Departments of Botany and Zoology separated.
- 1935 Mr T. U. Wells elected Chairman of College Council.
- 1936 Mr H. J. D. M. Mahon elected Chairman of College Council.
- 1937 Mr L. O. Desborough appointed Registrar.
- 1938 Mr W. H. Cocker elected Chairman of College Council.
- 1939 Biology Block opened.
- 1945 Chair of Botany established.
- 1946 Department of Geography established.
- 1947 Chair of Architectural Design established.
- 1948 School of Engineering moved temporarily to Ardmore. Mr J. A. S. Kirkness appointed Registrar.
- 1949 Mr K. J. Maidment appointed first Principal. Chairs of Geography, Mechanical Engineering and Anthropology established. O'Rorke Hall opened.

- 1950 Elam School of Fine Arts incorporated in College.
- 1951 Post-graduate Chair of Obstetrics and Gynaecology established.
- 1953 Chair of Electrical Engineering established.
- 1954 Auckland University College Act 1954 passed, consolidating and amending previous legislation. Second Chair of Law established.
- 1955 Chair of Town Planning established.
- 1956 Department of Psychology established.
- 1957 Department of German and second Chair of Chemistry established.
- 1958 1954 Act amended providing for the Auckland University College to be called the University of Auckland and the offices of President, Vice-President, and Principal to be called Chancellor, Pro-Chancellor, and Vice-Chancellor respectively.
- 1959 Chair in Architectural Construction established.
- 1960 Chairs of Fine Arts, Psychology, and Accountancy established.
- 1961 University of Auckland Act 1961 passed, establishing the University as an independent institution. Sir Douglas Robb elected Chairman of University Council. Chairs of Microbiology and Political Studies established.
- 1962 Chair of German and Chair of Theoretical Physics being a second Chair within the Department of Physics established.
- 1963 Second Chairs of Economics, History, and Mathematics, and Chair of English Language established. Department of Adult Education became Department of University Extension.
- 1964 Chair of Chinese within the Department of Asian Languages and Literatures, a Chair of Nuclear Physics being a third Chair within the Department of Physics, and a third Chair of Law established.
- 1965 Dean of School of Medicine appointed. Chairs of Chemical and Materials Engineering, and Russian, and a Chair of French being a second Chair within the Department of Romance Languages established.
- 1966 Chairs of Biochemistry, Plant Pathology and Sociology established. Science building, (Chemistry) formally opened.
- 1967 Chairs of Anatomy, and Physiology, a second Chair of Anthropology, third Chairs of Chemistry, History, and Mathematics established.
- 1968 Mr W. H. Cooper elected Chancellor. Chairs of Art History, Medicine, Surgery, and Theoretical and Applied Mechanics, second Chairs of Education, Geography, Psychology, and Zoology, a third Chair of English, and a Chair of Geophysics being a fourth Chair within the Department of Physics, and a fourth Chair of Law established. Student Union and Thomas Building for the Biological Sciences formally opened.
- 1969 Chair of Pathology established. International House, Library Building, and School of Engineering formally opened. Government House and grounds acquired.
- 1970 Chairs of Endocrinology, Paediatrics and Psychiatry established. Dr C. J. Maiden appointed Vice-Chancellor. Director of Computer Centre appointed. School of Medicine building formally opened by Her Majesty Queen Elizabeth II.
- 1971 Department of University Extension renamed Centre for Continuing Education. Mr D. W. Pullar appointed Registrar. Chair in Community Health established.
- 1972 Chair in Architectural Construction renamed as Chair in Architecture, Chair in Business Studies and a Second Chair in Accountancy established. Science Building (Mathematics and Physical Sciences) opened.
- 1973 Chair in Child Health Research established. Extensions to Student Union completed.
- 1974 Mr Justice Speight elected Chancellor. Chair of Business Studies renamed Chair in Management Studies. Clinical Building, School of Medicine and Computer Centre occupied.
- 1975 Faculty of Medicine renamed Faculty of Medicine and Human Biology, Faculty of Architecture renamed Faculty of Architecture and Town Planning. Chairs in Orthopaedic Surgery and Radiology established.
- 1976 Maidment Arts Centre completed. Chair in Pharmacology and Clinical Pharmacology established.
- 1977 Recreation Centre Student Union, University Park Building, Tamaki, and Geography wing of Human Sciences Building completed. Second Chair in Obstetrics and Gynaecology, and Third Chair Psychology established.

- 1978 Chair in Ophthalmology established. Human Sciences Building, Preclinical 2, and Pathology Buildings occupied. Completion of Clubrooms building, athletic track, hockey field/six grass tennis courts at University Park.
- 1979 Geothermal Institute established. Chair of Medical Microbiology established. School of Architecture Contract A buildings occupied. Marine Laboratory extension at Leigh completed.
- 1980 Chair in Computer Science established. W. B. Nicoll appointed Registrar. Departments of Asian Languages, Art History, Economics and Political Studies relocated at 9 Symonds, 11 Symonds, 4 Alfred and 14-18 Symonds Streets respectively.

LEGISLATION

For legislation consult the 1979 edition of the Calendar. A booklet containing the University of Auckland Act 1961 and Regulations is published separately and is available from the Enquiries Counter at the Registry, 24 Princes St.

FORM OF LEGACY

I give to the University of Auckland (established by the University of Auckland Act 1961) free of all duties the sum of dollars for which the receipt of the Registrar of that University shall be a sufficient discharge.

Note: If any special direction or condition is to be attached to the Legacy, insert it here.

FORM OF ATTESTATION FOR A WILL

Signed by the testator
as his last will, in the presence of us both being present at the same time, who at his request, in his presence, and in the presence of each other, have signed our names as witnesses:

ARMS OF THE UNIVERSITY OF AUCKLAND

as granted by Garter, Clarenceux and Norroy and Ulster, Kings of Arms by Letters Patent bearing date the 15th February 1962 and recorded in the College of Arms, London.

Heraldic Description

Azure between three Mulletts Argent an open Book proper edged and bound Or with seven clasps on either side Gold on a Chief wavy also Argent three Kiwis proper.

On a scroll set below the Arms appear the words 'Ingenio et Labore'.

Symbolism

The open book together with the motto 'Ingenio et Labore', freely translated as 'by natural ability and hard work', indicate in a general way the aim of the institution and combined with the three stars express the idea of learning pursued under the sky of the Southern Hemisphere. The kiwis are indicative of New Zealand as the bird is absolutely confined to its Islands and the silver wavy chief upon which they are set directs attention to the fact that Auckland is on the sea coast.

Note: British Colour Council Dictionary of Colour Standards, references: AZURE (BCC 196) or (BCC 114).

Accounting II

01.200 Johnston, Edgar & Hays, *Law and Practice of Company Accounting in New Zealand*, 5th edn, (Butterworths).

01.201 Barton, *Executorship Law and Accounts in New Zealand*, 7th edn, (Butterworths); New Zealand Society of Accountants, *Management Accounting for the New Zealand Farmer*.

01.202 Shillinglaw, G., *Managerial Cost Accounting*, 4th edn, (Richard Irwin); Batty, J., *Advanced Cost Accountancy*, 2nd edn (Macdonald & Evans).

01.203 Cushing, B. E. *Accounting Information Systems and Business Organisations*, 2nd edn (Addison).

01.204 *Public Finance Act 1977* (Government Printing Office); *Local Government Accounting Regulations 1979* (Government Printing Office); *The Planning and Control of Government Expenditure* (Government Printing Office)

Accounting III

01.300 Most, K. S., *Accounting Theory*, 1st edn, (Grid).

01.301 Arens & Loebbecke, *Auditing: An Integrated Approach*, 2nd edn, (Prentice-Hall).

01.302 Shillinglaw, G., *Managerial Cost Accounting*, 4th edn, (Irwin).

01.303 Van Horne, J. C., *Financial Management and Policy*, 5th edn, (Prentice-Hall).

01.304 Burch, Strater & Grudnitski, *Information Systems: Theory and Practice*, 2nd edn, (Wiley).

ANCIENT HISTORY

Ancient History I

12.100 Either *Readings in World History* Vols I (Origins of Civilization) and II (The Ancient Near East), McNeill & Sedlar, (Oxford) OR *The Ancient Near East* (ed.) Pritchard (Princeton); G. Roux, *Ancient Iraq* (Pelican); J. A. Wilson, *The Culture of Ancient Egypt* (Chicago) and A. H. Gardiner, *Egypt of the Pharaohs* (O. U. P.).

12.102 One of A. R. Burn, *Pelican History of Greece*; J. B. Bury, *History of Greece*, revised by Russell Meiggs, (Macmillan), N. G. L. Hammond, *A History of Greece* (Oxford); plus Thucydides, *The Peloponnesian War* (Penguin Classics or Everyman's Library), *Athenian Politics* (Lactor S, write to LACT Publications, 19B Roxborough Park, Harrow, Middlesex, England).

12.103 Either W. G. Sinnigen and A.E.R. Boak, *A History of Rome to 565 A. D.* (6th edn) (Macmillan) or M. Cary & H. H. Scullard, *A History of Rome* (Macmillan); Tacitus, *The Annals of Imperial Rome* (Penguin) is strongly recommended for those students planning to advance.

Ancient History II

12.201 *Ancient Iraq*, G. Roux (Pelican); *Art and Architecture of the Ancient Orient*, Henri Frankfort (Pelican History of Art).

12.202 Herodotus, *The Histories*; Aeschylus, *Prometheus Bound and Other Plays*; Thucydides, *The Peloponnesian War*; Xenophon, *The Persian Expedition, A History of My Times*; Arrian; *The Campaigns of Alexander*; Plutarch, *The Rise and Fall of Athens* (All Penguin Classics); *The Athenian Empire* (Lactor I — see paper 12.102); H. Bengtson and others, *The Greeks and the Persians* (Weidenfeld); Plutarch, *The Age of Alexander* (Penguin)

12.203 N. Lewis and M. Reinhold, *Roman Civilisation* Vol II (Columbia Univ Press or paperback Harper Row); Tacitus *On Imperial Rome* (Penguin Classics). *Res Gestae divi Augusti*, ed. Brunt and Moore (Oxford) is strongly recommended.

