About the PhD

A Doctor of Philosophy (PhD) is a globally recognised postgraduate research degree and the highest academic degree you can achieve.

International doctoral candidates at the University of Auckland pay the same tuition fees as New Zealand doctoral candidates – just NZ\$8,847.60² or around US\$5,200.³

Why a PhD at the University of Auckland?

World-class researchers

We are an institution of global standing, ranked 67th in the world.¹ We have the highest number of top-ranked researchers and annual graduate student completions of any university in the country.

auckland.ac.nz/research

Dynamic international community

Our doctoral candidates and supervisors represent the best and brightest from all over the world, representing around 90 nations. We come together to find solutions to humanity's greatest challenges.

Comprehensive support

We support your PhD journey with our outstanding financial, academic, research, career, and wellbeing services. These include comprehensive training and development opportunities, and the unique Postgraduate Research Student Support (PReSS) account – individual funding granted to every doctoral candidate for research expenses.

1. QS World University Rankings 2027

2. This is the 2026 tuition fee. The 2027 tuition fee had not been set at the time of publication. To be eligible for the domestic fee, you must reside in New Zealand for the duration of your PhD programme. However, you may undertake research activities and conferences overseas during your doctoral programme. (for a cumulative total of no more than 12 months).

3. September 2026

Why Auckland?

- › A safe, culturally diverse city in a beautiful and politically stable country.
- › New Zealand's largest city at 1.8 million people, and the centre of retail and commercial activity.
- › Set on a magnificent harbour and combining the best of vibrant city life with inspiring natural beauty.

"Interactions with lab mates and supervisors create a rich intellectual environment where ideas are shared, perspectives are challenged, and collaborations are formed."

Zhibo Xing, China
PhD in Computer Science

Employment opportunities

When you study in New Zealand as a full-time international PhD candidate, your visa will allow you to undertake paid work. On completing your PhD, you may apply for a three-year post-study work visa through Immigration New Zealand.

auckland.ac.nz/visa-information

Family benefits

As a PhD candidate based in New Zealand, you can bring your family when you study. Your spouse or partner may apply for an open work visa valid for the same duration as your student visa.

immigration.govt.nz

How we support you

Domestic fee rates

New international PhD candidates who live in New Zealand during their doctoral study pay the same annual tuition fees as New Zealand students. In 2027 that is expected to be about US\$5,200 per annum (excluding compulsory fees).

Generous scholarships

A range of scholarship options are available for international PhD candidates, including country-specific funding provided by your home government and local agencies. The University of Auckland Doctoral Scholarships (UoADS) are also an option for all applicants. These are highly competitive and only available as part of the admission process.

auckland.ac.nz/phd-scholarships

CSC scholarship

This is offered by the Chinese Scholarship Council and provides a living allowance, economy return airfares, student visa

fees, and the cost of health insurance for up to four years.

auckland.ac.nz/china-csc

Automatic research funding

Research support funding is available automatically to all PhD candidates. Postgraduate Research Student Support (PReSS) is intended to cover research costs and contribute to research-related travel, conference attendance and research consumables.

auckland.ac.nz/press

Doctoral development

The University offers a comprehensive range of services to support doctoral candidate development. This includes in-person workshops, online learning and a range of other resources and unique opportunities to help you refine your skills and employability.

auckland.ac.nz/doctoral-opportunities

English language development

Our English language pathways help anyone with a conditional offer to meet our language requirements. Once in the programme, you can explore our English language enrichment opportunities to support your studies.

ela.auckland.ac.nz

Dedicated advice

The School of Graduate Studies (SGS) facilitates support and services for doctoral candidates, from enrolment to completion. Our Doctoral Experience team works to ensure that all doctoral candidates have access to a wide range of training, development and networking opportunities across the University's research community.

auckland.ac.nz/doctoral-candidates

Accommodation

We can help you find quality accommodation in the heart of Auckland City, whether you are a single student, part of a couple or bringing your family. Choose from University residences or private accommodation.

auckland.ac.nz/accommodation

Preparing to apply

Entry requirements

Acceptance on to the programme is subject to staff availability for supervision, and appropriate facilities. You must demonstrate an ability to research independently and possess a high level of theoretical understanding. You must also have completed a significant research project, dissertation or thesis during your qualifying degree. You can check your eligibility using our online calculator. All PhD candidates must have a GPE of 6.0 or above.

gpecalculator.auckland.ac.nz

You will need an overall IELTS academic score of 6.5 with no bands below 6.0.*

auckland.ac.nz/doctoralentry

Find a supervisor

Before you complete your online application, please contact the academic whom you would like to work with during your PhD. You can find information about all of our supervisors online.

profiles.auckland.ac.nz
auckland.ac.nz/findasupervisor

You can also browse the research going on in our different faculties and schools and find a supervisor to match your research interests.

auckland.ac.nz/research

*You may apply for the PhD programme and receive a conditional offer if you have not yet met English proficiency requirements.

How to apply for a PhD at the University of Auckland

PhD applications may be submitted at any time. While there is no closing date for admission applications, many scholarships have specific deadlines. Applicants who wish to be considered for a University of Auckland Doctoral Scholarship (UoADS) must apply by one of the relevant scholarship closing dates. If awarded a UoADS, candidates must commence their studies on one of the specified start dates. Applicants who already hold a scholarship funded by a foreign government or agency are not eligible for a UoADS. Candidates who are not receiving a UoADS may start their PhD in any month of the year.

You need to allow at least three months between submitting a completed application and receiving an offer of a place in the programme. Often it takes longer than three months. You can speed things up by:

- › Applying when you have completed your qualifying programme or are close to completion
- › Submitting all of the required documents in a timely fashion
- › Securing the support of a main supervisor before you begin your online application
- › Making sure that your referees submit their references as soon as possible
- › Responding promptly to any requests for additional information, including revisions to your statement of research intent.

Apply online at auckland.ac.nz/doctoralapplications

Step 1. Check your eligibility

- › auckland.ac.nz/doctoralentry

Step 2. Choose your area of interest

Decide on your potential research topic, then check our active research in that area by exploring:

- › **Find a supervisor:** profiles.auckland.ac.nz
- › Faculty and department websites

The support of a supervisor is strongly encouraged but it does not guarantee you a place in our programme. You should already be in touch with a proposed supervisor and have their agreement that you can name them in your application.

Step 3. Check application closing dates

- › You can submit an Application for Admission at any time.
- › To be considered for the University of Auckland Doctoral Scholarship (UoADS), please note that there are several closing dates each year. See auckland.ac.nz/phd-scholarships

Step 4. Prepare your documentation

You will need electronic copies of:

- › Undergraduate and Postgraduate academic transcripts
- › Initial Statement of Research Intent
- › Curriculum vitae (résumé)
- › English language test results
- › Evidence of your prior research experience: thesis/dissertation and/or publications

Step 5. Apply online

auckland.ac.nz/doctoralapplications

You will receive an acknowledgment email with your Application for Admission login details. You can use these details to keep track of your application status.

English language pathways

If you do not meet the English language requirements, we have two English language pathways that can help:

Foundation Certificate for Academic Purposes (FCertEAP)

Fast-track programme: English Pathway for Postgraduate Studies (EPPS)

Application help

Follow our step-by-step guide for doctoral applications, admissions and enrolment. **auckland.ac.nz/doctoralapplications**
