Are you clear on your career?

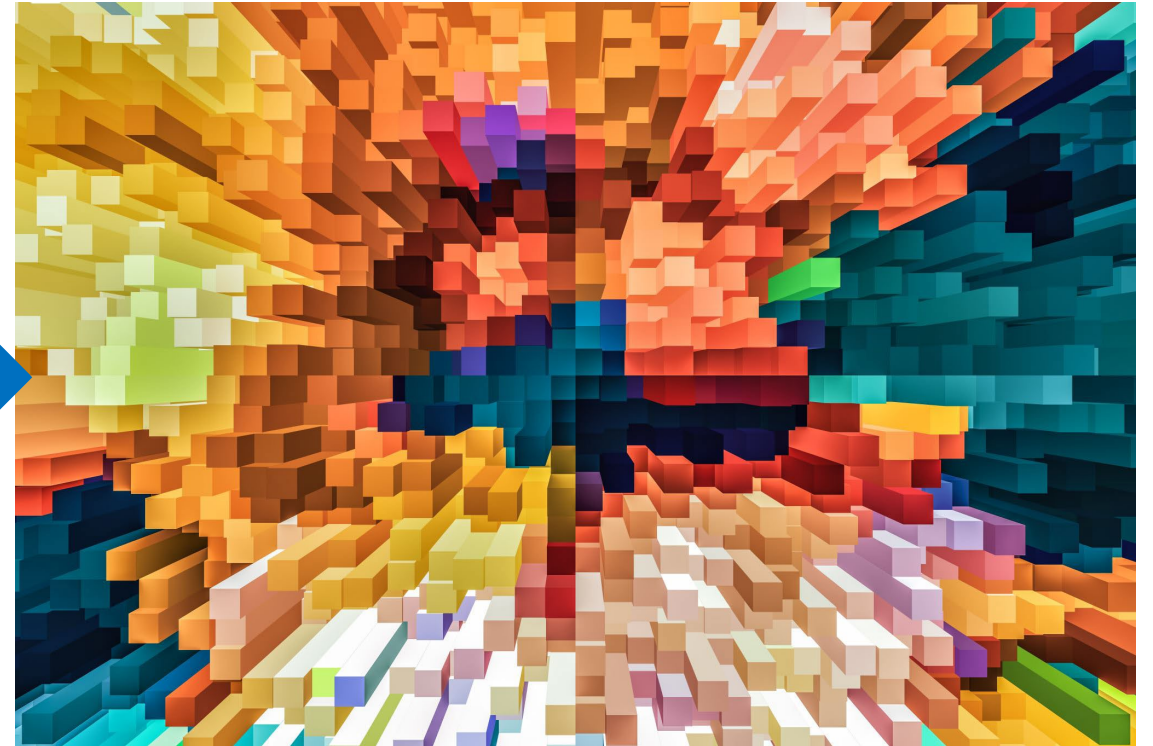

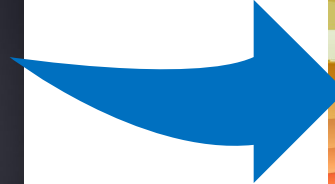

Don't do this to yourself

1. Don't just focus on your studies and nothing else.
2. Don't wait until your final semester to start thinking about jobs.
3. Don't think that online applications are the best way to get a job in New Zealand.
4. Don't think that you can't build your network in New Zealand because you are not from here.
5. Don't think that you need a clear career plan to get started.