12.210 A. Gardiner, *Egyptian Grammar* (Oxford); R. O. Faulkner, *A Concise Dictionary of Middle Egyptian* (Oxford). Texts of documents in Egyptian will be supplied by the Department.

12.211 Materials will be supplied at cost by the Department.

12.220 C. A. H. Fascicules 3 and 5; *The Origins of Civilization*, McNeill and Sedlar, *Readings in World History I* (Oxford); G. H. Breasted, *The Development of Religion and Thought in Ancient Egypt* (Harper); I. E. S. Edwards, *Pyramids of Egypt* (Pelican), OR A. Fakhry, *The Pyramids* (Chicago), C. Aldred, *Art in Old Kingdom Egypt and Art in Middle Kingdom Egypt* (Tiranti). For textual study see Paper 12.210.

Ancient History III

12.300 As for paper 12.220.

12.303 Joan Liversidge, *Britain in the Roman Empire* (Cardinal Books); S. Frere, *Britannia* 2nd Edition, (Cardinal Paperbacks); John Wachter, *Roman Britain* (Dent) OR P. Hunter Blair, *Roman Britain and Early England* (Sphere Library); David Wilson, *The Anglo-Saxons* (Penguin); *Some Inscriptions from Roman Britain* (Lactor 4 — see Paper 12.102); Tacitus, *On Britain and Germany* (Penguin), J. C. Mann and R. G. Penman, *Literary Sources for Roman Britain* (Lactor 11 — LACT Publications — see Paper 12.102); M. Dillon & N. Chadwick, *The Celtic Realms* (Cardinal Books), or Nora Chadwick, *The Celts*, (Penguin).

12.304 Herodotus, *The Histories*, Thucydides, *The Peloponnesian War*, Xenophon, *A History of My Times* (all Penguin Classics); Livy, *The War with Hannibal*, Caesar, *The Conquest of Gaul*, Sallust, *Jugurthine War and the Conspiracy of Catiline*, Tacitus, *On Imperial Rome and The Histories*, Suetonius, *The Twelve Caesars* (all Penguin Classics).

Recommended for Purchase: M. Grant, *The Ancient Historians* (Paperback edition) (Weidenfeld & Nicholson).

12.322 A. Andrews, *The Greek Tyrants* (Hutchinson); Herodotus, *The Histories* (Penguin); other reading from the Department.

Ancient History Honours

12.400 D. S. Russell, *The Jews from Alexander to Herod* (Oxford); *History of the Jewish People in the Age of Jesus Christ*, Emil Schurer (revised edn, T. & T. Clark, Edinburgh 1973); *The Works of Josephus*, trans Whiston (Everyman's Library, Dent), *The First and Second Books of the Maccabees*, (ed.) J. R. Bartlett (Cambridge Bible Commentaries), *The Herods of Judea*, A. H. M. Jones (O.U.P.).

12.402 M. Cary, *A History of the Greek World*, 323-146 B.C., (Methuen); Plutarch, *Moralia* Vol. 10 (Loeb edition); *The Letters of the Younger Pliny*, trans. Radice (Penguin); Livy, *Rome and the Mediterranean*, trans. Bettenson (Penguin).

12.406 Frankfort & Others, *Before Philosophy* (Pelican); T. A. Sinclair, *A History of Greek Political Thought* (RKP); Plato, *Republic*, any edn; *Laws*, trans. by T. J. Saunders (Penguin); Aristotle, *Politics*, trans. by E. Barker (Oxford).

12.414 W. K. Lacey, *The Family in Classical Greece* (available from the Department); John Crook, *The Law and Life of Rome* (Thames & Hudson).

12.500

12.510

12.502

12.512

12.503

12.513

Texts will be supplied by the Department.

ANTHROPOLOGY

Anthropology I

03.100 Keesing, R. M., *Cultural Anthropology: A Contemporary Perspective* (Holt 1976). Sev-

eral additional paperback texts will be required, to be announced prior to start of lectures.

03.101 Fagan, Brian M., *People of the Earth; an Introduction to World Prehistory* (Little, Brown, 2nd edn, 1977, paper); Brace, C. L. and A. Montagu, *Human Evolution: an Introduction to Biological Anthropology* (Collier Macmillan, 2nd edn, 1977).

03.102 Mege, Joan, *The Maoris of New Zealand* (Routledge & Kegan Paul, 1976); Schwimmer, E., *The World of the Maori* (Reed, 1966).

Anthropology II

03.200 Firth, R., *We, the Tikopia* (Allen and Unwin, 1964 or any other edition).

03.201 Chowning, A., *An Introduction to the Peoples and Cultures of Melanesia* (Cummings, 2nd edn, 1977).

03.202 Middleton, J., *The Lugbara of Uganda* (Holt, Rinehart and Winston, Case Studies in Anthropology, 1965); Chagnon, N., *Yanomamo: The Fierce People* (Holt, Rinehart and Winston, Case Studies in Anthropology, 1977); Wolf, E., *Peasants* (Prentice-Hall, Foundations of Modern Anthropology Series, 1966); Keesing, R. M., *Kin Groups and Social Structure* (Holt, Rinehart & Winston); Whyte, W., *Street Corner Society* (University of Chicago Press); Yang, M., *A Chinese Village* (Columbia University Press). All texts are available in paperback editions.

03.203 Evans-Pritchard, E. E., *Witchcraft, Oracles, and Magic among the Azande* (Oxford University Press); Kuhn, T., *The Nature of Scientific Revolutions*; Ortner, S., *Sherpas through their Rituals* (Cambridge University Press).

03.206 Adams, R. E. W., *Prehistoric Mesoamerica* (Little, Brown & Co., Toronto, 1977); Moseley, M.E., *The Maritime Foundations of Andean Civilisation* (Cummings, 1975, paper); Redman, C. L., *The Rise of Civilisation* (Freeman & Co, 1978, paperback); Lumberg-Karlovsky, C. C. and J. A. Sabloff, *Ancient Civilizations: the Near East and Mesoamerica* (Benjamin/Cummings, 1979, paperback).

03.208 Challis, A. J., *Motueka: an archaeological survey* (Longman Paul, 1978); Green, R. C., *Adaptation and Change in Maori Culture* (Stockton House, 1977); Houghton, P., *The First New Zealanders* (Hodder & Stoughton, 1979); Fox, A., *Prehistoric Maori Fortifications in the North Island of New Zealand* (Longman Paul, 1976).

03.209 Nettl, B., *Music in Primitive Culture* (Harvard University Press).

03.213 Kuper, A., *Anthropologists and Anthropology* (Peregrine, 1973, paperback); Stocking, G. W., *Race, Culture and Evolution* (Free Press, 1968, paperback).

Anthropology III

03.308 Hole, F. and Heizer, R. F., *Prehistoric Archaeology: A Brief Introduction* (Holt, Rinehart and Winston, 1977); or Fagan, B. M., *In the Beginning* (Little, Brown & Co., 1978).

03.315 Howells, William, *The Pacific Islanders* (A. H. and A. W. Reed, 1973); Bellwood, P. S., *Man's Conquest of the Pacific* (Collins, 1978); Jennings, J. D. (ed), *Prehistory of Polynesia* (ANU, 1979).

03.318 McLean, M., *An Annotated Bibliography of Oceanic Music and Dance* (Polynesian Society, 1977).

03.319 See Ancient History 12.303

03.320 Massal, E. and J. Barrau, *Food Plants of the South Sea Islands* (South Pacific Commission, 1956); Sahlins, M., *Stone-Age Economics* (Tavistock, 1974).

03.325 Coles, John, *Archaeology by Experiment* (Hutchinson, 1973).

Anthropology for MA & Honours

03.400 Rabinow, P., and W. Sullivan, *Interpretive Social Science* (University of California Press); Connerton, P. (ed.) *Critical Sociology* (Penguin).

ARCHITECTURE

Details of any prescribed texts and reading lists will be published in the Department prior to commencement of lectures.

ASIAN GEOGRAPHY

See Geography

ASIAN HISTORY

See History

ASIAN POLITICS

Asian Politics I

- 30.103 J. W. Lewis, *Leadership in Communist China* (Cornell Uni. Press ppr.); S. R. Schram, *The Political Thought of Mao Tse-tung* (Pelican); J. B. Starr, *Ideology and Culture* (Harper and Row ppr.); J. R. Townsend, *Politics in China* (2nd edn, Little, Brown & Co. ppr.); D. J. Waller, *The Government and Politics of Communist China* (Hutchinson Uni. Library ppr.); James C. F. Wang, *Contemporary Chinese Politics: An Introduction*, (Prentice-Hall, ppr.).
 30.104 *Asia Yearbook* (latest edition available); J. S. Hoadley, *The Military in the Politics of Southeast Asia* (Schenkman ppr.); D. Pike, *A Short History of Vietnamese Communism*, (Stanford, ppr.); *Asia Yearbook* (latest edition, ppr.).

Asian Politics II

- 30.205 T. J. S. George, *Lee Kuan Yew's Singapore* (Deutsch ppr.); R. S. Milne and D. K. Mauzy, *Politics and Government in Malaysia* (UBC Press).
 30.207 H. H. Baerwald, *Japan's Parliament: An Introduction* (Cambridge University Press); R. A. Scalapino and J. Masumi, *Parties and Politics in Contemporary Japan* (University of Calif. ppr.); J. A. A. Stockwin, *Japan: Divided Politics in a Growth Economy* (Weidenfeld and Nicolson ppr.); R. E. Ward, *Japan's Political System* (2nd edn, 1978, Prentice-Hall, ppr.).

BIBLICAL HISTORY & LITERATURE

Biblical History and Literature I

- 11.100 As 12.100 with the addition of J. Bright, *History of Israel* (S.C.M. Press).
 11.101 Any text of the Bible (The Revised Standard version is the preferred edition, after which the Jewish Publication Society Torah is the next preferred); J. C. Mays, *Amos* (London S.C.M. Press); A. A. Anderson, *Psalms (Vol. I) (The Century Bible)* (Olipants).

BIOCHEMISTRY

Biochemistry II

- 66.201 Conn and Stumpf, *Outlines of Biochemistry* 4th edn, (Wiley).

Biochemistry III

- 66.301 and 66.302 Reading lists are available from the Departmental Office by 1 December of the year prior to enrolment.

