The first time I arrived on the UOW campus I was mesmerised – it's a truly beautiful university. UOW supports exchange students and makes you feel welcome.

The things I enjoyed most about my time at UOW were the Australian culture, the sense of community, the nature, the people and the beaches. The people are super kind, it's not too big or too small, and it starts to feel like a second home very quickly. If you're thinking about studying abroad at UOW, go for it!

“

If I had the opportunity, I would choose UOW all over again.

When I first arrived on campus, I was surprised to see ducks roaming around, and there were so many trees and flowers. I have many fond memories sitting on the grass, having lunch with my friends and enjoying student life.

Wollongong is a city of fresh air, the blue ocean and friendly people. I lived on campus at Kooloobong, which provided great facilities and many programs for students to get to know each other, such as surf tours, barbeques, and beach trips.

I only wish I was able to stay longer.

More information on the Business Internship Program can be found at [uow.edu.au/business/internships](http://uow.edu.au/business/internships)

## VISITING RESEARCH PROGRAM

The Visiting Research program is designed for students undertaking research at either an undergraduate or postgraduate level who are currently enrolled full-time at an overseas university and wish to obtain research experience with a UOW research team. This program is usually between three and six months in duration and must be a formal requirement for the degree at the student's home university. Securing a UOW academic supervisor is the responsibility of the applicant. Participants must contact the relevant UOW faculty or school to gain the support of a member of UOW academic staff to supervise their project.

## GLOBAL SPORT PROGRAMS

Maintain your training whilst studying at one of the world's best universities.

The Global Sport Programs offer a unique experience to undertake full-time training programs from two of the best clubs in rugby and football whilst completing your academic studies at UOW. Your study could be as a full-time international student or through one of UOW's study abroad or exchange programs.

For more information on both the Crusaders Global Rugby Program and the Tottenham Hotspur Global Football Program visit [uow.edu.au/global-sport-programs/](http://uow.edu.au/global-sport-programs/)

## Choosing your subjects

Subjects are taught as a mix of lectures, tutorials or seminars, laboratory work where appropriate, and individual study. Study Abroad and Exchange students are assessed in the same way as Australian students.

## PLANNING A PROGRAM OF STUDY

Study Abroad and Exchange students enrol for one or two sessions as a non-award student at UOW. The year is broken into semesters, with UOW taking enrolments in Session 1 (February) or Session 2 (July).

If you are studying a postgraduate business program through UOW Sydney Business School, either in Sydney or Wollongong, your sessions are trimesters and start in February, May and August.

As part of your application to study at UOW, you will be required to submit a Study Plan. This is a list of proposed UOW subjects that will be assessed based on your academic background prior to your arrival. Every effort will be made to obtain approval of your selected subjects, however this is not guaranteed.

You'll need to be flexible with your subject selection, and be prepared with additional subject choices. Academic advice on your study program is available from UOW staff during orientation week. We advise that you bring a current transcript of your academic record from your home university or college, as well as subject outlines and descriptions.

It is your responsibility to ensure that the proposed program will earn the credits needed to satisfy the degree requirements of your home university or college.

## CHOOSING SUBJECTS

The subject information in this prospectus should be used as a guide only. For further information on subjects, please visit [courses.uow.edu.au](http://courses.uow.edu.au)

## SUBJECT AVAILABILITY

When choosing subjects, note that many subjects at the Wollongong campus are ONLY offered in either Autumn (February) or Spring (July).

Postgraduate business subjects are offered by UOW's Sydney Business School at the Wollongong and Sydney campuses on a trimester system. Trimesters begin in February, May, and August. Students enrol in three subjects (18 credit points) per trimester.

Students must decide whether they wish to study at the Wollongong or Sydney campus, and only select subjects available at that campus. Students cannot select subjects in a Wollongong or Sydney-based program that includes both trimesters and semesters.

# Study areas

UOW offers courses and subjects across a wide range of study areas. Study Abroad and Exchange students are welcome to choose any combination of courses (at UOW we call them 'subjects') offered by the University, and studies can be undertaken across multiple academic disciplines or schools\*. The following pages list the subject areas available to our Study Abroad and Exchange students with the degree levels indicated against each.

\*Please note that postgraduate subjects are not available to undergraduate/bachelor level students. Remember to check for subject prerequisite.

“

Travelling to Australia has always been a dream for me. Then when a friend of mine came to Wollongong last year and shared his experience, I knew UOW was the perfect choice.

The courses were very enriching and interesting, and the tutors were always available to answer questions.

Wollongong is a small paradise. It has the advantage of being a quiet and not too busy city, while at the same time being close to Sydney, which is perfect for visiting on weekends.

It was a dream for me to live near the ocean and have the opportunity to go to the beach almost every day, which was easy thanks to the free shuttle bus.

Even if you have never heard of Wollongong or UOW, it's a great place to study on exchange. You can study in a relaxed environment, make friends from all over the world, enjoy the beach every day, and have the best experience as an international student. After a perfect semester, I would 100% recommend UOW.

### ENGLISH LANGUAGE PROGRAMS

#### ENGLISH FOR ACADEMIC PURPOSES (EAP)

English for Academic Purposes (EAP) is for students who want to develop the foundations of English for studying in tertiary programs. It provides an opportunity to learn English language in context in preparation for university study. After successful completion of a core unit of study, students may have the option to:

- Enter the advanced level ETS program to reach university entry level
- Enter our Foundation Studies course
- Enter a UOW College Australia Diploma course.

Our EAP course helps students to prepare for more formal academic studies in English. Students develop academic language skills and have the opportunity to practise these, as well as developing skills in both critical thinking and independent study skills. If you are wanting to move into our Foundation Studies, Diploma or ETS programs, but don't yet meet the entry requirements for English Language, this course is for you!

#### ENGLISH PLUS UNI

Offered through UOW College, English Plus Uni is for students who do not have English as their first language, and have not met the required level of English to undertake a formal semester program.

Students audit one or two university subjects and, at the same time, take part-time English language classes. Students study English for fourteen hours per week and attend their chosen university subject(s) for three to six hours per week.

Students receive a transcript from UOW College for their studies. Home universities may choose to offer credit for this program.

#### STUDY TOURS AND GROUP PROGRAMS

UOW offers customised study tour programs for groups of students. Study tours can be held at any time of the year, and consist of English language training and/or academic components and/or leisure and social research activities.

For all or some of the study tour components, the home university may choose to grant credit towards studies at the home university.

“

Studying at UOW has been my favourite university experience and the best time of my life. I have enjoyed so many aspects, including the wonderful friends I have made and the events and activities available for students.

I really enjoyed the classes I took at UOW and the lecturers and tutors were always kind and helpful. While at UOW I lived at International House, which was very convenient being right near North Wollongong train station.

I loved how much of a close-knit community I-House became and being able to meet study abroad students from all over the world. I would highly recommend studying abroad anywhere, but especially at UOW. The atmosphere and community made my time here unforgettable – I truly can call Wollongong my home away from home!
