	EDPROF 759 - Investigating Mentoring Practice (30 points)	EDUC 767 - Childhood Studies (30 points
		EDUC 787 - Researching Māori Education (30 points)

Enrolment Information

Prior to enrolment in a Research-Dissertation you must complete a Research Methods Course.

Your supervisor is either your cohort supervisor or one chosen from your area of research interest. You will need to apply for Research Approval through the Post-graduate Research Approvals and Examinations sub-committee. (This is not Ethics approval - that process is completed with your cohort supervisor). This process will be completed in class:

The steps you need to take are as follows:

- Decide on a research topic and describe this for yourself, once you have a description
- Look for those with a similar interest area and review the list of potential supervisors on the **Supervisor Register**
- Send emails to potential supervisors in the Faculty along with your description of the research you would like to engage in
- Once you have found a supervisor and are both happy with your proposal, please **submit your research proposal online**.

It will then be tabled at the following meeting of the Postgraduate Research Approvals and Examinations sub-committee. For further information, please see **Guide to Theses and Dissertations**.

For further assistance and advice, please email **studentinfo@auckland.ac.nz** or visit one of our **Student Hubs**. You can also access a range of information about the University of Auckland online at **AskAuckland**.