BIOLOGY

Biology I

- 39.101 Keeton, W. T. *Biological Science* 3rd edn, (Norton).
 39.111 Tortora, G. J. & J. F. Becker, *Life Science* (Collier Macmillan).

Biology II & III

- 39.207, 39.307 Clarke, *Statistics and Experimental Design* (Arnold).
 39.211 Krebs, C., *The Experimental Analysis of Distribution and Abundance* 2nd edn, (Harper International).
 39.212, 39.312 Morton and Miller, *The New Zealand Sea Shore* 2nd edn, (Collins);
 39.213 Poole and Adams, *Trees and Shrubs of New Zealand* 4th Impression, (Govt Printer).
 39.313 Whittaker, R. H., *Communities and Ecosystems* (2nd edn), (Macmillan); Kershaw, K. A., *Quantitative and Dynamic Ecology*, (2nd edn), (Arnold).
 39.314 Commission for the Future New Zealand in the Future World — Sustainability 1979, (Govt Printer).
 39.316 Open University *Oceanography. Biological Environments*. Units 9 & 10 (S334) Open University 3rd level Science Course.

BOTANY

Botany I & II

- 06.102 Weier, Stocking, Barbour, *Botany*, (5th edn), *An Introduction to Plant Biology* (Wiley).
 06.221 Sutcliffe, *Plants and Water*. Arnold Sutcliffe, *Plants and Temperature*. Arnold.

Botany III

- 06.331/06.332 G. Agrios, *Plant Pathology* (2nd edn), Academic Press, New York and London.
 06.361 Radford, Dickison, Massey and Bell, *Vascular Plant Systematics* (Harper and Row).

Botany for MSc

- 06.431 and 06.432 Commonwealth Mycological Institute, *Plant Pathologists Notebook* (1968) (Commonwealth Agricultural Bureau, Kew).

CELL BIOLOGY

Cell Biology III

- 40.303, 304, 305 There are no prescribed texts for courses 40.303, 40.304 or 40.305. Lists of books that are recommended reading may be obtained from the Departmental Office after 1 December.

CHEMISTRY

Chemistry I

- 08.100 Snyder, *Introduction to Modern Organic Chemistry* (Harper and Row); Cotton and Wilkinson, *Basic Inorganic Chemistry* (Wiley Internat. edn); Aylward and Findlay, *SI Chemical Data* 2nd edn, (Wiley).
 08.101 Snyder, *Introduction to Modern Organic Chemistry* (Harper and Row); *Laboratory Assignments Chemistry 08.101* (Available from the University Bookshop in the Student Union).
 08.102 Cotton and Wilkinson *Basic Inorganic Chemistry* (Wiley Internat. edn); Heslop and Wild, *SI Units in Chemistry — an Introduction* (Applied Science); *Laboratory Assignments 08.102* (Available from the University Bookshop in the Student Union).

Chemistry II

- 08.210 Atkins, *Physical Chemistry* (Oxford); Levitt and Kitchener, *Findlay's Practical Physical Chemistry*, 9th edn, (Longman); Aylward and Findlay, *SI Chemical Data* 2nd edn, (Wiley); Fritz and Schenk, *Quantitative Analytical Chemistry*, 3rd or 4th edn, (Allyn and Bacon).
 08.220 Cotton and Wilkinson, *Basic Inorganic Chemistry* (Wiley Internat. edn); Barrett, *Introduction to Atomic and Molecular Structure* (Wiley); or for students intending to proceed to 08.321, McWeeny, *Coulson's Valence*, paperback edn, (Oxford).
 08.230 Solomons, *Organic Chemistry*, Revised printing, Internat. edn, (Wiley). (paperback).
 08.270 Manahan, *Environmental Chemistry*, 2nd or 3rd edn, (Willard Grant Press).

Chemistry III

- 08.310 Atkins, *Physical Chemistry* (Oxford); Levitt and Kitchener, *Findlay's Practical Physical Chemistry*, 9th edn, (Longman); Aylward and Findlay, *SI Chemical Data* 2nd edn, (Wiley).
 08.311 Atkins, *Physical Chemistry* (Oxford); Banwell, *Fundamentals of Molecular Spectroscopy*, 2nd edn, (McGraw-Hill); Levitt and Kitchener, *Findlay's Practical Physical Chemistry*, 9th edn, (Longman); Aylward and Findlay, *SI Chemical Data*, 2nd edn, (Wiley).
 08.320 Cotton and Wilkinson, *Basic Inorganic Chemistry*, (Wiley Internat. edn); or Cotton and Wilkinson, *Advanced Inorganic Chemistry*, 3rd edn, (Interscience); Tobe, *Inorganic Reaction Mechanisms* (Nelson).
 08.321 McWeeny, *Coulson's Valence*, paperback edn (Oxford); Tobe, *Inorganic Reaction Mechanisms* (Nelson).
 08.331 Carey and Sundberg, *Advanced Organic Chemistry A. Structure and Mechanisms* paperback edn, (Plenum).
 08.330 Carey and Sundberg, *Advanced Organic Chemistry B. Reactions and Synthesis* paperback edn, (Plenum).

- 08.340 Banwell, *Fundamentals of Molecular Spectroscopy*, 2nd edn, (McGraw-Hill); Williams & Fleming, *Spectroscopic Methods in Organic Chemistry*, 2nd edn, (McGraw-Hill).
 08.350, 08.351 Wang, Willis & Loveland, *Radiotracer Methodology in the Biological, Environmental and Physical Sciences* (Prentice-Hall).
 08.360 Ewing, *Instrumental Methods of Chemical Analysis*, 3rd edn, (McGraw-Hill).

Chemistry for MSc and Honours

- 08.410 Atkins, *Physical Chemistry* (Oxford); Bockris and Drazic, *Electrochemical Science* (Taylor and Francis).
 08.411 Davidson, *Introductory Group Theory for Chemists* (Elsevier); McLauchlan, *Magnetic Resonance* (Oxford).
 08.420, 08.421 Cotton and Wilkinson, *Advanced Inorganic Chemistry* (Interscience).
 08.422 Basolo and Pearson, *Mechanisms of Inorganic Reactions* (Wiley).
 08.431 March, *Advanced Organic Chemistry*, 2nd Student edn, (McGraw-Hill).
 08.432 Tedder, Nechvatal and Jubb, *Basic Organic Chemistry, Part 5. Industrial Products* (Wiley).
 08.440 McWeeny, *Coulson's Valence* (Oxford); or Murrell, Kettle and Tedder, *Valence Theory* (Wiley).

CHINESE

Chinese I

- 48.100 and 48.101 De Francis, J., *Beginning Chinese* (Yale Univ. Press) Revised edn, De Francis, J., *Character Text for Beginning Chinese* (Yale Univ. Press) Revised edn.
 48.102 De Bary, W. T. (ed.), *Sources of Chinese Tradition* (Columbia Univ. Press); Chan Wingtsit, *A Source Book in Chinese Philosophy* (Princeton Univ. Press).

Chinese II

- 48.200, 48.201 and 48.202 De Francis, J., *Character Text for Intermediate Chinese* (Yale Univ. Press); Ba Jin, Yueye: *Selected modern Chinese Stories*; Liu C. Y., *Fifty Chinese Stories* (Lund, Humphries); Dawson, R., *An introduction to classical Chinese* (Oxford U.P.); Hsia, C.T., *The Classic Chinese Novel* (Columbia Univ. Press); Hsia, C.T., *A History of Modern Chinese Fiction* (Yale Univ. Press); Goldman, M. (ed.), *Modern Chinese literature in the May 4th era* (Harvard U.P.).

Chinese III

- 48.300, 48.301 and 48.302 Selected Readings from the writings of some or all of the following authors: Mao Dun, Lao She, Shen Congwen, Ding Ling, Hao Ran and Cao Xueqin; *Tangren xiaoshuo: Mencius* (Book 6, part 1); Selected poems; Watson, B., *Early Chinese Literature* (Columbia Univ. Press); Liu, James J. Y., *The Art of Chinese Poetry* (Routledge & Kegan Paul); Watson, B., *Chinese lyricism: 'shih' poetry from the second to the twelfth century* (Columbia U.P.).

Chinese for MA & Honours

- 48.402 Zhuangzi, chaps 2, 6; Han Yu, selected essays; Liu Zongyuan, selected essays.
 48.403 Selected passages from the *Shiji* and the *Zizhi tongjian*.
 48.409 Maspero, H., *La Chine Antique* (Imprimerie Nationale Paris). Granet, M., *Chinese Civilisation* (Routledge & Kegan Paul).

CLASSICAL STUDIES

Classical Studies I

- 73.103 Comedy and Satire.
 Aristophanes, *The Birds*, etc and *Lysistrata*, etc. (both Penguin); Menander, *Plays and Fragments* (Penguin); Plautus, *The Pot of Gold and other plays* (Penguin); Terence, *Phormio and other plays* (Penguin), *Satires of Horace and Persius* (Penguin); Juvenal, *Satires* (Penguin).

COMMERCIAL LAW

Commercial Law I

02.100 O'Keefe & Farrands, *Introduction to New Zealand Law*, 4th edn. (Butterworths).

Commercial Law II

02.200 Cheshire & Fifoot, *Law of Contract*, 5th edn. (Butterworths).

02.201 Leys & Northey, *Commercial Law in New Zealand*, 6th edn. (Butterworths); *Sale of Goods Act 1908 & Amendments*, (Government Printing Office); *Hire Purchase Act 1971 & Amendments*, (Government Printing Office); *Hire Purchase and Credit Sales Stabilisation Regulations 1957 & Amendments*, (Government Printing Office); *Chattels Transfer Act 1924 & Amendments*, (Government Printing Office); *Moneylenders Act 1908 & Amendments*, (Government Printing Office); *Insolvency Act 1967 & Amendments*, (Government Printing Office); *Bills of Exchange Act 1908 & Amendments* (1979. Reprint), (Government Printing Office).

Commercial Law III

02.300 Farrands, W. L., *Company Law in New Zealand* (Sweet & Maxwell); Sim, R. S., *Casebook on Company Law*, 4th edn. (Butterworths); Webb & Webb, *Principles of the Law of Partnership*, 2nd edn. (Butterworths); *Companies Act 1955 & Amendments*, (Government Printing Office); *Partnership Act 1908 & Amendments*, (Government Printing Office).

