

# Auckland Bioengineering Institute Prize in Biomedical Engineering

<b>Code:</b>	P174
<b>Faculty:</b>	Engineering and Design
<b>Applicable study:</b>	Part IV Research Project in BE(Hon) in Biomedical Engineering
<b>Closing date:</b>	By nomination
<b>Tenure:</b>	
<b>For:</b>	Prize
<b>Number on offer:</b>	One
<b>Offer rate:</b>	Annually
<b>Value:</b>	\$500

## Description

The Prize was established in 2007 to recognise the most meritorious project in Biomedical Engineering. This degree programme is one of the two degrees offered by the Department of Engineering Science and Biomedical Engineering. Before the establishment of a separate Biomedical Engineering Degree, all students in the Department of Engineering Science and Biomedical Engineering were eligible for the Cecil M Segedin prize. Since the Cecil M Segedin Prize is specifically reserved for students in the Engineering Science Degree programme, a separate prize was established for those students enrolled in the Biomedical Engineering Degree programme.

## Selection process

- Nomination is made to the Scholarships Office
- The Prize will be awarded by the University of Auckland Council upon receiving the recommendation of the Head of the Department of Engineering Science and Biomedical Engineering (or nominee)

## Regulations

1. The Prize will be known as the Auckland Bioengineering Institute Prize in Biomedical Engineering.
2. One Prize will be awarded annually and will be of the value of \$500.
3. The Prize will be awarded annually to the student enrolled in ENGSCI 700 Research Project in Part IV of the Bachelor of Engineering (Honours) Biomedical Engineering programme whose project best demonstrates the Learning Outcomes listed in the course outline. As a minimum standard the student must have achieved at least an A- grade.
4. The Prize will be awarded by the University of Auckland Council upon receiving the recommendation of the Head of the Department of Engineering Science and Biomedical Engineering (or nominee).
5. In the event of a tie, the Head of the Department of Engineering Science and Biomedical Engineering shall determine if the Prize may be shared. Each recipient will be awarded an amount equal to the original value of the Prize.
6. The University of Auckland Council is not obliged to make an award if it is determined there is no candidate that meets the criteria and/or no candidate of sufficient merit.

7. The University of Auckland Council can amend the above regulations provided that there is no departure from the main purpose of the Prize.
