21.1 Introduction

Introduction

This section shall be specifically read in conjunction with *Section 1 About this Document* and *Section 2 Project and Building Works Requirements* of the University of Auckland Property Services Design Standards and Guidelines.

21.1.1 Purpose

The purpose of this section is to provide information about signage standards around the University of Auckland.

21.2 Signage Information

Introduction

Signage is a highly prominent, graphic element that provides not only wayfinding support but also visually connects the University campuses, enhancing the overall brand and "sense of place" or character of the campuses.

21.2.1 Signage guidelines and policy

The University is in the process of transitioning to a new signage guideline and policy that will set standard fonts, colors, specified formats, material and layout types that are consistent and identifiable across campuses.

Signage will generally be bilingual.

While the process and policy is developing, email spaceplanning@auckland.ac.nz to request advice as to which guideline to use, and when/where/how to use Maori translations.