02.301 *New Zealand Master Tax Guide 1981* (Commerce Clearing House).

02.302 Szakats, A., *Introduction to the Law of Employment and First Supplement Industrial Relations Act 1973 & Amendments* (Reprinted 1978), 1st edn. (Butterworths).

02.304 O'Keefe, J. A. B. *The Commerce Act 1975*, 2nd edn. (Butterworths).

COMPUTER SCIENCE

Computer Science II

07.210 C. W. Gear, *Computer Organization and Programming*, 3rd edition (McGraw-Hill).

07.220 E. I. Organick, A. I. Forsythe, R. P. Plummer, *Programming Language Structures*, (Academic Press 1978).

07.250 J. E. Hopcroft, J. D. Ullman, *Introduction to Automata Theory, Languages and Computation*, (Addison-Wesley 1979).

07.290 G. Dahlquist, A. Bjork, N. Anderson, *Numerical Methods*, (Prentice-Hall 1974).

Computer Science III

07.310 A. S. Tanenbaum, *Structured Computer Organization*, (Prentice-Hall 1976).

07.320 C. J. Date, *An Introduction to Database Systems*, 2nd edn (Addison-Wesley 1977).

07.340 A. M. Lister, *Fundamentals of Operating Systems*, 2nd edn. (Macmillan).

Computer Science for MSc

A list of prescribed texts can be obtained from the department.

A list of books which are recommended reading for Computer Science courses can be obtained from the department.

DRAMA, DIPLOMA IN

A booklist will be available from the English Department.

ECONOMICS

Economics I

13.100 and 13.101 R. G. Lipsey, *Positive Economics*, 5th edn, (Weidenfeld and Nicolson).

13.102 P. G. Hoel & R. J. Jesson, *Basic Statistics for Business and Economics*, 2nd edn (Wiley).

Economics II

13.200 W. Nicholson, *Intermediate Microeconomics and its Application*, 2nd edn, (Holt, Rinehart and Winston) 1979.

13.201 D. C. Rowan, *Output, Inflation and Growth* (Australian edn) 1975; J. Gordon, *Macroeconomics* (Little, Brown & Co) 1978.

- 13.204 R. A. & P. B. Musgrave, *Public Finance in Theory and Practice*, 2nd edn, (McGraw-Hill) 1976; *The Public Sector, Monetary and Economic Council Report* (No 31) 1976.
 13.212 Progress, *Political Economy — Socialism* (Progress Publishers) 1977; Progress, *Planning a Socialist Economy* (Progress Publishers) 1977; J. Wilezynski, *The Economics of Socialism* (Allen & Unwin) 1970.

Economics III

- 13.300 M. Dobb, *Theories of Value and Distribution Since Adam Smith* (Cambridge Univ. Press), 1st edn, (1st paperback 1975).
 13.302 G. S. Maddala, *Econometrics* (McGraw-Hill) 1977.
 13.308 A. Rees, *The Economics of Work and Pay* (Harper & Row Int.) 1979; C. Mulvey, *The Economic Analysis of Trade Unions*, 2nd edn, (Martin Robertson) 1978.

EDUCATION

Education I

- 14.100 Snook and Lankshear, *Education and Rights*, 1979 (Manchester Unity Press); Lucas, *Our Western Educational Heritage*, 1972 (Macmillan); Marshall, *What is Education?*, 1981 (Dunmore).
 14.101 Mussen, Conger and Kagan, *Child Development and Personality*, 5th edn 1979 (Harper and Row); Ritchie and Ritchie, *Growing up in New Zealand*, 1978 (Allen and Unwin).

Education II

- 14.200 S. A. Rippa, *Education in a Free Society: An American History* (David McKay and Co. 3rd edn, 1976); King *Other Schools and Ours*, 5th edn, 1979 (Holt, Rinehart & Winston).
 14.203 G. R. Lefrancois, *Psychology for Teaching* (Wadsworth 3rd edn).
 14.206 *Units 9-13 of E202: School and Society*, Revision 1, 1977 (Open University Press); Vander Zanden, *Sociology*, 4th edn 1979 (Wiley).
 14.208 R. S. Peters, *Ethics and Education* (Allen and Unwin, 1966); Snook and Lankshear, *Education and Rights*, 1979 (Manchester Unity Press).
 14.209 Hopkins, *Understanding Educational Research*, 1980 (Merrill).

Education III

- 14.300 J. Bowen, and P. R. Hobson, *Theories of Education: Studies of Significant Innovation in Western Educational Thought* (Wiley 1974).
 14.301 E. J. King, *Other Schools and Ours* (Holt, Rinehart and Winston, 5th edn, 1979).
 14.303 Boocock, *Sociology of Education: An Introduction*, 2nd edn, 1980 (Houghton Mifflin).
 14.304 *Units 1, 15 and 16 of E221: Decision Making in Britain Ed'n Systems*, 1974 (Open University Press); *Unit 10 of E321: Management in Education*, 1977 (Open University Press).
 14.306 Shertzer and Stone, *Fundamentals of Counseling*, 3rd edn 1980 (Houghton Mifflin); Winterbourn, *Guidance Services in N.Z. Education*, 1974, (NZCER).
 14.307 L. Stenhouse, *An Introduction to Curriculum Research and Development* (Heinemann 1975); D. Lawton, *Class, Culture and Curriculum* (Routledge and Kegan Paul, 1975).

- 34.418 Materials available from Department.
- 34.419 Chaudenson, *Les Parlers créoles* (Nathan).
- 34.421 (for Civilization option only) Petit, *Comment va la France?* (Magnard, 1980 edition); Trotignon, *La France au XX^e siècle*, vol 2 only (Bordas, latest edition).

GEOGRAPHY

For papers not listed below, see the Department of Geography *Students' Guide* available from the Secretary.

Geography I

- 20.101 A. N. and A. H. Strahler, *Modern Physical Geography* (1st edn, Wiley).
- 20.102 A. R. de Souza and J. B. Foust, *World Space Economy* (1st edn, C. E. Merrill).

Geography II

- 20.203 T. M. Lillesand & R. W. Kiefer, *Remote Sensing and Image Interpretation* (1st edn, Wiley).
 20.204 H. M. Blalock, *Social Statistics* (Revised 2nd edn McGraw-Hill).

Geography III

- 20.313 N. R. Draper and H. Smith, *Applied Regression Analysis* (Wiley); J. B. Kruskal and M. Wish, *Multidimensional Scaling* (Sage).
 20.316 F. F. Sabins, *Remote Sensing: Principles and Interpretation* (1st edn, Freeman).

Geography for MA, MSc and Honours

- 20.420 D. Mueller Dombois and H. Ellenburg, *Aims and Methods of Vegetation Ecology* (Wiley).
 20.432 I. Roxborough, *Theories of Underdevelopment* (Macmillan).

GEOLOGY**Geology I**

- 21.100 A. N. Strahler, *The Earth Sciences* (Harper and Row, New York), 2nd edn, 1971.
 21.150 *Geological Map of New Zealand*, scale 1:250,000 Sheet 3, Auckland (Government Printer), *Geological Maps of New Zealand*, scale 1:1,000,000 (Government Printer), but note: purchase only the maps and not the Geological Survey Bulletin of the same name.

Geology II

- 21.201 B. E. Hobbs, W. D. Means and P. F. Williams, *An Outline of Structural Geology* (Wiley International Edition) (J. Wiley and Sons, 1976).
 21.202 *Geological Maps of New Zealand*, scale 1:1,000,000 (Government Printer), but note: it is necessary to have only the maps not the Geological Survey Bulletin of the same name. A. R. Lillie, *Strata and Structure in New Zealand* (Tohunga Press, 1980).
 21.201/202 Port Waikato Field Camp: K. Rodgers and G. Gibson, *Notes on some Geological Field Techniques and a Field Trip Itinerary for the Port Waikato Region* (University of Auckland, 1979); K. Rodgers and J. Grant-Mackie, *Aspects of the Geology of the Port Waikato Region* (University of Auckland, 1978).
 21.203 M. H. Battey, *Mineralogy for Students* (Oliver and Boyd, 1972).

Geology III

- 21.301 A. R. Lillie, *Strata and Structure in New Zealand* (Tohunga Press, 1980); J. A. E. Allum, *Photogeology and Regional Mapping* (Pergamon) 1966.
 21.302 R. L. Folk, *Petrology of Sedimentary Rocks* (Hemphills, Austin, Texas); Blatt, Middleton and Murray, *Origin of Sedimentary Rocks* (Prentice-Hall) 1972.
 21.303 L. F. Laporte, *Ancient Environments* (Prentice-Hall); N. de B. Hornibrook, *A Handbook of N.Z. Microfossils*, (N.Z. Government Printer); E. N. K. Clarkson, *Invertebrate Paleontology and Evolution* (Geo Allen and Unwin, 1979).
 21.304 K. H. Wedepohl, *Geochemistry* (Holt, Rinehart and Winston Inc.); M. H. Battey, *Mineralogy for Students* (Oliver and Boyd).
 21.305 W. A. Deer, R. A. Howie, J. Zussman, *An Introduction to Rock Forming Minerals* (Longmans 1966); R. Powell, *Equilibrium Thermodynamics in Petrology* (Harper & Row); K. G. Cox, J. D. Bell, R. J. Pankhurst *The Interpretation of Igneous Rocks* (Allen & Unwin); F. J. Turner *Metamorphic Petrology* 2nd edn, 1980 (McGraw-Hill).
 21.306 D. S. Parasnis, *Principles of Applied Geophysics* (Chapman & Hall 1972).
 21.307 D. S. Parasnis, *Principles of Applied Geophysics* (Chapman & Hall 1972).

GERMAN**German I**

- 22.100 Messinger/Rüdenberg, *Langenscheidt's Concise English-German/German-English Dictionary* (Hodder & Stoughton); Asher, *The Framework of German*, 11th edn, (Whitcoulls):

Oehler, *Grundwortschatz Deutsch* (Harrap/Klett). Prescribed texts for oral and language laboratory work will be announced at the commencement of the session.

