Semester Two 2025 15 points	EDPROFST 790B - Research-Dissertation (15 points) - <i>taught in a cohort</i>

### Enrolment Information

Prior to enrolment in a Research-Dissertation you must complete a Research Methods Course.

Your supervisor is either your cohort supervisor or one chosen from your area of research interest. You will need to apply for Research Approval through the Post-graduate Research Approvals and Examinations sub-committee. (This is not Ethics approval - that process is completed with your cohort supervisor). This process will be completed in class:

The steps you need to take are as follows:

- Decide on a research topic and describe this for yourself, once you have a description
- Look for those with a similar interest area and review the list of potential supervisors on the **Supervisor Register**
- Send emails to potential supervisors in the Faculty along with your description of the research you would like to engage in
- Once you have found a supervisor and are both happy with your proposal, please **submit your research proposal online**.

It will then be tabled at the following meeting of the Postgraduate Research Approvals and Examinations sub-committee. For further information, please see **Guide to Theses and Dissertations**.

For further assistance and advice, please email [studentinfo@auckland.ac.nz](mailto:studentinfo@auckland.ac.nz) or visit one of our **Student Hubs**. You can also access a range of information about the University of Auckland online at **AskAuckland**.
