

*The New Zealand Journal of Research on Europe*

**Call for Papers**

**Special Issue on Comparative Perspectives on Europe's Energy Transitions**

Special Issue Editors: Peter Záborský (Management and International Business, University of Auckland) and Bart van Campen (Engineering Science, University of Auckland)

Europe's energy transitions in areas such as renewable energy and electric vehicles are important topics with implications for other industrialized and emerging economies (Jianchao et al., 2021; Schumacher, 2019; Tran and Eggermann, 2022). This special issue calls for submissions employing comparative perspectives on the various energy transitions in European and other countries, including within-Europe differences in energy transitions (Millot, A., Krook-Riekkola, A., and Maïzi, 2020; Streimikiene et al., 2021) and regional and city-level analysis and comparisons (Castellani et al., 2022; Nochta and Skelcher, 2020).

Various theoretical lenses can be employed, including (among others) comparative capitalisms (Allen et al., 2022) and comparative institutional analysis (Wood et al., 2022). Political, social, economic, and business perspectives are particularly encouraged, including themes such as inclusivity in energy transitions (Berka, MacArthur, and Gonnelli, 2020) and links between energy transitions and crises (Andreas, Burns, and Touza, 2017). In line with our Journal's aims and scope, we encourage diverse perspectives including multi-disciplinary studies, and accept also essays and commentaries. We seek studies with implications relevant for researchers, policy, business (McKinsey, 2023) and/or society in Europe and beyond.

**How to submit:**

Submissions to this special issue may take the form of full research articles, essays, or reviews. The final deadline for submission is **15 July 2024**, but we accept submissions on a rolling basis. Full research articles and reviews should be 5-10,000 words long (all inclusive), while commentaries and essays can be 1-5,000 words long. Please submit your manuscript to Dr Peter Záborský, the NZJRE editor ([p.zamborsky@auckland.ac.nz](mailto:p.zamborsky@auckland.ac.nz)). You can also first send an article proposal (a title and an abstract of up to 300 words) to Dr Záborský and he will provide initial feedback. Please refer to the submission instructions and the *NZJRE* style guide on [our website](https://www.auckland.ac.nz/en/arts/our-research/research-institutes-centres-groups/europe-institute/europe-journal.html): <https://www.auckland.ac.nz/en/arts/our-research/research-institutes-centres-groups/europe-institute/europe-journal.html>
