

## SciTrack Test Log-in

You will need to reset your 'Test' Single Sign On password to access the SciTrack Test Environment.

- **Please note, this will not reset your usual University SSO password.**

There are two ways you can reset the password.

### **Option 1**

- 1) Click on the Test Link: <https://scitrack.test.auckland.ac.nz>
- 2) Click the Reset Password link:

- 3) Follow the instructions and choose to send the verification number to your phone. **The email option will not work.** If you don't have a phone number configured, please use Option 2 below.

### **Option 2**

Call the SSC on 86000 and ask to get your **Test** SSO password reset.

Please make sure to remember your password!

### **Troubleshooting**

If you get to a screen that says 'unknown user', please email [scitrack@auckland.ac.nz](mailto:scitrack@auckland.ac.nz) and we can provide you with access.
