Health-Related Requirements

Required Health Insurance

In fall 2014, all University of Texas System schools adopted new insurance regulations. Please read about these requirements here: http://www.uta.edu/oie/?page=forms&form=HealthInsuranceWaiver.

All international students (including exchange students) are required to purchase the UT System International Student Insurance. Students may submit a waiver request, but very few students will qualify for an insurance waiver. Students should plan to purchase the UT System insurance. They can pay the cost of the insurance in installments after they arrive in Arlington and have registered for classes. Our office will provide the cost for this insurance in student acceptance packets.

Tuberculosis Testing

All international students are required to have a TB screening. Read more about TB testing requirements here:

http://www.uta.edu/healthservices/international%20students/health-reqs.php

Meningitis Vaccination

All new students under the age of 22 are required to have a meningitis vaccination. The vaccination must be done at least 10 days before the start of the semester. More information about this requirement is available online here:

http://www.uta.edu/healthservices/international%20students/health-reqs.php.

Note: Students are responsible for the costs of the TB screening and meningitis vaccination.
