Applicable study:	STRCTENG 710
Closing date:	By nomination
Tenure:	
For:	Prize
Number on offer:	One
Offer rate:	Annually
Value:	\$3,000

Description

The SCNZ Structural Steel Prize was established in 2009 by Steel Construction New Zealand Inc.

The main purpose of the Prize is to encourage excellence in the design and specification of steel structures.

Selection process

- Nomination is made to the Scholarships Office
- The Prize will be awarded by the University of Auckland Council upon the recommendation of the Head of the Department of Civil and Environmental Engineering (or nominee)

Regulations

1. The Prize will be known as the SCNZ Structural Steel Prize.
2. One Prize will be awarded annually and will be of the value of \$3,000.
3. The Prize will be awarded annually to the full-time student who achieved the highest marks in the structural steel module for STRCTENG 710 Low Rise Structures Design or an equivalent course. As a minimum standard, the student must have achieved at least an A- grade for the course.
4. The Prize will be awarded by the University of Auckland Council on the recommendation of the Head of the Department of Civil and Environmental Engineering (or nominee).
5. In the event of a tie, the Head of the Department of Civil and Environmental Engineering (or nominee) shall determine, in consultation with Steel Construction New Zealand Inc., if the Prize may be shared.
6. The University of Auckland Council is not obliged to make an award if it is determined there is no candidate that meets the criteria and/or no candidate of sufficient merit.
7. The University of Auckland Council can amend or vary these regulations provided that there is no departure from the main purpose of the Prize.
