

The next big idea needs you to protect it.

A Master of Intellectual Property programme gives you the expertise to protect and leverage intellectual property in New Zealand and Australia.

PROTECT NEW IDEAS AND INNOVATIONS.

From trademarks of patterns to patents on breakthrough technologies, learn how IP shapes the way ideas are protected and valued worldwide.

STUDY WITH WORLD-LEADING RESEARCHERS.

Rob Batty is an Associate Professor of Law who specialises in intellectual property law. Rob teaches, and supervises students researching in, a variety of intellectual property law subjects.

TAKE YOUR CAREER TO THE NEXT LEVEL.

Give yourself a unique edge in your current career, or open doors to careers in legal practice, product development, business strategy, creative industries and more.

Learn from expert practitioners and IP professionals.

LAWCOMM 772: Intellectual Property Law and Practice

Examine intellectual property rights and laws, and the complexities of their operation within the broader legal system.

LAWCOMM 795: Copyright and Design

Examine the law of copyright and registered design in New Zealand and Australia, and the overlap between these forms of protection.

LAWCOMM 796: Trade Marks and Related Rights

Explore how registered trade mark law, passing off, and other legislation protect commercial symbols and indicia from misuse.

LAWCOMM 782: Trade Marks Practice

Learn the practical elements associated with filing, opposing, registering, maintaining, removing and enforcing registered trade marks.

LAWCOMM 793: Patent Law

Learn how patent law and breach of confidence protect innovative ideas and inventions.

LAWCOMM 785: Patent Practice

Examine the practical elements associated with filing and prosecuting patent applications.

LAWS 554: Patent Interpretation

Learn the fundamentals of interpreting patent specifications and claims. Taught at the Victoria University of Wellington through an arrangement with the UOA.

LAWS 555: Patent Drafting

Understand how patents are drafted and learn the key practical skills necessary to draft patent specifications. Taught at the Victoria University of Wellington through an arrangement with the UOA.

WORKING FULL-TIME? NO PROBLEM.

Part-time study is available and recommended for working professionals, with a range of courses that have been timetabled to provide flexibility for your learning.

"The MIP programme has helped me specialise my engineering career by providing a clear path to becoming a Trans-Tasman patent attorney."

Ethan Harrold, MIP Student

Quick MIP facts
