Hiway Stabilizers Prize in Pavement Engineering

Code: P851
Faculty: Engineering and Design
Applicable study: CIVIL 303
Closing date: By nomination
Tenure:
For: Prize
Number on offer: One
Offer rate: Annually
Value: $1,000

Description

This Prize was established in 2003 by Hiway Stabilizers to encourage interest in the area of pavement stabilisation, road construction, road maintenance, pavement rehabilitation and soil modification, as well as ground improvement techniques.

Selection process

- Nomination is made to the Scholarships Office
- The Prize will be awarded by the University of Auckland Council on the recommendation of the Head of the Department of Civil and Environmental Engineering

Regulations

1. The Prize will be known as the Hiway Stabilizers Prize in Pavement Engineering.
2. The value of the prize will be $1,000.
3. The Prize will be awarded annually to the Bachelor of Engineering (Honours) student who achieved the highest grade in CIVIL 303 Transport Operations and Pavements (or its equivalent successor course). As a minimum standard the student must have achieved at least an A- grade.
4. The Prize will be awarded by the University of Auckland Council on the recommendation of the Head of the Department of Civil and Environmental Engineering (or nominee), after consultation with a representative of Hiway Stabilizers, where practicable.
5. In the event of a tie, the Head of the Department of Civil and Environmental Engineering (or nominee) shall determine, in consultation with Hiway Stabilizers, if the Prize may be shared.
6. The University of Auckland Council is not obliged to make an award if it is determined there is no candidate that meets the criteria and/or no candidate of sufficient merit.
7. The University of Auckland Council can amend or vary these regulations, in consultation with Hiway Stabilizers, provided there is no departure from the main purpose of the Prize.