60.205, 60.206, 60.207 Bloom and Fawcett, *A Textbook of Histology*, 9th edn, (Saunders); Lehninger, *Biochemistry*, 2nd edn, (Worth), or White, Handler, Smith, Hill & Lehman, *Principles of Biochemistry*, 6th edn, (McGraw-Hill); Romanes, *Cunningham's Manual of Practical Anatomy, Volume 2, Thorax and Abdomen*, 14th edn, (Oxford University Press); Moore, *Before We Are Born* (Saunders); Brobeck, *Best and Taylor's Physiological Basis of Medical Practice*, 10th edn, (Williams & Wilkins), 1979.

60.208 Tuckett, D. (ed.), *An Introduction to Medical Sociology* (Tavistock, 1976) or Davis, P., *Health and Health Care in New Zealand* (Longman Paul); Argyle M., *Psychology of Interpersonal Behaviour* 2nd edn, (Penguin); Papalia, D. E., and Olds, S. N., *Human Development*, (McGraw-Hill 1978 Paperback).

Part III

60.301 You will require one textbook of Pathology and one of Microbiology, for use in the 3rd term of 3rd year and throughout the following 3 years of your Clinical Course. The best selection will be discussed with the class before the end of the 2nd term. *Principles of Pathology* (Department of Pathology).

Robbins, S. L., & Angell, M., *Basic Pathology*, 2nd edn (Saunders), or Robbins, S. L., *Pathologic Basis of Disease* (Saunders), or Anderson, J. R., *Muir's Textbook of Pathology*, 10th edn (Arnold); Jawetz, E., Melnick, J. L. & Adelberg, E. G., *Review of Medical Microbiology*, 13th or 14th edn (Lange), or Stewart & Beswick, *Bacteriology, Virology and Immunity For Students of Medicine*, 10th edn (Bailliere Tindall), or Youngmans, Paterson, Sommers, *The Biologic and Clinical Basis of Infectious Diseases*, 2nd edn (Saunders).

60.302, 60.303 Eyzaguirre and Fidone, *Physiology of the Nervous System — an introductory text* 2nd edn, Year Book Medical Publishers 1975; Noback and Demarest, *The Human Nervous System, Basic Principles of Neurology*, 2nd edn, (McGraw-Hill 1977); Carman, *Notes of the Anatomy of the Head and Neck*, 1981 (Department of Anatomy); Romanes, *Cunningham's Manual of Practical Anatomy, Vol. 1: Upper and Lower Limbs*, 14th edn, (Oxford University Press), 1978.

60.304 Austin and Short, *Reproduction in Mammals* (Books I, II, III, VII) (Cambridge, 1972); Moore, *Before We Are Born* (Saunders); White, Handler, Smith, Hill & Lehman, *Principles of Biochemistry*, 6th edn, (McGraw-Hill).

60.305 Selkurt *Physiology*, 4th edn, (Little Brown)

60.306 *Departmental Manual on Pharmacology & Clinical Pharmacology*, 1st edn, 1981 (School of Medicine); A. Goth, *Medical Pharmacology*, 10th edn, (Mosby).

60.308 Copies of recommended books have been placed in the Philson Library.

INDONESIAN**Indonesian I**

80.100 and 80.101 Wolff, John U., *Beginning Indonesian*, Part One, (Cornell University, South-east Asia Program).

80.103 Materials will be supplied by the Department.

Indonesian II

80.200 Wolff, John U., *Beginning Indonesian*, Part Two, rev. edn, (Cornell University, South-east Asia Program); Wojowasito S. & Poerwadarminta W. J. S., *Kamus Indonesia Inggris*, (Penerbit Tiara, Jakarta); Adibah Amin & Habsah Hassan, *Pulang Gadishu Pulang* (K.L. 1977).

80.201 Notosusanto, N., *Tiga Kota*; Mochtar Lubis, *Djalan Tak Ada Ujung*.

80.202 Materials for the study of Indonesian poets will be supplied by the Department.

Indonesian III

80.300, 80.301, 80.302, 80.304, 80.305 Materials will be supplied by the Department.

Indonesian for MA and Honours

80.400 Materials will be supplied by the Department.

80.401 Ajip Rosidi, *Laut Biru Langit Biru* (Jakarta: Pustaka Jaya, 1977); Mochtar Lubis,

Djalan Tak Ada Ujung 2nd ed. (Jakarta: Pustaka Jaya, 1958); M. S. Hutagalung, *Djalan Tak Ada Ujung Mochtar Lubis* (Jakarta: Gunung Agung, 1963); Iwan Simatupang, *Ziarah* 2nd printing (Bandung: Djambatan, 1976); Idrus, *Dari Ave Maria ke Jalan Lain Ke Roma* (Jakarta: Balai Pustaka, 1948); Sitor Situmorang, *Pertempuran dan Saldju di Paris* (Jakarta: Pustaka Rakyat, 1956).

80.402 *The Hikayat Hang Tuah*.

80.404 A comparative study of printed and manuscript versions of the *Sejarah Melayu*.

80.405 A study of the writings of Hamzah Pansuri.

80.406 Materials will be supplied by the Department.

80.409 Problems in Malaysian and Indonesian Literary Criticism. Texts for consideration will be chosen from: *Hikayat Raja-Raja Pasai*, (Hill, ed.); *Syair Ken Tambuhan*, A. Teeuw, ed.; *Pantun Melayu*, R. J. Wilkinson and R. O. Winstedt; *Jalan Tak Ada Ujung*, Mochtar Lubis; *Ziarah* and *Kooong*, Simatupang; *Pertentangan* (Omar Hashim, ed.); Barbara Herrnstein Smith, *Poetic Closure. A Study of How Poems End* (Chicago, 1968); Meir Sternberg, *Expositional Modes and Temporal Ordering in Fiction* (Baltimore, 1978); Umberto Eco, *The Role of the Reader. Explorations in the Semiotics of Texts* (Indiana, 1979).

ITALIAN

Italian I

35.102 and 35.103 *Concise Cambridge Italian Dictionary* (Penguin).

34.104 *Concise Cambridge Italian Dictionary* (Penguin).

35.105 I. Silone, *Fontamara* (M.U.P.); I. Calvino, *Fiabe italiane* (M.U.P.).

35.106 and 35.107 *Dizionario inglese-italiano, italiano-inglese* (Garzanti); Lennie & Grego, *Italian for you* (Longman).

Italian II

35.200 K. Katerinov, *La lingua italiana per stranieri corso medio* (Edizioni Guerra) *lingua italiana*.

35.202 Dante Alighieri, *Inferno* (La Nuova Italia).

35.203 G. Boccaccio, *Decamerone* (Laterza); F. Petrarca, *Selected Poems* (Manchester U.P.).

35.204 L. Sciascia, *Il giorno della civetta* (Einaudi); A. Moravia, *Agostino* (Bompiani); G. Tomasi di Lampedusa, *Il gattopardo* (Feltrinelli) plus films of Fellini, Bolognini, Damiani, Rossellini and/or others.

Italian III

35.300 K. Katerinov, *la lingua italiana per stranieri corso superiore* (Edizione Guerra).

35.302 Dante Alighieri, *Inferno* (La Nuova Italia).

35.303 G. Boccaccio, *Decamerone* (Laterza); F. Petrarca, *Selected Poems* (Manchester U.P.).

35.305 L. Sciascia, *Il giorno della civetta* (Einaudi); A. Moravia, *Agostino* (Bompiani); G. Tomasi di Lampedusa, *Il gattopardo* (Feltrinelli), plus films of Fellini, Bolognini, Damiani, Rossellini and/or others.

JAPANESE

Japanese I

81.100 and 81.101 Uehara, T. and Kiyose, G. N., *Fundamentals of Japanese* (Indiana Univ. Press or Tenri Univ. Press); Sakade, F. (ed.), *A Guide to Reading and Writing Japanese* (Tuttle, Tokyo).

81.102 Keene, D., *Anthology of Japanese Literature* (Grove Press). Keene, D., *Modern Japanese Literature* (Grove Press).

 81.404 Selections from Japanese poetry, including theory.
 81.405 Selections from Japanese drama, including theory.
 81.407 Photostat and cyclostyled texts will be provided by the Department when necessary.

LATIN

Latin I

- 09.100 Cicero, *Catilinarian Orations*, ed. E. A. Upcott (Oxford); Ovid, *Metamorphoses I*, ed. Lee (Pitt Press, Cambridge); Catullus, ed. Williamson (Bell).
 09.101 For Prose: *Bradley's Arnold's Latin Prose Composition*, (ed.) J. F. Mountford (Longmans); *Latin Grammar*, Gildersleeve & Lodge (Macmillan).
 For Literary Analysis: C. Stace and P. Jones, *Stilus Artifex* (Cambridge).
 For all alternatives: Chambers-Murray, *Latin-English Dictionary* (W. K. Chambers, Edinburgh), C. Lewis and C. T. Short, *Latin Dictionary* (Oxford).
 09.102 W. F. Richardson, *An Introductory Course in Latin* (University of Auckland), available from the Department; Kennedy's *Revised Latin Primer* (Longmans). Students are advised to purchase a copy of Chambers-Murray *Latin-English Dictionary* (W. K. Chambers, Edinburgh), which they will be permitted to take into the examination as a 'restricted book.'

Latin II

- 09.200/201/202 (i) Prescribed Texts: *Livy XXI*, ed. Walsh (U.T.P.); Virgil, *Aeneid IV*, ed. Austin (Oxford) available from the department.
 (ii) Reading Course: Sallust, *Rome and Jugurtha*, ed. Hawthorn (B.C.P.); Lucan, *de Bello Civili VII*, ed. Postgate/Dilke (B.C.P.).
 (iii) History Period for 1981: Julius Caesar: texts from the Department.
 (iv) Translation and Literature: texts from the Department.
 (v) Composition (see Latin 09.101; other texts will be provided).

Latin III

- 09.300/301/302 (i), (ii), (iii) as Latin II.
 (iv) Latin Language: L. R. Palmer, *The Latin Language* (Faber).
 (v) (vi) Unseen Translation and Composition, see Latin II.
 09.303 For Verse Composition: Ainger & Wintle, *English-Latin Gradus* (John Murray).

