2027 Course Limitations

Pursuant to the Limitation of Entry Statute 1991, the relevant Dean proposes the following limits to the maximum number of students who can be enrolled in its courses in 2027 because of an insufficiency of accommodation or staff to provide adequate teaching to all students expected to seek a place.

1. Identified courses with specific prerequisite academic standards and/or other selection criteria: Students will be selected for enrolment into the following courses, up to the specified maximum number of places available, on the basis of the selection criteria prescribed below.

2. Identified courses without specific prerequisite academic standards or other selection criteria: Students will be selected for enrolment into the following courses, up to the specified maximum number of places available, on a first in, first enrolled basis.

3. All other scheduled courses: All other scheduled courses offered by the Faculty shall also be deemed to be limited due to an insufficiency of accommodation. The limit will be determined by the maximum capacity of the room(s) allocated to the class(es) associated with each course through the University's timetable process in accordance with the Academic Timetable Policy. Where laboratory sessions or compulsory tutorials are scheduled, the ability to accommodate these sessions for the course or the overall enrolment number will be the limiting factor, depending on which presents the tightest constraint. It is not possible to set the numerical limits for these courses in advance, but the University will seek to accommodate as many students as possible. Students will be selected for enrolment on a first in, first enrolled basis, until the maximum capacity has been reached. Oversight of the process will be provided by the Associate Dean (Academic) in the first instance.

1. Identified courses with specific prerequisite academic standards and/or other selection criteria

Course	2027 Limit	Selection criteria: In all cases students also need to have met any relevant programme regulations or course requirements such as prerequisites or corequisites. All references to a degree include situations where the degree is a component degree within a conjoint degree programme.
BIOSCI 101 Life! Origins and Mechanisms	**1250**	Students in a programme for which this is a core course will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 106 Foundations of Biochemistry	**1000**	Students in a programme for which this is a core course will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 107 Biology for Biomedical Science: Cellular Processes	**2928**	Students enrolled in the BBiomedSc, BE(Hons) in Biomedical Engineering, BHSc, BNurs, or BSc with a major in Cell and Molecular Bioscience, Exercise Science, Medicinal Chemistry, Nutrition, Pharmacology, or Physiology are guaranteed a place. If places remain after these students have enrolled, students from other programmes may be considered. Selection will be based on academic performance, as measured by GPA, and will be subject to availability. Students from other programmes must submit an enrolment concession.
BIOSCI 108 Biodiversity: Patterns of Life	**480**	Students in a programme for which this is a core course will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 109 Ecology and Evolution: The Continuum of Life	**480**	Students in a programme for which this is a core course will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 201 Cellular and Molecular Biology	**600**	Students in a programme for which this is a core course will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 202 Genetics	**400**	Students in a programme for which this is a core course will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 203 Biochemistry	**440**	Students in a programme for which this is a core course will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 220 Quantitative Biology: S1	**420**	Students in a programme for which this is a core course, or transferring under the articulation agreement with Aulin College China will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 220 Quantitative Biology: S2	**560**	Students in a programme for which this is a core course, or transferring under the articulation agreement with Aulin College China will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 347 Environmental Microbiology and Biotechnology	**160**	Students in a programme for which this is a core course, or transferring under the articulation agreement with Aulin College China will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 348 Applied Microbiology	**160**	Students in a programme for which this is a core course, or transferring under the articulation agreement with Aulin College China will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.

BIOSCI 355 Genomics and Genome Biology	**160**	Students in a programme for which this is a core course, or transferring under the articulation agreement with Aulin College China will be guaranteed a place. Other students will be enrolled on a first-come-first-enrolled basis subject to available space.
BIOSCI 701 Practical Approaches in Genomics - Level 9	**60**	Students in the MBiotech will be guaranteed a place if they have met the prerequisites. Other students will be enrolled on a first-come-first-enrolled basis subject to available spaces.
BIOSCI 704 Practical Applications of Cell Analysis - Level 9	**60**	Students in the MBiotech will be guaranteed a place if they have met the prerequisites. Other students will be enrolled on a first-come-first-enrolled basis subject to available spaces.
CHEM 190	**1964**	Students enrolled in the BBiomedSc, BHSc, or BSc with a major in Cell and Molecular Bioscience, Exercise Science, Food Science, Medicinal Chemistry, Nutrition, Pharmacology, or Physiology are guaranteed a place. If places remain after these students have enrolled, students from other programmes may be considered. Selection will be based on academic performance, as measured by GPA, and will be subject to availability. Students from other programmes must submit an enrolment concession.
COMPSCI 718 Programming for Industry	**80**	This course is only available to students in the MInfoTech 240 point or PGCertInfoTech. Students will be enrolled on a first in-first-enrolled basis subject to available spaces.
COMPSCI 719 Programming with Web Technologies	**80**	This course is only available to students in the MInfoTech 240 point or PGCertInfoTech. Students will be enrolled on a first-in-first-enrolled basis subject to available spaces.
MARINE 100 The Oceans Around Us	**250**	Students in a BSc or BAdvSci(Hons) in Marine Science will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
MARINE 202 Principles of Marine Science	**220**	Students in a BSc or BAdvSci(Hons) in Marine Science will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
MARINE 302 Dynamics of Marine Systems	**72**	Students in a BSc or BAdvSci(Hons) in Marine Science will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
MARINE 303 Freshwater and Estuarine Ecology	**60**	Students in a BSc or BAdvSci(Hons) in Marine Science will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
MARINE 308 Fisheries and Aquaculture	**54**	Students in a BSc or BAdvSci(Hons) in Marine Science will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
MARINE 702 Field Techniques in Marine Science	**24**	Students in a PGDipSci or MSc in Marine Science or Master of Marine Studies will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
MARINE 703 Marine Protected Areas - Level 9	**25**	Students in a Master of Marine Conservation will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
MARINE 705 Ocean Management and Planning	**25**	Students in a Master of Marine Conservation will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.

MARINE 707 Applied Estuarine Ecology	**16**	Students in a Master of Marine Studies will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
MARINE 708 Aquaculture	**30**	Students in a Master of Marine Studies will be guaranteed a place. If places are available other students will be enrolled on a first-in-first-enrolled basis.
Psychology		
Note: The School of Psychology will ensure that all students admitted to a major in Psychology who have passed any necessary pre-requisite courses will be able to enrol in sufficient courses to enable them to complete their major.
