Dr Jo Smith (smith.joanna@auckland.ac.nz)

Bias in Aotearoa's education systems has been well-documented. The research group's goal is to move beyond documenting bias to examining efforts that disrupt bias on different levels of the system. The aim is to provide empirical, rigorous evidence of successes as well as identifying barriers to success of such efforts. Applicants for this scholarship will undertake a PhD thesis that aligns with the long-term goals of the research group. The scholarship might be aligned with projects aimed at reducing bias through the intersection of policy and practice and/or leadership and professional development, and/or teacher-student relationships. Proposed studies can be conducted within or outside of formal education settings in Aotearoa New Zealand or overseas.