Latin for MA & Honours

- 09.402 Horace, *Odes*, ed. T. E. Page (Macmillan); Virgil, Oxford Classical Text.
 09.403 Tacitus *Annals XIII-XV*: Text either *Annals XI-XVI*, (ed.) Furneaux/Pelham/Fisher, (2nd edn) (Oxford) or *Annals XIII-XVI*, (ed.) Furneaux/Pitman (Oxford); Cicero, *pro Caelio*, (ed.) Austin (Oxford). Texts of correspondence will be supplied.
 09.404 Vulgar Latin: Petronius, *Cena Trimalchionis*; (ed.) Smith (Oxford); Bede, *Historia Ecclesiastica*, (ed.) Garforth (Bell); *Millennium*, (ed.) F. E. Harrison (Oxford).
 09.405 Cicero, *Actio in Verrem I, pro lege Manilia, in Catilinam IV, pro Sestio, pro Caelio*; Sallust, *Catiline*; Suetonius, *Divus Julius*. Students may obtain any text; D. L. Stockton, *Thirty-five Letters of Cicero* (Oxford).
 09.406 Epic after Virgil: Information concerning texts from the Department.

LAW

First Law Examination

Part A

25.102 Stream A: Scott, *The New Zealand Constitution*, 1962 (Oxford Clarendon Press); de Smith, *Constitutional and Administrative Law* 3rd edn, 1977 (Penguin); as an alternative to de Smith, Wade and Phillips, *Constitutional and Administrative Law* 9th edn, 1977 or 8th edn, 1970 (Longman).

Stream B: Wilson, *Cases and Materials of Constitutional and Administrative Law*, 2nd edn, 1976. (Cambridge University Press); available in paperback.

25.103 Williams, *Learning the Law*, 9th edn, 1978 (Stevens) with Notes for New Zealand Readers, 1979 (Sweet & Maxwell); Cross, *Precedent in English Law*, 3rd edn, 1977 (Oxford); Hinde, *New Zealand Law Dictionary* 2nd edn, 1979 (Butterworths).

Part B

25.101 Crimes Act 1961, and all amendments, Government Printing Office; Doyle, *Criminal Procedure in New Zealand*, 1978 (Sweet & Maxwell).

25.104 McKenzie, Palmer & Clark, *Tort in Transition*, 1976 (Fourth Estate Publishing Ltd).

25.105 Cheshire and Fifoot, *The Law of Contract* 5th NZ edn, 1979, Northey (Butterworths) and *Supplement*, 1980.

Second Law Examination

25.201 Stream A: Hinde, McMorland and Sim, *Introduction To Land Law*, 1978 (Butterworths). Stream B: Hinde, McMorland and Sim, *Introduction To Land Law*, 1978 (Butterworths)

25.202 Hinde, *Equity Study Guide*, 2nd edn, 1973 (Butterworths); McKay, *Cases and Materials on Trusts*, 1980 (Fourth Estate Books Ltd.).

25.203 Leys and Northey, *Commercial Law in New Zealand*, 6th edn, 1977 (Butterworths) and *Supplement*, 1980. Students should have copies of the following statutes: Sale of Goods Act 1908, Hire Purchase Act 1971, Chattels Transfer Act 1924, the Moneylenders Act 1908 and also the Hire Purchase and Credit Sales Stabilisation Regulations 1957 (as amended).

25.204 Leys and Northey, *Commercial Law in New Zealand*, 6th edn, 1977 (Butterworths) and *Supplement*, 1980. Students should have copies of the following statutes: Sale of Goods Act 1908, Hire Purchase Act 1971, Chattels Transfer Act 1924, Insolvency Act 1967, Moneylenders Act 1908 and also the Hire Purchase and Credit Sales Stabilisation Regulations 1957 (as amended).

25.205 Northey, *Administrative Law Casebook*, (University of Auckland Bindery), 4th edn, 1977. Available only to law students from the Law School.

25.207 Clark (ed.), *Essays on Criminal Law in New Zealand*, 1971 (Sweet & Maxwell).

25.208 Northey, *Company Law in New Zealand*, 8th edn, 1976 (Butterworths); Webb and Webb, *Principles of the Law of Partnership*, 2nd edn, 1976 (Butterworths).

25.211 Bromley and Webb, *Family Law*, 1974 (Butterworths). Students should have copies of the Statutes listed under 25.216.

25.212 Szakatis, *Introduction to the Law of Employment*, 1975 (Butterworth); Mathieson, *Industrial Law in New Zealand*, 1970 (Sweet & Maxwell).

25.213 Bowett, *The Law of International Institutions*, 3rd edn, 1975 (Stevens).

25.214 Harris, *Cases and Materials of International Law*, London, 2nd edn, 1979 (Sweet & Maxwell); available in paperback.

25.215 Northey, *Company Law in New Zealand* 8th edn, 1976 (Butterworths); Webb and Webb, *Principles of Partnership*, 2nd edn, 1976 (Butterworths).

25.216 Bromley and Webb, *Family Law*, 1974 (Butterworths). Students should have copies of the following New Zealand statutes: Marriage Act 1955; Matrimonial Proceedings Act 1963; Adoption Act 1955; Domestic Proceedings Act 1963; Guardianship Act 1968; Matrimonial Property Act 1963; Status of Children Act 1969; Domestic Actions Act 1975. Students contemplating taking Advanced Family Law in a subsequent year are advised to retain their copies of these statutes.

25.220 Palmer, *Local Government Law in New Zealand*, 1978 (Sweet & Maxwell).

25.221 1981 *New Zealand Master Tax Guide* (1981), Commerce Clearing House (New Zealand); *New Zealand Income Tax Legislation* (8th edn incorporating 1980 Amendments, 1981), Commerce Clearing House (New Zealand).

25.227 Lloyd, *Introduction to Jurisprudence*, 3rd edn, 1972 (Stevens).

Third Law Examination

- 25.308 Sim and Cain *Practice and Procedure*, 12th edn, 1978 (Butterworths); Wily, *Magistrate's Courts Practice*, 7th edn, 1973 (Butterworths).
- 25.309 Northey, *Company Law in New Zealand* 8th edn, 1976 (Butterworths); Gower, *Principles of Modern Company Law* 3rd edn, 1969 (Stevens & Sons).
- 25.311 Webb and Davis, *A Casebook on the Conflict of Laws of New Zealand*, 1970 (Butterworths).
- 25.312 Sutton, *Creditor's Remedies*, 1978. Students should in addition have copies of the following statutes, with all amendments: Distress and Replevin Act 1908, Wages Protection and Contracts Liens Act 1939 (1972 Reprint), Imprisonment for Debt Limitation Act 1908, Insolvency Act 1967.
- 25.313 Williams, *Environmental Law in New Zealand*, 1980, (Butterworths).
- 25.314 Mathieson, *Cross on Evidence*, 2nd N.Z. edn, 1971 (Butterworths); Evidence Act 1908, and all amendments, Government Printing Office.
- 25.319 Palmer, *Planning Law in New Zealand*, 1977 (Sweet & Maxwell).
- 25.322 McMorland, *Vendor and Purchaser*, 1978 (Butterworths), (being a reprint of Hinde, McMorland and Sim, *Land Law*, vol ii, chapter 10.)
- 25.325 O'Keefe, *Readings in Maori Land Ownership*, 3rd edn, 1980 (University of Auckland Law School).

LLB (Hons)

- 25.350 Northey, *Company Law in New Zealand*, 8th edn, 1976 (Butterworths); Gower, *Principles of Modern Company Law*, 3rd edn, 1969 (Stevens & Sons).
- 25.352 Williams, *Environmental Law in New Zealand*, 1980, (Butterworths); Barry Commoner, *The Closing Circle*, 1971 (Bantam Books) and Joseph L. Sax, *Defending the Environment*, 1970 (Vintage Books, Random House).
- 25.367 O'Keefe, *Readings in Maori Land Ownership*, 2nd edn, 1976 (University of Auckland Law School).

Law Professional

- 25.401 Sim and Cain, *Practice and Procedure*, 12th edn, 1978; Wily, *Magistrate's Court Practice*, 7th edn, 1973 (Butterworths).
- 25.314 Mathieson, *Cross on Evidence*, 2nd N.Z. edn, 1971 (Butterworths); Evidence Act 1908, and all amendments, Government Printing Office.
- 25.403 Piesse and Gilchrist Smith, *The Elements of Drafting*, 3rd edn, 1965 (Stevens); Goodall and Brookfield, *Conveyancing* 4th edn, 1980 (Butterworths).
- 25.404 Piesse and Gilchrist Smith, *The Elements of Drafting*, 3rd edn, 1965 (Stevens); Goodall and Brookfield, *Conveyancing*, 4th edn, 1980 (Butterworths) Macfarlane, *Legal Practice Manual*, Vols 1 & 2, 2nd (blue spine) edn, (Auckland District Law Society). Students should have copies of the Property Law Act 1952 and the Land Transfer Act 1952, and of all amendments.
- 25.405 Piesse and Gilchrist Smith, *The Elements of Drafting*, 3rd edn, 1965 (Stevens); Goodall and Brookfield, *Conveyancing*, 4th edn, 1980 (Butterworths).

LINGUISTICS**Linguistics I**

- 83.102 Fromkin, V. and R. Rodman, *An Introduction to Language* (Holt, Rinehart & Winston; 1978); Gleason, H. A., *Workbook in Descriptive Linguistics* (Holt, Rinehart & Winston).
- 83.103 Lehmann, W. P., *Historical Linguistics: an Introduction* (Holt, Rinehart & Winston, 2nd edn).

Linguistics II

- 83.203, Hyman, Larry, *Phonology, Theory and Analysis* (Holt, Rinehart and Winston).
- 83.204 Lyons, J., *Introduction to Theoretical Linguistics* (Cambridge, 1968); Shane, S. A. and Bendixen, B., *Workbook in Generative Phonology* (Prentice-Hall).

LOCAL GOVERNMENT AND ADMINISTRATION

30.500 Graham W. A. Bush, *Local Government and Politics in New Zealand*, (Allen and Unwin, pb 1980); G. W. A. Bush and C. Scott (eds), *Auckland at Full Stretch* (Auckland City Council and University of Auckland Board of Urban Studies, pb 1977); C. D. Scott, *Local and Regional Government: Function and Finance* (Allen & Unwin, pb 1979).

30.501 A. Dunsire, *Administration, The Word and the Science* (Martin Robertson); P. Self, *Administrative Theories and Politics* (George Allen & Unwin).

