

The Committee's main purpose is to enable engagement, participation and consultation between leadership/management and elected health and safety representatives (HSRs) on health, safety and wellbeing (HSW) issues.

The Committee

- Advises the Dean/Director on HSW issues and enables monitoring of the efficacy of HSW systems and controls and supports the Dean/Director to deal with problems escalated from school or departmental meetings, and/or local committees
- Ensures that all aspects within its remit are considered and given prominence proportionately: safety, workplace health, and workplace mental health including harmful behaviour arising from either in-person or digital interactions
- The Committee will also oversee the implementation of the University's health and safety management system across the Faculty/Service Division and provide a consultative forum for the discussion, resolution and implementation of health, safety and wellbeing issues. This is to complement and not replace existing leadership and line management processes
- Where sites have multiple occupancy and no single Faculty or Service Division has overall charge of the facilities, a Building HSW Committee should be formed
- Where appropriate, similar and complementary Faculty/Service Divisions may combine to create a single Health and Safety Committee
- Must convene a minimum of four times a year

Membership

- Committees are to be convened with equal membership taken from management and elected health and safety representatives (HSRs)
- The Dean/Director of Service Division will chair Faculty/Service Division Health and Safety Committees
- The Dean/Director should appoint leadership and management representatives with sufficient relevant authority
- The Health, Safety and Wellbeing Manager (or nominated representative) must be invited to attend
- Co-opted members/advisors may include Service Managers from the cross-cutting services e.g. Property Services, IT, Security, Human Resources, student representatives and other specialist advisers who attend to report on campus-wide initiatives and issues
