

2022 MARGARET AND JOHN KALMAN CHARITABLE TRUST MATHEMATICS TEACHING PRIZE
GUIDELINES FOR NOMINATIONS

The Margaret and John Kalman Charitable Trust is generously donating \$10,000 to recognise achievements of primary and intermediate school teachers in the area of Mathematics and Statistics in the Auckland region. John Kalman was a professor of Mathematics at the University of Auckland from 1964 to 1993, and a leading promoter of Mathematics in New Zealand.

THE PRIZE

The Prize consists of four awards of \$2,500 and a commemorative certificate which will be presented to the winning teachers at an end of year school event. In addition, the teachers and a group of their students will be invited to visit the University of Auckland. Two awards will be to primary teachers and two awards will be to intermediate teachers.

ELIGIBILITY

Applications are invited from any primary or intermediate school teacher in the Auckland region. Groups of teachers who have collaborated on a specific project may also submit a joint application. Any primary or intermediate teacher at a school located in the Auckland Council region is deemed eligible for this prize.

JUDGING The judging panel will include a representative from the Margaret and John Kalman Charitable Trust and a representative of the Executive of the Auckland Mathematical Association as well as the Head of the Department of Mathematics.

SELECTION CRITERIA

Any examples of excellence in the teaching of Mathematics and Statistics at primary or intermediate levels will be considered. Examples from the following categories will be particularly welcomed.

Stimulation of Interest – teachers who have inspired student interest in mathematics by making the subject exciting and relevant.

Teaching Innovation – teachers who have introduced new ways of making mathematical concepts more fun to learn and more able to be understood.

Teaching Excellence – teachers who have demonstrated the integration of research in mathematics or statistics education into their classroom practice.

Early Career Teaching Excellence – teachers who have demonstrated excellence in their teaching of Mathematics and/or Statistics during their first five years of their career.

Equity – teachers who have made a significant contribution to the teaching and learning of mathematics in under- represented groups such as Maori, Pacific Island and female students.

Service – teachers who have made a significant contribution to the teaching and learning of mathematics and statistics in ways that extend beyond their own school community.

OTHER CONDITIONS

Prize recipients will be encouraged to participate in professional development events run by the Auckland Mathematical Association and the Primary Mathematics Association in order to share their ideas with local Mathematics/Statistics associations nationwide.