MANAGEMENT STUDIES

Management Studies II

72.200 J. A. F. Stoner, *Management*, 1st edn, (Prentice-Hall, 1978).

72.201 P. Kotler, *Marketing Management: Analysis, Planning and Control* 4th edn, (Prentice-Hall, 1980); Britt (Stewart Henderson) & Boyd (W. Harper), *Marketing Management and Administrative Action* 4th edn, (McGraw-Hill, 1979).

72.202 G. Gordon & I. Pressman, *Quantitative Decision Making For Business*, 1st edn, (Prentice-Hall).

72.203 H. Mintzberg, *The Structuring of Organisations*, 1st edn, (Prentice-Hall, 1979).

72.204 T. R. Mitchell, *People In Organisations: Understanding Their Behaviour*, International Student edn, (McGraw-Hill, 1978).

72.220 Joel D. Aron, *The Program Development Process*, (Addison-Wesley, 1974).

72.221 Daniel D. McCracken, *A Simplified Guide to Structured COBOL Programming*, (John Wiley & Sons, 1976).

Management Studies III

72.300 W. F. Glueck, *Business Policy and Strategic Management*, 3rd edn, (McGraw-Hill, 1980).

72.301 Engel, Blackwell & Kollat, *Consumer Behaviour*, 3rd edn, (Holt, Rinehart, Winston — Dryden Press); Kassarian & Robertson, *Perspectives in Consumer Behaviour*, Revised edn, (Scott Foresman — H. J. Ashton).

72.306 Boyd Westfall & Stasch, *Marketing Research: Texts and Cases*, 4th edn, (Irwin Dorsey, 1978).

72.308 H. M. Wagner, *Operations Research*, 2nd edn, (Prentice-Hall); E. F. P. Newson, *Management Science & The Manager, A Casebook*, 1st edn, (Prentice-Hall).

72.309 Robock, Simmonds, Zwick, *International Business & Multinational Enterprises*, Revised edn, (Irwin, 1977).

72.320 E. Yourdon & L. L. Constantine, *Structured Design* (Prentice-Hall, 1979).

72.322 G. Wiederhold, *Database Design*, (McGraw-Hill).

MAORI STUDIES

Maori Studies I

04.100 Biggs, Bruce, *Let's Learn Maori* (Reed, 1974); Biggs, Bruce, *English-Maori Dictionary* (Reed, 1979).

04.101 Metge Joan, *The Maoris of New Zealand* (Routledge & Kegan Paul, 1976); Schwimmer, E., *The World of the Maori* (Reed, 1966).

04.104 Biggs, Bruce, *Let's Learn Maori* (Reed, 1974); Biggs, B., *English-Maori Dictionary* (Reed, 1979).

Maori Studies II

04.203 Challis, A. J., *Motueka: an Archaeological Survey* (Longman Paul, 1978); Green, R. C., *Adaptation and Change in Maori Culture* (Stockton House, 1977); Houghton, P., *The First New Zealanders* (Hodder & Stoughton, 1979); Fox, A., *Prehistoric Maori Fortifications in the North Island of New Zealand*, (Longman Paul, 1976).

04.204 Biggs, Bruce, *Let's Learn Maori* (Reed, 1974); Biggs, Bruce, *Complete English-Maori Dictionary* (Auckland University Press, 1980); Biggs, Bruce, S. M. Mead, P. W. Hohepa, *Selected Readings in Maori* (copies available from the Anthropology Department); Biggs, B., C. Lane, H. Cullen, *Readings from Maori Literature* (copies available from the Anthropology

Department); Williams, H. W., *A Dictionary of the Maori Language* (Government Printer, 1975).

04.205 Waititi, Hoani, *Te Rangatahi II* (copies available from the Anthropology Department); Williams, H. W., *A Dictionary of the Maori Language* (Government Printer, 1975); Biggs, B., *Complete English-Maori Dictionary* (Auckland University Press, 1980).

04.206 Pendergrast, M., *Maori Basketry for Beginners* (Reed, 1975); Buck, P. H., *The Coming of the Maori* (Whitcombe & Tombs, 1968).

Maori Studies III

04.303 Salmond, A., *Hui* (Reed, 1976); Mahuta, R. T., *Whaikoeroro* (copies available from Department); King, M. (ed.), *Te Ao Hurihuri* (Hicks Smith/Methuen); King, M. (ed.), *Tihe Mauri Ora* (Methuen).

04.304 McLean, M. and M. Orbell, *Traditional Songs of the Maori* (Auckland University Press/Oxford University Press, 1975).

04.306 Biggs, Bruce *Let's Learn Maori* (Reed, 1974); Grey, Sir George, *Nga Mahi a nga Tupuna* (Reed, 1971); Williams, H. W., *A Dictionary of the Maori Language* (Government Printer, 1975); Biggs, B., P. W. Hohepa, S. M. Mead, *Selected Readings in Maori* (copies available from Department).

04.307 Williams, H. W. *A Dictionary of the Maori Language* (Government Printer, 1975); Grey, Sir George, *Nga Mahi a nga Tupuna* (Reed, 1971); Biggs, Bruce, *Complete English-Maori Dictionary* (Auckland University Press, 1980); *Te Whare Kura* numbers 8, 13, 15 (Department of Education).

MATHEMATICS

Maths I

26.120 Hunter, J., Monk, O., Blackburn, W. T., Donald D., *Algebra and Number Systems*, (Blackie-Chambers).

26.121 A reading list for this course will be available from the course Study Guide.

26.122 Mizrahi A, Sullivan, M., *Finite Mathematics with Applications*, (Wiley International Edition, 3rd edn, 1979).

26.140 Salas, S. L. and Hille, E., *Calculus. (One and Several Variables)*, (Wiley International edn) or (Xerox College Publishing, 1974).

26.141 Swokowski, Earl W., *Calculus with Analytic Geometry*, (International Student, 2nd edn), (Wadsworth Publishing Co. N.S.W. 1979) (Part I only).

26.142 Haeussler, E. F. and Paul, R. S., *Calculus for the Managerial, Life and Social Sciences*, Prentice-Hall Inc., 1980).

26.170 Wragg, C. A. L., *Modern Mechanics — A Vectorial Approach*, (Edward Arnold).

26.180 Larson, Harold, J., *Introduction to Probability Theory and Statistical Inference*, (Wiley International Edition, 2nd edn).

Eton Four-Figure Mathematical and Statistical Tables.

Calculators: see footnote.

26.181 Mendenhall, W., *Introduction to Probability and Statistics*, (Duxbury Press, Massachusetts, 5th edn, 1979) (Wadsworth Student International Edition).

Eton Four-Figure Mathematical and Statistical Tables.

Calculators: see footnote.

Maths II

26.221 Lipschutz, S., *Theory and Problems of Linear Algebra*, (Schaum's Outline Series).

26.240 Salas, S. L., and Hille E., *Calculus, (One and Several Variables)*, (Xerox College Publishing) or (Wiley International Edition). (3rd edn, preferably).

26.241 Apostol, T. M., *Calculus, Vol. I*, 2nd edn, (Xerox College Publishing, 1969, International Edition, Wiley).

26.260 Ross, Shepley L., *Differential Equations*, 2nd edn, (Xerox College Publishing, 1974. International Student Edition) Ordered through John Wiley and Sons.

26.280 Freund, J. E., *Mathematical Statistics*, (Prentice-Hall IUT Edition).

Eton Four Figure Mathematical and Statistical Tables.

Calculators: see footnote.

26.281 A reading list for this course will be available from the course Study Guide.

Maths III

- 26.310 A reading list for this course will be available from the course Study Guide.
- 26.311 I. Grattan-Guinness (ed.) *From the Calculus to Set Theory, 1630-1910. An Introductory History*. (Duckworth, London, 1980).
- 26.315 D. C. Makinson., *Topics in Modern Logic*. (Methven University Paperback).
- 26.320 A reading list for this course will be available from the course Study Guide.
- 26.321 Fraleigh, J. B., *A First Course in Abstract Algebra*. (Addison-Wesley, World Student Series Edition).
- 26.330 A reading list for this course will be available from the course Study Guide.
- 26.331 Apostol, T. M., *Mathematical Analysis*, (2nd edn, Addison-Wesley, W. S. S., 1975).
- 26.335 Copson, E. T., *Metric Spaces*. (Cambridge University Press, 1972).
- 26.340 Sagan, Hans, *Advanced Calculus*. (Houghton Mifflin, 1974).
- 26.345 Derrick, W. R., *Introductory Complex Analysis and Applications*. (Academic Press).
- 26.350 Printed material relevant to this course may be purchased from the Mathematics Department.
- 26.360 Ross, Shepley L., *Differential Equations*, 2nd edn, (Xerox College Publishing, 1974, International Student edition), Ordered through John Wiley and Sons.
- 26.370 Spiegel, M. R., *Theory and Problems of Theoretical Mechanics*, (Schaum Publishing Co.); Leech, J. W., *Classical Mechanics*. (Methvens).
- 26.380 Printed material relevant to this course may be purchased through the Mathematics Department.
- 26.381/488 Seber, G. A. F., *Linear Regression Analysis*. (Wiley, New York).
- 26.391 Wagner, Harvey M., *Principles of Operations Research*, Prentice/Hall International Edition, 2nd edn, 1975.
- 26.395 Wagner, Harvey M., *Principles of Operations Research*, Prentice/Hall International Edition, 2nd edn, 1975.

Note: Students taking course 26.180, 26.181 and 26.280 are required to have a battery powered calculator which has at least the following facilities: (i) Square roots, (ii) at least one memory.

A list of books for recommended reading will be available from the Mathematics Department.

MEDICINE

Reading lists are available from the Department.

MUSIC FOR BA & BMus

Music I

- 28.102 As for 28.103.
- 28.103 Prescribed text: Grout, D. J., *A History of Western Music*, revised edn, (Norton, 1973); Palisca, C., *Norton Anthology of Western Music* (2 vols., Norton, 1980).
- 28.122 Prescribed text: Tunley, *Introductory Studies in Tonal Harmony* (University of Western Australia).

Music II

- 28.202 Bach-Riemenschneider, *371 Chorales* (Schirmer); Bach, J. S., *Goldberg Variations*; Bach, J. S., *Inventions and Sinfonie*; Bach, J. S., *Preludes and Fugues* (Well-tempered Klavier), Book I (Henle or Lea Pocket Scores).
- 28.203 Grout, D. J., *A History of Western Music* (revised edn.) (Norton 1973); Hoppin, R., *Medieval Music* (Norton, 1978); Strunk, O., *Source Readings in Music History: The Middle Ages* (Norton paperback, 1963).
- 28.205 Blume, F., *Renaissance and Baroque Music* (Norton paperback, 1967); Palisca, C., *Baroque Music* (Prentice-Hall, 1968); Strunk, O., *Source Readings in Music History: The Baroque* (Norton paperback, 1963); Monteverdi, C., *Vespers* (Novello); Grout, D. J., *A History of Western Music* (revised edn.) (Norton, 1973); *The Norton Scores*, (3rd edn.) Vol I (Norton 1977).
- 28.207 Longyear, R., *Nineteenth Century Romanticism in Music* (Prentice-Hall, 1973); Blume,

F., *Classic and Romantic Music* (Norton paperback, 1970); Strunk, O., *Source Readings in Music History: The Romantic Period* (Norton paperback, 1963); Berlioz, *Symphonie Fantastique* (Kalmus Miniature Score No. 144); Grout, D. J., *A History of Western Music* (revised edn.) (Norton 1973); *The Norton Scores*, (3rd edn.) Vol II (ed. Roger Kamien) (Norton & Company, New York, 1970).

28.210 Harris, R., *Trio for flute, harp and viola* (Price Milburn Music).

28.211 Swindale, O., *Polyphonic Composition* (O.U.P.)

28.214 Prescribed text: Nettl, B., *Music in Primitive Cultures* (Harvard University Press, 1956).

28.215 Prescribed text: Kennan, K., *The Technique of Orchestration*, 2nd edn, and *Orchestration Workbook II* (Prentice-Hall, 1970).

28.217 Prescribed texts: Franklin, E., *Music Education* (Harrap); Nye and Nye, *Essentials of Teaching Elementary School Music* (Prentice-Hall); Brocklehurst, B., *Response to Music: Principles of Music Education* (paperback) (Routledge & Kegan Paul).

Music III

28.310 Prescribed text: Brindle, R. S., *Serial Composition* (O.U.P.).

28.314 Prescribed text: McLean, Mervyn, *An Annotated Bibliography of Oceanic Music* (Polynesian Society, Wellington, 1977).

28.316 Brindle, R. S., *The New Music* (O.U.P.); Farquhar, D., *Evocation for Violins* (Price Milburn Music); Sanders, N., *Flame Tree* for Piano Solo (Price Milburn Music).

28.323 Cooke, D., *I Saw the World End* (O.U.P.); Shaw, G. B., *The Perfect Wagnerite* (Dover paperback).

Music for Masters & Honours

28.406 Prescribed text: Apel, W., *The Notation of Polyphonic Music 900-1600* (Medieval Academy of America, 1953).

28.415 Kennan, K., *The Technique of Orchestration* (Prentice-Hall, 2nd edn.)

28.423 Prescribed text: Brook, B. et al (eds.), *Perspectives in Musicology* (Norton paperback, 1975); Allen, W. D., *Philosophies of Music History* (Dover paperback).

OPTOMETRY

Optometry II

44.201 Fincham, W.H.A., *Optics* (Butterworth); Jalie, M., *Principles of Ophthalmic Lenses* (Association of Dispensing Opticians).

44.202 Moses R. A., *Adler's Physiology of the Eye* (Mosby).

44.203 Last, R. J., *Wolff's Anatomy of the Eye and Orbit* (Lewis).

44.204 Fatt, I., *Physiology of The Eye*, (Butterworth).

44.212 Spector, W. G., *Introduction to General Pathology*, (Churchill Livingstone).

Optometry III

44.301 Moses R.A., *Adler's Physiology of the Eye* (Mosby).

44.302 Fincham, W. H. A., *Optics* (Butterworth); Jalie, M., *Principles of Ophthalmic Lenses* (Association of Dispensing Opticians).

44.303 Lyle and Wybar, *Practical Orthoptics in the Treatment of Squint* (Lewis).

44.304 Newall, F., *Ophthalmology. Principles and Concepts*, (Mosby).

44.312 Either Mandell, R., *Contact Lens Practice: Hard and Flexible* (Thomas) or Stone and Phillips (eds.), *Contact Lenses* 2nd edn (Butterworths), Bennett, A. G., *Optics of Contact Lenses* (Association of Dispensing Opticians).

Optometry IV

44.402 Stevens, *Building Physics: Lighting* (Pergamon).

44.411 Reed & Drance, *The Essentials of Perimetry* (Oxford).

44.412 Lyle and Wybar, *Practical Orthoptics in the Treatment of Squint* (Lewis).

PHILOSOPHY

Philosophy I

29.100 J. Hospers, *An Introduction to Philosophical Analysis* (second edition) (R. K. P. Paper-

back); J. C. Edwards and D. MacDonald (eds), *Occasions for Philosophy* (Prentice-Hall paperback); E. S. Haldane and G. R. T. Ross (trans), *The Philosophical Works of Descartes Vol 1* (C.U.P.).

29.101 W. V. O. Quine, *Methods of Logic* (Holt, Rinehart and Winston).

29.102 Aristotle, *Ethics* (Penguin); D. Hume, *An Inquiry Concerning the Principle of Morals* (Library of Liberal Arts); I. Kant, *Foundations of the Metaphysics of Morals* (Library of Liberal Arts); J. S. Mill, *Utilitarianism* (Fontana).

Philosophy II

29.200 K. Campbell, *Body & Mind* (Anchor); G. Ryle, *The Concept of Mind* (Peregrine).

29.201 D. Makinson, *Topics in Modern Logic* (Methuen University Press).

29.203 C. G. Hempel, *Philosophy of Natural Science* (Prentice-Hall paperback); K. R. Popper, *The Logic of Scientific Discovery* (Hutchinson paperback); A. Chalmers, *What Is This Thing Called Science?* (Queensland U.P. paperback); D. Hull, *Philosophy of Biological Sciences* (Prentice-Hall paperback); J. Losee, *A Historical Introduction to the Philosophy of Science*, (O.U.P. paperback, Second Edition).

29.204 Plato, *The Republic* (Everyman); E. Hussey, *The Pre-Socratics* (Duckworth paperback); R. Bambrough (ed.), *The Philosophy of Aristotle* (Mentor).

29.207 David Stewart, *Exploring the Philosophy of Religion* (Prentice-Hall paperback).

29.208 D. Hume, *A Treatise of Human Nature* ed. Selby-Bigge, (O.U.P. paperback); Plato, *Theaetetus* trans. J. McDowell (O.U.P. paperback).

29.210 G. Leech, *Semantics* (Penguin); W. Alston, *Philosophy of Language* (Prentice-Hall).

29.211 R. C. Solomon, *From Rationalism to Existentialism* (Harvester paperback); Husserl, *The Idea of Phenomenology* trans. W. P. Alston & G. Martinus-Nijoff.

Philosophy III

29.300 L. Wittgenstein, *On Certainty* (Blackwell paperback); K. Lehrer, *Knowledge* (O.U.P. paperback); W. V. Quine, *Word and Object* (M.I.T. paperback).

29.303 I. Kant, *Critique of Pure Reason* (trans. N. Kemp-Smith) (Macmillan); A. Schopenhauer, *World as Will and Representation* (Vols I & II) (trans. E. F. J. Payne).

29.306 L. Wittgenstein, *Tractatus Logico-Philosophicus* (R. K. P. paperback); L. Wittgenstein *Philosophical Investigations* (Blackwell); M. Black and P. Geach (eds.), *Translations from the Philosophical Writings of P. Frege* (Blackwell).

PHYSICS

Physics I

31.105 Backus, *The Acoustical Foundations of Music* (Murray, London, 1970).

31.110 Halliday & Resnick, *Physics Part I & II*, 3rd edn (Wiley, 1978), *Laboratory Manual of First Year Physics*, published by the Department of Physics and available from the University Bookshop.

31.113 Sears, Zemansky, Young, *University Physics*, 5th edn (Addison-Wesley); *Laboratory Manual of First Year Physics*, Published by the Department of Physics and available from the University Bookshop.

31.115 Miller, *College Physics*, 4th edn (Harcourt, Brace & Jovanovich); *Laboratory Manual of First Year Physics*, Published by the Department of Physics and available from the University Bookshop.

31.120 Halliday & Resnick, *Physics Part II*, 3rd edn (Wiley, 1978); Weidner & Sells, *Elementary Modern Physics*, att 2nd edn (Allyn & Bacon, 1973); *Laboratory Manual of First Year Physics*, Published by the Department of Physics and available from the University Bookshop.

31.123 as for 31.113. Also Orear *Physics* (Macmillan 1979).

31.125 as for 31.115.

31.111 A list is available from the Department.

Physics II, III, MSc and Honours

Lists of prescribed texts are available from Department Office by 1 December of the year prior to enrolment.

PHYSIOLOGY

Physiology II

67.201 Schottelius & Schottelius, *Textbook of Physiology*, 18th edn (Mosby).

UNIVERSITY OF AUCKLAND CENTENARY

1883

1983

The University will celebrate its centenary, with the aid of students, past and present, staff and members of the community in May 1983

ADDITIONS AND ALTERATIONS

The following amendments were approved too late for inclusion in the body of the *Calendar*.

General Statutes & Regulations

Examination Regulations P.77 Reg 5b(vi) *Conceded* to read:

"A conceded pass shall apply only to the following Courses of Study and may not be transferred to another course of Study: Bachelor of Architecture, Diploma in Business and Industrial Administration, Bachelor of Engineering, Bachelor of Fine Arts, Bachelor of Human Biology, Bachelor of Laws, Bachelor of Laws with Honours, Law Professional Examination, Bachelor of Medicine and Surgery, Bachelor of Music, Bachelor of Music (Performance), Diploma in Music, Diploma in Music with Honours, Bachelor of Town Planning."

Fees Regulations

General Fees P.77, after Students' Association Fee;

Add: "Welfare Services Fee. All students will be required to pay an annual fee not exceeding \$10."
